Spanish and Portuguese

Alvin F. Sherman, Jr., Chair
3190 JFSB, (801) 422-2837

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

Admission to Degree Program

All degree programs in the Department of Spanish and Portuguese are open enrollment. However, special limitations apply for teaching and translation majors.

The Discipline

The Spanish and Portuguese romance languages and literatures dominate the Iberian Peninsula, major parts of Africa, and the southern portion of the new world from Mexico to the Magellan Straits. These languages, spoken by over 450 million people in twenty-one countries, provide a wide spectrum of cultural, linguistic, and literary variety. Spanish and Portuguese represent vibrant literature that stands at the forefront of twentieth-century excellence and innovation, a linguist's paradise of dialects, rapid change, and development.

Such breadth—plus some 35 million speakers within the borders of the United States itself—gives multiple opportunities for developing skill in the spoken language, as well as in listening, reading, writing, and translation. Studying the Iberian roots of this large and important part of the population and learning about the people's perception of life also brings greater understanding of their values and their struggle for identity. A Spanish or Portuguese major makes for a demanding, intriguing, and pleasurable experience.

Career Opportunities

The field of teaching has always provided good employment opportunities for Spanish majors. In addition, opportunities for both Spanish and Portuguese have been found in government service (translation, U.S. State Department, CIA, FBI, Border Patrol, Peace Corps, NSA, USIA), business, social work, airlines, banking, etc. Many majors go on to professional schools (law, medicine, dentistry, business, etc.), where a liberal arts background is advised. For employment in fields other than teaching, a strong minor or a second major in the employment area is strongly encouraged. Teaching majors are required to complete a teaching minor.

General Information

The Department of Spanish and Portuguese strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BA in Portuguese
BA in Spanish
BA in Spanish Teaching
BA in Spanish Translation

Minors

Portuguese
Spanish
Spanish Teaching

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Portuguese
MA in Spanish
MA in Language Acquisition (Spanish and Portuguese)

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Spanish Resource Center

164 University Parkway Center, (801) 378-8107
E-mail: sp-rescenter@email.byu.edu

The Ministry of Education and Culture of Spain, in connection with the Department of Spanish and Portuguese and the Center for the Improvement of Teacher Education and Schooling (CITES), operates the Spanish Resource Center (Centro de Recursos). The purpose of the center is to provide an ample supply of books, computer programs, and didactic materials, both printed and audiovisual, related to the teaching of Spanish language and literature. Researchers, professors, students, educational institutions, coordinators, administrators, and in general all those who may be interested in the knowledge and promotion of Spanish are welcome. To increase the prestige of the Spanish language academically as well as socially, the Spanish Resource Center

- sponsors workshops, seminars, and work groups on topics related to teaching Spanish and researching linguistics and literature;
- organizes conferences, film series, recitals, and cultural activities in general that relate to the Spanish language and culture; and
- promotes and participates in all initiatives that are deemed appropriate and that favor acquisition and use of the Spanish language by students at different educational levels.

Foreign Language Student Residence

The Foreign Language Student Residence provides live-in opportunities for students in Spanish and Portuguese. A twenty-four-hour-a-day Spanish or Portuguese rule assures participants intensive use of the language, under the direction of native speakers. See the department secretary at 3190 JFSB for information.

Language Skills Development

A program to improve and monitor all language skills at each level of course work has been developed by the department, and a final oral proficiency examination is required of all graduating seniors. Writing skills in Spanish or Portuguese courses will advance from writing exercises and short messages in 100-level courses to original short themes in 200-level classes. Papers in the language at the 300-level and more extensive research and vocabulary and full control of structures at the 400-level will complete the program.

Minor, Double Major, or Approved Supporting Course Work Required for Spanish or Portuguese Majors

All Spanish and Portuguese majors are required to complete either a minor (from any department in the university), 15 hours of approved supporting course work, or a double major.

Nonteaching majors who do not wish to complete a formal minor may substitute at least 15 hours of courses from among the following related fields: a second modern foreign language (upper-division courses only), Latin, Greek, English (beyond the GE requirement), linguistics, classical civilization, Latin American history or geography, Spanish/Portuguese history or geography, humanities, archaeology of Spain/Portugal or Latin America, comparative literature, or other areas approved by the department chair.

Nonteaching and nontranslation majors also may meet their minor requirement by completing 15 additional hours consisting of elective Spanish/Portuguese courses or (strongly recommended) a combination of Spanish/Portuguese electives and interdisciplinary work. In all cases these courses must form a coherent program and *must be preapproved* by the department chair.

A double major is an acceptable alternative to a minor.

Foreign Residency

The department strongly recommends that all majors participate in an extended (at least two continuous months) and intensive language and culture experience in a Spanish- or Portuguese-speaking country or area.

A student should complete this requirement by:

1. Residency abroad (may include a Spanish or Portuguese LDS mission, attendance at a foreign university, an advanced exchange program, or similar intensive foreign residence).
2. Participating in BYU Study Abroad Programs in Spain, Portugal, or Latin America.
3. Participating in individual or group-arranged internship programs abroad as approved by the department.

Students unable to participate in one of these programs must spend at least one year (two semesters) in the Foreign Language Student Residence, pledging to use only Spanish or Portuguese within the residence. Prerequisite to this experience is Span 205 or Port 201 or its equivalent; any exceptions must be approved by the department. For further information contact the department secretary or the Foreign Language Student Residence Office, 3086 JFSB, (801) 422-3765.

BA in Portuguese (48–69 hours minimum*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. At least 15 hours of upper-division major credit must be taken in residence at BYU.
2. Meet the foreign residency requirement.
3. Complete a minor (approximately 16–21 hours), second major (approximately 30–60 hours), or supporting course work (15 hours).

   Note: Latin American Studies or Spanish Studies minors: Port 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Portuguese major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Portuguese major and one of these area studies minors must take an additional 6–9 hours chosen from the approved electives for either major or minor. Consult the department and the advisement center for clarification of the choices available to you.

4. Complete the following prerequisite courses:

   PORT 101 : First-Year Portuguese. (4:5:1)
   DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.
   NOTE: Native speakers of Portuguese must enroll in Port 321.

   PORT 102 : First-Year Portuguese. (4:5:1)
   DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.
   NOTE: Native speakers of Portuguese must enroll in Port 321.

   PORT 201 : Third-Semester Portuguese. (4:5:0)
   PREREQUISITE: Port 102 or three units of high school Portuguese.
   DESCRIPTION: Second-year grammar, reading, writing, and conversation.
   NOTE: Native speakers of Portuguese must take Port 321.

   PORT 211R : First-Semester Conversation. (2:2:1)
   PREREQUISITE: Port 102 or equivalent.
   RECOMMENDED: Concurrent enrollment in Port 201.

   And complete one course from the following:

   PORT 202 : Fourth-Semester Portuguese: Reading and Comprehension. (4:5.0:0)
   PREREQUISITE: Port 201.
   DESCRIPTION: Fourth-semester class introducing grammar and culture through study of literature.
   NOTE: Not for returned missionaries. Culmination of GE Mathematics/Foreign Language requirement. Native speakers of Portuguese must take Port 321.

   PORT 315 : Intermediate Portuguese Grammar, Reading, and Culture. (3:3:0)
   DESCRIPTION: Introduction of culture, literature, and grammatical concerns through reading short stories, novels, and drama in Portuguese.
   NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement. Will count for minor but not for major. Native speakers should take Port 321.

Note 1: Students with foreign residence experience should take Port 315.

Note 2: Prerequisite courses may be waived for those having sufficient proficiency with the language.

5. Complete the following:

PORT 321 : Third-Year Portuguese Grammar and Composition. (3:3:0)
PREREQUISITE: Port 202 or 315, plus 16 hours of Portuguese or the equivalent.

PORT 322 : Third-Year Portuguese Grammar and Composition. (3:3:0)
PREREQUISITE: Port 202 or 315, plus 16 hours of Portuguese or the equivalent.

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Readings in modern literature; formal literary analysis.

PORT 441 : Survey of Portuguese Literature. (3:3:0)
PREREQUISITE: Port 339 or equivalent.
DESCRIPTION: Literary periods, genres, and great writers of Portugal.

PORT 451 : Survey of Brazilian Literature. (3:3:0)
PREREQUISITE: Port 339 or equivalent.
DESCRIPTION: Literary periods, genres, and great writers of Brazil.

6. Complete one course from the following:

PORT 345 : Portuguese Civilization. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

PORT 355 : Brazilian Civilization. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

7. Complete 12 hours from the following:

PORT 326 : Portuguese Phonetics and Pronunciation. (3:3:3)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Underlying concepts of Portuguese speech production and applications to pronunciation.

PORT 329 : Survey of Luso-Brazilian Linguistics. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Introduction to linguistics of Portuguese: phonetics, phonology, morphology, syntax, semantics, history of the Portuguese language, philology, dialectology, sociolinguistics, and psycholinguistics.

PORT 345 : Portuguese Civilization. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

PORT 355 : Brazilian Civilization. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

PORT 395R : Contemporary Culture. (.5-3:0:0)
PREREQUISITE: Port 201 or equivalent.
DESCRIPTION: Contemporary Portuguese or Brazilian culture: the people and their customs and institutions.
NOTE: For Study Abroad programs only.

PORT 439R : Luso-Brazilian Theatre Production. (3:3:0)
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

PORT 442 : Cameos. (3:3:0)
PREREQUISITE: Port 441 or equivalent.

PORT 449R : Special Topics in Portuguese Literature. (3:3:0)
PREREQUISITE: Port 441, 451, or equivalent.
DESCRIPTION: Specific topics in Portuguese (Peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Portuguese literature.

PORT 452 : Machado de Assis. (3:3:0)
PREREQUISITE: Port 451 or equivalent.

PORT 453 : Twentieth-Century Brazilian Literature. (3:3:0)
PREREQUISITE: Port 441, 451, or equivalent.

PORT 459R : Special Topics in Brazilian Literature. (3:3:0)
PREREQUISITE: Port 441, 451, or equivalent.
DESCRIPTION: Specific topics in Portuguese (Brazilian) literature. Course content will vary each semester to offer optimum exposure to all areas of Brazilian literature.

PORT 461R : African Literature in Portuguese. (3:3:0)
PREREQUISITE: Port 339 or equivalent.
DESCRIPTION: Modern authors from the five African nations whose official language is Portuguese: Angola, Cabo Verde, Guine Bissau, Mozambique, and the two-island republic Sao Tome and Pricipe. Authors include Jose Craveirinha, Mia Couto, Noemia de Sousa, Jose Tenreiro, Castro Soromenho, Luandino Vieira, Pepetala, and Baltasar Lopes, among others.

PORT 462R : Literature of the Lusophone World. (3:3:0)
PREREQUISITE: Port 339 or equivalent.
DESCRIPTION: Authors from the eight nations whose official language is Portuguese, plus former colonies and present regions of important Portuguese influence. These include Luso-American and Azorean writers, as well as authors from East Timor (formerly Indonesia), Goa (India), and Macau (China).

PORT 480R : Directed Research in Portuguese. (.5-3:ARR:0)
PREREQUISITE: Written proposal subject to department approval.
DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.
NOTE: Total Port 480R credit toward bachelor's degree not to exceed 3 hours.

PORT 490 : Senior Seminar in Portuguese. (.5-3:0:0)
PREREQUISITE: Senior standing.
DESCRIPTION: Bibliography, research, and writing of senior thesis.
NOTE: Recommended for students planning graduate studies in Portuguese.

PORT 520 : Advanced Portuguese Grammar. (3:3:0)
DESCRIPTION: Applying contemporary grammatical concepts to problems in Portuguese grammar.

PORT 521 : Romance Philology. (3:3:0)
DESCRIPTION: Comparative study of evolution of Latin into modern romance languages.

PORT 522 : History of the Portuguese Language. (3:3:0)
DESCRIPTION: Linguistic sources that contributed to formation of Portuguese.

PORT 529R : Special Topics in Portuguese Linguistics. (3:3:0)
PREREQUISITE: Port 321.
DESCRIPTION: Topics from semantics to dialectology to sociolinguistics.

*Hours include courses that may fulfill university core requirements.

BA in Spanish (51–85 hours minimum*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. At least 18 hours of upper-division major credit must be taken in residence at BYU.
2. Meet the foreign language residency requirement.
3. Complete a minor (approximately 16–21 hours), second major (approximately 30–60 hours), or supporting course work (15 hours).

   Note: Latin American Studies or Spanish Studies minors: Span 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Spanish major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Spanish major and one of these area studies minors must take an additional 6–9 hours chosen from the approved electives for either major or minor. Consult the department and the advisement center for clarification of the choices available to you.

4. Complete the following prerequisite courses (28 hours):

   SPAN 101 : Foundational Spanish 1. (4:5:2)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Fundamentals of Spanish, emphasizing communication. (Acceletated sections available.) Pass/fail only.
   NOTE: For students with no previous Spanish.

   SPAN 102 : Foundational Spanish 2. (4:5:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Span 101.
   DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

   SPAN 105 : University Spanish 1. (4:5:1)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: two years of high school Spanish, Span 101/102, or placement by diagnostic test.
   DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

   SPAN 106 : University Spanish 2. (4:5:1)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Span 105.
   DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

   SPAN 111R : Spanish Conversation 1. (2:2.5:1)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Two years of high school Spanish, or Span 101/102, or equivalent.
   RECOMMENDED: Concurrent enrollment in Span 105.
   DESCRIPTION: Development of conversation skills in Spanish.

   SPAN 112R : Spanish Conversation 2. (2:2.5:1)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Three years of high school Spanish, or Span 105, or equivalent.
   RECOMMENDED: Concurrent enrollment in Span 106.

DESCRIPTION: Continued development of conversation skills in Spanish.

SPAN 205 : University Spanish 3. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Four years of high school Spanish; or Span 106 or equivalent; or placement by diagnostic test.
DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.
NOTE: Fulfills the University Core Languages of Learning requirement.

SPAN 206 : University Spanish 4. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 205.
DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

Note 1: Students with foreign residence experience usually begin with Span 321.

Note 2: Prerequisite courses may be waived for those having sufficient proficiency with the language.

5. Complete the following (18 hours):

SPAN 321 : Third-Year Spanish Reading, Grammar, Culture, and Composition 1. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 206 or equivalent.
DESCRIPTION: First semester of a two-semester sequence. Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

SPAN 322 : Third-Year Spanish Reading, Grammar, Culture, and Composition 2. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 321 or equivalent.
DESCRIPTION: Second semester of a two-semester sequence. Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: Some sections have readings and writing assignments focusing on the professions. Required for Spanish major and minor.

SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)
PREREQUISITE: Span 321 or equivalent.
DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

SPAN 441 : Survey of Spanish Literature. (3:3:0)
PREREQUISITE: Span 339.
DESCRIPTION: Literary masterpieces of Spain.
NOTE: Independent Study also.

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)
PREREQUISITE: Span 339.
DESCRIPTION: Literary masterpieces of Spanish America.

6. Complete one course from the following (3 hours):

SPAN 345 : Iberian Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

SPAN 355 : Ibero-American Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

7. Complete 15 hours from the following:

Radebaugh, Lee H.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Professor
DEGREES: BS, Brigham Young University, 1968
BS, Brigham Young University, 1968
MBA, Indiana University, Bloomington, 1972
DBA, Indiana University, Bloomington, 1973

Randall, Boyd C.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Professor
DEGREES: BS, University of Utah, 1965
JD, University of Utah, 1967
MBA, University of Utah, 1968
PhD, University of Minnesota, 1972

Spilker, Brian C.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Professor
DEGREES: BS, Brigham Young University, 1987
MAcc, Brigham Young University, 1987
PhD, University of Texas, Austin, 1993

Stewart, Dave N.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Professor
DEGREES: BA, Brigham Young University, 1977
MAcc, Brigham Young University, 1977
PhD, University of Florida, 1980

Stice, Earl K.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Professor
DEGREES: BS, Brigham Young University, 1981
MAcc, Brigham Young University, 1982
MS, Cornell University, 1986
PhD, Cornell University, 1988

Stice, James D.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Professor
DEGREES: BS, Brigham Young University, 1984
MAcc, Brigham Young University, 1984
PhD, University of Washington, 1988

Complete at least one linguistics course from the following:

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)
PREREQUISITE: Span 202, 302, or equivalents.
DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

SPAN 421 : Fourth-Year Grammar. (3:3:0)
OFFERED: F, W
PREREQUISITE: Span 321, 322.
DESCRIPTION: Fourth-year study of Spanish grammar and usage.

SPAN 423 : Border Spanish. (3:3:0)
PREREQUISITE: Span 321 or equivalent.
DESCRIPTION: Mexican-American speech patterns, including language contact and bilingualism.
NOTE: Previous course in linguistics strongly recommended.

SPAN 425 : Contrastive Analysis of the Structures of Spanish and English. (3:3:0)
PREREQUISITE: Span 321.
DESCRIPTION: Contrastive analysis of phonology, morphology, syntax, and semantics of Spanish and English.

SPAN 429R : Special Topics in Spanish Linguistics. (3:3:0)
PREREQUISITE: Span 326 or 329.
DESCRIPTION: Course content varies yearly; focuses on specific area of linguistics such as dialectology or sociolinguistics.

: Bilingualism.
: Dialectology.
: Language Planning.
: Semantics.
: Sociolinguistics.
: Syntax.

SPAN 520 : Problems in Spanish Grammar. (3:3:0)
DESCRIPTION: Application of contemporary grammatical concepts to problems in Spanish grammar.

SPAN 521 : Romance Philology. (3:3:0)
DESCRIPTION: Comparative study of the evolution of Latin into modern Romance languages.

SPAN 522 : History of the Spanish Language. (3:3:0)
DESCRIPTION: Linguistic sources that contributed to formation of the Spanish language.

SPAN 529R : Special Topics in Spanish Linguistics. (3:3:0)
PREREQUISITE: Span 520, 522.
DESCRIPTION: Topics include semantics, dialectology, and sociolinguistics.

Complete at least one literature course from the following:

SPAN 440 : Medieval Spanish Literature. (3:3:0)
PREREQUISITE: Span 441 or equivalent.
DESCRIPTION: Spanish literature from *El Cantar de Mio Cid* (1140) through *La Celestina* (1499).

SPAN 443R : Golden Age Literature. (3:3:0)
PREREQUISITE: Span 441 or equivalent.
DESCRIPTION: Sixteenth- and seventeenth-century Spanish literature.

SPAN 444 : *Don Quijote*. (3:3:0)
PREREQUISITE: Span 441 or equivalent.
DESCRIPTION: In-depth study of Cervantes' *El ingenioso hidalgo don Quijote de la Mancha*.

SPAN 446R : Nineteenth-Century Literature. (3:3:0)
PREREQUISITE: Span 441 or equivalent.
DESCRIPTION: Romanticism (1770s through 1870s) and/or the novels of Benito Perez Galdos and his contemporaries.

SPAN 448R : Twentieth-Century Spanish Literature. (3:3:0)
PREREQUISITE: Span 441 or equivalent.
DESCRIPTION: Genre (twentieth-century novel, drama, or poetry) or particular school (Generation of 1898,

Generation of 1927, etc.) emphasized.

SPAN 449R : Special Topics in Spanish Literature. (3:3:0)
PREREQUISITE: Span 441 or equivalent.
DESCRIPTION: Specific topics in Spanish (peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Spanish literature.

SPAN 450R : Early Spanish-American Literature. (3:3:0)
PREREQUISITE: Span 451 or equivalent.
DESCRIPTION: Indigenous literature (Maya, Nahuatl, etc.) and other texts written in Spanish Colonial America through eighteenth century.

: Colonial Literature.
: Pre-Columbian Literature.

SPAN 454R : The Spanish American Novel. (3:3:0)
PREREQUISITE: Span 451 or equivalent.
DESCRIPTION: Selected Spanish-American novelists such as Juan Rulfo, Gabriel Garcia Marquez, Alejo Carpentier, Mario Vargas-Llosa, etc.

SPAN 455R : Spanish American Poetry. (3:3:0)
PREREQUISITE: Span 451 or equivalent.
DESCRIPTION: Selected Spanish-American poets, movements, and national traditions.

SPAN 456R : Spanish American Drama. (3:3:0)
PREREQUISITE: Span 451 or equivalent.
DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

SPAN 458R : Hispanic-American Short Story. (3:3:0)
PREREQUISITE: Span 451 or equivalent.
DESCRIPTION: Introduction and development of an important literary genre in Spanish America, including works of Jorge Luis Borges, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, etc.

SPAN 459R : Special Topics in Spanish American Literature. (3:3:0)
PREREQUISITE: Span 451 or equivalent.
DESCRIPTION: Specific topics in Latin American literature. Course content will vary each semester to offer optimum exposure to all areas of Latin American literature.

SPAN 461 : Spanish-Speaking American (Mexican-American) Literature. (3:3:0)
PREREQUISITE: Span 339 or instructor's consent.
DESCRIPTION: Spanish-English literature of the Mexican-American within the United States.

Complete three additional courses (9 hours) from the linguistics or literature electives above or from the following (Span 345 and 355 will not double-count):

SPAN 345 : Iberian Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

SPAN 355 : Ibero-American Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

PREREQUISITE: Span 101.
DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

SPAN 105 : University Spanish 1. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: two years of high school Spanish, Span 101/102, or placement by diagnostic test.
DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

SPAN 106 : University Spanish 2. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 105.
DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

SPAN 111R : Spanish Conversation 1. (2:2.5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Two years of high school Spanish, or Span 101/102, or equivalent.
RECOMMENDED: Concurrent enrollment in Span 105.
DESCRIPTION: Development of conversation skills in Spanish.

SPAN 112R : Spanish Conversation 2. (2:2.5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Three years of high school Spanish, or Span 105, or equivalent.
RECOMMENDED: Concurrent enrollment in Span 106.
DESCRIPTION: Continued development of conversation skills in Spanish.

SPAN 205 : University Spanish 3. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Four years of high school Spanish; or Span 106 or equivalent; or placement by diagnostic test.
DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.
NOTE: Fulfills the University Core Languages of Learning requirement.

SPAN 206 : University Spanish 4. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 205.
DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

Note 1: Students with foreign residence experience usually begin with Span 321.

Note 2: Prerequisite courses may be waived for those having sufficient proficiency with the language.

5. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, Culture, and Composition 1. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 206 or equivalent.
DESCRIPTION: First semester of a two-semester sequence. Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

SPAN 322 : Third-Year Spanish Reading, Grammar, Culture, and Composition 2. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 321 or equivalent.
DESCRIPTION: Second semester of a two-semester sequence. Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: Some sections have readings and writing assignments focusing on the professions. Required for Spanish major and minor.

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)
PREREQUISITE: Span 202, 302, or equivalents.
DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

SPAN 345 : Iberian Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

SPAN 355 : Ibero-American Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

SPAN 377 : Spanish Teaching Methods 1. (3:3:2)
PREREQUISITE: Span 321, 326; 345 or 355; ScEd 276R; fingerprinting and FBI clearance for Spanish teaching majors and minors.
DESCRIPTION: History of language teaching methods; standards-based unit and lesson planning; strategies for teaching speaking, listening, reading, writing, grammar, and vocabulary.

SPAN 378 : Spanish Teaching Methods 2. (3:3:2)
PREREQUISITE: Span 377.
DESCRIPTION: Strategies for teaching culture; use of instructional media and technology; assessment of learner performance; foreign language program models; planning for continuing professional development.

SPAN 380 : Practicum in Teaching Spanish. (1:0:3)
PREREQUISITE: ScEd 276R:: Span 377: concurrent enrollment in Span 378: Spanish teaching major status.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in Spanish; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SPAN 441 : Survey of Spanish Literature. (3:3:0)
PREREQUISITE: Span 339.
DESCRIPTION: Literary masterpieces of Spain.
NOTE: Independent Study also.

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)
PREREQUISITE: Span 339.
DESCRIPTION: Literary masterpieces of Spanish America.

Note 1: Fingerprinting and FBI clearance must be completed prior to enrolling in Span 380.

Note 2: Span 377 and 378 must be taken before student teaching.

6. Complete 6 hours from the following courses:
SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)
PREREQUISITE: Span 321 or equivalent.
DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

SPAN 205 : University Spanish 3. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Four years of high school Spanish; or Span 106 or equivalent; or placement by diagnostic test.
DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.
NOTE: Fulfills the University Core Languages of Learning requirement.

SPAN 206 : University Spanish 4. (4:5:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 205.
DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

Note 1: Students with foreign residence experience usually begin with Span 321.

Note 2: These prerequisite courses may be waived for those having sufficient proficiency with the language.

Note 3: Students wishing to major in Spanish translation and interpretation must apply for admission to the program and pass an entrance exam in Spanish and English. Contact the department secretary the first week of February each year to obtain the official date and place of exam.

Note 4: Latin American Studies or Spanish Studies minors: Span 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Spanish translation major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Spanish major and one of these area studies minors must take an additional 6-9 hours chosen from the approved electives for either major or minor. Consult the department and the advisement center for clarification of the choices available.

5. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, Culture, and Composition 1. (3:3:0)

Program Requirements

1. Complete the following prerequisite courses (or equivalent experience):

SPAN 101 : Foundational Spanish 1. (4:5:2)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Fundamentals of Spanish, emphasizing communication. (Acceletated sections available.) Pass/fail only.
- NOTE: For students with no previous Spanish.

SPAN 102 : Foundational Spanish 2. (4:5:2)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Span 101.
- DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

SPAN 105 : University Spanish 1. (4:5:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: two years of high school Spanish, Span 101/102, or placement by diagnostic test.
- DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

SPAN 106 : University Spanish 2. (4:5:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Span 105.
- DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

SPAN 205 : University Spanish 3. (4:5:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Four years of high school Spanish; or Span 106 or equivalent; or placement by diagnostic test.
- DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.
- NOTE: Fulfills the University Core Languages of Learning requirement.

SPAN 206 : University Spanish 4. (4:5:1)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Span 205.
- DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

2. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, Culture, and Composition 1. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Span 206 or equivalent.
- DESCRIPTION: First semester of a two-semester sequence. Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
- NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of

Learning requirement. Required for Spanish major and minor.

SPAN 322 : Third-Year Spanish Reading, Grammar, Culture, and Composition 2. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Span 321 or equivalent.
DESCRIPTION: Second semester of a two-semester sequence. Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: Some sections have readings and writing assignments focusing on the professions. Required for Spanish major and minor.

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)
PREREQUISITE: Span 202, 302, or equivalents.
DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

SPAN 377 : Spanish Teaching Methods 1. (3:3:2)
PREREQUISITE: Span 321, 326; 345 or 355; ScEd 276R; fingerprinting and FBI clearance for Spanish teaching majors and minors.
DESCRIPTION: History of language teaching methods; standards-based unit and lesson planning; strategies for teaching speaking, listening, reading, writing, grammar, and vocabulary.

Statistics

Del T. Scott, Chair
230 TMCB, (801) 422-4505

College of Physical and Mathematical Sciences Advisement Center
N-179 ESC, (801) 422-6270
1112 TMCB, (801) 422-4214

Admission to Degree Program

All degree programs in the Department of Statistics are open enrollment.

The Discipline

Statisticians help determine the sampling and data collection methods, monitor the execution of the study and the processing of data, and advise on the strengths and limitations of the results. They must understand the nature of uncertainties and be able to draw conclusions in the context of particular statistical applications.

An actuary is a business professional who analyzes the financial consequences of risk. Actuaries use statistics, mathematics, and financial theory to study uncertain future events, especially those of concern to insurance and pension programs. They evaluate the likelihood of those events, design creative ways to reduce the likelihood and decrease the impact of adverse events that actually do occur. Their work requires a combination of strong analytical skills, business knowledge and understanding of human behavior to design and manage programs that control risk.

Career Opportunities

The curriculum and degrees offered through the Department of Statistics are designed to equip students with decision-making skills for careers as professional statisticians in industrial organizations, government agencies, insurance companies, pharmaceutical companies, universities, and research institutes. The technical tools statisticians acquire are useful in many areas, and for this reason a statistics degree is also excellent preparation for professional programs in business administration, medicine, law, and public administration.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Actuarial Science
BS in Statistics
Emphases:
Statistical Science
Biostatistics
Applied Statistics and Analytics
Quality Science

BS-MS in an Integrated Master's Program

Minors

Actuarial Science
Statistics

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Statistics

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Charles, Shannon

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Assistant Professor
DEGREES: BS, Western Oregon State College, 1989
MBA, Oregon State University, 1995
PhD, Oklahoma State University, 2000

Heninger, William G.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1989
MAcc, Brigham Young University, 1989
PhD, University of Georgia, 1997

Johnson, Peter M.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Assistant Professor
DEGREES: BA, Southern Utah University, 1991
MS, Southern Utah University, 1992
PhD, Arizona State University, 2003

Paik, Gyung H.

COLLEGE: Marriott School of Management
DEPARTMENT: School of Accountancy
RANK: Assistant Professor
DEGREES: BA, Seoul National University, Korea, 1986
MA, Brigham Young University, 1988
MBA, University of Utah, 1995
PhD, University of Illinois, Urbana, 2001

1. It is recommended that a student complete the following courses in high school:
   3 units of English.
   1 unit of physical science, either chemistry or physics.
   4 units of mathematics, consisting of 2.5 units of algebra, 1 unit of geometry, and 0.5 unit of trigonometry. This should qualify students to begin college mathematics with Math 112, analytic geometry and calculus.
   Because mathematics provides the foundation for all work in the physical and mathematical sciences, particular attention is paid to high school preparation in this subject.

   To decide which mathematics course should be taken first, write to the Mathematics Department, 292 TMCB, and request a mathematics placement test.

2. Students are encouraged to complete 15 credit hours each semester. Taking fewer credits substantially increases the cost and the number of semesters to graduate.

3. An integrated BS/MS program is available. This program allows Statistics students in the Statistical Science and Biostatistics emphases to receive their bachelor's and master's degree in five years of schooling. It is available to students who have completed Stat 336 and GE requirements. Interested students must complete a department application by February 1 for admission Fall semester.

Program Requirements | View MAP

1. No more than three hours of D credit is allowed in major courses.

2. Complete the following preparation core courses:

   MATH 112 : Calculus 1. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 and 111 or equivalent.
   - DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
   - NOTE: Honors also.

   MATH 113 : Calculus 2. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 112 or equivalent.
   - DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
   - NOTE: Honors also.

3. Complete one course from the following:

   STAT 221 : Principles of Statistics. (3:3:2)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 or equivalent.
   - DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   - NOTE: Honors and Independent Study also.

   STAT 321 : Elements of Mathematical Statistics. (3:3:2)
   - OFFERED: F, Su
   - PREREQUISITE: Math 113 or 119 or equivalent.
   - DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

   STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
   - OFFERED: W
   - PREREQUISITE: Math 113.
   - DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

   STAT 332 : Quality Improvement for Industry. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Math 112 or 119.
   - DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

   Note: Students who have passed the AP statistics exam or an introductory statistics course should not take Stat 221.

4. Complete the following statistics core courses:

   STAT 291 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)

OFFERED: F, W, Sp, Su
PREREQUISITE: Stat 221.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using active learning strategies, and evaluating student performance.

STAT 292 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Stat 291.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using learning activities, and evaluating student performance.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 337 : Statistical Methods 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 336.
DESCRIPTION: Single-factor analysis of variance; multifactor analysis of variance; analysis of factor-level means; diagnostics; analysis of covariance; basic study design; random effects.

5. Complete the following:

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

STAT 470 : Statistical Theory for Actuaries. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214.
DESCRIPTION: Probability theory; discrete, continuous, mixture random variables; loss distributions; moment-generating functions; conditional probability, expectation; total probability; stochastic independence; transformations. Prepares for Exam P.

STAT 474 : Life Contingencies 1. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 470 or concurrent enrollment.
DESCRIPTION: Theory of interest, annuities, amortization, life tables, life annuities. Prepares for Exam FM.

STAT 475 : Life Contingencies 2. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 474.
DESCRIPTION: Contingent annuities, joint annuities, insurance, calculating premiums and reserves. Prepares for Exam M.

6. Complete 18 credit hours from the following:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

ACC 210 : Principles of Accounting 2. (3:3:0)
PREREQUISITE: Acc 200.
DESCRIPTION: Additional issues in financial and managerial accounting. Review of issues related to balance sheet accounts, performance evaluation and capital budgeting.

NOTE: For Marriott School of Management students only.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

ECON 382 : Intermediate Price Theory 2. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 380.
DESCRIPTION: Welfare theory, imperfect information, imperfect competition, uncertainty, externalities, and public goods.

ECON 388 : Introduction to Econometrics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Mathematical and statistical techniques used in estimating, predicting, and testing hypotheses associated with quantifiable economic relationships.

ECON 450 : Financial Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.
DESCRIPTION: Theory of financial economics, emphasizing capital markets, investment decisions, choice, capital asset pricing model, futures and options markets, efficient markets, and capital structures.

ECON 588 : Econometrics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory and practice of formulating, estimating, and analyzing economic models.

STAT 124 : SAS Certification 1. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 221 or equivalent with instructor's consent.
DESCRIPTION: SAS basic programming certification.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 324 : SAS Certification 2. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 224.
DESCRIPTION: Advanced SAS programming certification.

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
OFFERED: W

PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 334 : Methods of Survey Sampling. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 221 or equivalent.
DESCRIPTION: Sampling frames, questionnaire design; simple random, systematic, stratified, and cluster sampling methods, comparing domain means, contingency table analysis.

STAT 424 : Statistical Computing 2. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 324.
DESCRIPTION: S Plus, statistical graphics, simulation, advanced SAS (macros, Proc IML, and Proc SQL), and database programming.

STAT 431 : Experimental Design. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511.
DESCRIPTION: Basic designs, power and sample size, Latin squares, incomplete blocks, change-over designs, factorials, fractional factorials, confounding, split-plots, response surface designs.

STAT 434 : Advanced Sampling. (3:3:2)
OFFERED: F even years
PREREQUISITE: Stat 334; 421 or 441 or 470 or departmental consent.
DESCRIPTION: Estimation in systematic, simple random, stratified, cluster, and PPS sampling and mixtures of these; ratio estimation, sample size determination and principles of sample allocation.

STAT 435 : Nonparametric Statistical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511 or equivalent.
DESCRIPTION: Permutation tests, rank-based methods, analysis of contingency tables, bootstrap methods, curve fitting.

STAT 442 : Statistical Theory 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 441.
DESCRIPTION: Sufficiency and completeness; point and interval estimation; hypothesis testing; Cramer-Rao inequality; some asymptotic results; Bayesian methods.

STAT 462 : Quality Control and Industrial Statistics. (3:3:2)
OFFERED: F odd years
PREREQUISITE: Stat 332 or 336.
RECOMMENDED: Stat 337.
DESCRIPTION: Six sigma; tools with which to define, measure, analyze, improve, control. Advanced concepts in control charts, applying experimental design for process and product improvement.

STAT 466 : Introduction to Reliability. (3:3:2)
OFFERED: W
PREREQUISITE: Stat 332 or 361; 321 or 421 or 441.
DESCRIPTION: Mathematics, distributions, management, and maintenance of basic reliability concepts; collection and analysis of test data; fault tree analysis; applying reliability in various areas.

STAT 469 : Applied Time Series and Forecasting. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 336.
DESCRIPTION: Data mining, univariate ARIMA time series theory and application, seasonal models, spatial correlation models, conditional heteroscedastic models in financial time series, case studies.

STAT 496R : Academic Internship: Statistics. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department coordinator's consent.
DESCRIPTION: On-the-job experience or internships for undergraduates. Report is required.

STAT 497R : Introduction to Statistical Research. (.5-3:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's consent.

DESCRIPTION: Review of current literature and survey of present status of significant statistical research; collaborative work between student and faculty.

STAT 545 : Stochastic Processes. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or 470 or equivalent.
DESCRIPTION: Conditional expectation and probabilities; Markov chains; solutions using time-reversible chains; modeling using hidden Markov chains; exponential waiting times; Poisson processes; Brownian motion with approximations.

STAT 566 : Exploratory Multivariate Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 337 or 512 or instructor's consent.
DESCRIPTION: Exploratory data analysis; multivariate visualization; dynamic graphics; inference for mean vectors; multivariate regression; principal component analysis; cluster analysis; classification analysis; multi-dimensional scaling; correspondence analysis; bi-plots.

Recommended Courses

It is recommended that students take Acc 200, Bus M 300, Econ 380, 381, and either Stat 469, Econ 388, or Econ 588.

*Hours include courses that may fulfill university core requirements.

   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 and 111 or equivalent.
   - DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
   - NOTE: Honors also.

   MATH 113 : Calculus 2. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 112 or equivalent.
   - DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
   - NOTE: Honors also.

3. Complete one course from the following:

   STAT 221 : Principles of Statistics. (3:3:2)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 or equivalent.
   - DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   - NOTE: Honors and Independent Study also.

   STAT 321 : Elements of Mathematical Statistics. (3:3:2)
   - OFFERED: F, Su
   - PREREQUISITE: Math 113 or 119 or equivalent.
   - DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

   STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
   - OFFERED: W
   - PREREQUISITE: Math 113.
   - DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

   STAT 332 : Quality Improvement for Industry. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Math 112 or 119.
   - DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

   Note: Students who have passed the AP statistics exam or an introductory statistics course should not take Stat 221.

4. Complete the following statistics core courses:

   STAT 291 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)

Aerospace Studies (Air Force ROTC)

Colonel Gordon J. Jacobs, Chair
380 ROTC, (801) 422-2671

Admission to Degree Program

Students must be accepted by the department into the program.

The Discipline

The Air Force Reserve Officer Training Corps (AFROTC) is an educational program designed to provide students the opportunity to become Air Force officers while completing requirements for an undergraduate or graduate degree. Four-year and three-year programs are available for both men and women.

Career Opportunities

Officer in the United States Air Force.

General Information

Textbooks, Uniforms, and Allowance. All textbooks, uniforms, and uniform accessories are furnished by the Air Force, in addition to the tax-free allowance of $450 to $500 per month furnished to those in the Professional Officer Course (POC) program.

Air Force ROTC Scholarship Program. Full tuition assistance is available to students in the three-year or four-year program based on merit. By law, scholarship recipients must be under age thirty-one as of December 31 of the calendar year during which commissioning is scheduled. The scholarship includes tuition, fees, textbook allowance, and $300 per month for freshmen, $350 per month for sophomores, $400 per month for juniors, and $500 per month for seniors. Contact the department for application procedures.

Foreign Language Express Scholarships. In order to meet critical Air Force officer accession goals, the Air Force is now offering Foreign Language Express Scholarships. The program is currently open to students who will graduate before August 2011 who are majoring in or have an emphasis in one of twenty-three critically needed languages. Please contact the department for more details.

Field Training. All cadets wishing to enter the Professional Office Corps (last two years) must attend a field training camp during the summer prior to their junior year. This training gives an increased understanding of the Air Force mission and operation. Students receive practical experience in leadership and management while residing on an Air Force base. At field training students receive career orientation, junior officer training, aircraft and aircrew indoctrination, survival skills, physical training, and weapons experience and learn about the function of an Air Force base.

Medical care, housing, food, and uniforms, as well as transportation to and from the training base, are provided. Approximately $500 in pay is received for four-week training and $625 for six-week training.

Extracurricular Activities. Each Air Force ROTC student will be able to participate in a variety of extracurricular activities, including the Arnold Air Society, the color guard, and the honor guard. Selected cadets may also participate in summer programs such as the career-field shadow program or airborne training (parachute jump school).

LDS Missions. Students who desire to serve a Church mission should do so between their freshman and sophomore years. This will facilitate entrance into the advanced course. Scholarship students may have their scholarship held while they fulfill a mission as long as they do so before entering the advanced program.

Fifth-Year Cadets. Four-year program students in Air Force ROTC who are in a five-year university program are allowed a year of completed status after their senior AFROTC courses. Out-of-phase students and those who will be student teaching should consult with the department chair.

Discipline. Disciplinary training in the cadet corps is formulated and administered by the student officers. Air Force ROTC students are civilians and are not subject to military law.

Veterans. A veteran seeking a commission through Air Force ROTC may have part or all of the freshman and sophomore program waived. Allowances are paid in addition to G.I. Bill benefits.

OFFERED: F, W, Sp, Su
PREREQUISITE: Stat 221.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using active learning strategies, and evaluating student performance.

STAT 292 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Stat 291.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using learning activities, and evaluating student performance.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 337 : Statistical Methods 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 336.
DESCRIPTION: Single-factor analysis of variance; multifactor analysis of variance; analysis of factor-level means; diagnostics; analysis of covariance; basic study design; random effects.

5. Complete the following:

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

STAT 441 : Statistical Theory 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 214.
DESCRIPTION: Axiomatic probability theory for discrete and continuous random variables; moment-generating functions; conditional probability; stochastic independence; transformations; limiting distributions; stochastic convergence; central limit theorem.

STAT 442 : Statistical Theory 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 441.
DESCRIPTION: Sufficiency and completeness; point and interval estimation; hypothesis testing; Cramer-Rao inequality; some asymptotic results; Bayesian methods.

6. Complete a minor offered by the College of Life Sciences, or equivalent departmentally approved course work (approximately 14-18 hours).

7. Complete 12 credit hours from the following:

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

HLTH 345 : Principles of Epidemiology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Stat 221.
DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

STAT 124 : SAS Certification 1. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 221 or equivalent with instructor's consent.
DESCRIPTION: SAS basic programming certification.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 324 : SAS Certification 2. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 224.
DESCRIPTION: Advanced SAS programming certification.

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 334 : Methods of Survey Sampling. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 221 or equivalent.
DESCRIPTION: Sampling frames, questionnaire design; simple random, systematic, stratified, and cluster sampling methods, comparing domain means, contingency table analysis.

STAT 424 : Statistical Computing 2. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 324.
DESCRIPTION: S Plus, statistical graphics, simulation, advanced SAS (macros, Proc IML, and Proc SQL), and database programming.

STAT 431 : Experimental Design. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511.
DESCRIPTION: Basic designs, power and sample size, Latin squares, incomplete blocks, change-over designs, factorials, fractional factorials, confounding, split-plots, response surface designs.

STAT 434 : Advanced Sampling. (3:3:2)
OFFERED: F even years
PREREQUISITE: Stat 334; 421 or 441 or 470 or departmental consent.
DESCRIPTION: Estimation in systematic, simple random, stratified, cluster, and PPS sampling and mixtures of these; ratio estimation, sample size determination and principles of sample allocation.

STAT 435 : Nonparametric Statistical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511 or equivalent.
DESCRIPTION: Permutation tests, rank-based methods, analysis of contingency tables, bootstrap methods, curve fitting.

STAT 466 : Introduction to Reliability. (3:3:2)
OFFERED: W
PREREQUISITE: Stat 332 or 361; 321 or 421 or 441.
DESCRIPTION: Mathematics, distributions, management, and maintenance of basic reliability concepts; collection and analysis of test data; fault tree analysis; applying reliability in various areas.

STAT 469 : Applied Time Series and Forecasting. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 336.
DESCRIPTION: Data mining, univariate ARIMA time series theory and application, seasonal models, spatial correlation models, conditional heteroscedastic models in financial time series, case studies.

STAT 496R : Academic Internship: Statistics. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department coordinator's consent.
DESCRIPTION: On-the-job experience or internships for undergraduates. Report is required.

STAT 497R : Introduction to Statistical Research. (.5-3:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's consent.

DESCRIPTION: Review of current literature and survey of present status of significant statistical research; collaborative work between student and faculty.

STAT 535 : Applied Linear Models. (3:3:0)
OFFERED: F
PREREQUISITE: Departmental consent.
DESCRIPTION: Analysis of full-rank model, over-parameterized model, cell-means model, unequal subclass frequencies, and missing and fused cells. Estimability issues, diagnostics.

STAT 536 : Modern Regression Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 535, 624; or departmental consent.
DESCRIPTION: Weighted least squares, measurement error models, robust regression, nonlinear regression, local regression, generalized additive models, tree-structured regression.

STAT 538 : Survival Analysis. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or equivalent.
DESCRIPTION: Basic concepts of survival analysis; hazard functions; types of censoring; Kaplan-Meier estimates; Logrank tests; proportional hazard models; examples drawn from clinical and epidemiological literature.

STAT 545 : Stochastic Processes. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or 470 or equivalent.
DESCRIPTION: Conditional expectation and probabilities; Markov chains; solutions using time-reversible chains; modeling using hidden Markov chains; exponential waiting times; Poisson processes; Brownian motion with approximations.

STAT 566 : Exploratory Multivariate Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 337 or 512 or instructor's consent.
DESCRIPTION: Exploratory data analysis; multivariate visualization; dynamic graphics; inference for mean vectors; multivariate regression; principal component analysis; cluster analysis; classification analysis; multi-dimensional scaling; correspondence analysis; bi-plots.

Recommended Courses

It is recommended that students take Stat 224, 431. Students planning graduate studies should also take Math 315, 316. (See Mathematics section for prerequisites.)

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. No more than three hours of D credit is allowed in major courses.

2. Complete the following preparation core courses:

   MATH 112 : Calculus 1. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 and 111 or equivalent.
   - DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
   - NOTE: Honors also.

   MATH 113 : Calculus 2. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 112 or equivalent.
   - DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
   - NOTE: Honors also.

3. Complete one course from the following:

   STAT 221 : Principles of Statistics. (3:3:2)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 or equivalent.
   - DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   - NOTE: Honors and Independent Study also.

   STAT 321 : Elements of Mathematical Statistics. (3:3:2)
   - OFFERED: F, Su
   - PREREQUISITE: Math 113 or 119 or equivalent.
   - DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

   STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
   - OFFERED: W
   - PREREQUISITE: Math 113.
   - DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

   STAT 332 : Quality Improvement for Industry. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Math 112 or 119.
   - DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

   Note: Students who have passed the AP statistics exam or an introductory statistics course should not take Stat 221.

4. Complete the following statistics core courses:

   STAT 291 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)

OFFERED: F, W, Sp, Su
PREREQUISITE: Stat 221.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using active learning strategies, and evaluating student performance.

STAT 292 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Stat 291.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using learning activities, and evaluating student performance.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 337 : Statistical Methods 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 336.
DESCRIPTION: Single-factor analysis of variance; multifactor analysis of variance; analysis of factor-level means; diagnostics; analysis of covariance; basic study design; random effects.

5. Complete the following:

STAT 124 : SAS Certification 1. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 221 or equivalent with instructor's consent.
DESCRIPTION: SAS basic programming certification.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

STAT 421 : Introduction to Probability and Statistical Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113 or equivalent; Stat 336.
DESCRIPTION: Probability; random variables; probability models; methods of estimation; sampling distribution and the Central Limit Theorem; Neyman-Pearson hypothesis testing.

STAT 431 : Experimental Design. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511.
DESCRIPTION: Basic designs, power and sample size, Latin squares, incomplete blocks, change-over designs, factorials, fractional factorials, confounding, split-plots, response surface designs.

STAT 462 : Quality Control and Industrial Statistics. (3:3:2)
OFFERED: F odd years
PREREQUISITE: Stat 332 or 336.
RECOMMENDED: Stat 337.
DESCRIPTION: Six sigma; tools with which to define, measure, analyze, improve, control. Advanced concepts in control charts, applying experimental design for process and product improvement.

STAT 466 : Introduction to Reliability. (3:3:2)
OFFERED: W
PREREQUISITE: Stat 332 or 361; 321 or 421 or 441.
DESCRIPTION: Mathematics, distributions, management, and maintenance of basic reliability concepts; collection and analysis of test data; fault tree analysis; applying reliability in various areas.

6. Complete two courses from the following:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

7. Complete one of the following minors or equivalent departmentally approved course work (approximately 14-21 hours):
   Food Science (16 hours)
   Political Science (21 hours)

*Hours include courses that may fulfill university core requirements.

   - PREREQUISITE: Math 113 or 119 or equivalent.
   - DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

   STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
   - OFFERED: W
   - PREREQUISITE: Math 113.
   - DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

   STAT 332 : Quality Improvement for Industry. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Math 112 or 119.
   - DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

   Note: Students who have passed the AP statistics exam or an introductory statistics course should not take Stat 221.

4. Complete the following statistics core courses:

   STAT 291 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)

OFFERED: F, W, Sp, Su
PREREQUISITE: Stat 221.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using active learning strategies, and evaluating student performance.

STAT 292 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Stat 291.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using learning activities, and evaluating student performance.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 337 : Statistical Methods 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 336.
DESCRIPTION: Single-factor analysis of variance; multifactor analysis of variance; analysis of factor-level means; diagnostics; analysis of covariance; basic study design; random effects.

5. Complete the following:

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

STAT 441 : Statistical Theory 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 214.
DESCRIPTION: Axiomatic probability theory for discrete and continuous random variables; moment-generating functions; conditional probability; stochastic independence; transformations; limiting distributions; stochastic convergence; central limit theorem.

STAT 442 : Statistical Theory 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 441.
DESCRIPTION: Sufficiency and completeness; point and interval estimation; hypothesis testing; Cramer-Rao inequality; some asymptotic results; Bayesian methods.

6. Complete 24 credit hours from the following, with at least 15 from the statistics list:

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

MATH 315 : Theory of Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 113, 190, 343.
DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 316 : Theory of Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 315.
DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 480 : Mathematical Models. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 214, 334, 343, 410.
DESCRIPTION: Construction, solution, and interpretation of discrete and continuous models applied to problems in the physical, natural, and social sciences.

STAT 124 : SAS Certification 1. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 221 or equivalent with instructor's consent.
DESCRIPTION: SAS basic programming certification.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 324 : SAS Certification 2. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 224.
DESCRIPTION: Advanced SAS programming certification.

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 334 : Methods of Survey Sampling. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 221 or equivalent.
DESCRIPTION: Sampling frames, questionnaire design; simple random, systematic, stratified, and cluster sampling methods, comparing domain means, contingency table analysis.

STAT 424 : Statistical Computing 2. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 324.
DESCRIPTION: S Plus, statistical graphics, simulation, advanced SAS (macros, Proc IML, and Proc SQL), and database programming.

STAT 431 : Experimental Design. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511.
DESCRIPTION: Basic designs, power and sample size, Latin squares, incomplete blocks, change-over designs, factorials, fractional factorials, confounding, split-plots, response surface designs.

STAT 434 : Advanced Sampling. (3:3:2)
OFFERED: F even years
PREREQUISITE: Stat 334; 421 or 441 or 470 or departmental consent.
DESCRIPTION: Estimation in systematic, simple random, stratified, cluster, and PPS sampling and mixtures of these; ratio estimation, sample size determination and principles of sample allocation.

STAT 435 : Nonparametric Statistical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511 or equivalent.
DESCRIPTION: Permutation tests, rank-based methods, analysis of contingency tables, bootstrap methods, curve fitting.

STAT 462 : Quality Control and Industrial Statistics. (3:3:2)
OFFERED: F odd years
PREREQUISITE: Stat 332 or 336.

RECOMMENDED: Stat 337.
DESCRIPTION: Six sigma; tools with which to define, measure, analyze, improve, control. Advanced concepts in control charts, applying experimental design for process and product improvement.

STAT 466 : Introduction to Reliability. (3:3:2)
OFFERED: W
PREREQUISITE: Stat 332 or 361; 321 or 421 or 441.
DESCRIPTION: Mathematics, distributions, management, and maintenance of basic reliability concepts; collection and analysis of test data; fault tree analysis; applying reliability in various areas.

STAT 469 : Applied Time Series and Forecasting. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 336.
DESCRIPTION: Data mining, univariate ARIMA time series theory and application, seasonal models, spatial correlation models, conditional heteroscedastic models in financial time series, case studies.

STAT 496R : Academic Internship: Statistics. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department coordinator's consent.
DESCRIPTION: On-the-job experience or internships for undergraduates. Report is required.

STAT 497R : Introduction to Statistical Research. (.5-3:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's consent.
DESCRIPTION: Review of current literature and survey of present status of significant statistical research; collaborative work between student and faculty.

STAT 535 : Applied Linear Models. (3:3:0)
OFFERED: F
PREREQUISITE: Departmental consent.
DESCRIPTION: Analysis of full-rank model, over-parameterized model, cell-means model, unequal subclass frequencies, and missing and fused cells. Estimability issues, diagnostics.

STAT 536 : Modern Regression Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 535, 624; or departmental consent.
DESCRIPTION: Weighted least squares, measurement error models, robust regression, nonlinear regression, local regression, generalized additive models, tree-structured regression.

STAT 538 : Survival Analysis. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or equivalent.
DESCRIPTION: Basic concepts of survival analysis; hazard functions; types of censoring; Kaplan-Meier estimates; Logrank tests; proportional hazard models; examples drawn from clinical and epidemiological literature.

STAT 545 : Stochastic Processes. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or 470 or equivalent.
DESCRIPTION: Conditional expectation and probabilities; Markov chains; solutions using time-reversible chains; modeling using hidden Markov chains; exponential waiting times; Poisson processes; Brownian motion with approximations.

STAT 566 : Exploratory Multivariate Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 337 or 512 or instructor's consent.
DESCRIPTION: Exploratory data analysis; multivariate visualization; dynamic graphics; inference for mean vectors; multivariate regression; principal component analysis; cluster analysis; classification analysis; multi-dimensional scaling; correspondence analysis; bi-plots.

Recommended Courses

It is recommended that students take Stat 224, 424, 431, 435, 469. Students planning graduate studies should also take Math 315, 316. (See Mathematics section for prerequisites.)

*Hours include courses that may fulfill university core requirements.

Program Requirements

Four-Year Program

The more popular and preferred program is the traditional Four- Year Program. Interested freshmen register for aerospace studies in the fall semester, enrolling in aerospace studies courses in the same manner as for other college courses. There is *no military obligation* for the first two years of Air Force ROTC unless on an Air Force ROTC scholarship. During this time students learn more about the Air Force and the historical development of air power. After completing the first two years, known as the General Military Course (GMC), students may *compete* for entry into the last two years, the Professional Officer Course (POC). If accepted, students will attend a four-week summer field training encampment between their sophomore and junior years before entering the POC. Cadets in the POC study leadership, management, and national defense policy while receiving a nontaxable subsistence allowance of $450 for juniors and $500 for seniors each month.

Three-Year Program

Students entering the program as sophomores can "dual enroll" in both the Aeros 100 and 200 academics simultaneously. These students only enroll in the 200-series labs. If accepted, students will attend a four-week field training the next summer.

Qualifications

1. Be a United States citizen.
2. Be a full-time student.
3. Be eighteen years of age, or seventeen years of age with parent's or legal guardian's consent.
4. Be physically qualified.
5. Be of good moral character.
6. Be in good academic standing.
7. Successfully pass the Air Force Officer Qualifying Test.
8. Be interviewed and selected by a board of Air Force officers.
9. Complete all commissioning requirements as follows:
    a. Pilot or navigator candidate: Complete before age twenty-nine so as to enter undergraduate pilot/navigator training before age thirty.
    b. Scholarship recipient: Complete before age thirty-one in eligible year of commissioning.
    c. Nonscholarship recipient: Complete before age thirty-five.

Required Courses

1. General Military Courses: complete the following:
   Aeros 100, 101, 110, 111, 200, 201, 210, 211.
2. Professional Officer Courses: complete the following:
   Aeros 300, 301, 310, 311, 400R, 401R, 410, 411.

Minor in Actuarial Science (15 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. This minor is intended for mathematics majors. All other students should be aware of the prerequisites for this program:

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.
- DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
- NOTE: Honors also.

MATH 214 : Calculus of Several Variables. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 113; 343 or concurrent enrollment.
- DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 343 : Elementary Linear Algebra. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or 119.
- DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

2. Complete the following courses preparing for SOA Exams:

STAT 470 : Statistical Theory for Actuaries. (3:3:0)
- OFFERED: F
- PREREQUISITE: Math 214.
- DESCRIPTION: Probability theory; discrete, continuous, mixture random variables; loss distributions; moment-generating functions; conditional probability, expectation; total probability; stochastic independence; transformations. Prepares for Exam P.

STAT 474 : Life Contingencies 1. (3:3:0)
- OFFERED: F
- PREREQUISITE: Stat 470 or concurrent enrollment.
- DESCRIPTION: Theory of interest, annuities, amortization, life tables, life annuities. Prepares for Exam FM.

STAT 475 : Life Contingencies 2. (3:3:0)
- OFFERED: W
- PREREQUISITE: Stat 474.
- DESCRIPTION: Contingent annuities, joint annuities, insurance, calculating premiums and reserves. Prepares for Exam M.

3. Complete six credit hours from one of the following:

STAT 336 : Statistical Methods 1. (6:3:3)
- OFFERED: F, W
- PREREQUISITE: Stat 221, Math 113.

DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

as partial completion of Applied Statistics VEE.

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

to complete Business VEE.

ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

to complete Economics VEE.

STAT 124 : SAS Certification 1. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 221 or equivalent with instructor's consent.
DESCRIPTION: SAS basic programming certification.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 324 : SAS Certification 2. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 224.
DESCRIPTION: Advanced SAS programming certification.

STAT 424 : Statistical Computing 2. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 324.
DESCRIPTION: S Plus, statistical graphics, simulation, advanced SAS (macros, Proc IML, and Proc SQL), and database programming.

SAS Certification.

*Hours include courses that may fulfill university core requirements.

Minor in Statistics (18 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete one course from the following:

STAT 221 : Principles of Statistics. (3:3:2)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 or equivalent.
- DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
- NOTE: Honors and Independent Study also.

STAT 301 : Statistics and Probability for Secondary Educators. (3:3:2)
- OFFERED: F, Sp
- PREREQUISITE: Math 113.
- DESCRIPTION: Statistics and probability, emphasizing secondary-specific curriculum. Principles of counting, probability distributions, density functions, graphical methods, descriptive and inferential statistics, computer package.

STAT 321 : Elements of Mathematical Statistics. (3:3:2)
- OFFERED: F, Su
- PREREQUISITE: Math 113 or 119 or equivalent.
- DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
- OFFERED: W
- PREREQUISITE: Math 113.
- DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 332 : Quality Improvement for Industry. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Math 112 or 119.
- DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

Note: Students who have passed the AP statistics exam or an introductory statistics course should not take Stat 221.

2. Complete 15 additional credit hours from Stat 124, 224 and courses numbered 333 or higher (excluding Stat 470, 472, 474, 475, 510, 532).

*Hours include courses that may fulfill university core requirements.

Hide All Course Descriptions

Undergraduate Courses

100-Level Courses

STAT 105 : Introduction to Statistics. (3:3:2)
OFFERED: F, W, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Fundamental ideas and applications of statistics.

STAT 124 : SAS Certification 1. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 221 or equivalent with instructor's consent.
DESCRIPTION: SAS basic programming certification.

STAT 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's and cooperative education coordinator's consent
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

: Honors Principles of Statistics.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 291 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Stat 221.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using active learning strategies, and evaluating student performance.

STAT 292 : Teaching Elementary Statistics in a Laboratory Setting. (.5:0:2)
OFFERED: F, W, Sp
PREREQUISITE: Stat 291.
DESCRIPTION: Supervised training and experience in teaching statistical concepts, managing lab experiences, using learning activities, and evaluating student performance.

300-Level Courses

STAT 301 : Statistics and Probability for Secondary Educators. (3:3:2)
OFFERED: F, Sp
PREREQUISITE: Math 113.
DESCRIPTION: Statistics and probability, emphasizing secondary-specific curriculum. Principles of counting, probability distributions, density functions, graphical methods, descriptive and inferential statistics, computer package.

STAT 321 : Elements of Mathematical Statistics. (3:3:2)
OFFERED: F, Su
PREREQUISITE: Math 113 or 119 or equivalent.
DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

STAT 324 : SAS Certification 2. (1:1:1)
OFFERED: F 1st block; W 1st block.
PREREQUISITE: Stat 224.
DESCRIPTION: Advanced SAS programming certification.

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)

OFFERED: W
PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

STAT 333 : Utah Colleges Exit Poll Administration. (2:2:0)
OFFERED: F even years.
PREREQUISITE: Stat 334 or concurrent enrollment.
DESCRIPTION: Planning and executing KBYU / Utah Colleges Exit Poll.

STAT 334 : Methods of Survey Sampling. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 221 or equivalent.
DESCRIPTION: Sampling frames, questionnaire design; simple random, systematic, stratified, and cluster sampling methods, comparing domain means, contingency table analysis.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 337 : Statistical Methods 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 336.
DESCRIPTION: Single-factor analysis of variance; multifactor analysis of variance; analysis of factor-level means; diagnostics; analysis of covariance; basic study design; random effects.

400-Level Courses

STAT 421 : Introduction to Probability and Statistical Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113 or equivalent; Stat 336.
DESCRIPTION: Probability; random variables; probability models; methods of estimation; sampling distribution and the Central Limit Theorem; Neyman-Pearson hypothesis testing.

STAT 424 : Statistical Computing 2. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 324.
DESCRIPTION: S Plus, statistical graphics, simulation, advanced SAS (macros, Proc IML, and Proc SQL), and database programming.

STAT 431 : Experimental Design. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511.
DESCRIPTION: Basic designs, power and sample size, Latin squares, incomplete blocks, change-over designs, factorials, fractional factorials, confounding, split-plots, response surface designs.

STAT 433 : Utah Colleges Exit Poll Design. (2:2:0)
OFFERED: F even years
PREREQUISITE: Concurrent enrollment in Stat 434.
DESCRIPTION: Planning and executing KBYU / Utah Colleges Exit Poll.

STAT 434 : Advanced Sampling. (3:3:2)
OFFERED: F even years
PREREQUISITE: Stat 334; 421 or 441 or 470 or departmental consent.
DESCRIPTION: Estimation in systematic, simple random, stratified, cluster, and PPS sampling and mixtures of these; ratio estimation, sample size determination and principles of sample allocation.

STAT 435 : Nonparametric Statistical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 337 or 511 or equivalent.
DESCRIPTION: Permutation tests, rank-based methods, analysis of contingency tables, bootstrap methods, curve fitting.

STAT 441 : Statistical Theory 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 214.
DESCRIPTION: Axiomatic probability theory for discrete and continuous random variables; moment-generating functions; conditional probability; stochastic independence; transformations; limiting distributions; stochastic convergence; central limit theorem.

STAT 442 : Statistical Theory 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 441.
DESCRIPTION: Sufficiency and completeness; point and interval estimation; hypothesis testing; Cramer-Rao inequality; some asymptotic results; Bayesian methods.

STAT 462 : Quality Control and Industrial Statistics. (3:3:2)

OFFERED: F odd years
PREREQUISITE: Stat 332 or 336.
RECOMMENDED: Stat 337.
DESCRIPTION: Six sigma; tools with which to define, measure, analyze, improve, control. Advanced concepts in control charts, applying experimental design for process and product improvement.

STAT 466 : Introduction to Reliability. (3:3:2)
OFFERED: W
PREREQUISITE: Stat 332 or 361; 321 or 421 or 441.
DESCRIPTION: Mathematics, distributions, management, and maintenance of basic reliability concepts; collection and analysis of test data; fault tree analysis; applying reliability in various areas.

STAT 469 : Applied Time Series and Forecasting. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 336.
DESCRIPTION: Data mining, univariate ARIMA time series theory and application, seasonal models, spatial correlation models, conditional heteroscedastic models in financial time series, case studies.

STAT 470 : Statistical Theory for Actuaries. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214.
DESCRIPTION: Probability theory; discrete, continuous, mixture random variables; loss distributions; moment-generating functions; conditional probability, expectation; total probability; stochastic independence; transformations. Prepares for Exam P.

STAT 472 : Actuarial Problems. (1:2:0)
OFFERED: W
PREREQUISITE: Stat 470 or concurrent enrollment.
DESCRIPTION: Applying mathematical statistics in actuarial science. Prepares for Exam P.

STAT 474 : Life Contingencies 1. (3:3:0)
OFFERED: F
PREREQUISITE: Stat 470 or concurrent enrollment.
DESCRIPTION: Theory of interest, annuities, amortization, life tables, life annuities. Prepares for Exam FM.

STAT 475 : Life Contingencies 2. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 474.
DESCRIPTION: Contingent annuities, joint annuities, insurance, calculating premiums and reserves. Prepares for Exam M.

STAT 496R : Academic Internship: Statistics. (.5-9:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department coordinator's consent.
DESCRIPTION: On-the-job experience or internships for undergraduates. Report is required.

STAT 497R : Introduction to Statistical Research. (.5-3:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's consent.
DESCRIPTION: Review of current literature and survey of present status of significant statistical research; collaborative work between student and faculty.

STAT 499R : Honors Thesis. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: departmental consent.

500-Level Graduate Courses (available to advanced undergraduates)

STAT 510 : Introduction to Statistics for Graduate Students. (3:3:1)
OFFERED: W, Su
PREREQUISITE: Math 97 or equivalent.
RECOMMENDED: Math 110 or equivalent.
DESCRIPTION: Introductory statistics course for graduate students outside Statistics Department. Topics include probability, estimation, hypothesis tests, simple linear regression, analysis of variance.

STAT 511 : Statistical Methods for Research 1. (3:3:2)
OFFERED: F, Sp
PREREQUISITE: Stat 510 or equivalent.
DESCRIPTION: Basic statistical methodologies and experimental design. Topics include analysis of variance, multiple regression, analysis of covariance, common experimental designs.

STAT 512 : Statistical Methods for Research 2. (3:3:2)
OFFERED: W
PREREQUISITE: Stat 511.
DESCRIPTION: Advanced statistical methodologies. Topics include repeated measures models, basic multivariate techniques, logistic regression, log-linear models.

STAT 532 : Quality Improvement for Engineering. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 332, Math 113.
DESCRIPTION: Selected topics in statistical theory, analysis of variance, simple and multiple regression, response surface design and analysis, multilevel experimental designs, blocking designs, confounding.

STAT 535 : Applied Linear Models. (3:3:0)

OFFERED: F
PREREQUISITE: Departmental consent.
DESCRIPTION: Analysis of full-rank model, over-parameterized model, cell-means model, unequal subclass frequencies, and missing and fused cells. Estimability issues, diagnostics.

STAT 536 : Modern Regression Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 535, 624; or departmental consent.
DESCRIPTION: Weighted least squares, measurement error models, robust regression, nonlinear regression, local regression, generalized additive models, tree-structured regression.

STAT 537 : Generalized Linear Models. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 535, 642; or equivalents.
DESCRIPTION: Generalized linear models framework, binary data, polytomous data, log-linear models.

STAT 538 : Survival Analysis. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or equivalent.
DESCRIPTION: Basic concepts of survival analysis; hazard functions; types of censoring; Kaplan-Meier estimates; Logrank tests; proportional hazard models; examples drawn from clinical and epidemiological literature.

STAT 545 : Stochastic Processes. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 441 or 470 or equivalent.
DESCRIPTION: Conditional expectation and probabilities; Markov chains; solutions using time-reversible chains; modeling using hidden Markov chains; exponential waiting times; Poisson processes; Brownian motion with approximations.

STAT 566 : Exploratory Multivariate Methods. (3:3:0)
OFFERED: W
PREREQUISITE: Stat 337 or 512 or instructor's consent.
DESCRIPTION: Exploratory data analysis; multivariate visualization; dynamic graphics; inference for mean vectors; multivariate regression; principal component analysis; cluster analysis; classification analysis; multi-dimensional scaling; correspondence analysis; bi-plots.

STAT 590 : Statistical Consulting. (1-3:Arr:0)
OFFERED: W
PREREQUISITE: Departmental consent.
DESCRIPTION: Introduction to statistical consulting, oral presentations, presentation packages, written reports. Extensive applied experience in the Center for Collaborative Research and Statistical Consulting.

STAT 591R : Graduate Seminar in Statistics. (0:1:0)
OFFERED: F, W

STAT 595R : Special Topics in Statistics. (1-3:ARR:0)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.

: Biostatistical Methods.
: Expert Systems in Statistics.
: Quality Methods.
: Sampling Practicum.
: Statistical Computations.
: Theory of Risk.

STAT 599R : Academic Internship: Statistics. (1-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: departmental consent.
DESCRIPTION: On-the-job experience. Report required.

Statistics Faculty

Professors

Collings, Bruce Jay

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Statistics
RANK: Professor
DEGREES: BS, Brigham Young University, 1973
MS, Brigham Young University, 1975
MS, Brigham Young University, 1977
MS, University of North Carolina, Chapel Hill, 1980
PhD, University of North Carolina, Chapel Hill, 1981

Fellingham, Gilbert W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Statistics
RANK: Professor
DEGREES: BA, Occidental College, 1971
MS, Brigham Young University, 1977
MS, Brigham Young University, 1978
MS, University of Washington, 1988
PhD, University of Washington, 1990

Grimshaw, Scott D

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Statistics
RANK: Professor
DEGREES: BS, Southern Utah State College, 1983
MS, Texas A&M University, 1985
PhD, Texas A&M University, 1989

Lawson, John S

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Statistics
RANK: Professor
DEGREES: AA, Los Angeles Valley College, 1967
BS, Brigham Young University, 1969
MS, Brigham Young University, 1971
MS, Rutgers College, 1976
PhD, Polytechnic Institute of New York, 1984

Schaalje, G Bruce

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Statistics
RANK: Professor
DEGREES: AA, Ricks College, 1975
BS, Brigham Young University, 1977
MS, Brigham Young University, 1979
MS, University of Washington, 1981
PhD, North Carolina State University, 1988

Scott, Del T

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Statistics
RANK: Professor
DEGREES: BS, Brigham Young University, 1970
MS, Brigham Young University, 1973
PhD, Pennsylvania State University, 1977

Tolley, Harold Dennis

Undergraduate Courses

100-Level Courses

STDEV 100 : Essential College Skills. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Developing essential college skills. Aims of BYU, values and goals, sound thinking skills. Learning styles and adjustment to college courses. College requirements and planning.
NOTE: Independent Study also.

STDEV 110 : Effective Study and Learning. (2:2:0)
OFFERED: F, W, Sp Su
DESCRIPTION: Learning to learn: motivation, time management, reading, listening, notetaking, test preparation, and memorizing; cognitive and ethical development in a learning environment.

STDEV 115 : Life Planning and Decision Making. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Individual development in life planning and decision making, emphasizing personal maturity, goal setting, and decision making abilities in areas of common concern to young adults.

STDEV 117 : Career Exploration. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Applying theories of individual, academic, and career development to the university student. Exploring university opportunities and college majors; graduation planning.

STDEV 120 : Individual Development. (2:2:0)
OFFERED: F, W
DESCRIPTION: Applying theories of young adult development in a self-assessment approach to achieving individual development in the life challenges facing college students.

STDEV 132 : Introduction to Tutoring. (1:1:0)
OFFERED: F, W
DESCRIPTION: Developing college-level tutoring skills; academic success and the tutoring cycle. Leads to level-one tutoring certification of the College Reading and Learning Association.

STDEV 133 : Advanced Tutoring. (1:1:0)
OFFERED: F, W
PREREQUISITE: StDev 132.
DESCRIPTION: Developing advanced-level tutoring approaches and analytical thinking. Leads to level-two tutoring certification of the College Reading and Learning Association.

STDEV 139 : Introduction to Health Professions. (1:1:0)
OFFERED: F, W
DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

STDEV 158R : Leadership in a Learning Community. (.5-2:ARR:0)
OFFERED: F, W
DESCRIPTION: Community development and learning principles.

: Learning and Citizenship.
: Learning in Communities.
: Learning in Community: Arts.
: Learning in Community: Biology.
: Learning in Community: Civilization.
: Learning in Community: Humanities.
: Learning in Community: Leadership.
: Learning in Community: Mentors.
: Learning in Community: Science.
: Learning in Community: Social Science.
: Learning in Community: Teaching.
: Learning in Community: University Core.

STDEV 198R : Law Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Exploring legal professions. Primary focus on guest lectures from various practitioners.

STDEV 199R : Academic Internship. (.5-3:0:0)
OFFERED: F, W, Sp, Su

: Academic Internship: Legal Internship.

200-Level Courses

STDEV 214R : Special Topics in Student Development. (.5-3:1:0)
OFFERED: On demand

STDEV 227 : Preview of Optometry. (1:1:0)
OFFERED: F, W
DESCRIPTION: Preview of optometry with lectures by optometrists; overview of required courses; application process; recommended extracurricular opportunities.

STDEV 229 : Preview of Dentistry. (1:1:0)
OFFERED: F, W
DESCRIPTION: Preview of dentistry with lectures by dentists; overview of required courses; application process; recommended extracurricular opportunities.

STDEV 239 : Preview of Medicine. (1:1:0)
OFFERED: F, W
DESCRIPTION: Preview of medical practice with lectures by doctors; overview of required courses; application process; recommended extracurricular opportunities.

STDEV 258R : Prelaw Leadership. (1:1:0)
OFFERED: F, W
DESCRIPTION: Leadership skills and strategies for members of the PLSA Board. Successful planning, implementation, and execution of prelaw activities.

STDEV 260 : Constitutional Research. (1:1:0)
OFFERED: F, W
DESCRIPTION: The United States Constitution; research on original sources used to create the Constitution.

STDEV 270 : Advanced Reading Strategies for College Success. (1-2:Arr:Arr)
OFFERED: F, W
DESCRIPTION: Developing improved speed and comprehension skills through selection and practice of college reading strategies.

300-Level Courses

STDEV 317R : Career Strategies. (.5-2:ARR:0)
OFFERED: F, W
DESCRIPTION: Preparing for career or graduate school/employment opportunities. Practical strategies to facilitate internship, job, or graduate school preparation: resumes, letters, interviewing, and Internet research.

: Graduate School Strategies.

STDEV 329 : Dental School Preparation Laboratory Experience. (2:0:2)
OFFERED: F, W
DESCRIPTION: Dental laboratory practices; tooth terminology, morphology, and anatomy. Procedures including oral pathology, diagnosis, and X-rays.

STDEV 358R : Student Leadership Development. (.5-3:2:2)
OFFERED: F, W
PREREQUISITE: Instructor's consent.
DESCRIPTION: Analysis, synthesis, and integration of personal leadership experienced in an academic context. Successful leadership: decision making, communications, planning, team building, motivation, and interpersonal skills.

STDEV 364 : Mediation Techniques and Practices. (3:3:0)
OFFERED: F, W
DESCRIPTION: Mediation techniques emphasizing practical application and observation of actual mediations.

STDEV 365 : Legal Education and Practice. (2:2:0)
OFFERED: F, W
DESCRIPTION: Successful legal education and practice. Preparation for those planning to attend law school.

STDEV 398R : Prelaw Review Journal Writing. (2:2:0)
OFFERED: F, W
DESCRIPTION: Editing and publication for Pre-law Review authors and editors.

STDEV 399R : Health Professions Internship. (1-3:Arr:Arr)
OFFERED: F, W
DESCRIPTION: Internships with health care providers.

: Dental Internship.
: Medical Internship.

400-Level Courses

STDEV 439 : Medical and Dental School Application. (2:2:0)
OFFERED: F, W
DESCRIPTION: Preparation for medical and dental school applications; entire application process, including school identification and submission.

STDEV 490 : Bachelor of General Studies Capstone. (2:2:0)
OFFERED: Independent Study only.
PREREQUISITE: StDev 100; completion of all other BGS program requirements.

STDEV 496R : Advanced Legal Internship. (1-3:Arr:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Legal internship coordinator's consent.
DESCRIPTION: Legal research; courtroom observation; client and attorney interaction; and reflection exercises.

Teacher Education

M. Winston Egan, Chair
205 MCKB

David O. McKay School of Education Advisement and Certification Office
120 MCKB, (801) 422-3426

Admission to Degree Program

Admission to programs in the Teacher Education Department is by department approval. Please see the School of Education Advisement Center for specific details.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Early Childhood Education
BS in Elementary Education

Emphasis (optional):

Early Childhood Education

BS in Social Science (composite teaching major)

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Teacher Education

For more information see the BYU 2008–2009 Graduate Catalog.

Additional Endorsements/Licensures

Elementary Education with Teaching English Language Learners TESOL K–12 or Early Childhood Education with Teaching English Language Learners TESOL K–12.

See the Education Advisement and Certification Office for further information.

Elementary Music Education–Elementary Education Dual Licensure

See the College of Fine Arts and Communications Advisement Center (D-444 HFAC) for music programs and course listings and the Education Advisement and Certification Office for the education program.

UNDERGRADUATE CATALOG 2008 - 2009

Early Childhood Education

Admission to Degree Program

Students are accepted into the early childhood education (ECE) teacher preparation program by application only. The application review process includes but is not limited to the following:

1. Completion of the ECE exploratory experience. The instruction packet and logsheet is available online at http://education.byu.edu/ted/early_childhood.html.
2. Technology Skills Assessment (TSA).
3. Be fingerprinted. Check with Education Advisement and Certification Office (120 MCKB) for instructions.
4. If admitted, departmental approval is required for deferment from the four-semester professional sequence.

Admission to this program requires departmental approval. Please see the School of Education Advisement Center, 120 MCKB, for information regarding requirements for admission to this program.

Fingerprint and Background Check

All candidates for teacher licensure are required by state statute to be fingerprinted and pass an FBI background check before participating in required field experiences. Fingerprints are taken in the Education Advisement Center (EAC) in 120 MCKB. Contact the EAC for the schedule. Allow from five to six weeks for fingerprints to be processed. FBI background clearance is valid for only three years. If clearance expires before graduation, candidates must repeat the fingerprinting and clearance process, including a new fee payment.

Failing to expunge a police record prior to the background check may result in a blocked registration while a panel reviews the charges. Candidates who cannot pass an FBI background check will be removed from the teacher education licensure program.

Additional Licensing Requirements

It is the student's responsibility to be sure that the Praxis test has been taken and that BYU has received the test scores, that their fingerprint background clearance is current prior to graduation and that state licensing fees have been paid. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements contact the Education Advisement and Certification Center, 120 MCKB, (801) 422-3426. Graduation and Utah licensure cannot be processed until these requirements have been completed.

The Discipline

Early childhood education prepares teachers who, having gained their own liberal education, help preschool, kindergarten, and primary-grade children learn by improving the teaching children receive in the home, school, church, and community. Early childhood education helps students enhance their thinking abilities, build their confidence in exploring new ideas, and become self-motivated, independent learners.

In the program prospective teachers learn about the culture of young children, develop a solid foundation in basic principles of teaching and learning that originate in developmental theory and research, and become proficient in appropriately implementing those basic principles in practical settings.

Career Opportunities

A degree in early childhood education leads to licensure in kindergarten through grade three. See the advisement center for details.

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this program.

Program Requirements | View MAP

1. Make formal application for admission to the program through the Teacher Education Department (201 MCKB).
2. Students who receive a grade lower than C– in any of the professional or support courses, or whose GPA drops below 2.85, will be discontinued from the early childhood education program.
3. Complete the following preprofessional courses prior to or concurrent with application for admission to the program:

   SFL 210 : Human Development. (3:3:0)
   - OFFERED: F, W, Sp or Su
   - DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
   - NOTE: Independent Study also.

   SFL 221 : Foundations of Developmentally Appropriate Practices in Programs for Young Children. (2:2:0)
   - OFFERED: F, W, Su
   - PREREQUISITE: SFL 210.
   - DESCRIPTION: Historical, philosophical, organizational, and curricular issues related to developmentally appropriate practices in programs for young children.
   - NOTE: Due to enrollment constraints, SFL (MFHD) 221 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

   SFL 240 : Parenting and Child Guidance. (3:3:0)
   - OFFERED: F, W
   - DESCRIPTION: Theories and skills related to quality parent-child relationships.

   Note: It is highly recommended to take SFL 222 prior to admission.
4. Complete the ECE Exploratory Experience before applying for admission to the program.
5. Complete an application seminar (seminar schedule posted on the Education Advisement and Certification Office Web page and in 120 MCKB).
6. Complete the following:

   SFL 222 : Practicum in Developmentally Appropriate Practices. (2:0:12)
   - OFFERED: F, W, Su
   - PREREQUISITE: SFL (MFHD) 210, 221; 240 or concurrent enrollment.
   - DESCRIPTION: Initial practicum with young children to increase understanding of socialization and learning processes, to create meaningful learning opportunities, and to implement developmentally appropriate practices.
   - NOTE: Due to enrollment constraints, SFL (MFHD) 222 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

   SFL 351 : Socialization Across Childhood. (3:3:0)
   - OFFERED: F, W, Sp or Su
   - PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
   - DESCRIPTION: Processes and sequences of social development across childhood.

SFL 355 : Language Development. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Philosophical, social, intellectual, and emotional contexts of language acquisition and usage.

Note: SFL 222 must be taken before or concurrently with ECE 323.

7. Complete one course from the following:
SFL 331 : Infant Development in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Conception, prenatal development, pregnancy. Physical, cognitive, and social development of the first twenty-four months. Implications for guidance and care in the family.

SFL 352 : Cognitive Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Development of mental abilities; effects of maturation and learning on memory, perception, attention processes, intelligence, social cognition.

SFL 420 : Administering Programs for Young Children. (2:2:0)
OFFERED: On demand.
PREREQUISITE: SFL (MFHD) 221, 222.
DESCRIPTION: Strategies for planning and administering quality programs in settings for young children. Budgeting, staffing, accrediting, selecting equipment, etc.

8. Complete the following professional courses (prior acceptance to the program required):
CPSE 400 : Exceptional Students: Principles of Collaboration. (2:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

ECE 323 : Integrated Curriculum in Programs for Young Children. (2:2:0)
OFFERED: F, W, Sp (Su rarely)
PREREQUISITE: MFHD 221, 222; admittance to either ECE or El Ed licensing programs. Dual majors, please see advisor.
DESCRIPTION: Implementing integrated learning experiences in dance, music, drama, and visual art for the very young, including importance of home, family, and environments on child's aesthetic growth.

ECE 353 : Emergent Literacy. (2:2:0)
OFFERED: F, W
PREREQUISITE: MFHD 355 or equivalent.
DESCRIPTION: Issues, themes, and practices of literacy instruction for young children (P-3).

EL ED 340 : Children's Literature. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Some sections require acceptance to program.
DESCRIPTION: Trends and titles in children's and adolescent literature. Reading and critiquing as well as practical uses of children's literature in both school and home.

EL ED 351 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Cultural issues related to public education that promote constructive interaction among people of differing economic, social, racial, ethnic, and religious backgrounds.

IP&T 287 : Instructional Technology for Early Childhood, Elementary, and Special Education. (2:2:ARR)
OFFERED: F, W
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles, along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for early childhood, elementary, and special education settings.

MUSIC 378 : Music for the Elementary Classroom Teacher. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Establishing a classroom environment for musical development; emphasis on appropriate songs, activities, resources, and teaching strategies.

9. Complete one course from the following:

DANCE 326 : Rhythm and Dance. (2:1:2)
OFFERED: F, W, Sp
DESCRIPTION: Methodology course for elementary education majors; creative dance and structured rhythmic dance forms.

TMA 352 : Drama in the Elementary Classroom. (2:2:2)
DESCRIPTION: Using theatre techniques as a tool to enrich all subject matter taught in the elementary school classroom. Puppetry, improvisation, storytelling, etc.

VAEDU 326 : Art for Elementary Teachers. (2:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preservice preparation designed to help elementary classroom teachers understand the visual arts and develop skills necessary for implementing a discipline-based approach for art education.

10. Complete the following professional sequence cohort courses:

ECE 324 : Planning and Management. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to ECE program.
DESCRIPTION: Learning principles, lesson planning, classroom atmosphere, classroom management, professional attitudes and practices.

ECE 325 : Early Childhood Practicum. (2:0:12)
OFFERED: F, W
PREREQUISITE: Admittance to ECE program.
DESCRIPTION: Practicum experience in the primary grades. Field experience designed to give students opportunities to interact with primary children (grades 1-3) and apply skills and knowledge acquired in the ECE cohort classes.

ECE 327 : Assessment and Action Research in Early Childhood Programs. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to ECE cohort.
DESCRIPTION: Formal and informal assessment strategies and data collection procedures for evaluating children's progress; programs to enhance learning, individualize instruction, and communicate with others.

ECE 356 : Teaching Reading and Language Arts in the Primary Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Issues, theories, and practices of literacy instruction for primary grades, including developing literacy through listening, speaking, reading, and writing.

ECE 361 : Teaching Mathematics in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Methods and materials for teaching elementary school mathematics guided by current principles of curriculum, instruction, and assessment in mathematics education.

ECE 363 : Teaching Science in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; departmental approval.
DESCRIPTION: Developing knowledge, skills, and attitudes related to teaching science in the elementary school.

ECE 365 : Teaching Social Studies for Cultural Understanding. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to ECE cohort.
DESCRIPTION: Developing and implementing meaningful integrated learning experiences in the social studies area, taking into account children's home experience and cultural values.

11. Complete 6 or 12 hours from one of the following:

Either

ECE 425 : Grades 1-3 Student Teaching/Internship. (6:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: All ECE core and professional sequence courses; concurrent enrollment in ECE 426; prior application.
DESCRIPTION: Student teaching/interning experience in the primary grades.

(6 hours)

Or

ECE 496R : Academic Internship. (12:0:0)
OFFERED: F
PREREQUISITE: Three-semester professional sequence and prior application.
DESCRIPTION: A full-year classroom teaching internship in the public schools.
NOTE: See Education Advisement and Certification Office for application dates.

(12 hours)

12. Complete one course from the following:
ECE 423 : Preschool Student Teaching/Internship. (6:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: All ECE core and professional sequence courses; concurrent enrollment in ECE 426; prior application.
DESCRIPTION: Student teaching/interning experience in the preschool.

ECE 424 : Kindergarten Student Teaching/Internship. (6:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: All ECE core and professional sequence courses; concurrent enrollment in ECE 426; prior application.
DESCRIPTION: Student teaching/interning experience in kindergarten.

13. Complete the following concurrently with ECE 423 or 424 above:
ECE 426 : Capstone Seminar. (1:1:0)
OFFERED: F, W, Sp (Su rarely)
PREREQUISITE: Concurrent enrollment with student teaching practicum.
DESCRIPTION: Gaining insight into significant issues in early childhood education, developing a sense of professional ethics, and becoming personally committed to ongoing professional development.

Recommended Courses

ENGL 313 : Expository Writing for Elementary Education Majors. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Learning to write as professional educators and to teach writing to children. Best taken before the professional sequence. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

HEPE 129 : Fitness and Lifestyle Management. (2:2:1)
OFFERED: F, W
DESCRIPTION: Why a healthy lifestyle is needed and how to write individualized programs to meet these needs.

MTHED 305 : Basic Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Math 110 or equivalent; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of number, measurement, and informal geometry in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MTHED 306 : Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: MthEd 305; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of rational numbers and proportional reasoning, probability, and early algebraic reasoning in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

*Hours include courses that may fulfill university core requirements.

UNDERGRADUATE CATALOG 2008 - 2009

Elementary Education

Admission to Degree Program

Students are accepted into the elementary education teacher preparation program by application only. Students must attend an application meeting held by the Education Advisement and Certification Center prior to making application for admission.

The application review process includes but is not limited to the following:

1. Significant experience working with elementary-age children.
2. Technology Skills Assessment (TSA).
3. Being fingerprinted. See Education Advisement and Certification Office (120 MCKB) for instructions.
4. If admitted, departmental approval only for deferment from the four-semester professional sequence.

Fingerprint and Background Check

All candidates for teacher licensure are required by state statute to be fingerprinted and pass an FBI background check before participating in required field experiences. Fingerprints are taken in the Education Advisement Center (EAC) in 120 MCKB. Contact the EAC for the schedule. Allow from five to six weeks for fingerprints to be processed. FBI background clearance is valid for only three years. If clearance expires before graduation, candidates must repeat the fingerprinting and clearance process, including a new fee payment.

Failing to expunge a police record prior to the background check may result in a blocked registration while a panel reviews the charges. Candidates who cannot pass an FBI background check will be removed from the teacher education licensure program.

Additional Licensing Requirements

It is the student's responsibility to be sure that the Praxis test has been taken and that BYU has received the test scores, that their fingerprint background clearance is current prior to graduation and that state licensing fees have been paid. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements contact the Education Advisement and Certification Center, 120 MCKB, (801) 422-3426. Graduation and Utah licensure cannot be processed until these requirements have been completed.

The Discipline

Elementary education prepares teachers who, having gained their own liberal education, help elementary school children learn by improving the teaching children receive in the home, school, church, and community. Elementary education helps students enhance their thinking abilities, build their confidence in exploring new ideas, and become self-motivated, independent learners.

In the program prospective teachers learn about the culture of the elementary school, develop a solid foundation in basic principles of teaching and learning that originate in educational theory and research, and become proficient in systematically applying those basic principles in practical settings.

Career Opportunities

A degree in elementary education leads to opportunities for teaching in elementary schools. By taking additional classes in early childhood education, secondary education, music, or teaching English to speakers of other languages (TESOL) students can extend their teaching credential to teach kindergarten, seventh and eighth grade, elementary music, or TESOL.

Program Requirements | View MAP

1. Make formal application for admission to the program through the Teacher Education Department (201 MCKB).
2. Students who receive a grade lower than C– in any of the professional or support courses, or whose GPA drops below 2.85, will be discontinued from the elementary education program.
3. Complete all GE courses, including the following, prior to beginning program:

   EXSC 169 : Elementary Skills and Activities. (.5:0:2)
   - OFFERED: F, W, Sp, Su
   - DESCRIPTION: Physical skills and activities specific to elementary-age children.
   - NOTE: Required for elementary education majors. Meets one Wellness physical education activity requirement.

   PHY S 110A : Physical Science A. (4:3:2)
   - OFFERED: F, W, Sp
   - PREREQUISITE: For majors in elementary, early childhood, or special education.
   - DESCRIPTION: Classical and modern physics and chemistry as they relate to current concepts of the physical world. Lab exercises illustrate many topics with concrete examples.
   - NOTE: With PhyS 110B satisfies GE Physical Science requirement.

   PHY S 110B : Physical Science B. (2:2:1)
   - OFFERED: F, W, Su
   - PREREQUISITE: For majors in elementary, early childhood, or special education.
   - DESCRIPTION: Concepts and methods used in geology to interpret rock record, protect and make use of earth materials, and better understand natural environment and how to live in it. Lab studies, field trips, home projects.
   - NOTE: With PhyS 110A satisfies GE Physical Science requirement.

   SFL 210 : Human Development. (3:3:0)
   - OFFERED: F, W, Sp or Su
   - DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
   - NOTE: Independent Study also.
4. Complete an application seminar (seminar schedule posted on Education Advisement and Certification Center Web page and in 120 MCKB).
5. Complete the following courses after admission to the program:

   CPSE 400 : Exceptional Students: Principles of Collaboration. (2:1:ARR)
   - OFFERED: F, W, Sp
   - DESCRIPTION: Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

   DANCE 326 : Rhythm and Dance. (2:1:2)
   - OFFERED: F, W, Sp
   - DESCRIPTION: Methodology course for elementary education majors; creative dance and structured rhythmic dance forms.

OFFERED: W
PREREQUISITE: Concurrent enrollment in Aeros 301.
DESCRIPTION: Principles of leadership, problem solving, decisions, discipline, and human relations. Emphasis on career planning as an Air Force junior officer.

AEROS 399R : Academic Internship: Leadership Intern Program. (4:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Department chair's consent.
RECOMMENDED: Aeros 201 or 301.
DESCRIPTION: Air Force ROTC field leadership training course. Provides advanced fundamentals of military leadership, planning, organizing, and team building at various levels of responsibility.
NOTE: Enrollment limited to Air Force ROTC cadets.

400-Level Courses

AEROS 400R : Leadership Laboratory--Seniors. (.5:0:2)
OFFERED: F
DESCRIPTION: As listed for Aeros 100/101. Senior cadets perform in leadership positions in planning and conducting all activities of the cadet corps.

AEROS 401R : Leadership Laboratory--Seniors. (.5:0:2)
OFFERED: W
DESCRIPTION: As listed for Aeros 100/101. Senior cadets perform in leadership positions in planning and conducting all activities of the cadet corps.

AEROS 410 : National Security Affairs. (3:3:0)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Aeros 400R.
DESCRIPTION: Civilian control of military, civil-military interaction, the forming of defense strategy. Military profession; Russia, Europe, and East Asia regional studies.

AEROS 411 : National Security Affairs. (3:3:0)
OFFERED: W
PREREQUISITE: Concurrent enrollment in Aeros 401R.
DESCRIPTION: Africa, Middle East, and Latin American regional studies; military operation other than war; military justice system; officer professional development.

EDLF 452 : Foundations of Education. (.5-2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to the philosophical, sociological, and historical foundations of American education, with special reference to current issues in U.S. public schooling.

EL ED 302 : Planning and Management. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Learning principles, lesson planning, classroom atmosphere, classroom management, professional attitudes and practices.

EL ED 340 : Children's Literature. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Some sections require acceptance to program.
DESCRIPTION: Trends and titles in children's and adolescent literature. Reading and critiquing as well as practical uses of children's literature in both school and home.

EL ED 351 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Cultural issues related to public education that promote constructive interaction among people of differing economic, social, racial, ethnic, and religious backgrounds.

EL ED 354 : Assessing and Supporting Literacy Development: Practicum 1. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 356.
DESCRIPTION: Applying reading and writing assessment and instructional strategies in the primary grades.

EL ED 355 : Assessing and Supporting Literacy Development: Practicum 2. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 357.
DESCRIPTION: Applying reading and writing assessment and instructional strategies in grades three to six.

EL ED 356 : Teaching Reading and Language Arts in the Primary Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; concurrent enrollment in El Ed 354.
DESCRIPTION: Issues, theories, and practices of literacy instruction for primary grades, including developing literacy through listening, speaking, reading, and writing.

EL ED 357 : Teaching Reading and Language Arts in the Intermediate Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 355.
DESCRIPTION: Issues and practices for teaching language arts in grades three to six, including content area reading and writing, literature, comprehending and responding, vocabulary development, and structural analysis applications.

EL ED 361 : Teaching Mathematics in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 362.
DESCRIPTION: Methods and materials for teaching elementary school mathematics guided by current principles of curriculum, instruction, and assessment in mathematics education.

EL ED 362 : Practicum in Teaching Mathematics. (1:0:2)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 361.
DESCRIPTION: Applying content and methods learned in El Ed 361 in an elementary school classroom.

EL ED 363 : Teaching Science in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; departmental approval.
DESCRIPTION: Developing knowledge, skills, and attitudes related to teaching science in the elementary school.

EL ED 365 : Teaching Social Studies in the Elementary School. (2:2:0)
OFFERED: F, W
DESCRIPTION: Developing instructional methods and curriculum design to initiate and maintain effective learning in social studies classrooms.

EL ED 372 : Instruction and Assessment. (2:2:0)

OFFERED: F, W
PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Taken during second professional semester. Extended planning, integrated units, teaching strategies, management problems, and assessment and reporting of student progress.

EXSC 375 : Physical Education for Elementary School Teachers. (2:1:3)
OFFERED: F, W, Sp
PREREQUISITE: ExSc 169.

HLTH 361 : School Health for Elementary Teachers. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preparing for the role as a health educator, emphasizing skill-based teaching methods and acquisition of teaching resources.

IP&T 287 : Instructional Technology for Early Childhood, Elementary, and Special Education. (2:2:ARR)
OFFERED: F, W
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles, along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for early childhood, elementary, and special education settings.

IP&T 301 : Educational Psychology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Basic principles of educational psychology applied to teaching, including learning theory, instructional strategies, assessment of learning outcomes, and classroom inquiry.

MTHED 305 : Basic Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Math 110 or equivalent; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of number, measurement, and informal geometry in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MTHED 306 : Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: MthEd 305; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of rational numbers and proportional reasoning, probability, and early algebraic reasoning in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MUSIC 378 : Music for the Elementary Classroom Teacher. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Establishing a classroom environment for musical development; emphasis on appropriate songs, activities, resources, and teaching strategies.

TMA 352 : Drama in the Elementary Classroom. (2:2:2)
DESCRIPTION: Using theatre techniques as a tool to enrich all subject matter taught in the elementary school classroom. Puppetry, improvisation, storytelling, etc.

VAEDU 326 : Art for Elementary Teachers. (2:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preservice preparation designed to help elementary classroom teachers understand the visual arts and develop skills necessary for implementing a discipline-based approach for art education.

6. Complete 12 hours of one of the following (prior application required):
EL ED 400R : Elementary Student-Teaching Internship. (1-12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Three-semester professional sequence and prior application. See EAC for application dates.
DESCRIPTION: Semester-long or two consecutive term, full-day student teaching internship in the public schools. Seminar attendance required.

EL ED 496R : Academic Internship. (12:ARR:ARR)
OFFERED: F
PREREQUISITE: Three-semester professional sequence and prior application. See Education Advisement and Certification Office for application dates.
DESCRIPTION: A full-year classroom teaching internship in the public schools in lieu of El Ed 400, student teaching.

Recommended Courses

The following courses are strongly recommended:

BIO 100 : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

BIO 101 : Principles of Biology Laboratory. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Bio 100.
NOTE: Required of all elementary education and early childhood education majors; enrollment limited to elementary education of early childhood education majors.

ENGL 313 : Expository Writing for Elementary Education Majors. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Learning to write as professional educators and to teach writing to children. Best taken before the professional sequence. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

PHY S 110B : Physical Science B. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: For majors in elementary, early childhood, or special education.
DESCRIPTION: Concepts and methods used in geology to interpret rock record, protect and make use of earth materials, and better understand natural environment and how to live in it. Lab studies, field trips, home projects.
NOTE: With PhyS 110A satisfies GE Physical Science requirement.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

SFL 221 : Foundations of Developmentally Appropriate Practices in Programs for Young Children. (2:2:0)
OFFERED: F, W, Su
PREREQUISITE: SFL 210.
DESCRIPTION: Historical, philosophical, organizational, and curricular issues related to developmentally appropriate practices in programs for young children.
NOTE: Due to enrollment constraints, SFL (MFHD) 221 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

SFL 222 : Practicum in Developmentally Appropriate Practices. (2:0:12)
OFFERED: F, W, Su

PREREQUISITE: SFL (MFHD) 210, 221; 240 or concurrent enrollment.
DESCRIPTION: Initial practicum with young children to increase understanding of socialization and learning processes, to create meaningful learning opportunities, and to implement developmentally appropriate practices.
NOTE: Due to enrollment constraints, SFL (MFHD) 222 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

SFL 240 : Parenting and Child Guidance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Theories and skills related to quality parent-child relationships.

5. Complete an application seminar (seminar schedule posted on Education Advisement and Certification Center Web page and in 120 MCKB).

6. Complete the following courses:
ECE 323 : Integrated Curriculum in Programs for Young Children. (2:2:0)
OFFERED: F, W, Sp (Su rarely)
PREREQUISITE: MFHD 221, 222; admittance to either ECE or El Ed licensing programs. Dual majors, please see advisor.
DESCRIPTION: Implementing integrated learning experiences in dance, music, drama, and visual art for the very young, including importance of home, family, and environments on child's aesthetic growth.

(prior admittance to program required)
SFL 355 : Language Development. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Philosophical, social, intellectual, and emotional contexts of language acquisition and usage.

7. Complete one course from the following:
SFL 331 : Infant Development in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Conception, prenatal development, pregnancy. Physical, cognitive, and social development of the first twenty-four months. Implications for guidance and care in the family.

SFL 351 : Socialization Across Childhood. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Processes and sequences of social development across childhood.

SFL 352 : Cognitive Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Development of mental abilities; effects of maturation and learning on memory, perception, attention processes, intelligence, social cognition.

SFL 420 : Administering Programs for Young Children. (2:2:0)
OFFERED: On demand.
PREREQUISITE: SFL (MFHD) 221, 222.
DESCRIPTION: Strategies for planning and administering quality programs in settings for young children. Budgeting, staffing, accrediting, selecting equipment, etc.

Note: It is recommended that all early childhood education emphasis courses be taken prior to cohort 1 in the elementary education program.

8. Complete the following courses after admission to the program:
CPSE 400 : Exceptional Students: Principles of Collaboration. (2:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

DANCE 326 : Rhythm and Dance. (2:1:2)
OFFERED: F, W, Sp
DESCRIPTION: Methodology course for elementary education majors; creative dance and structured rhythmic dance forms.

EDLF 452 : Foundations of Education. (.5-2:2:0)

OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to the philosophical, sociological, and historical foundations of American education, with special reference to current issues in U.S. public schooling.

EL ED 302 : Planning and Management. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Learning principles, lesson planning, classroom atmosphere, classroom management, professional attitudes and practices.

EL ED 340 : Children's Literature. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Some sections require acceptance to program.
DESCRIPTION: Trends and titles in children's and adolescent literature. Reading and critiquing as well as practical uses of children's literature in both school and home.

EL ED 351 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Cultural issues related to public education that promote constructive interaction among people of differing economic, social, racial, ethnic, and religious backgrounds.

EL ED 354 : Assessing and Supporting Literacy Development: Practicum 1. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 356.
DESCRIPTION: Applying reading and writing assessment and instructional strategies in the primary grades.

EL ED 355 : Assessing and Supporting Literacy Development: Practicum 2. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 357.
DESCRIPTION: Applying reading and writing assessment and instructional strategies in grades three to six.

EL ED 356 : Teaching Reading and Language Arts in the Primary Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; concurrent enrollment in El Ed 354.
DESCRIPTION: Issues, theories, and practices of literacy instruction for primary grades, including developing literacy through listening, speaking, reading, and writing.

EL ED 357 : Teaching Reading and Language Arts in the Intermediate Grades. (2:2:0)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 355.
DESCRIPTION: Issues and practices for teaching language arts in grades three to six, including content area reading and writing, literature, comprehending and responding, vocabulary development, and structural analysis applications.

EL ED 361 : Teaching Mathematics in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 362.
DESCRIPTION: Methods and materials for teaching elementary school mathematics guided by current principles of curriculum, instruction, and assessment in mathematics education.

EL ED 362 : Practicum in Teaching Mathematics. (1:0:2)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 361.
DESCRIPTION: Applying content and methods learned in El Ed 361 in an elementary school classroom.

EL ED 363 : Teaching Science in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; departmental approval.
DESCRIPTION: Developing knowledge, skills, and attitudes related to teaching science in the elementary school.

EL ED 365 : Teaching Social Studies in the Elementary School. (2:2:0)
OFFERED: F, W
DESCRIPTION: Developing instructional methods and curriculum design to initiate and maintain effective learning in social studies classrooms.

EL ED 372 : Instruction and Assessment. (2:2:0)
OFFERED: F, W

PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Taken during second professional semester. Extended planning, integrated units, teaching strategies, management problems, and assessment and reporting of student progress.

EXSC 375 : Physical Education for Elementary School Teachers. (2:1:3)
OFFERED: F, W, Sp
PREREQUISITE: ExSc 169.

HLTH 361 : School Health for Elementary Teachers. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preparing for the role as a health educator, emphasizing skill-based teaching methods and acquisition of teaching resources.

IP&T 287 : Instructional Technology for Early Childhood, Elementary, and Special Education. (2:2:ARR)
OFFERED: F, W
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles, along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for early childhood, elementary, and special education settings.

IP&T 301 : Educational Psychology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Basic principles of educational psychology applied to teaching, including learning theory, instructional strategies, assessment of learning outcomes, and classroom inquiry.

MTHED 305 : Basic Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: Math 110 or equivalent; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of number, measurement, and informal geometry in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MTHED 306 : Concepts of Mathematics. (3:3:1)
OFFERED: F, W
PREREQUISITE: MthEd 305; permission from Teacher Education Department.
DESCRIPTION: Concept-oriented exploration of rational numbers and proportional reasoning, probability, and early algebraic reasoning in relation to children's learning.
NOTE: Required of prospective elementary school teachers.

MUSIC 378 : Music for the Elementary Classroom Teacher. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Establishing a classroom environment for musical development; emphasis on appropriate songs, activities, resources, and teaching strategies.

TMA 352 : Drama in the Elementary Classroom. (2:2:2)
DESCRIPTION: Using theatre techniques as a tool to enrich all subject matter taught in the elementary school classroom. Puppetry, improvisation, storytelling, etc.

VAEDU 326 : Art for Elementary Teachers. (2:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preservice preparation designed to help elementary classroom teachers understand the visual arts and develop skills necessary for implementing a discipline-based approach for art education.

9. Complete one course from the following:
EL ED 400R : Elementary Student-Teaching Internship. (1-12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Three-semester professional sequence and prior application. See EAC for application dates.
DESCRIPTION: Semester-long or two consecutive term, full-day student teaching internship in the public schools. Seminar attendance required.

(6 hours required)
EL ED 496R : Academic Internship. (12:ARR:ARR)
OFFERED: F
PREREQUISITE: Three-semester professional sequence and prior application. See Education Advisement and Certification Office for application dates.
DESCRIPTION: A full-year classroom teaching internship in the public schools in lieu of El Ed 400, student teaching.

(12 hours)

10. Complete one course from the following:

ECE 423 : Preschool Student Teaching/Internship. (6:0:6)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: All ECE core and professional sequence courses; concurrent enrollment in ECE 426; prior application.
- DESCRIPTION: Student teaching/interning experience in the preschool.

ECE 424 : Kindergarten Student Teaching/Internship. (6:0:6)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: All ECE core and professional sequence courses; concurrent enrollment in ECE 426; prior application.
- DESCRIPTION: Student teaching/interning experience in kindergarten.

11. Complete the following concurrently with ECE 423 or 424 above:

ECE 427 : Capstone Seminar. (.5:1:0)
- OFFERED: F, W, 1st and 2nd blocks
- PREREQUISITE: El Ed majors with an ECE emphasis; concurrent enrollment in ECE student teaching practicum block.
- DESCRIPTION: Gaining insight into significant issues in early childhood education, developing a sense of professional ethics, and becoming personally committed to ongoing professional development.

Recommended Courses

The following courses are strongly recommended. All can fill GE requirements:

BIO 100 : Principles of Biology. (3:3:1)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Introductory course for general education students.

BIO 101 : Principles of Biology Laboratory. (1:0:2)
- OFFERED: F, W
- PREREQUISITE: Concurrent enrollment in Bio 100.
- NOTE: Required of all elementary education and early childhood education majors; enrollment limited to elementary education of early childhood education majors.

ENGL 313 : Expository Writing for Elementary Education Majors. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Engl 150 or equivalent; junior or senior status.
- DESCRIPTION: Learning to write as professional educators and to teach writing to children. Best taken before the professional sequence. Library research paper.
- NOTE: Carries GE Advanced Written and Oral Communication credit.

GEOG 120 : Geography and World Affairs. (3:3:0)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Survey of the world, stressing geography of major political regions.
- NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

PREREQUISITE: Concurrent enrollment in ElEd 355.
DESCRIPTION: Issues and practices for teaching language arts in grades three to six, including content area reading and writing, literature, comprehending and responding, vocabulary development, and structural analysis applications.

EL ED 361 : Teaching Mathematics in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 362.
DESCRIPTION: Methods and materials for teaching elementary school mathematics guided by current principles of curriculum, instruction, and assessment in mathematics education.

EL ED 362 : Practicum in Teaching Mathematics. (1:0:2)
OFFERED: F, W
PREREQUISITE: Major status; MthEd 305, 306; concurrent enrollment in El Ed 361.
DESCRIPTION: Applying content and methods learned in El Ed 361 in an elementary school classroom.

EL ED 363 : Teaching Science in the Elementary School. (2:2:0)
OFFERED: F, W
PREREQUISITE: Major status; departmental approval.
DESCRIPTION: Developing knowledge, skills, and attitudes related to teaching science in the elementary school.

EL ED 364 : Practicum in Teaching Science. (.5:0:1)
OFFERED: F, W
PREREQUISITE: departmental approval; concurrent enrollment in ElEd 363.
DESCRIPTION: Field experience designed to give students opportunities to interact with elementary school students and apply skills and knowledge developed in ElEd 363.

EL ED 365 : Teaching Social Studies in the Elementary School. (2:2:0)
OFFERED: F, W
DESCRIPTION: Developing instructional methods and curriculum design to initiate and maintain effective learning in social studies classrooms.

EL ED 366 : Social Studies Practicum. (.5:0:1)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in ElEd 365.
DESCRIPTION: Practicing strategies in instruction and curriculum to initiate and maintain effective learning in social studies classrooms.

EL ED 372 : Instruction and Assessment. (2:2:0)
OFFERED: F, W
PREREQUISITE: Admittance to elementary education program.
DESCRIPTION: Taken during second professional semester. Extended planning, integrated units, teaching strategies, management problems, and assessment and reporting of student progress.

400-Level Courses

EL ED 400R : Elementary Student-Teaching Internship. (1-12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Three-semester professional sequence and prior application. See EAC for application dates.
DESCRIPTION: Semester-long or two consecutive term, full-day student teaching internship in the public schools. Seminar attendance required.

EL ED 493R : Independent Readings or Project. (.5-4:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: departmental approval.

EL ED 496R : Academic Internship. (12:ARR:ARR)
OFFERED: F
PREREQUISITE: Three-semester professional sequence and prior application. See Education Advisement and Certification Office for application dates.
DESCRIPTION: A full-year classroom teaching internship in the public schools in lieu of El Ed 400, student teaching.

500-Level Graduate Courses (available to advanced undergraduates)

EL ED 514R : Special Topics in Education. (.5-3:ARR:ARR)

BS in Physical Education Teaching/Coaching (K–12) (78 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center or department office for information regarding requirements for admission to this emphasis.

The Discipline

Students preparing to teach physical education and/or coach will have a variety of experiences that will enhance proficiency in the knowledge and skills requisite to working in the contemporary school setting. Majors learn to perform a variety of sport, fitness, and dance activities personally. After becoming proficient, students take courses and have practical experiences in teaching and coaching children, adolescents, and adults. The discipline is interesting and rewarding, and those in a teaching/coaching career help others pursue and practice healthy lifestyle habits.

Career Opportunities

Graduates seek teaching and physical education/coaching careers in elementary and secondary education settings. With an advanced degree, teaching and coaching positions at institutions of higher learning are available.

It is recommended that students desiring to be optimally employable in secondary schools complete an approved teaching minor.

Program Requirements | View MAP

1. Prior to beginning course work in the major, students must apply for admittance into the PETE Program. The program requires that all students take most of the major courses together as a cohort group. See the PETE advisor during January of the sophomore year (106 SFH).
2. Complete the senior exit interview.
3. A teaching minor is not required for licensure. However, it is strongly recommended.
4. Complete the following required prerequisite and general education courses:

HEPE 129 : Fitness and Lifestyle Management. (2:2:1)
OFFERED: F, W
DESCRIPTION: Why a healthy lifestyle is needed and how to write individualized programs to meet these needs.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su

DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

5. Complete the following:

EXSC 230 : K-12 Physical Activities Content and Skills 1. (3:3:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including soccer, softball, tennis, walking, jogging, disc golf, and elementary activities.

EXSC 231 : K-12 Physical Activities Content and Skills 2. (3:3:0)
OFFERED: W
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including badminton, basketball, flag football, swimming, volleyball, and golf.

EXSC 233 : K-12 Physical Activities Content and Skills 3. (1-3:3:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including cycling, hiking, snow sports, Pilates, aerobics, core training, and yoga.

EXSC 239 : Weight Training: Skills and Teaching Techniques. (.5:0:2)
OFFERED: F, W

EXSC 300 : Advocacy for Physical Education. (2:2:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Historical and sociological cornerstones of physical education.

EXSC 301 : K-12 Healthy and Active Lifestyle Management. (2:2:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Understanding the content and pedagogical knowledge required to manage a healthy and active lifestyle; how to impart this knowledge to public school students.

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Philosophical and ethical issues common to exercise science majors. Concept of mind, body, spirit.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 352 : Legal and Administrative Aspects of Physical Education and Sport. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Principles of physical education and intramural management including facilities, equipment, fiscal matters, personnel, public relations, and program administration. Legal considerations of physical education and sport programs, including constitutional rights, gender, liability, and risk management.

EXSC 360 : Curriculum and Assessment of Learning in Physical Education. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Curriculum development to meet national physical education standards. Assessment of psychomotor, cognitive, and affective learning, including elementary statiscal testing.

EXSC 361 : Introduction to Motor Learning. (3:2:2)
OFFERED: F, W, Sp, Su

DESCRIPTION: Motor and cognitive factors influencing acquisition of motor skills.

EXSC 365 : Scientific Bases of Sport 2: Kinesiology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

EXSC 369 : Exercise Physiology for Physical Educators. (3:Arr:Arr)
OFFERED: F
PREREQUISITE: PDBio 305.

EXSC 399R : Academic Internship. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Advisor's consent; ExSc 301 for health promotion majors.
DESCRIPTION: On-the-job experience for physical education majors and coaching and physical education minors.

: Athletic Training Practicum.
: Coaching Practicum.
: Exercise Physiology Practicum.
: Exercise Science Internship.
: Fitness and Wellness Internship
: Practicum Handicap.

EXSC 430 : Principles of Coaching. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Developing a philosophy of coaching and officiating; understanding coaching responsibilities and techniques; preparing athletes; valuing professional relationships with others.

6. Complete one course from the following:

EXSC 330R : Coaching Selected Sports. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching golf, tennis, or wrestling.

EXSC 335 : Coaching Competitive Swimming. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching swimming.

EXSC 341 : Coaching Basketball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching basketball.

EXSC 342 : Coaching Track and Field. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching track and field.

EXSC 344 : Coaching Football. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching football.

EXSC 345 : Coaching Volleyball. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching volleyball.

EXSC 346 : Coaching Baseball and Softball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching baseball and softball.

EXSC 347 : Coaching Soccer. (2:1:2)
OFFERED: Sp
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching soccer.

7. Complete the Professional Education Component:
   a. Complete the following:

EXSC 374 : Fundamental Skills and Teaching Methods for Elementary Physical Education. (3:2:2)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Identifying and demonstrating fundamental skills; identifying immature and mature movement patterns; selecting developmentally appropriate activities; appropriate management techniques.

EXSC 377 : Secondary Practicum. (3:1:3)
OFFERED: F
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance; acceptance into PETE program.
DESCRIPTION: Written and practical teaching assignments designed to help prospective teachers plan, conduct, and evaluate lessons and unit plans appropriate to adolescent students.

EXSC 380 : Use of Technology in Physical Education Teaching. (2:2:)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Applying computer technology: Web page design and software focusing on skill, fitness grading, digital video editing, and presentation
NOTE: Course meets secondary education technology requirements.

EXSC 461 : Adapted Physical Education for Teaching Majors. (3:2:1)
OFFERED: W
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Program, legal mandates, management techniques, and assessing and identifying special needs students.

SC ED 276R : Exploration of Teaching: Exercise Sciences. (3-4:ARR:ARR)
Exploration of Teaching: Exercise Sciences.
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.
(3 hours required)

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

Note: Fingerprinting and FBI clearance must be completed prior to enrolling in ExSc 377.

   b. Complete 12 hours of one of the following:

SC ED 476R : Secondary Student-Teaching Internship - Physical Education. (12:ARR:ARR)
Secondary Student-Teaching Internship - Physical Education.
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

*Hours include courses that may fulfill university core requirements.

Minor in Coaching and Teaching Physical Education (23.5 hours)

Show All Course Descriptions
Hide All Course Descriptions

Students can choose this minor to prepare to coach. Students who have met the university's teacher licensure requirements will also be qualified to teach physical education with this minor.

Program Requirements

1. Complete the following:

EXSC 229 : Physical Education Pedagogy. (2:2:0)
OFFERED: F, W; Sp even years.
DESCRIPTION: Sport pedagogy for students *minoring* in physical education/coaching.

EXSC 234 : Team Sport Fundamentals. (1:0:4)
OFFERED: F, W
PREREQUISITE: ExSc 229.
DESCRIPTION: Skill and pedagogy development in soccer and volleyball.
NOTE: For *minor*s in physical education/coaching only.

EXSC 235 : Sport Fitness Techniques. (1:0:4)
OFFERED: F, W
PREREQUISITE: ExSc 229.
DESCRIPTION: Skill and pedagogy in flexibility and weight training.
NOTE: For *minor*s in physical education/coaching only.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 351 : Administration of Physical Education and Athletics. (2:2:0)
OFFERED: F, W
DESCRIPTION: Management styles and techniques for physical education and athletic programs; policies concerning eligibility, contest management, safety, facilities, and legal concerns.
NOTE: For teaching and coaching minors.

EXSC 364 : Scientific Bases of Sport 1: Motor Learning. (2:2:0)
OFFERED: F, W
DESCRIPTION: Motor learning principles for physical education/coaching minor.

EXSC 365 : Scientific Bases of Sport 2: Kinesiology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

EXSC 366 : Scientific Bases of Sport 3: Exercise Physiology. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
DESCRIPTION: Physiology of activity for physical education/coaching minor.

EXSC 430 : Principles of Coaching. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Developing a philosophy of coaching and officiating; understanding coaching responsibilities and techniques; preparing athletes; valuing professional relationships with others.

EXSC 450 : Psychology of Sport. (2:2:0)
OFFERED: F, W

2. Complete a minimum of 1 hour from the following:
EXSC 399R : Academic Internship. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Advisor's consent; ExSc 301 for health promotion majors.
DESCRIPTION: On-the-job experience for physical education majors and coaching and physical education minors.

: Athletic Training Practicum.
: Coaching Practicum.
: Exercise Physiology Practicum.
: Exercise Science Internship.
: Fitness and Wellness Internship
: Practicum Handicap.

3. Complete one course from the following:
EXSC 330R : Coaching Selected Sports. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching golf, tennis, or wrestling.

EXSC 335 : Coaching Competitive Swimming. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching swimming.

EXSC 341 : Coaching Basketball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching basketball.

EXSC 342 : Coaching Track and Field. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching track and field.

EXSC 344 : Coaching Football. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching football.

EXSC 345 : Coaching Volleyball. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching volleyball.

EXSC 346 : Coaching Baseball and Softball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching baseball and softball.

EXSC 347 : Coaching Soccer. (2:1:2)
OFFERED: Sp
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching soccer.

Secondary Education

Fingerprint and Background Check

All candidates for teacher licensure are required by state statute to be fingerprinted and pass an FBI background check before participating in required field experiences. Fingerprints are taken in the Education Advisement Center (EAC) in 120 MCKB. Contact the EAC for the schedule. Allow from five to six weeks for fingerprints to be processed. FBI background clearance is valid for only three years. If clearance expires before graduation, candidates must repeat the fingerprinting and clearance process, including a new fee payment.

Failing to expunge a police record prior to the background check may result in a blocked registration while a panel reviews the charges. Candidates who cannot pass an FBI background check will be removed from the teacher education licensure program.

Additional Licensing Requirements

It is the student's responsibility to be sure that the Praxis test has been taken and that BYU has received the test scores, that their fingerprint background clearance is current prior to graduation and that state licensing fees have been paid. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements contact the Education Advisement and Certification Center, 120 MCKB, (801) 422-3426. Graduation and Utah licensure cannot be processed until these requirements have been completed.

The Discipline

The Department of Teacher Education provides a program that licenses secondary teachers for the public schools. In addition to content courses in the field(s) in which they plan to teach, students complete professional education courses and practicum experiences that prepare them to teach in a secondary school setting.

Career Opportunities

Secondary education teacher.

General Information

Teaching Majors, Minors and Composites

Students wishing to certify as secondary teachers select one of the following options in addition to the professional education sequence. For specific requirements, see the department listing for the teaching major or minor.

Option 1a: Teaching Major

The following subjects *do not require* a teaching minor, although a teaching minor is recommended.

- Chemistry Education (80.5 hours)
- Dance Education (75–78 hours)
- English Teaching (74–91 hours)
- History Teaching (67–84 hours)
- Mathematics Education (74 hours)
- Physical Education Teaching/Coaching (K–12) (78 hours)
- Physics Teaching (74.5–77.5 hours)
- Theatre Arts Education (76 hours)

Option 1b: Teaching Major and Approved Teaching Minor

The following subjects *require* an approved teaching minor.

- French Teaching (70–93 hours)
- German Teaching (76–100 hours)
- Spanish Teaching (75–108 hours)

Approved Teaching Minors for Options 1a and 1b Teaching Majors:

- Art Education (21 hours)
- Chemistry Education (15–18 hours)
- Chinese Teaching (26–42 hours) (see Department of Asian and Near Eastern Languages)
- Coaching and Teaching Physical Education (23.5 hours)
- Computer Science Teaching (17–18 hours)
- Driver Safety Education (16 hours) (see Department of Health Science)
- English Teaching (27 hours)
- French Teaching (23–38 hours)
- Geography Teaching (18 hours)
- Geology Teaching (16 hours)
- German Teaching (17–36 hours)
- Health Education (23 hours)

- History Teaching (21 hours)
- Japanese Teaching (25–41 hours) (see Department of Asian and Near Eastern Languages)
- Latin Teaching (23–31 hours) (see Department of Humanities, Classics, and Comparative Literature)
- Mathematics Education (33 hours)
- Physics Teaching (26 hours)
- Political Science Teaching (21 hours)
- Psychology Teaching (21 hours)
- Russian Teaching (17–32 hours) (see Department of Germanic and Slavic Languages)
- Spanish Teaching (21–37 hours)
- Teaching English to Speakers of Other Languages (TESOL) K–12 (19 hours)(see Linguistics and English Language Department)
- Theatre Arts Education (33 hours)

Option 2: Restricted Teaching Major and Approved Teaching Minor

The following subjects *require* an approved teaching minor from a frequently taught academic area.

- Latin Teaching (78–91 hours) (see Department of Humanities, Classics, and Comparative Literature)
- School Health Education (75–80 hours)

Approved Teaching Minors for Option 2 Teaching Majors

- Art Education (21 hours)
- Chemistry Education (15–18 hours)
- Coaching and Teaching Physical Education (23.5 hours)
- Computer Science Teaching (17–18 hours)
- Driver Safety Education (16 hours) (see Department of Health Science)
- English Teaching (27 hours)
- French Teaching (23–38 hours)
- Geography Teaching (18 hours)
- German Teaching (17–36 hours)
- History Teaching (21 hours)
- Mathematics Education (33 hours)
- Physics Teaching (26 hours)
- Spanish Teaching (21–37 hours)
- Teaching English to Speakers of Other Languages (TESOL) K–12 (19 hours)(see Linguistics and English Language Department)
- Theatre Arts Education (33 hours)

Option 3: Composite Teaching Major

A teaching composite enables a student to complete a broader range of content area courses. However, a composite requires at least 46 hours in the teaching major, usually exceeding the 120 hours required for graduation. Teaching composite majors are available in the following subject areas:

- Art Education (K–12) (85 hours)
- Biological Science Education (82 hours) (see Department of Biology)
- Earth and Space Science Education (83–86 hours)(see Department of Geological Sciences)
- Family and Consumer Science Education (87–88 hours) (see School of Family Life)
- Music Education: K–12 Choral Emphasis (87 hours)
- Music Education: K–12 Instrumental Emphasis (92 hours)
- Teaching Physical Science (77.5–78.5 hours)
- Teaching Social Science (76 hours) (see Department of Teacher Education)
- Technology and Engineering Education (73–74 hours) (see School of Technology)

Teaching Majors

The following is a list of teaching majors and minors offered jointly with the Department of Teacher Education and other academic departments throughout the university. For specific major course requirements, see the department offering the teaching major or minor. For licensure requirements, refer to the above information.

Teaching Majors and Composite Teaching Majors

(Hours listed include courses taken to fill both major and licensure requirements.)

- Art Education (K–12) (85 hours)
- Biological Science Education (82 hours) (see Department of Biology)
- Chemistry Education (80.5 hours)
- Dance Education (75–78 hours)
- Earth and Space Science Education (83–86 hours)(see Department of Geological Sciences)
- English Teaching (74–91 hours)
- Family and Consumer Science Education (87–88 hours) (see School of Family Life)
- French Teaching (70–93 hours)
- German Teaching (76–100 hours)
- History Teaching (67–87 hours)
- Latin Teaching (78–91 hours) (see Department of Humanities, Classics, and Comparative Literature)
- Mathematics Education (74 hours)
- Music Education: K–12 Choral Emphasis (87 hours)
- Music Education: K–12 Instrumental Emphasis (92 hours)
- Physical Education Teaching/Coaching (K–12) (78 hours)
- Physics Teaching (74.5–77.5 hours)
- School Health Education (75–80 hours)
- Spanish Teaching (75–108 hours)
- Special Education: Mild/Moderate Disabilities Emphasis (55–56 hours)
- Special Education: Severe Disabilities Emphasis (55–56 hours)
- Teaching Physical Science (77.5–78.5 hours)
- Teaching Social Science (76 hours) (see Department of Teacher Education)

- Technology and Engineering Education (73–74 hours) (see School of Technology)
- Theatre Arts Education (76 hours)

Teaching Minors

- Art Education (21 hours)
- Chemistry Education (15–18 hours)
- Chinese Teaching (26–42 hours) (see Department of Asian and Near Eastern Languages)
- Coaching and Teaching Physical Education (23.5 hours)
- Computer Science Teaching (17–18 hours)
- Driver Safety Education (16 hours) (see Department of Health Science)
- English Teaching (27 hours)
- French Teaching (23–38 hours)
- Geography Teaching (18 hours)
- Geology Teaching (16 hours)
- German Teaching (17–36 hours)
- Health Education (23 hours)
- History Teaching (21 hours)
- Japanese Teaching (25–41 hours) (see Department of Asian and Near Eastern Languages)
- Latin Teaching (23–31 hours) (see Department of Humanities, Classics, and Comparative Literature)
- Mathematics Education (33 hours)
- Physics Teaching (26 hours)
- Political Science Teaching (21 hours)
- Psychology Teaching (21 hours)
- Russian Teaching (17–32 hours) (see Department of Germanic and Slavic Languages)
- Spanish Teaching (21–37 hours)
- Teaching English to Speakers of Other Languages (TESOL) K–12 (19 hours)(see Linguistics and English Language Department)
- Theatre Arts Education (33 hours)

Professional Education Requirements

All teacher candidates in secondary education complete an approved sequence of required professional education courses. Please see the appropriate department listing for each teaching major.

Fingerprint and Background Check

All candidates for teacher licensure are required by state statute to be fingerprinted and pass an FBI background check before participating in required field experiences. Fingerprints are taken in the Education Advisement Center (EAC) in 120 MCKB. Contact the EAC for the schedule. Allow from five to six weeks for fingerprints to be processed. FBI background clearance is valid for only three years. If clearance expires before graduation, candidates must repeat the fingerprinting and clearance process, including a new fee payment.

Failing to expunge a police record prior to the background check may result in a blocked registration while a panel reviews the charges. Candidates who cannot pass an FBI background check will be removed from the teacher education licensure program.

Additional Licensing Requirements

It is the student's responsibility to be sure that the Praxis test has been taken and that BYU has received the test scores, that their fingerprint background clearance is current prior to graduation and that state licensing fees have been paid. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements contact the Education Advisement and Certification Center, 120 MCKB, (801) 422-3426. Graduation and Utah licensure cannot be processed until these requirements have been completed.

Student Teaching Prerequisites

1. *Teaching Major.* Complete all teaching major requirements. Exceptions require a written appeal submitted to Field Services (120 MCKB).
2. *Teaching Within a Minor.* Students requesting to student teach in the area of a teaching minor must (1) complete all minor course work before student teaching and (2) obtain written permission from the Teacher Education Department and the teaching minor department.
3. *Professional Education Courses.* Complete CPSE 402, Sc Ed 276R, 350, 353, 378, 379, IP&T 286, and the appropriate 377R or 477 methods course with a C or higher.
4. *Application.* Apply for student teaching at the Education Advisement and Certification Center. Packets are available online at http://education.byu.edu/fieldservices/

Licensing Procedures

Students are responsible for keeping the Education Advisement and Certification Center informed of their progress toward licensure. If any changes are to be made in the licensing program outlined in this catalog, the student must prepare and circulate the necessary memoranda to obtain approval from both the academic major department and secondary education.

To avoid undue delay licensing, students are urged to arrange for a personal review of their Education Advisement and Certification Center file well in advance of registering for their final semester, because completion of graduation requirements does not necessarily mean that all licensing requirements have been met.

Jill Rudy, Coordinator
4157 JFSB, (801) 422-2869

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

Admission to Program

The American Studies degree program is open enrollment.

The Discipline

The American Studies major examines the sweep of American experience, society, culture, and civilization from a variety of viewpoints—literature, history, gender, humanities, regions, politics, ethnic groups, geography, art, economics, religion, and folklore—based in core courses designed to examine the American experience from a variety of standpoints. Majors are encouraged to develop particular skills in writing; literary criticism; historical research; and social, political, and economic analysis. The program provides not only rich interdisciplinary experience but also exposure to a variety of excellent scholars and teachers.

Career Opportunities

On graduation, American Studies students are usually qualified to enter graduate and professional schools (for law, MBA, MPA, PhD), government or community service, or advanced graduate studies in the liberal arts, including American studies, American civilization, American culture, American history, and American literature.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Program Requirements | View MAP

1. Complete the following with at least a B grade before applying to the program:
   GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

2. Complete 6 hours (with at least a B grade in each course) from the following before applying to the program. All courses are required.
   HIST 201 : World Civilization to 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also. Independent Study also.
   DESCRIPTION: World civilization from Greek antiquity to Renaissance; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 202 : World Civilization from 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: Hist 201.
   DESCRIPTION: World civilization from Renaissance to present; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 220 : The United States Through 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent study also.
   DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

   HIST 221 : The United States Since 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   DESCRIPTION: Industrialization, immigration, urbanization, political and social movements, and foreign policy.

   Note: Program applications are due January 15 for fall semester and September 15 for winter semester. For additional requirements see the Education Advisement Center, 120 MCKB, or go online at http://education.byu.edu/ted/secondary_forms.html.

3. Complete the following:
   HIST 364 : Utah. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Contributions of Native Americans, explorers, mountain men, miners, government officials, Mormons, and other groups in the nineteenth century. Impact of national movements, various peoples, politics, economics, and social and cultural change in the twentieth century.

   (must be completed before Sc Ed 476R/496R).

4. Complete one course from 300-level or above history courses.

5. Complete the following:
   GEOG 130 : Introduction to Human Geography. (3:3:0)
   OFFERED: F, W; Sp on demand.

DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

6. Complete one course from the following:

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 260 : Europe. (3:3:0)
OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 304 : Geography of Climates. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements, controls, distribution, and classification of the earth's climates.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

GEOG 336 : Geography of Urban Environment. (3:3:0)
OFFERED: F
DESCRIPTION: Urban patterns, city structures, and spatial analysis of cities as they affect their residents.

GEOG 341 : Political Geography. (3:3:0)
OFFERED: F, W
DESCRIPTION: Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.

GEOG 346 : Population Geography. (3:3:0)
OFFERED: W
DESCRIPTION: Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

7. Complete the following:

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

and

Either any 200-level or above economics course
Or one of the following courses:

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

MANEC 300** : Economics of Market Systems. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Econ 110.
DESCRIPTION: Decision making, price formation, and economic organization of the firm in market environments.

MANEC 376** : Government and Business. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110.
DESCRIPTION: Interaction of political and economic forces in determining product and asset prices and the distribution of income and wealth.

PL SC 344 : Comparative Political Economy. (3:3:0)
PREREQUISITE: PlSc 150.
DESCRIPTION: Overview of political economy from a comparative perspective. Classic theorists (Smith, Marx, Schumpeter, etc.); classic questions (industrialization, national economic policy, property, globalization, law, and economics).

PL SC 372 : International Political Economy. (3:3:0)
OFFERED: F, W
DESCRIPTION: Political implications of international trade, investment, and monetary policies within an increasingly interdependent global context; transnationalism.

**Go to 480 TNRB to receive permission to register for these courses.

8. Complete the following:
PL SC 110 : American Government and Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also. Independent Study also.
DESCRIPTION: Origin and development of federal Constitution; national, state, and local governments and politics.

9. Complete the following:
Either
PL SC 150 : Comparative Government and Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also.
DESCRIPTION: Patterns of European, Asian, Latin American, and other political systems.

Or any 300-level or higher political science course.

10. Complete the following:
PSYCH 111 : General Psychology. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Basic course in modern scientific psychology.

11. Complete one course from the following:
PSYCH 321 : Developmental Psychology: Adolescence. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.

DESCRIPTION: Development and maturation during adolescence; research methodology.
NOTE: Contains content featured in the Graduate Record Examination (GRE) Subject Test.

PSYCH 341 : Personality. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Individual patterns of behavior, thought, and emotion; personality theories and their associated strategies of research, assessments, and personality change.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 342 : Abnormal Psychology. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Dynamics of maladjustment; major psychological disorders and therapeutic procedures. Fieldwork required.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 350 : (Psych-Soc) Introduction to Social Psychology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Conformity and obedience; socialization, norms, roles; attitudes, leadership, group processes.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 361 : Principles of Learning. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Principles of learning; representative experiments.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PSYCH 365 : Motivation. (3:3:0)
OFFERED: F, W
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Determinants of motivation, relationship of motives to emotion, cognition, personality, and action. Implications for understanding self and others.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

12. Complete one course from the following:
SOC 111 : Introductory Sociology. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Social group influence; social interaction, processes, organization, and change; family, religion, government, population, culture, race relations.

ANTHR 101 : Social/Cultural Anthropology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Aspects of society and culture: kinship, beliefs, economy, and political order among peoples worldwide. Methods and perspectives used in social/cultural anthropology.
NOTE: Honors also.

ANTHR 110 : Introduction to Archaeology. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Review of great archaeological discoveries about the ancient world. Overview of world prehistory.

13. Make application during sophomore year to the Teacher Education Department (201 MCKB) one semester prior to beginning the education courses. Because of space limitations not everyone who applies will be accepted.

14. Maintain a GPA of 2.85. A grade lower than C- will not be accepted in any of the major courses.

15. Complete the Professional Education Component:
a. Complete the following:
CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the

development of educational applications for secondary education settings.

SC ED 276R : Exploration of Teaching. (3-4:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

: Exploration of Teaching - Theatre and Media Arts.
: Exploration of Teaching: English.
: Exploration of Teaching: Foreign Language.
: Exploration of Teaching: Music.
: Exploration of Teaching: Social Science.
: Exploration of Teaching: Art.
: Exploration of Teaching: Biological Sciences.
: Exploration of Teaching: Dance.
: Exploration of Teaching: Exercise Sciences.
: Exploration of Teaching: Family and Consumer Sciences.
: Exploration of Teaching: Health.
: Exploration of Teaching: Mathematics.
: Exploration of Teaching: Physical Science.
: Exploration of Teaching: Technology Teacher Education.

(4 hours)

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 377R : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Fingerprint and FBI clearance; major-specific program requirements.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Sc Ed 377R or comparable major course.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

b. Complete 12 hours of one of the following:

SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.

: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

*Hours include courses that may fulfill university core requirements.

300-Level Courses

SC ED 326 : Foundations of Teaching. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ScEd 276R.
DESCRIPTION: Knowledge base of teaching, including social, legal, familial, governmental, technological, and empirical impacts upon the teacher's personal and professional life.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 375 : Theory and Methods of Secondary Education. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: ScEd 276R.
DESCRIPTION: Disciplines of education; analysis of educational practice and relationship between theories and research on education and the practice of teaching.

SC ED 377R : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Fingerprint and FBI clearance; major-specific program requirements.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Sc Ed 377R or comparable major course.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

SC ED 380 : Content-Area Literacy. (2:2:0)

OFFERED: F
PREREQUISITE: Concurrent enrollment in Sc Ed 377 or equivalent course.
DESCRIPTION: Current theory and related practices in literacy assessment and instruction for content-area classrooms.

400-Level Courses

SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.

Ira A. Fulton College of Engineering and Technology Advisement Center
264 CB, (801) 422-4325

Admission to Degree Program

Each degree program in the School of Technology has specific enrollment requirements. Please see each program's admission requirements for specific details.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Construction Management
BS in Facility and Property Management
BFA in Industrial Design
BS in Information Technology
BS in Manufacturing Engineering Technology
BS in Technology and Engineering Education

Minors

Information Technology
Manufacturing

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Technology

For more information see the BYU 2008–2009 Graduate Catalog.

Animation Degree Program

The BFA in animation is an interdisciplinary degree offered by the College of Fine Arts and Communications through the cooperative involvement of the Department of Theatre and Media Arts, the Department of Visual Arts, and the Ira A. Fulton College of Engineering and Technology's School of Technology. Please see the Visual Arts section of this catalog for degree requirements, or go to the College of Fine Arts and Communications Advisement Center for more information about entrance requirements to this program.

General Information

Financial Support Opportunities

In addition to general university scholarships and student employment, the School of Technology offers scholarships, an academic internship program with industry, and a variety of departmental part-time jobs such as research assistant, new-product developer, lab assistant, paper grader, electronics technician, maintenance assistant, computer operator, etc.

Academic Internships

Industrial experience in the major before graduation is strongly encouraged. Qualified students may enroll in an academic internship, which must be approved before the actual experience. A formal report and employer evaluation are required.

Transfer Credit

When transferring into the school, students should meet with Beverly Harmon, School of Technology advisor, before registering for classes to evaluate their technical courses and to get help in planning their schedule for completing their remaining course work.

Extracurricular Activities

Students are encouraged to join student chapters of national professional organizations affiliated with their major area of study. Student interaction, leadership, and career awareness are important to engineering and technology studies. All majors are encouraged to not only become members and actively participate in these chapters but also to support field trips, guest speakers, banquets, and program activities.

Professional Program Acceptance

Students must be accepted into the professional program before they may take upper-division courses in construction management, facility and property management, and industrial design. Construction management and industrial design have additional restrictions that apply to major courses. (See the construction management and the industrial design sections of this catalog that follow.) A professional program application (available from the Ira A. Fulton College of Engineering and Technology Advisement Center, 264 CB) must be completed and submitted to the advisement center.

Academic Standards and Continuance

On gaining acceptance into the professional program, students must maintain a minimum university cumulative grade point average of 2.0. A professional program course may not be retaken more than once.

Student Advising

We strongly encourage students to visit with the School of Technology advisor (250 SNLB) at least every year, and preferably every semester, to ensure that they are making appropriate progress in the program and taking courses in the appropriate sequence.

UNDERGRADUATE CATALOG 2008 - 2009

Construction Management

Kevin Miller, Chair
230 SNLB, (801) 422-2021

Admission to Degree Program

Admission to the construction management (CM) preprofessional program is open to all BYU students. Students may then apply for the professional program. An application to the professional program must be submitted upon completion of required prerequisite courses (Phscs 105, Engl 150 or equivalent, Math 112, and CM 105). Along with the application, the candidate should send a resumé and a letter indicating why he or she would like to major in construction management, including in it a paragraph explaining the candidate's intentions for fulfilling the required 300 hours of construction-related work. Applicants will be evaluated based on GPA, work experience, and leadership.

Program application deadlines are August 1, December 1, and April 1. Upon acceptance into the professional level, students are required to attend one spring or summer term, and enroll in CM courses. Students admitted to the construction management professional program during the April admittance cycle must attend BYU during the summer term following admittance and complete CM 210, 211, and 217 during that summer term. Students unable to do this will need to reapply to the professional program.

The Discipline

Construction management is the business of managing projects. It is a rapidly growing field that requires technical expertise and the ability to work with people, and there is increasing demand in the industry for capable graduates. Construction management offers an exciting career that requires abilities in business management, architecture, engineering, and construction technology.

Learning Outcomes

- Lead the construction process from inception to closeout.
- Construct sustainable projects that require fewer resources to build and operate during the lifecycle of the project.
- Build projects more efficiently while maintaining a safe work environment.
- Communicate with and understand the concerns of designers, owners, trade contractors, and building officials.
- The ability to use cutting-edge construction tools to effectively build and manage construction projects.
- Maintain high moral and ethical standards.
- Desire and pursue lifelong learning and service.
- Support worthwhile causes for the benefit of mankind.

Career Opportunities

The program has had nearly 100 percent placement within the construction industry. Graduates find employment in a variety of construction-industry-related positions. Typical position titles are superintendent, estimator, scheduler, field engineer, general contractor, safety engineer, project manager, procurement manager, project engineer, cost controller, project controller, site analyst, etc.

Alumni find they are qualified for employment in all types of construction. It is a broad-based program that provides the training and experience needed for several occupational opportunities.

This major is also excellent preparation for students desiring graduate study in architecture, business management, or construction law.

General Information

High School Preparation

Recommended high school courses include drafting, algebra, trigonometry, calculus, physics, and construction, along with the other courses necessary for admittance to BYU.

Prearchitecture Program

Brigham Young University does not have an architecture program, but construction management provides an excellent preparatory program for a master's degree in architecture. Consult with the School of Technology advisor concerning a prearchitecture program.

Special Notice

Students receiving C– or lower grades in required courses will be placed on department probationary status.

Program Requirements | View MAP

1. Complete the following preprofessional courses:
   CM 105 : Construction Documents. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: How and why specific types of contract documents and specifications are compiled for a project; reading and interpreting complex construction documents.
   NOTE: Fee.

   ENGL 150 : Writing and Rhetoric. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
   NOTE: Fulfills General Education First-Year Writing requirement.

   or equivalent
   MATH 112 : Calculus 1. (4:5:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 and 111 or equivalent.
   DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
   NOTE: Honors also.

   PHSCS 105 : Introductory Applied Physics. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: High school algebra and trigonometry.
   RECOMMENDED: Concurrent enrollment in Phscs 107.
   DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

2. Be accepted into the professional program. Students admitted to the construction management professional program during the April admittance cycle must attend BYU during the summer term following admittance and complete CM 210, 211, and 217 during that summer term. Students unable to do this will need to reapply to the professional program.

3. Students must complete 300 hours of preapproved construction-related work after acceptance into the professional program and submit a report during the CM 491R class.

4. Complete the following professional courses:
   CM 155 : Architectural Drafting. (3:2:3)
   OFFERED: F, W
   DESCRIPTION: Developing architectural plans; floor, foundation, plot, elevations, sections, and details. Introduction to architectural CAD
   NOTE: Fee.

   CM 210 : Light Structural Systems. (3:2:4)
   OFFERED: F, W, Su
   DESCRIPTION: Light structural construction using wood and metal framing systems.
   NOTE: Fee.

CM 211 : Finishing Methods in Construction. (2:2:0)
OFFERED: F, W, Su
DESCRIPTION: Managing the interior and exterior finish work in construction. Quality-control procedures and inspection.

CM 217 : Concrete and Masonry Construction. (3:2:3)
OFFERED: F, W, Su
DESCRIPTION: Quality concrete and masonry, including admixtures, concrete forming reinforcement, curing, and testing. Brick and block masonry construction. Quality-control.

CM 241 : Electrical Systems in Construction. (2:2:2)
OFFERED: F, W
DESCRIPTION: Electrical circuits in the construction industry.

CM 311 : Quantity Takeoffs. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 210, 211, 217.
DESCRIPTION: Compiling, organizing, and analyzing all the items that influence and contribute to total cost of residential and commercial construction projects. Maximizing estimating effectiveness and efficiency through computer integration.

CM 320 : Mechanical Systems. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 210.
DESCRIPTION: Basic plumbing and HVAC principles, materials; installation and application methods. Systems sizing and design, heat loss/gain calculations, and payback analysis. Managing the plumbing and HVAC trades.

CM 335 : Construction Equipment and Soils Mechanics. (3:3:0)
OFFERED: F, W
PREREQUISITE: Geol 330.
DESCRIPTION: Basic soil mechanics and subsurface construction theory and practice for foundations of building and engineered facilities. Underpinning, piling, dry and wet excavating, dewatering, cofferdams, caissons, and spread and strip foundations. Lecture, field trips.

CM 345 : Construction Safety Management. (2:2:0)
OFFERED: F, W
DESCRIPTION: Safety requirements and responsibilities in construction; cost and impact of accidents; accident investigation; safety inspection; hazards analysis; substance abuse; record keeping.

CM 385 : Construction Contracts and Law. (3:3:0)
OFFERED: F, W
DESCRIPTION: Contractual obligations defined, including agency, contract interpretation, performance and liability issues, breach and termination, judicial remedy, and arbitration as applied to the construction industry. Overview of municipal zoning ordinances and codes.

CM 411 : Advanced Estimating and Bidding. (3:2:3)
OFFERED: F, W
PREREQUISITE: CM 311.
DESCRIPTION: Commercial estimating topics include competitive bidding strategies, bid analysis, paper and electronic plans, site work, and computerized estimating systems.

CM 412 : Construction Scheduling and Cost Control. (3:2:3)
OFFERED: F, W
PREREQUISITE: CM 311 or concurrent enrollment.
DESCRIPTION: Planning, scheduling, and monitoring construction projects, including development of critical path networks (CPM and PERT), Gannt bar charts, construction cost control, and reporting practices.

CM 415 : Construction Project Management and Control. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 412.
DESCRIPTION: Managing and controlling construction projects. Planning, startup procedures, inspections, progress measurements, field reports, change order and submittal processing, equipment management, and project closeout.

CM 426 : Real Estate Principles and Development. (4:4:0)
OFFERED: F, W

PREREQUISITE: BusM 300 and instructor's consent.
DESCRIPTION: Principles of real estate investments, emphasizing mortgage instruments and development of property from raw land to residential and commercial properties.

CM 445 : Construction Company Operations and Management. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 300; CM 415 or concurrent enrollment.
DESCRIPTION: Organizing, controlling, and directing operations of construction companies; financial management, budgeting, cash-flow analysis, purchasing and cost control, and business planning.

5. Complete seven registrations of the following (one enrollment each semester except when enrolled in CM 491R):
CM 291R : Undergraduate Seminar. (.5:1:0)
OFFERED: F, W
NOTE: Required each semester for undergraduate majors who are not enrolled in 491R. School lecture series attendance required.

6. Complete one registration of the following during the next to last semester before graduation:
CM 491R : Senior Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Developing best employment opportunities and strategy; interviewing, sales negotiations, resume and letter writing, and salary negotiations. Report on 300 hours of construction-related work experience.
NOTE: College Lecture attendance required.

7. Complete the following supporting courses:
ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

CE EN 103 : Engineering Mechanics--Statics. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119 or concurrent enrollment (if 119, then Math 111 must have already been taken).
DESCRIPTION: Concepts of mechanics: force systems in equilibrium, resultants, friction, centroids, utilization of vector algebra.

CE EN 113 : Engineering Measurements. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: Math 111, CEEn 112.
DESCRIPTION: Measurement of horizontal and vertical distances and angles to locate engineering projects including profiles, plane and topographical mapping, site layout, and earthwork.

CE EN 302 : Structures and Strength of Materials Fundamentals. (4:4:0)
OFFERED: F
PREREQUISITE: Phscs 105, CEEn 103.
DESCRIPTION: Structural mechanics and strength of materials for soils, woods, concrete, and steel applied to practical construction situations.
NOTE: For nonmajors only.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

GEOL 330 : Geology for Engineers. (3:2:2)
OFFERED: F, W, Sp
DESCRIPTION: Geological processes and materials bearing on engineering practices. Field trips.

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and

Program Requirements | View MAP

1. Students can complete the Advanced Writing requirement by taking Engl 311, 312, 314, 315, or 316 according to individual academic direction. Those interested in graduate work are urged to take the Hist 200, 490 option.

2. Majors should begin course work in the major by taking AmSt 303 fall semester of the sophomore or (at latest) junior year.

3. Complete the following prerequisite courses:

   ECON 110 : Economic Principles and Problems. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

   HUM 261 : Introduction to American Humanities 1: Colonial Era Through 1876. (3:3:0)
   OFFERED: F, W, Sp; Honors also.
   DESCRIPTION: Value systems reflected in the arts and ideas of the United States from the colonial era to 1876.

   HUM 262 : Introduction to American Humanities 2: 1877 to the Present. (3:3:0)
   OFFERED: F, W; Honors also.
   DESCRIPTION: Value systems reflected in the arts and ideas of the United States from 1877 to the present.

   PL SC 110 : American Government and Politics. (3:3:0)
   OFFERED: F, W; Sp and Su on demand. Honors also. Independent Study also.
   DESCRIPTION: Origin and development of federal Constitution; national, state, and local governments and politics.

4. Complete the following:

   AM ST 303 : Studies in the American Experience. (3:3:0)
   DESCRIPTION: Social and intellectual life in American culture from the colonial period to the present.

5. Complete ten courses (30 hours) from the following:

   AM ST 200 : The American West as a Region. (3:3:0)
   DESCRIPTION: Geography, natural history, history, and cultures of the American West.

   AM ST 360 : Film in American Culture. (3:3:0)
   DESCRIPTION: Selected readings, lectures, and analysis of specific motion pictures as social documents, reflecting different facets of the American experience.

   AM ST 390R : Topics in American Studies. (3:3:0)
   DESCRIPTION: Multidisciplinary study of a carefully defined problem in American culture. Topics vary.

   (twice only)
   AM ST 395 : Theories and Methods in American Studies. (3:3:0)
   PREREQUISITE: AmSt 303.
   DESCRIPTION: Readings/discussion seminar introducing students to theories, definition, and practice of American Studies.

   ARTHC 345 : American Art. (3:3:0)
   PREREQUISITE: ArtHC 202 or instructor's consent.
   DESCRIPTION: American painting and sculpture from colonial through modern times.

   ARTHC 365 : American Architecture. (3:3:0)
   DESCRIPTION: Major figures, monuments, and movements in American architecture from colonial period through

organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

PHIL 213 : Introduction to Ethics. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

8. Complete one course from the following:
ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

M COM 320 : Communication in Organizational Settings. (3:3:1)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: GE First-Year Writing requirement. To be taken before senior year. Not for freshmen.
DESCRIPTION: Developing written and oral communications for professional organizations, including composing and designing employment communications. Incorporates oral presentations.
NOTE: Fulfills GE Advanced Written and Oral Communication requirement.

9. Complete department packet and exit interview.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

CM 105 : Construction Documents. (3:3:0)
OFFERED: F, W
DESCRIPTION: How and why specific types of contract documents and specifications are compiled for a project; reading and interpreting complex construction documents.
NOTE: Fee.

CM 155 : Architectural Drafting. (3:2:3)
OFFERED: F, W
DESCRIPTION: Developing architectural plans; floor, foundation, plot, elevations, sections, and details. Introduction to architectural CAD
NOTE: Fee.

CM 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W
PREREQUISITE: department chair's and cooperative education coordinator's consent.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

CM 210 : Light Structural Systems. (3:2:4)
OFFERED: F, W, Su
DESCRIPTION: Light structural construction using wood and metal framing systems.
NOTE: Fee.

CM 211 : Finishing Methods in Construction. (2:2:0)
OFFERED: F, W, Su
DESCRIPTION: Managing the interior and exterior finish work in construction. Quality-control procedures and inspection.

CM 217 : Concrete and Masonry Construction. (3:2:3)
OFFERED: F, W, Su
DESCRIPTION: Quality concrete and masonry, including admixtures, concrete forming reinforcement, curing, and testing. Brick and block masonry construction. Quality-control.

CM 241 : Electrical Systems in Construction. (2:2:2)
OFFERED: F, W
DESCRIPTION: Electrical circuits in the construction industry.

CM 291R : Undergraduate Seminar. (.5:1:0)
OFFERED: F, W
NOTE: Required each semester for undergraduate majors who are not enrolled in 491R. School lecture series attendance required.

300-Level Courses

CM 311 : Quantity Takeoffs. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 210, 211, 217.
DESCRIPTION: Compiling, organizing, and analyzing all the items that influence and contribute to total cost of residential and commercial construction projects. Maximizing estimating effectiveness and efficiency through computer integration.

CM 320 : Mechanical Systems. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 210.
DESCRIPTION: Basic plumbing and HVAC principles, materials; installation and application methods. Systems sizing and design, heat loss/gain calculations, and payback analysis. Managing the plumbing and HVAC trades.

CM 335 : Construction Equipment and Soils Mechanics. (3:3:0)
OFFERED: F, W
PREREQUISITE: Geol 330.
DESCRIPTION: Basic soil mechanics and subsurface construction theory and practice for foundations of building and engineered facilities. Underpinning, piling, dry and wet excavating, dewatering, cofferdams, caissons, and spread and strip foundations. Lecture, field trips.

CM 345 : Construction Safety Management. (2:2:0)
OFFERED: F, W

CM 385 : Construction Contracts and Law. (3:3:0)
OFFERED: F, W
DESCRIPTION: Contractual obligations defined, including agency, contract interpretation, performance and liability issues, breach and termination, judicial remedy, and arbitration as applied to the construction industry. Overview of municipal zoning ordinances and codes.

400-Level Courses

CM 411 : Advanced Estimating and Bidding. (3:2:3)
OFFERED: F, W
PREREQUISITE: CM 311.
DESCRIPTION: Commercial estimating topics include competitive bidding strategies, bid analysis, paper and electronic plans, site work, and computerized estimating systems.

CM 412 : Construction Scheduling and Cost Control. (3:2:3)
OFFERED: F, W
PREREQUISITE: CM 311 or concurrent enrollment.
DESCRIPTION: Planning, scheduling, and monitoring construction projects, including development of critical path networks (CPM and PERT), Gannt bar charts, construction cost control, and reporting practices.

CM 415 : Construction Project Management and Control. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 412.
DESCRIPTION: Managing and controlling construction projects. Planning, startup procedures, inspections, progress measurements, field reports, change order and submittal processing, equipment management, and project closeout.

CM 426 : Real Estate Principles and Development. (4:4:0)
OFFERED: F, W
PREREQUISITE: BusM 300 and instructor's consent.
DESCRIPTION: Principles of real estate investments, emphasizing mortgage instruments and development of property from raw land to residential and commercial properties.

CM 445 : Construction Company Operations and Management. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 300; CM 415 or concurrent enrollment.
DESCRIPTION: Organizing, controlling, and directing operations of construction companies; financial management, budgeting, cash-flow analysis, purchasing and cost control, and business planning.

CM 491R : Senior Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Developing best employment opportunities and strategy; interviewing, sales negotiations, resume and letter writing, and salary negotiations. Report on 300 hours of construction-related work experience.
NOTE: College Lecture attendance required.

CM 494R : Special Problems in Construction Management. (.5-3:ARR:ARR)
OFFERED: F, W
PREREQUISITE: instructor's consent.

500-Level Graduate Courses (available to advanced undergraduates)

CM 510 : Integrating Construction Software. (3:3:0)
PREREQUISITE: CM 411 or equivalent.
DESCRIPTION: Integrating information generated through state-of-the-art hardware and software using scheduling, cost control, estimating, spreadsheets, databases, and word processing to improve the construction process.

Facility and Property Management

Jeffery L. Campbell, Chair
230 SNLB, (801) 422-2021

Admission to Degree Program

Admission to the facility and property management preprofessional program is open to all BYU students, who may then apply for the professional program. After completing required prerequisite courses, candidates should send an application to the professional program, along with a letter indicating what skills they have that would make them a successful facility manager; a description of the candidate's leadership experience; and a resumé. Applicants will be evaluated based on GPA, skills, leadership, and work experience.

Program application deadlines are April 1, August 1, and December 1.

The Discipline

This program prepares students to be part of the administrative/supervisory team in the increasingly complex world of facilities and property management. The facilities manager combines management practices with the most current technical knowledge in nine competency areas: real estate, operations and maintenance, human and environmental factors, project planning and management, finance, quality assessment and innovation, facility administration, communication, and technology.

Career Opportunities

The program has nearly 100 percent job placement within the field of facilities management. Employment can be found with colleges and universities, hospitals and health care centers, sports and entertainment arenas, and general business facilities.

Responsibilities encompass supervision of planning, renovation, and maintenance of buildings and grounds. Attention is given to employee health and safety, security, disaster planning, and environmental concerns. The program is broad based and prepares managers for all types of facilities, with salaries among the upper-level of university graduates.

Further educational opportunities include advanced degrees in facilities management, business administration, public administration, or other related fields.

Learning Outcomes

- Develop facility leadership
- Understand human and environmental factors
- Planning and project management
- Understand finance in the facility and property management environment
- Operations and maintenance
- Principle and practices of real estate
- Enhance communication skills
- Integrative and problem solving skills

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center or the School of Technology advisor for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. Complete the following preprofessional courses:
   ACC 200 : Principles of Accounting. (3:3:0)
   DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
   NOTE: Independent Study also.

   ECON 110 : Economic Principles and Problems. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

   FPM 110 : Fundamentals of Facility and Property Management. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: Overview of the profession of facility and property managaement, including space regulations, finance, project management, and other current practices.

   STAT 221 : Principles of Statistics. (3:3:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 or equivalent.
   DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   NOTE: Honors and Independent Study also.

2. Be accepted into the professional program.

3. Complete 2 hours of the following:
   FPM 199R : Technical Internship. (2:0:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Acceptance into the facilities and property management professional program or coordinator's consent.
   DESCRIPTION: Cooperative education and related technical on-the-job work experience.

4. Complete six registrations of the following:
   FPM 291R : Special Topics in Facility and Property Management. (.5:1:0)
   OFFERED: F, W
   DESCRIPTION: Topics presented by professionals relating to the facility and property management discipline.

5. Complete the following:
   BUS M 300 : Financial Management. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Acc 200 or equivalent.
   DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
   NOTE: For nonmanagement majors.

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

CM 105 : Construction Documents. (3:3:0)
OFFERED: F, W
DESCRIPTION: How and why specific types of contract documents and specifications are compiled for a project; reading and interpreting complex construction documents.
NOTE: Fee.

CM 155 : Architectural Drafting. (3:2:3)
OFFERED: F, W
DESCRIPTION: Developing architectural plans; floor, foundation, plot, elevations, sections, and details. Introduction to architectural CAD
NOTE: Fee.

CM 210 : Light Structural Systems. (3:2:4)
OFFERED: F, W, Su
DESCRIPTION: Light structural construction using wood and metal framing systems.
NOTE: Fee.

CM 211 : Finishing Methods in Construction. (2:2:0)
OFFERED: F, W, Su
DESCRIPTION: Managing the interior and exterior finish work in construction. Quality-control procedures and inspection.

CM 241 : Electrical Systems in Construction. (2:2:2)
OFFERED: F, W
DESCRIPTION: Electrical circuits in the construction industry.

CM 311 : Quantity Takeoffs. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 210, 211, 217.
DESCRIPTION: Compiling, organizing, and analyzing all the items that influence and contribute to total cost of residential and commercial construction projects. Maximizing estimating effectiveness and efficiency through computer integration.

CM 320 : Mechanical Systems. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 210.
DESCRIPTION: Basic plumbing and HVAC principles, materials; installation and application methods. Systems sizing and design, heat loss/gain calculations, and payback analysis. Managing the plumbing and HVAC trades.

CM 385 : Construction Contracts and Law. (3:3:0)
OFFERED: F, W
DESCRIPTION: Contractual obligations defined, including agency, contract interpretation, performance and liability issues, breach and termination, judicial remedy, and arbitration as applied to the construction industry. Overview of municipal zoning ordinances and codes.

CM 412 : Construction Scheduling and Cost Control. (3:2:3)
OFFERED: F, W
PREREQUISITE: CM 311 or concurrent enrollment.
DESCRIPTION: Planning, scheduling, and monitoring construction projects, including development of critical path networks (CPM and PERT), Gannt bar charts, construction cost control, and reporting practices.

CM 415 : Construction Project Management and Control. (3:3:0)
OFFERED: F, W
PREREQUISITE: CM 412.
DESCRIPTION: Managing and controlling construction projects. Planning, startup procedures, inspections, progress measurements, field reports, change order and submittal processing, equipment management, and project closeout.

CM 426 : Real Estate Principles and Development. (4:4:0)
OFFERED: F, W
PREREQUISITE: BusM 300 and instructor's consent.

DESCRIPTION: Principles of real estate investments, emphasizing mortgage instruments and development of property from raw land to residential and commercial properties.

FPM 310 : Human and Environmental Management. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 100.
DESCRIPTION: Regulatory occupancy codes, safety and security planning. U.S. Green Building Council LEED for Existing Buildings accreditation preparation.

FPM 340 : Operations and Maintenance. (3:3:0)
OFFERED: W
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110; CM 241, 320.
DESCRIPTION: Acquisition, operation, maintenance, and disposal of building systems, structures, permanent interiors, furniture, and equipment; grounds and other exterior elements.

FPM 360 : Facility and Property Management Technologies. (3:3:3)
OFFERED: F
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110.
DESCRIPTION: Current trends and practices of computer-aided facility management (CAFM), computerized maintenance management systems (CMMS), and integrated computer-aided design (CADD) applications and databases.

FPM 399R : Capstone Internship. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110; instructor's consent.
DESCRIPTION: Cooperative education and related facility and property management on-the-job work experience. Project report required for IFMA Facility Management Professional (FMP) designation.

FPM 420 : Commercial Real Estate Management. (2:2:0)
OFFERED: F 1st block
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110; CM 426.
DESCRIPTION: Fundamentals of commercial real estate investment, understanding market influences, contracts and property portfolio management.

FPM 430 : Capital Planning and Asset Management. (3:3:0)
OFFERED: W
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110, 360.
DESCRIPTION: Understanding useful life of building and infrastructure systems and creating a process to manage their life cycles; emphasis on justifying and funding capital projects.

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

ORG B 327 : Human Resource Management. (3:3:0)
OFFERED: F, W; Independent Study also.
DESCRIPTION: Functions of human resource management: employee selection, wage and salary administration, training and development, employee relations, and human resource planning.

PWS 103 : Residential Landscape Design. (3:3:0)
OFFERED: F, W
DESCRIPTION: Design and composition as applied to development of residential grounds.

6. Complete one course from the following:
BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 380 : Executive Lectures. (1:1:0)
OFFERED: F

DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

7. Complete 5 credit hours form the following:

CM 345 : Construction Safety Management. (2:2:0)
OFFERED: F, W
DESCRIPTION: Safety requirements and responsibilities in construction; cost and impact of accidents; accident investigation; safety inspection; hazards analysis; substance abuse; record keeping.

CM 411 : Advanced Estimating and Bidding. (3:2:3)
OFFERED: F, W
PREREQUISITE: CM 311.
DESCRIPTION: Commercial estimating topics include competitive bidding strategies, bid analysis, paper and electronic plans, site work, and computerized estimating systems.

P MGT 321 : Financial Issues in Public and Not-for-Profit Management. (3:3:0)
DESCRIPTION: Introduction to fund accounting, budgeting processes, and sources of revenue such as taxes, municipal bonds, user fees, donations, grants, dues, and ticket sales.

RMYL 371 : Facilitating Meetings and Conferences. (3:3:1)
OFFERED: F, W
DESCRIPTION: Identifying roles of process facilitators as they plan and conduct meetings, activities, and conferences.

RMYL 483 : Public Facility Management. (2:2:0)
OFFERED: F, W
DESCRIPTION: Understanding public facility management: stadium, arena, convention center, performing arts center, etc. Box office, security, staging, food service, utilities, housekeeping, crowd management, event coordination, promotion, contracts, television, lighting, sound, press relations, etc.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

8. Complete department packet and exit interview.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

FPM 110 : Fundamentals of Facility and Property Management. (3:3:0)
OFFERED: F, W
DESCRIPTION: Overview of the profession of facility and property managaement, including space regulations, finance, project management, and other current practices.

FPM 199R : Technical Internship. (2:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acceptance into the facilities and property management professional program or coordinator's consent.
DESCRIPTION: Cooperative education and related technical on-the-job work experience.

200-Level Courses

FPM 291R : Special Topics in Facility and Property Management. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Topics presented by professionals relating to the facility and property management discipline.

300-Level Courses

FPM 310 : Human and Environmental Management. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 100.
DESCRIPTION: Regulatory occupancy codes, safety and security planning. U.S. Green Building Council LEED for Existing Buildings accreditation preparation.

FPM 340 : Operations and Maintenance. (3:3:0)
OFFERED: W
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110; CM 241, 320.
DESCRIPTION: Acquisition, operation, maintenance, and disposal of building systems, structures, permanent interiors, furniture, and equipment; grounds and other exterior elements.

FPM 360 : Facility and Property Management Technologies. (3:3:3)
OFFERED: F
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110.
DESCRIPTION: Current trends and practices of computer-aided facility management (CAFM), computerized maintenance management systems (CMMS), and integrated computer-aided design (CADD) applications and databases.

FPM 399R : Capstone Internship. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110; instructor's consent.
DESCRIPTION: Cooperative education and related facility and property management on-the-job work experience. Project report required for IFMA Facility Management Professional (FMP) designation.

400-Level Courses

FPM 420 : Commercial Real Estate Management. (2:2:0)
OFFERED: F 1st block
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110; CM 426.
DESCRIPTION: Fundamentals of commercial real estate investment, understanding market influences, contracts and property portfolio management.

FPM 430 : Capital Planning and Asset Management. (3:3:0)
OFFERED: W
PREREQUISITE: Acceptance into the facilities and property management professional program; FPM 110, 360.
DESCRIPTION: Understanding useful life of building and infrastructure systems and creating a process to manage their life cycles; emphasis on justifying and funding capital projects.

FPM 494R : Special Topics in Facilty and Property Management. (1-3:ARR:ARR)
PREREQUISITE: Acceptance into the facilities and property management professional program; instructor's consent.

"Gilded Age."

ECON 274 : American Economic History. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Impact on households, firms, and government of America's transformation from a rural, agricultural colony to a major industrial nation.

ENGL 336 : The American Novel. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Representative novels of the American tradition from the late eighteenth century to the present.

ENGL 358R : Ethnic, Regional, and Other Literatures in English. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Sections stressing Native American, African American, Chicano, third-world, regional, or other literatures in English.

: African American Literature.
: Asian American Literature.
: Latino/a American Literature.
: Native American Literature.
: Native American Literature.
: Post-Colonial Literature.

ENGL 392 : American Folklore. (3:3:0)
OFFERED: F, W
DESCRIPTION: American folk art and literature and the historical and cultural circumstances from which they developed.

ENGL 395R : Studies in Literature. (3:3:0)
PREREQUISITE: Engl 251.
DESCRIPTION: Topics vary.
NOTE: Independent Study also.

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

HIST 395 : Technology in America. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Benefits and liabilities of technological complexity.

HUM 420R : Studies in Periods and Movements. (3:3:0)
OFFERED: F, W; alternate Sp, Su
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of literature, philosophy, and the arts of a particular period or movement. Problems of periodization. Topics vary.

: 12th Century Renaissance.
: 14th Century.
: 17th Century.
: 18th Century.
: Character in 17th Century.
: Classical Period.
: Fin De Siecle.

UNDERGRADUATE CATALOG 2008 - 2009

Industrial Design

Richard E. Fry, Chair
265 CTB, (801) 422-6300

Admission to Degree Program

Admission to the freshman level in the industrial design program is obtained through an application process. Special enrollment limitations for degree programs will be applied. Please see the School of Technology advisor (250 SNLB) for specific details.

After one year of skill development and introductory studies, students apply for the BFA (bachelor of fine arts) candidacy.

The Discipline

Industrial design is a blend of art and technology. It focuses on making industrially produced objects that are appropriate aesthetically and useful to specific people/markets. Industrial design requires skills in two- and three-dimensional aesthetics, drawing, and visual communications, as well as an understanding of how things are manufactured and work, and are positioned in the marketplace.

Career Opportunities

Industrial designers specialize in areas as diverse as automobiles, toys, sports and medical equipment, consumer products for the home and business, exhibits, furniture, electronics, and computer design.

Learning Outcomes

- Apply and critique the application of aesthetic principles
- Understand creativity techniques and the aptitudes necessary to be successful in industrial design.
- Understand the basics of technology
- Investigate and synthesize the requirements of multiple stakeholders and reconcile those needs to provide exciting, manufacturable solutions
- Communicate concepts and requirements to other designers and their colleagues who work with them; to clients and employers; and to prospective clients and employers
- Apply basic business practices as they relate to industrial design
- Discuss the basics of design history and identify contemporary issues in industrial design

The Industrial Design Program

The industrial design program serves three main purposes: (1) it teaches the aesthetic and creative skills necessary to be successful in the discipline, (2) it provides opportunities to practice industrial design principles, and (3) it teaches about the relationship of design to business and culture. The program is enhanced by a strong tradition of working with outside industry sponsors for projects on which to practice core skills.

Responding to the popularity of computer modeling and visualization, the industrial design program also participates in the interdisciplinary animation degree with the Visual Arts and the Theatre and Media Arts departments. For more information about this degree and its requirements, please see the Visual Arts section of this catalog.

General Information

Application Procedures for Freshmen

Students are accepted into the preprofessional program twice a year: in April for spring/summer enrollment and in August for fall/winter. Enrollment is limited and based on several qualifications:

1. Admission to the university.
2. Completion of the program application form.
3. Submission of the portfolio.
4. Completion of the creative exercise.
5. Passing the portfolio review.

Appropriate forms are contained in an application packet available from the School of Technology office (250 SNLB).

Application packets must be obtained and returned before April 1 for spring enrollment or August 1 for fall. Individuals will be notified whether or not they have been accepted by April 15 for spring/summer or August 20 for fall/winter.

Note: Individuals receiving notice of acceptance will be permitted to register for the foundation 100-level core courses for the term or semester immediately following their acceptance. Failure to do so will require reapplication to the industrial design program for the year the student actually plans to attend.

Industrial Design Core

Required of all industrial design majors, the core enables students to acquire a basic and broad understanding of design principles before engaging in the specific content of the discipline. It is a predisciplinary preparation that embraces basic aesthetic awareness, systems for visual communication, and form generation principles.

Professional Degree Program Enrollment

Permission to enroll for sophomore- through senior-level BFA degree program courses is granted to students upon satisfactory development of skills and creative abilities, demonstrated in a review of a portfolio consisting of work completed during the preceding year. Faculty assess student GPA combined with a portfolio of work submitted by students wishing to advance. Students invited to continue are permitted to enroll in specified courses at the next academic level. Students may apply to the professional program multiple times, but may only take freshman foundation courses once.

Transfer Students

Transfer students applying for admission to the preprofessional- or professional-level BFA program must follow the same requirements as students currently enrolled in BYU.

Degree Program Advisors

Advisors are appointed to counsel students in the major. Advisors will advise students about program objectives, course content and sequence, career goals, and other matters pertaining to their major field of study.

Department Probationary Status

Students can be placed on probationary status for the following:

1. Inadequate academic performance. This can be defined by, but not limited to, receiving a D or E grade in major courses.
2. Unprofessional attitude and lack of commitment.
3. BYU Honor Code violations.

BFA in Industrial Design (73 hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center or the School of Technology advisor (230 SNLB) for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. Meet application criteria for admission into program.
2. Complete all 100-level foundation courses before admission into sophomore-level courses.
3. Complete a portfolio at the conclusion of each year for advancement to the next year's curriculum.
4. Complete the following core requirements:

INDES 130A : Visual Design Language/Computers for Industrial Design. (1.5:3:3)
OFFERED: F, Sp
DESCRIPTION: Visual organization; principles and elements of design. Digital image manipulation/creation for industrial design. Raster- and vector-based programs.

INDES 130B : Visual Design Language/Computers for Industrial Design. (1.5:3:3)
OFFERED: F, Su
DESCRIPTION: Visual organization; principles and elements of design. Digital image manipulation/creation for industrial design. Raster- and vector-based programs.

INDES 131A : Creativity and Design Thinking. (1.5:3:3)
OFFERED: F 2nd block, Sp
DESCRIPTION: Flexible, visual, and creative thinking; applying these modes to industrial design.

INDES 131B : Creativity and Design Thinking. (1.5:3:3)
OFFERED: W 1st block, Su
DESCRIPTION: Flexible, visual, and creative thinking; applying these modes to industrial design.

INDES 132A : Form and Surface Development. (1.5:3:3)
OFFERED: W 1st block, Sp
DESCRIPTION: Exploring origin and nature of geometric and organic form. Learning to control specific surface characteristics such as highlight and finish.

INDES 132B : Form and Surface Development. (1.5:3:3)
OFFERED: W 2nd block, Su
DESCRIPTION: Exploring origin and nature of geometric and organic form. Learning to control specific surface characteristics such as highlight and finish.

INDES 133A : Visualization Methods. (1.5:3:3)
OFFERED: F 1st block, Sp
DESCRIPTION: Observational skills, drawing as communication, rapid visualization techniques, orthographic projection, dimensioning, perspective construction, shadows and reflections, and form construction/indication.

INDES 133B : Visualization Methods. (1.5:3:3)
OFFERED: W 2nd block, Su
DESCRIPTION: Observational skills, drawing as communication, rapid visualization techniques, orthographic projection, dimensioning, perspective construction, shadows and reflections, and form construction/indication.

5. Complete the following:

INDES 210 : Intermediate Computer Applications. (2:0:2)
OFFERED: F
PREREQUISITE: industrial design core.
DESCRIPTION: Computer software programs relative to design disciplines.

INDES 214R : Model Making and Prototyping. (2:2:2)
OFFERED: F
PREREQUISITE: Industrial design core.
DESCRIPTION: Theories and fundamentals of model making and prototype construction. Creative use of multiple materials and processes. Plastic, composites, foam core, wood, metal, and found objects.

INDES 230 : Industrial Design Studio 1. (3:3:3)
OFFERED: F
PREREQUISITE: industrial design core.
DESCRIPTION: Industrial design research, analysis, and problem-solving methods.

INDES 231 : Presentation Methods for Industrial Design 1. (2:2:2)
OFFERED: F
PREREQUISITE: industrial design core.
DESCRIPTION: Product presentation methods emphasizing perspective, value, scale, accuracy, and color.

INDES 232 : Industrial Design Studio 2. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 230, 231.
DESCRIPTION: Continuation of InDes 230, emphasizing human factors and ergonomics, restrictions and possibilities of materials and manufacturing, and coherent presentation of problems, processes and ideas.

INDES 233 : Presentation Methods for Industrial Design 2. (2:2:2)
OFFERED: W
PREREQUISITE: InDes 231.
DESCRIPTION: Continuation of InDes 231.

INDES 310 : Advanced Computer Applications. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 210.
DESCRIPTION: Specific program applications of computers to design disciplines.

INDES 340 : Graphics Studies for Industrial Design 1. (3:3:3)
OFFERED: F
PREREQUISITE: BFA acceptance.
DESCRIPTION: Introduction to graphic skills such as corporate identity, packaging design, logo design, and web/interface design elements.

INDES 488 : Professional Practices of the Designer. (2:2:0)
OFFERED: F
PREREQUISITE: junior or senior standing.
DESCRIPTION: Business aspects of the design profession.

TEE 229 : Material Properties and Processes. (3:2:4)
DESCRIPTION: Solving real-world problems through layout, measurement, material properties, forming, molding, cutting, fastening, joining, finishing, and fabricating with wood, metal, plastic, and concrete.
NOTE: Fee.

6. Complete a minimum of one hour from the following:

INDES 399R : Professional Internship. (1-9:0:0)
PREREQUISITE: School's and faculty advisor's consent.
DESCRIPTION: Work experience in professional design studio evaluated by supervisor.

7. Complete three courses from the following:

INDES 330 : Industrial Design Studio 3. (3:3:3)
OFFERED: F
PREREQUISITE: Industrial design core.
DESCRIPTION: Designer responsibilities, structured and unstructured procedures in problem solving, client relationships, functional relationships, and mechanisms and materials.

INDES 332 : Industrial Design Studio 4. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 330.
DESCRIPTION: Continuation of InDes 330 with renewed emphasis on human factors and ergonomics, plus market and user requirements and developing written briefs.

INDES 430 : Industrial Design Studio 5. (3:3:1)
OFFERED: F
PREREQUISITE: InDes 332, 333.
DESCRIPTION: Systems design problems from initial research and analysis to final presentation of working drawings and models, with concern for ergonomics, anthropometries, marketing, user and buyer, production, function, and structure.

INDES 432 : Industrial Design Studio 6. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 330, 332, 430.
DESCRIPTION: Portfolio development based on advanced design projects.

8. Complete one additional course from the following:
INDES 330 : Industrial Design Studio 3. (3:3:3)
OFFERED: F
PREREQUISITE: Industrial design core.
DESCRIPTION: Designer responsibilities, structured and unstructured procedures in problem solving, client relationships, functional relationships, and mechanisms and materials.

INDES 332 : Industrial Design Studio 4. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 330.
DESCRIPTION: Continuation of InDes 330 with renewed emphasis on human factors and ergonomics, plus market and user requirements and developing written briefs.

INDES 430 : Industrial Design Studio 5. (3:3:1)
OFFERED: F
PREREQUISITE: InDes 332, 333.
DESCRIPTION: Systems design problems from initial research and analysis to final presentation of working drawings and models, with concern for ergonomics, anthropometries, marketing, user and buyer, production, function, and structure.

INDES 432 : Industrial Design Studio 6. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 330, 332, 430.
DESCRIPTION: Portfolio development based on advanced design projects.

INDES 435R : Furniture Design. (3:3:2)
OFFERED: W
PREREQUISITE: TTE 200 or instructor's consent.
DESCRIPTION: Design, materials, processes, structures, production methods, and prototype construction.

INDES 475R : Transportation Design. (3:3:3)
PREREQUISITE: Major status; instructor's consent.
DESCRIPTION: Exploration in the aesthetics, human factors, marketing requirements, and presentation aspects unique to transportation design, emphasizing working with outside project sponsors.

Note: Courses taken for item 7 cannot be used for item 8.

9. Complete 6 hours from the following:
INDES 497R : BFA Final Project. (3:ARR:ARR)
PREREQUISITE: BFA advisor's consent.
DESCRIPTION: Advanced individual project with minimum guidance, showing high degree of competence within chosen major.

Note: Me En 475, 476 can be substituted for this requirement.

10. Complete the following art history requirement:
INDES 339 : History of Products. (3:3:0)
OFFERED: W
PREREQUISITE: Industrial design core.

DESCRIPTION: Overview of artifacts and products; how they have influenced society from prehistory to present day.

11. Complete 9 hours of art history from the following:
    a. Complete one course from the following:

ARTHC 201 : World Civilization to 1500. (3:3:0)
DESCRIPTION: Survey of Western civilization emphasizing the visual arts from ancient Greece to the Gothic period.

HUM 201 : Western Humanities 1: Antiquity to Renaissance. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Western civilization from Greek antiquity to Renaissance from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.

MFG 201 : History of Creativity in the Arts, Science, and Technology 1. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Western civilization from Egyptian antiquity to Renaissance from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

    b. Complete one course from the following:

ARTHC 202 : World Civilization Since 1500. (3:3:0)
DESCRIPTION: Survey of Western civilization emphasizing the visual arts from the Renaissance to the twentieth century.

HUM 202 : Western Humanities 2: Renaissance to the Present. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Western civilization from Renaissance to present from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.

MFG 202 : History of Creativity in the Arts, Science, and Technology 2. (3:3:0)
OFFERED: W, Su
DESCRIPTION: Western civilization from Renaissance to present from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

    c. Complete one course from the following:

ARTHC 350 : Modern Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Modern European art and theory, 1900--1945.
NOTE: Independent Study also.

ARTHC 355 : Contemporary Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical evaluation of trends in art since 1945.

ARTHC 365 : American Architecture. (3:3:0)
DESCRIPTION: Major figures, monuments, and movements in American architecture from colonial period through "Gilded Age."

ARTHC 367 : Modern Architecture. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical review of roots and evolution of modern architecture.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

12. Complete 5 hours from the following:

INDES 331R : Presentation Methods for Industrial Design 3. (2:2:2)
PREREQUISITE: Acceptance into the BFA program or instructor's consent.
DESCRIPTION: Sketching and rendering techniques focused on surface materials and finishes.

INDES 341 : Graphics Studies for Industrial Design 2. (3:3:3)
OFFERED: W
PREREQUISITE: BFA acceptance.
DESCRIPTION: Packaging and its function in the marketplace; current packaging technology and aesthetics.

INDES 435R : Furniture Design. (3:3:2)
OFFERED: W
PREREQUISITE: TTE 200 or instructor's consent.
DESCRIPTION: Design, materials, processes, structures, production methods, and prototype construction.

INDES 475R : Transportation Design. (3:3:3)
PREREQUISITE: Major status; instructor's consent.
DESCRIPTION: Exploration in the aesthetics, human factors, marketing requirements, and presentation aspects unique to transportation design, emphasizing working with outside project sponsors.

INDES 494R : Special Problems in Design. (.5-3:ARR:ARR)
PREREQUISITE: instructor's consent.
DESCRIPTION: Individual study in area of special interest.

MFG 220 : Material Removal. (3:2:3)
OFFERED: F
DESCRIPTION: Methods and procedures to shape materials using basic machine tools; cutting theory, tool selection, metrology methods, and machine operation. Introduction to computer numerical control.

MFG 230 : Computer-Aided Manufacturing. (3:2:3)
OFFERED: W
PREREQUISITE: Mfg 220, Math 111, Me En 172,
DESCRIPTION: Manual and computer-assisted programming of computer numerical controlled (CNC) equipment. Developing CNC programs to manufacture parts for high production.

MFG 355 : Plastics Materials and Processing. (3:2:3)
OFFERED: W
PREREQUISITE: Me En 250 or instructor's consent.
DESCRIPTION: Understanding plastic materials, properties, and uses. Survey of plastic-manufacturing processes. Designing plastic products and manufacturing systems.

MFG 479 : (Mfg-BusM) Creating and Managing New Ventures. (3:3:0)
OFFERED: F
PREREQUISITE: For management majors: BusM 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

TMA 452R : Puppetry. (3:4:0)
PREREQUISITE: TMA 114 or instructor's consent.
DESCRIPTION: Theories, techniques, and experience constructing and operating puppets for use in performance, recreational, and educational settings.

TEE 200 : Studio Methods in Prototyping. (3:2:4)
OFFERED: F, W
DESCRIPTION: Theories and practices of prototype construction.
NOTE: Fee.

VASTU 353R : Computer Art. (3:2:4)
PREREQUISITE: instructor's consent.
DESCRIPTION: Exploring the computer as a tool for visual self-expression.

Note: Courses taken for item 7 and item 8 cannot be used for item 12.

13. Complete department packet and exit interview.

*Hours include courses that may fulfill university core requirements.

PREREQUISITE: industrial design core.
DESCRIPTION: Industrial design research, analysis, and problem-solving methods.

INDES 231 : Presentation Methods for Industrial Design 1. (2:2:2)
OFFERED: F
PREREQUISITE: industrial design core.
DESCRIPTION: Product presentation methods emphasizing perspective, value, scale, accuracy, and color.

INDES 232 : Industrial Design Studio 2. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 230, 231.

INDES 233 : Presentation Methods for Industrial Design 2. (2:2:2)
OFFERED: W
PREREQUISITE: InDes 231.
DESCRIPTION: Continuation of InDes 231.

INDES 250 : Introduction to Three-Dimensional Computer Graphics. (2:4:0)
OFFERED: F
PREREQUISITE: admittance to animation major.
DESCRIPTION: Fundamentals of modeling, texturing, lighting, and rendering used in exploring principles and elements of three-dimensional design.

INDES 251 : Fundamentals of Two-Dimensional Graphics. (2:4:0)
OFFERED: F
PREREQUISITE: Admittance to animation major or instructor's consent.
DESCRIPTION: Learning to design language by exploring elements of photography, drawing, and two-dimensional computer graphics, including color theory and conceptual elements of composition.

INDES 252 : Introduction to Three-Dimensional Animation. (2:4:0)
OFFERED: W
PREREQUISITE: InDes 250, 251.
DESCRIPTION: Foundational principles and techniques of three-dimensional animation, including timing and pacing, character setup, and dynamics.

INDES 255R : Computer Graphics for Non-Animation Majors. (2:2:2)
OFFERED: F, W
DESCRIPTION: Techniques used in modeling, texturing, lighting, and rendering, including color theory, composition, visual literacy, and principles of design.

INDES 257 : Scripting for Animation. (2:2:0)
OFFERED: W
PREREQUISITE: InDes 250 or 255R.
DESCRIPTION: Introduction to scripting languages which may include PERL, Python, and MEL.

300-Level Courses

INDES 310 : Advanced Computer Applications. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 210.
DESCRIPTION: Specific program applications of computers to design disciplines.

INDES 330 : Industrial Design Studio 3. (3:3:3)
OFFERED: F
PREREQUISITE: Industrial design core.
DESCRIPTION: Designer responsibilities, structured and unstructured procedures in problem solving, client relationships, functional relationships, and mechanisms and materials.

INDES 331R : Presentation Methods for Industrial Design 3. (2:2:2)
PREREQUISITE: Acceptance into the BFA program or instructor's consent.
DESCRIPTION: Sketching and rendering techniques focused on surface materials and finishes.

INDES 332 : Industrial Design Studio 4. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 330.
DESCRIPTION: Continuation of InDes 330 with renewed emphasis on human factors and ergonomics, plus market and user requirements and developing written briefs.

INDES 339 : History of Products. (3:3:0)
OFFERED: W
PREREQUISITE: Industrial design core.
DESCRIPTION: Overview of artifacts and products; how they have influenced society from prehistory to present day.

INDES 340 : Graphics Studies for Industrial Design 1. (3:3:3)
OFFERED: F
PREREQUISITE: BFA acceptance.
DESCRIPTION: Introduction to graphic skills such as corporate identity, packaging design, logo design, and web/interface design elements.

INDES 341 : Graphics Studies for Industrial Design 2. (3:3:3)
OFFERED: W
PREREQUISITE: BFA acceptance.
DESCRIPTION: Packaging and its function in the marketplace; current packaging technology and aesthetics.

INDES 350 : Computer Graphics Studio 1. (3:3:3)
OFFERED: F
PREREQUISITE: InDes 250, 252.
DESCRIPTION: Advanced character design, setup, and animation.

INDES 352 : Computer Graphics Studio 2. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 350.
DESCRIPTION: Designing interdisciplinary group projects: workflow, team dynamics, and processes of production pipelines.

INDES 399R : Professional Internship. (1-9:0:0)
PREREQUISITE: School's and faculty advisor's consent.

400-Level Courses

INDES 410R : Computer Applications Studio. (2:2:2)
PREREQUISITE: InDes 310.
DESCRIPTION: Individual major project using high-end hardware and software.

INDES 430 : Industrial Design Studio 5. (3:3:1)
OFFERED: F
PREREQUISITE: InDes 332, 333.
DESCRIPTION: Systems design problems from initial research and analysis to final presentation of working drawings and models, with concern for ergonomics, anthropometries, marketing, user and buyer, production, function, and structure.

INDES 432 : Industrial Design Studio 6. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 330, 332, 430.
DESCRIPTION: Portfolio development based on advanced design projects.

INDES 435R : Furniture Design. (3:3:2)
OFFERED: W
PREREQUISITE: TTE 200 or instructor's consent.
DESCRIPTION: Design, materials, processes, structures, production methods, and prototype construction.

INDES 450 : Computer Graphics Studio 3. (3:3:3)
OFFERED: F
PREREQUISITE: InDes 352.
DESCRIPTION: Continuation of InDes 352. In-depth experiences making computer animatiions and visual effects.

INDES 452 : Computer Graphics Studio 4. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 450.
DESCRIPTION: Portfolio development based on advanced animation/design projects.

INDES 455R : Shader Programming. (2:2:2)
OFFERED: F
DESCRIPTION: Advanced rendering and shading techniques for attaining desired visual effects. Using shading languages for realizing both photorealistic and non-photorealistic imaging.

INDES 475R : Transportation Design. (3:3:3)
PREREQUISITE: Major status; instructor's consent.
DESCRIPTION: Exploration in the aesthetics, human factors, marketing requirements, and presentation aspects unique to transportation design, emphasizing working with outside project sponsors.

INDES 488 : Professional Practices of the Designer. (2:2:0)
OFFERED: F
PREREQUISITE: junior or senior standing.
DESCRIPTION: Business aspects of the design profession.

INDES 494R : Special Problems in Design. (.5-3:ARR:ARR)
PREREQUISITE: instructor's consent.
DESCRIPTION: Individual study in area of special interest.

INDES 497R : BFA Final Project. (3:ARR:ARR)
PREREQUISITE: BFA advisor's consent.
DESCRIPTION: Advanced individual project with minimum guidance, showing high degree of competence within chosen major.

INDES 499R : Directed Studies. (.5-6:ARR:ARR)

Back to School of Technology Department Home

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center
Please report any problems to web_ugrad_cat@byu.edu, Brigham Young University, Provo, UT 84602 - (801)422-4245 - Copyright 2007, All Rights Reserved XHTML CSS 508

OFFERED: F, W; alternate Sp or Su
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of literature, philosophy, and the arts of a particular geographical area. Topics include American, Latin American, and Asian humanities. Topics vary.

: America Between World Wars.
: American Culture.
: American Immigrant Experience.
: American Popular Culture.
: Arts of Japan.
: Asian Culture.
: Classics and Eastern America.
: Colonial and Federalist America.
: Islamic Culture.
: Latin American Culture.
: Maya Art and Culture.
: Poetry of Americas.
: Precolumbian Culture.
: Satire in American Culture.
: Scandinavian Cultural History.
: Slavery and Americas.
: Southwestern Native American Culture.
: U.S. and Caribbean Culture.
: Women in Americas.

HUM 430R : Genres and Forms in the Humanities. (3:3:0)
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of genres and forms. Topics include epic, tragedy, narrative, historiography, film, relationship of text and music. Topics vary.

: Comedy.
: Film as Art.
: Historiography.
: Narrative.
: Text and Music.
: Tragedy.

HUM 440R : Themes in the Humanities. (3:3:0)
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of themes. Topics include Eden, Arthur, Don Juan, Faust, Ulysses, Troy. Topics vary.

: Arthurian Theme.
: Classical Tradition.
: Don Juan Theme.
: Don Quixote and the Arts.
: Eden Theme.
: Faust Theme.
: Gothic and Gothicism.
: Matter of Troy.
: Ulysses Theme.

HUM 460R : Critical Theory and Methodology. (3:3:0)
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Theoretical and practical criticism; problems in critical theory. Topics include aesthetics, interrelations of the arts, models of cultural history, cultural theory, and aspects of contemporary theory. Topics vary.

: Aesthetic Theory.
: Art Interrelations.
: Classical Criticism.
: Contemporary Theory.
: Cultural Theory.
: Gender Theory in Humanities.
: Mimesis.
: Models of Cultural History.
: Narratology.
: Native Multiculturism.
: Practical Criticism.
: Rhetoric and Truth.
: Rhetorical Theory.
: Theory of Film.

UNDERGRADUATE CATALOG 2008 - 2009

Information Technology

Joseph J. Ekstrom, Chair
265 CTB, (801) 422-6300

Admission to Degree Program

Admission to the information technology program is open to all BYU students.

Learning Outcomes

- An understanding of computer system components with depth and experience in their integration.
- Creative and analytical thinking skills that provide a basis for technological problem solving.
- The ability to integrate systems for the purpose of facilitating communications with each other.
- The ability to lead and to communicate effectively, both orally and in writing.
- The skills and attitudes of life-long learning.
- The ability to apply knowledge, manage projects, and work effectively in diverse teams.
- An understanding of the application of new and developing technologies with sensitivity for global, societal, organizational, and personal usage issues, compliant with the moral standards of the gospel of Jesus Christ.

The Discipline

Information technology (IT), the technical discipline that solves problems using computing resources, will be taught through a combination of strong theoretical course work and practical application to ensure that all three aspects of the technological educational triumvirate (knowing, thinking, doing) are included. IT professionals from this discipline are competent to design computing systems with due consideration of the performance and compatibility aspects of hardware, software, and digital communication and networking. They can visualize, structure, and implement complex technical solutions.

Professionals in this discipline are also proficient in understanding user needs and communicating technical issues to the organizations and people affected by the computer system. They are "anxiously engaged" in lifelong learning to understand and wisely use new technologies as they become available. Broadly educated at the university level, these professionals have acquired balance in their lives and depth of understanding in technology and its relevance in the broader world context. Because of the influence and leadership roles we expect graduates to have, our students will be encouraged to develop high moral and ethical standards as well as being conversant with and compliant with professional performance standards.

Career Opportunities

Career opportunities are plentiful and rewarding in both large and small companies in technical fields. Graduates will find careers in computer networking, testing, embedded intelligence, digital communications, computer system development, and integration.

General Information

Technical Electives

Six upper-division credit hours of information technology technical courses are required. Selected from courses in the major, these electives must be approved by an advisor prior to taking them.

Students are also strongly advised to strengthen their degree by using additional credit hours to fulfill a minor or gain greater depth in a focused area of the discipline. Some suggested areas are electronic systems, computer science, industrial design, manufacturing, or business leadership. Students are required to indicate their area of study when they apply to the professional program.

High School Background

Recommended high school courses include computer programming, electronics, mathematics, and science courses.

Transfer Students

This degree is designed to have some similarity to computer science and electrical and computer engineering courses in the first few semesters. Students can transfer from these programs in two-year colleges or from other four-year programs.

Special Notice

Students receiving C- or lower grades in required courses will be placed on department probationary status.

Hide All Course Descriptions

Program Requirements | View MAP

1. Students must have a minimum of 124 total hours to graduate with this major.

2. Complete the following supporting courses:

C S 142 : Introduction to Computer Programming. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Knowledge of algebra.
- DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: C S 142.
- DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: C S 235.
- DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

ECON 110 : Economic Principles and Problems. (3:3:0)
- OFFERED: F, W, Sp, Su
- DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

ENGL 316 : Technical Communication. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: Engl 150 or equivalent; junior or senior status.
- DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
- NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Calculus or concurrent enrollment.
- DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Phscs 121.

DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

3. Complete the following:

IT 101 : Cornerstone: Information Technology. (2:1:2)
OFFERED: F, W
DESCRIPTION: Planning and preparing for a successful career in information technology. Developing skills with computers, problem solving, studying, and time management. Comparing information technology to computer science, computer engineering, and master of information systems.
NOTE: Fee.

IT 104A : Digital Electronics Foundations (Part A). (2:3:3)
OFFERED: F, Sp
PREREQUISITE: Math 111 or equivalent.
DESCRIPTION: AC and DC electronics, digital fundamentals, and circuits. Ohm's law and power, impedances and frequency effects; AC wave forms; numbering systems; boolean systems, combinational and sequential logic; spectral analysis.
NOTE: Fee.

IT 104B : Digital Electronics Foundations (Part B). (2:3:3)
OFFERED: F, Sp
PREREQUISITE: Math 111 or equivalent.
DESCRIPTION: AC and DC electronics, digital fundamentals, and circuits. Ohm's law and power, impedances and frequency effects; AC wave forms; numbering systems; boolean systems, combinational and sequential logic; spectral analysis.
NOTE: Fee.

IT 210A : Fundamentals of Web-Based Information Technology. (2:3:3)
OFFERED: F 1st block, Sp
PREREQUISITE: C S 142, IT 101.
DESCRIPTION: Web technologies, including operating systems, networking, database concepts, and tools from a Web development and infrastructure management perspective. Web systems integration and development projects.

IT 210B : Fundamentals of Web-Based Information Technology. (2:3:3)
OFFERED: F 2nd block, Sp
PREREQUISITE: C S 142, IT 101.
DESCRIPTION: Web technologies, including operating systems, networking, database concepts, and tools from a Web development and infrastructure management perspective. Web systems integration and development projects.

IT 251A : Computer Architecture and Organization. (2:3:3)
OFFERED: W 1st block.
PREREQUISITE: C S 142, IT 104B.
DESCRIPTION: Principles of computer hardware. Internal CPU organization and implementation. Principles of computer instruction set architecture. Peripheral interconnect and IO systems. Low-level programming. Low-level security issues.

IT 251B : Computer Architecture and Organization. (2:3:3)
OFFERED: W 2nd block.
PREREQUISITE: IT 251A.
DESCRIPTION: Principles of computer hardware. Internal CPU organization and implementation. Principles of computer instruction set architecture. Peripheral interconnect and IO systems. Low-level programming. Low-level security issues.

IT 327 : Digital Communications. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: IT 104A,B, Math 112, Phscs 123; acceptance to professional program.
DESCRIPTION: Communication systems, wired and wireless. Bandwidth, modulation; Shannon's theorem, telecommunications. Network physical and data link layers (ISO/OSI model). Optics/Coax/Twisted pair; RS-232/Ethernet; Signals/Protocols/Packets; digital communication theory fundamentals.

IT 344 : Operating Systems. (3:2:3)

OFFERED: W
PREREQUISITE: CS 235, IT 210, 251B; or instructor's consent; admission to IT professional program.
DESCRIPTION: Applying and using computer operating systems. Configuration, file systems, security, administration, network interfacing, multitasking, multiuser, device driver installation. Analyzing operating system performance.
NOTE: Fee.

IT 347 : Computer Networks. (3:2:3)
OFFERED: W
PREREQUISITE: C S 236 or concurrent enrollment; IT 210; acceptance to professional program.
DESCRIPTION: Computer networks. Local and wide-area networking for enterprises and service providers. Workgroups/routers/hubs/switches; network server administration; Internet protocols and routing; security and privacy.
NOTE: Fee.

IT 350 : Database Principles and Applications. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: C S 236; IT 210; acceptance to professional program.
DESCRIPTION: Database theory and architecture; data modeling; designing application databases. Query languages, data security, database applications on the Web..

IT 355 : Human-Computer Interface. (3:2:4)
OFFERED: W
PREREQUISITE: IT 210.
DESCRIPTION: Interface design emphasizing human factors, performance analysis, and cognitive processing. Team-based projects include task analysis, usability studies, environment, interaction, training, and documentation procedures.

IT 446 : Senior Project / Capstone 1. (2:2:1)
OFFERED: F
PREREQUISITE: All required 300-level information technology courses; Engl 316.
DESCRIPTION: IT senior project proposal and feasibility studies. Project management, teamwork principles, intellectual property, supplier interactions, identifying and using professional technical literature, oral and written presentations.

IT 447 : Senior Projects/Capstone 2. (3:1:5)
OFFERED: W
PREREQUISITE: IT 446.
DESCRIPTION: Senior project design and integration. Second class of two-course sequence. Implementing design. Project management, teamwork, and presentations. Fee.

IT 466 : Information Assurance and Security. (3:2:3)
OFFERED: F, W
PREREQUISITE: IT 344, 347, 350, Stat 332.
DESCRIPTION: Computer security principles. Incident prevention and management. Information assurance dimensions of availability, integrity, authentication, confidentiality and non-repudiations to ensure transmission, storage, and processing of information.

4. Complete 2 hours of the following:
IT 391R : Junior/Senior Seminar. (.5:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Required four times during junior/senior years while in professional program. College Lecture and School of Technology Lecture attendance required.

5. Complete 3 hours of the following:
ENG T 231 : Moral Leadership in a Technological World. (3:3:0)
Moral Leadership in a Technological World.
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and practices to help leaders develop consistent private and public lives and address the global environment from an integrated moral, technical, and social perspective.

6. After consulting with an information technology advisor, complete 6 hours of upper-division information technology technical electives.

7. Complete the following:
IT 491R : Senior Seminar. (.5:1.0:0)
OFFERED: F 1st block
DESCRIPTION: Seminar topics for near-graduation seniors. Information technology work experience required.

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-

8. Complete department packet and exit interview.

*Hours include courses that may fulfill university core requirements.

Hide All Course Descriptions

Program Requirements

1. Complete the following:

IT 101 : Cornerstone: Information Technology. (2:1:2)
OFFERED: F, W
DESCRIPTION: Planning and preparing for a successful career in information technology. Developing skills with computers, problem solving, studying, and time management. Comparing information technology to computer science, computer engineering, and master of information systems.
NOTE: Fee.

IT 210A : Fundamentals of Web-Based Information Technology. (2:3:3)
OFFERED: F 1st block, Sp
PREREQUISITE: C S 142, IT 101.
DESCRIPTION: Web technologies, including operating systems, networking, database concepts, and tools from a Web development and infrastructure management perspective. Web systems integration and development projects.

IT 210B : Fundamentals of Web-Based Information Technology. (2:3:3)
OFFERED: F 2nd block, Sp
PREREQUISITE: C S 142, IT 101.
DESCRIPTION: Web technologies, including operating systems, networking, database concepts, and tools from a Web development and infrastructure management perspective. Web systems integration and development projects.

IT 251B : Computer Architecture and Organization. (2:3:3)
OFFERED: W 2nd block.
PREREQUISITE: IT 251A.
DESCRIPTION: Principles of computer hardware. Internal CPU organization and implementation. Principles of computer instruction set architecture. Peripheral interconnect and IO systems. Low-level programming. Low-level security issues.

2. Complete three courses from the following to complete the 16 hours required for the minor:

IT 251A : Computer Architecture and Organization. (2:3:3)
OFFERED: W 1st block.
PREREQUISITE: C S 142, IT 104B.
DESCRIPTION: Principles of computer hardware. Internal CPU organization and implementation. Principles of computer instruction set architecture. Peripheral interconnect and IO systems. Low-level programming. Low-level security issues.

IT 327 : Digital Communications. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: IT 104A,B, Math 112, Phscs 123; acceptance to professional program.
DESCRIPTION: Communication systems, wired and wireless. Bandwidth, modulation; Shannon's theorem, telecommunications. Network physical and data link layers (ISO/OSI model). Optics/Coax/Twisted pair; RS-232/Ethernet; Signals/Protocols/Packets; digital communication theory fundamentals.

IT 344 : Operating Systems. (3:2:3)
OFFERED: W
PREREQUISITE: CS 235, IT 210, 251B; or instructor's consent; admission to IT professional program.
DESCRIPTION: Applying and using computer operating systems. Configuration, file systems, security, administration, network interfacing, multitasking, multiuser, device driver installation. Analyzing operating system performance.

NOTE: Fee.

IT 347 : Computer Networks. (3:2:3)
OFFERED: W
PREREQUISITE: C S 236 or concurrent enrollment; IT 210; acceptance to professional program.
DESCRIPTION: Computer networks. Local and wide-area networking for enterprises and service providers. Workgroups/routers/hubs/switches; network server administration; Internet protocols and routing; security and privacy.
NOTE: Fee.

IT 350 : Database Principles and Applications. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: C S 236; IT 210; acceptance to professional program.
DESCRIPTION: Database theory and architecture; data modeling; designing application databases. Query languages, data security, database applications on the Web..

IT 355 : Human-Computer Interface. (3:2:4)
OFFERED: W
PREREQUISITE: IT 210.
DESCRIPTION: Interface design emphasizing human factors, performance analysis, and cognitive processing. Team-based projects include task analysis, usability studies, environment, interaction, training, and documentation procedures.

IT 466 : Information Assurance and Security. (3:2:3)
OFFERED: F, W
PREREQUISITE: IT 344, 347, 350, Stat 332.
DESCRIPTION: Computer security principles. Incident prevention and management. Information assurance dimensions of availability, integrity, authentication, confidentiality and non-repudiations to ensure transmission, storage, and processing of information.

Note: Some of the above courses also have prerequisites, which the student must either take or satisfy in another manner. The main prerequisite is experience using a programming language, preferably C, C++, or Java (see C S 142).

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

IT 101 : Cornerstone: Information Technology. (2:1:2)
OFFERED: F, W
DESCRIPTION: Planning and preparing for a successful career in information technology. Developing skills with computers, problem solving, studying, and time management. Comparing information technology to computer science, computer engineering, and master of information systems.
NOTE: Fee.

IT 104A : Digital Electronics Foundations (Part A). (2:3:3)
OFFERED: F, Sp
PREREQUISITE: Math 111 or equivalent.
DESCRIPTION: AC and DC electronics, digital fundamentals, and circuits. Ohm's law and power, impedances and frequency effects; AC wave forms; numbering systems; boolean systems, combinational and sequential logic; spectral analysis.
NOTE: Fee.

IT 104B : Digital Electronics Foundations (Part B). (2:3:3)
OFFERED: F, Sp
PREREQUISITE: Math 111 or equivalent.
DESCRIPTION: AC and DC electronics, digital fundamentals, and circuits. Ohm's law and power, impedances and frequency effects; AC wave forms; numbering systems; boolean systems, combinational and sequential logic; spectral analysis.
NOTE: Fee.

IT 198R : Directed Studies in Information Technology. (2:2:2)
DESCRIPTION: Introductory course. Special topics in problem solving and technology careers.

IT 199R : Academic Internship: Information Technology. (1-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

IT 210A : Fundamentals of Web-Based Information Technology. (2:3:3)
OFFERED: F 1st block, Sp
PREREQUISITE: C S 142, IT 101.
DESCRIPTION: Web technologies, including operating systems, networking, database concepts, and tools from a Web development and infrastructure management perspective. Web systems integration and development projects.

IT 210B : Fundamentals of Web-Based Information Technology. (2:3:3)
OFFERED: F 2nd block, Sp
PREREQUISITE: C S 142, IT 101.
DESCRIPTION: Web technologies, including operating systems, networking, database concepts, and tools from a Web development and infrastructure management perspective. Web systems integration and development projects.

IT 251A : Computer Architecture and Organization. (2:3:3)
OFFERED: W 1st block.
PREREQUISITE: C S 142, IT 104B.
DESCRIPTION: Principles of computer hardware. Internal CPU organization and implementation. Principles of computer instruction set architecture. Peripheral interconnect and IO systems. Low-level programming. Low-level security issues.

IT 251B : Computer Architecture and Organization. (2:3:3)
OFFERED: W 2nd block.
PREREQUISITE: IT 251A.
DESCRIPTION: Principles of computer hardware. Internal CPU organization and implementation. Principles of computer instruction set architecture. Peripheral interconnect and IO systems. Low-level programming. Low-level security issues.

300-Level Courses

IT 304 : Devices and Circuits in Information Technology. (3:2.0:3.0)
PREREQUISITE: IT 104A,B.
DESCRIPTION: Electronic building blocks for information technology systems. Includes p-n junctions, diodes and transistors, op-amps, oscillators and phase lock loops, and analog integrated circuits.
NOTE: Course enhances IT 327.

IT 327 : Digital Communications. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: IT 104A,B, Math 112, Phscs 123; acceptance to professional program.
DESCRIPTION: Communication systems, wired and wireless. Bandwidth, modulation; Shannon's theorem, telecommunications. Network physical and data link layers (ISO/OSI model). Optics/Coax/Twisted pair; RS-232/Ethernet; Signals/Protocols/Packets; digital communication theory fundamentals.

IT 344 : Operating Systems. (3:2:3)
OFFERED: W
PREREQUISITE: CS 235, IT 210, 251B; or instructor's consent; admission to IT professional program.
DESCRIPTION: Applying and using computer operating systems. Configuration, file systems, security, administration, network interfacing, multitasking, multiuser, device driver installation. Analyzing operating system performance.
NOTE: Fee.

IT 347 : Computer Networks. (3:2:3)
OFFERED: W
PREREQUISITE: C S 236 or concurrent enrollment; IT 210; acceptance to professional program.
DESCRIPTION: Computer networks. Local and wide-area networking for enterprises and service providers. Workgroups/routers/hubs/switches; network server administration; Internet protocols and routing; security and privacy.
NOTE: Fee.

IT 350 : Database Principles and Applications. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: C S 236; IT 210; acceptance to professional program.
DESCRIPTION: Database theory and architecture; data modeling; designing application databases. Query languages, data security, database applications on the Web..

IT 355 : Human-Computer Interface. (3:2:4)
OFFERED: W
PREREQUISITE: IT 210.
DESCRIPTION: Interface design emphasizing human factors, performance analysis, and cognitive processing. Team-based projects include task analysis, usability studies, environment, interaction, training, and documentation procedures.

IT 391R : Junior/Senior Seminar. (.5:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Required four times during junior/senior years while in professional program. College Lecture and School of Technology Lecture attendance required.

IT 399R : Academic Internship: Information Technology. (1-6:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Experience in industrial environment. Approved job function supervised by employer and electronics and information technology advisor. Formal technical report required.

400-Level Courses

IT 431 : Digital Signal Processing. (3:2:3)
PREREQUISITE: Math 113, CS 142, IT 241.
DESCRIPTION: Processing engineering data using digital computers. Encoding data for storage or transmission. Frequency-domain techniques for improving signal filtering. Cryptography and other important signals algorithms. Practical experience with DSP processors.

IT 441 : Embedded Computer Systems. (3:2:3)
PREREQUISITE: IT 344.
DESCRIPTION: Real-time embedded systems development using microprocessors and microcontrollers. Multitasking, hardware/software interfacing, operating systems, and various CPU architectures.

IT 443 : Broadband Communications. (3:2:3)
PREREQUISITE: IT 327.
DESCRIPTION: Physical-layer communications over broadband media. Optical and radio frequency propagation and devices. Fiber optics.
NOTE: Fee.

IT 444 : Instrumentation and Computers. (3:2:3)
PREREQUISITE: IT 241, 344.
DESCRIPTION: Designing and applying sensors, transducers, and instrumentation. Computer interfacing. Software design for instrumentation. Applications in industrial automation and in embedded systems.

IT 446 : Senior Project / Capstone 1. (2:2:1)
OFFERED: F
PREREQUISITE: All required 300-level information technology courses; Engl 316.
DESCRIPTION: IT senior project proposal and feasibility studies. Project management, teamwork principles, intellectual property, supplier interactions, identifying and using professional technical literature, oral and written presentations.

IT 447 : Senior Projects/Capstone 2. (3:1:5)
OFFERED: W
PREREQUISITE: IT 446.
DESCRIPTION: Senior project design and integration. Second class of two-course sequence. Implementing design. Project management, teamwork, and presentations. Fee.

IT 461R : Current Topics in Information Technology. (3:2:3)
PREREQUISITE: Instructor's consent.
DESCRIPTION: In-depth analysis of current growth areas in information technology. Detailed discussion and lab experience of a few topics from faculty working in the field.

IT 466 : Information Assurance and Security. (3:2:3)
OFFERED: F, W
PREREQUISITE: IT 344, 347, 350, Stat 332.
DESCRIPTION: Computer security principles. Incident prevention and management. Information assurance dimensions of availability, integrity, authentication, confidentiality and non-repudiations to ensure transmission, storage, and processing of information.

IT 491R : Senior Seminar. (.5:1.0:0)
OFFERED: F 1st block
DESCRIPTION: Seminar topics for near-graduation seniors. Information technology work experience required.

IT 492R : Special Problems in Information Technology. (1-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Informational technology senior standing, Engl 316, and an approved project proposal.
DESCRIPTION: Individual study in research and design related to computer-aided process control.

500-Level Graduate Courses (available to advanced undergraduates)

IT 515R : Special Topics in Information Technology. (1-3:ARR:0)
OFFERED: On demand.

IT 529 : Advanced Networking. (3:2:3)
PREREQUISITE: IT 344, 347; or equivalents.
DESCRIPTION: Analyzing, selecting, configuring, monitoring, and managing of computer network equipment. SNMP-based monitoring and control in process of fault isolation and root cause analysis.

IT 531 : Encryption and Compression. (3:2:3)
PREREQUISITE: CS 235, Math 112; or equivalents.
DESCRIPTION: Encoding digital data for storage or network transmission using computers. Analyzing and applying algorithms for digital data encryption and compression. Current Web and multimedia standards. Lab emphasizing implementation.

IT 548 : Mechanatronics. (3:2:3)
PREREQUISITE: IT 444 or instructor's consent.
DESCRIPTION: Synergistic application of mechanical devices, electronic controls, and system principles in design of products and manufacturing processes. Advanced applications of electronic instrumentation, control, and automation in manufacturing systems.

IT 566 : Digital Forensics. (3:2:3)
OFFERED: W alternate years.
PREREQUISITE: IT 466 or equivalent.
DESCRIPTION: Fundamentals of digital forensics, legal issues, evidence, chain of custody, media analysis, incident response, corporate forensics, and network forensics.

HUM 490R : Seminar in the Humanities. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of problems and major figures in the humanities. Topics vary.

: Classical Tradition.
: Wagner and Wagnerism.

PL SC 320 : American Politics Through Literature. (3:3:0)
DESCRIPTION: American politics through the novel and other literary works. Developing political concepts and themes that come from significant political novels.

PL SC 321 : The Media in American Politics. (3:3:0)
OFFERED: On demand.
DESCRIPTION: News media's role in processes of American politics, including electoral process, legislative process, and public policy-making.

PL SC 322 : Early American Political Thought: 1620-1865. (3:3.0:0.0)
OFFERED: On demand.
DESCRIPTION: Core principles and seminal texts of American politics from Colonial times through the Lincoln administration.

PL SC 323 : Modern American Political Thought: 1865-Present. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Core principles and seminal texts of American politics from Reconstruction to the present.

Note 1: Engl 358R and 395R, as well as the humanities courses, must be topics in an American subject.

Note 2: Course substitutions may be made only with written, prior permission of the American Studies coordinator unless they are on the approved list.

Note 3: Students may substitute 3 credit hours of Washington, D.C., seminar credit for one American Studies elective.

*Hours include courses that may fulfill university core requirements.

Manufacturing Engineering Technology

Charles Harrell, Chair
265 CTB, (801) 422-6300

Admission to Degree Program

Admission to the manufacturing engineering technology program is open to all BYU students.

Learning Outcomes

- Leadership — graduates will be able to develop a vision and lead a team or an organization to excellence in all of the areas listed below.
- Professionalism — graduates will have high ethical values, exhibit good work habits and continuously develop relevant new knowledge and skills.
- Creativity and problem solving — graduates will see manufacturing problems from multiple and new perspectives, generate alternative, innovative solutions and select and implement the best solution.
- Management — graduates will be able to plan, organize, staff, and control manufacturing projects.
- Materials — graduates will understand the physical and mechanical properties of engineering materials.
- Processes — graduates will understand manufacturing processes and their applications.
- Quality — graduates will be committed to quality and to continuously improving products and processes.
- Systems — graduates will understand the dynamics of manufacturing systems and supply chains and how to effectively configure the optimum system for efficient manufacture and delivery.
- Design — graduates will contribute effectively to the development of world-class products.
- Communication — graduates will be effective two-way communicators.
- Global awareness — graduates will be aware of the issues associated with off-shore manufacturing.
- Human and environmental factors — graduates will understand manufacturing's impact on society and the environment.

The Discipline

Manufacturing is an exciting and rewarding discipline that has significant impact on a society's standard of living and economic independence. At BYU the manufacturing program is specifically oriented toward creating leaders in the industry.

Students in manufacturing learn creative and analytical skills that will enable them to quickly diagnose and solve manufacturing problems with insight from both engineering and management perspectives. They also develop interpersonal and communication skills that will prepare them to work as part of an engineering team and effectively interact with vendors, management, and production personnel. In addition, they receive hands-on training in modern lab facilities and learn to use computers to design, analyze, implement, and control manufacturing operations.

Manufacturing professionals are knowledgeable and skilled in the management, methods, technologies, equipment, and tooling needed to produce affordable products of high quality. They are able to effectively coordinate the procurement, installation, and start-up of production equipment as well as improve the productivity of existing operations. They are also able to coordinate manufacturing and supply-chain operation in a global setting.

The manufacturing engineering technology program is accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, telephone (410) 347-7700. The program provides students with the option of obtaining a minor in business management. Students may take their electives in other areas of specialization as well. Graduates may further their technical and managerial skills by pursuing either a master of science in technology or a master of business administration.

Career Opportunities

Career opportunities in manufacturing are plentiful and rewarding. Leaders of industry often have manufacturing backgrounds. Typical entry-level job titles include manufacturing engineer, quality manager, process engineer, tool engineer, product engineer, quality engineer, production supervisor, and account manager (technical sales). New graduates are typically hired into technical positions but have the opportunity to move into management.

The job outlook for manufacturing graduates is bright and should continue to be strong into the future. When one considers that everything that does not exist as part of nature is the product of some form of manufacturing, it is easy to see that manufacturing is an integral part of our society and generates an ever-growing workforce. Progressive companies in industries worldwide are always on the lookout for qualified individuals who can provide leadership in improving the quality and productivity of their manufacturing operations.

General Information

The manufacturing program is designed to provide simple transfer from local feeder schools, including BYU—Idaho, Salt Lake Community College (SLCC), and Utah Valley State College (UVSC). Students transferring from these or other schools should meet with college and program advisors as soon as possible to evaluate transfer credits and plan their BYU curriculum.

BS in Manufacturing Engineering Technology (74–77 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Students must have a minimum of 124 total hours to graduate with this major.

2. Complete the following manufacturing core courses:

MFG 130 : Modern Manufacturing. (3:2:2)
OFFERED: F, W
DESCRIPTION: Methods and characteristics of successful manufacturing engineers and managers. Introduction to engineering and technology, design, and project management. Lab.

MFG 220 : Material Removal. (3:2:3)
OFFERED: F
DESCRIPTION: Methods and procedures to shape materials using basic machine tools; cutting theory, tool selection, metrology methods, and machine operation. Introduction to computer numerical control.

MFG 230 : Computer-Aided Manufacturing. (3:2:3)
OFFERED: W
PREREQUISITE: Mfg 220, Math 111, Me En 172,
DESCRIPTION: Manual and computer-assisted programming of computer numerical controlled (CNC) equipment. Developing CNC programs to manufacture parts for high production.

MFG 331 : Metals Processes. (4:3:3)
OFFERED: F
PREREQUISITE: Me En 250, CE En 203.
DESCRIPTION: Capabilities and applications of common metal-processing methods, including relationships between part design, material, and process parameters.

MFG 340 : Quality Systems in Manufacturing. (3:2:3)
OFFERED: F
PREREQUISITE: Stat 332, Mfg 230.
DESCRIPTION: Tools and principles of quality in manufacturing systems based on the Six Sigma process. Basic tools, variation, loss function, cost of quality, SPC, DOE, and FMEA. Comprehensive project required.

MFG 355 : Plastics Materials and Processing. (3:2:3)
OFFERED: W
PREREQUISITE: Me En 250 or instructor's consent.
DESCRIPTION: Understanding plastic materials, properties, and uses. Survey of plastic-manufacturing processes. Designing plastic products and manufacturing systems.

MFG 391 : Manufacturing Leadership. (2:1:3)
OFFERED: F, W
DESCRIPTION: Lectures on personal and professional development emphasizing internship preparation. Field trips observing different types of manufacturing.

MFG 431 : Tool Design. (3:2:3)
OFFERED: F; Sp alternate years
PREREQUISITE: Me En 172, Mfg 331.
DESCRIPTION: Designing special tooling for manufacturing processes using solids-modeling design systems.

MFG 434 : Introduction to Manufacturing Automation. (3:2:2)

OFFERED: W
PREREQUISITE: Phscs 105, CE En 103, Mfg 340.
DESCRIPTION: Sensors, actuators, robotics, part feeding and assembly, PLCs, pneumatic and hydraulic control, justifying automation.

MFG 479 : (Mfg-BusM) Creating and Managing New Ventures. (3:3:0)
OFFERED: F
PREREQUISITE: For management majors: BusM 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

MFG 480 : Process Planning and Systems Design. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Mfg 340.
DESCRIPTION: Analyzing product specifications and production requirements for manufacturing. Equipment selection and justification; facility layout and material-handling system design; process-improvement techniques.

MFG 485 : Capstone: Production Management. (3:1:6)
OFFERED: W, Su
PREREQUISITE: Mfg 340, 431, 480.
DESCRIPTION: Production operations: designing a production system, carrying our production functions, and procuring materials from suppliers. Principles of lean operations, project management, and industrial supervision.

MFG 491 : Professional Seminar. (1:1:0)
OFFERED: F
PREREQUISITE: Senior standing; Mfg 391.
DESCRIPTION: Lectures on professionalism, leadership, and career and life success.

3. Complete 3 hours of the following:
MFG 399R : Academic Internship: Manufacturing Practicum. (.5-6:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Second-semester junior standing, Mfg 391R, and faculty authorization.
DESCRIPTION: Working in teams to solve problems encountered in local industry. Project management and reporting under guidance of industry supervisor and department faculty.

4. Complete the following supporting courses:
CE EN 103 : Engineering Mechanics--Statics. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119 or concurrent enrollment (if 119, then Math 111 must have already been taken).
DESCRIPTION: Concepts of mechanics: force systems in equilibrium, resultants, friction, centroids, utilization of vector algebra.

CE EN 203 : Engineering Mechanics--Mechanics of Materials. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103.
DESCRIPTION: Fundamental concepts of elastic stress and strain relations; cylinders and spheres; torsion; beam theory, including bending stresses; deflections; and two-dimensional elastic theory.
NOTE: Independent Study also.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

ENG T 231 : Moral Leadership in a Technological World. (3:3:0)

OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and practices to help leaders develop consistent private and public lives and address the global environment from an integrated moral, technical, and social perspective.

IT 492R : Special Problems in Information Technology. (1-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Informational technology senior standing, Engl 316, and an approved project proposal.
DESCRIPTION: Individual study in research and design related to computer-aided process control.

(3 hours required)
ME EN 172 : Engineering Graphics--Principles and Applications. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engineering and technology major status.
DESCRIPTION: Comprehensive applications of CAD-based national (ANSI) and international (ISO) graphics standards, including coordinate and geometric dimensioning and tolerancing practices, manufacturing, and product verification procedures.

ME EN 250 : Science of Engineering Materials. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: Chem 105.
DESCRIPTION: Principles and properties of solid materials and their behavior as applied to engineering.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

5. Complete one of the following options:

Either

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

Or

MATH 111 : Trigonometry. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Circular functions, triangle relationships, identities, inverse trig functions, trigonometric equations, vectors, complex numbers, DeMoivre's theorem.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

6. Complete one of the following options:

Either

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

Or

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.

DESCRIPTION: Newtonian mechanics. Weekly lab.

The Church of Jesus Christ of Latter-day Saints | BYU-

7. Complete department packet and exit interview.

*Hours include courses that may fulfill university core requirements.

Program Requirements

1. Complete the following:

MFG 130 : Modern Manufacturing. (3:2:2)
OFFERED: F, W
DESCRIPTION: Methods and characteristics of successful manufacturing engineers and managers. Introduction to engineering and technology, design, and project management. Lab.

MFG 340 : Quality Systems in Manufacturing. (3:2:3)
OFFERED: F
PREREQUISITE: Stat 332, Mfg 230.
DESCRIPTION: Tools and principles of quality in manufacturing systems based on the Six Sigma process. Basic tools, variation, loss function, cost of quality, SPC, DOE, and FMEA. Comprehensive project required.

MFG 480 : Process Planning and Systems Design. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Mfg 340.
DESCRIPTION: Analyzing product specifications and production requirements for manufacturing. Equipment selection and justification; facility layout and material-handling system design; process-improvement techniques.

2. Complete two courses from the following:

MFG 220 : Material Removal. (3:2:3)
OFFERED: F
DESCRIPTION: Methods and procedures to shape materials using basic machine tools; cutting theory, tool selection, metrology methods, and machine operation. Introduction to computer numerical control.

MFG 230 : Computer-Aided Manufacturing. (3:2:3)
OFFERED: W
PREREQUISITE: Mfg 220, Math 111, Me En 172,
DESCRIPTION: Manual and computer-assisted programming of computer numerical controlled (CNC) equipment. Developing CNC programs to manufacture parts for high production.

MFG 331 : Metals Processes. (4:3:3)

DESCRIPTION: Working in teams to solve problems encountered in local industry. Project management and reporting under guidance of industry supervisor and department faculty.

400-Level Courses

MFG 431 : Tool Design. (3:2:3)

OFFERED: F; Sp alternate years
PREREQUISITE: Me En 172, Mfg 331.
DESCRIPTION: Designing special tooling for manufacturing processes using solids-modeling design systems.

MFG 434 : Introduction to Manufacturing Automation. (3:2:2)
OFFERED: W
PREREQUISITE: Phscs 105, CE En 103, Mfg 340.
DESCRIPTION: Sensors, actuators, robotics, part feeding and assembly, PLCs, pneumatic and hydraulic control, justifying automation.

MFG 479 : (Mfg-BusM) Creating and Managing New Ventures. (3:3:0)
OFFERED: F
PREREQUISITE: For management majors: BusM 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

MFG 480 : Process Planning and Systems Design. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Mfg 340.
DESCRIPTION: Analyzing product specifications and production requirements for manufacturing. Equipment selection and justification; facility layout and material-handling system design; process-improvement techniques.

MFG 485 : Capstone: Production Management. (3:1:6)
OFFERED: W, Su
PREREQUISITE: Mfg 340, 431, 480.
DESCRIPTION: Production operations: designing a production system, carrying our production functions, and procuring materials from suppliers. Principles of lean operations, project management, and industrial supervision.

MFG 490R : Special Problems in Manufacturing Engineering Technology. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.

MFG 491 : Professional Seminar. (1:1:0)
OFFERED: F
PREREQUISITE: Senior standing; Mfg 391.
DESCRIPTION: Lectures on professionalism, leadership, and career and life success.

500-Level Graduate Courses (available to advanced undergraduates)

MFG 531 : Advanced Computer-Aided Manufacturing Programming. (3:2:3)
OFFERED: W odd years
PREREQUISITE: previous introductory computer-aided manufacturing programming; senior or graduate status or instructor's consent.
DESCRIPTION: CAD/CAM programming techniques and requirements for manufacturing components on computer numerical-control machine tools, emphasizing CAM programming, postprocessors, and CAM software evaluation.
NOTE: Fee.

MFG 532 : Manufacturing Systems. (3:2:2)
OFFERED: F
PREREQUISITE: Mfg 480 or instructor's consent.
DESCRIPTION: Analyzing lean manufacturing systems. Numerous examples and case studies from industry demonstrating principles of lean production, inventory management, and lean distribution. Project with a local company to gain confidence with these principles in an industrial setting.

MFG 533 : Manufacturing Information Systems. (3:2:3)
OFFERED: W
PREREQUISITE: Mfg 480 or instructor's consent.
DESCRIPTION: Applying and integrating software and information technologies in planning, executing, and monitoring production operations.

MFG 555 : Composite Materials and Processes. (3:2:3)
PREREQUISITE: Graduate standing or instructor's consent.
DESCRIPTION: Structure, processing, properties, and uses of composite materials, including various manufacturing methods and the relationship between properties and fabrication.

MFG 572 : Design for Manufacturing. (3:2:2)
OFFERED: F
PREREQUISITE: Graduate standing or instructor's consent.
DESCRIPTION: Introduction to design evaluation techniques, including design for mechanical assembly, printed circuit board assembly, plastic injection molding, machining, and sheet metal fabrication.

MFG 574 : Advanced Tool Design. (3:2:3)
OFFERED: W even years
PREREQUISITE: Instructor's consent.
DESCRIPTION: Advanced design of net-shape products utilizing CAD and CAE methods. Plastic injection mold design and construction. Rapid prototyping and injection molding project.

MFG 580 : Manufacturing Simulation. (3:3:0)
OFFERED: F
PREREQUISITE: Mfg 480.
DESCRIPTION: Design and optimization of manufacturing systems using simulation. Simulation languages and modeling methodology.

Technology and Engineering Education

Steven Shumway, Chair
230 SNLB, (801) 422-6496

Learning Outcomes

- Students will receive an opportunity to interact, be mentored, and have close relationship with faculty members as they learn together about secular and spiritual knowledge.
- Students will be able to become certified secondary education teachers in technology and engineering education for the State of Utah.
- Students will increase technical competency in a technology and/or engineering specialization of their choice.
- Students will develop creativity, design, entrepreneurial, innovative, problem solving, critical thinking, effective communication, and life-long learning skills.
- Students will be stretched to maximize their own individual learning through rigor, excellence, and high expectations of performance.

The Discipline

Students graduating from the technology and engineering education program at Brigham Young University are prepared to teach in secondary schools. Students in the program are required to take courses in visual communications, production technologies, and engineering design. Students will need to complete 18 hours of technical emphasis in one or two depth areas: graphic design and multimedia, engineering prep and electronics, construction systems, information technology, architecture and furniture design, manufacturing, computer science, and trade and technical. In addition, students are required to complete teacher education courses. Finally, students are provided with field-based experiences to teach at the middle and high school levels throughout the program, culminating with a semester-long supervised student teaching experience.

Career Opportunities

The dramatic pace of technological innovation makes this a vital major. The current need for teachers is far greater than the number of available graduates resulting in excellent job placement. Most graduates teach technology-related subjects at the middle and high school level. The degree also provides a strong foundation for numerous technical and teaching careers, including corporate or higher education.

Minor in Western American Studies (18 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:
   AM ST 200 : The American West as a Region. (3:3:0)
   DESCRIPTION: Geography, natural history, history, and cultures of the American West.

2. Complete one course from three of the following four clusters:
   Natural Environment
   GEOL 101 : Introduction to Geology. (3:2:1)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
   NOTE: Honors also.

   PWS 150 : Environmental Biology. (3:3:0)
   OFFERED: F, W
   DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

   PWS 215 : Principles of Range Management. (3:3:0)
   OFFERED: W
   DESCRIPTION: Overview of rangeland resources and management principles, including rangeland classification, multiple use management, natural resource policy, and grazing management.

   PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
   OFFERED: F
   RECOMMENDED: PWS 115.
   DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

   Human Heritage
   HIST 360 : American West to 1900. (3:3:0)
   OFFERED: F
   DESCRIPTION: The American West as a place of great diversity. Topics include Native American societies, European colonization, explorations, the fur trade, overland migrations, Indian relations, mining, settlement, and the environment.

   HIST 361 : The American West Since 1900. (3:3:0)
   OFFERED: W even years.
   DESCRIPTION: Pivotal developments in the twentieth-century West, including urbanization, Sun Belt migration, political protest, labor history, Native American history, immigration, water policy, tourism, military-industrial complex, Hollywood.

   Social Environment
   ANTHR 345 : American Culture. (3:2:ARR)
   OFFERED: F odd years.
   DESCRIPTION: Unity and diversity in U.S. life. Social/cultural change processes illustrated and analyzed. Anthropological study of complex cultures. Seminar-type course involves substantial reading, writing, discussion.

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center or the School of Technology advisor for information regarding requirements for admission to this major.

Program Requirements | View MAP

1. Complete the following core courses:

INDES 133A : Visualization Methods. (1.5:3:3)
OFFERED: F 1st block, Sp
DESCRIPTION: Observational skills, drawing as communication, rapid visualization techniques, orthographic projection, dimensioning, perspective construction, shadows and reflections, and form construction/indication.

INDES 133B : Visualization Methods. (1.5:3:3)
OFFERED: W 2nd block, Su
DESCRIPTION: Observational skills, drawing as communication, rapid visualization techniques, orthographic projection, dimensioning, perspective construction, shadows and reflections, and form construction/indication.

TEE 125 : Technological Systems 1. (3:2:4)
OFFERED: F
DESCRIPTION: Use of, interaction with, and teaching about communication, information, biological, and environmental systems.

TEE 200 : Studio Methods in Prototyping. (3:2:4)
OFFERED: F, W
DESCRIPTION: Theories and practices of prototype construction.
NOTE: Fee.

TEE 225 : Technological Systems 2. (3:2:4)
OFFERED: F
DESCRIPTION: Teaching electronic, construction, and transportation systems.

TEE 229 : Material Properties and Processes. (3:2:4)
DESCRIPTION: Solving real-world problems through layout, measurement, material properties, forming, molding, cutting, fastening, joining, finishing, and fabricating with wood, metal, plastic, and concrete.
NOTE: Fee.

TEE 255 : Visual Communication Design. (3:2:4)
OFFERED: W
PREREQUISITE: TEE 150 or instructor's consent.
DESCRIPTION: Teaching visual design principles through digital still, digital video, and interactive Web media.

TEE 330 : Creativity, Engineering, and Problem Solving. (3:2:4)
OFFERED: W
PREREQUISITE: TEE 125, 225, 229; or instructor's consent.
DESCRIPTION: Designing solutions to technological problems using innovation, creativity, experimentation, problem solving, and engineering design. Manufacturing systems; teaching methods and prototype development.

TEE 340 : Principles of Technology and Engineering. (3:2.0:4.0)
OFFERED: F
PREREQUISITE: TEE 225.
DESCRIPTION: Teaching technology and engineering concepts in education. Developing problem-solving skills by tackling technological and engineering problems.

2. Complete 18 hours from one or more of the following areas:
   Graphic design and multimedia
   Engineering prep and electronics
   Construction systems
   Information technology
   Architecture and furniture design
   Manufacturing
   Computer science
   Trade and technical

   For specific courses, please visit www.et.byu.edu/tte or contact the School of Technology advisement center in 250 SNLB.

3. Complete four registrations of the following:
   TEE 291R : Undergraduate Seminar. (.5:1:0)
   OFFERED: F, W
   DESCRIPTION: Student leadership training, including organization and operation of student technology education clubs. College Lecture attendance required. Separate program sections.
   NOTE: Required each semester for undergraduate majors not enrolled in TTE 391R or 491R.

4. Complete one course from the following:
   MATH 110 : College Algebra. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 97 or equivalent.
   DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, determinants, systems of linear equations, permutations, combinations, binomial theorem.

   MATH 111 : Trigonometry. (2:2:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 or equivalent.
   DESCRIPTION: Circular functions, triangle relationships, identities, inverse trig functions, trigonometric equations, vectors, complex numbers, DeMoivre's theorem.

5. Complete the Professional Education Component:
   a. Complete the following:
      CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
      OFFERED: F, W, Sp
      PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
      DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

      SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
      OFFERED: F, W, Sp, Su
      PREREQUISITE: Sc Ed 276R or comparable major course.
      DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

      SC ED 353 : Multicultural Education. (2:2:0)
      OFFERED: F, W, Sp, Su
      PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
      DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

      SC ED 379 : Classroom Management. (1:1:0)
      OFFERED: F, W, Sp, Su
      PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
      DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

      TEE 276R : Exploration of Teaching. (4:Arr:Arr)
      OFFERED: F
      DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers understand demands and opportunities associated with teaching secondary students.

TEE 377 : Teaching Methods in Technology Education. (2:2:0)
OFFERED: W 1st block
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students in technology education; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

TEE 378 : Practicum in Technology Education. (2:2:0)
OFFERED: W 2nd block
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in technology education; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

Note: Fingerprinting and FBI clearance must be completed prior to enrollment in TTE 377R.

b. Complete 12 hours of one of the following:
TEE 476R : Secondary Student-Teaching Internship. (12:Arr:Arr)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

6. Complete department packet and exit interview.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

TEE 125 : Technological Systems 1. (3:2:4)
OFFERED: F
DESCRIPTION: Use of, interaction with, and teaching about communication, information, biological, and environmental systems.

TEE 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: department chair's and cooperative education coordinator's consent.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

TEE 200 : Studio Methods in Prototyping. (3:2:4)
OFFERED: F, W
DESCRIPTION: Theories and practices of prototype construction.
NOTE: Fee.

TEE 225 : Technological Systems 2. (3:2:4)
OFFERED: F
DESCRIPTION: Teaching electronic, construction, and transportation systems.

TEE 229 : Material Properties and Processes. (3:2:4)
DESCRIPTION: Solving real-world problems through layout, measurement, material properties, forming, molding, cutting, fastening, joining, finishing, and fabricating with wood, metal, plastic, and concrete.
NOTE: Fee.

TEE 251 : Video Production and Nonlinear Editing. (3:2:4)
OFFERED: Sp
PREREQUISITE: TEE 125, 255; or instructor's consent.
DESCRIPTION: Teaching video in education to inspire, communicate, and develop creativity. Fundamentals include planning, storyboarding, camera techniques, composition, assembling, and editing video projects.

TEE 255 : Visual Communication Design. (3:2:4)
OFFERED: W
PREREQUISITE: TEE 150 or instructor's consent.
DESCRIPTION: Teaching visual design principles through digital still, digital video, and interactive Web media.

TEE 276R : Exploration of Teaching. (4:Arr:Arr)
OFFERED: F
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers understand demands and opportunities associated with teaching secondary students.

TEE 291R : Undergraduate Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Student leadership training, including organization and operation of student technology education clubs. College Lecture attendance required. Separate program sections.
NOTE: Required each semester for undergraduate majors not enrolled in TTE 391R or 491R.

300-Level Courses

TEE 330 : Creativity, Engineering, and Problem Solving. (3:2:4)
OFFERED: W
PREREQUISITE: TEE 125, 225, 229; or instructor's consent.
DESCRIPTION: Designing solutions to technological problems using innovation, creativity, experimentation, problem solving, and engineering design. Manufacturing systems; teaching methods and prototype development.

TEE 340 : Principles of Technology and Engineering. (3:2.0:4.0)
OFFERED: F
PREREQUISITE: TEE 225.
DESCRIPTION: Teaching technology and engineering concepts in education. Developing problem-solving skills by tackling technological and engineering problems.

TEE 350 : Multimedia Authoring and Publishing. (3:2:4)
OFFERED: W
DESCRIPTION: Developing advanced media authoring skills for teaching interactive design. Solving real-world interactive design problems for the World Wide Web, CD-ROM, and DVD-ROM in an entrepreneurial environment.

TEE 377 : Teaching Methods in Technology Education. (2:2:0)
OFFERED: W 1st block
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students in technology education; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

TEE 378 : Practicum in Technology Education. (2:2:0)
OFFERED: W 2nd block
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in technology education; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

400-Level Courses

TEE 476R : Secondary Student-Teaching Internship. (12:Arr:Arr)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

TEE 490R : Independent Research and Development. (.5-3:1:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Program supervisor's consent.
DESCRIPTION: Individually preparing technical content associated with selected technological emphases.
NOTE: Fee.

500-Level Graduate Courses (available to advanced undergraduates)

TEE 593R : Workshop in Applied Technology Education. (.5-2:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Teaching and learning technological literacy skills. Reviewing and participating in current technological advances, with a focus on teaching practice and methods.
NOTE: Maximum of 2 credit hours applicable to MS program. Fee.

Teaching English Language Learners Program

Admission to TESOL K–12 Minor

Only students completing teaching programs may enroll in this minor.

The Discipline

Preparation to teach English to children and youth of other languages which involves multidisciplinary course work in a number of areas, including language acquisition; teaching methods and materials; educational programs; and family, school, and community partnerships.

The TESOL K–12 minor focuses on teaching students of limited English proficiency who are in the public schools of the United States.

Career Opportunities

The TESOL K–12 minor meets the requirements, as approved by the Utah State Board of Education, leading to the Utah State ESL endorsement. Earning this endorsement will enhance the career possibilities of teachers holding an elementary or secondary state teaching license.

ANTHR 346 : Anthropology of Mormonism. (3:3:0)
DESCRIPTION: Intensive analysis of Mormon society and culture using a range of anthropological perspectives.

ANTHR 350 : Archaeological Cultures of North America. (3:3:0)
OFFERED: W
DESCRIPTION: Cultural developments of North American Indians (Canada, U.S., and northern Mexico) before Columbus.

ECON 274 : American Economic History. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Impact on households, firms, and government of America's transformation from a rural, agricultural colony to a major industrial nation.

SOC 327 : Sociology of the LDS Church and Its People. (3:3:0)
OFFERED: W
DESCRIPTION: The LDS Church from a social science perspective, including the Church as a new religious movement; LDS culture; the institutionalization process.

Arts and Literature

ENGL 364 : Literature of the American West. (3:3:0)
OFFERED: W
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Literature protraying the West and the frontier.

ENGL 368 : Literature of the Latter-day Saints. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Fiction, poetry, drama, folklore, personal essay, and other literature emerging from the LDS experience and expressing various perspectives on it.

ENGL 392 : American Folklore. (3:3:0)
OFFERED: F, W
DESCRIPTION: American folk art and literature and the historical and cultural circumstances from which they developed.

SPAN 365 : Mexican-American Culture. (3:3:0)
PREREQUISITE: Span 202, 302, or equivalent.
DESCRIPTION: Contemporary culture (education, popular and fine arts, worldview, attitudes, etc.) of the Mexican-American in the U.S.

3. Complete additional elective courses to make a total of 18 hours. Electives may be chosen from the courses listed above that have not been used, from the additional courses listed below, or from topical courses on Western themes offered through academic departments or the Honors Program.

ANTHR 530 : Great Basin Archaeology. (3:3:0)
OFFERED: W even years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography, history of research, and prehistory of the Great Basin culture area. Current issues in archaeological research emphasized.

ANTHR 535 : Southwest Seminar. (3:3:0)
OFFERED: W odd years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography and prehistory of American Southwest. Current issues in archaeological research emphasized.

ARTHC 345 : American Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: American painting and sculpture from colonial through modern times.

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.

Program Requirements

1. Complete the following:

LING 230 : Language, Mind, and the World. (3:3:0)
OFFERED: F, W
DESCRIPTION: Broad overview of language as the medium that makes thinking, understanding, communications, and teaching possible.

TELL 400 : Foundations in Education for English Language Learners. (2:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Identifying and assessing legal, linguistic, cultural, community, and familial issues affecting access of Limited English Proficient (LEP) student populations to education.

TELL 410 : Second Language Acquisition. (2:2:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 230; TELL 400.
DESCRIPTION: Processes and variables in native- and second-language development. How teachers can foster efficient acquisition of language, cognitive, and academic skills in second-language environments.

TELL 420 : Assessing Linguistically Diverse Students. (2:2:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 230; TELL 400.
DESCRIPTION: Fundamental concepts in testing, use/interpretation of current instruments for language/academic assessment, appropriate placement of linguistically diverse students, and developing classroom language assessments.

TELL 430 : Developing K-12 Literacy in a Second Language. (2:2:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 230; TELL 400.
DESCRIPTION: Instructional strategies, methodologies, and materials for developing reading and writing skills in a second language. Developing cognitive academic language proficiency and integrating multiple cultural perspectives.

TELL 440 : Content-Based Language Instruction. (2:2:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ELang 223 or Ling 230; TELL 400.
RECOMMENDED: TELL 410, 420; 430 or concurrent enrollment.
DESCRIPTION: Instructional methods, strategies, and materials for integrating curriculum content and language instruction. Teaching, creating, and adapting lesson materials in a multicultural context.

TELL 450 : Family, School, and Community Partnerships. (2:2:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: for TESOL teaching minors: concurrent enrollment in TELL 400. There are no prerequisites for non-TESOL teaching students.
DESCRIPTION: Standards, principles, policies, and processes of partnering with parents, families, schools, and communities in fostering and sustaining the development of children and youth.

2. Complete four credit hours in an ESL situation and/or working with limited-English-proficiency (LEP) students while enrolled in TELL 477R.

*Hours include courses that may fulfill university core requirements.

College of Fine Arts and Communications Advisement Center
D-444 HFAC, (801) 422-3777

Admission to Degree Program

Several degree programs in the Department of Theatre and Media Arts have a departmental application process with enrollment limitations. Theatre arts studies major and minor programs have declaration procedures but are open enrollment. Please see the college advisement center for specific details (1-801-422-3777).

The Discipline

The study of theatre and media arts is truly a study of humankind and our attitudes toward ourselves as revealed in artistic expression. Since art is a mirror of human society, the specific disciplines of theatre and media arts cover our innermost attempts at comprehending our existence through all time.

The BYU theatre program is designed to educate students in a basic foundation of dramatic literature, theatre history, theory, performance skills as both actor and director, and techniques in all areas of theatre design technology and production.

The BYU media arts program is designed to educate students in a basic foundation of film history, theory, and criticism, along with the fundamental production competencies in film, television, animation, or interactive multimedia.

Mission Statement

TMA exists to fulfill both the mission of BYU "to assist individuals in their quest for perfection and eternal life" and The Aims of a BYU Education, which "should be (1) spiritually strengthening, (2) intellectually enlarging, and (3) character building, leading to (4) lifelong learning and service." We work toward these ends by promoting literacy, spirituality, and creativity and by exploring their interrelatedness in the arts of theatre and media.

- *Literacy* means for us the ability to "read"—that is, to apply the vocabulary and grammar, theoretical models, history, and analysis of theatre and media in order to (1) read multiple meanings and (2) appreciate, evaluate, and respond to them.
- *Spirituality* consists of discovering, exploring, and balancing the interrelationships among the individual, others, and Deity.
- *Creativity* means synthesizing in new ways and illuminating human understanding through performance and production.

We promote literacy, spirituality, and creativity in the arts of theatre and media by emphasizing such central elements as

- the truths of human experience,
- generosity of soul,
- a service orientation and focus on others,
- commitment to developing infinite potential, and
- awareness.

In promoting literacy, spirituality, and creativity in theatre and media arts, we balance the skills and demands of

- thinking—both creative and critical—
- collaborative mentored processes, and
- production.

—Adopted October 7, 2003

Career Opportunities

The theatre program provides training and experience in all areas of theatre, from performing to playwriting, from teaching to technical production.

The media arts program provides a foundation and basic experience in analyzing, conceptualizing, writing, directing, and collaboratively producing nonfiction, narrative, and interactive media. For skill development and specialization, students may select an area of study from the following: critical studies; film, documentary, or television and radio producing and directing; screenwriting; or interactive multimedia.

For an area of interest study list, contact the advisement center or the department office.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence

- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BA in Media Arts Studies
BA in Theatre Arts Education
BA in Theatre Arts Studies
BFA in Acting

Minors

Theatre Arts Education
Theatre Arts Studies

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Theatre and Media Arts
MFA in Production Design

For more information see the BYU 2008–2009 Graduate Catalog.

Animation-Additional Degree Program Offered

The BFA in animation is an interdisciplinary degree offered by the College of Fine Arts and Communications through the cooperative involvement of the Department of Theatre and Media Arts, the Department of Visual Arts, and the Ira A. Fulton College of Engineering and Technology's School of Technology. Please see the Visual Arts section of this catalog for degree requirements, or go to the College of Fine Arts and Communications Advisement Center for more information about entrance requirements to this program.

General Information

1. All theatre majors—BFA acting and music dance theatre (MDT), theatre education, and theatre arts studies—should declare themselves as theatre majors at the college advisement center in order to receive a major card that will enable students to attend theatre season performances.
2. The theatre arts studies major is an open enrollment program. See program description for details on declaring this major.
3. For all limited enrollment programs—animation, BFA acting, MDT, media arts, and theatre education—students are required to fulfill particular premajor requirements. See individual program description for details. Application must be made for entrance into the chosen degree program.

BA in Media Arts Studies (49-51 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this program.

The media arts studies program produces students with a strong liberal arts foundation that can be used effectively in a variety of film-related careers or graduate studies. Graduates are generalists with skills and proficiencies that can be used in multiple venues including emerging media environments. Students master knowledge of film culture, history, and theory; develop general and specialized skills sets; and utilize processes that integrate professional practices, generate creative applications to new situations, and support collaboration in multiple settings. Core curriculum of critical studies develops analytical skills and creates a foundation for application and experimentation; a wide range of electives allows additional emphasis in critical studies, narrative or documentary production, or other specialized areas.

Program Requirements | View MAP

1. Complete the following pre-media arts courses with a B grade or better:
   TMA 102 : Introduction to Film. (3:4:2)
   DESCRIPTION: Analytical studies for understanding and appreciating media forms and messages, as well as basic history, theory, and aesthetics. Lab required.

   TMA 112 : Collaboration, Research, and Visualization. (2:4:0)
   DESCRIPTION: Overview and practical applications of principles of collaboration, research, and visualization as essential elements of appreciation and production of media arts projects.

2. Be admitted to the program by application. (See the department office, D-581 HFAC.)

3. Complete the following foundation courses:
   TMA 105 : Using Basic Media Tools. (1:1:1)
   PREREQUISITE: Media arts major or minor status or pre-animation major status; concurrent enrollment in TMA 185.
   DESCRIPTION: Introductory course to familiarize students with basics in camera, lighting, and sound fundamentals.

   TMA 114 : Reading and Constructing Narratives. (3:3:3)
   PREREQUISITE: Animation majors--admittance to the animation program; media arts studies majors/minors--TMA 102, 113, and admittance to media arts program; MDT--admittance to the MDT program; theatre arts studies majors/minors and BFA Acting--TMA 101; theatre education majors--Sc Ed 276R.
   DESCRIPTION: Analyzing basic narrative principles; conceptualizing and writing narratives for theatre and media.

   TMA 185 : Basic Media Production. (3:4:3)
   PREREQUISITE: Media arts major/minor status or animation major status; concurrent enrollment in TMA 105.
   DESCRIPTION: Introduction to basics of film and video production. Includes lecture and practical lab experiences with audio and video.

4. Complete the following media arts core courses:
   TMA 291 : Media Arts History 1. (3:3:0)
   PREREQUISITE: TMA 114.
   DESCRIPTION: Survey of social, aesthetic, business, and technical dimensions of film and media from 1895 to 1945.

   TMA 292 : Media Arts History 2. (3:3:0)
   PREREQUISITE: TMA 114.
   DESCRIPTION: Survey of social, aesthetic, business, and technical dimensions of film and media from 1946 to present.

TMA 293 : History of Documentary and Nonficton Film. (3:ARR:0)
PREREQUISITE: Media arts major/minor status; TMA 114.
DESCRIPTION: Introduction to and contextualization of documentary film from its inception to present.

TMA 391 : Introduction to Media Arts Theory. (3:6:0)
PREREQUISITE: TMA 291or 292.
DESCRIPTION: Identifying and analyzing contemporary film and media theories, with application to specific media texts.

5. Complete one of the following advanced critical studies courses:
TMA 458 : Media Literacy Education. (3:3:1)
OFFERED: F
PREREQUISITE: TMA 102, 114.
RECOMMENDED: TMA 291, 292.
DESCRIPTION: Media literacy principles and basic film production in the context of educating students and teachers in local K-12 public schools.

TMA 477R : Issues in Media Arts. (3:5:0)
PREREQUISITE: Media arts major status; TMA 291, 292.
DESCRIPTION: In-depth study of key media arts issues, within context of gospel principles.

TMA 492R : Media Arts Genres. (3:2:3)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Intensive analysis of a single major traditional media genre (i.e., western, musical, sitcom, or melodrama) with consideration of contextual, subtextual, and textual issues.

TMA 494 : Transcendence: Religion and Film. (3:6:0)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Historical, stylistic, and thematic survey of approaches to religious and spiritual subject matter in film.

TMA 497 : Media as a Mirror of Our Times. (3:2:3)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Interdisciplinary approach to media texts as aesthetic and historical documents expressing a people, place, and time.

TMA 498R : Special Topics in Media Arts. (3:3:3)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Consideration of compelling issues in media arts practice, theory, history, and criticism.

6. Complete 22–24 hours (14 must be upper-division) from faculty advisor-approved courses in an area of study. These areas of study must be approved in writing by the student's faculty advisor before enrollment occurs. Please contact the department for possible study areas. Up to eight hours of practica can be used to fill this requirement.

*Hours include courses that may fulfill university core requirements.

BA in Theatre Arts Education (76 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

The theatre arts education degree program is designed to prepare students to become creative teachers who can meet the educational needs of secondary school theatre students. The skills the program emphasizes include, but are not limited to, interpersonal communication, social, life, acting, directing, writing, historical/analytical, and design/production skills. In addition to developing highly skilled educators, the program is designed to develop strong directing and production skills in each prospective high school teacher.

Program Requirements | View MAP

1. A teaching minor is not required for licensure. However, it is strongly recommended.

2. Complete the following pre-theatre courses with a B grade or better:
   TMA 101 : Introduction to the Theatre. (3:3:1)
   DESCRIPTION: Reading, viewing, analyzing, writing about, and interacting with contemporary plays and performances to explore both theatre fundamentals and ways theatre addresses questions and concerns of our time. Lab required.
   NOTE: Independent Study also.

   or
   TMA 102 : Introduction to Film. (3:4:2)
   DESCRIPTION: Analytical studies for understanding and appreciating media forms and messages, as well as basic history, theory, and aesthetics. Lab required.

   TMA 160 : Theatre Production 1. (1:2:2)
   DESCRIPTION: Practical experience in the scene shop, costume shop, and lighting lab. Hands-on training for further production experience.

   Note: TMA 102 is strongly recommended to enhance media literacy.

3. Be admitted to the licensure program by application during Sc Ed 276R (see the department office, D-581 HFAC.)

4. Complete the following foundation courses:
   TMA 114 : Reading and Constructing Narratives. (3:3:3)
   PREREQUISITE: Animation majors--admittance to the animation program; media arts studies majors/minors--TMA 102, 113, and admittance to media arts program; MDT--admittance to the MDT program; theatre arts studies majors/minors and BFA Acting--TMA 101; theatre education majors--Sc Ed 276R.
   DESCRIPTION: Analyzing basic narrative principles; conceptualizing and writing narratives for theatre and media.

   TMA 123 : Acting Fundamentals. (2:4:1)
   RECOMMENDED: concurrent enrollment in TMA 122, 125.
   DESCRIPTION: Fundamental acting skills: exercises in perception, objective/action, thought processes, scoring of scripts. Lab required.

   TMA 236 : Directing Fundamentals. (2:4:1)
   PREREQUISITE: TMA 114 or instructor's consent (except theatre education majors).
   DESCRIPTION: Fundamental elements of stage and media directing, including observation, collaboration, imagination, casting, working with actors, camera, spaces, words, images, rehearsals, and final product.

5. Complete the following theatre core courses:
   TMA 201 : Dramatic Performance: Antiquity to Renaissance. (3:3:0)
   DESCRIPTION: Civilization from Greek antiquity through Renaissance, primarily from perspective of dramatic

literature and performance. Ways in which performance functions within particular socioeconomic, political, religious, and aesthetic perspectives.

TMA 202 : Dramatic Performance: Renaissance to the Present. (3:3:0)
DESCRIPTION: Civilization from Renaissance through present, primarily from perspective of dramatic literature and performance. Ways in which performance functions within particular socioeconomic, political, religious, and aesthetic perspectives.

TMA 260R : Theatre Production 2. (1:0:4)
PREREQUISITE: TMA 160 or instructor's consent.
DESCRIPTION: Practical experience in specialized shops or backstage experience on realized productions.

TMA 301 : Contemporary Performance Practices. (2:4:0)
OFFERED: F, W
PREREQUISITE: TMA 201, 202.
DESCRIPTION: Evaluate great works of 20th century dramatic literature. Critically analyze the connection between theatre and historical society. Synthesize critical study with hands-on application of a variety of modes of 20th century performance.

TMA 360R : Theatre Production 3. (1:0:4)
PREREQUISITE: TMA 160 or instructor's consent.
DESCRIPTION: Advanced practical experience in specialized shops or backstage experience on realized productions.

TMA 395 : Dramatic Literature 1. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through Western literary theories, emphasizing performance.

TMA 396 : Dramatic Literature 2. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through global literary theories, emphasizing performance.

6. Complete the following major courses:

TMA 121 : Voice and Diction. (2:3:1)
PREREQUISITE: MDT or theatre education major status or instructor's consent.
DESCRIPTION: Skills involved in producing an effective voice; International Phonetic Alphabet. Lab required.

TMA 127 : Beginning Stage Combat. (1:2:1)
PREREQUISITE: BFA acting major status, or Sc Ed 276R, or instructor's consent.
DESCRIPTION: Basic hand-to-hand stage combat instruction. Introduction to tumbling and falls.

TMA 266 : Set Construction 1. (2:4:0)
PREREQUISITE: TMA 101, 160.
DESCRIPTION: Intermediate skills in scenic construction and stage maintenance.

TMA 267 : Makeup 1. (2:4:1)
PREREQUISITE: major status; TMA foundation courses.
DESCRIPTION: Elementary techniques in makeup application for film, television, and stage. Lab work on main season productions is required.

TMA 336 : Directing Principles and Practices. (3:4:1)
PREREQUISITE: Theatre arts studies majors: TMA 114, 236, and instructor's consent. Media arts studies majors: TMA 105, 114, 185, and instructor's consent.
DESCRIPTION: Theories and processes of taking a scene from script to production.

TMA 361 : Stage Management 1. (2:2:2)
PREREQUISITE: TMA 101, 123, 160, 236; or instructor's consent. Theatre education majors must also have completed Sc Ed 276R.
DESCRIPTION: Principles and objectives of stage management. Assistant stage managers for departmental productions will be selected from students enrolled in this course.

TMA 368 : Scenic Art. (2:4:0)
PREREQUISITE: Theatre arts studies or theatre education major status.
DESCRIPTION: Basic approaches to painting and finishing scenic elements. Priming, lay-in, texturing, and effects. Possible work painting on departmental productions.

DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

HIST 363 : The Spanish Frontier in North America. (3:3:0)
OFFERED: W even years.
DESCRIPTION: Spanish exploration, occupation, and institutions of northern Mexico, the American southwest, and Florida, 1521-1821; Mexican period to 1848.

HIST 364 : Utah. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Contributions of Native Americans, explorers, mountain men, miners, government officials, Mormons, and other groups in the nineteenth century. Impact of national movements, various peoples, politics, economics, and social and cultural change in the twentieth century.

HIST 382 : Mormonism in the American Experience. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Social, economic, political, intellectual, and religious environment in which Mormonism flourished; contributions of Mormon men and women to American culture and history.

BA in Theatre Arts Studies (50 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The theatre arts studies major is an open enrollment program that provides a strong liberal arts foundation that can be used effectively in a variety of performance-related careers or graduate studies. The major provides practical training, critical thinking skills, and the development of professional ethics across the various performance disciplines. Students may focus studies in areas of interest — critical studies and dramaturgy, design and technology, directing and stage management, playwriting, or theatre for young audiences — but graduates are generalists with skills and proficiencies that can be used in multiple production venues and media environments.

Program Requirements | View MAP

1. Complete the following prerequisite courses:
   TMA 101 : Introduction to the Theatre. (3:3:1)
   DESCRIPTION: Reading, viewing, analyzing, writing about, and interacting with contemporary plays and performances to explore both theatre fundamentals and ways theatre addresses questions and concerns of our time. Lab required.
   NOTE: Independent Study also.

   TMA 102 : Introduction to Film. (3:4:2)
   DESCRIPTION: Analytical studies for understanding and appreciating media forms and messages, as well as basic history, theory, and aesthetics. Lab required.

   TMA 160 : Theatre Production 1. (1:2:2)
   DESCRIPTION: Practical experience in the scene shop, costume shop, and lighting lab. Hands-on training for further production experience.

2. Complete and submit declaration form for the theatre arts studies major to the department office (D-581 HFAC).

3. Complete the following foundation courses:
   TMA 114 : Reading and Constructing Narratives. (3:3:3)
   PREREQUISITE: Animation majors--admittance to the animation program; media arts studies majors/minors--TMA 102, 113, and admittance to media arts program; MDT--admittance to the MDT program; theatre arts studies majors/minors and BFA Acting--TMA 101; theatre education majors--Sc Ed 276R.
   DESCRIPTION: Analyzing basic narrative principles; conceptualizing and writing narratives for theatre and media.

   TMA 123 : Acting Fundamentals. (2:4:1)
   RECOMMENDED: concurrent enrollment in TMA 122, 125.
   DESCRIPTION: Fundamental acting skills: exercises in perception, objective/action, thought processes, scoring of scripts. Lab required.

   TMA 236 : Directing Fundamentals. (2:4:1)
   PREREQUISITE: TMA 114 or instructor's consent (except theatre education majors).
   DESCRIPTION: Fundamental elements of stage and media directing, including observation, collaboration, imagination, casting, working with actors, camera, spaces, words, images, rehearsals, and final product.

4. Complete the following theatre core courses:
   TMA 201 : Dramatic Performance: Antiquity to Renaissance. (3:3:0)
   DESCRIPTION: Civilization from Greek antiquity through Renaissance, primarily from perspective of dramatic literature and performance. Ways in which performance functions within particular socioeconomic, political, religious, and aesthetic perspectives.

   TMA 202 : Dramatic Performance: Renaissance to the Present. (3:3:0)
   DESCRIPTION: Civilization from Renaissance through present, primarily from perspective of dramatic literature and

performance. Ways in which performance functions within particular socioeconomic, political, religious, and aesthetic perspectives.

TMA 260R : Theatre Production 2. (1:0:4)
PREREQUISITE: TMA 160 or instructor's consent.
DESCRIPTION: Practical experience in specialized shops or backstage experience on realized productions.

TMA 301 : Contemporary Performance Practices. (2:4:0)
OFFERED: F, W
PREREQUISITE: TMA 201, 202.
DESCRIPTION: Evaluate great works of 20th century dramatic literature. Critically analyze the connection between theatre and historical society. Synthesize critical study with hands-on application of a variety of modes of 20th century performance.

TMA 360R : Theatre Production 3. (1:0:4)
PREREQUISITE: TMA 160 or instructor's consent.
DESCRIPTION: Advanced practical experience in specialized shops or backstage experience on realized productions.

TMA 395 : Dramatic Literature 1. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through Western literary theories, emphasizing performance.

TMA 396 : Dramatic Literature 2. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through global literary theories, emphasizing performance.

5. Complete 20 hours (12 must be upper-division) in consultation with the faculty mentor. These individually tailored programs will allow the student maximum flexibility while guaranteeing quality control.

*Hours include courses that may fulfill university core requirements.

TMA 364 : Lighting Design 2. (2:4:0)
PREREQUISITE: TMA 264.
DESCRIPTION: Art approaches to renderings and plots. Advanced computer graphics. Assistants and designers for departmental productions may be selected from students enrolled in this course.

TMA 366 : Production Drafting. (2:2:2)
DESCRIPTION: Hand drafting principles as used in scenic and production design. Theoretical projects that include industry standards for drawing, building, and presenting.

TMA 367 : Makeup 2. (2:4:1)
PREREQUISITE: major status; TMA 114, 267.
DESCRIPTION: Advanced techniques in makeup and introduction to prosthetics. Supervision on departmental productions required. Assistant designers will be selected from this course.

TMA 368 : Scenic Art. (2:4:0)
PREREQUISITE: Theatre arts studies or theatre education major status.
DESCRIPTION: Basic approaches to painting and finishing scenic elements. Priming, lay-in, texturing, and effects. Possible work painting on departmental productions.

TMA 369R : Design and Technology Projects. (.5-4:ARR:ARR)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Practical experience working as main season assistant designers; related topics.

TMA 370R : Practicum: Interactive Multimedia. (2:2:6)
DESCRIPTION: Skills in and practice with current IMM tools.

TMA 372R : Media Collaboration. (.5-3:ARR:0)
PREREQUISITE: major status; TMA 114; by application only.
DESCRIPTION: Experience collaborating with senior capstone media arts experience.

TMA 377A : Teaching Methods and Instruction. (2:2:1)
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students in theatre; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

TMA 377B : Teaching Methods and Instruction. (2:2:1)
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students in theatre; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

TMA 377C : Teaching Methods and Instruction: Theatre in Education Practices. (2:2:1)
OFFERED: F
PREREQUISITE: Sc Ed 276R, 377A,B.
DESCRIPTION: Practicing contemporary theatre-in-education (TIE) methods to be employed in practical secondary education settings.

TMA 378R : Producing and Directing Television Studio Production. (3:2:3)
PREREQUISITE: Media arts or communications major status; TMA 277R.
DESCRIPTION: Directing techniques in creating electronic images and sound for live dissemination. Lab required.

TMA 380 : Introduction to Dramaturgy. (3:4:0)
OFFERED: W
DESCRIPTION: Research and apply hands-on theatrical skills in four critical studies areas; literary management, production dramaturgy, new play development, educational outreach.

TMA 384R : Practicum: Special Topics in Media Arts. (.5-6:ARR:1)
PREREQUISITE: Major status or instructor?s consent.
DESCRIPTION: Fundamentals of special media skills.

TMA 387 : Production Management: Advanced. (3:3:1)
PREREQUISITE: Media arts major status; media arts foundation courses; TMA 187.
DESCRIPTION: Overview of techniques for managing large arts projects, involving individual and team projects.

TMA 388R : Media Arts Crew. (.5-3:0:ARR)
PREREQUISITE: TMA 114, 185. By application only.
DESCRIPTION: Practical supervised experience in media arts production. Exposure to protocols, as well as organizational and technical aspects.

TMA 389R : Producing Symposium. (3:3:0)
PREREQUISITE: Media arts major status; TMA 114. By application only.
DESCRIPTION: Developing organizational skills by workshop meetings with industry professionals, who share their producing experiences, styles, and strategies.

TMA 391 : Introduction to Media Arts Theory. (3:6:0)
PREREQUISITE: TMA 291or 292.
DESCRIPTION: Identifying and analyzing contemporary film and media theories, with application to specific media texts.

TMA 392 : Children's Media. (3:3:0)
DESCRIPTION: Historical and theoretical survey of media for and about children and the literature that informs it; discussions and strategies relating to production, reception, pedagogy, and parenting.

TMA 394 : Conceptualizing Nonnarrative Forms. (3:3:2)
PREREQUISITE: media arts major status; TMA 274.
DESCRIPTION: Advanced readings and practical applications of various nonfiction forms.

TMA 395 : Dramatic Literature 1. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through Western literary theories, emphasizing performance.

TMA 396 : Dramatic Literature 2. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through global literary theories, emphasizing performance.

TMA 399R : Academic Internship. (.5-9:ARR:ARR)
PREREQUISITE: Major status; theatre or media arts foundation courses. By application only.
DESCRIPTION: Off-campus experience or internship in theatre or media arts.

400-Level Courses

TMA 410 : Acting Capstone. (2-4:Arr.:Arr.)
PREREQUISITE: BFA acting major status. By audition only.
DESCRIPTION: Participation in a final acting project on the BYU main-stage season.

TMA 415R : CAD for Theatre and Media Arts. (1:2.0:2.0)
DESCRIPTION: CAD training in scenic, lighting, and production design. Course alternates between drafting and 3D software.

TMA 419A : Advanced Narrative Direction A. (3:3:0)
PREREQUISITE: TMA 319. By application only.
RECOMMENDED: TMA 123.
DESCRIPTION: Working with actors; visual exression; artistic identity. Creating an advanced portfolio. Discussion, lab, individual/group experience and critiques.

TMA 419B : Advanced Narrative Directing B. (1-3:arr.:arr.)
OFFERED: W
PREREQUISITE: TMA 419A. By application only.
DESCRIPTION: Working with actors; visual expression; artistic identity. Creating an advanced portfolio. Discussion, lab, individual/group experience and critiques.

TMA 420R : Performance Workshop 2. (.5-3:0:ARR)
PREREQUISITE: instructor's consent.
DESCRIPTION: Advanced experience in production: acting.

TMA 421 : The Business: Marketing Yourself as a Performer. (1:1.5:0)
PREREQUISITE: BFA acting or MDT major status; TMA 114; instructor's consent.
DESCRIPTION: Business aspects of the entertainment industry, including telephone interviews with entertainment industry personnel. Required research project.

TMA 422 : Dialects. (2:4:1)
PREREQUISITE: BFA acting or MDT major status. BFA acting majors: TMA 124, 222. BFA MDT majors or other majors: TMA 121, 124. By audition and instructor's consent only.
DESCRIPTION: Major stage dialects.

TMA 424 : Advanced Acting. (3:6:0)
PREREQUISITE: BFA acting or MDT major status. BFA acting majors: TMA 124, 222. BFA MDT majors: TMA 121, 124. By audition and instructor's consent only.
DESCRIPTION: Scene studies in extended realism. Absurdism, American classics, Shaw, Chekhov, etc.

TMA 425 : Character Mask. (2:4:0)
PREREQUISITE: BFA acting or MDT major status; TMA 223, 225. By audition and instructor's consent only.
DESCRIPTION: Use of the body as a primary tool for character and script interpretation.

TMA 426 : Music Dance Theatre: Senior Performance Project. (1:0:5)
PREREQUISITE: MDT major status; TMA 361; concurrent enrollment in Music 426, Dance 426.
DESCRIPTION: Participation in an MDT performance group culminating in a showcase for agents and directors in New York City during April.

TMA 427 : Auditions. (3:6:0)
PREREQUISITE: BFA acting or MDT major status. BFA acting majors: TMA 225, 229, 324, 424. BFA MDT majors: TMA 229, 324 (or 424), Dance 240. By audition and instructor's consent only.
RECOMMENDED: BFA acting majors: concurrent enrollment in TMA 425.
DESCRIPTION: Auditions, cold reading, resumes, and the business end of acting, music, and dance for the professional performer.

TMA 429 : Performance: Recital. (3:2:4)
PREREQUISITE: BFA acting or MDT major status. BFA acting majors: TMA 222, 229, 324, 424. BFA MDT majors: TMA 229, 324 (or 424). By audition and instructor's consent only.
DESCRIPTION: Thirty- to forty-five minute performance of cuttings from varied genres.

TMA 436 : Theatre Directing Practicum. (3:2:4)
PREREQUISITE: TMA 336 and instructor's consent.
DESCRIPTION: Directing projects for class critique and public presentation.

TMA 441R : Screenwriting 3. (3:4:0)
PREREQUISITE: major status; TMA 291 or 292; 341. By application only.
DESCRIPTION: Advanced narrative and/or nonfiction screenwriting principles. Emerging technology.

TMA 443R : Writer/Director/Actor Workshop. (3:6:1)
PREREQUISITE: TMA 114.
DESCRIPTION: Collaborative workshop developing new stage and screenplays through exercises, discussion, and writing. Scripts selected competitively; public readings at end of course.

TMA 451R : Playwriting 3. (3:4:0)
PREREQUISITE: TMA 114, 351; or instructor's consent.
DESCRIPTION: Workshop course designed to assist more advanced students in furthering their playwriting skills by writing or rewriting a play.

TMA 452R : Puppetry. (3:4:0)
PREREQUISITE: TMA 114 or instructor's consent.
DESCRIPTION: Theories, techniques, and experience constructing and operating puppets for use in performance, recreational, and educational settings.

TMA 455R : Theatre Tour. (3:0:ARR)
PREREQUISITE: major status or instructor's consent. By audition.
DESCRIPTION: Theatre for young audiences; touring experience.

TMA 457 : Media in the Contemporary Classroom. (3:4:4)
PREREQUISITE: Sc Ed 276R in major area.
DESCRIPTION: Developing educational methods and techniques for using media in the specialized media classroom; study of educational models and theories related to historical and emerging media technologies.

TMA 458 : Media Literacy Education. (3:3:1)
OFFERED: F
PREREQUISITE: TMA 102, 114.
RECOMMENDED: TMA 291, 292.
DESCRIPTION: Media literacy principles and basic film production in the context of educating students and teachers in local K-12 public schools.

TMA 460 : Portfolio. (2:ARR:0)
PREREQUISITE: TMA 395 or 396 or concurrent enrollment.
DESCRIPTION: Capstone design and technology experience. Resumes, cover letters, job searches, and professional portfolio presentation. Analyzing interrelationships of ethical, aesthetic, and theological dimensions of creating performance.

TMA 461R : Stage Management 2. (.5-3:0:ARR)
PREREQUISITE: TMA 361.
DESCRIPTION: Stage management of BYU productions. Stage managers for departmental productions are enrolled in this course.

TMA 462 : History of Costume. (3:3:0)
PREREQUISITE: TMA 262 or instructor's consent.
DESCRIPTION: Costume, clothing, and textiles as mediums for understanding stages and states of individuals, families, and societies; apparel diversity and cultural identity.

TMA 463 : Production Design. (2:2:2)
DESCRIPTION: Introduction to design for film and television. Techniques, basic design elements, analysis, concept boards, budgets, and visits to film locations.

TMA 466R : Set Construction 2. (2:4:0)
PREREQUISITE: TMA 114, 266.
DESCRIPTION: Advanced skills in scenic construction and stage maintenance.

TMA 467 : Makeup 3. (2:4:0)
PREREQUISITE: TMA 367.
DESCRIPTION: Advanced techniques in makeup application, including advanced prosthetics and wig making. Designers for departmental productions may be selected from students enrolled in this course.

TMA 469 : Theatre Management. (3:4:0)
PREREQUISITE: Theatre arts studies foundation courses or instructor's consent.
DESCRIPTION: Basic philosophies of box office, front-of-house, and theatre marketing.

TMA 473R : Writer/Director Workshop (Narrative). (3:6:ARR)
PREREQUISITE: Media arts major status; TMA 419. By application only.
DESCRIPTION: Collaborative directing, videotaping, editing, and revising scenes from advanced student scripts.

TMA 474R : Writer/Director Workshop (Nonfiction). (3:9:ARR)
PREREQUISITE: Media arts major status. By application only.
DESCRIPTION: Collaborative development, revision, and polishing of nonfiction or multimedia projects.

TMA 475R : Media Arts Capstone. (.5-3:ARR:ARR)
PREREQUISITE: Media arts major status. By application only.
DESCRIPTION: Final collaborative project for media students. May be narrative, nonfiction, multimedia, writing, or critical studies format.
NOTE: Fee.

TMA 477R : Issues in Media Arts. (3:5:0)
PREREQUISITE: Media arts major status; TMA 291, 292.
DESCRIPTION: In-depth study of key media arts issues, within context of gospel principles.

TMA 480R : Dramaturgy: Theory and Practice. (3:4:0)
PREREQUISITE: TMA 101 or instructor's consent.
DESCRIPTION: Special topics in critical studies and production. Analyzing and creating historical, theoretical, and/or critical theatre research.

TMA 485R : Production Dramaturgy. (1-3:2:Arr)
PREREQUISITE: TMA 480.
DESCRIPTION: Experience as lead dramaturg for main-stage productions; building casebooks and overseeing audience education efforts. Rehearsal and production meeting attendance required.

TMA 491 : Ethics, Aesthetics, and Theology. (1:2:0)
PREREQUISITE: BFA acting major status.

TMA 492R : Media Arts Genres. (3:2:3)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Intensive analysis of a single major traditional media genre (i.e., western, musical, sitcom, or melodrama) with consideration of contextual, subtextual, and textual issues.

TMA 494 : Transcendence: Religion and Film. (3:6:0)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Historical, stylistic, and thematic survey of approaches to religious and spiritual subject matter in film.

TMA 495 : Shakespeare: Text and Performance. (3:4:0)
PREREQUISITE: TMA 114.
DESCRIPTION: Intensive, multifaceted exploration of selected Shakespearean texts, examined through a wide range of analytical and experiential approaches.

TMA 496R : Academic Internship. (.5-9:ARR:ARR)
PREREQUISITE: major status; theatre or media arts foundation courses. By application only.
DESCRIPTION: Off-campus experience or internship in theatre or media arts.

TMA 497 : Media as a Mirror of Our Times. (3:2:3)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Interdisciplinary approach to media texts as aesthetic and historical documents expressing a people, place, and time.

TMA 498R : Special Topics in Media Arts. (3:3:3)
PREREQUISITE: Media arts major or minor status; TMA 291 or 292.
DESCRIPTION: Consideration of compelling issues in media arts practice, theory, history, and criticism.

500-Level Graduate Courses (available to advanced undergraduates)

TMA 515R : Workshop 3: Special Projects. (1-6:0:ARR)
PREREQUISITE: TMA 114 and instructor's consent.
DESCRIPTION: Advanced special projects in theatre or media arts.

TMA 516R : Theatre and Media Arts Instruction. (1-3:ARR:ARR)
PREREQUISITE: TMA 114 and instructor's consent.
DESCRIPTION: Developing teaching methods and techniques for instruction in theatre and media arts classroom.

TMA 536R : Directing Workshop. (.5-3:ARR:ARR)
PREREQUISITE: TMA 436 or equivalent. By application only.
DESCRIPTION: Advanced experience in production: directing.

TMA 550R : Theatre for Young Audiences. (3:3:1)
PREREQUISITE: TMA 114 or equivalent.
DESCRIPTION: Theories, techniques, and experience in creating formal drama for child and youth audiences.

TMA 551R : Playwriting 4. (3:4:0)
PREREQUISITE: TMA 451 or equivalent; instructor's consent.
DESCRIPTION: Workshop course designed to assist more advanced students in furthering their playwriting skills by writing or rewriting a play.

TMA 552 : Improvisation. (3:3:2)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Informal or improvised dramatic techniques with children, adolescents, and/or adults.

TMA 557 : Storytelling. (2:2:2)
PREREQUISITE: TMA 114 or instructor's consent.
DESCRIPTION: Theories, techniques, and practice in the art of telling spellbinding stories.

TMA 561R : Stage Management Project. (1-6:Arr:Arr)
PREREQUISITE: TMA 361, 461R; or equivalents.
DESCRIPTION: Hands-on training for student stage managers through assigned realized productions, including supervision through full positions on stage and media productions. Department-arranged assignments.

TMA 562 : Costume Design 3. (2:4:0)
PREREQUISITE: TMA 362, 462; or equivalents.
DESCRIPTION: Advanced conceptual approaches to costume design. Strong background in costuming required. Designers for departmental productions will be selected from students enrolled in this course.

TMA 563 : Scenic Design 3. (2:4:0)
PREREQUISITE: TMA 363, 463; or equivalents.
DESCRIPTION: Advanced conceptual scenic design. Assumes strong background in scenography. Designers for departmental productions may be selected from students enrolled in this course.

TMA 564 : Lighting Design 3. (2:4:0)
PREREQUISITE: TMA 114, 364; or equivalents.
DESCRIPTION: Advanced conceptual lighting projects. Assumes strong background in lighting. Designers for departmental productions may be selected from students enrolled in this course.

TMA 565R : Specialty Costumes. (2-6:Arr:Arr)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Advanced skills in millinery, dyes, footwear, and allied project areas.

TMA 567R : Makeup Project. (1-6:0:ARR)
PREREQUISITE: TMA 267 and instructor's consent.

TMA 568 : Sound. (2:4:0)
PREREQUISITE: Theatre arts foundation courses.
DESCRIPTION: Basics in sound design and reinforcement. Work on departmental productions.

TMA 569R : Design for Production. (1-4:0:ARR)
PREREQUISITE: TMA 369 and instructor's consent.
DESCRIPTION: Practical experience working with departmental designers; related topics.

TMA 580R : Introduction to Dramaturgy. (3:4:0)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Graduate-level research and application of hands-on theatrical skills in four critical studies areas: literary management, production dramaturgy, new play development, educational outreach.

TMA 585R : Production Dramaturgy. (1-3:2:Arr)
PREREQUISITE: TMA 580.
DESCRIPTION: Experience as lead dramaturg for main-stage productions; building casebooks and overseeing audience education efforts. Rehearsal and production meeting attendance required.

TMA 599R : Academic Internship. (1-9:ARR:ARR)
PREREQUISITE: Major status; theatre or media arts foundation courses. By application only.
DESCRIPTION: Off-campus experience or internship in theatre or media arts.

College of Fine Arts and Communications Advisement Center
D-444 HFAC, (801) 422-3777

Admission to Degree Program

Admission to the freshman level in the Department of Visual Arts is obtained by departmental application, which includes a drawing exercise and a portfolio review. This process is due in February prior to starting in the fall. (This does not apply to the art history major, which is open enrollment.) Please see General Information below for more details, or contact the college advisement center (1-801-422-3777).

The Discipline

The Department of Visual Arts serves five main purposes: (1) to prepare competent professionals in various fields of the plastic and graphic arts; (2) to prepare qualified designers to solve problems inherent in two- and three-dimensional applications; (3) to train historians who can critically appraise works of art; (4) to prepare art educators for teaching the visual arts at the elementary and secondary levels; and (5) to generally develop individuals' aesthetic sense by helping them experience art.

Career Opportunities

The art education degree certifies the student as an art specialist in public or private institutions, grades K–12. Other opportunities for the certified art specialist are in foreign school systems, recreation programs, art museum education programs, and galleries. Students qualify for positions in artist-in-the-schools programs and arts councils and as art consultants/coordinators. The degree also provides a foundation for graduate study leading to advanced degrees.

Most opportunities for careers related to art history exist in teaching at the junior college and university levels. The art history major traditionally prepares students for related graduate study, but it also provides excellent training for many art- and humanities-related careers and provides a solid foundation for entering several professional graduate programs.

The art history major is valuable for those going into any aspect of museum work, including art conservation/restoration, curatorial work, museum research, and museum youth education programs. It is also a useful and often key undergraduate major for careers in art law, architecture, historical restoration, art galleries, auction houses, and art resource/research library studies. Local, state, and federal agencies offer career possibilities related to arts and humanities councils. Combined with one of several other majors, an art history minor helps prepare the student for any number of careers.

Studio art majors are prepared to compete as freelance, self-employed artists, working through galleries, exhibitions, and museums to promote and sell their work. The MFA degree also prepares artists to teach on a college or a university level. Other career opportunities include printmaking, illustration, production crafts, teaching, gallery and museum work, computer art applications, and other related careers.

Design majors are fully prepared for careers in each of the respective disciplines—

- Graphic design: Advertising agencies, design studios, in-house design organizations, freelance in mediums such as books, posters, signage, billboards, commercials, corporate identity systems, and logos.
- Illustration: In-house or freelance illustration focusing on book jacket, editorial, corporate, or institutional work; advertising, children's books, and computer applications, among others.
- Photography: Portraiture; commercial illustration; advertising; fashion; architectural photography; photo-journalism; editorial, stock, industrial, fine art, educational, medical, and travel photography; photographic conservation, marketing and manufacturing, and finishing.
- Animation majors are prepared to work in various disciplines that include feature animation studios, visual and special effect studios, entertainment, computer games, and scientific data visualization.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Admission to Degree Program

All undergraduate degree programs in the Department of Anthropology are open enrollment.

The Discipline

Anthropology's central aims are to describe, interpret, and make meaningful human behavior in sociocultural systems. It also seeks to explain the similarities and differences in human behavior patterns among all peoples and cultures, both in the present and the past. Social and cultural anthropology study human society in the present, using participant-observation, interviewing, and other techniques to understand the full round of life in a single culture, a subculture, or a multicultural system. Archaeology provides methods for learning about the world's peoples who are no longer living; thus it is an important part of the anthropological family of special skills and interests.

Career Opportunities

Distinctive contributions are made by both anthropology and archaeology majors, and therefore jobs are available wherever social and cultural differences or social system complexity create difficulties. Social services, businesses, schools, development projects, medicine, and law all offer significant careers, and recent concern with environmental protection has opened up others. University teaching and research positions are limited in growth, but highly qualified students can find positions after obtaining the PhD degree from first-rank schools.

For archaeology majors, both legal and societal interest in understanding and preserving the past have resulted in increased job opportunities in state and national agencies required to observe recent preservation laws and in private corporations serving this end.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Graduate Programs and Degrees

MA in Art Education
MA in Art History and Curatorial Studies
MFA in Studio Art

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Application Procedures for Freshmen

New students are accepted only once a year and may have their applications considered only twice. Enrollment is limited and based on several qualifications:

1. University and college admissions standards.
2. Completion of department application form.
3. Submission of slide portfolio.
4. Completion of creative exercise.

Appropriate forms are contained in an application packet available from the department office (E-509 HFAC) at the beginning of winter semester. Deadlines vary for specific programs, so please contact the department (422-8773 or 422-4266) for dates.

Note: Art history majors complete item 1 only.

Freshman Enrollment

Application packets must be returned before February 15.

Note: Individuals receiving notice of acceptance are expected to enroll for the foundation 100-level courses the first year they are accepted to the program; otherwise, they will automatically be dropped and will need to reapply. Anyone wishing for an exception to this policy will need the written approval of the department chair.

Sophomore-Through-Senior BFA Degree Program Enrollment

Permission to enroll for sophomore-through-senior-level BFA degree program courses is granted to students upon satisfactory development of skills and creative abilities demonstrated in a portfolio of drawings and designs completed during the preceding year. Faculty from each major will assess portfolios of work submitted by students wishing to advance in their respective fields of study. Students invited to continue are permitted to enroll in specified courses at the next academic level.

Note: Student portfolios will be reviewed once a year; the deadline is February 15.

Transfer Students

Transfer students in art disciplines must meet with the appropriate area coordinator. Transfer students in design disciplines are required to participate in a portfolio review; the deadline is February 15. Contact the area coordinator.

Note: Students not accepted into BFA degree programs may elect to enroll in one of the bachelor of arts programs in visual arts. Students may apply to the BFA program no more than twice.

Degree Program Coordinators/Advisors

Coordinators are appointed to counsel students in each of the eight majors/emphases. Coordinators will advise students about program objectives, course content and sequence, career goals, and other matters pertaining to their major field of study.

Department Probationary Status

Students can be placed on probationary status for the following:

1. Inadequate academic performance.
2. Unprofessional attitude and lack of commitment.
3. BYU Honor Code violations.

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center
Please report any problems to web_ugrad_cat@byu.edu, Brigham Young University, Provo, UT 84602 - (801)422-4245 - Copyright 2007, All Rights Reserved XHTML CSS 508

Basic Degree Requirements

1. Student must meet application criteria for admission into the program.
2. All 100-level foundation courses must be completed before admission into sophomore-level courses.
3. A portfolio is required in all programs except art history.

This is a limited-enrollment program requiring departmental admissions approval. Please see the department office for information regarding requirements for admission to this major.

Application deadlines: February 15 and September 30.

Program Requirements | View MAP

1. Complete the following first-year foundation courses:

VA 111 : Freshman Seminar. (1:1:0)
OFFERED: F
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Conceptual and philosophical preparation for visual arts majors. Lecture and guided discussion seminar. Nature and value of visual arts and visual culture.

VA 112 : Survey of Digital Technology. (1.5:3.0:0)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Fundamental principles of digital technology as related to the visual arts.

VA 114 : Drawing. (3:2:4)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Observational and conceptual drawing using a variety of media and methods.

VA 115 : Two-Dimensional Design. (3:2:4)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Formal and conceptual elements of design, color, and composition, using a variety of media.

VA 131 : Figure Drawing. (3:2:4)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Figure study using a variety of media and methods. Readings, writings, and participation in course work exhibitions required.

VA 133 : Three-Dimensional Design. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Three-dimensional concepts, theories, and issues using a variety of media and processes. Readings, writings, and participation in course work exhibitions required.
NOTE: Fee.

VA 134 : Introduction to Photography. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 115.
DESCRIPTION: Introduction to photography for visual arts majors, including camera operation and digital capture, photographic principles, lighting, and design with limited postproduction editing. No darkroom.

2. Complete six hours from the following second-year foundation courses:

VASTU 214 : Aqueous Media Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.

DESCRIPTION: Foundation in transparent aqueous media.

VASTU 215 : Painting Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation painting.

VASTU 216 : Ceramics Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation ceramics.
NOTE: Fee.

VASTU 217 : Sculpture Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation sculpture.
NOTE: Fee.

VASTU 218 : Intaglio Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation printmaking.
NOTE: Fee.

3. Complete nine hours of 300- and 400-level courses.

4. Complete the following:
ARTHC 300 : Art Historical Methodology, Research, and Intensive Writing. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Necessary skills to research and write in the field of art history.

5. Complete one course from the following:
ARTHC 350 : Modern Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Modern European art and theory, 1900--1945.
NOTE: Independent Study also.

ARTHC 353 : American Art 1876-1950. (3:3:0)
OFFERED: W
DESCRIPTION: Survey of American painting and sculpture from 1876-1950.

ARTHC 355 : Contemporary Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical evaluation of trends in art since 1945.

6. Complete the following art education licensure requirements during the same semester:
VAEDU 324 : Foundations in Art Education. (3:3:0)
PREREQUISITE: concurrent enrollment in ScEd 276R.
DESCRIPTION: Theoretical, philosophical, and historical foundations of art education; children's aesthetic development.

SC ED 276R : Exploration of Teaching. (3-4:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

: Exploration of Teaching - Theatre and Media Arts.
: Exploration of Teaching: English.
: Exploration of Teaching: Foreign Language.
: Exploration of Teaching: Music.
: Exploration of Teaching: Social Science.
: Exploration of Teaching: Art.
: Exploration of Teaching: Biological Sciences.
: Exploration of Teaching: Dance.
: Exploration of Teaching: Exercise Sciences.
: Exploration of Teaching: Family and Consumer Sciences.
: Exploration of Teaching: Health.
: Exploration of Teaching: Mathematics.
: Exploration of Teaching: Physical Science.
: Exploration of Teaching: Technology Teacher Education.

(3 hours)

Note: Fingerprinting and FBI clearance must be completed before registration for Sc Ed 276R.

7. Complete the following:

VAEDU 339 : Computer Application in Art Education. (1.5:1.5:0)
OFFERED: F, W, Sp
PREREQUISITE: VAEdu 324, Sc Ed 276R.
DESCRIPTION: Basic program applications for developing instructional materials in art education.

VAEDU 377 : Art History and Visual Culture Methods. (3:3:0)
OFFERED: W
PREREQUISITE: VAEdu 324, Sc Ed 276R; VAEdu 339 or concurrent enrollment.
DESCRIPTION: Theoretical foundations and practical applications for teaching art history and production.

VAEDU 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in VAEdu 377, 439.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

VAEDU 397 : Introduction to Art Criticism. (3:3:0)
PREREQUISITE: VAEdu 324, Sc Ed 276R.
DESCRIPTION: Theoretical foundations for critical judgment in art and their application in judging works of art.

VAEDU 439 : Aesthetics and Criticism Methods for Art Educators. (3:3:0)
OFFERED: W
PREREQUISITE: VAEdu 324, Sc Ed 276R; VAEdu 339 or concurrent enrollment.
DESCRIPTION: Theoretical foundations and practical applications for teaching aesthetics and criticism.

VAEDU 450 : Advanced Studio for Art Educators. (3:6:0)
OFFERED: F, W
PREREQUISITE: VAEdu 324, Sc Ed 276R.
DESCRIPTION: Exploring visual culture and contemporary art problems. Creating artworks and methodologies for translating art-making experiences in the K-12 art program.

VAEDU 478 : Art Curriculum Development, Implementation, and Evaluation. (3:3:0)
PREREQUISITE: VAEdu 324, Sc Ed 276R; VAEdu 339 or concurrent enrollment; a C- grade or higher in VAEdu 377, 397, 439.
DESCRIPTION: Principles for developing balanced art curriculum; curriculum implementation; evaluation of student progress and art program effectiveness.

Note: VAEdu 377 and 439 must be taken in conjunction with 378.

8. Complete the following additional licensure requirements:

ARTHC 201 : World Civilization to 1500. (3:3:0)
DESCRIPTION: Survey of Western civilization emphasizing the visual arts from ancient Greece to the Gothic period.

ARTHC 202 : World Civilization Since 1500. (3:3:0)
DESCRIPTION: Survey of Western civilization emphasizing the visual arts from the Renaissance to the twentieth century.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.

DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

9. Complete an interview with advisor.

10. Complete a teaching assistant experience.

11. Complete 12 hours from one of the following:
SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

   DESCRIPTION: Necessary skills to research and write in the field of art history.

   VASTU 200 : Studio Techniques for Art History. (3:2:4)
   DESCRIPTION: Introduction to art techniques, materials, and practices directed toward art history majors.

2. Ancient art: Complete one course from the following:
   ARTHC 304 : Greek Art. (3:3:0)
   PREREQUISITE: ArtHC 201 or instructor's consent.
   DESCRIPTION: History and appreciation of Greek art, with consideration of formative cultures.

   ARTHC 306 : Roman Art. (3:3:0)
   PREREQUISITE: ArtHC 201 or instructor's consent.
   DESCRIPTION: Art and architecture of the Etruscans and Romans.

3. Medieval art: Complete one course from the following:
   ARTHC 310 : Early Christian and Byzantine Art. (3:3:0)
   PREREQUISITE: ArtHC 201 or instructor's consent.
   DESCRIPTION: Survey of Christian art in the Roman and Byzantine Empire from ca. 200 to 1453.

   ARTHC 316 : Art of the Medieval West. (3:3:0)
   OFFERED: W
   PREREQUISITE: ArtHC 201, 202.
   DESCRIPTION: Art in western Europe from 400 AD to 1400.

4. Renaissance art: Complete one course from the following:
   ARTHC 320 : Italian Renaissance. (3:3:0)
   DESCRIPTION: Art and architecture in Italy from 1200 to 1580.

   ARTHC 325 : Northern Renaissance Art. (3:3:0)
   PREREQUISITE: ArtHC 202 or instructor's consent.
   DESCRIPTION: Fifteenth- and sixteenth-century art in northern Europe.

5. Baroque art: Complete one course from the following:
   ARTHC 330 : Southern Baroque Art. (3:3:0)
   PREREQUISITE: ArtHC 202 or instructor's consent.

DESCRIPTION: History of baroque painting, sculpture, and architecture in Italy, Spain, and France.

ARTHC 335 : Northern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Baroque painting in Flanders and Holland.

6. Nineteenth-century art: Complete one course from the following:
ARTHC 340 : Nineteenth-Century European Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Nineteenth-century art in Europe.

ARTHC 345 : American Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: American painting and sculpture from colonial through modern times.

ARTHC 363 : English Architecture, 1485--1900. (3:3:0)
DESCRIPTION: English architecture from Tudor through Victorian period.

ARTHC 365 : American Architecture. (3:3:0)
DESCRIPTION: Major figures, monuments, and movements in American architecture from colonial period through "Gilded Age."

7. Modern art: Complete one course from the following:
ARTHC 350 : Modern Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Modern European art and theory, 1900--1945.
NOTE: Independent Study also.

ARTHC 353 : American Art 1876-1950. (3:3:0)
OFFERED: W
DESCRIPTION: Survey of American painting and sculpture from 1876-1950.

ARTHC 355 : Contemporary Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical evaluation of trends in art since 1945.

ARTHC 367 : Modern Architecture. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical review of roots and evolution of modern architecture.

8. Non-Western art: Complete one course from the following:
ARTHC 302 : Egyptian Art and Architecture. (3:3:0)
DESCRIPTION: Development of Egyptian art from predynastic through Hellenistic periods, emphasizing contributions to the development of world civilization.

ARTHC 375 : Japanese Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202, 203.
DESCRIPTION: Japanese art and architecture from its neolithic origins through the dawn of the modern age. Literary, social, and religious contexts considered.

ARTHC 377 : Islamic Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Importance of Islamic contributions to world culture from pre-Islamic period through modern times.

ARTHC 380 : Northern Mesoamerican Art. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Survey of art and architecture of Mexico from antiquity to present.

ARTHC 382 : Southern Mesoamerican Art. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Survey of art and architecture of southern Mexico and central America from antiquity to present.

9. Complete three hours from one of the following thesis courses:
ARTHC 498 : Senior Thesis. (3:3:0)
OFFERED: F, W
PREREQUISITE: ArtHC 300; senior standing.
DESCRIPTION: Capstone project tying together major course work. An expansion and refinement of work started

earlier in other classes.

ARTHC 499R : Honors Thesis. (.5-6:0:0)

10. Complete four courses from any of the following upper-division core courses not already taken:

ARTHC 302 : Egyptian Art and Architecture. (3:3:0)
DESCRIPTION: Development of Egyptian art from predynastic through Hellenistic periods, emphasizing contributions to the development of world civilization.

ARTHC 304 : Greek Art. (3:3:0)
PREREQUISITE: ArtHC 201 or instructor's consent.
DESCRIPTION: History and appreciation of Greek art, with consideration of formative cultures.

ARTHC 306 : Roman Art. (3:3:0)
PREREQUISITE: ArtHC 201 or instructor's consent.
DESCRIPTION: Art and architecture of the Etruscans and Romans.

ARTHC 310 : Early Christian and Byzantine Art. (3:3:0)
PREREQUISITE: ArtHC 201 or instructor's consent.
DESCRIPTION: Survey of Christian art in the Roman and Byzantine Empire from ca. 200 to 1453.

ARTHC 316 : Art of the Medieval West. (3:3:0)
OFFERED: W
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Art in western Europe from 400 AD to 1400.

ARTHC 320 : Italian Renaissance. (3:3:0)
DESCRIPTION: Art and architecture in Italy from 1200 to 1580.

ARTHC 325 : Northern Renaissance Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Fifteenth- and sixteenth-century art in northern Europe.

ARTHC 329 : Renaissance and Baroque Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: History of architecture in Italy, Spain, France, Germany, Austria, and England, 1400?1700.

ARTHC 330 : Southern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: History of baroque painting, sculpture, and architecture in Italy, Spain, and France.

ARTHC 335 : Northern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Baroque painting in Flanders and Holland.

ARTHC 340 : Nineteenth-Century European Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Nineteenth-century art in Europe.

ARTHC 345 : American Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: American painting and sculpture from colonial through modern times.

ARTHC 350 : Modern Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Modern European art and theory, 1900--1945.
NOTE: Independent Study also.

ARTHC 353 : American Art 1876-1950. (3:3:0)
OFFERED: W
DESCRIPTION: Survey of American painting and sculpture from 1876-1950.

ARTHC 355 : Contemporary Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical evaluation of trends in art since 1945.

ARTHC 360 : Introduction to Museum and Curatorial Studies. (3:3:0)

PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Duties of museum professionals while applying museum theory to the practical development of a museum exhibit.

ARTHC 363 : English Architecture, 1485--1900. (3:3:0)
DESCRIPTION: English architecture from Tudor through Victorian period.

ARTHC 365 : American Architecture. (3:3:0)
DESCRIPTION: Major figures, monuments, and movements in American architecture from colonial period through "Gilded Age."

ARTHC 367 : Modern Architecture. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical review of roots and evolution of modern architecture.

ARTHC 371 : Chinese Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202, 203.
DESCRIPTION: Chinese art and architecture from its neolithic origins through the dawn of the modern age. Literary, social, and religious contexts considered.

ARTHC 375 : Japanese Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202, 203.
DESCRIPTION: Japanese art and architecture from its neolithic origins through the dawn of the modern age. Literary, social, and religious contexts considered.

ARTHC 377 : Islamic Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Importance of Islamic contributions to world culture from pre-Islamic period through modern times.

ARTHC 380 : Northern Mesoamerican Art. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Survey of art and architecture of Mexico from antiquity to present.

ARTHC 382 : Southern Mesoamerican Art. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Survey of art and architecture of southern Mexico and central America from antiquity to present.

ARTHC 490R : Special Topics and Readings in Art History. (1-6:ARR:ARR)
DESCRIPTION: Topics of specific student interest, centered on strengths of visiting faculty, BYU Study Abroad Program, or other significant art history projects.

Note: German is strongly recommended for those wishing to pursue graduate work in art history.

*Hours include courses that may fulfill university core requirements.

For more information see the BYU 2008-2009 Graduate Catalog.

General Information

1. Each student wishing to major in anthropology should arrange through the college advisement center to counsel with an advisor and prepare a proposed sequence of study. Following this, the student should meet with the assigned faculty advisor for final approval of the program.
2. Undergraduate students are allowed some, but not excessive, specialization.
3. All degrees are in the field of anthropology.

Special Opportunities for Field Study

The department offers a number of unusual curriculum and field study opportunities. Students interested in Pacific Island studies are encouraged to spend a semester or two at BYU— Hawaii, where this area of study is well represented. Selected courses are regularly counted toward BYU's major. Consult with the department chair or your faculty advisor about equivalences.

Archaeology students complete their requirement in the field school typically held in conjunction with an ongoing, local (Utah) research project and occasionally in more exotic settings (Jordan).

Sociocultural faculty rotate leading ethnographic field schools abroad.

ARTHC 302 : Egyptian Art and Architecture. (3:3:0)
DESCRIPTION: Development of Egyptian art from predynastic through Hellenistic periods, emphasizing contributions to the development of world civilization.

ARTHC 304 : Greek Art. (3:3:0)
PREREQUISITE: ArtHC 201 or instructor's consent.
DESCRIPTION: History and appreciation of Greek art, with consideration of formative cultures.

ARTHC 306 : Roman Art. (3:3:0)
PREREQUISITE: ArtHC 201 or instructor's consent.
DESCRIPTION: Art and architecture of the Etruscans and Romans.

ARTHC 310 : Early Christian and Byzantine Art. (3:3:0)
PREREQUISITE: ArtHC 201 or instructor's consent.
DESCRIPTION: Survey of Christian art in the Roman and Byzantine Empire from ca. 200 to 1453.

ARTHC 316 : Art of the Medieval West. (3:3:0)
OFFERED: W
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Art in western Europe from 400 AD to 1400.

ARTHC 320 : Italian Renaissance. (3:3:0)
DESCRIPTION: Art and architecture in Italy from 1200 to 1580.

ARTHC 325 : Northern Renaissance Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Fifteenth- and sixteenth-century art in northern Europe.

ARTHC 329 : Renaissance and Baroque Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: History of architecture in Italy, Spain, France, Germany, Austria, and England, 1400?1700.

ARTHC 330 : Southern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: History of baroque painting, sculpture, and architecture in Italy, Spain, and France.

ARTHC 335 : Northern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Baroque painting in Flanders and Holland.

ARTHC 340 : Nineteenth-Century European Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Nineteenth-century art in Europe.

ARTHC 345 : American Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: American painting and sculpture from colonial through modern times.

ARTHC 350 : Modern Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Modern European art and theory, 1900--1945.
NOTE: Independent Study also.

ARTHC 353 : American Art 1876-1950. (3:3:0)
OFFERED: W
DESCRIPTION: Survey of American painting and sculpture from 1876-1950.

ARTHC 355 : Contemporary Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical evaluation of trends in art since 1945.

ARTHC 360 : Introduction to Museum and Curatorial Studies. (3:3:0)

PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Duties of museum professionals while applying museum theory to the practical development of a museum exhibit.

ARTHC 363 : English Architecture, 1485--1900. (3:3:0)
DESCRIPTION: English architecture from Tudor through Victorian period.

ARTHC 365 : American Architecture. (3:3:0)
DESCRIPTION: Major figures, monuments, and movements in American architecture from colonial period through "Gilded Age."

ARTHC 367 : Modern Architecture. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical review of roots and evolution of modern architecture.

ARTHC 371 : Chinese Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202, 203.
DESCRIPTION: Chinese art and architecture from its neolithic origins through the dawn of the modern age. Literary, social, and religious contexts considered.

ARTHC 375 : Japanese Art and Architecture. (3:3:0)
PREREQUISITE: ArtHC 201, 202, 203.
DESCRIPTION: Japanese art and architecture from its neolithic origins through the dawn of the modern age. Literary, social, and religious contexts considered.

PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Importance of Islamic contributions to world culture from pre-Islamic period through modern times.

ARTHC 380 : Northern Mesoamerican Art. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Survey of art and architecture of Mexico from antiquity to present.

ARTHC 382 : Southern Mesoamerican Art. (3:3:0)
PREREQUISITE: ArtHC 201, 202.
DESCRIPTION: Survey of art and architecture of southern Mexico and central America from antiquity to present.

SFL 328 : History of Interior Design and Architecture 1. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: History of interior design, architecture, and furnishings from ancient Egypt to beaux arts movement. French, English, and American design.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

VAEDU 397 : Introduction to Art Criticism. (3:3:0)
PREREQUISITE: VAEdu 324, Sc Ed 276R.
DESCRIPTION: Theoretical foundations for critical judgment in art and their application in judging works of art.

VAGD 349 : History of Graphic Design. (3:3:0)
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of visual communication.

VAILL 355 : History of American Illustration 1 (1860-1930). (3:4:0)
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of illustration in visual communication, emphasizing the birth of publishing and "Golden Age" of American illustration, 1860-1930.

VAILL 356 : History of American Illustration 2 (1930-Present). (3:4:0)
OFFERED: W
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of American illustration in visual communication, emphasizing from 1930 to the present.

VAPHO 379 : History of Photography. (3:2:4)
PREREQUISITE: Visual arts core.
DESCRIPTION: Origin and development of photographic aesthetics.

5. Complete the following:

VAGD 210 : Intermediate Computer Applications Graphic Design. (2:1:3)
OFFERED: F, Sp
PREREQUISITE: Visual arts core.
DESCRIPTION: Introduction to computer software programs specific to graphic design.

VAGD 243 : Basic Typography. (2:1:3)
PREREQUISITE: Visual arts core.
DESCRIPTION: Exploring fundamentals and traditions for creating, setting, and designing with type. Solving visual problems with type.

VAGD 245 : Introduction to Graphic Design. (2:1:3)
PREREQUISITE: Visual arts core.
DESCRIPTION: Communication problems and solutions through visual interpretations of images, type, and symbols. Comprehensive study of printing, binding methods; manufacture and uses of printing papers.

VAILL 251 : Illustration 1. (2:1:3)
OFFERED: F, W, Su
PREREQUISITE: Visual arts core.
DESCRIPTION: Overview of styles, techniques, methods, and materials. Illustrative concepts and problem solving.

6. Complete 16 hours from the following emphasis electives:

VADES 496R : Academic Internship: Professional Internship. (.5-6:ARR:ARR)
PREREQUISITE: department and faculty advisor's consent.
DESCRIPTION: Work experience in professional design studio evaluated by supervisor.

VAGD 310 : Advanced Computer Application Graphic Design. (2:1:3)
OFFERED: F, W, Sp
PREREQUISITE: VAGD 210.
DESCRIPTION: Specific graphic design computer program applications.

VAGD 341 : Packaging Design. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Packaging and its function in the marketplace; current packaging technology and aesthetics.

VAGD 348 : Type as Image. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Developing unique and expressive letterforms, especially the modification of letters to create new abstract or pictorial images.

VAGD 410R : Computer Applications Studio for Graphic Designers. (2:1:3)
OFFERED: W
PREREQUISITE: VAGD 310.
DESCRIPTION: Individual graphic design project using high-end hardware and software.

ANTHR 314 : Museum Registration and Legal/Ethical Issues. (3:3:0)
OFFERED: W
PREREQUISITE: Anthr 311.
DESCRIPTION: Managing museum collections: cataloging, loans, ethics, legal issues, object handling, basic object conservation. Practical experience working with museum objects.

ANTHR 351 : Archaeology and the Bible. (3:3:0)
OFFERED: W odd years; F odd years.
DESCRIPTION: Setting and context of the Bible as clarified and supplemented from archaeology, history, and related studies. Archaeological methods.

ANTHR 378 : Near Eastern Archaeology. (3:2:ARR)
OFFERED: F, W
DESCRIPTION: Peoples and culture history in Mesopotamia, Syria, Palestine, Egypt, 3500--500 B.C. Substantial reading, writing, discussion.

ANTHR 390R : Special Topics in Regional Anthropology. (.5-3:ARR:0)
OFFERED: On dem.
DESCRIPTION: Subjects related to a particular area or people.
NOTE: Offered when unique opportunities or needs arise.

ANTHR 580 : Near East Seminar. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Current issues in Near Eastern archaeological research.
NOTE: Undergraduate BYU anthropology students may enroll for the following courses if they have completed 30 hours in their major.

ANTHR 590R : Special Topics. (3:3:ARR)
OFFERED: On demand.
DESCRIPTION: Special topics in archaeology or museum studies.

3. Complete 3 hours from the following:

ANTHR 350 : Archaeological Cultures of North America. (3:3:0)
OFFERED: W
DESCRIPTION: Cultural developments of North American Indians (Canada, U.S., and northern Mexico) before Columbus.

ANTHR 355 : Mesoamerican Archaeology. (3:2:ARR)
OFFERED: F
DESCRIPTION: Cultural-environment bases of ancient civilizations in Mexico and Central America. Olmec, Maya, Toltec, and Aztec cultures.

ANTHR 390R : Special Topics in Regional Anthropology. (.5-3:ARR:0)
OFFERED: On dem.
DESCRIPTION: Subjects related to a particular area or people.
NOTE: Offered when unique opportunities or needs arise.

ANTHR 530 : Great Basin Archaeology. (3:3:0)
OFFERED: W even years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography, history of research, and prehistory of the Great Basin culture area. Current issues in archaeological research emphasized.

ANTHR 535 : Southwest Seminar. (3:3:0)
OFFERED: W odd years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography and prehistory of American Southwest. Current issues in archaeological research emphasized.

ANTHR 562 : Formative Mesoamerica. (3:3:0)
DESCRIPTION: Topics and issues concerning beginnings and development of Mesoamerican civilizations. Mexican and Mayan antecedents of classic Mayan civilization and culture.

BFA in Animation (67–70 hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the department office for information regarding requirements for admission to this major.

The BFA in animation is an interdisciplinary degree offered by the College of Fine Arts and Communications through the cooperative involvement of the Department of Theatre and Media Arts and the Department of Visual Arts and the Ira A. Fulton College of Engineering and Technology's School of Technology.

Application deadline: April 15 after completing TMA 102 and VAAnm 160.

Program Requirements | View MAP

1. Complete the following premajor courses:
   TMA 102 : Introduction to Film. (3:4:2)
   DESCRIPTION: Analytical studies for understanding and appreciating media forms and messages, as well as basic history, theory, and aesthetics. Lab required.

   VAANM 160 : Introduction to Animation. (1.5:4:0)
   OFFERED: F, W, Su
   PREREQUISITE: Pre-animation major status.
   DESCRIPTION: Foundational principles and techniques for animation.

2. Obtain acceptance into the animation BFA program.

3. Pass portfolio review during the sophomore year.

4. Complete the following courses:
   ARTHC 201 : World Civilization to 1500. (3:3:0)
   DESCRIPTION: Survey of Western civilization emphasizing the visual arts from ancient Greece to the Gothic period.

   ARTHC 202 : World Civilization Since 1500. (3:3:0)
   DESCRIPTION: Survey of Western civilization emphasizing the visual arts from the Renaissance to the twentieth century.

5. Complete the following foundation courses:
   TMA 114 : Reading and Constructing Narratives. (3:3:3)
   PREREQUISITE: Animation majors--admittance to the animation program; media arts studies majors/minors--TMA 102, 113, and admittance to media arts program; MDT--admittance to the MDT program; theatre arts studies majors/minors and BFA Acting--TMA 101; theatre education majors--Sc Ed 276R.
   DESCRIPTION: Analyzing basic narrative principles; conceptualizing and writing narratives for theatre and media.

   TMA 185 : Basic Media Production. (3:4:3)
   PREREQUISITE: Media arts major/minor status or animation major status; concurrent enrollment in TMA 105.
   DESCRIPTION: Introduction to basics of film and video production. Includes lecture and practical lab experiences with audio and video.

   TMA 294 : History of Animation. (3:3:0)
   OFFERED: W
   PREREQUISITE: TMA 102.
   DESCRIPTION: Origins and developments of animation internationally to the present, focusing on aesthetic, technical, political, and economic aspects of the medium.

   VA 131 : Figure Drawing. (3:2:4)

OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Figure study using a variety of media and methods. Readings, writings, and participation in course work exhibitions required.

VA 134 : Introduction to Photography. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 115.
DESCRIPTION: Introduction to photography for visual arts majors, including camera operation and digital capture, photographic principles, lighting, and design with limited postproduction editing. No darkroom.

VAANM 260 : Storyboarding. (3:4:0)
OFFERED: F
PREREQUISITE: Acceptance into animation program.
DESCRIPTION: Introduction to visual storytelling.

Note: Prerequisites are waived for VA 131, 134.

6. Complete three courses from the following:

INDES 251 : Fundamentals of Two-Dimensional Graphics. (2:4:0)
OFFERED: F
PREREQUISITE: Admittance to animation major or instructor's consent.
DESCRIPTION: Learning to design language by exploring elements of photography, drawing, and two-dimensional computer graphics, including color theory and conceptual elements of composition.

INDES 252 : Introduction to Three-Dimensional Animation. (2:4:0)
OFFERED: W
PREREQUISITE: InDes 250, 251.
DESCRIPTION: Foundational principles and techniques of three-dimensional animation, including timing and pacing, character setup, and dynamics.

TMA 123 : Acting Fundamentals. (2:4:1)
RECOMMENDED: concurrent enrollment in TMA 122, 125.
DESCRIPTION: Fundamental acting skills: exercises in perception, objective/action, thought processes, scoring of scripts. Lab required.

TMA 241 : Screenwriting 1. (3:4:0)
PREREQUISITE: TMA 291 or 292 or concurrent enrollment; Animation majors: TMA 294.
DESCRIPTION: Basic narrative and nonfiction (documentary, educational, industrial, multimedia) screenwriting principles through reading, viewing, testing, and completing writing assignments.

TMA 462 : History of Costume. (3:3:0)
PREREQUISITE: TMA 262 or instructor's consent.
DESCRIPTION: Costume, clothing, and textiles as mediums for understanding stages and states of individuals, families, and societies; apparel diversity and cultural identity.

VAANM 350R : Gesture Drawing for Animators. (3:6:)
OFFERED: F, W
PREREQUISITE: VA 131.
DESCRIPTION: Drawing humans and animals in motion.

VAANM 360 : Visual Development and Character Design. (3:6.0:0)
OFFERED: F
PREREQUISITE: Acceptance into animation program.
DESCRIPTION: Applying design principles for animation.

7. Complete one course from the following:

ARTHC 320 : Italian Renaissance. (3:3:0)
DESCRIPTION: Art and architecture in Italy from 1200 to 1580.

ARTHC 325 : Northern Renaissance Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Fifteenth- and sixteenth-century art in northern Europe.

ARTHC 330 : Southern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: History of baroque painting, sculpture, and architecture in Italy, Spain, and France.

ARTHC 335 : Northern Baroque Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Baroque painting in Flanders and Holland.

ARTHC 340 : Nineteenth-Century European Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Nineteenth-century art in Europe.

ARTHC 345 : American Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: American painting and sculpture from colonial through modern times.

TMA 291 : Media Arts History 1. (3:3:0)
PREREQUISITE: TMA 114.
DESCRIPTION: Survey of social, aesthetic, business, and technical dimensions of film and media from 1895 to 1945.

TMA 292 : Media Arts History 2. (3:3:0)
PREREQUISITE: TMA 114.
DESCRIPTION: Survey of social, aesthetic, business, and technical dimensions of film and media from 1946 to present.

TMA 462 : History of Costume. (3:3:0)
PREREQUISITE: TMA 262 or instructor's consent.
DESCRIPTION: Costume, clothing, and textiles as mediums for understanding stages and states of individuals, families, and societies; apparel diversity and cultural identity.

VAILL 355 : History of American Illustration 1 (1860-1930). (3:4:0)
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of illustration in visual communication, emphasizing the birth of publishing and "Golden Age" of American illustration, 1860-1930.

VAILL 356 : History of American Illustration 2 (1930-Present). (3:4:0)
OFFERED: W
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of American illustration in visual communication, emphasizing from 1930 to the present.

VAPHO 379 : History of Photography. (3:2:4)
PREREQUISITE: Visual arts core.
DESCRIPTION: Origin and development of photographic aesthetics.

8. Complete three hours of internship credit from one of the following:

INDES 399R : Professional Internship. (1-9:0:0)
PREREQUISITE: School's and faculty advisor's consent.
DESCRIPTION: Work experience in professional design studio evaluated by supervisor.

TMA 399R : Academic Internship. (.5-9:ARR:ARR)
PREREQUISITE: Major status; theatre or media arts foundation courses. By application only.
DESCRIPTION: Off-campus experience or internship in theatre or media arts.

VAANM 498R : Directed Studies in Animation. (1-6:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: BFA advisor's consent.
DESCRIPTION: Credit for work experience in animation.

9. Complete 22 hours from the following or from other courses approved by faculty advisor:

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

INDES 251 : Fundamentals of Two-Dimensional Graphics. (2:4:0)
OFFERED: F
PREREQUISITE: Admittance to animation major or instructor's consent.
DESCRIPTION: Learning to design language by exploring elements of photography, drawing, and two-dimensional computer graphics, including color theory and conceptual elements of composition.

INDES 252 : Introduction to Three-Dimensional Animation. (2:4:0)
OFFERED: W
PREREQUISITE: InDes 250, 251.
DESCRIPTION: Foundational principles and techniques of three-dimensional animation, including timing and pacing, character setup, and dynamics.

INDES 350 : Computer Graphics Studio 1. (3:3:3)
OFFERED: F
PREREQUISITE: InDes 250, 252.
DESCRIPTION: Advanced character design, setup, and animation.

INDES 352 : Computer Graphics Studio 2. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 350.
DESCRIPTION: Designing interdisciplinary group projects: workflow, team dynamics, and processes of production pipelines.

INDES 450 : Computer Graphics Studio 3. (3:3:3)
OFFERED: F
PREREQUISITE: InDes 352.
DESCRIPTION: Continuation of InDes 352. In-depth experiences making computer animatiions and visual effects.

INDES 452 : Computer Graphics Studio 4. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 450.
DESCRIPTION: Portfolio development based on advanced animation/design projects.

TMA 100 : Introduction to Visual Literacy. (3:2:2)
DESCRIPTION: Overview of visual communication, with hands-on experience in multimedia design and tools, structured to increase awareness of visual functions and develop beginning proficiency with computer-assisted visual communications.

TMA 123 : Acting Fundamentals. (2:4:1)
RECOMMENDED: concurrent enrollment in TMA 122, 125.
DESCRIPTION: Fundamental acting skills: exercises in perception, objective/action, thought processes, scoring of scripts. Lab required.

TMA 236 : Directing Fundamentals. (2:4:1)
PREREQUISITE: TMA 114 or instructor's consent (except theatre education majors).
DESCRIPTION: Fundamental elements of stage and media directing, including observation, collaboration, imagination, casting, working with actors, camera, spaces, words, images, rehearsals, and final product.

TMA 241 : Screenwriting 1. (3:4:0)
PREREQUISITE: TMA 291 or 292 or concurrent enrollment; Animation majors: TMA 294.
DESCRIPTION: Basic narrative and nonfiction (documentary, educational, industrial, multimedia) screenwriting principles through reading, viewing, testing, and completing writing assignments.

TMA 262 : Costume Design 1. (2:4:0)
PREREQUISITE: TMA 101, 114, 160; or instructor's consent.
DESCRIPTION: Costume history, rendering, and theory. Assistant costume designers for departmental productions may be selected from students enrolled in this course.

TMA 285 : Production: Intermediate. (3:3:3)
PREREQUISITE: major status; TMA 185; 291 or 292.
DESCRIPTION: Survey and application of the basics of narrative and nonfiction, including 16-mm film. Lecture, discussion, lab, and individual/group experiences and critiques.
NOTE: Fee.

TMA 319 : Advanced Narrative Production. (3:4:0)
PREREQUISITE: TMA 241, 285. By application only.

RECOMMENDED: TMA 123.
DESCRIPTION: Preproduction and production of short projects, including digital and 16-mm sound film in narrative form. Discussion, lab, and individual/group experiences and critiques.
NOTE: Fee.

TMA 384R : Practicum: Special Topics in Media Arts. (.5-6:ARR:1)
PREREQUISITE: Major status or instructor?s consent.
DESCRIPTION: Fundamentals of special media skills.

TMA 452R : Puppetry. (3:4:0)
PREREQUISITE: TMA 114 or instructor's consent.
DESCRIPTION: Theories, techniques, and experience constructing and operating puppets for use in performance, recreational, and educational settings.

TMA 557 : Storytelling. (2:2:2)
PREREQUISITE: TMA 114 or instructor's consent.
DESCRIPTION: Theories, techniques, and practice in the art of telling spellbinding stories.

VAANM 350R : Gesture Drawing for Animators. (3:6:)
OFFERED: F, W
PREREQUISITE: VA 131.
DESCRIPTION: Drawing humans and animals in motion.

VAANM 360 : Visual Development and Character Design. (3:6.0:0)
OFFERED: F
PREREQUISITE: Acceptance into animation program.
DESCRIPTION: Applying design principles for animation.

VAANM 361R : Animation Studio 1. (3:6:0)
OFFERED: W
PREREQUISITE: Foundations portfolio review.
DESCRIPTION: Advanced animation projects.

VAANM 362 : Advanced Animation. (3:6.0:0.0)
OFFERED: W
PREREQUISITE: VAAnm 160.
DESCRIPTION: Applying advanced animation principles, emphasizing character.

VAANM 461R : Animation Studio 2. (3:6:0)
OFFERED: W
PREREQUISITE: BFA acceptance.
DESCRIPTION: Individual advanced animation projects.

VAILL 351 : Illustration 2. (3:2:4)
PREREQUISITE: BFA aacceptance.
DESCRIPTION: Narrative illustration problems emphasizing academic study of the human figure using various media.

VAPHO 170 : Introduction to Black and White Photography. (3:2:4)
PREREQUISITE: Acceptance into visual arts program; VA 120.
DESCRIPTION: Basic camera and darkroom techniques emphasizing black and white film processing and printmaking.

VAPHO 272 : Introduction to Color Photography. (3:2:4)
PREREQUISITE: VAPho 170.
DESCRIPTION: Color aesthetics, theory, and systems in traditional and digital capture and printmaking.

10. Complete six hours from one of the following BFA project courses:

INDES 497R : BFA Final Project. (3:ARR:ARR)
PREREQUISITE: BFA advisor's consent.
DESCRIPTION: Advanced individual project with minimum guidance, showing high degree of competence within chosen major.

TMA 475R : Media Arts Capstone. (.5-3:ARR:ARR)
PREREQUISITE: Media arts major status. By application only.
DESCRIPTION: Final collaborative project for media students. May be narrative, nonfiction, multimedia, writing, or critical studies format.

NOTE: Fee.

VAANM 497R : BFA Animation Final Project. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: BFA advisor consent.
DESCRIPTION: Advanced individual animation project with minimum guidance, showing a high degree of competence.

Program Requirements | View MAP

1. Complete the following core requirements:

VA 111 : Freshman Seminar. (1:1:0)
OFFERED: F
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Conceptual and philosophical preparation for visual arts majors. Lecture and guided discussion seminar. Nature and value of visual arts and visual culture.

VA 112 : Survey of Digital Technology. (1.5:3.0:0)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Fundamental principles of digital technology as related to the visual arts.

VA 114 : Drawing. (3:2:4)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Observational and conceptual drawing using a variety of media and methods.

VA 115 : Two-Dimensional Design. (3:2:4)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Formal and conceptual elements of design, color, and composition, using a variety of media.

VA 131 : Figure Drawing. (3:2:4)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Figure study using a variety of media and methods. Readings, writings, and participation in course work exhibitions required.

VA 133 : Three-Dimensional Design. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Three-dimensional concepts, theories, and issues using a variety of media and processes. Readings, writings, and participation in course work exhibitions required.
NOTE: Fee.

VA 134 : Introduction to Photography. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 115.
DESCRIPTION: Introduction to photography for visual arts majors, including camera operation and digital capture, photographic principles, lighting, and design with limited postproduction editing. No darkroom.

2. Complete the following:

VAGD 210 : Intermediate Computer Applications Graphic Design. (2:1:3)
OFFERED: F, Sp
PREREQUISITE: Visual arts core.

DESCRIPTION: Introduction to computer software programs specific to graphic design.

VAGD 243 : Basic Typography. (2:1:3)
PREREQUISITE: Visual arts core.
DESCRIPTION: Exploring fundamentals and traditions for creating, setting, and designing with type. Solving visual problems with type.

VAGD 245 : Introduction to Graphic Design. (2:1:3)
PREREQUISITE: Visual arts core.
DESCRIPTION: Communication problems and solutions through visual interpretations of images, type, and symbols. Comprehensive study of printing, binding methods; manufacture and uses of printing papers.

VAGD 310 : Advanced Computer Application Graphic Design. (2:1:3)
OFFERED: F, W, Sp
PREREQUISITE: VAGD 210.
DESCRIPTION: Specific graphic design computer program applications.

VAGD 340 : Corporate Identity Design. (3:2:4)
PREREQUISITE: VAGD 243 and BFA acceptance.
DESCRIPTION: Current philosophy in corporate identification and trademark design. Design trademarks, logotypes, and identity programs.

VAGD 341 : Packaging Design. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Packaging and its function in the marketplace; current packaging technology and aesthetics.

VAGD 342 : Advertising Design. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Particular demands of the advertising world: marketing strategy, editorial and visual concepts, etc. Design ads, collateral materials, campaigns.

VAGD 343 : Publication Design. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Book and magazine publishing and their special editorial, design, and manufacturing requirements.

VAGD 344 : Poster Design. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Functions and characteristics of posters; past and current aesthetics.

VAGD 441 : Senior Graphic Design Studio 1. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Opportunity for senior class members to work as a group in solving design problems for real clients on major projects.

VAGD 442 : Senior Graphic Design Studio 2. (3:2:4)
PREREQUISITE: VAGD 441.
DESCRIPTION: Continuation of VAGD 441.

VAGD 443 : Special Problems in Graphic Design 1. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Advanced assignments in graphic design; individual portfolio development.

VAGD 444 : Special Problems in Graphic Design 2. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Continuation of VAGD 443.

VAGD 488 : Business Practices for Graphic Designers. (2:2:0)
OFFERED: F
PREREQUISITE: BFA acceptance.
DESCRIPTION: Business aspects of the graphic design profession.

VAILL 251 : Illustration 1. (2:1:3)
OFFERED: F, W, Su
PREREQUISITE: Visual arts core.
DESCRIPTION: Overview of styles, techniques, methods, and materials. Illustrative concepts and problem solving.

3. Complete five hours of the following:

VAGD 497R : BFA Graphic Design Final Project. (1-3:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: BFA advisor's consent.
DESCRIPTION: Advanced individual project in graphic design with minimum guidance, showing a high degree of competence.

4. Complete the following history requirement:
VAGD 349 : History of Graphic Design. (3:3:0)
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of visual communication.

5. Complete one course from the following history requirements:
ARTHC 350 : Modern Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Modern European art and theory, 1900--1945.
NOTE: Independent Study also.

ARTHC 355 : Contemporary Art. (3:3:0)
PREREQUISITE: ArtHC 202 or instructor's consent.
DESCRIPTION: Critical evaluation of trends in art since 1945.

SFL 328 : History of Interior Design and Architecture 1. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: History of interior design, architecture, and furnishings from ancient Egypt to beaux arts movement. French, English, and American design.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

VAILL 355 : History of American Illustration 1 (1860-1930). (3:4:0)
PREREQUISITE: Visual arts core.
DESCRIPTION: Survey of illustration in visual communication, emphasizing the birth of publishing and "Golden Age" of American illustration, 1860-1930.

VAPHO 379 : History of Photography. (3:2:4)
PREREQUISITE: Visual arts core.
DESCRIPTION: Origin and development of photographic aesthetics.

6. Complete four of the following supporting courses:
BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

COMMS 230 : Introduction to Advertising. (3:3:0)
DESCRIPTION: Principles of advertising; critical evaluation of its role and value in American society. Experience in writing and creating ads for all media.

VADES 496R : Academic Internship: Professional Internship. (.5-6:ARR:ARR)
PREREQUISITE: department and faculty advisor's consent.
DESCRIPTION: Work experience in professional design studio evaluated by supervisor.

VAGD 348 : Type as Image. (3:2:4)
PREREQUISITE: BFA acceptance.
DESCRIPTION: Developing unique and expressive letterforms, especially the modification of letters to create new abstract or pictorial images.

VAGD 410R : Computer Applications Studio for Graphic Designers. (2:1:3)
OFFERED: W
PREREQUISITE: VAGD 310.
DESCRIPTION: Individual graphic design project using high-end hardware and software.

VAGD 498R : Directed Studies in Graphic Design. (1-6:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: BFA advisor's consent.
DESCRIPTION: Credit for work experience in graphic design.

ANTHR 565 : Mayan Ceramic Analysis. (3:3:0)
OFFERED: W even years
DESCRIPTION: Current approaches to classification and analysis of archaeological ceramics, particularly Maya Lowland pottery. Laboratory study of actual pottery collections from the Maya area.

ANTHR 566 : Mayan Ethnohistory. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Topics and issues of cultural change, colonization, and documentation of change processes in the Mayan region, from postclassic period and independence from Spain.

ANTHR 590R : Special Topics. (3:3:ARR)
OFFERED: On demand.
DESCRIPTION: Special topics in archaeology or museum studies.

4. Complete 9 hours from the following:

ANTHR 402 : Quantitative Methods for Anthropology. (3:3:0)
OFFERED: F
DESCRIPTION: Quantitative methods in archaeology and sociocultural anthropology, including methods of organizing, exploring, and presenting data, probability, and statistical inference.

DESCRIPTION: Foundation in transparent aqueous media.

VASTU 215 : Painting Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation painting.

VASTU 216 : Ceramics Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation ceramics.
NOTE: Fee.

VASTU 217 : Sculpture Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation sculpture.
NOTE: Fee.

VASTU 218 : Intaglio Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation printmaking.
NOTE: Fee.

VASTU 219 : Lithography Fundamentals. (1.5:2:4)
PREREQUISITE: visual arts core.
DESCRIPTION: Foundation printmaking.
NOTE: Fee.

2. Be admitted to the BFA program.

3. Complete a combined minimum of 27 hours from the following 300-level courses and VAStu 480R.
   a. Complete at least nine hours from the following courses.
   Students may select courses from both 2-D and 3-D offerings:

VASTU 321 : Drawing. (3:2:4)
PREREQUISITE: Visual arts core.
DESCRIPTION: Drawing as a graphic form of self-expression, emphasizing personal statement in response to various experiences and concepts.

VASTU 322R : Figure Drawing. (3:2:4)
PREREQUISITE: Visual Arts core.
DESCRIPTION: Drawing from the human figure, emphasizing structure and anatomy.

VASTU 327 : Painting. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 215.
DESCRIPTION: Fundamental concepts and techniques of oil painting.

VASTU 328R : Figure Painting. (3:2:4)
PREREQUISITE: visual arts core and VAStu 215, 322, 327.
DESCRIPTION: Fundamentals of figure painting.

VASTU 330R : Bookbinding. (3:2:4)
OFFERED: F, W
DESCRIPTION: Traditional approaches to hand bookbinding.

VASTU 333 : Aqueous Media. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 214.
DESCRIPTION: Exploring multiple aqueous media on paper: transparent water color, acrylic, gouache, casein, egg tempera.

VASTU 350 : Printmaking: Intaglio. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 218.
DESCRIPTION: Intaglio printmaking, based on traditional and contemporary techniques.
NOTE: Fee.

VASTU 351 : Printmaking: Lithography. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 219.
DESCRIPTION: Lithography printmaking, based on traditional and contemporary techniques.
NOTE: Fee.

VASTU 353R : Computer Art. (3:2:4)
PREREQUISITE: instructor's consent.
DESCRIPTION: Exploring the computer as a tool for visual self-expression.

VASTU 356R : Figure Sculpture. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 217.
DESCRIPTION: Modeling the human figure in clay.

NOTE: Fee.

VASTU 358 : Sculpture. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 217.
DESCRIPTION: Traditional and nontraditional approaches to sculpture.
NOTE: Fee.

VASTU 359R : Ceramics. (3:2:4)
PREREQUISITE: Visual arts core and VAStu 216, 217.
DESCRIPTION: Designing, throwing, hand forming, decorating, glazing, and firing techniques.
NOTE: Fee.

VASTU 394R : Special Problems in Art. (.5-3:0:0)
PREREQUISITE: Instructor's consent.

b. Complete a minimum of one hour of the following every semester in the BFA program (four hours minimum):
VASTU 480R : Advanced Studio. (1-3:ARR:ARR)
PREREQUISITE: VAStu 321 or 322R; 350R or 351R; 327R or 333R; 328R (if figure emphasis).
DESCRIPTION: Individual development of art issues in advanced studio environment. Writing a proposal accompanied by a readings list.

4. Complete six enrollments (three hours) of the following:
VASTU 395R : Studio Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: VA 111.
DESCRIPTION: Selected contemporary issues involving visiting artists, guest lecturers, video documentaries, discussions, and program information.

5. Complete the following:
VASTU 440 : Business Practices for Artists. (1.5:2:0)

Visual Arts Core (VA)

Show All Course Descriptions
Hide All Course Descriptions

Required of all majors in the visual arts (except art history), the visual arts core is a predisciplinary preparation that embraces knowledge and skills from each discipline and underlying principles common to all disciplines. The core is designed to serve students more efficiently by facilitating their progress through the visual arts programs and allowing flexibility in choosing their individual program direction. The core enables students to acquire a basic and broad understanding of the visual arts before engaging in the specific discipline's content and modes of inquiry.

Undergraduate Courses

100-Level Courses

VA 111 : Freshman Seminar. (1:1:0)
OFFERED: F
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Conceptual and philosophical preparation for visual arts majors. Lecture and guided discussion seminar. Nature and value of visual arts and visual culture.

VA 112 : Survey of Digital Technology. (1.5:3.0:0)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Fundamental principles of digital technology as related to the visual arts.

VA 114 : Drawing. (3:2:4)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Observational and conceptual drawing using a variety of media and methods.

VA 115 : Two-Dimensional Design. (3:2:4)
OFFERED: F, W
PREREQUISITE: Acceptance into visual arts program.
DESCRIPTION: Formal and conceptual elements of design, color, and composition, using a variety of media.

VA 131 : Figure Drawing. (3:2:4)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Figure study using a variety of media and methods. Readings, writings, and participation in course work exhibitions required.

VA 133 : Three-Dimensional Design. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 114, 115.
DESCRIPTION: Three-dimensional concepts, theories, and issues using a variety of media and processes. Readings, writings, and participation in course work exhibitions required.
NOTE: Fee.

VA 134 : Introduction to Photography. (1.5:1:2)
OFFERED: W on block, Su
PREREQUISITE: VA 111, 115.
DESCRIPTION: Introduction to photography for visual arts majors, including camera operation and digital capture, photographic principles, lighting, and design with limited postproduction editing. No darkroom.

300-Level Courses

VA 346 : Practicum in Graphic Design. (3:2:4)
OFFERED: F, W
PREREQUISITE: freshman core, VADes 220.
DESCRIPTION: Market applications, portfolio preparation, and other aspects of graphic design. Individual portfolio projects designed to develop graphic design skills.

VA 356 : Practicum in Illustration. (3:6:0)
OFFERED: F, W
PREREQUISITE: VA 111, 112, 114, 115, 131, 133, 136; sophomore courses.
DESCRIPTION: Market applications, portfolio preparation, advertising patterns, and other aspects of the illustration business. Individual portfolio projects designed to develop personal illustration skills.

VA 373 : Practicum in Photography. (3:2:4)
OFFERED: F, W
PREREQUISITE: Freshman core, VAPho 170.

VA 380 : Museum Art Education. (3:3:0)
OFFERED: F, W
PREREQUISITE: ArtHC 111 or 201; ArtHC 202 or Hum 201 or 202.
DESCRIPTION: The museum as a learning environment; current exhibitions; learning and teaching strategies for collaboration with museum and classroom educator.

Women's Research Institute

Bonnie Ballif-Spanvill, Director
1063 JFSB, (801) 422-4609

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

Research and Scholarship

The Women's Research Institute seeks to promote the scholarly investigation of female perspectives and experiences in diverse cultural and historical contexts. It provides access to a worldwide network of scholarship through the ongoing collaborative research it directs and its sponsorship of academic conferences and visiting scholars. Research projects focusing on women's unique patterns of development and learning, their viewpoints and contributions, and their involvement in families, religions, and societies throughout the world are created and funded through the institute.

Women's Studies Discipline

The women's studies minor educates students in the findings, theories, and methodologies fundamental to the women's studies field, while fostering critical thinking and superior scholarship. Considering traditional academic discourse from the female perspective allows new insights into our historical and cultural traditions.

Career Opportunities

A women's studies minor enhances and broadens educational and employment opportunities in any discipline or field. The women's studies minor trains students to look at issues and questions from unique perspectives, develop research skills, learn current theory, and deal with gender issues in society. This training prepares students to be more successful in graduate and professional schools, business and industry, and government or community service.

BA in Anthropology (Sociocultural Double Major) (39.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The 33-hour sociocultural major is designed to accommodate the varying interests of students from a range of other disciplines, but it is only available to students completing an additional major in another field. Its purpose is to allow students with other majors to add the perspectives that anthropology is uniquely qualified to provide.

Program Requirements | View MAP

1. Complete all requirements of a primary major. Double counting courses between primary major and anthropology will not be allowed.

2. Complete the following:

ANTHR 101 : Social/Cultural Anthropology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Aspects of society and culture: kinship, beliefs, economy, and political order among peoples worldwide. Methods and perspectives used in social/cultural anthropology.
NOTE: Honors also.

ANTHR 150 : Anthropology Career Preparation. (.5:1:0)
OFFERED: F
DESCRIPTION: Overview of anthropology major and graduation requirements; preparing for senior thesis sequence; career opportunities; and graduate school application process.

ANTHR 205 : Foundations of Anthropological Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Anthr 101.
DESCRIPTION: Ideas from Marx, Weber, Durkheim, and Steward studied for a secure foundation for understanding the antecedents of current theory.

ANTHR 206 : Contemporary Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Anthr 205.
DESCRIPTION: Important current theoretical frameworks in anthropology.

Chairs and Professorships

Some faculty members hold appointments at the university that are partially or fully supported through the generosity of private donors. These professorships recognize and support important scholarly contributions by the recipients in the various disciplines of the university. Chairs and professorships for faculty members within disciplines are noted in the departmental listing of faculty.

Maeser Professorships and Alcuin Fellows

Brigham Young University also encourages strong commitment by its faculty to undergraduate teaching, particularly in the university's general education program. The Karl G. Maeser Professorships, named for the spiritual architect of Brigham Young Academy and established in 1987, acknowledge truly outstanding efforts in the development and teaching of general education and honors courses balanced with serious and committed scholarship.

Alcuin Fellowships, established in 1986 and named for the founder of the court schools during the Carolingian renaissance of Charlemagne, acknowledge outstanding and innovative efforts in working with students within the university's general education and honors curriculum.

Statement of Nondiscrimination

Admission to Brigham Young University is nondiscriminatory. The university admits persons regardless of race, color, national origin, religion, age, gender, veteran status, or disability who meet university and department academic requirements and agree to abide by the university's standards of conduct and behavior.

Reservation of Right to Change Courses

The university makes every reasonable effort to provide accurate information in the contents of this catalog but reserves the right to make changes at any time without prior notice. The university reserves the right to change or discontinue graduation requirements, department majors, individual courses, instructors, and all other aspects of university operations. In the event the university determines to make changes in curriculum, it will post these changes as soon as practical within this online catalog. It is recommended that students regularly check this catalog for possible changes.

If colleges or majors are discontinued, or if substantial changes in requirements for degrees are made, the university will endeavor to allow students disadvantaged by the change to continue under existing programs and requirements. As a general rule, these types of substantial changes will only be made effective each fall semester.

The university may place a hold on a student's registration privileges if the student neglects academic work or makes unsatisfactory progress toward graduation.

Minor in African Studies (18–21 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The African Studies minor is designed to complement several majors. The minor features language competence, with options in several languages used in Africa, as well as courses in history and social sciences. Several options are available, and students interested in this minor are encouraged to consult with one of the coordinators of the program to find the best options to apply to their major.

Program Requirements

1. Complete one of the following tracks:

Language Track

a. French

FREN 321 : Advanced Grammar. (3:3:0)
OFFERED: F, W, Sp, Su
RECOMMENDED: Fren 202 or equivalent.
DESCRIPTION: Systematic review of French grammar and syntax.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts and Letters elective.

FREN 456R : Francophone Studies. (3:3:0)
DESCRIPTION: Readings from major French-speaking writers from countries outside France, such as Canada, Africa, and the Caribbean.

b. Swahili

FLANG 101R : First-Year Language Study: Swahili. (4:5:1)
First-Year Language Study: Swahili.
DESCRIPTION: Vocabulary building, grammar, listening, speaking, reading, and writing.
FLANG 102R : First-Year Language Study: Swahili. (4:5:1)
First-Year Language Study: Swahili.
PREREQUISITE: FLang 101R in same language.
DESCRIPTION: Vocabulary, grammar, listening, speaking, reading, writing, and culture.
FLANG 201R : Second-Year Language Study: Swahili. (4:5:1)
Second-Year Language Study: Swahili.
PREREQUISITE: FLang 102R in same language.
DESCRIPTION: Conversation, vocabulary building, and reading and writing skills.

c. Afrikaans

AFRIK 101 : First-Year Afrikaans. (4:5:1)
DESCRIPTION: Basic language skills.

AFRIK 102 : First-Year Afrikaans. (4:5:1)
DESCRIPTION: Basic language skills.

AFRIK 201 : Second-Year Afrikaans. (4:5:1)
PREREQUISITE: Afrik 102 or equivalent experience.
DESCRIPTION: Conversation, vocabulary building, and reading and writing skills, emphasizing reading.

d. A combination of French, Swahili, Afrikaans, upper-division Portuguese, or other language component as approved by the program coordinator. (The coordinator is Professor Chantal Thompson.)

Fieldwork Track

a. Complete 3 hours from the following:

IAS 360R : International Field Study Preparation. (.5-9:ARR:0)
OFFERED: F 2nd block, W, Sp
DESCRIPTION: Cross-cultural field research and survival with a regional emphasis and application.
NOTE: For students preparing for International Field Studies and Internships or Study Abroad programs.

b. Complete 4 hours from the following:

IAS 397R : Topics in International and Area Studies. (.5-3:ARR:ARR)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Study relating to current world problems.

c. Complete the following:

IAS 361 : Post-Fieldwork Analysis and Writing. (2:2:0)
PREREQUISITE: IAS 360R.
DESCRIPTION: Writing course designed to help students write a quality research paper

2. Complete three courses from the following social science component (a maximum of two courses per discipline; some of these courses may be offered only once every other year):

ANTHR 330 : Peoples of Africa. (3:3:0)
OFFERED: W odd years
DESCRIPTION: Political, economic, and social organization, family life, language, worldview, religion, ritual, artistic expression, ecological adaptation, and contemporary development issues among rural and urban sub-Saharan peoples.

EDLF 362 : Introduction to Comparative and International Development Education. (3:3:0)
OFFERED: F
DESCRIPTION: Methods, major concepts, and current trends in comparative and international development education; role of education in promoting national development.

ENGL 358R : African American Literature. (3:3:0)
African American Literature.
PREREQUISITE: Engl 251 or 252.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

IAS 397R : Topics in International and Area Studies. (.5-3:ARR:ARR)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Study relating to current world problems.

PL SC 352 : African Politics. (3:3:0)
DESCRIPTION: Processes of change and development of nation states; African regionalism and relations with other nations; contemporary political issues.

Other courses may or may not be applicable, depending on the amount of African content therein. Approval of the program coordinator, therefore, is required. Courses that may contain significant African content at times include the following:

ANTHR 390R : Special Topics in Regional Anthropology. (.5-3:ARR:0)
OFFERED: On dem.
DESCRIPTION: Subjects related to a particular area or people.
NOTE: Offered when unique opportunities or needs arise.

ANTHR 430 : Moral and Ritual Institutions. (3:3:0)
OFFERED: F
DESCRIPTION: Anthropological approaches to religion; its content and relation to other social institutions in societies ranging from gatherers to industrialists.

ANTHR 431 : The Family, Marriage, and Kinship. (3:3:0)
OFFERED: W; F odd years.
DESCRIPTION: Nature of kinship; parent-child, sibling, grandparental relationships. Genealogical basis of society: family, lineage, clan, kindred organization. Marital status; in-law relations; joking and avoidance behavior; divorce.

ANTHR 432 : Economic and Political Institutions. (3:3:0)
OFFERED: W
DESCRIPTION: Connections between wealth and power: political and legal systems in state and nonstate societies; expansion of capitalism and technology into remote global regions.

ANTHR 490R : Special Topics in Theory and System. (3:3:0)
OFFERED: On dem.
DESCRIPTION: Subjects related to anthropological theory or the operation of social systems.
NOTE: Offered when unique opportunities or needs arise.

GEOG 493R : Special Problems. (.5-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Geography major or departmental approval.

HIST 390R : Special Topics in History. (.5-3:3:0)
OFFERED: F, W; Independent Study also.
DESCRIPTION: Presented by visiting or regular faculty. Varied topics include oral history, demographics, psychohistory, Christianity in history, etc.

PL SC 472 : International Political Economy of Women. (3:3:0)
OFFERED: On demand.
RECOMMENDED: PlSc 200 or Hist 200.
DESCRIPTION: Effects upon national, international, and developmental policies when women are rendered visible and valued.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

ANTHR 101 : Social/Cultural Anthropology. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Aspects of society and culture: kinship, beliefs, economy, and political order among peoples worldwide. Methods and perspectives used in social/cultural anthropology.
NOTE: Honors also.

: Honors Social/Cultural Anthropology.

ANTHR 103 : Archaeology Field Trip. (1:2:0)
OFFERED: F 1st block.
DESCRIPTION: Archaeology field trip to Four Corners.
NOTE: Meet weekly prior to trip. Students responsible for food and camping costs. Limited enrollment

ANTHR 108R : Anthropological Films. (1:0:2)
OFFERED: F, W
DESCRIPTION: Examination of other cultures through ethnographic or archaeological film.
NOTE: Can be taken separately or concurrently with Anthr 101 or 110.

ANTHR 110 : Introduction to Archaeology. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Review of great archaeological discoveries about the ancient world. Overview of world prehistory.

: Honors Introduction to Archaeology.

ANTHR 150 : Anthropology Career Preparation. (.5:1:0)
OFFERED: F
DESCRIPTION: Overview of anthropology major and graduation requirements; preparing for senior thesis sequence; career opportunities; and graduate school application process.

200-Level Courses

ANTHR 205 : Foundations of Anthropological Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Anthr 101.
DESCRIPTION: Ideas from Marx, Weber, Durkheim, and Steward studied for a secure foundation for understanding the antecedents of current theory.

ANTHR 206 : Contemporary Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Anthr 205.
DESCRIPTION: Important current theoretical frameworks in anthropology.

ANTHR 207 : Experiments In Ancient Technology. (3:1:2)
OFFERED: F odd yr.
DESCRIPTION: Processes by which tools and other objects were produced anciently; experimental reproduction and use of ancient tools.

ANTHR 215 : Introduction to Archaeology: Method and Theory. (3:3:0)
OFFERED: W
DESCRIPTION: Field and analytic methods and their relevance to data acquisition; use of theory and the relation of theory to methods.

ANTHR 247 : Applied Anthropology. (3:3:0)
OFFERED: W
DESCRIPTION: Anthropological principles and methods applied to business, education communication, development projects, and health sciences.

300-Level Courses

ANTHR 300 : Biological Anthropology. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Relationships between human biology, environment, social structure, and culture. Concepts and data on race, primates, evolution, population genetics, growth, and sociobiology.

ANTHR 301 : Human Osteology. (2:1:2)

DESCRIPTION: Identification and treatment of skeletal material found in archaeological excavations.

ANTHR 309 : Language in Culture and Society. (3:3:0)
OFFERED: W, Sp
DESCRIPTION: Sociocultural categories and processes as expressed through, and determined by, language. Semiotics: language as sign system. Ethnosemantics, syntactic analysis, translation problems, ethnography of speaking/communication.

ANTHR 311 : Museums and Cultures. (3:3:0)
OFFERED: F
DESCRIPTION: Role of museums in society. Analyzing museum content, use, and sociology. On-site visits to area museums

ANTHR 312 : Intercultural Communication. (3:3:0)
OFFERED: F, W Independent Study only.
DESCRIPTION: Communication processes as affected by proxemic, kinesic, linguistic, social, institutional, worldview, and value differences and other aspects of culture. Seminar/workshop: theory, research methods, applications.

ANTHR 314 : Museum Registration and Legal/Ethical Issues. (3:3:0)
OFFERED: W
PREREQUISITE: Anthr 311.
DESCRIPTION: Managing museum collections: cataloging, loans, ethics, legal issues, object handling, basic object conservation. Practical experience working with museum objects.

ANTHR 317 : Native Peoples of North America. (3:3:0)
OFFERED: W even years
DESCRIPTION: Indian groups at the time of the European arrival; social organization, beliefs, values, economy, and adaptation to environment.

ANTHR 320 : Anthropology of Europe. (3:3:0)
OFFERED: W even years.
DESCRIPTION: Europe's role in the anthropological imagination; ethnographies of contemporary European populations; themes: nationalism/postnationalism/transnationalism; postsocialism, postcolonialism, immigration; ethnic identity and cultural politics; the commodification of culture. Regional emphasis may vary.

ANTHR 326 : Central American Society. (3:2:ARR)
OFFERED: F
DESCRIPTION: History, culture, society, and life among peoples of Mexico and Central America.

ANTHR 330 : Peoples of Africa. (3:3:0)
OFFERED: W odd years
DESCRIPTION: Political, economic, and social organization, family life, language, worldview, religion, ritual, artistic expression, ecological adaptation, and contemporary development issues among rural and urban sub-Saharan peoples.

ANTHR 335 : Peoples of India. (3:3:0)
OFFERED: W odd years
DESCRIPTION: Society and culture on Indian subcontinent. Stratification, kinship, marriage, religion, politics, economics.

ANTHR 340 : Peoples of the Middle East. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Ecology, social organization, and beliefs of nomadic, rural, and urban groups between western Africa and Pakistan.

ANTHR 343 : Chinese Culture and Society. (3:3:0)
OFFERED: F; W odd years.
DESCRIPTION: Cultural and social institutions of traditional and modern China, including Mainland China, Taiwan, Hong Kong, or other areas of Chinese impact.

ANTHR 345 : American Culture. (3:2:ARR)
OFFERED: F odd years.
DESCRIPTION: Unity and diversity in U.S. life. Social/cultural change processes illustrated and analyzed. Anthropological study of complex cultures. Seminar-type course involves substantial reading, writing, discussion.

ANTHR 346 : Anthropology of Mormonism. (3:3:0)
DESCRIPTION: Intensive analysis of Mormon society and culture using a range of anthropological perspectives.

ANTHR 348 : Contemporary Japan. (3:3:0)
DESCRIPTION: Using movies and popular media to examine the social structures and family life dynamics of contemporary Japan.

ANTHR 350 : Archaeological Cultures of North America. (3:3:0)
OFFERED: W
DESCRIPTION: Cultural developments of North American Indians (Canada, U.S., and northern Mexico) before Columbus.

ANTHR 351 : Archaeology and the Bible. (3:3:0)
OFFERED: W odd years; F odd years.
DESCRIPTION: Setting and context of the Bible as clarified and supplemented from archaeology, history, and related studies. Archaeological methods.

ANTHR 355 : Mesoamerican Archaeology. (3:2:ARR)
OFFERED: F
DESCRIPTION: Cultural-environment bases of ancient civilizations in Mexico and Central America. Olmec, Maya, Toltec, and Aztec cultures.

ANTHR 378 : Near Eastern Archaeology. (3:2:ARR)
OFFERED: F, W
DESCRIPTION: Peoples and culture history in Mesopotamia, Syria, Palestine, Egypt, 3500--500 B.C. Substantial reading, writing, discussion.

ANTHR 385 : Ancient Peoples and Cultures of Europe: The Origins of European Civilization. (3:3:0)
OFFERED: F

ANTHR 390R : Special Topics In Regional Anthropology. (.5-3:ARR:0)
OFFERED: On dem.
DESCRIPTION: Subjects related to a particular area or people.
NOTE: Offered when unique opportunities or needs arise.

400-Level Courses

ANTHR 402 : Quantitative Methods for Anthropology. (3:3:0)
OFFERED: F
DESCRIPTION: Quantitative methods in archaeology and sociocultural anthropology, including methods of organizing, exploring, and presenting data, probability, and statistical inference.

ANTHR 412 : Museum Collections Management. (3:3:0)
OFFERED: F
PREREQUISITE: Anthr 311, 314.
DESCRIPTION: Instruction and practice in aspects of managing museum collections: writing catalogs, processing donations, preserving objects.

ANTHR 414 : Museum Projects. (3:3:0)
OFFERED: W
PREREQUISITE: Anthr 311, 314.
DESCRIPTION: Supervised experience in a museum working with exhibitions, public programs, or research.

ANTHR 430 : Moral and Ritual Institutions. (3:3:0)
OFFERED: F
DESCRIPTION: Anthropological approaches to religion; its content and relation to other social institutions in societies ranging from gatherers to industrialists.

ANTHR 431 : The Family, Marriage, and Kinship. (3:3:0)
OFFERED: W; F odd years.
DESCRIPTION: Nature of kinship; parent-child, sibling, grandparental relationships. Genealogical basis of society: family, lineage, clan, kindred organization. Marital status; in-law relations; joking and avoidance behavior; divorce.

ANTHR 432 : Economic and Political Institutions. (3:3:0)
OFFERED: W
DESCRIPTION: Connections between wealth and power: political and legal systems in state and nonstate societies; expansion of capitalism and technology into remote global regions.

ANTHR 434 : Medical Anthropology. (3:3:0)
OFFERED: F odd years; W even years.
RECOMMENDED: Anthr 247.
DESCRIPTION: Interactions between culture and health in comparative perspective, emphasizing social, historical, and ecological determinants.

ANTHR 436 : Symbolic Anthropology. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Social use and understanding of semiotics, signs, symbols, and other meaningful forms as critically constitutive of culture.

ANTHR 437 : Man, Women, and the Culture of Gender. (3:3:0)
RECOMMENDED: Anthr 247.
DESCRIPTION: Gender roles across culture relative to health, ethnicity, economic development, kinship, war, etc.

ANTHR 439 : Psychological Anthropology. (3:3:0)
DESCRIPTION: The relationship between culture and mind. Examines whether the concept of the person varies cross-culturally, how emotions may differ in different societies, the psychological implications of cultural approaches to childrearing.

ANTHR 441 : Anthropology of Development. (3:3:3)
DESCRIPTION: Theory, practice, and research methods regarding the anthropological study and resolution of poverty, disease, malnutrition, displacement, and inadequate educational opportunities.

ANTHR 442 : Ethnographic Skills. (3:2:ARR)
OFFERED: W, Sp
PREREQUISITE: Anthr 205, 206.
DESCRIPTION: Methods, rationale, limitations, and ethical issues of participant observation, interviewing, quantitative measurement, and other procedures of ethnographic fieldwork. Local field project.

ANTHR 443 : Quantitative Ethnographic Methods. (3:3:0)
OFFERED: W
DESCRIPTION: Using quantitative tools to analyze qualitative data.

ANTHR 450 : Anthropology of Education. (3:3:0)
OFFERED: W odd years
PREREQUISITE: Anthr 101, 205, 206.
DESCRIPTION: Anthropological theories of and qualitative research in child rearing, enculturation, cognition, informal education, schools, literacy, multicultural and multilingual education, and cultural transmission and acquisition.

ANTHR 454R : Field School Preparation. (1:1:1)
OFFERED: W
PREREQUISITE: major status.

ANTHR 455R : Field School of Archaeology. (.5-6:0:ARR)
OFFERED: Sp
PREREQUISITE: Anthr 454R; major status.
DESCRIPTION: Training and experience in excavation at a BYU-sponsored dig.

ANTHR 456R : Lab Skills for Anthropology. (.5-6:ARR:ARR)
OFFERED: F
PREREQUISITE: Anthr 455R; major status.
DESCRIPTION: Analytical and laboratory techniques as part of a BYU-sponsored archaeological project.

ANTHR 490R : Special Topics in Theory and System. (3:3:0)
OFFERED: On dem.
DESCRIPTION: Subjects related to anthropological theory or the operation of social systems.
NOTE: Offered when unique opportunities or needs arise.

ANTHR 495 : Ethnographic Field Project. (3-6:0:ARR)
OFFERED: Sp, Su
PREREQUISITE: Anthr 205, 206, 442.
DESCRIPTION: Conduct field work, maintain field notes, and write a paper incorporating both descriptive and analytic components.

ANTHR 496R : Academic Internship: Research. (.5-3:ARR:ARR)
PREREQUISITE: Supervising instructor's consent.
DESCRIPTION: Field or library research.

ANTHR 497 : Directed Readings. (3:ARR:0)
PREREQUISITE: major status; supervising instructor's consent.
DESCRIPTION: Reading 2,500 pages on a stated topic.

ANTHR 499R : Senior Thesis. (3:3:0)
OFFERED: F, W
PREREQUISITE: Anthr 205, 206, 422, 495 (for sociocultural); 205, 206, 215, 454R, 455R, 456R (for archaeology).
DESCRIPTION: Supervised analysis and write-up of data generated during field project.

500-Level Graduate Courses (available to advanced undergraduates)

ANTHR 500 : History of Archaeology. (3:3:0)
OFFERED: W
PREREQUISITE: Acceptance into the graduate program.
DESCRIPTION: Historical approach to development of archaeological knowledge, method, and theory, emphasizing North America and individual contributions.

ANTHR 501 : Current Archaeological Method and Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into the graduate program.
RECOMMENDED: Anthr 500.
DESCRIPTION: Major developments in archaeological method and theory, emphasizing current perspectives.

ANTHR 502 : Quantitative Methods for Anthropology. (3:3:0)
OFFERED: F odd years
DESCRIPTION: Methods of organizing, exploring, and presenting data, probability, and statistical inference.

ANTHR 511 : Museums and Cultures. (3:3:0)
OFFERED: F even years
DESCRIPTION: Museums in society. Cultural foundations of museum content and sociology of museum use. Analyzing museum studies literature with on-site visits to area museums.

ANTHR 512 : Heritage Resource Management. (3:3:0)
OFFERED: F
PREREQUISITE: Admittance into graduate program in archaeology or certificate program in museum practices.
DESCRIPTION: Legal and ethical issues for practicing archaeologists. Preservation law, collections law, public archaeology, Native American issues, and careers in archaeology and museums.

ANTHR 522 : Museum Practices and Technologies. (3:3:ARR)
OFFERED: F odd years
DESCRIPTION: Core museum disciplines: collections management, curation, education, exhibition, and conservation. Supporting technologies: database, digital photography, Web design, etc. Career paths.

ANTHR 524 : Museology: Curation and Writing. (3:3:ARR)
OFFERED: F even years
PREREQUISITE: Admission to certificate in museum practices program.
DESCRIPTION: Professional practices supporting the educational, research, and reporting functions of museums, emphasizing museum writing leading to publication, cataloguing, policy writing, exhibition conceptualization, etc.

ANTHR 525 : Museum Registration and Collections Management. (3:3:ARR)
OFFERED: W even years
DESCRIPTION: Managing anthropological collections: object-handling, object-tracking, accessioning, deaccessioning, collections databases, loans, valuating collections, conservation environments, ethics, and NAGPRA and other laws relating to museums.

ANTHR 526 : Museum Exhibitions and Programming. (3:1:8)
OFFERED: W odd years
PREREQUISITE: Admission to certificate in museum practices program; Anthr 524.
DESCRIPTION: Instruction and practica in all aspects of exhibition development. Current thought and literature in museum education with practica for application.

ANTHR 530 : Great Basin Archaeology. (3:3:0)
OFFERED: W even years

ANTHR 535 : Southwest Seminar. (3:3:0)
OFFERED: W odd years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography and prehistory of American Southwest. Current issues in archaeological research emphasized.

ANTHR 562 : Formative Mesoamerica. (3:3:0)
DESCRIPTION: Topics and issues concerning beginnings and development of Mesoamerican civilizations. Mexican and Mayan antecedents of classic Mayan civilization and culture.

ANTHR 564 : Classic Mayan Civilization. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Topics and issues concerning archaeological and cultural aspects of classic Mayan civilization and society.

ANTHR 565 : Mayan Ceramic Analysis. (3:3:0)
OFFERED: W even years
DESCRIPTION: Current approaches to classification and analysis of archaeological ceramics, particularly Maya Lowland pottery. Laboratory study of actual pottery collections from the Maya area.

ANTHR 566 : Mayan Ethnohistory. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Topics and issues of cultural change, colonization, and documentation of change processes in the Mayan region, from postclassic period and independence from Spain.

ANTHR 580 : Near East Seminar. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Current issues in Near Eastern archaeological research.
NOTE: Undergraduate BYU anthropology students may enroll for the following courses if they have completed 30 hours in their major.

ANTHR 590R : Special Topics. (3:3:ARR)
OFFERED: On demand.
DESCRIPTION: Special topics in archaeology or museum studies.

ANTHR 596 : Museum Projects. (3:0:8)
OFFERED: Sp odd years
PREREQUISITE: Admission to certificate in museum practices program; Anthr 524, 526.
DESCRIPTION: One or more supervised museum projects, such as producing an exhibition, developing educational materials, conducting inventory, or accessioning collections.

ANTHR 599R : Academic Internship: Federal Agency on Museum/Collections Repository. (1-6:0:0)
PREREQUISITE: Prior approval; completion of all course work for certificate in museum practices (may be taken concurrently with Anthr 596).
DESCRIPTION: Earning credit while employed in federal agency archaeology (BLM, U.S. Forest Service, etc.); or 320 hours in collections-holding institution (sixteen weeks half-time; eight weeks full-time).

Asian and Near Eastern Languages

Robert A. Russell, Chair
3064C JFSB, (801) 422-6405

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

Admission to Degree Program

All degree programs in the Department of Asian and Near Eastern Languages are open enrollment. Some special limitations apply for teaching minors.

The Discipline

The many countries of Asia and the Near East are among the oldest civilizations in the world. The study of the languages and cultures of these nations gives students access to some of the richest and most varied traditions of thought, belief, and behavior to be found in the world. A large percentage of the vast, essentially non-Christian segment of the world's population resides in these two zones: Asia—with its diverse heritage of belief in Hinduism, Buddhism, Taoism, Confucianism, and other systems of thought—continues to retain its "exotic" image for most Westerners, even though many nations in the region are at the forefront of contemporary politics and economics. The Near East, birthplace of Christianity, Judaism, and Islam, remains a little-understood, often stereotyped area of considerable economic, strategic, and religious importance today.

The languages of these regions are themselves generally difficult, with complex writing systems that require diligent study. But exposure to these languages and the cultures they express will enable students to look at the world from new perspectives and deepen their understanding of peoples whose history and practices are widely divergent from their own.

Courses in the department equip students with verbal and written facility in the languages of their chosen area, whereas linguistics courses offer an understanding of how the languages are structured and acquired. A study of the literature reveals old and sophisticated traditions no less important than that of English or any other major language.

Majors are available in Chinese, Japanese, and Korean. Students can obtain a minor in Arabic and Hebrew. Each major discipline is briefly described below.

Chinese (Cantonese and Mandarin)

The study of Chinese accesses the literature, thought, culture, and society of the world's largest population with the longest cultural continuum; moreover, since the civilizations of Japan, Korea, and Vietnam are founded on traditional Chinese Confucianism, a major in Chinese opens up much of the wider world of modern Asia. You will communicate in spoken and written Mandarin, gain skills in analyzing and appreciating both traditional and modern literature, acquire effective research strategies, and learn to write clearly and persuasively. All the personal enrichment and interpersonal understanding that results from a liberal arts education in the humanities is offered through the study of Chinese.

Japanese

The study of Japanese at the university level will provide students with advanced language skills and a greater understanding of Japan and its people. Although Japan's growing influence is widely recognized, the rich cultural heritage of Japan in literature, thought, painting, music, and the other arts is not as well known. The study of Japanese language and literature will introduce students to many of the major aspects of that heritage while providing the kind of training in language and cultural skills that will prepare students to undertake careers in a wide variety of fields.

Korean

Korean is a difficult language, and at BYU we emphasize reading and writing the language as well as speaking and listening. Basic course work emphasizes linguistic skill and the language's literary value and tradition.

Note: Instruction is also regularly available in Hebrew and Arabic.

Career Opportunities

Students who major or minor in the languages and cultures of Asia and the Near East will find that, as will any other humanities-centered course of study, they have been well provided with tools to communicate both in the target language and in English and have broadened and deepened their knowledge of the region of their choice. Career options are many and varied for

such students, but those who do not plan to continue on in the academic study of the language are strongly urged to consider a second major or a strong minor in a practical field that can be combined with their language skills. In the competitive world of today, language ability alone no longer provides the competitive advantage it once offered on the job market. Students are urged to consult the College of Humanities Advisement Center, Career Placement Services, and their academic advisors for the best ways to make use of their language as they begin to seek employment.

Chinese

Chinese majors have all of the advantages of the liberal arts graduate (who claims effective communication and interpersonal skills) with the added edge of knowing the language and culture behind a leading world economy. Therefore, graduates enter the work force in a wide variety of occupations, such as journalism, insurance, business, travel, investment, and government service. They not only are marketable as trained linguists, translators, and cultural advisors, but are vigorously recruited as personnel managers and business representatives by companies with overseas interests. Graduates are also highly competitive in applying to professional schools for medicine, dentistry, law, and business.

Japanese

In recent years, graduates from the Japanese major at BYU have gone on to law, engineering, computer, or MBA programs, while others have continued on to medical school. A few have pursued graduate work in a variety of academic fields at some of the most prestigious universities in the country. Others have gone directly to work in government service, in the military, and in American or Japanese business firms where their language ability and cultural background are in high demand.

Korean

Most of the jobs available for students with a Korean major are in government (NSA, CIA, FBI), etc., but Korean majors also have all the advantages of a liberal arts degree. Many of our graduates go on to professional schools, law, business, or medicine. Korean is an excellent complement, either as a major or minor, to studies in prelaw, political science, accounting, English, international relations, and many other majors available on campus. Korean is an important language in the world of diplomacy and defense, as well as the world of international business. (Korea is the eighth largest trading partner of the U.S.) Our graduates have been hired by the U.S. government and by U.S., international, and Korean businesses. They work in technical areas as well, involving everything from computers to broadcasting to medicine.

General Information

The Department of Asian and Near Eastern Languages strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BA in Chinese
BA in Japanese
BA in Korean

Minor in Arabic
Minor in Chinese
Minor in Chinese Teaching
Minor in Hebrew
Minor in Japanese
Minor in Japanese Teaching
Minor in Korean

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Language Acquisition and Teaching (Arabic, Chinese, Japanese, or Korean)

For more information see the BYU 2007–2008 Graduate Catalog.

General Information

Language Credit by Examination

Credit by examination is available for many lower-division courses of the above-listed languages. Enrollment in an advanced class is prerequisite to taking the examination.

The following languages are not taught on a regular basis but may be offered if sufficient demand exists. Credit by examination is available for some of the Near Eastern languages listed below.

Akkadian
Aramaic
Egyptian
Persian (Farsi)
Syriac
Turkish
Ugaritic

Minor in Arabic (18–35 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following prerequisite courses (or equivalents):

ARAB 101 : First-Year Arabic. (4:5:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic skills of spoken and written Arabic.
NOTE: Suggested first class for students learning Arabic.

ARAB 102 : First-Year Arabic. (4:5:0)
OFFERED: W, Sp, Su
PREREQUISITE: Arab 101.
DESCRIPTION: Second-semester Arabic. Basic language skills, both spoken and written.

ARAB 201 : Second-Year Arabic. (4:5:0)
OFFERED: F, Su
PREREQUISITE: Arab 102 or equivalent experience.
DESCRIPTION: Significantly expanding proficiency in Modern Standard Arabic and increasing conversational repertoire.

ARAB 202 : Intermediate Arabic. (4:5:0)
OFFERED: W, Su
PREREQUISITE: Arab 201 or equivalent experience.
DESCRIPTION: Continuation of Arab 201.

2. Complete the following (normally as part of a BYU Semester Abroad program):

ARAB 211R : Second-Year Conversation. (2:2:0)
OFFERED: Sp, Su; Study Abroad only.
PREREQUISITE: Arab 202 or equivalent experience.
DESCRIPTION: Intermediate spoken Arabic.

ARAB 300 : Advanced Modern Standard Arabic. (4:5:0)
PREREQUISITE: Arab 202.
DESCRIPTION: Advanced work in reading, writing, listening, speaking.

ARAB 302 : Newspaper Arabic. (4:5:0)
OFFERED: Sp, Su
PREREQUISITE: Arab 300.
DESCRIPTION: Extensive reading of Arabic newspapers and magazines, with appropriate vocabulary building.

ARAB 311R : Third-Year Conversation. (2:2:0)
OFFERED: Sp, Su; Study Abroad only.

JAPAN 441 : Introduction to Classical Japanese. (3:3:0)
OFFERED: F, W
PREREQUISITE: Japan 321 or 322.
DESCRIPTION: Reading of premodern texts, emphasizing grammar and syntax, and showing differences from and influences on the modern idiom.

JAPAN 443 : Advanced Documentary Style. (3:3:0)
OFFERED: F, W
PREREQUISITE: Japan 321, 322; or equivalents.
DESCRIPTION: Reading and discussion of modern expository texts; developing advanced listening skills using authentic materials.

JAPAN 444 : Reading Modern Japan. (3:3:0)
OFFERED: F, W
PREREQUISITE: Japan 321, 322; or equivalents.
DESCRIPTION: Fictional texts from major twentieth-century authors. Texts primarily in Japanese.

JAPAN 490R : Individual Study in Japanese. (.5-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of advisor and instructor.
DESCRIPTION: Topics vary. Assignments to fit individual needs of the advanced student.

JAPAN 495 : Senior Seminar. (2:2:0)
OFFERED: F, W
PREREQUISITE: Department approval.
DESCRIPTION: Capstone course for the Japanese major.
NOTE: Required of all majors. To be taken the last semester prior to graduation.

500-Level Graduate Courses (available to advanced undergraduates)

JAPAN 599R : Academic Internship. (.5-9:0:0)
PREREQUISITE: Japan 302 or equivalent.
DESCRIPTION: On-the-job cultural and/or language experience.

Graduate Advanced Courses

For 600- and 700-level courses, see the BYU 2008-2009 Graduate Catalog.

BA in Korean (37–53 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following prerequisite courses (or equivalents):

KOREA 101 : First-Year Korean 1. (4:5:0)
OFFERED: F, W
DESCRIPTION: Han'gul, the phonetic system, basic grammar and vocabulary, discourse, reading, and culture.

KOREA 102 : First-Year Korean 2. (4:5:0)
OFFERED: W
PREREQUISITE: Korea 101 or equivalent.
DESCRIPTION: Continuation of Korea 101. Phonetic system, basic grammar, vocabulary, discourse, reading, and culture.

KOREA 201 : Second-Year Korean 1. (4:5:0)
OFFERED: F
PREREQUISITE: Korea 102 or equivalent.
DESCRIPTION: Further practice in discourse and basic reading and writing skills; culture.

KOREA 202 : Second-Year Korean 2. (4:5:0)
OFFERED: F, W
PREREQUISITE: Korea 201 or equivalent.
DESCRIPTION: Continuation of Korea 201. Conversation, basic reading and writing skills, culture. Introduction to Chinese characters.
NOTE: Not for returned missionaries.

2. Complete the following:

HIST 346 : Korea. (3:3:0)
OFFERED: W even years.
DESCRIPTION: Political, religious, and cultural development from antiquity to the present.

KOREA 301 : Third-Year Korean 1. (4:5:0)
OFFERED: F, W, Su
PREREQUISITE: Korea 202 or equivalent.
DESCRIPTION: Vocabulary, grammar, discourse, pronunciation, hanja, and culture.
NOTE: First course for returned missionaries.

KOREA 302 : Third-Year Korean 2. (4:5:0)
OFFERED: W
PREREQUISITE: Korea 301 or equivalent.
DESCRIPTION: Continuation of Korea 301. Vocabulary, grammar, discourse, hanja, composition, pronunciation, and culture.

KOREA 321 : Selected Readings of Modern Korean. (3:3:0)
OFFERED: W
PREREQUISITE: Korea 301 or equivalent.
DESCRIPTION: Mixed script (with hanja) and other readings from modern documentary and literary texts, emphasizing comprehension, grammar, and vocabulary building.

KOREA 325 : Structure of Korean. (3:3:0)
OFFERED: F
PREREQUISITE: Korea 302.

DESCRIPTION: Applying phonology, morphology, syntax, and semantics to the problems of learning Korean.

KOREA 340 : Korean Literature to 1900. (3:4:0)
OFFERED: F
PREREQUISITE: Korea 302.
DESCRIPTION: Korean literature from the earliest times to 1900. Emphasis on basic literary concepts.

KOREA 401 : Fourth-Year Korean 1. (3:3:0)
OFFERED: F
PREREQUISITE: Korea 302.
DESCRIPTION: Advanced language preparation in reading, discourse, writing, and hanja.

KOREA 402 : Fourth-Year Korean 2. (3:3:0)
OFFERED: W
PREREQUISITE: Korea 401.
DESCRIPTION: Continuation of Korea 401. Advanced reading, discourse, writing, and hanja.

KOREA 443 : Korean Literature after 1900. (3:4:0)
OFFERED: W
PREREQUISITE: Korea 302.
DESCRIPTION: Literary texts from major post-1900 authors, in Korean, emphasizing reading, translating, and criticism.

KOREA 495 : Senior Seminar. (2:2:0)
OFFERED: W
DESCRIPTION: Individual research, with seminar paper the primary objective.
NOTE: Required for Korean majors.

3. Complete six hours from the following:

KOREA 311R : Third-Year Conversation. (2:2:0)
OFFERED: F, W
PREREQUISITE: Korea 301 or foreign residence experience.
DESCRIPTION: Advanced conversational skills.

KOREA 344R : Korean Literature in Translation. (3:3:0)
OFFERED: F
DESCRIPTION: All readings in English; topics vary.

KOREA 345 : Korean Culture. (3:3:0)
OFFERED: W
DESCRIPTION: Selected topics in traditional, modern, and contemporary Korean culture. All readings in English.

KOREA 399R : Academic Internship. (.5-9:0:0)
OFFERED: F, W, Sp
PREREQUISITE: Korea 301; instructor's consent.
DESCRIPTION: On-the-job cultural and language experience.

KOREA 441 : Classical Korean (Hanmun). (3:4:0)
OFFERED: F
PREREQUISITE: Korea 321 or Chin 441.
DESCRIPTION: Reading of premodern, documentary Sino-Korean texts, including genealogy records and the Chosŏn Dynasty Annals.

KOREA 490R : Individual Study in Korean. (.5-3:ARR:0)
OFFERED: F, W, Sp
PREREQUISITE: Instructor's consent.
DESCRIPTION: Individual assignments appropriate to needs of advanced students.

Recommended

Prospective majors are urged to have a concurrent major or minor in another discipline.

*Hours include courses that may fulfill university core requirements.

Biology

Keith A. Crandall, Chair
401 WIDB, (801) 422-2582

Life Sciences Student Services
379 WIDB, (801) 422-3042

Admission to Degree Program

All degrees within this department are open enrollment programs.

The Discipline

Programs in the Department of Biology focus on training students in the organismal and broader perspectives of the biological sciences. Fields include systematics of taxonomic groups, ecology, and evolution, which often rely on the application of molecular biology and genetics.

Career Opportunities

Biology entails rigorous, broad training and synthetic reasoning, which prepare students for careers in a wide variety of professional fields ranging from technical work in research laboratories to field technicians for environmental research companies or government agencies. Majors may develop their interest in such diverse areas as environmental biology, evolutionary biology, aquatic biology, molecular biology, plant biology, or taxonomy. Students satisfy the requirements for graduate studies in the biological sciences or professional schools.

The bioinformatics major is for students with interests in both the computer and the biological sciences. The degree merges these interests in the areas of bioinformatics and computational biology, giving students the skills for graduate or professional (medical, dental, law) schools or immediate employment opportunities after completing the undergraduate program, especially with biotechnology companies.

The biological science education program provides a solid foundation in courses that meet the National Science Teachers Associatior certification requirements for secondary education biology teaching. The program also prepares students for continuing their education in graduate school.

Preveterinary medicine students interested in veterinary medicine are encouraged to incorporate required preveterinary curriculum into an academic program of their choosing. See the description of the biology major for additional information.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BS in Bioinformatics (63 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Objectives

Bioinformatics is an interdisciplinary program offering substantial training in both the biological sciences and the physical and mathematical sciences, with an emphasis on computer programming coupled with genetics and molecular biology. Students are expected to acquire programming, databasing, and operating system skills coupled with a foundation in mathematics and statistics. In addition, students will receive broad training in the basic concepts of biology and chemistry. Students attracted to this program have dual interests in math/computer science and biology, and find it an exceptional option for their broad interests.

Program Requirements | View MAP

1. Complete the following:

BIO 265 : (Bio-MMBio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

BIO 365 : Computational Biology. (3:2:1)
OFFERED: F
PREREQUISITE: Bio 265, C S 240.
DESCRIPTION: Computational analysis of DNA data; introduction to bioinformatics databasing using Perl and SQL; configuration of UNIX workstations for bioinformatics analyses.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

BIO 465 : Bioinformatics. (3:2:1)
OFFERED: W
PREREQUISITE: Bio 265
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

MMBIO 240 : Molecular Biology. (3:3:1)

OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

2. Complete the following:

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.

DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

3. Complete one introductory statistics course:

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

STAT 321 : Elements of Mathematical Statistics. (3:3:2)
OFFERED: F, Su
PREREQUISITE: Math 113 or 119 or equivalent.
DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

4. Complete one advanced statistics course not previously taken:

STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 421 : Introduction to Probability and Statistical Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113 or equivalent; Stat 336.
DESCRIPTION: Probability; random variables; probability models; methods of estimation; sampling distribution and the Central Limit Theorem; Neyman-Pearson hypothesis testing.

5. With approval of a faculty advisor, complete 6 hours from upper-division electives in computer science, chemistry, mathematics, statistics, or biology.

The Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center

*Hours include courses that may fulfill university core requirements.

Program Objectives

The biological science education program involves formal training in the field of biology as well as preparation of students as professional educators. The discipline portion of the program is designed to give broad training in the life sciences. Students take classes in plant and animal diversity, molecular biology, genetics, ecology, evolution, and bioethics. This training provides students with significant background and expertise in the biological sciences. In addition to the discipline-level training, the program also requires courses in the physical sciences including chemistry, biochemistry, and physics. The physical science course work is comprehensive enough to place students two or three courses away from receiving additional teaching endorsements in physical science, earth systems, or integrated science. The educational component involves training in laboratory methods, laboratory safety, classroom management, pedagogy, and student teaching.

Program Requirements | View MAP

1. Complete the following biology core courses:

BIO 220A : Biological Diversity: Animals. (4:3:3)
- OFFERED: F, W
- PREREQUISITE: PDBio 120 or equivalent.
- DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 220B : Biological Diversity: Plants. (4:3:3)
- OFFERED: F, W
- PREREQUISITE: PDBio 120 or equivalent.
- DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

BIO 350 : Ecology. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Bio 220A,B.
- DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 420 : Evolutionary Biology. (2:2:0)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240, PSW 340.
- DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
- DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

MMBIO 240 : Molecular Biology. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: PDBio 120, Chem 105.
- DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

Note: Bio 420, 421 must be taken at BYU.

2. Complete the following:

BIO 235 : Field Botany. (3:3:6)
OFFERED: F
DESCRIPTION: Recognition, characteristics, and uses of common trees and shrubs.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)
OFFERED: F
PREREQUISITE: Biology core courses through Bio 420.
DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

GEOL 101 : Introduction to Geology. (3:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
NOTE: Honors also.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion,

sound.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

3. Complete the Professional Education Component:
   a. Complete the following:

BIO 276R : Exploration of Teaching in Biological Sciences. (3:ARR:ARR)
OFFERED: W
PREREQUISITE: Minimum GPA of 2.85 in Chem 105, PDBio 120, Bio 220A, B.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

BIO 377 : Teaching Methods and Instruction in Biology. (3:ARR:ARR)
OFFERED: F
PREREQUISITE: Bio 276R; fingerprinting and FBI clearance; concurrent enrollment in Bio 378, 379, Sc Ed 380.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students in biological sciences; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

BIO 378 : Practicum in Biology Teaching. (1:0:3)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Bio 377, 379, Sc Ed 380.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in biology; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

BIO 379 : Classroom Management. (1:1:0)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Bio 377, 378, Sc Ed 380.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 380 : Content-Area Literacy. (2:2:0)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Sc Ed 377 or equivalent course.
DESCRIPTION: Current theory and related practices in literacy assessment and instruction for content-area classrooms.

Note: Fingerprinting and FBI clearance must be completed prior to enrollment in Bio 377. Bio 377, 378, and 379 should be taken concurrently in the semester prior to taking Sc Ed 476R.

b. Complete 12 hours from the following:

SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

Recommended Courses

BIO 352 : Introduction to Marine Biology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Marine life, the sea as an environment, and research methods.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

BIO 443 : Ichthyology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

BIO 445 : Herpetology. (4:3:2)
OFFERED: W even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Avian systematics evolution, distribution, and natural history.
NOTE: Two three-day field trips required.

BIO 447 : Mammalogy. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A.
DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

GEOL 103 : Life of the Past. (3:2:1)
OFFERED: F, W
DESCRIPTION: Cultural focus on historical geology for nonscience majors; fossils. Field trips.

GEOL 112 : Historical Geology. (4:3:2)
OFFERED: W, Su
PREREQUISITE: Geol 111.
DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field

trips and lab studies.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

*Hours include courses that may fulfill university core requirements.

BS in Biology (65–68 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The biology degree provides students with current, practical knowledge of plants and animals, emphasizing whole organism biology in both ecological and evolutionary contexts. Broad, synthetic training, from molecular to community levels of organization, equips students to address critical issues and contemporary biological problems associated with the long-term preservation of earth's biodiversity. Elective flexibility allows students to emphasize the botanical or zoological fields, or create a combined program of study. Undergraduate research opportunities may include internships, museum collections curation, bioinventory and data-basing activities, applied molecular genetics, and field and laboratory research in ecology, conservation biology, or evolutionary biology.

Program Requirements | View MAP

1. Complete the following:

BIO 220A : Biological Diversity: Animals. (4:3:3)
- OFFERED: F, W
- PREREQUISITE: PDBio 120 or equivalent.
- DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 220B : Biological Diversity: Plants. (4:3:3)
- OFFERED: F, W
- PREREQUISITE: PDBio 120 or equivalent.
- DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

BIO 350 : Ecology. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Bio 220A,B.
- DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 420 : Evolutionary Biology. (2:2:0)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240, PSW 340.
- DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
- DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

MMBIO 240 : Molecular Biology. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: PDBio 120, Chem 105.
- DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
- OFFERED: F, W, Sp, Su; Honors also.

DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

2. Complete one course from the following:
BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)
OFFERED: F
PREREQUISITE: Biology core courses through Bio 420.
DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

3. Complete the following:
CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

4. Complete one of the following options:
a. Complete the following:
MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su

PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

And complete one course from the following:
STAT 321 : Elements of Mathematical Statistics. (3:3:2)
OFFERED: F, Su
PREREQUISITE: Math 113 or 119 or equivalent.
DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

STAT 421 : Introduction to Probability and Statistical Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113 or equivalent; Stat 336.
DESCRIPTION: Probability; random variables; probability models; methods of estimation; sampling distribution and the Central Limit Theorem; Neyman-Pearson hypothesis testing.

b. Complete the following:
MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

c. Complete the following:
MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

PHSCS 105 : Introductory Applied Physics. (3:3:0)

OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

5. Complete a total of 14 hours of electives, a minimum of six hours from the organismal biology list and a minimum of six hours from the biological processes list.
   a. Organismal biology: complete a minimum of six hours from the following:

BIO 352 : Introduction to Marine Biology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Marine life, the sea as an environment, and research methods.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)
OFFERED: F even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

BIO 443 : Ichthyology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

BIO 445 : Herpetology. (4:3:2)
OFFERED: W even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)
OFFERED: W

PREREQUISITE: Bio 220A.
DESCRIPTION: Avian systematics evolution, distribution, and natural history.
NOTE: Two three-day field trips required.

BIO 447 : Mammalogy. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A.
DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

BIO 510 : Advanced Plant Taxonomy. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Review of taxonomic literature and research methods. One three-day field trip required.

BIO 511 : Lichenology. (3:2:3)
OFFERED: On demand.
DESCRIPTION: Classification, morphology, and ecology on lichens. Field trip required.

BIO 512 : Angiosperm Phylogeny. (3:2:4)
OFFERED: F odd years
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Description, classification, phylogeny, and geographic distribution of flowering plant families.

BIO 541 : Aquatic Entomology. (4:2:4)
OFFERED: F even years.
PREREQUISITE: Bio 441 or equivalent.
DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

b. Biological processes: complete a minimum of six hours from the following:

BIO 352 : Introduction to Marine Biology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Marine life, the sea as an environment, and research methods.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

BIO 450 : Conservation Biology. (3:3:0)
OFFERED: F
PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

BIO 452 : Marine Ecology. (3:2:3)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Principles of marine ecology of planktonic, sublittoral, rocky shore, sandy shore, and mudflat communities. Extensive field trips.

BIO 453 : Development of Marine Animals. (3:0:6)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Culturing, studying, and reporting on the development of eggs, embryos, and larvae of marine animals.

BIO 465 : Bioinformatics. (3:2:1)
OFFERED: W
PREREQUISITE: Bio 265
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)
OFFERED: F
PREREQUISITE: Biology core courses through Bio 420.
DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)
OFFERED: W
PREREQUISITE: Bio 380 or instructor's consent.
DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

BIO 550 : Physiological and Chemical Ecology. (3:3:0)
OFFERED: W odd years.
PREREQUISITE: Bio 350 or equivalent.
DESCRIPTION: Ecophysiological response of plants to their environment.

BIO 556 : Limnology. (2:2:0)
OFFERED: F even years.
PREREQUISITE: Bio 350, Chem 106; or equivalents.
DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

BIO 557 : Stream and Wetland Ecology. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: Bio 350, Chem 106; or equivalent.
DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

BIO 558 : Aquatic Ecology Laboratory. (1:0:3)
OFFERED: F even years.
PREREQUISITE: Bio 556 or 557 or concurrent registration.
DESCRIPTION: Field experience in aquatic ecology, including shoreline processes, fluvial mechanics, and quantitative and qualitative assessment of lotic and lentic systems. Overnight field trips required.

BIO 560 : Population Genetics. (4:4:0)
OFFERED: W odd years.
PREREQUISITE: Bio 420 or equivalent.
DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 481, MMBio 151.
DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

MMBIO 462 : Microbial Ecology. (3:2:3)

OFFERED: F
PREREQUISITE: MMBio 151, PDBio 120.
DESCRIPTION: Natural history of a microbe; its distribution and abundance. Critical influence of scale and perspective in determining underlying mechanisms.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PWS 440 : Plant Physiology. (3:3.0:0)
OFFERED: F, W
PREREQUISITE: GE Biological Science requirement; college chemistry
RECOMMENDED: Chem 285; or 351, 352.
DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

Note: Students cannot count both Bio 370 and 470 in this requirement.

Note: As an option, up to four hours of the 14 hours total from (1) mentoring credit (see below) and (2) preapproved upper-division electives from Chem, LfSci, MMBio, NDFS, PDBio, or PWS can be used for elective credit. Written approval by an assigned advisor must be filed with the department prior to enrollment in the course. If students take this option, these hours will be evenly divided between the organismal biology and the biological processes elective requirements.

Approved mentoring credit:

BIO 494R : Mentored Research. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Supervisor's consent.
DESCRIPTION: Independent student research under faculty supervision.

: Aquatic Biology.
: Bioinformatics.
: Ecology.
: Electron Microscopy.
: Entomology.
: Evolution.
: Fungal Biology.
: Marine Biology.
: Medicinal Botany.
: Mega Carnivore Conservation.
: Plant Biochemistry.
: Plant Biology.
: Plant ID Team.
: Systematics.
: Veterinary Science.
: Wildlands.
: Wildlife and Wildlands Conservation.
: Wildlife.

BIO 559R : Advanced Topics in Ecology and Evolution. (1-6:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Current topics in ecology, evolution, and systematics.

: Advanced Ecology.
: Advanced Systematics.
: Biogeography.
: Biological Science Education.
: Evolutionary Biology.
: Physiological Ecology.
: Tropical Biology.

LFSCI 399R : Academic Internship. (.5-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Approved experiential learning.

: Mentored Internship.

LFSCI 490R : Special Problems. (1-6:0.0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Life Sciences Student Services consent.

LFSCI 499R : Senior Honors Thesis. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.
DESCRIPTION: Topic to be cleared with Honors Program Office and Life Sciences Student Services.

6. Complete an exit interview.

Recommended Courses for Career Options

Botany

Students seeking career and graduate school opportunities in botanical fields should build their electives on a foundation of basic plant biology courses. Coupled with the broad integrative biology core, the following courses provide students with the greatest diversity of options for postgraduate work or training in plant biology:

Bio 430, 510, 511, 512.

PWS 282, 283, 355, 440, 515.

Students completing Bio 430 and PWS 330 and 355 often find summer employment opportunities with government land agencies.

Preveterinary Medicine

Beverly L. Roeder, Advisor
386 WIDB (801) 422-6873

Students interested in applying to veterinary medicine schools should take the following courses as part of the biology major:

BIO 270 : Animal Restraint. (1:0:2)
OFFERED: W
DESCRIPTION: Restraint and first aid techniques for pet, laboratory, domestic, and wild animals.

BIO 291R : Veterinary Medicine Seminar. (.5:1:0)
OFFERED: F
DESCRIPTION: Preview into veterinary medicine as a profession. Application procedure and preparation for veterinary school.

BIO 392R : Preveterinary Preceptorship. (1-2:0:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Supervised on-the-job exposure to veterinary medicine under a clinical setting, supplemented with academic assignments.

(2 hours required)
BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)
OFFERED: W
PREREQUISITE: Bio 380 or instructor's consent.
DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

(1 hour required)

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: EngI 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

(or higher)

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 221 or concurrent enrollment.

NDFS 330 : Comparative Animal Nutrition. (3:3:0)
OFFERED: W
DESCRIPTION: Comparative digestion, absorption, and utilization of nutrients and nutritional applications of domestic, pet, and wildlife species.

PDBIO 484 : Human Embryology. (3:3:0)
OFFERED: F
PREREQUISITE: Biol 360 or equivalent.
RECOMMENDED: PDBio 225.
DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

*Hours include courses that may fulfill university core requirements.

BS in Conservation Biology (64–67 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The conservation biology major is designed to provide students with a broad scientific background in preparation for a career in conservation fields. Graduates will be equipped to deal with the issues and problems of sustainable resource usage, conservation of endangered biota, long-term preservation of biodiversity, development and preservation of natural resources, and management and conservation of ecosystems. This major is recommended for those seeking graduate programs in a variety of areas of biology, especially conservation biology. The major also prepares students well for obtaining positions in Non-Government Organizations (NGOs) focusing on conservation biology. The major does NOT provide certification as a wildlife biologist (see Wildlife and Wildlands Conservation).

Program Requirements | View MAP

1. Complete the following:

BIO 220A : Biological Diversity: Animals. (4:3:3)
- OFFERED: F, W
- PREREQUISITE: PDBio 120 or equivalent.
- DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 220B : Biological Diversity: Plants. (4:3:3)
- OFFERED: F, W
- PREREQUISITE: PDBio 120 or equivalent.
- DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

BIO 347 : Religion and the Environment. (3:3:3)
- OFFERED: W
- PREREQUISITE: Introductory biology or instructor's consent.
- DESCRIPTION: The role religion has played historically in defining how humans relate to nature and its creatures. How religion frames environmental values and ethics today, emphasizing LDS viewpoints.

BIO 350 : Ecology. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: Bio 220A,B.
- DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 420 : Evolutionary Biology. (2:2:0)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240, PSW 340.
- DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
- DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

BIO 450 : Conservation Biology. (3:3:0)
- OFFERED: F

PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

2. Complete one of the following chemistry options:

Either

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

Or

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two

recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

Note: Students considering graduate or professional school should choose the second option.

3. Complete one course from the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

Note: Students considering graduate school should choose Math 112.

4. Complete at least 6 hours from the following tools courses:

BIO 555 : Evolutionary and Ecological Modeling. (2:2:0)
OFFERED: W even years.
PREREQUISITE: Senior status in bioinformatics program or graduate status; Stat 511, 512, or equivalent; instructor's consent.
DESCRIPTION: Using models in ecology. Practical experience in analytical, simulation, and agent-based models.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PWS 551 : Quantitative Ecology. (3:2:3)
OFFERED: W odd years.
PREREQUISITE: Bio 350 or equivalent; Stat 221 or 511 or concurrent enrollment.
DESCRIPTION: Quantitative methods for ecological sampling and data analysis.

STAT 334 : Methods of Survey Sampling. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 221 or equivalent.
DESCRIPTION: Sampling frames, questionnaire design; simple random, systematic, stratified, and cluster sampling methods, comparing domain means, contingency table analysis.

5. Complete at least 6 hours from the following management and policy elective courses:

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

GEOG 310 : Principles of Land Use Planning. (3:3:0)
OFFERED: F
DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

HIST 290 : Nature and History: The Earth's Environmental Past. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Human historical interactions with animals, plants, and landscapes. Global histories of climate, population, whaling, fossil fuels, the car, animal rights, suburban sprawl, eco-theology, environmentalism, ecotourism, etc.

PL SC 535 : Natural Resources Policy. (3:3:0)
DESCRIPTION: Processes and politics of public policies related to natural resources. Problems of analysis and evaluation.

PL SC 536 : Environmental Regulation. (3:3:0)
DESCRIPTION: Regulatory programs aimed at air and water pollution, hazardous waste, toxic chemicals, and other environmental problems. Alternative regulatory mechanisms and approaches.

PWS 411 : Watershed Management. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 350.
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands. Field trips required.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Managing forests, emphasizing ecosystem managment.

NOTE: Field trips required.

6. Complete at least 6 hours from the following biology electives:

BIO 352 : Introduction to Marine Biology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Marine life, the sea as an environment, and research methods.

BIO 353 : Field Biology. (4:2:7)
OFFERED: On demand.
PREREQUISITE: Bio 220A.
DESCRIPTION: Field investigations into the natural history of living organisms. Extended field trips required.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)
OFFERED: F even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

BIO 443 : Ichthyology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

BIO 445 : Herpetology. (4:3:2)
OFFERED: W even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Avian systematics evolution, distribution, and natural history.
NOTE: Two three-day field trips required.

BIO 447 : Mammalogy. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A.
DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

BIO 452 : Marine Ecology. (3:2:3)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Principles of marine ecology of planktonic, sublittoral, rocky shore, sandy shore, and mudflat communities. Extensive field trips.

BIO 453 : Development of Marine Animals. (3:0:6)
OFFERED: Sp

PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Culturing, studying, and reporting on the development of eggs, embryos, and larvae of marine animals.

BIO 494R : Mentored Research. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Supervisor's consent.
DESCRIPTION: Independent student research under faculty supervision.

: Aquatic Biology.
: Bioinformatics.
: Ecology.
: Electron Microscopy.
: Entomology.
: Evolution.
: Fungal Biology.
: Marine Biology.
: Medicinal Botany.
: Mega Carnivore Conservation.
: Plant Biochemistry.
: Plant Biology.
: Plant ID Team.
: Systematics.
: Veterinary Science.
: Wildlands.
: Wildlife and Wildlands Conservation.
: Wildlife.

Or
LFSCI 494R : Mentored Research. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Mentor's consent.

(3 hours maximum)

BIO 510 : Advanced Plant Taxonomy. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Review of taxonomic literature and research methods. One three-day field trip required.

BIO 511 : Lichenology. (3:2:3)
OFFERED: On demand.
DESCRIPTION: Classification, morphology, and ecology on lichens. Field trip required.

BIO 512 : Angiosperm Phylogeny. (3:2:4)
OFFERED: F odd years
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Description, classification, phylogeny, and geographic distribution of flowering plant families.

BIO 541 : Aquatic Entomology. (4:2:4)
OFFERED: F even years.
PREREQUISITE: Bio 441 or equivalent.
DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

BIO 556 : Limnology. (2:2:0)
OFFERED: F even years.
PREREQUISITE: Bio 350, Chem 106; or equivalents.
DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

BIO 557 : Stream and Wetland Ecology. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: Bio 350, Chem 106; or equivalent.
DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

BIO 558 : Aquatic Ecology Laboratory. (1:0:3)
OFFERED: F even years.
PREREQUISITE: Bio 556 or 557 or concurrent registration.
DESCRIPTION: Field experience in aquatic ecology, including shoreline processes, fluvial mechanics, and quantitative and qualitative assessment of lotic and lentic systems. Overnight field trips required.

BIO 559R : Advanced Topics in Ecology and Evolution. (1-6:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Current topics in ecology, evolution, and systematics.

: Advanced Ecology.
: Advanced Systematics.
: Biogeography.
: Biological Science Education.
: Evolutionary Biology.
: Physiological Ecology.
: Tropical Biology.

BIO 560 : Population Genetics. (4:4:0)
OFFERED: W odd years.
PREREQUISITE: Bio 420 or equivalent.
DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

PWS 282 : Introduction to Soil Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PWS 283.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

PWS 440 : Plant Physiology. (3:3.0:0)
OFFERED: F, W
PREREQUISITE: GE Biological Science requirement; college chemistry
RECOMMENDED: Chem 285; or 351, 352.
DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

7. Complete an exit interview.

*Hours include courses that may fulfill university core requirements.

Biology (Bio)

Show All Course Descriptions
Hide All Course Descriptions

Undergraduate Courses

100-Level Courses

BIO 100 : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

: Honors Principles of Biology.

BIO 101 : Principles of Biology Laboratory. (1:0:2)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Bio 100.
NOTE: Required of all elementary education and early childhood education majors; enrollment limited to elementary education of early childhood education majors.

200-Level Courses

BIO 220A : Biologlcal Diversity: Animals. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

BIO 220B : Biological Diversity: Plants. (4:3:3)
OFFERED: F, W
PREREQUISITE: PDBio 120 or equivalent.
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

BIO 235 : Field Botany. (3:3:6)
OFFERED: F
DESCRIPTION: Recognition, characteristics, and uses of common trees and shrubs.

BIO 265 : (Bio-MMBio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

BIO 270 : Animal Restraint. (1:0:2)
OFFERED: W
DESCRIPTION: Restraint and first aid techniques for pet, laboratory, domestic, and wild animals.

BIO 275 : (Bio - PWS) Genetics and Reproduction. (3:3:0)
OFFERED: Independent Study only.
PREREQUISITE: Any general biology course.
DESCRIPTION: Principles of inheritance.

BIO 276R : Exploration of Teaching in Biological Sciences. (3:ARR:ARR)
OFFERED: W
PREREQUISITE: Minimum GPA of 2.85 in Chem 105, PDBio 120, Bio 220A, B.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

BIO 291R : Veterinary Medicine Seminar. (.5:1:0)
OFFERED: F
DESCRIPTION: Preview into veterinary medicine as a profession. Application procedure and preparation for veterinary school.

300-Level Courses

BIO 347 : Religion and the Environment. (3:3:3)
OFFERED: W
PREREQUISITE: Introductory biology or instructor's consent.

BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 352 : Introduction to Marine Biology. (3:3:0)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Marine life, the sea as an environment, and research methods.

BIO 353 : Field Biology. (4:2:7)
OFFERED: On demand.
PREREQUISITE: Bio 220A.
DESCRIPTION: Field investigations into the natural history of living organisms. Extended field trips required.

BIO 365 : Computational Biology. (3:2:1)
OFFERED: F
PREREQUISITE: Bio 265, C S 240.
DESCRIPTION: Computational analysis of DNA data; introduction to bioinformatics databasing using Perl and SQL; configuration of UNIX workstations for bioinformatics analyses.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 377 : Teaching Methods and Instruction in Biology. (3:ARR:ARR)
OFFERED: F
PREREQUISITE: Bio 276R; fingerprinting and FBI clearance; concurrent enrollment in Bio 378, 379, Sc Ed 380.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students in biological sciences; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

BIO 378 : Practicum in Biology Teaching. (1:0:3)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Bio 377, 379, Sc Ed 380.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in biology; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

BIO 379 : Classroom Management. (1:1:0)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Bio 377, 378, Sc Ed 380.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)
OFFERED: F
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

BIO 392R : Preveterinary Preceptorship. (1-2:0:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Supervised on-the-job exposure to veterinary medicine under a clinical setting, supplemented with academic assignments.

BIO 398R : Biology Teaching Seminar. (1-2:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Students in an academic team assist instructor in design and/or implementation of a class.

400-Level Courses

BIO 420 : Evolutionary Biology. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240, PSW 340.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240; Bio 420 or concurrent enrollment.
DESCRIPTION: Methodology and evidence used in evolutionary biology: comparative anatomy, DNA and protein techniques, radiometric and non-radiometric dating, fossil data, etc.

BIO 430 : Plant Classification. (3:2:3)
OFFERED: W, Sp
PREREQUISITE: Bio 220B or instructor's consent.
DESCRIPTION: General principles of taxonomy and classification, emphasizing family identification and use of keys to the temperate flora.

BIO 441 : Entomology. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)
OFFERED: F even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

BIO 443 : Ichthyology. (3:2:3)
OFFERED: F odd years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

BIO 445 : Herpetology. (4:3:2)
OFFERED: W even years.
PREREQUISITE: Bio 220A.
DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)
OFFERED: W
PREREQUISITE: Bio 220A.
DESCRIPTION: Avian systematics evolution, distribution, and natural history.
NOTE: Two three-day field trips required.

BIO 447 : Mammalogy. (3:2:3)
OFFERED: F
PREREQUISITE: Bio 220A.
DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

BIO 450 : Conservation Biology. (3:3:0)
OFFERED: F
PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

BIO 452 : Marine Ecology. (3:2:3)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Principles of marine ecology of planktonic, sublittoral, rocky shore, sandy shore, and mudflat communities. Extensive field trips.

BIO 453 : Development of Marine Animals. (3:0:6)
OFFERED: Sp
PREREQUISITE: Bio 352 and instructor's consent.
DESCRIPTION: Culturing, studying, and reporting on the development of eggs, embryos, and larvae of marine animals.

BIO 465 : Bioinformatics. (3:2:1)
OFFERED: W
PREREQUISITE: Bio 265
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)
OFFERED: F
PREREQUISITE: Biology core courses through Bio 420.
DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

BIO 485R : Case Studies in Animal Biology. (2:1:3)
OFFERED: Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Topics vary.

BIO 494R : Mentored Research. (1-6:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Supervisor's consent.
DESCRIPTION: Independent student research under faculty supervision.

: Aquatic Biology.
: Bioinformatics.
: Ecology.
: Electron Microscopy.
: Entomology.
: Evolution.
: Fungal Biology.
: Marine Biology.
: Medicinal Botany.
: Mega Carnivore Conservation.
: Plant Biochemistry.
: Plant Biology.
: Plant ID Team.
: Systematics.
: Veterinary Science.
: Wildlands.
: Wildlife and Wildlands Conservation.
: Wildlife.

500-Level Graduate Courses (available to advanced undergraduates)

BIO 503 : Research Orientation. (1:1:0)
OFFERED: F
DESCRIPTION: Introduction to graduate school and research techniques.

BIO 510 : Advanced Plant Taxonomy. (3:2:3)
OFFERED: F even years.
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Review of taxonomic literature and research methods. One three-day field trip required.

BIO 511 : Lichenology. (3:2:3)
OFFERED: On demand.
DESCRIPTION: Classification, morphology, and ecology on lichens. Field trip required.

BIO 512 : Anglosperm Phylogeny. (3:2:4)
OFFERED: F odd years
PREREQUISITE: Bio 430 or equivalent.
DESCRIPTION: Description, classification, phylogeny, and geographic distribution of flowering plant families.

BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)
OFFERED: W
PREREQUISITE: Bio 380 or instructor's consent.
DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

BIO 541 : Aquatic Entomology. (4:2:4)
OFFERED: F even years.
PREREQUISITE: Bio 441 or equivalent.
DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

BIO 550 : Physiological and Chemical Ecology. (3:3:0)
OFFERED: W odd years.
PREREQUISITE: Bio 350 or equivalent.
DESCRIPTION: Ecophysiological response of plants to their environment.

BIO 555 : Evolutionary and Ecological Modeling. (2:2:0)
OFFERED: W even years.
PREREQUISITE: Senior status in bioinformatics program or graduate status; Stat 511, 512, or equivalent; instructor's consent.
DESCRIPTION: Using models in ecology. Practical experience in analytical, simulation, and agent-based models.

BIO 556 : Limnology. (2:2:0)
OFFERED: F even years.
PREREQUISITE: Bio 350, Chem 106; or equivalents.
DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

BIO 557 : Stream and Wetland Ecology. (3:3:0)
OFFERED: F odd years.
PREREQUISITE: Bio 350, Chem 106; or equivalent.
DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

BIO 558 : Aquatic Ecology Laboratory. (1:0:3)
OFFERED: F even years.
PREREQUISITE: Bio 556 or 557 or concurrent registration.
DESCRIPTION: Field experience in aquatic ecology, including shoreline processes, fluvial mechanics, and quantitative and qualitative assessment of lotic and lentic systems. Overnight field trips required.

BIO 559R : Advanced Topics in Ecology and Evolution. (1-6:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Current topics in ecology, evolution, and systematics.

: Advanced Ecology.
: Advanced Systematics.
: Biogeography.
: Biological Science Education.
: Evolutionary Biology.
: Physiological Ecology.
: Tropical Biology.

BIO 560 : Population Genetics. (4:4:0)
OFFERED: W odd years.
PREREQUISITE: Bio 420 or equivalent.
DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

BIO 580 : Scanning Electron Microscopy. (3:2:4)
OFFERED: F, W
PREREQUISITE: Instructor's consent.
DESCRIPTION: Theoretical and practical scanning electron microscopy of biological, physical science, and engineering samples, emphasizing practical applications.

BIO 581 : Transmission Electron Microscopy. (3:2:4)
OFFERED: F
PREREQUISITE: Instructor's consent.

BIO 590R : Advanced Science In-Service. (1-5:ARR:ARR)
OFFERED: Su
DESCRIPTION: In-service course for science teachers. Topics vary.

: Botany Science In-Service.
: Ecology Science In-Service.
: Evolution Science In-Service.
: Genetics Science In-Service.
: Meterology Science In-Service.

Biology Faculty

Professors

Cates, Rex G

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Utah State University, 1965
MS, Utah State University, 1968
PhD, University of Washington, 1972

Crandall, Keith Alan

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BA, Kalamazoo College, 1987
AM, Washington University, 1993
PhD, Washington University, 1993

Gardner, John S

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BA, Oregon State University, 1968
MS, Brigham Young University, 1976
PhD, Brigham Young University, 1978

Heckmann, Richard A

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Utah State University, 1954
MS, Utah State University, 1958
PhD, Montana State University, 1970

Jeffery, Duane E

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Utah State University, 1962
MS, Utah State University, 1963
MA, University of California, Berkeley, 1966
PhD, University of California, Berkeley, 1972

Nelson, Charles Riley

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Utah State University, 1980
MS, Utah State University, 1984
PhD, Brigham Young University, 1986

Roeder, Beverly L

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BA, Wittenberg University, 1978
DVM, Ohio State University, 1982
MS, Kansas State University, 1986
PhD, Pennsylvania State University, 1990

Rogers, Duke S.

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Texas A&M University, 1976
MS, Texas A&M University, 1979
PhD, University of California, Berkeley, 1986

Shiozawa, Dennis Kenji

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BA, Weber State College, 1972
MS, Brigham Young University, 1974
PhD, University of Minnesota, St. Paul, 1978

Sites, Jr., Jack W.

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Austin Peay State University, 1973
MS, Austin Peay State University, 1975
PhD, Texas A & M University, 1980

St Clair, Larry Lee

COLLEGE: Life sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1974
MS, Brigham Young University, 1975
PhD, University of Colorado, 1984

Whiting, Michael F

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professor
DEGREES: BS, Brigham Young University, 1990
PhD, Cornell University, 1994

Associate Professors

Belk, Mark C

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Associate Professor
DEGREES: AS, Ricks College, 1983
BS, Brigham Young University, 1985
MS, Brigham Young University, 1987
PhD, University of Georgia, 1992

Braithwaite, Lee F

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1959
MS, Brigham Young University, 1962
PhD, Brigham Young University, 1973

Johnson, Leigh A

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1991
PhD, Washington State University, 1996

Rader, Russell Ben

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1977
MS, Brigham Young University, 1982
PhD, Colorado State University, 1987

Assistant Professors

Adair, Marta Jean

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1981
MS, Brigham Young University, 1990

Hanegan, Nikki

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Assistant Professor
DEGREES: BS, University of Houston, Central 1978
MS, University of Texas, Austin, 1999
PhD, University of Texas, Austin, 2001

Hatch, Kent Allen

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1990
MS, University of Wisconsin, Madison, 1995
PhD, University of Wisconsin, Madison, 1996

Johnson, Jerald B

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Assistant Professor
DEGREES: PhD, University of Vermont, 2000

Peck, Steven L

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1986
MS, University of North Carolina, Chapel Hill, 1988
PhD, North Carolina State University, 1997

Professional

Furniss, H Blaine

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Professional
DEGREES: BS, Brigham Young University, 1969
MS, Brigham Young University, 1975

Research Associate Professor

Wilcox, Edward R

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Research Associate Professor
DEGREES: PhD, University of California, Davis, 1982

Associate Lecturer

Perez-Losada, Marcos

COLLEGE: Life Sciences
DEPARTMENT: Biology
RANK: Associate Lecturer
DEGREES: PhD, University of Vigo, Spain, 1998

Business Management

Michael J. Swenson, Chair
660-A TNRB, (801) 422-3088

Accessibility of Business Management Courses

1. Bus M 200-level courses are open to all students.
2. Bus M 300, 313R, 340, 371R, 372, 380, 382, 384, 430, and 456 are open to all students. All other Bus M 300-level courses are closed except to students who have been formally accepted into the Marriott School, the School of Accountancy, or the Department of Information Systems or who have written approval from the undergraduate management director.
3. Non-Marriott School students may take 400-level courses for which they have proper prerequisites and the undergraduate management director's written permission.

Business Management (Bus M)

Show All Course Descriptions
Hide All Course Descriptions

Undergraduate Courses

100-Level Courses

BUS M 199R : Academic Internship. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Consent of both department associate director and cooperative education coordinator; declared Marriott School major.
DESCRIPTION: Supervised experience for nonbusiness students either in service or business-related work.

200-Level Courses

BUS M 200 : Personal Finance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Practical course in money management and utilizing savings.

BUS M 205R : Planning for Financial Security at Retirement. (1:1:0)
DESCRIPTION: Fundamentals of good financial management necessary for successful retirement.

300-Level Courses

BUS M 300 : Financial Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 301 : Financial Management. (3:3:1.5)
OFFERED: F, W, Sp, Su
PREREQUISITE: Premanagement and Management cores and full acceptance into the Marriott School upper-division major.
DESCRIPTION: Financial management from the viewpoint of the business manager emphasizing profitability, liquidity, and long-range financial planning.

BUS M 320 : Career Orientation and Preparation. (.5:1:0)
OFFERED: F, W, Sp
PREREQUISITE: Acceptance into Marriott School.
DESCRIPTION: Student orientation and preparation for careers in management.
NOTE: Must be taken first semester in Marriott School.

BUS M 321 : Mentor Program. (.5:0:0)
OFFERED: F, W, Sp
PREREQUISITE: Acceptance into Marriott School.
DESCRIPTION: Discussions with outside mentor about career opportunities.
NOTE: Must be taken first semester in Marriott School.

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

BUS M 341 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Premanagement and Management I cores and full acceptance into the Marriott School upper-division major.
DESCRIPTION: Market segmentation, product service, promotion, channel, pricing strategies. Marketing principles in consumer and industrial markets, profit and nonprofit organizations, domestic and international companies, and small and large firms.

BUS M 361 : Supply Chain, Services, and Operations Management. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Premanagement and Management 1 cores and full acceptance into the Marriott School upper-division major.
DESCRIPTION: Control and coordination of materials and services from point of origin to final point of consumption to meet customer needs efficiently.

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

BUS M 373R : Entrepreneur Field Studies. (.5-3:ARR:0)
OFFERED: F, W
PREREQUISITE: Completion of department core courses.

BUS M 380 : Executive Lectures. (1:1:0)
OFFERED: F
DESCRIPTION: Lectures by top executives on subjects significant to executive leadership.

BUS M 382 : Financial Services Lecture Series. (1:1:0)
OFFERED: W
DESCRIPTION: Lectures by executives on financial services topics.

BUS M 384 : E-Business Lecture Series. (1:1:0)
OFFERED: F, W
DESCRIPTION: Lectures by e-business leaders on subjects significant to e-business-type opportunities.

BUS M 389R : Current Topics in Leadership. (1:15:0)
DESCRIPTION: Lectures by leading experts (top executives, faculty, etc.) on current leadership topics dealing with business, organizations, communities, and families.

BUS M 390 : Ethics for Management. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Management Core.
DESCRIPTION: Analyzing ethical dilemmas and understanding ethical theories as they apply to decision making in management.

400-Level Courses

BUS M 401 : Advanced Financial Management. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Capital budgeting, cost of capital, capital structure/dividends, mergers and acquisitions, and current financial problems.

BUS M 402 : Managerial Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: Accounting junior core; major status.
DESCRIPTION: Overview of financial management issues including capital budgeting, cost of capital, capital structure/dividends, and long-term financial planning.

BUS M 405 : Management of Financial Institutions. (3:3:0)
PREREQUISITE: BusM 301; major status.
DESCRIPTION: Management problems of commercial banks and nonbank financial institutions, emphasizing balance sheet management, regulation, and the process of intermediation.

BUS M 406 : Insurance and Financial Services Academy. (3:3:0)
OFFERED: W

DESCRIPTION: Overview of the intelligence process including information collection, intelligence analysis, dissemination, ethics and establishing the process from a managerial perspective.

BUS M 450 : Global Business Negotiations. (3:3:0)
OFFERED: W
PREREQUISITE: Major status.
DESCRIPTION: Developing an effective negotiation framework for cross-national/cultural negotiation techniques relative to business and other life situations.

BUS M 454 : Professional Selling and Sales Management. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 341; major status.
DESCRIPTION: Concepts of professional selling and sales management including personal selling skills; strategic role of personal selling; organizing, directing, controlling, and evaluating the sales force.

BUS M 455 : Promotion Management. (3:3:0)
OFFERED: F
PREREQUISITE: Bus M 341; major status.

BUS M 456 : Retailing Management. (3:3:0)
OFFERED: F
PREREQUISITE: Bus M 341 (340 for nonmajors).
DESCRIPTION: Selection, location, and management of retail stores and systems, emphasizing profitability and integration of accounting, finance, and economic concepts and tools.

BUS M 457 : Internet Marketing of Products and Services. (3:3:0)
OFFERED: W
PREREQUISITE: Major status.
DESCRIPTION: Integrates product, research, sales, and promotional strategy and concepts into an overall marketing plan for developing an Internet business. Term project developing an Internet business required.

BUS M 458R : Seminar in Marketing Management. (3:3:0)
PREREQUISITE: BusM 340 or 341.
DESCRIPTION: Selected marketing issues, quantitative techniques and forecasting, advertising management, and industrial management.

BUS M 459 : Marketing Strategy. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Bus M 301, 341, 442; major status.
DESCRIPTION: Integration of finance, marketing, and case studies in economic concepts and techniques in marketing decision making and planning.

BUS M 461 : Operations Analysis and Problem Solving. (3:3:0)
PREREQUISITE: BusM 361; major status.
DESCRIPTION: Methods and tools necessary for analyzing and solving problems associated with operations, services, and supply chain management.

BUS M 462 : Services Management. (3:3:0)
OFFERED: W
PREREQUISITE: introductory operations management course or instructor's consent; major status.
DESCRIPTION: Management principles and characteristics of service industries and service aspects of supply chains: sources of strategic advantage; process analysis and tools; quality.

BUS M 463 : Quality Management. (3:3:0)
OFFERED: W
PREREQUISITE: Bus M 361; major status.
DESCRIPTION: Concepts of quality management, strategic issues, philosophies, and tools used to implement and control quality.

BUS M 464 : Integrated Product Development. (3:3:0)
PREREQUISITE: Major status.
DESCRIPTION: Strategies, processes, tools, and methods in product and process development, emphasizing initial stages of market and competitive assessment to concept development.

BUS M 465 : Global Supply Chain. (3:3:0)
OFFERED: F
DESCRIPTION: The emerging rules of a global marketplace and their influence on key supply chain activities and processes.

BUS M 466 : Purchasing and Supply Management. (3:3:0)
OFFERED: W
PREREQUISITE: Bus M 361.
DESCRIPTION: Focuses on upstream supply chain activities of supplier selection, management, and development. Negotiation, costing, product development, and commodity analysis.

BUS M 468 : Supply Chain Logistics. (3:3.0:0.0)
OFFERED: W
PREREQUISITE: Bus M 361; major status.
DESCRIPTION: Integration of materials management (inbound transportation), physical distribution (outbound transportation), inventory, warehousing, facility location, customer service, packaging, and materials handling.

BUS M 469 : Integrated Supply Chain Management. (3:3:0)
OFFERED: F
PREREQUISITE: Major status.
DESCRIPTION: Integrative and creative problem solving in designing and managing cohesive value-added conversion/transformation systems.

BUS M 472 : Entrepreneurial Marketing. (3:3:0)
OFFERED: F, W
DESCRIPTION: Marketing strategies for start-up companies. Topics include marketing to investors, internal marketing, and how to market products/services without a marketing budget.

BUS M 475 : Financing New Ventures. (3:3:0)
OFFERED: F, W
PREREQUISITE: Bus M 301, 341, 361, Org B 321; major status.
DESCRIPTION: Concepts and skills of entrepreneurship, emphasizing how new and emerging companies are financed. Applying functional tools to case situations.

BUS M 479 : (Bus M-Mfg) Creating and Managing New Ventures. (3:3:0)
OFFERED: F, W
PREREQUISITE: For management majors: Bus M 301, 341, 361; major status. For engineering and technology majors: management minor status; senior status.
DESCRIPTION: Key issues and problems facing managers in start-up companies. Team-taught by professors and entrepreneurs; particularly helpful for students starting businesses.

BUS M 480 : Strategy 1. (3:3:0)
OFFERED: W

BUS M 481 : Strategy 2. (3:3:0)
OFFERED: F
PREREQUISITE: Acc 200, Math 110, Econ 110, Stat 221.
DESCRIPTION: Advanced strategy topics such as growth and diversification strategy, pricing strategy, game theory and competitor analysis, strategy as real options, and strategic flexibility and commitment.

BUS M 482 : Strategy Implementation. (3:3:0)
OFFERED: W
PREREQUISITE: Acc 200, Math 110, Econ 110, Stat 221.
DESCRIPTION: Integrative course on strategy formulation and implementation, including a field study. Topics include organizational alignment (structure and processes that fit the stragety), change management, and strategic leadership.

BUS M 483R : Topics in Strategy. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Acceptance into the management program.
DESCRIPTION: Topics and instructors vary.

BUS M 488 : Agribusiness Management 1. (3:3:0)
OFFERED: F
PREREQUISITE: Acc 200, Econ 110; Bus M 300 or 340 or concurrent enrollment.
DESCRIPTION: Concepts, tools, and approaches to understanding competitive forces and the development of sustainable competitive advantage for firms in the food, fiber, and horticulture industries.

BUS M 489 : Agribusiness Management 2. (3:3:0)
OFFERED: W
PREREQUISITE: Acc 200 (or equivalent), Econ 110 (or equivalent), Bus M 340.
DESCRIPTION: Developing and implementing marketing plans and programs for companies participating in the value chain of agribusiness industries.

BUS M 490R : Topics in Business Management. (.5-3:Arr:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Current business-related topics varying by semester and section.

: Real Estate Investment Analysis.

BUS M 493 : Entrepreneurial Projects. (3:3:0)
OFFERED: W
PREREQUISITE: Major status; Bus M 479.
DESCRIPTION: Directed practical experience in launching a business. Combination of strong academic base along with hands-on business development.

BUS M 495R : E-Business Projects. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Consulting/Field studies projects in e-business.

BUS M 496R : Academic Internship. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Supervised experience for business majors either in service or business-related work. Opportunity to link learning with practical field applications.

: Investment Banking Internship.

BUS M 498 : Strategic Management. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Bus M 301; major status.
DESCRIPTION: Concepts, tools, and approaches to understand competitive forces and to systematically and consistently develop sustainable competitive advantages.

500-Level Graduate Courses (available to advanced undergraduates)

BUS M 538 : Managing Entrepreneurial Firms and Family Businesses. (3:3:0)
OFFERED: W
DESCRIPTION: Issues and problems facing managers of entrepreneurial enterprises and leaders of family-owned businesses. Includes start-up, growth, and exit strategies. Consulting project required.

BUS M 571 : Entrepreneurial Perspective. (3:3:0)
OFFERED: F
DESCRIPTION: Developing awareness of and ability to apply existing knowledge about entrepreneurship to make better decisons when starting, growing, and harvesting business ventures.

BUS M 596R : Business Language. (3:3:0)
OFFERED: F, W
DESCRIPTION: For experienced speakers of the language being taught. Emphasizes business concepts; practice and case study including conversation, reading,and presenting, while enriching business vocabulary.

: Business Arabic.
: Business Chinese.
: Business English.
: Business French.
: Business German.
: Business Italian.
: Business Japanese.
: Business Korean.
: Business Portuguese.

: Business Russian.
: Business Spanish.

Chemical Engineering

Richard L. Rowley, Chair
350 CB, (801) 422-2590

Ira A. Fulton College of Engineering and Technology Advisement Center
264 CB, (801) 422-4325

Admission to Degree Program

The chemical engineering degree program is open to all students.

The Discipline

Chemical engineering is the application of chemistry, biology, physics, mathematics, computer skills, and economics to designing, developing, and implementing chemical processes that convert raw materials into more useful, valuable products. Engineering skills are required for design, testing, scale-up, operation, control, and optimization. Applications range in size from the molecular level to large chemical production facilities with objectives ranging from economic performance to protection of the environment and the safety of workers and consumers. Chemical engineers are engaged in developing and producting a diverse range of products from raw materials to commodity and specialty chemicals. These products include high-performance materials needed for aerospace, automotive, biomedical, electronic, environmental, and military applications. Chemical engineers work in a variety of industries, including chemical manufacturing, energy, biotechnology, electronics, food, clothing, paper, health care, and business services.

Educational Objectives

The Chemical Engineering Department's educational objectives are to:

1. Prepare students who continue to exhibit and commit to lives of faith in Jesus Christ and service to family, church, and community.
2. Prepare students, through a broad university education, who continue to: develop and demonstrate reasoning skills and effective communication abilities, deepen their understanding of contemporary and global issues, pursue lifelong learning, and expand their involvement toward the improvement of society.
3. Prepare students to develop and implement solutions for a lifetime of open-ended, technical, and other problems by equipping them with a strong foundation in engineering, science, and mathematics and excellent training in chemical engineering theory and practice.
4. Prepare students who exemplify professional ethics, exhibit an appreciation for diversity, work with and contribute to the development of others, and engage in responsible engineering practice.

These objectives are intended to help develop the following attributes in students graduating from the program:

1. A knowledge of the requirements of the chemical engineering major, familiarity with professional opportunities, and a knowledge of contemporary issues.
2. An ability to apply knowledge of fundamental principles of mathematics and science.
3. An ability to apply knowledge of chemical engineering fundamentals.
4. Practical experience with chemical process equipment, chemical handling, chemical analysis, and process instrumentation, including the ability to design and conduct experiments, as well as to analyze and interpret data.
5. An ability to use modern engineering tools necessary for engineering practice.
6. An ability to define and solve engineering problems, including the utilization of creative and innovative skills.
7. An understanding of the impact of engineering solutions in a global, economic, environmental, and societal context. A dedication to safe, environmentally and societally responsible engineering.
8. An ability to communicate ideas effectively in both oral and written form.
9. An ability to work effectively with others from diverse backgrounds to accomplish common goals.
10. An ability to apply chemical engineering fundamentals to design process units and systems of process units including multiple operations, within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
11. An appreciation for and a commitment to ethical, professional, and personal responsibilities.
12. An appreciation for and a commitment to the continuing pursuit of excellence and the full realization of human potential in self and others.

Career Opportunities

The combination of knowledge about process engineering, math, and chemistry obtained in the chemical engineering curriculum is a versatile preparation that opens a wide variety of opportunities to graduates. This versatility is one reason why chemical engineers have traditionally been among the highest paid professionals in the engineering and science disciplines.

Chemical engineers make a significant difference in the quality of life. Some develop clean, new energy sources to power society. Some develop and produce fertilizers and other agricultural chemicals to feed mankind. Virtually all pharmaceuticals are produced by chemical engineers to enhance the life of millions. Others study and produce biomedical devices and artificial organs. Still others are involved in development and production of new materials for use in new high-tech products.

Chemical engineers produce chemicals ranging in use from cleaning products to medicines and from man-made fibers for clothing and textiles to plastics for construction and consumer goods. Another large employer of chemical engineers is the semiconductor industry. In work that involves significant knowledge of chemistry and related processes, chemical engineers assist in the design and manufacture of semiconductor chips and circuit boards. The petroleum industry also employs chemical engineers, requiring their expertise for the discovery, production, and refining of petro-chemicals, including fuels, chemicals, and oils.

Many chemical engineers are employed in environmentally related positions, working on ways to improve air and water quality, to reduce acid rain and smog, and to recycle and reduce waste. Additionally, chemical engineers are employed by universities as teachers and researchers and by government agencies to provide answers for energy, environmental, and defense concerns. Chemical engineers also train to work in the medical, business, and legal professions.

Though chemical engineering career opportunities are diverse, job functions can be categorized more easily. Chemical engineers are usually involved in research, design, development, production, technical sales, or management.

In research, they develop new ideas, new products, and new ways to produce existing products more economically and with less environmental impact.

In design, they create the processes that convert raw materials into finished products with emphasis on efficiency, safety, consumer needs, and environmental protection.

The development engineer improves existing processes and technology to better meet changing needs.

Production engineering involves supervision, quality control, and testing of production processes and operations.

Management and technical sales involve decision making with regard to consumer needs and technical capabilities.

Chemical engineers are creative problem solvers. Their careers are rewarding not only from an intellectual and financial view, but also from a personal perspective. Affecting the lives of millions, their solutions provide a better lifestyle for mankind.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BS in Chemical Engineering

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Chemical Engineering
PhD in Chemical Engineering

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

The Chemical Engineering Department offers a professional program leading to the bachelor of science degree. The first two years of this program are considered to be preprofessional with course work emphasis on math, chemistry, and chemical engineering fundamentals. The remaining two years are considered to constitute the professional program.

Any student who is admitted to the university may choose this program as a possible major. All students are urged to declare their

intention to major in the department upon first entry to the university or as soon thereafter as possible by contacting the college advisement center (264 CB). Students electing to major in this program must successfully complete the minimum preprofessional program requirements and submit an application for the department's professional program.

Transfer Students. Provisions have been made so that a qualified student transferring from a junior college or from another university, college, or department, who has completed the equivalent of the first two years of the academic program, can complete the BS degree requirements in another two years. Contact the department at the earliest date possible so that any variations can be accommodated with minimum loss of time.

Integrated Master's Program. At the end of the sophomore year or during the junior year, qualified students desiring a master's degree in chemical engineering may elect to enter the integrated master's program. The purpose of this program is to afford greater flexibility in scheduling course work than is normally available through the traditional BS degree followed by MS degree program. In this program students may work toward both the bachelor's and master's degrees simultaneously, either receiving the BS degree before or at the same time as the MS degree. At the end of the sophomore year students must have a cumulative GPA of 3.5 or more. All credit to be counted toward the master's degree must carry a cumulative GPA of 3.0 or better.

Before completing the final 30 hours of undergraduate course work, students should submit a formal application for admission to the Office of Graduate Studies. Additional details may be obtained from the college advisement center.

Professional Registration. The Chemical Engineering Department encourages graduates to become registered professional engineers. General qualifications for becoming registered are explained in the Ira A. Fulton College of Engineering and Technology section of this catalog. Some states require this status for consulting and practice in the private sector. Successful completion of the basic chemical engineering program outline prepares graduates to pass the Fundamentals of Engineering (FE) examination. Students who wish to become registered as professional engineers are also advised to talk to their advisor about developing their own professional engineering option, which may include additional FE preparation courses.

Professional Program Admission Policy. Admission to the professional program is available to all students in good academic standing with the university who have (a) passed the prerequisite courses for the first-semester professional courses, namely Ch En 273 and Math 302, and (b) submitted to the department an Application for the Chemical Engineering Professional Program.

The Application for the Chemical Engineering Professional Program requires the student to meet with their department advisor for direction and counseling with regard to performance in the preprofessional program courses and successful completion of the professional program.

Academic Standards and Continuance Policy. The student's academic standing with the university must be "Good" or "Previous" to enroll in professional program courses. Anyone who accumulates chemical engineering grades below C– in excess of 6 hours may not take further chemical engineering courses until he or she has reduced the unacceptable credits to 6 hours or less. A student may not graduate with more than 3 hours below C– in chemical engineering courses.

Program Requirements | View MAP

1. Students are strongly encouraged to consult with the department about their course scheduling.

2. Complete the following preprofessional courses:

CH EN 170 : Introduction to Chemical Engineering. (2:2:0)
OFFERED: F, W
PREREQUISITE: Chem 111 (or 105) or equivalent or concurrent enrollment.
DESCRIPTION: Principles of chemical processes and analyses with spreadsheets and graphics. Applying chemical engineering to current problems.

CH EN 263 : Computational Tools for Chemical Engineers. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: ChEn 170 or concurrent enrollment; Math 113.
DESCRIPTION: Use of spreadsheets, advanced equation-solving packages, and structured languages to solve engineering problems. Introduction to chemical process principles.
NOTE: College Lecture attendance required.

CH EN 273 : Chemical Process Principles. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: ChEn 170 or equivalent or concurrent enrollment; ChEn 263 or equivalent; Chem 106 or 112; concurrent enrollment in Phscs 121, Math 113.
DESCRIPTION: Material and energy balances.
NOTE: College Lecture attendance required.

CH EN 291 : Preprofessional Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Presentations by faculty, advisors, and industrial representatives.
NOTE: College Lecture attendance required.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

MATH 303 : Mathematics for Engineering 2. (4:4:0)

OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

And complete one of the following options:

Either

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

Or

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

3. Complete the following professional courses:

CH EN 311 : Chemical Engineering and Society. (3:3:0)
OFFERED: F
PREREQUISITE: ChEn 273; admission to professional program.
DESCRIPTION: Responsibility of chemical engineers when interacting with society relative to safety; environment, and ethics.

CH EN 373 : Chemical Engineering Thermodynamics. (3:3:0)
OFFERED: W
PREREQUISITE: ChEn 273, 311; Chem 461.
DESCRIPTION: First and second laws of thermodynamics as applied to behavior of real fluids; physical and chemical equilibrium.
NOTE: College Lecture attendance required.

CH EN 374 : Fluid Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Math 212, Ch En 273; concurrent enrollment in Ch En 311; admission to professional program.
DESCRIPTION: Basic mass, momentum, and energy relations of fluid flow; design of fluid-handling systems and equipment.
NOTE: College Lecture attendance required.

CH EN 376 : Heat and Mass Transfer. (3:3:0)
OFFERED: W
PREREQUISITE: ChEn 311, 374.
DESCRIPTION: Heat and mass transfer, including conduction, convection, radiation, diffusion; steady and unsteady state systems; transport analogies; design applications.

CH EN 378 : Science of Engineering Materials. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Chem 351 or instructor's consent.
DESCRIPTION: Fundamental principles of solid materials and their properties and behavior in engineering applications of metals, polymers, ceramics, and glasses.

CH EN 391 : Career Skills. (1:1:0)
OFFERED: F, W
PREREQUISITE: Admission to professional program.
DESCRIPTION: Professional, communication, and lifelong learning skills. Field trip to chemical process facility.

CH EN 436 : Process Control and Dynamics. (3:3:0)
OFFERED: F
PREREQUISITE: Math 303, ChEn 376, 478.
DESCRIPTION: Process systems, associated control systems, and instrumentation. Use of Laplace transforms and complex variables.

CH EN 451 : Chemical Engineering Plant Design and Process Synthesis. (4:4:0)
OFFERED: W
PREREQUISITE: ChEn 391, 436, 476, 478.
DESCRIPTION: Design of chemical engineering machinery; plants and/or processes requiring application of unit operations; chemical process principles; economic analysis. Synthesis and optimization of chemical processes.
NOTE: College Lecture attendance required.

CH EN 475 : Unit Operations Laboratory 1. (2:1:6)
OFFERED: F, Sp
PREREQUISITE: Ch En 374, 376, 391; Engl 316; Stat 332.
DESCRIPTION: Experimental verification of unit operations design principles; data collection and reduction; report preparation.

CH EN 476 : Separations. (3:3:0)
OFFERED: F
PREREQUISITE: ChEn 373, 376.
DESCRIPTION: Stage operations, distillation, extraction, and absorption; design applications.
NOTE: College Lecture attendance required.

CH EN 477 : Unit Operations Laboratory 2. (2:1:6)
OFFERED: W, Sp
PREREQUISITE: Ch En 476, 478.
RECOMMENDED: Ch En 391, 476, 478; Engl 316; Stat 332.
DESCRIPTION: Experimental verification of unit operations design principles; data collection and reduction; report preparation.

CH EN 478 : Chemical Reaction Engineering. (3:3:0)
OFFERED: W
PREREQUISITE: ChEn 311, Chem 461.
DESCRIPTION: Fundamental principles and equations of chemical kinetics and reactor design.

4. Complete the following supporting courses:
BIO 100 : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

5. Complete technical electives (12 hours minimum) satisfying the following requirements:
   a. Complete 2 hours of chemistry laboratory:

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 464 : Physical Chemistry Laboratory 1. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; 461 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: thermodynamics and equilibria, phase transitions, kinetic-molecular theory, kinetics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 465.

CHEM 465 : Physical Chemistry Laboratory 2. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; Chem 462 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 464.

   b. Complete 10 hours of advanced (300-level or above) engineering course work from any of the following departments: Chemical Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, Mechanical Engineering, or the School of Technology. No more than 3 hours of Ch En 498R may be applied to the program.

6. Pass a basic compentency exam (L3 Exam) administered by the Chemical Engineering Department (see the department for details.)

Undergraduate Courses

100-Level Courses

CH EN 170 : Introduction to Chemical Engineering. (2:2:0)
OFFERED: F, W
PREREQUISITE: Chem 111 (or 105) or equivalent or concurrent enrollment.
DESCRIPTION: Principles of chemical processes and analyses with spreadsheets and graphics. Applying chemical engineering to current problems.

CH EN 199R : Academic Internship. (.5-3:ARR:ARR)
PREREQUISITE: consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

CH EN 263 : Computational Tools for Chemical Engineers. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: ChEn 170 or concurrent enrollment; Math 113.
DESCRIPTION: Use of spreadsheets, advanced equation-solving packages, and structured languages to solve engineering problems. Introduction to chemical process principles.
NOTE: College Lecture attendance required.

CH EN 273 : Chemical Process Principles. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: ChEn 170 or equivalent or concurrent enrollment; ChEn 263 or equivalent; Chem 106 or 112; concurrent enrollment in Phscs 121, Math 113.
DESCRIPTION: Material and energy balances.
NOTE: College Lecture attendance required.

CH EN 291 : Preprofessional Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Presentations by faculty, advisors, and industrial representatives.
NOTE: College Lecture attendance required.

300-Level Courses

CH EN 310 : Energy and the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Ch En 273 or equivalent.
DESCRIPTION: Energy sources, demands, and processes; costs and environmental studies; case studies of various fossil fuel and alternate energy sources; introduction to combustion and flames.

CH EN 311 : Chemical Engineering and Society. (3:3:0)
OFFERED: F
PREREQUISITE: ChEn 273; admission to professional program.
DESCRIPTION: Responsibility of chemical engineers when interacting with society relative to safety; environment, and ethics.

CH EN 373 : Chemical Engineering Thermodynamics. (3:3:0)
OFFERED: W
PREREQUISITE: ChEn 273, 311; Chem 461.
DESCRIPTION: First and second laws of thermodynamics as applied to behavior of real fluids; physical and chemical equilibrium.
NOTE: College Lecture attendance required.

CH EN 374 : Fluid Mechanics. (3:3:0)
OFFERED: F
PREREQUISITE: Math 212, Ch En 273; concurrent enrollment in Ch En 311; admission to professional program.
DESCRIPTION: Basic mass, momentum, and energy relations of fluid flow; design of fluid-handling systems and equipment.
NOTE: College Lecture attendance required.

CH EN 376 : Heat and Mass Transfer. (3:3:0)
OFFERED: W
PREREQUISITE: ChEn 311, 374.
DESCRIPTION: Heat and mass transfer, including conduction, convection, radiation, diffusion; steady and unsteady state systems; transport analogies; design applications.

CH EN 378 : Science of Engineering Materials. (3:3:0)

OFFERED: F, Sp
PREREQUISITE: Chem 351 or instructor's consent.
DESCRIPTION: Fundamental principles of solid materials and their properties and behavior in engineering applications of metals, polymers, ceramics, and glasses.

CH EN 381 : Introduction to Semiconductor Processing. (3:2:1)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or equivalent; Math 303 or equivalent; Ch En 273 or instructor's consent.
DESCRIPTION: Unit operations related to silicon-based semiconductor processing, including substrate preparation, photolithography, doping, etching, and thin film formation. Lab included.

CH EN 391 : Career Skills. (1:1:0)
OFFERED: F, W
PREREQUISITE: Admission to professional program.
DESCRIPTION: Professional, communication, and lifelong learning skills. Field trip to chemical process facility.

400-Level Courses

CH EN 400 : Creative Skills in Chemical Engineering. (1:1:0)
OFFERED: F
DESCRIPTION: Applications in creativity and technical knowledge from prior course work to solution of relevant, open-ended problems.

CH EN 411 : Air Pollution Control. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Ch En 273 or instructor's consent.
DESCRIPTION: Causes and effects of air pollution; standards, criteria, and legislation; dispersion, meterorology, and atmospheric chemistry. Includes design project and use of impact statements.

CH EN 412 : Introductory Nuclear Engineering. (3:3:0)
OFFERED: On demand
PREREQUISITE: Math 303, Chem 106 or 112.
DESCRIPTION: Principles and application of nuclear reactor design.

CH EN 436 : Process Control and Dynamics. (3:3:0)
OFFERED: F
PREREQUISITE: Math 303, ChEn 376, 478.
DESCRIPTION: Process systems, associated control systems, and instrumentation. Use of Laplace transforms and complex variables.

CH EN 451 : Chemical Engineering Plant Design and Process Synthesis. (4:4:0)
OFFERED: W
PREREQUISITE: ChEn 391, 436, 476, 478.
DESCRIPTION: Design of chemical engineering machinery; plants and/or processes requiring application of unit operations; chemical process principles; economic analysis. Synthesis and optimization of chemical processes.
NOTE: College Lecture attendance required.

CH EN 475 : Unit Operations Laboratory 1. (2:1:6)
OFFERED: F, Sp
PREREQUISITE: Ch En 374, 376, 391; Engl 316; Stat 332.
DESCRIPTION: Experimental verification of unit operations design principles; data collection and reduction; report preparation.

CH EN 476 : Separations. (3:3:0)
OFFERED: F
PREREQUISITE: ChEn 373, 376.
DESCRIPTION: Stage operations, distillation, extraction, and absorption; design applications.
NOTE: College Lecture attendance required.

CH EN 477 : Unit Operations Laboratory 2. (2:1:6)
OFFERED: W, Sp
PREREQUISITE: Ch En 476, 478.
RECOMMENDED: Ch En 391, 476, 478; Engl 316; Stat 332.
DESCRIPTION: Experimental verification of unit operations design principles; data collection and reduction; report preparation.

CH EN 478 : Chemical Reaction Engineering. (3:3:0)
OFFERED: W
PREREQUISITE: ChEn 311, Chem 461.
DESCRIPTION: Fundamental principles and equations of chemical kinetics and reactor design.

CH EN 493R : Special Topics--Undergraduate. (.5-3:3:ARR)
PREREQUISITE: instructor's consent.
DESCRIPTION: Classroom study based on student and faculty interest.

CH EN 498R : Undergraduate Research. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: faculty committee approval.
DESCRIPTION: Final report required; 2 hours maximum allowed for degree credit.

500-Level Graduate Courses (available to advanced undergraduates)

CH EN 518 : Biomedical Engineering Principles. (3:3:0)
OFFERED: W
PREREQUISITE: Ch En 374, 376, 478; or equivalents.

CH EN 528 : Industrial Catalytic Processes. (2:2:0)
OFFERED: Sp alt. yr. on dem.
PREREQUISITE: Chem 106 or 111; 351; Ch En 378, 478; or equivalents.
DESCRIPTION: Fundamentals of catalytic chemistry and materials; applications to important industrial catalytic processes. Includes catalyst materials and preparation, catalyst characterization, fixed-bed reactor design, and catalyst deactivation.

CH EN 531 : Thermodynamics of Multicomponent Systems. (3:3:0)
OFFERED: F
PREREQUISITE: Ch En 373 or Chem 461 or equivalent.
DESCRIPTION: Fundamental concepts and applications in first and second laws, equilibrium and stability, phase equilibrium, and homogeneous and heterogeneous chemical equilibrium.

CH EN 533 : Transport Phenomena. (3:3:0)
OFFERED: F
PREREQUISITE: ChEn 476 or concurrent enrollment.
RECOMMENDED: Math 347.
DESCRIPTION: Transport mechanisms and coefficients and fundamental field equations for momentum, heat, and mass transport, with application to system design.

CH EN 535 : Kinetics and Catalysis. (3:3:0)
OFFERED: F
PREREQUISITE: Ch En 478 or equivalent.
DESCRIPTION: Theories and principles of chemical kinetics, including heterogeneous catalysis and reactor design.

CH EN 541 : Computer Design Methods. (3:3:0)
OFFERED: Alt. yr.
PREREQUISITE: Math 311, ChEn 376; or equivalents.
DESCRIPTION: Computer-aided design and numerical methods of chemical engineering processes.

CH EN 578 : Polymer Science and Engineering. (3:3:0)
OFFERED: W even years, Sp odd years
PREREQUISITE: Ch En 373, 374 378, 478; or equivalents.
DESCRIPTION: Foundation science and theory of polymer chemistry and physics and their implications in engineering applications. Topics include polymerization chemistry, structure-property relationships, polymer physics, and transport properties.

CH EN 593R : Special Topics - Intermediate. (1-3:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Special topics for advanced undergraduate students and for graduate students.

Admission to Degree Program

All degree programs in the Department of Chemistry and Biochemistry are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Chemistry is the study of matter, the changes undergone by matter, and the laws that govern the changes. Chemists study atoms as well as the structures and reactions of molecules. They also work to develop simplifying models (theories) that permit the correlation and explanation of observations about matter. Chemical principles are fundamental to the understanding of subjects ranging from the molecular basis of biology to the structure of rocks and minerals. Chemistry is an essential foundation in engineering disciplines, especially in chemical engineering, electronics, energy and environmental science, geology, pharmacy and medicine, and in virtually all manufacturing areas.

Chemistry is an active science that is vital to human existence. Energy needs, environmental concerns, and requirements for new materials all involve major contributions from chemists. Examples of the diverse areas of interest to chemists include regulation of protein synthesis, signal transduction at the cellular level and proteomics (biochemistry), design and synthesis of medicinal compounds (organic chemistry), design and synthesis of new molecular structures and materials (inorganic chemistry), spectroscopic study of energy transfer and molecular structures (physical chemistry), and analysis of medicinal compounds, biological materials, and contaminants or trace elements found in the environment (analytical chemistry).

Chemistry involves more than test tubes and beakers. It includes working with a variety of equipment and instruments such as mass spectrometers, calorimeters, chromatographs, ultracentrifuges, lasers, X-ray diffractometers, and nuclear magnetic resonance spectrometers.

Career Opportunities

Graduates in chemistry obtain positions in virtually every industry, and those who have imagination and intellectual curiosity are in particular demand. Chemistry is also an excellent preprofessional course of study for those interested in medicine, dentistry, law, and business. The chemistry curriculum is both rigorous and intellectually rewarding.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BA in Chemistry
BS in Biochemistry
BS in Chemistry
BS in Chemistry Education

Students should see the department office for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Chemistry
MS in Biochemistry
PhD in Chemistry
PhD in Biochemistry

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Required High School Preparation

1. It is recommended that a student complete the following courses in high school:
   - 3 units of English.
   - 2 units of physical science, chemistry, and physics.
   - 4 units of mathematics, consisting of 2.5 units of algebra, 1 unit of geometry, and 0.5 unit of trigonometry. This should qualify students to begin college mathematics with Math 112, analytic geometry and calculus.

   Because mathematics provides the foundation for all work in the physical and mathematical sciences, particular attention is paid to high school preparation in this subject.

   To decide which mathematics course should be taken first, contact the Mathematics Department, 292 TMCB, and request a mathematics placement test.
2. All students, especially freshmen and those transferring, should contact the department between March and August each year for advisement about efficient course scheduling and opportunities for student employment.

Scholarships

Kenneth W. Brighton, H. Tracy Hall, Ida Tanner Hamblin, and other scholarships are available to qualified chemistry majors.

Church of Jesus Christ of Latter-day Saints | BYU-Hawaii | BYU-Idaho | BYU Jerusalem Center | BYU Salt Lake Center | LDS Business College | Missionary Training Center

BA in Chemistry (57.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This degree provides an excellent preparation for those individuals in preprofessional programs (e.g., medicine, dentistry, master of business administration, or law), and it also provides career alternatives in chemistry.

Program Requirements | View MAP

1. No more than 3 hours of D credit is allowed in major courses.
2. The final 10 hours of required chemistry credit must be taken at BYU.
3. Complete the following:

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
OFFERED: F, W
PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 351M : Organic Chemistry - Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: For majors in chemistry and biochemistry.

CHEM 352M : Organic Chemistry--Majors. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351M or equivalent.
DESCRIPTION: Continuation of Chem 351M.

CHEM 354 : Organic Chemistry Laboratory--Majors. (2:0:6)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).

DESCRIPTION: Physical and chemical properties, manipulative skills, isolation and purification, characterization and identification, syntheses.

CHEM 391 : Technical Writing Using Chemical Literature. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227, 352.
DESCRIPTION: Intensive technical writing course based on chemical literature sources.
NOTE: Fulfills GE Advanced Writing requirement.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 464 : Physical Chemistry Laboratory 1. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; 461 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: thermodynamics and equilibria, phase transitions, kinetic-molecular theory, kinetics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 465.

CHEM 465 : Physical Chemistry Laboratory 2. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; Chem 462 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 464.

CHEM 495 : Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists. Completion of undergraduate portfolio.
NOTE: Required of all seniors in all chemistry and biochemistry degree programs the last semester in residence.

4. Complete one course from the following:
CHEM 201 : Chemical Handling and Safe Laboratory Practices. (.5:1:0)
OFFERED: F 1st block, W 1st block, Sp
PREREQUISITE: Chem 113 or 223 or concurrent enrollment.
DESCRIPTION: Safe handling of chemicals and safe practices in chemistry laboratories.

CHEM 501 : Safe Chemical Practices. (.5:.5:0)
OFFERED: W 2nd block
DESCRIPTION: University and department safety policies. Chemical hazards, fire safety, and biosafety, including laws.

5. Complete the following:
MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series;

parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

6. After consulting with an advisor, complete 4 hours from the following:
CHEM 455 : Synthesis and Qualitative Organic Analysis. (3:1:6)
OFFERED: F
PREREQUISITE: Chem 354; 201 or concurrent enrollment.
DESCRIPTION: Laboratory course emphasizing isolation, purification, and characterization of major and minor products from selected syntheses.
NOTE: For chemistry and other science majors.

CHEM 481M : Biochemistry 1--Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry and biochemistry majors only.

CHEM 496R : Academic Internship: Chemistry and Biochemistry. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Research experience in an industrial, academic, or government laboratory in collaboration with a BYU faculty colleague/supervisor.

CHEM 497R : Undergraduate Special Problems. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Undergraduate research experience.

CHEM 499R : Honors Thesis. (.5-6:ARR:ARR)
Honors Thesis.
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.
CHEM 514 : Inorganic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 462, 468; or equivalents.
DESCRIPTION: In-depth treatment of theoretical concepts in inorganic chemistry and solid state, organmetallic, and bioinorganic chemistry.

CHEM 518 : Advanced Inorganic Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 201 or concurrent enrollment; Chem 514.
DESCRIPTION: Synthesis, characterization, and properties of materials; coordination and organometallic compounds.

CHEM 521 : Instrumental Analysis Lecture. (2:2:0)

OFFERED: F
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Modern instrumental methods and basic principles of instrumentation.

CHEM 523 : Instrumental Analysis Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 521; Chem 201 or 501 or concurrent enrollment.
DESCRIPTION: Continuation of Chem 521. Laboratory experience with modern analytical instrumentation.

CHEM 552 : Advanced Organic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 351, 352; 461 or 468; 462; or equivalents.
DESCRIPTION: Physical aspects of organic chemistry; mechanisms, reaction intermediates, bonding, stereochemical and stereoelectronic effects, molecular orbital theory, Lewis acidity and basicity.

CHEM 553 : Advanced Organic Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351, 352; or equivalents.
DESCRIPTION: Synthetic aspects of organic chemistry; oxidations, reductions, concerted reactions, stereoselectivity, synthetic equivalents, protecting groups. Examples of natural product total synthesis.

CHEM 561 : Chemical Thermodynamics. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Development of the principles of chemical thermodynamics, including laws, pure materials, mixtures, equilibria, and elementary statistical mechanics.

CHEM 563 : Reaction Kinetics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Theoretical aspects of chemical kinetics in the gas phase and in solution. Rates and mechanisms in solution, rapid reactions, and other topics.

CHEM 565 : Introduction to Quantum Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 461, 462, 468; or equivalents.
DESCRIPTION: Introduction to physical and mathematical aspects of quantum theory, emphasizing application of the Schrodinger wave equation to chemical systems.

CHEM 567 : Statistical Mechanics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
RECOMMENDED: Chem 565.
DESCRIPTION: Introduction to classical and quantum statistical mechanics, including Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Applications of statistical thermodynamics to gases, liquids, and solids.

CHEM 569 : Fundamentals of Spectroscopy. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Atomic and molecular spectroscopy and application of group theoretical concepts. Types of experiments and interpretation of data.

CHEM 594R : General Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists.
NOTE: Required one semester in residence of all senior BS majors in chemistry and biochemistry.

CHEM 596R : Special Topics in Chemistry. (.5-3:ARR:0)
OFFERED: On demand.

: Atmospheric Chemistry.

Recommended Courses

PDBIO 120 : Science of Biology. (2:2:1)

OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

Note: Supporting courses suggested by most medical and dental schools are found by visiting the Preprofessional Advisement office. The more rigorous chemistry, mathematics, and physics courses required for the chemistry majors will satisfy the minimum requirements listed there. Elective courses in biochemistry and in biological science are especially pertinent to these preprofessional programs.

*Hours include courses that may fulfill university core requirements.

Students preparing for health-related fields (medicine, dentistry, veterinary medicine) or those who desire an advanced degree (MS, PhD) in biochemistry, biology, or the health sciences receive excellent preparation from this degree program.

Program Requirements | View MAP

1. No more than three hours of D credit is allowed in major courses.
2. The final 10 hours of required chemistry credit must be taken at BYU.
3. Complete the following:

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
OFFERED: F, W
PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

CHEM 201 : Chemical Handling and Safe Laboratory Practices. (.5:1:0)
OFFERED: F 1st block, W 1st block, Sp
PREREQUISITE: Chem 113 or 223 or concurrent enrollment.
DESCRIPTION: Safe handling of chemicals and safe practices in chemistry laboratories.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 351M : Organic Chemistry - Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: For majors in chemistry and biochemistry.

CHEM 352M : Organic Chemistry--Majors. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351M or equivalent.

DESCRIPTION: Continuation of Chem 351M.

CHEM 354 : Organic Chemistry Laboratory--Majors. (2:0:6)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, manipulative skills, isolation and purification, characterization and identification, syntheses.

CHEM 391 : Technical Writing Using Chemical Literature. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227, 352.
DESCRIPTION: Intensive technical writing course based on chemical literature sources.
NOTE: Fulfills GE Advanced Writing requirement.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 468 : Biophysical Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 462; 481 or concurrent enrollment.
DESCRIPTION: Applications of physical chemistry to biological systems. Thermodynamics, equilibria, transport properties, kinetics, spectroscopic applications, computational methods, structural biochemistry.

CHEM 481M : Biochemistry 1--Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry and biochemistry majors only.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 495 : Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists. Completion of undergraduate portfolio.
NOTE: Required of all seniors in all chemistry and biochemistry degree programs the last semester in residence.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

CHEM 594R : General Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists.
NOTE: Required one semester in residence of all senior BS majors in chemistry and biochemistry.

4. Complete the following:

BIO 100** : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

5. After consulting with an advisor, complete four hours from the following:

CHEM 455 : Synthesis and Qualitative Organic Analysis. (3:1:6)
OFFERED: F
PREREQUISITE: Chem 354; 201 or concurrent enrollment.
DESCRIPTION: Laboratory course emphasizing isolation, purification, and characterization of major and minor products from selected syntheses.
NOTE: For chemistry and other science majors.

CHEM 489 : Structural Biochemistry. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Molecular structures of proteins, RNA and DNA as determinants of biological function. Topics include thermodynamics of folding and binding, structural determination, spectroscopy, modeling, protein recognition.

CHEM 496R : Academic Internship: Chemistry and Biochemistry. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Research experience in an industrial, academic, or government laboratory in collaboration with a BYU faculty colleague/supervisor.

CHEM 497R : Undergraduate Special Problems. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Undergraduate research experience.

CHEM 499R : Honors Thesis. (.5-6:ARR:ARR)
Honors Thesis.
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.

CHEM 514 : Inorganic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 462, 468; or equivalents.
DESCRIPTION: In-depth treatment of theoretical concepts in inorganic chemistry and solid state, organmetallic, and bioinorganic chemistry.

CHEM 518 : Advanced Inorganic Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 201 or concurrent enrollment; Chem 514.
DESCRIPTION: Synthesis, characterization, and properties of materials; coordination and organometallic compounds.

CHEM 521 : Instrumental Analysis Lecture. (2:2:0)
OFFERED: F
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Modern instrumental methods and basic principles of instrumentation.

CHEM 523 : Instrumental Analysis Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 521; Chem 201 or 501 or concurrent enrollment.
DESCRIPTION: Continuation of Chem 521. Laboratory experience with modern analytical instrumentation.

CHEM 552 : Advanced Organic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 351, 352; 461 or 468; 462; or equivalents.
DESCRIPTION: Physical aspects of organic chemistry; mechanisms, reaction intermediates, bonding, stereochemical and stereoelectronic effects, molecular orbital theory, Lewis acidity and basicity.

CHEM 553 : Advanced Organic Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351, 352; or equivalents.
DESCRIPTION: Synthetic aspects of organic chemistry; oxidations, reductions, concerted reactions, stereoselectivity, synthetic equivalents, protecting groups. Examples of natural product total synthesis.

CHEM 561 : Chemical Thermodynamics. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Development of the principles of chemical thermodynamics, including laws, pure materials, mixtures, equilibria, and elementary statistical mechanics.

CHEM 563 : Reaction Kinetics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Theoretical aspects of chemical kinetics in the gas phase and in solution. Rates and mechanisms in solution, rapid reactions, and other topics.

CHEM 565 : Introduction to Quantum Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 461, 462, 468; or equivalents.
DESCRIPTION: Introduction to physical and mathematical aspects of quantum theory, emphasizing application of the Schrodinger wave equation to chemical systems.

CHEM 567 : Statistical Mechanics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
RECOMMENDED: Chem 565.
DESCRIPTION: Introduction to classical and quantum statistical mechanics, including Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Applications of statistical thermodynamics to gases, liquids, and solids.

CHEM 569 : Fundamentals of Spectroscopy. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Atomic and molecular spectroscopy and application of group theoretical concepts. Types of experiments and interpretation of data.

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 583 : Advanced Biochemical Methodology 2. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Molecular biological methods used in biochemistry, including immunotechniques, bioinformatics, and selected recombinant DNA techniques.
NOTE: Second of two required courses for biochemistry graduate students.

CHEM 596R : Special Topics in Chemistry. (.5-3:ARR:0)
OFFERED: On demand.

: Atmospheric Chemistry.

Note: With prior approval, many 400- and 500-level courses in biology, integrative biology, microbiology and molecular biology, and physiology and developmental biology will fill this requirement.

Recommended Courses

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

Note: Supporting courses suggested by most medical and dental schools are found by visiting the Preprofessional Advisement office. The more rigorous chemistry, mathematics, and physics courses required for the chemistry majors will satisfy the minimum requirements listed there. Elective courses in biochemistry and in biological science are especially pertinent to these preprofessional programs.

*Hours include courses that may fulfill university core requirements.

**See a department advisor for alternatives.

BS in Chemistry (75.0 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is the preferred degree for chemistry majors (approved by the American Chemical Society) and those who desire an advanced degree (MS, PhD) in chemistry. It also provides excellent preparation for those individuals in preprofessional programs (e.g., medicine, dentistry, business, law).

Program Requirements | View MAP

1. No more than three hours of D credit is allowed in major courses.
2. The final 10 hours of required chemistry credit must be taken at BYU.
3. Complete the following:

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
OFFERED: F, W
PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

CHEM 201 : Chemical Handling and Safe Laboratory Practices. (.5:1:0)
OFFERED: F 1st block, W 1st block, Sp
PREREQUISITE: Chem 113 or 223 or concurrent enrollment.
DESCRIPTION: Safe handling of chemicals and safe practices in chemistry laboratories.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 351M : Organic Chemistry - Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: For majors in chemistry and biochemistry.

CHEM 352M : Organic Chemistry--Majors. (3:3:0)
OFFERED: W

PREREQUISITE: Chem 351M or equivalent.
DESCRIPTION: Continuation of Chem 351M.

CHEM 354 : Organic Chemistry Laboratory--Majors. (2:0:6)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, manipulative skills, isolation and purification, characterization and identification, syntheses.

CHEM 391 : Technical Writing Using Chemical Literature. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227, 352.
DESCRIPTION: Intensive technical writing course based on chemical literature sources.
NOTE: Fulfills GE Advanced Writing requirement.

CHEM 455 : Synthesis and Qualitative Organic Analysis. (3:1:6)
OFFERED: F
PREREQUISITE: Chem 354; 201 or concurrent enrollment.
DESCRIPTION: Laboratory course emphasizing isolation, purification, and characterization of major and minor products from selected syntheses.
NOTE: For chemistry and other science majors.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 464 : Physical Chemistry Laboratory 1. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; 461 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: thermodynamics and equilibria, phase transitions, kinetic-molecular theory, kinetics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 465.

CHEM 465 : Physical Chemistry Laboratory 2. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; Chem 462 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 464.

CHEM 481M : Biochemistry 1--Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry and biochemistry majors only.

CHEM 495 : Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists. Completion of undergraduate portfolio.
NOTE: Required of all seniors in all chemistry and biochemistry degree programs the last semester in residence.

CHEM 514 : Inorganic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 462, 468; or equivalents.

DESCRIPTION: In-depth treatment of theoretical concepts in inorganic chemistry and solid state, organmetallic, and bioinorganic chemistry.

CHEM 518 : Advanced Inorganic Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 201 or concurrent enrollment; Chem 514.
DESCRIPTION: Synthesis, characterization, and properties of materials; coordination and organometallic compounds.

CHEM 521 : Instrumental Analysis Lecture. (2:2:0)
OFFERED: F
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Modern instrumental methods and basic principles of instrumentation.

CHEM 523 : Instrumental Analysis Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 521; Chem 201 or 501 or concurrent enrollment.
DESCRIPTION: Continuation of Chem 521. Laboratory experience with modern analytical instrumentation.

CHEM 594R : General Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists.
NOTE: Required one semester in residence of all senior BS majors in chemistry and biochemistry.

4. Complete the following:

BIO 100** : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

5. After consulting with an advisor, complete three hours from the following:

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: W, Sp

PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 496R : Academic Internship: Chemistry and Biochemistry. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Research experience in an industrial, academic, or government laboratory in collaboration with a BYU faculty colleague/supervisor.

CHEM 497R : Undergraduate Special Problems. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Undergraduate research experience.

CHEM 499R : Honors Thesis. (.5-6:ARR:ARR)
Honors Thesis.
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.

CHEM 552 : Advanced Organic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 351, 352; 461 or 468; 462; or equivalents.
DESCRIPTION: Physical aspects of organic chemistry; mechanisms, reaction intermediates, bonding, stereochemical and stereoelectronic effects, molecular orbital theory, Lewis acidity and basicity.

CHEM 553 : Advanced Organic Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351, 352; or equivalents.
DESCRIPTION: Synthetic aspects of organic chemistry; oxidations, reductions, concerted reactions, stereoselectivity, synthetic equivalents, protecting groups. Examples of natural product total synthesis.

CHEM 561 : Chemical Thermodynamics. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Development of the principles of chemical thermodynamics, including laws, pure materials, mixtures, equilibria, and elementary statistical mechanics.

CHEM 563 : Reaction Kinetics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Theoretical aspects of chemical kinetics in the gas phase and in solution. Rates and mechanisms in solution, rapid reactions, and other topics.

CHEM 565 : Introduction to Quantum Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 461, 462, 468; or equivalents.
DESCRIPTION: Introduction to physical and mathematical aspects of quantum theory, emphasizing application of the Schrodinger wave equation to chemical systems.

CHEM 567 : Statistical Mechanics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
RECOMMENDED: Chem 565.
DESCRIPTION: Introduction to classical and quantum statistical mechanics, including Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Applications of statistical thermodynamics to gases, liquids, and solids.

CHEM 569 : Fundamentals of Spectroscopy. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Atomic and molecular spectroscopy and application of group theoretical concepts. Types of experiments and interpretation of data.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W

PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

CHEM 596R : Special Topics in Chemistry. (.5-3:ARR:0)
OFFERED: On demand.

: Atmospheric Chemistry.

Note: With approval, certain other 300-level and above courses in the allied fields of physics, statistics, engineering, and biology may be taken to satisfy this requirement.

Recommended Courses

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

PHSCS 140 : Electronics Lab. (1:1:2)
OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

Note: Elective courses, beyond the requirements above, should be selected in consultation with an advisor. The following should be given consideration: advanced chemistry, foreign languages (especially French, German, Japanese, and Russian), biological sciences, computer science, engineering, mathematics, physics, statistics.

*Hours include courses that may fulfill university core requirements.

**See a department advisor for alternatives.

BS in Chemistry Education (80.5 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

This degree provides preparation for professional high school teaching. High school chemistry teachers will find opportunities available and will know the satisfaction of guiding good students into essential and rewarding careers. Students should work closely with both the Department of Chemistry and Biochemistry and the David O. McKay School of Education Advisement and Certification Office.

Program Requirements | View MAP

1. No more than three hours of D credit is allowed in major courses.
2. The final 10 hours of required chemistry credit must be taken at BYU.
3. Contact the Education Advisement and Certification Office for entrance requirements into the licensure program.
4. A teaching minor is not required for licensure. However, it is strongly recommended.
5. Complete the following:

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
OFFERED: F, W
PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

CHEM 201 : Chemical Handling and Safe Laboratory Practices. (.5:1:0)
OFFERED: F 1st block, W 1st block, Sp
PREREQUISITE: Chem 113 or 223 or concurrent enrollment.
DESCRIPTION: Safe handling of chemicals and safe practices in chemistry laboratories.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 351M : Organic Chemistry - Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes,

reactions and mechanisms, syntheses.
NOTE: For majors in chemistry and biochemistry.

CHEM 352M : Organic Chemistry--Majors. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351M or equivalent.
DESCRIPTION: Continuation of Chem 351M.

CHEM 391 : Technical Writing Using Chemical Literature. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227, 352.
DESCRIPTION: Intensive technical writing course based on chemical literature sources.
NOTE: Fulfills GE Advanced Writing requirement.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 495 : Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists. Completion of undergraduate portfolio.
NOTE: Required of all seniors in all chemistry and biochemistry degree programs the last semester in residence.

6. Complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

7. Complete three hours from the following:

CHEM 354 : Organic Chemistry Laboratory--Majors. (2:0:6)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, manipulative skills, isolation and purification, characterization and identification, syntheses.

CHEM 464 : Physical Chemistry Laboratory 1. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; 461 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: thermodynamics and equilibria, phase transitions, kinetic-molecular theory, kinetics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 465.

CHEM 465 : Physical Chemistry Laboratory 2. (1:1:0)

OFFERED: F, W
PREREQUISITE: Chem 227; Chem 462 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 464.

CHEM 497R : Undergraduate Special Problems. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Undergraduate research experience.

8. Complete 10 hours from the following:

BIO 100 : Principles of Biology. (3:3:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introductory course for general education students.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 481M : Biochemistry 1--Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry and biochemistry majors only.

GEOL 101 : Introduction to Geology. (3:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
NOTE: Honors also.

Or
GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

PHIL 423 : (Phil 423--Physcs 314) History and Philosophy of Science. (3:3:0)
OFFERED: F, W; Honors also.
PREREQUISITE: Phy S 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

PHSCS 140 : Electronics Lab. (1:1:2)

OFFERED: F, Sp
DESCRIPTION: Introduction to analog and digital circuits.

PHSCS 145 : Experimental Methods in Physics. (1:0:3)
OFFERED: W, Su
PREREQUISITE: Phscs 121, 140.
DESCRIPTION: Introduction to physical measurement and analysis, optics, sensors, actuators, and computer-based data acquisition.

PWS 150 : Environmental Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

9. Complete the Professional Education Component:
   a. Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

PHY S 276 : Exploration of Teaching. (4:4:0)
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

PHY S 377 : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phy S 276; fingerprint and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

PHY S 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Phy S 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

Note: Fingerprinting and FBI clearance must be completed before entry into Phy S 377.

   b. Complete 12 hours from one of the following:
SC ED 476R : Secondary Student-Teaching Internship - Physical Science. (12:ARR:ARR)

Secondary Student-Teaching Internship - Physical Science.
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.
SC ED 496R : Academic Internship: Physical Sciences. (12:ARR:ARR)
Academic Internship: Physical Sciences.
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

*Hours include courses that may fulfill university core requirements.

Minor in Chemistry (20 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete one of the following options:

Either

CHEM 111 : Principles of Chemistry. (3:3:1)
- OFFERED: F
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
- DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
- NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
- OFFERED: W
- PREREQUISITE: Chem 111 or equivalent.
- DESCRIPTION: Continuation of Chem 111.
- NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
- OFFERED: F, W
- PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
- DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

And complete one of the following:

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
- OFFERED: F, Sp
- PREREQUISITE: Chem 106 or equivalent.
- DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
- NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
- OFFERED: F, Sp
- PREREQUISITE: Chem 113.
- DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

Or

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

2. Complete one of the following options:

Either

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

And complete one of the following:

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

(for two hours)

CHEM 354 : Organic Chemistry Laboratory--Majors. (2:0:6)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, manipulative skills, isolation and purification, characterization and identification, syntheses.

Or

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 464 : Physical Chemistry Laboratory 1. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; 461 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: thermodynamics and equilibria, phase transitions, kinetic-molecular theory, kinetics; computer manipulation of data, report

preparation.
NOTE: May be taken before, after, or concurrent with Chem 465.

CHEM 465 : Physical Chemistry Laboratory 2. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; Chem 462 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 464.

Note: When all of the chemistry credit required for a minor is transferred from another school, at least one course in chemistry must be taken at BYU with a grade of C or better—or the student may request to take a standardized national exam covering advanced material required for the minor. Chemistry programs at some schools have been evaluated, and their credit is acceptable for the minor. No more than one course with a grade in the D range will be allowed.

*Hours include courses that may fulfill university core requirements.

Minor in Chemistry Education (15–18 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The chemistry education minor is intended for students who are pursuing secondary education licensure through the David O. McKay School of Education.

Program Requirements

1. Complete one of the following options:

Either

CHEM 111 : Principles of Chemistry. (3:3:1)
- OFFERED: F
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
- DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
- NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
- OFFERED: W
- PREREQUISITE: Chem 111 or equivalent.
- DESCRIPTION: Continuation of Chem 111.
- NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
- OFFERED: F, W
- PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
- DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

Or

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.
- DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
- NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Chem 106 or concurrent enrollment.
- DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
- NOTE: Required for most students needing one year of general chemistry.

2. Complete the following:

CHEM 201 : Chemical Handling and Safe Laboratory Practices. (.5:1:0)
OFFERED: F 1st block, W 1st block, Sp
PREREQUISITE: Chem 113 or 223 or concurrent enrollment.
DESCRIPTION: Safe handling of chemicals and safe practices in chemistry laboratories.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

3. Complete one course from the following:

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.
RECOMMENDED: Math 302.
DESCRIPTION: Thermodynamics and equilibria, states of matter, kinetic-molecular theory, kinetics.
NOTE: May be taken before or after Chem 462.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

Note: When all of the chemistry credit required for a minor is transferred from another school, at least one course in chemistry must be taken at BYU with a grade of C or better—or the student may request to take a standardized national exam covering advanced material required for the minor. Chemistry programs at some schools have been evaluated, and their credit is acceptable for the minor. No more than one course with a grade in the D range will be allowed.

Undergraduate Courses

100-Level Courses

CHEM 100 : Elementary College Chemistry. (3:3:0)
OFFERED: On demand.
RECOMMENDED: PhyS 100 or equivalent.
DESCRIPTION: Structure of matter and the chemical consequences of that structure.
NOTE: For nonscience and nonmedical majors.

CHEM 101 : Introductory General Chemistry. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.
NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

CHEM 103 : Introductory Chemistry Laboratory. (1:0:3)
OFFERED: W
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Introductory laboratory techniques required for simple classical experiments in chemistry.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

: Honors Principles of Chemistry.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)
OFFERED: F, W
PREREQUISITE: Chem 112 or concurrent enrollment (preferred).
DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

CHEM 152 : Introductory Organic Chemistry. (2:2:0)
OFFERED: F, W
PREREQUISITE: Chem 101 or adequate high school preparation in chemistry.
DESCRIPTION: Principles of structure and reactivity, properties and reactions of compound classes, syntheses.

The

200-Level Courses

CHEM 201 : Chemical Handling and Safe Laboratory Practices. (.5:1:0)
OFFERED: F 1st block, W 1st block, Sp
PREREQUISITE: Chem 113 or 223 or concurrent enrollment.
DESCRIPTION: Safe handling of chemicals and safe practices in chemistry laboratories.

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 227 : Introductory Analytical Chemistry. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 113.
DESCRIPTION: Principles of quantitative analysis, introductory instrumental methods, and computer applications to chemical analysis.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

300-Level Courses

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 351M : Organic Chemistry - Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: For majors in chemistry and biochemistry.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 352M : Organic Chemistry--Majors. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351M or equivalent.
DESCRIPTION: Continuation of Chem 351M.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 354 : Organic Chemistry Laboratory--Majors. (2:0:6)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, manipulative skills, isolation and purification, characterization and identification, syntheses.

CHEM 355 : Organic Chemistry Laboratory 2 - Nonmajors. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352, 353; or concurrent enrollments.
DESCRIPTION: Physical and chemical properties, isolation, purification, characterization, identification, and syntheses of organic compounds.

CHEM 391 : Technical Writing Using Chemical Literature. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227, 352.
DESCRIPTION: Intensive technical writing course based on chemical literature sources.
NOTE: Fulfills GE Advanced Writing requirement.

400-Level Courses

CHEM 455 : Synthesis and Qualitative Organic Analysis. (3:1:6)
OFFERED: F
PREREQUISITE: Chem 354; 201 or concurrent enrollment.
DESCRIPTION: Laboratory course emphasizing isolation, purification, and characterization of major and minor products from selected syntheses.
NOTE: For chemistry and other science majors.

CHEM 461 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263 or equivalent; Phscs 123 or concurrent enrollment.

CHEM 462 : Physical Chemistry. (3:3:0)
OFFERED: F, W
PREREQUISITE: Chem 227 or ChEn 263; Phscs 123 or concurrent enrollment.
DESCRIPTION: Quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics.
NOTE: May be taken before or after Chem 461.

CHEM 464 : Physical Chemistry Laboratory 1. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; 461 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: thermodynamics and equilibria, phase transitions, kinetic-molecular theory, kinetics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 465.

CHEM 465 : Physical Chemistry Laboratory 2. (1:1:0)
OFFERED: F, W
PREREQUISITE: Chem 227; Chem 462 or concurrent enrollment.
DESCRIPTION: Experiments related to physical chemistry: quantum mechanics, group theory, atomic and molecular structure, spectroscopy, computational methods, statistical mechanics; computer manipulation of data, report preparation.
NOTE: May be taken before, after, or concurrent with Chem 464.

CHEM 468 : Biophysical Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 462; 481 or concurrent enrollment.
DESCRIPTION: Applications of physical chemistry to biological systems. Thermodynamics, equilibria, transport properties, kinetics, spectroscopic applications, computational methods, structural biochemistry.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

CHEM 481M : Biochemistry 1--Majors. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry and biochemistry majors only.

CHEM 482 : Biochemistry 2. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Biol 360; Chem 481 or equivalent.
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

CHEM 489 : Structural Biochemistry. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 481 or equivalent.
DESCRIPTION: Molecular structures of proteins, RNA and DNA as determinants of biological function. Topics include thermodynamics of folding and binding, structural determination, spectroscopy, modeling, protein recognition.

CHEM 495 : Senior Seminar. (1:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists. Completion of undergraduate portfolio.
NOTE: Required of all seniors in all chemistry and biochemistry degree programs the last semester in residence.

CHEM 496R : Academic Internship: Chemistry and Biochemistry. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent; Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Research experience in an industrial, academic, or government laboratory in collaboration with a BYU faculty colleague/supervisor.

CHEM 497R : Undergraduate Special Problems. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.
DESCRIPTION: Undergraduate research experience.

CHEM 499R : Honors Thesis. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent and Chem 201 or concurrent enrollment or special safety training.

500-Level Graduate Courses (available to advanced undergraduates)

CHEM 501 : Safe Chemical Practices. (.5:.5:0)
OFFERED: W 2nd block
DESCRIPTION: University and department safety policies. Chemical hazards, fire safety, and biosafety, including laws.

CHEM 514 : Inorganic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 462, 468; or equivalents.

CHEM 518 : Advanced Inorganic Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 201 or concurrent enrollment; Chem 514.
DESCRIPTION: Synthesis, characterization, and properties of materials; coordination and organometallic compounds.

CHEM 521 : Instrumental Analysis Lecture. (2:2:0)
OFFERED: F
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Modern instrumental methods and basic principles of instrumentation.

CHEM 523 : Instrumental Analysis Laboratory. (2:0:6)
OFFERED: W
PREREQUISITE: Chem 521; Chem 201 or 501 or concurrent enrollment.
DESCRIPTION: Continuation of Chem 521. Laboratory experience with modern analytical instrumentation.

CHEM 552 : Advanced Organic Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 351, 352; 461 or 468; 462; or equivalents.
DESCRIPTION: Physical aspects of organic chemistry; mechanisms, reaction intermediates, bonding, stereochemical and stereoelectronic effects, molecular orbital theory, Lewis acidity and basicity.

CHEM 553 : Advanced Organic Chemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 351, 352; or equivalents.
DESCRIPTION: Synthetic aspects of organic chemistry; oxidations, reductions, concerted reactions, stereoselectivity, synthetic equivalents, protecting groups. Examples of natural product total synthesis.

CHEM 555 : Organic Spectroscopic Identification. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 352, 354; or equivalents.
DESCRIPTION: Theory and practice of spectrometric methods of identifying organic compounds, including infrared, ultraviolet nuclear magnetic resonance, and mass spectrometries.

CHEM 561 : Chemical Thermodynamics. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Development of the principles of chemical thermodynamics, including laws, pure materials, mixtures, equilibria, and elementary statistical mechanics.

CHEM 563 : Reaction Kinetics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
DESCRIPTION: Theoretical aspects of chemical kinetics in the gas phase and in solution. Rates and mechanisms in solution, rapid reactions, and other topics.

CHEM 565 : Introduction to Quantum Chemistry. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 461, 462, 468; or equivalents.
DESCRIPTION: Introduction to physical and mathematical aspects of quantum theory, emphasizing application of the Schrodinger wave equation to chemical systems.

CHEM 567 : Statistical Mechanics. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 461, 462; or equivalents.
RECOMMENDED: Chem 565.
DESCRIPTION: Introduction to classical and quantum statistical mechanics, including Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Applications of statistical thermodynamics to gases, liquids, and solids.

CHEM 569 : Fundamentals of Spectroscopy. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Chem 462 or equivalent.
DESCRIPTION: Atomic and molecular spectroscopy and application of group theoretical concepts. Types of experiments and interpretation of data.

CHEM 581 : Advanced Biochemical Methodology 1. (3:3:0)
OFFERED: F
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Physical methods used in biochemical research, including centrifugation, structural determinations, and use of radioactivity and spectroscopy.
NOTE: First of two required courses for biochemistry graduate students.

CHEM 583 : Advanced Biochemical Methodology 2. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Molecular biological methods used in biochemistry, including immunotechniques, bioinformatics, and selected recombinant DNA techniques.
NOTE: Second of two required courses for biochemistry graduate students.

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 481 or equivalent.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:2)
OFFERED: F, W
PREREQUISITE: Chem 482 or equivalent.
DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

CHEM 594R : General Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Research topics presented by faculty and visiting scientists.
NOTE: Required one semester in residence of all senior BS majors in chemistry and biochemistry.

CHEM 596R : Special Topics in Chemistry. (.5-3:ARR:0)
OFFERED: On demand.

: Atmospheric Chemistry.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Chemistry and Biochemistry Faculty

Professors

Andrus, Merritt Brooks

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1986
PhD, University of Utah, 1991

Boerio-Goates, Juliana

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BA, Seton Hill College, 1975
MS, University of Michigan, Ann Arbor, 1977
PhD, University of Michigan, Ann Arbor, 1979

Burton, Gregory F

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, University of Utah, 1975
MS, Brigham Young University, 1982
PhD, Medical College of Virginia, 1989

Dearden, David V

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1983
PhD, California Institute of Technology, 1989

Farnsworth, Paul B
< tr>

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1977
PhD, University of Wisconsin, Madison, 1981

Fleming, Steven A.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, University of Utah, 1978
PhD, University of Wisconsin, Madison, 1983

Goates, Steven R

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1976
MS, University of Michigan, Ann Arbor, 1977
PhD, University of Michigan, Ann Arbor, 1981

Graves, Steven William

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BA, Brigham Young University, 1969
PhM, Yale University, 1972
PhD, Yale University, 1978

Lamb, John D

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1971
PhD, Brigham Young University, 1978

Lee, Milton L

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BA, University of Utah, 1971
PhD, Indiana University, 1975

Savage, Paul Bennett

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1988
PhD, University of Wisconsin, Madison, 1993

Simmons, Daniel L.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1978
MS, Brigham Young University, 1980
PhD, University of Wisconsin, Madison, 1986

Willardson, Barry Matthew

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BA, Brigham Young University, 1984
PhD, Purdue University, 1990

Wood, Steven Glen

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1973
MS, Brigham Young University, 1975
PhD, Brigham Young University, 1983

Woodfield, Brian F

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Professor
DEGREES: BS, Brigham Young University, 1986
MS, Brigham Young University, 1988
PhD, University of California, Berkeley, 1995

Associate Professors

Harrison, Roger G

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Professor
DEGREES: BS, Utah State University, 1986
PhD, University of Utah, 1993

Linford, Matthew R

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1990
MS, Stanford University, 1996
PhD, Stanford University, 1996

Peterson, Matt Anders

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Professor
DEGREES: BS, Utah State University, 1987
BS, Utah State University, 1987
PhD, University of Arizona, 1992

Shirts, Randall Brent

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1973
AM, Harvard University, 1978
PhD, Harvard University, 1979

Woolley, Adam T

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1992
PhD, University of California, Berkeley, 1997

Assistant Professors

Asplund, Matthew Chas

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1992
PhD, University of California, Berkeley, 1998

Austin, Daniel E

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: PhD, California Institute of Technology, 2003

Belnap, David Michael

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: PhD, Purdue University, 1995

Buskirk, Allen Rowdon

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1999
PhD, Harvard University, 2004

Castle, Steven L.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1995
PhD, The Scripps Research Institute, 2000

Ham, Young Wan

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: MSc, Hanyang University, 1996
PhD, Purdue University, 2002

Hansen, Jaron C

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Utah State University, 1997
PhD, Purdue University, 2002

Herron, Steven R.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1992
MS, University of California, Riverside, 1995
PhD, University of California, Irvine, 2001

Patterson, James E

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1996
MS, Brigham Young University, 1998
PhD, University of Illinois, Urbana-Champaign, 2004

Sevy, Eric T

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1994
MA, Columbia University, 1995
PhM, Columbia University, 1998
PhD, Columbia University, 1999

Vollmer-Snarr, Heidi Rebecca

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: PhD, University of Oxford, 2001

Watt, Richard K.

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Professor
DEGREES: PhD, University of Wisconsin, Madison, 1998

Associate Teaching Professors

Brown, Philip Ross

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Teaching Professor
DEGREES: BS, Brigham Young University, 1982
PhD, Brigham Young University, 1986

Hinshaw, Barbara C

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Associate Teaching Professor
DEGREES: BA, Westminister College, 1966
MS, University of Utah, 1969

Assistant Teaching Professors

Macedone, Jeffrey

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Chemistry and Biochemistry
RANK: Assistant Teaching Professor
DEGREES: BS, Brigham Young University, 1999
PhD, Brigham Young University, 2004

Nielson, Jennifer Burrows

COLLEGE: Physical and Mathematical Sciences

DEPARTMENT: Chemistry and Biochemistry

RANK: Assistant Teaching Professor

DEGREES: PhD, University of California, San Diego, 1997

Admission to Degree Program

The degree program in the Department of Civil and Environmental Engineering is open enrollment.

The Discipline

The BYU Department of Civil and Environmental Engineering prepares students for professional involvement in structural, water resources, environmental, geotechnical (soils), and transportation engineering.

Structural engineers analyze and design buildings, bridges, and other structures. The engineer applies principles of physics, mathematics, and engineering to develop efficient yet safe designs. Sophisticated computer models are used in these analyses. Materials used by structural engineers include steel, aluminum, concrete, masonry, wood, and composites.

Water resource and environmental engineers design pipeline systems, water treatment plants, dams, flood control structures, waste disposal sites, and environmental restoration projects. Computer modeling and analyses are used in design and to forecast storm runoff, flooding, and movement of contaminants in surface and subsurface waters. Environmental engineers evaluate and reduce pollutants from natural, human, agricultural, and industrial sources to preserve the beauty and quality of air, land, and water.

Geotechnical engineers design structures composed of or located within earth materials, including foundations for buildings and bridges, retaining walls, earth dams, highway embankments, tunnels, and liners for landfills. Field and laboratory tests on soil and rock, along with empirical and computer models, are used to assure safety and economy in design.

Traffic and transportation engineers apply scientific principles to the planning, design, construction, operation, and management of transportation systems, including highways, airports, and mass transit facilities. Transportation engineers are responsible for the safe, rapid, comfortable, convenient, economical, and environmentally compatible movement of people and goods. Computer models and simulations are frequently used by traffic engineers for geometric design and for planning, operating, and managing transportation networks, including intermodal systems.

Department Mission Statement

The mission of the Department of Civil and Environmental Engineering is to produce graduates who possess technical competence in their chosen specialty area of civil engineering, integrity, and a commitment to the principles of the gospel of Jesus Christ, that will prepare them to serve and contribute as innovators, professional engineers, and leaders in the global community.

Program Educational Objectives

The undergraduate program in civil engineering has the following educational objectives:

1. Develop innovative engineers who competently apply recognized technical methods to meet human needs for water, shelter, and transportation.
2. Develop leaders with global awareness who hold paramount the safety, health, and welfare of the public while sustaining and protecting the environment.
3. Develop citizens with moral character and commitment to the gospel of Jesus Christ who provide life-long service to the public, church, and professional community.

Expected Learning Outcomes

These objectives are intended to develop the following outcomes in students graduating from the civil engineering program:

1. Understand fundamental principles of mathematics and science.
2. Understand fundamental engineering science.
3. Understand geotechnical engineering.
4. Understand structural engineering.
5. Understand trasportation engineering.
6. Understand water resources and environmental engineering.
7. Be able to design civil engineering systems and solve constrained problems with innovation.
8. Be able to use modern engineering tools, conduct experiments, and analyze uncertain data.
9. Be able to communicate ideas effectively, work in teams, and lead others.
10. Be familiar with professional practice, business management, and public administration.
11. Be aware of cultural, societal, contemporary, historical, global, and sustainability issues.
12. Be committed to life-long learning and service as licensed engineers of integrity and faith.

Career Opportunities

Civil engineers are employed in industry, private consulting, and government. Industries employing many civil and environmental engineers include construction, transportation, aerospace, petroleum, and mining. Many civil engineers enter private consulting practices, and many eventually establish their own firms. The yellow-page directories for major cities generally list many civil, structural, environmental, geotechnical, and transportation engineering firms.

Civil engineers are also employed by national, state, and local governments. Most cities and counties have engineering departments staffed largely by civil engineers. Departments of transportation, environmental protection agencies, the Army Corps of Engineers, and the Bureau of Reclamation hire many civil engineers.

Civil engineering may be used as a preprofessional program for careers in architecture, law, and business.

Because civil engineeers design structures that affect public health and safety, licensure as a Professional Engineer is required for most positions. A necessary prerequisite for licensure is graduation from an accredited engineering program. The civil engineering program is fully accredited by the Accreditation Board for Engineering and Technology (ABET).

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BS in Civil Engineering

Students should see the department for help or information concerning the undergraduate program.

Graduate Programs and Degrees

MS in Civil Engineering
PhD in Civil Engineering

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Students are strongly encouraged to consult with the department regarding their course scheduling.

Qualified students from junior colleges with adequate preengineering programs can normally complete the BS degree in two additional years. Students who transfer into the department from other universities or from other departments at BYU will be placed in the civil engineering program according to an evaluation of completed work. Prospective transfer students should contact the department as soon as possible so that any variations can be accommodated with a minimum loss of time.

A maximum of 9 credit hours with D grades are allowed in the Department of Civil and Environmental Engineering classes. Clearance for graduation will be denied until D credits are reduced to 9 hours or less.

Integrated Master's Program

Although abundant professional employment is available with a bachelor's degree, professional opportunities are markedly improved

by completing a master's degree.

During the junior year of the civil engineering curriculum, those who desire to obtain a master's degree in civil engineering (MS) may enter the integrated master's program. In this program students may work toward both the bachelor's and master's degrees concurrently.

Applicants to the integrated program must have a cumulative GPA of 2.5 or higher. All credit to be counted toward the master's degree must carry a cumulative GPA of 3.0 or better. When students are within 30 credit hours of completing the graduate degree, they must also apply for and be admitted to graduate school.

Professional Engineer Registration

The Department of Civil and Environmental Engineering encourages graduates to become registered Professional Engineers. General qualifications for becoming registered are explained in the Ira A. Fulton College of Engineering and Technology section of this catalog. This status is vital to engineering practice in the public sector and to much consulting work. The civil engineering program prepares graduates to successfully complete the Fundamentals of Engineering (FE) examination, an important step in becoming registered. Students who wish to strengthen their preparation for the FE exam should select the required engineering courses with this need in mind.

Awards

The department has the following privately endowed awards: the Russell J Berrett Scholarship, the Joseph Layne Black Scholarship, the W Don and Kaye Budge ASCE Scholarship, the Caleb Tanner Water Resources Scholarship, The Jerry Christiansen Scholarship, the Nancy and Doug Ferrell Scholarship, the D Allan Firmage Scholarship, the Dean K Fuhriman Scholarship, the King and Dianne Husein Professorship, the Ramesh Khona Scholarship, the Marvin E Larson Scholarship, the Billy and Marian Nichols Scholarship, the H Burke Peterson Scholarship, the Ralph and Betty Rollins Scholarship, the John and Bobbie Tanner Scholarship, the Lee and Connie Wimmer Scholarship, and the T Leslie Youd Family Fellowship. In addition, the department has the following private annual awards: the ES^2 Scholarship, the Keller and Associates Scholarship, the Wayne Y Lee Scholarship, the Washington Group International Scholarship, and the Wright Engineers Scholarship.

BS in Civil Engineering (92–93 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following courses:

CE EN 100A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 100B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 103 : Engineering Mechanics--Statics. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119 or concurrent enrollment (if 119, then Math 111 must have already been taken).
DESCRIPTION: Concepts of mechanics: force systems in equilibrium, resultants, friction, centroids, utilization of vector algebra.

CE EN 112 : Engineering Drafting with CAD Applications. (3:3:0)
OFFERED: F, W
DESCRIPTION: Structural and component drafting, emphasizing computer-automated (CAD) systems. Concepts include applied and descriptive geometry, multiview representation, sectional views, dimensional practices, and axonometric sketching.

CE EN 113 : Engineering Measurements. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: Math 111, CEEn 112.
DESCRIPTION: Measurement of horizontal and vertical distances and angles to locate engineering projects including profiles, plane and topographical mapping, site layout, and earthwork.

CE EN 200A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 100A, B.
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 200B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 100A, B.
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 203 : Engineering Mechanics--Mechanics of Materials. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103.
DESCRIPTION: Fundamental concepts of elastic stress and strain relations; cylinders and spheres; torsion; beam theory, including bending stresses; deflections; and two-dimensional elastic theory.
NOTE: Independent Study also.

CE EN 204 : Engineering Mechanic--Dynamics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103 or Phscs 121.
DESCRIPTION: Concepts of dynamics applied to particles, systems of particles, rigid bodies, vibration systems, and nonrigid particles systems.
NOTE: Independent Study also.

CE EN 270 : Computational Methods. (3:1:2)
OFFERED: F, W
PREREQUISITE: Math 113 or concurrent enrollment.
DESCRIPTION: Numerical methods and computational techniques for solving civil engineering problems.

CE EN 300A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 200A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 300B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 200A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 305A : Civil Engineering Materials: Metals, Woods, and Composites. (1.5:2:3)
OFFERED: F 1st block, W 1st block.
PREREQUISITE: CE En 203, 270, Stat 221.
DESCRIPTION: Molecular basis and mechanical behavior of civil engineering structural materials; failure mechanisms; laboratory testing.

CE EN 305B : Civil Engineering Materials: Concrete, Masonry, and Asphalt. (1.5:2:3)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: CE En 203, 270, Stat 221.
DESCRIPTION: Basic constituents and mechanical behavior of civil engineering aggregate-based materials; failure mechanisms; laboratory testing.

CE EN 321 : Structural Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: CEEn 203, 270.
DESCRIPTION: Deflection analysis by the method of virtual work. Analysis of statically indeterminate structures by the flexibility method, the stiffness method, and moment distribution. Computer analysis of structures.

CE EN 332 : Hydraulics and Fluid Flow Theory. (3:2:3)
OFFERED: F, W, Su even yr.; F, Sp odd yr.
PREREQUISITE: CEEn 204, 270, or concurrent enrollment.
DESCRIPTION: Fluid properties, fluid statics and dynamics, viscous flow, boundary layers, concepts of pipe and open-channel flow.

CE EN 341 : Elementary Soil Mechanics. (3:2:3)
OFFERED: F, W
PREREQUISITE: CE En 203 or instructor's consent; CE En 270; CE En 332, Geol 330, or concurrent enrollment.
DESCRIPTION: Determination of stresses in soils, soil strength, consolidation, and settlement. Applications in fluid flow, lateral earth pressure, bearing pressure, and slope stability.

CE EN 351 : Environmental Engineering. (3:3:0)
OFFERED: W, Su even years; F, Sp odd years.
PREREQUISITE: Chem 105, Stat 221.
DESCRIPTION: Environmental concerns, problems, and evaluation methodology; pollution control and engineering management approaches.

CE EN 361 : Introduction to Transportation Engineering. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: CE En 112, 113, 270, Stat 221.
DESCRIPTION: Transportation system characteristics, traffic engineering, traffic operations, transportation planning, highway geometric design, pavement design, highway safety, public transport.

CE EN 400A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 300A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 400B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 300A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 424 : Reinforced Concrete Design. (3:3:0)
OFFERED: F, W
PREREQUISITE: CE En 305, 321.
DESCRIPTION: Theory and design of reinforced concrete, including columns, beams, slabs, and footings; elastic and ultimate-strength methods of analysis.

CE EN 470 : Civil Engineering Practice and Design. (3:2:3)
OFFERED: F, W
PREREQUISITE: CE En senior standing.
DESCRIPTION: Engineering economic analysis, professional practice issues, and experience in completion of a civil engineering design project by applying appropriate engineering standards and multiple realistic constraints.

Note: Students must be enrolled in a seminar course each semester, from the time the major is declared until graduation. Begin with CE En 100A,B and continue in order with 200A,B, 300A,B, 400A,B.

2. Complete one course from the following:
CE EN 431 : Hydrology. (3:2:3)
OFFERED: W; Sp even yr.; Su odd yr.
PREREQUISITE: CEEn 332, 351.
DESCRIPTION: Waters of the earth, their occurrence, circulation, and distribution. Relationships among precipitation, evaporation, infiltration, transpiration, groundwater, and stream runoff.

CE EN 433 : Hydraulic Engineering. (3:3:0)
OFFERED: F, Sp odd yr.; Su even yr.
PREREQUISITE: CEEn 332, 351.
DESCRIPTION: Application of fluid mechanics principles to analysis and design of hydraulic structures and systems.

3. Complete one of the following options:
Either
MATH 302 : Mathematics for Engineering 1. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 113 and passing grade on required preparatory exam taken during first week of class. (Practice exams available on class Website).
DESCRIPTION: Multivariable calculus, linear algebra, and numerical methods.

MATH 303 : Mathematics for Engineering 2. (4:4:0)
OFFERED: F, W
PREREQUISITE: Math 302; or Math 214 and 343.
DESCRIPTION: ODEs, Laplace transforms, Fourier series, PDEs, numerical methods.

Or
MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.

DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

4. Complete one course from the following:

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.
- DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
- NOTE: Three lectures and one recitation section per week.

CHEM 351 : Organic Chemistry. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Chem 105, 111; or equivalents.
- DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
- NOTE: Primarily for majors in chemical engineering and the biological sciences.

MATH 410 : Introduction to Numerical Methods. (3:3:0)
- OFFERED: F
- PREREQUISITE: Math 214, 343.
- DESCRIPTION: Root finding, interpolation, curve fitting, numerical differentiation and integration, multiple integrals, direct solvers for linear systems, least squares, rational approximations, Fourier and other orthogonal methods.

MMBIO 221 : General Microbiology. (3:3:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Any chemistry course and any biology course.
- DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
- NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

PHSCS 220 : Principles of Physics 3. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
- DESCRIPTION: Electricity and magnetism. Weekly lab.

PHSCS 222 : Modern Physics. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Phscs 121, 123, 220.
- DESCRIPTION: Quantum physics, atoms, molecules, condensed matter, nuclei, elementary particles, and selected topics in contemporary physics.

5. Complete the following supporting courses:

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

ENGL 316 : Technical Communication. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: Engl 150 or equivalent; junior or senior status.
- DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
- NOTE: Carries GE Advanced Written and Oral Communication credit.

GEOL 330 : Geology for Engineers. (3:2:2)
- OFFERED: F, W, Sp
- DESCRIPTION: Geological processes and materials bearing on engineering practices. Field trips.

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

PHSCS 123 : Principles of Physics 2. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

6. Complete 9 hours of technical electives from the following:

CE EN 414 : Engineering Applications of GIS. (3:3:0)
OFFERED: W
PREREQUISITE: Senior status.
DESCRIPTION: Introduction to GIS concepts. Data acquisition and database formulation including use of GPS. GIS uses in civil engineering.

CE EN 421 : Structural Steel Design. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 305, 321; or equivalents.
DESCRIPTION: Compression and tension of steel members, beams, and beam-columns. Elastic and inelastic lateral-torsional buckling. Structural fasteners. Emphasizes LFRD.

CE EN 429 : Timber Design. (3:3:0)
PREREQUISITE: CE En 305, 321.
DESCRIPTION: Timber species, composition, and grades; design of beams, straight and tapered glue-lam girders, columns, connections, trusses, shear walls, and structural systems.

CE EN 431 : Hydrology. (3:2:3)
OFFERED: W; Sp even yr.; Su odd yr.
PREREQUISITE: CEEn 332, 351.
DESCRIPTION: Waters of the earth, their occurrence, circulation, and distribution. Relationships among precipitation, evaporation, infiltration, transpiration, groundwater, and stream runoff.

CE EN 433 : Hydraulic Engineering. (3:3:0)
OFFERED: F; Sp odd yr.; Su even yr.
PREREQUISITE: CEEn 332, 351.
DESCRIPTION: Application of fluid mechanics principles to analysis and design of hydraulic structures and systems.

CE EN 461 : Geometric Design of Highways. (3:3:0)
OFFERED: Sp
PREREQUISITE: CE En 361.
DESCRIPTION: Designing visual aspects of highways: highway classification, design controls and criteria, design elements, vertical and horizontal alignment, cross section, intersections, interchanges, capacity analysis.

CE EN 500 : (CE En-Me En) Design and Materials Applications. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 372 or CE En 321 or equivalent.
DESCRIPTION: Applied and residual stress; materials selection; static, impact, and fatigue strength; fatigue damage; surface treatments; elastic deflection and stability--all as applied to mechanical design.

CE EN 501 : (CEEn-MeEn) Stress Analysis and Design of Mechanical Structures. (3:3:0)
OFFERED: Sp
PREREQUISITE: CE En 321 or Me En 372 or equivalent.

DESCRIPTION: Stress analysis and deflection of structures; general bending and torsion with computer applications to mechanical and aerospace structure design.

CE EN 503 : (CE En-Me En) Plasticity and Fracture. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 203; Me En 250; Math 303; senior standing or instructor's consent.
DESCRIPTION: Tensor algebra; stress and deformation tensors; relationships between dislocation slip, yielding, plastic constitutive behavior, and microstructure development; cracks and linear elastic fracture mechanics.

CE EN 504 : (CE En-Me En) Computer Structural Analysis and Optimization. (3:3:0)
OFFERED: F
PREREQUISITE: Linear algebra; CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Matrix analysis of rods, shafts, beams, trusses, frames, and grids using the generalized stiffness method. Optimization methods for these structures. Organizing computer programs for structural analysis and structural optimization.

CE EN 505 : Portland Cement Concrete Mixture Design and Analysis. (3:2:3)
PREREQUISITE: CE En 305 or equivalent.
DESCRIPTION: Properties and testing of freshly mixed and hardened concrete and constituent materials; concrete mixture design and analysis; concrete construction practices; laboratory experimentation.

CE EN 506 : (CE En-Me En) Continuum Mechanics and Finite Elements. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Equilibrium, constitutive, and compatibility equations; closed-form solutions from elasticity; finite element theory, programming, and usage; membrane, axisymmetric, and solid elements. Application to heat transfer, fluid mechanics, and seepage.

CE EN 508 : (CE En-Me En) Structural Vibrations. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Dynamic analysis of single degree-of-freedom, discrete multi-degree-of-freedom, and continuous systems. Applications include aerospace, civil structures, and mechanical components.

CE EN 523 : (CE En-Me En) Aircraft Structures. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 305, 321; or Me En 250, 372; or equivalents.
DESCRIPTION: Requirements, objectives, loads, materials, and tools for design of airframe structures; static behavior of thin-wall structures; durability and damage tolerance; certification and testing. Airframe component team design project.

CE EN 524 : Reinforced Concrete Buildings. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 424 or equivalent.
DESCRIPTION: Design for earthquake resistance; torsion effects, slendor columns, and two-way slabs.

CE EN 525 : Bridge Structures. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 422, 424; or equivalents.
DESCRIPTION: Design of composite, continuous beam, and girder bridges, including piers, abutments, floor systems, and bearings; field trips to observe bridge construction and fabrication.

CE EN 526 : Prestressed Concrete. (3:3:0)
OFFERED: Sp odd years.
PREREQUISITE: CE En 424 or equivalent.
DESCRIPTION: Strength, behavior, and design of prestressed reinforced concrete members and structures, emphasizing pretensioned, precast construction.

CE EN 528 : Masonry Design. (3:3:0)
OFFERED: Sp even years.
PREREQUISITE: CE En 424 or equivalent.
DESCRIPTION: Introduction to analysis, design, and construction of masonry structures. Compressive, tensile, flexural, and shear behavior of masonry structural components.

CE EN 531 : Principles of Hydrologic Modeling (3:2:3)
OFFERED: F
PREREQUISITE: CE En 431 or equivalent.

DESCRIPTION: Advanced hydrologic and hydraulic principles with an emphasis on modeling for the purpose of planning and designing draining, flood control, and other water resource facilities.

CE EN 535 : Hydraulic Design of Channels and Control Structures. (3:2:3)
OFFERED: W
PREREQUISITE: CE En 433 or equivalent.
DESCRIPTION: Design of water conveyance channels and control structures, including siphons, chutes, weirs, flumes, dams, spillways, and outlet works.

CE EN 540 : Geo-Environmental Engineering. (3:3:0)
PREREQUISITE: CE En 341 or equivalent.
DESCRIPTION: Geotechnical aspects of environmental engineering. Topics include municipal and hazardous solid waste landfill design and characterization and remediation techniques for contaminated soil and groundwater.

CE EN 542 : Foundation Engineering. (3:3:0)
OFFERED: W; Sp even years.
PREREQUISITE: CE En 341 or equivalent.
DESCRIPTION: Soil investigation, bearing capacity and settlement, design of spread footings, combined footings, mat foundations, pile foundations, and drilled shafts.

CE EN 543 : Earth- and Rock-Fill Structures. (3:3:0)
PREREQUISITE: CEEn 341 or equivalent.
DESCRIPTION: Design and construction of earth- and rock-fill dams, including selecting dam sites and materials, and applying seepage and pore pressure studies, shearing strength data, stability analysis, and construction controls.

CE EN 545 : Geotechnical Analysis of Earthquake Phenomena. (3:3:0)
PREREQUISITE: CE En 321, 341; or equivalents.
DESCRIPTION: Earthquake magnitude and intensity; design ground motions, elementary dynamics of structures; response spectra; building code provisions; liquefaction and ground failure.

CE EN 547 : Seepage and Groundwater Modeling. (3:3:0)
PREREQUISITE: CEEn 341, 431; or equivalents.
DESCRIPTION: Techniques for modeling groundwater flow on a regional and local basis. Seepage analysis of levees, excavations, and earth dams.

CE EN 551 : Water Treatment Facilities Design. (3:2:3)
OFFERED: F
PREREQUISITE: CE En 351 or equivalent.
DESCRIPTION: Evaluation, selection, and design of water treatment facilities.

CE EN 555 : Environmental Chemistry. (3:2:4)
OFFERED: F
PREREQUISITE: CE En 351 or equivalent.
DESCRIPTION: Chemical theory and calculation supporting analysis of major organic and inorganic constituents in environmental engineering, focusing on theoretical understanding of the chemical processes.

CE EN 562 : Traffic Engineering: Characteristics and Operations. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 361 or equivalent.
DESCRIPTION: Traffic flow theory, traffic operations, characteristics of drivers and vehicles, parking facilities, at-grade intersections, channelization, traffic control devices, signals.

CE EN 563 : Pavement Design. (3:3:0)
OFFERED: F
PREREQUISITE: CEEn 305, 361; or equivalents.
DESCRIPTION: Design, construction, evaluation, maintenance, and rehabilitation of flexible and rigid pavements; influence of traffic and environmental factors; mechanistic analysis of pavement structures using computer software.

CE EN 565 : Urban Transportation Planning. (3:3:0)
OFFERED: W
PREREQUISITE: CEEn 361 or instructor's consent.
DESCRIPTION: Urban transportation planning and decision making, intermodal transportation, land-use transportation interrelationships, transportation demand modeling, site impact analysis, sustainable transportation; livable cities.

CE EN 570 : (CE En-Me En) Computer-Aided Engineering Software Development. (3:3:0)
OFFERED: F on dem.
PREREQUISITE: Me En 373 or C programming.
DESCRIPTION: Programming methods for the development of engineering software. Data structures, architecture, libraries, and graphical user interfaces, with applications to CAD systems.

CE EN 572 : (CE En-Me En) Computer-Aided Geometric Design. (3:3:0)
OFFERED: W
PREREQUISITE: Proficiency in C programming.
DESCRIPTION: Mathematical theory of free-form curves and surfaces and solid geometric modeling. Bezier and B-spline curve and surface theory, parametric and implicit forms, intersection algorithms, topics in computer algebra, and free-form deformation. Several programming projects.

CE EN 575 : (CE En-Me En) Optimization Techniques in Engineering. (3:3:0)
OFFERED: W
PREREQUISITE: Math 302 and FORTRAN, C, or similar computer language.
DESCRIPTION: Application of computer optimization techniques to constrained engineering design. Theory and use of state-of-the-art computer routines. Robust design methods.
NOTE: Fee.

CE EN 580 : Hazardous Waste Management and Control. (3:3:0)
OFFERED: W
PREREQUISITE: CEEn 351 or instructor's consent.
DESCRIPTION: Hazardous waste statutes and regulations; introduction to hazardous waste treatment, storage, disposal, and monitoring techniques.

CE EN 594R : Selected Problems in Civil and Environmental Engineering. (1-3:ARR:ARR)

Note: 3 of the 9 hours may come from:

CH EN 273 : Chemical Process Principles. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: ChEn 170 or equivalent or concurrent enrollment; ChEn 263 or equivalent; Chem 106 or 112; concurrent enrollment in Phscs 121, Math 113.
DESCRIPTION: Material and energy balances.
NOTE: College Lecture attendance required.

CH EN 378 : Science of Engineering Materials. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: Chem 351 or instructor's consent.
DESCRIPTION: Fundamental principles of solid materials and their properties and behavior in engineering applications of metals, polymers, ceramics, and glasses.

EC EN 301 : Elements of Electrical Engineering. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220; Math 303 or 334.
DESCRIPTION: Linear electric circuits, computer organization, and logic circuits for nonmajors.
NOTE: Fee.

ME EN 321 : Thermodynamics. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: Phscs 123; Math 303 or 334.
DESCRIPTION: Fundamentals of thermal energy and work; principle of state, conservation of mass, conservation of energy, increase of entropy principle; application to thermal and mechanical processes.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

CE EN 100A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 100B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 103 : Engineering Mechanics--Statics. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119 or concurrent enrollment (if 119, then Math 111 must have already been taken).
DESCRIPTION: Concepts of mechanics: force systems in equilibrium, resultants, friction, centroids, utilization of vector algebra.

CE EN 112 : Engineering Drafting with CAD Applications. (3:3:0)
OFFERED: F, W
DESCRIPTION: Structural and component drafting, emphasizing computer-automated (CAD) systems. Concepts include applied and descriptive geometry, multiview representation, sectional views, dimensional practices, and axonometric sketching.

CE EN 113 : Engineering Measurements. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: Math 111, CEEn 112.
DESCRIPTION: Measurement of horizontal and vertical distances and angles to locate engineering projects including profiles, plane and topographical mapping, site layout, and earthwork.

CE EN 199R : Academic Internship. (.5-3:ARR:ARR)
PREREQUISITE: Consent of both department chair and cooperative education coordinator.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

CE EN 200A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 100A, B.
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 200B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 100A, B.
DESCRIPTION: Activities of civil engineering; principles and methods involved in solving civil engineering problems.
NOTE: College Lecture attendance required.

CE EN 203 : Engineering Mechanics--Mechanics of Materials. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103.
DESCRIPTION: Fundamental concepts of elastic stress and strain relations; cylinders and spheres; torsion; beam theory, including bending stresses; deflections; and two-dimensional elastic theory.
NOTE: Independent Study also.

CE EN 204 : Engineering Mechanic--Dynamics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: CEEn 103 or Phscs 121.
DESCRIPTION: Concepts of dynamics applied to particles, systems of particles, rigid bodies, vibration systems, and nonrigid particles systems.
NOTE: Independent Study also.

CE EN 270 : Computational Methods. (3:1:2)
OFFERED: F, W
PREREQUISITE: Math 113 or concurrent enrollment.
DESCRIPTION: Numerical methods and computational techniques for solving civil engineering problems.

300-Level Courses

CE EN 300A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 200A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 300B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 200A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 302 : Structures and Strength of Materials Fundamentals. (4:4:0)
OFFERED: F
PREREQUISITE: Phscs 105, CEEn 103.
DESCRIPTION: Structural mechanics and strength of materials for soils, woods, concrete, and steel applied to practical construction situations.
NOTE: For nonmajors only.

CE EN 305A : Civil Engineering Materials: Metals, Woods, and Composites. (1.5:2:3)
OFFERED: F 1st block, W 1st block.
PREREQUISITE: CE En 203, 270, Stat 221.
DESCRIPTION: Molecular basis and mechanical behavior of civil engineering structural materials; failure mechanisms; laboratory testing.

CE EN 305B : Civil Engineering Materials: Concrete, Masonry, and Asphalt. (1.5:2:3)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: CE En 203, 270, Stat 221.
DESCRIPTION: Basic constituents and mechanical behavior of civil engineering aggregate-based materials; failure mechanisms; laboratory testing.

CE EN 321 : Structural Analysis. (3:3:0)
OFFERED: F, W
PREREQUISITE: CEEn 203, 270.
DESCRIPTION: Deflection analysis by the method of virtual work. Analysis of statically indeterminate structures by the flexibility method, the stiffness method, and moment distribution. Computer analysis of structures.

CE EN 332 : Hydraulics and Fluid Flow Theory. (3:2:3)
OFFERED: F, W, Su even yr.; F, Sp odd yr.
PREREQUISITE: CEEn 204, 270, or concurrent enrollment.
DESCRIPTION: Fluid properties, fluid statics and dynamics, viscous flow, boundary layers, concepts of pipe and open-channel flow.

CE EN 341 : Elementary Soil Mechanics. (3:2:3)
OFFERED: F, W
PREREQUISITE: CE En 203 or instructor's consent; CE En 270; CE En 332, Geol 330, or concurrent enrollment.
DESCRIPTION: Determination of stresses in soils, soil strength, consolidation, and settlement. Applications in fluid flow, lateral earth pressure, bearing pressure, and slope stability.

CE EN 351 : Environmental Engineering. (3:3:0)
OFFERED: W, Su even years; F, Sp odd years.
PREREQUISITE: Chem 105, Stat 221.
DESCRIPTION: Environmental concerns, problems, and evaluation methodology; pollution control and engineering management approaches.

CE EN 361 : Introduction to Transportation Engineering. (3:2:3)
OFFERED: F, Sp
PREREQUISITE: CE En 112, 113, 270, Stat 221.
DESCRIPTION: Transportation system characteristics, traffic engineering, traffic operations, transportation planning, highway geometric design, pavement design, highway safety, public transport.

400-Level Courses

CE EN 400A : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 300A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 400B : Civil and Environmental Engineering Seminar. (.5:1:0)
OFFERED: F, W
PREREQUISITE: CEEn 300A, B.
DESCRIPTION: Technical and professional activities in civil engineering.
NOTE: College Lecture attendance required.

CE EN 414 : Engineering Applications of GIS. (3:3:0)
OFFERED: W
PREREQUISITE: Senior status.
DESCRIPTION: Introduction to GIS concepts. Data acquisition and database formulation including use of GPS. GIS uses in civil engineering.

CE EN 421 : Structural Steel Design. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 305, 321; or equivalents.

CE EN 424 : Reinforced Concrete Design. (3:3:0)
OFFERED: F, W
PREREQUISITE: CE En 305, 321.
DESCRIPTION: Theory and design of reinforced concrete, including columns, beams, slabs, and footings; elastic and ultimate-strength methods of analysis.

CE EN 429 : Timber Design. (3:3:0)
PREREQUISITE: CE En 305, 321.
DESCRIPTION: Timber species, composition, and grades; design of beams, straight and tapered glue-lam girders, columns, connections, trusses, shear walls, and structural systems.

CE EN 431 : Hydrology. (3:2:3)
OFFERED: W; Sp even yr.; Su odd yr.
PREREQUISITE: CEEn 332, 351.
DESCRIPTION: Waters of the earth, their occurrence, circulation, and distribution. Relationships among precipitation, evaporation, infiltration, transpiration, groundwater, and stream runoff.

CE EN 433 : Hydraulic Engineering. (3:3:0)
OFFERED: F; Sp odd yr.; Su even yr.
PREREQUISITE: CEEn 332, 351.
DESCRIPTION: Application of fluid mechanics principles to analysis and design of hydraulic structures and systems.

CE EN 461 : Geometric Design of Highways. (3:3:0)
OFFERED: Sp
PREREQUISITE: CE En 361.
DESCRIPTION: Designing visual aspects of highways: highway classification, design controls and criteria, design elements, vertical and horizontal alignment, cross section, intersections, interchanges, capacity analysis.

CE EN 470 : Civil Engineering Practice and Design. (3:2:3)
OFFERED: F, W
PREREQUISITE: CE En senior standing.
DESCRIPTION: Engineering economic analysis, professional practice issues, and experience in completion of a civil engineering design project by applying appropriate engineering standards and multiple realistic constraints.

CE EN 493R : Civil and Environmental Engineering Practicum. (1-18:ARR:ARR)
PREREQUISITE: Instructor's consent.

CE EN 498R : Directed Studies in Civil and Environmental Engineering. (1-18:ARR:ARR)
PREREQUISITE: Instructor's consent.

500-Level Graduate Courses (available to advanced undergraduates)

CE EN 500 : (CE En-Me En) Design and Materials Applications. (3:3:0)
OFFERED: W
PREREQUISITE: Me En 372 or CE En 321 or equivalent.
DESCRIPTION: Applied and residual stress; materials selection; static, impact, and fatigue strength; fatigue damage; surface treatments; elastic deflection and stability--all as applied to mechanical design.

CE EN 501 : (CEEn-MeEn) Stress Analysis and Design of Mechanical Structures. (3:3:0)
OFFERED: Sp
PREREQUISITE: CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Stress analysis and deflection of structures; general bending and torsion with computer applications to mechanical and aerospace structure design.

CE EN 503 : (CE En-Me En) Plasticity and Fracture. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 203; Me En 250; Math 303; senior standing or instructor's consent.
DESCRIPTION: Tensor algebra; stress and deformation tensors; relationships between dislocation slip, yielding, plastic constitutive behavior, and microstructure development; cracks and linear elastic fracture mechanics.

CE EN 504 : (CE En-Me En) Computer Structural Analysis and Optimization. (3:3:0)
OFFERED: F
PREREQUISITE: Linear algebra; CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Matrix analysis of rods, shafts, beams, trusses, frames, and grids using the generalized stiffness method. Optimization methods for these structures. Organizing computer programs for structural analysis and structural optimization.

CE EN 505 : Portland Cement Concrete Mixture Design and Analysis. (3:2:3)
PREREQUISITE: CE En 305 or equivalent.
DESCRIPTION: Properties and testing of freshly mixed and hardened concrete and constituent materials; concrete mixture design and analysis; concrete construction practices; laboratory experimentation.

CE EN 506 : (CE En-Me En) Continuum Mechanics and Finite Elements. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Equilibrium, constitutive, and compatibility equations; closed-form solutions from elasticity; finite element theory, programming, and usage; membrane, axisymmetric, and solid elements. Application to heat transfer, fluid mechanics, and seepage.

CE EN 508 : (CE En-Me En) Structural Vibrations. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 321 or Me En 372 or equivalent.
DESCRIPTION: Dynamic analysis of single degree-of-freedom, discrete multi-degree-of-freedom, and continuous systems. Applications include aerospace, civil structures, and mechanical components.

CE EN 521 : Seismic-Resistant Steel Buildings. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 421 or equivalent.
DESCRIPTION: Background and development of UBC seismic provisions, analysis and design of multistory steel frames, in-depth treatment of shear and moment connections, design of horizontal and vertical diaphragms.

CE EN 523 : (CE En-Me En) Aircraft Structures. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 305, 321; or Me En 250, 372; or equivalents.
DESCRIPTION: Requirements, objectives, loads, materials, and tools for design of airframe structures; static behavior of thin-wall structures; durability and damage tolerance; certification and testing. Airframe component team design project.

CE EN 524 : Reinforced Concrete Buildings. (3:3:0)
OFFERED: W
PREREQUISITE: CE En 424 or equivalent.
DESCRIPTION: Design for earthquake resistance; torsion effects, slendor columns, and two-way slabs.

CE EN 525 : Bridge Structures. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 422, 424; or equivalents.
DESCRIPTION: Design of composite, continuous beam, and girder bridges, including piers, abutments, floor systems, and bearings; field trips to observe bridge construction and fabrication.

CE EN 526 : Prestressed Concrete. (3:3:0)
OFFERED: Sp odd years.
PREREQUISITE: CE En 424 or equivalent.
DESCRIPTION: Strength, behavior, and design of prestressed reinforced concrete members and structures, emphasizing pretensioned, precast construction.

CE EN 528 : Masonry Design. (3:3:0)
OFFERED: Sp even years.
PREREQUISITE: CE En 424 or equivalent.
DESCRIPTION: Introduction to analysis, design, and construction of masonry structures. Compressive, tensile, flexural, and shear behavior of masonry structural components.

CE EN 531 : Principles of Hydrologic Modeling (3:2:3)
OFFERED: F
PREREQUISITE: CE En 431 or equivalent.
DESCRIPTION: Advanced hydrologic and hydraulic principles with an emphasis on modeling for the purpose of planning and designing draining, flood control, and other water resource facilities.

CE EN 535 : Hydraulic Design of Channels and Control Structures. (3:2:3)
OFFERED: W
PREREQUISITE: CE En 433 or equivalent.
DESCRIPTION: Design of water conveyance channels and control structures, including siphons, chutes, weirs, flumes, dams, spillways, and outlet works.

CE EN 540 : Geo-Environmental Engineering. (3:3:0)
PREREQUISITE: CE En 341 or equivalent.
DESCRIPTION: Geotechnical aspects of environmental engineering. Topics include municipal and hazardous solid waste landfill design and characterization and remediation techniques for contaminated soil and groundwater.

CE EN 542 : Foundation Engineering. (3:3:0)
OFFERED: W; Sp even years.
PREREQUISITE: CE En 341 or equivalent.
DESCRIPTION: Soil investigation, bearing capacity and settlement, design of spread footings, combined footings, mat foundations, pile foundations, and drilled shafts.

CE EN 543 : Earth- and Rock-Fill Structures. (3:3:0)
PREREQUISITE: CEEn 341 or equivalent.
DESCRIPTION: Design and construction of earth- and rock-fill dams, including selecting dam sites and materials, and applying seepage and pore pressure studies, shearing strength data, stability analysis, and construction controls.

CE EN 545 : Geotechnical Analysis of Earthquake Phenomena. (3:3:0)
PREREQUISITE: CE En 321, 341; or equivalents.
DESCRIPTION: Earthquake magnitude and intensity; design ground motions, elementary dynamics of structures; response spectra; building code provisions; liquefaction and ground failure.

CE EN 547 : Seepage and Groundwater Modeling. (3:3:0)
PREREQUISITE: CEEn 341, 431; or equivalents.
DESCRIPTION: Techniques for modeling groundwater flow on a regional and local basis. Seepage analysis of levees, excavations, and earth dams.

CE EN 551 : Water Treatment Facilities Design. (3:2:3)
OFFERED: F
PREREQUISITE: CE En 351 or equivalent.
DESCRIPTION: Evaluation, selection, and design of water treatment facilities.

CE EN 555 : Environmental Chemistry. (3:2:4)
OFFERED: F
PREREQUISITE: CE En 351 or equivalent.
DESCRIPTION: Chemical theory and calculation supporting analysis of major organic and inorganic constituents in environmental engineering, focusing on theoretical understanding of the chemical processes.

CE EN 562 : Traffic Engineering: Characteristics and Operations. (3:3:0)
OFFERED: F
PREREQUISITE: CE En 361 or equivalent.
DESCRIPTION: Traffic flow theory, traffic operations, characteristics of drivers and vehicles, parking facilities, at-grade intersections, channelization, traffic control devices, signals.

CE EN 563 : Pavement Design. (3:3:0)
OFFERED: F
PREREQUISITE: CEEn 305, 361; or equivalents.
DESCRIPTION: Design, construction, evaluation, maintenance, and rehabilitation of flexible and rigid pavements; influence of traffic and environmental factors; mechanistic analysis of pavement structures using computer software.

CE EN 565 : Urban Transportation Planning. (3:3:0)
OFFERED: W
PREREQUISITE: CEEn 361 or instructor's consent.
DESCRIPTION: Urban transportation planning and decision making, intermodal transportation, land-use transportation interrelationships, transportation demand modeling, site impact analysis, sustainable transportation; livable cities.

CE EN 570 : (CE En-Me En) Computer-Aided Engineering Software Development. (3:3:0)
OFFERED: F on dem.
PREREQUISITE: Me En 373 or C programming.
DESCRIPTION: Programming methods for the development of engineering software. Data structures, architecture, libraries, and graphical user interfaces, with applications to CAD systems.

CE EN 572 : (CE En-Me En) Computer-Aided Geometric Design. (3:3:0)
OFFERED: W
PREREQUISITE: Proficiency in C programming.
DESCRIPTION: Mathematical theory of free-form curves and surfaces and solid geometric modeling. Bezier and B-spline curve and surface theory, parametric and implicit forms, intersection algorithms, topics in computer algebra, and free-form deformation. Several programming projects.

CE EN 575 : (CE En-Me En) Optimization Techniques in Engineering. (3:3:0)
OFFERED: W
PREREQUISITE: Math 302 and FORTRAN, C, or similar computer language.
DESCRIPTION: Application of computer optimization techniques to constrained engineering design. Theory and use of state-of-the-art computer routines. Robust design methods.
NOTE: Fee.

CE EN 580 : Hazardous Waste Management and Control. (3:3:0)
OFFERED: W
PREREQUISITE: CEEn 351 or instructor's consent.
DESCRIPTION: Hazardous waste statutes and regulations; introduction to hazardous waste treatment, storage, disposal, and monitoring techniques.

CE EN 594R : Selected Problems in Civil and Environmental Engineering. (1-3:ARR:ARR)

BYU Undergraduate Catalog 2008-2009

Civil and Environmental Engineering Faculty

Professors

Balling, Richard Jack

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BA, University of Utah, 1978
BS, University of Utah, 1978
MS, University of California, Berkeley, 1979
PhD, University of California, Berkeley, 1982

Benzley, Steven Edward

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BES, Brigham Young University, 1966
MS, Brigham Young University, 1967
PhD, University of California, Davis, 1971

Christiansen, Henry Nelson

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BS, Utah State University, 1957
MS, Stanford University, 1958
PhD, Stanford University, 1962

Hotchkiss, Rollin H

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1976
MS, Utah State University, 1979
PhD, University of Minnesota, 1989

Jensen, David W

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1980
MS, Massachusetts Institute of Technology, 1981
PhD, Massachusetts Institute of Technology, 1986

Jones, Norman L

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1986
MS, University of Texas, Austin, 1988
PhD, University of Texas, Austin, 1990

Miller, A Woodruff

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BES, Brigham Young University, 1969
MS, Stanford University, 1970
ENG, Stanford University, 1972
PhD, Stanford University, 1975

Rollins, Kyle

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1982
PhD, University of California, Berkeley, 1987

Saito, Mitsuru

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1981
MS, University of Virginia, 1983
PhD, Purdue University, West Lafayette, 1988

Associate Professors

Borup, Michael Brett

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Associate Professor
DEGREES: BS, Humboldt State University, 1980
MS, Utah State University, 1983
PhD, Clemson University, 1985

Fonseca, Fernando S

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1987
MS, Brigham Young University, 1988
PhD, University of Illinois, Urbana, 1997

Nelson, Everett James

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1989
MS, Brigham Young University, 1990
PhD, Brigham Young University, 1994

Williams, Gustavious Paul

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1987
PhD, Northwestern University, 1994

Assistant Professors

Gerber, Travis M.

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1994
MS, Brigham Young University, 1995
PhD, Brigham Young University, 2003

Guthrie, William Spencer

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Assistant Professor
DEGREES: BS, Utah State University, 1998
MS, Texas A&M University, 1999
PhD, Texas A&M University, 2002

Richards, Paul William

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 2000
MS, University of California, San Diego, 2003
PhD, University of California, San Diego, 2004

Schultz, Grant George

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Civil and Environmental Engineering
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1994
MS, Brigham Young University, 1995
PhD, Texas A&M University, 2003

David O. McKay School of Education Advisement and Certification Office
120 MCKB, (801) 422-3426

Admission to Degree Program

The degree program in the Department of Communication Disorders is open enrollment.

The Discipline

Audiology is a relatively new discipline that relies on technology to deal with its primary concern, the measurement of hearing and hearing loss. Audiology includes studying the nervous system to learn how we sense, perceive, and derive information from the sense organs. Audiology students also learn about the development of speech and language, the anatomy and physiology of the ear, a variety of electronic test instruments that reveal the function of the intricate processes involved in hearing, and disorders and diseases of hearing. Physicians use audiological findings to diagnose and treat hearing problems. This information is also used in counseling the hearing impaired and for prescribing hearing aids. Teachers use the knowledge to understand and help children with hearing impairments.

The discipline of speech-language pathology emerged to help people who have lost or have never had the ability to speak normally. It serves persons with speech and language disorders such as stuttering, articulation problems, aphasia, voice problems, language delay, and similar disabilities. Students learn about speech and language development, the anatomy and physiology of the speech mechanism, the neurology of perception and production of speech and language, impairments that cause speech and language disorders, and communication disorders remediation. Professionals work in public schools, hospitals, private or community clinics, or private practice.

Career Opportunities

This is a preprofessional program leading to a master's degree that is required for entrance into the profession.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Hide All Course Descriptions

Program Requirements | View MAP

Complete the following:

ASL 101 : Conversation ASL, Part 1. (4:4:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basic ASL skills, both receptive and expressive. Basic conversation skill, emphasizing vocabulary building and pragmatics. Introduction to deafness and ASL.
NOTE: Intended for students with little or no experience in ASL. Available only through Evening Classes.

COMD 133 : Introduction to Speech-Language Pathology and Audiology. (2:2:2)
OFFERED: F, W
DESCRIPTION: Overview of communication disorders, assessment strategies, and treatments.

COMD 230 : Language Science. (3:3:1)
OFFERED: F, W
DESCRIPTION: Morphology, syntax, and semantic roles in language of children and adults; uses both manual and computer-assisted methods.

COMD 320 : Speech Anatomy. (3:3:1)
OFFERED: F, W
PREREQUISITE: PDBio 220.
DESCRIPTION: Basic anatomy and physiology of speech mechanisms.

COMD 330 : Language Development. (3:3:1)
OFFERED: F
DESCRIPTION: Overview of how children learn language, including its relationship to cognitive, neural, and social development; language development in bilingual, minority, and handicapped persons.

COMD 331 : Phonology. (3:3:1)
OFFERED: F
DESCRIPTION: Transcription and analysis of normal and disordered sound production.

COMD 334 : Basic Hearing Science. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phscs 167.
DESCRIPTION: Hearing anatomy, physiology, and science.

COMD 350 : Language Disorders. (3:3:1)
OFFERED: W
PREREQUISITE: ComD 330.
DESCRIPTION: Causes and characteristics of language impairment; techniques for diagnosis, assessment, and treatment of language disorders.

COMD 351 : Disorders of Articulation and Phonology. (3:3:0)
OFFERED: W
PREREQUISITE: ComD 331.
DESCRIPTION: Causes and characteristics of phonological disorders; techniques for diagnosis, assessment, and treatment.

COMD 421 : Speech Science. (3:3:0)
OFFERED: W
PREREQUISITE: ComD 320, Phscs 167.
DESCRIPTION: Laboratory investigation of scientific bases of normal and disordered speech perception and production; for audiologists and speech language pathologists.

COMD 438 : Hearing Tests and Measures. (3:3:1)
OFFERED: F, W
PREREQUISITE: ComD 334.
DESCRIPTION: Theory and practice of auditory assessment.

COMD 442 : Pediatric Audiology. (3:3:0)
OFFERED: F,W
PREREQUISITE: ComD 438.
DESCRIPTION: Basic principles of hearing assessment and aural habilitation in children from birth to eight years.

COMD 450 : Professional Practices in Schools, Hospitals, and Clinics. (3:3:0)
OFFERED: F
PREREQUISITE: ComD 351; 350 and 438 or concurrent enrollment.
DESCRIPTION: Overview of issues related to clinical practice in public schools and other settings.

MATH 110 : College Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, determinants, systems of linear equations, permutations, combinations, binomial theorem.

(or equivalent)

PHSCS 167 : Descriptive Acoustics of Music and Speech. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Introductory acoustics course, emphasizing physical principles underlying production and perception of music and speech.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

OFFERED: W
PREREQUISITE: ComD 331.
DESCRIPTION: Causes and characteristics of phonological disorders; techniques for diagnosis, assessment, and treatment.

400-Level Courses

COMD 421 : Speech Science. (3:3:0)
OFFERED: W
PREREQUISITE: ComD 320, Phscs 167.
DESCRIPTION: Laboratory investigation of scientific bases of normal and disordered speech perception and production; for audiologists and speech language pathologists.

COMD 438 : Hearing Tests and Measures. (3:3:1)
OFFERED: F, W
PREREQUISITE: ComD 334.
DESCRIPTION: Theory and practice of auditory assessment.

COMD 442 : Pediatric Audiology. (3:3:0)
OFFERED: F,W
PREREQUISITE: ComD 438.
DESCRIPTION: Basic principles of hearing assessment and aural habilitation in children from birth to eight years.

COMD 450 : Professional Practices in Schools, Hospitals, and Clinics. (3:3:0)
OFFERED: F

COMD 493R : Readings. (.5-2:ARR:ARR)
OFFERED: F, W, Sp, Su

COMD 495R : ASLP Field Experience. (1-2:ARR:ARR)
OFFERED: F, W, Su
PREREQUISITE: ComD faculty sponsorship.
DESCRIPTION: Supervised experience in a clinical or educational service-delivery setting under the direction of a faculty member.

500-Level Graduate Courses (available to advanced undergraduates)

COMD 544 : Psychoacoustics. (2:2:1)
DESCRIPTION: Advanced studies in human psychoacoustics and hearing science.

Communications

Ed Adams, Chair
360 BRMB, (801) 422-2997

College of Fine Arts and Communications Advisement Center
D-444 HFAC, (801) 422-3777

The Discipline

The BYU Department of Communications prepares students for careers in fields related to mass communication, such as advertising, broadcast journalism, communications studies, print journalism, and public relations. Grounded in a strong liberal arts foundation, this program provides a balance between scholarship and professional skills. This goal is accomplished by requiring core courses and electives that enhance critical thinking about the discipline, while providing courses in emphasis areas that afford additional skills for each profession. See emphasis descriptions for additional information about their discipline and career opportunities.

Educational Outcomes

The department of communications exists to help students become professional and scholarly communicators whose messages contribute to a better society by benefiting the organizations for which they work and the audiences they reach.

1. Students will be able to communicate effectively with their audiences. In particular, students will be able to:
    a. Prepare mass communication messages in the appropriate style.
    b. Apply appropriate technology to the creation and dissemination of messages.
    c. Plan communication that serves audience needs.
    d. Use appropriate research methods to answer relevant questions.

2. Students will act professionally in their practice. In particular, students will be able to:
    a. Practice communication within legal boundaries.
    b. Exhibit standards of professional behavior.
    c. Demonstrate sensitivity to the ethical issues of their practice.
    d. Be literate in the language of the media industries.

3. Students will be scholars of the mass communication process. In particular, students will be able to:
    a. Apply relevant theory to communication practice.
    b. Understand the factors that shape(d) their profession.
    c. Value freedom of speech in the marketplace of ideas.
    d. Think critically about the relationship between mass media and society.

4. Students will be able to apply Gospel-centered values as they contribute to society. In particular, students will be able to:
    a. Demonstrate respect for diversity and agency in a global society.
    b. Exercise moral reasoning when faced with ethical dilemmas.
    c. Show a commitment to making a positive difference within their sphere of influence.
    d. Critically evaluate media-related issues in light of the gospel of Jesus Christ.

Admission to Degree Program

The degree programs in the Department of Communications have a departmental application process with specific enrollment limitations. Please see the college advisement center for details, telephone 1-877-890-5414, or online at http://comms.byu.edu/.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0

- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

BA in Communications

Emphases:
- Advertising
- Broadcast Journalism
- Communications Studies
- Print Journalism
- Public Relations

Minor in Communications

Students should see their college advisement center for information concerning admittance to the undergraduate programs.

Graduate Programs and Degrees

MA in Mass Communications

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Working under faculty direction, students in the department edit and publish the *Daily Universe* as a laboratory newspaper for the campus, produce daily television broadcasts on local cable, produce @NewsNet.byu.edu for the Internet, plan advertising and public relations campaigns, solve media sales and management problems, and use "new media" in diverse situations.

The Department of Communications sponsors the International Media Studies Program, which seeks to broaden students' awareness of worldwide communications issues and practices. Not only do students have opportunity to study the media systems of other nations through classes and on-site experiences, but media practitioners of other nations are also brought to campus as lecturers and visiting experts.

The department encourages early admission. Students who enroll in Comms 101, 211, and an introductory course and complete the English requirement can apply to the major as early as the second semester of their freshman year.

Departmental Requirements

1. Each student must be formally accepted into a degree program. Contact the college advisement center for admission requirements or online at http://comms.byu.edu.
2. All students must take a campus writing course before applying for admission to the major. The following writing courses fulfill this requirement and satisfy the GE First-Year Writing requirement: Engl 150, Phil 150, or Honrs 150.
3. Complete 80 hours outside the department, of which at least 65 hours must be in the liberal arts and sciences. Please see the advisement center for a list of liberal arts and sciences courses.
4. Except for communication studies students, every student is required to complete an internship. Although the department operates an internship office (280 BRMB) that serves as a clearinghouse for internship information, the responsibility for securing an internship rests with the student. However, students may not embark on any required internship without prior approval from a faculty advisor, completing prerequisite courses with a C– or better, processing appropriate documents with the Internship Office, and being enrolled in Comms 496R.
5. Communications students must learn the design software used in several of the communications upper-level courses prior to attending the course.

   The following software will be used in these courses:

   Adobe Publishing — Comms 330, 331, 421, 428.
   Web Publishing — Comms 485, 487.

BA in Communications: Advertising Emphasis (46–58 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The Discipline

Communications majors who choose the advertising communications emphasis will participate in a program that will give a strong grounding in the liberal arts and sciences, provide a firm grasp of communications theory and principles, and teach practical workplace skills.

In advertising communications courses students will learn how to use research in studying diverse audiences, to analyze communications problems, and to evaluate communications programs. They will write problem-solving strategies and create advertising and promotion messages to specific target audiences. Creative track students will learn how to concept consumer advertising ads in print and broadcast and will develop a quality portfolio required for entry-level careers in the creative field. Management students will learn how to evaluate and select the most effective media for reaching those target audiences and will gain an understanding of how broadcast, print, and other media are used in the advertising process.

Studies will culminate in the student's participation, as a team member, in creating and presenting a comprehensive and competitive integrated communications campaign that includes research, advertising, and sales promotion.

Career Opportunities

This field provides career opportunities in advertising, media management, and advertising media sales as well as in its creative, research, media planning, and management functions.

Program Requirements | View MAP

1. Complete one course from the following:
   ENGL 150 : Writing and Rhetoric. (3:3:0)
   - OFFERED: F, W, Sp, Su; Honors also.
   - DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
   - NOTE: Fulfills General Education First-Year Writing requirement.

   HONRS 150 : Honors University Writing. (3:3:0)
   Honors University Writing.
   - OFFERED: F, W, Sp, Su
   - DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.

   PHIL 150 : Reasoning and Writing. (3:3:0)
   - OFFERED: F, W, Sp, Su; Honors also.
   - RECOMMENDED: Recommended for philosophy majors and minors.
   - DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
   - NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

   Note: Students must receive a B grade or better to be eligible to apply for admission to the program.

2. Complete the following:
   COMMS 101 : Mass Communication and Society. (3:3:0)
   - DESCRIPTION: Historical and modern roles of mass media in society, emphasizing media effects on individuals and institutions.
   - NOTE: Independent Study also.

COMMS 211 : News Writing. (3:2:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Pre-communications status; a B grade or better in one of the following: Engl 150, Phil 150, or Honrs 150.
DESCRIPTION: Principles and practices of identifying news and writing it for newspaper, radio, television, and Internet audiences.
NOTE: Lab required.

COMMS 230 : Introduction to Advertising. (3:3:0)
DESCRIPTION: Principles of advertising; critical evaluation of its role and value in American society. Experience in writing and creating ads for all media.

Note: Students must receive a B grade or better in each course to be eligible to apply for admission to the program.

3. Apply to the major.

4. Complete the following:
COMMS 300 : Media Ethics, Law and Responsibility. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: major status.
DESCRIPTION: Introduction to First Amendment history and press freedom, law, and theory; media regulation and policy; relationship between law and ethics; key ethical issues in professional communications.

COMMS 317 : Advertising Research Methods. (3:2:1)
OFFERED: F, W, Alternate terms
PREREQUISITE: Major status.
DESCRIPTION: Quantitative research methods used in marketing and advertising; the research process; planning, designing, and conducting studies; analyzing results using appropriate methodologies.

5. Complete one course from each of the following three clusters (nine hours total). Courses must be taken in order (from cluster 1, then 2, then 3):
a. Cluster 1: Media, Family, and Society
COMMS 302 : Popular Culture and Media. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status.
DESCRIPTION: Impact of new and traditional media on popular culture. Includes media criticism and cultural theories on the artifacts and drivers of cultural values.

BA in Communications: Broadcast Journalism Emphasis (43 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The Discipline

The study of journalism entails the mastery of working with people to present news and features in a way that reflects events accurately and fully. Students will acquire skills in analytical thinking, lucid writing, and effective interviewing to be able to present a clear and forceful picture of their subject in words, sounds, and images. To have a broad background, students are encouraged to earn more than 60 percent of their credits in other departments, thereby developing a wide understanding of the world and the processes that make society work. In addition, students will become familiar with methods of writing that effectively reach mass audiences—that portray events and people in satisfying ways. Since a wide range of knowledge is essential within the field, students will study libel law, the process of communication, and such areas as the interaction between the mass media and society today.

Career Opportunities

The exciting field of journalism traditionally has offered the allure of working in a profession that has its finger on the changing pulse of society. Whether serving as reporters, anchors, or producers for television, radio, cable, or online outlets, broadcast journalists find themselves rubbing shoulders with important people and recording important events.

A career in journalism implies not only skill with words, pictures, and sounds, but the ability to make sound judgments and to ferret out facts. In addition to the obvious careers as reporters, anchors, and producers, students often find their journalism skills in demand in a variety of other areas.

Many find the challenge of recording the drama of real life both satisfying and enlightening. Recent changes in technologies and business models continue to change the way broadcast news is produced and distributed. These changes call for greater skill in writing to be able to visualize the world in an interesting way. Overall, one of journalism's great satisfactions has been the sense that one can make a difference in the world and bring about changes for the better.

Program Requirements | View MAP

1. Complete one course from the following:

ENGL 150 : Writing and Rhetoric. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
- NOTE: Fulfills General Education First-Year Writing requirement.

HONRS 150 : Honors University Writing. (3:3:0)
Honors University Writing.
- OFFERED: F, W, Sp, Su
- DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.

PHIL 150 : Reasoning and Writing. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- RECOMMENDED: Recommended for philosophy majors and minors.
- DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
- NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

Note: Students must receive a B grade or better to be eligible to apply for admission to the program.

2. Complete the following:

COMMS 101 : Mass Communication and Society. (3:3:0)
DESCRIPTION: Historical and modern roles of mass media in society, emphasizing media effects on individuals and institutions.
NOTE: Independent Study also.

COMMS 211 : News Writing. (3:2:2)
OFFERED: F, W, Sp, Su

BA in Communications: Communications Studies Emphasis (43 hours*

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The Discipline

This program is designed for the student who wants a broad, general undergraduate background in communications and does not necessarily want to specialize in advertising, broadcasting, print journalism, or public relations. This may be the student who plans to pursue advanced academic degrees rather than work in industry. The focus of the program is highly theoretical and conceptual.

Career Opportunities

This major does not lead to specific careers but is appropriate for those planning to pursue graduate or law degrees.

Program Requirements | View MAP

1. Complete one course from the following:

ENGL 150 : Writing and Rhetoric. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
- NOTE: Fulfills General Education First-Year Writing requirement.

HONRS 150 : Honors University Writing. (3:3:0)
Honors University Writing.
- OFFERED: F, W, Sp, Su
- DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.

PHIL 150 : Reasoning and Writing. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- RECOMMENDED: Recommended for philosophy majors and minors.
- DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
- NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

Note: Students must receive a B grade or better to be eligible to apply for admission to the program.

2. Complete the following core courses:

COMMS 101 : Mass Communication and Society. (3:3:0)
- DESCRIPTION: Historical and modern roles of mass media in society, emphasizing media effects on individuals and institutions.
- NOTE: Independent Study also.

COMMS 211 : News Writing. (3:2:2)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Pre-communications status; a B grade or better in one of the following: Engl 150, Phil 150, or Honrs 150.
- DESCRIPTION: Principles and practices of identifying news and writing it for newspaper, radio, television, and Internet audiences.

BA in Communications: Print Journalism Emphasis (43 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The Discipline

Journalism is a mass media process that provides factual and relevant information for democratic decision making, community building, and public deliberation. Students will acquire skills in effective interviewing, analytical thinking, and lucid writing and storytelling. To develop a wide understanding of the world and the processes that make society work, students are encouraged to earn more than 60 percent of their credits in other departments. Students will become familiar with methods of writing that target mass audiences and help citizens work through community problems and issues. With contemporary journalists working for newspapers, magazines, and new media, students will be offered courses in media law and ethics, journalistic research methods, feature writing, in-depth reporting, publication design, new media, media processes, and public opinion. Print journalism students may choose either a traditional news-editorial track or qualify for a news design and new media track.

Career Opportunities

In the exciting field of journalism, traditionally there has been the allure of working in a profession that has its finger on the changing pulse of society. Whether serving as reporters on television, radio, cable, online, daily newspapers, the community press, or in the magazine field, journalists find themselves rubbing shoulders with important people and recording important events.

A career in journalism implies not only skill with words, but the ability to make sound judgments and to ferret out facts. In addition to the obvious careers as reporters and editors, students often find their journalism skills in demand in a variety of other areas.

Many find the challenge of recording the drama of real life both satisfying and enlightening. Because of television, journalism has changed in recent years, but even though there has been a decline in the number of daily newspapers, an explosion of special interest magazines and online publishing has opened up jobs for writers and editors. These changes call for greater skill in writing to be able to visualize the world in an interesting way. Overall, one of journalism's great satisfactions has been the sense that one can make a difference in the world and bring about changes for the better.

BA in Communications: Public Relations Emphasis (49 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this emphasis.

The Discipline

Public relations manages communication to build mutually beneficial relationships between the organization and its vital publics. The public relations program at BYU emphasizes research and measurement; strategic planning; professionally designed, written, and targeted tactics; and ethical practice. We prepare students with critical skills in thinking, writing, research, program planning and management, creative problem solving, and relationship building with publics typical to the public relations challenges of diverse organizations. Those publics include but are not limited to media, consumers, employees, government and other regulatory bodies, and communities. In keeping with the aims of a BYU education, our students and graduates should engage in lifelong learning and professional practice that exemplifies the values of grace, truth, and equity.

Career Opportunities

Virtually all segments of the public and private sectors throughout the world draw employees from public relations graduates. Graduates may work as technical experts or in management tracks. They may specialize in employee relations, community relations, public affairs, media relations, or several other tracks within the professional arena.

Program Requirements | View MAP

DESCRIPTION: Cases selected from wide range of actual public relations problems confronting business, government, education, and other institutions. Focus on strategic planning matrix.

COMMS 345 : Media Sales and Promotion. (3:2:2)
OFFERED: F, W, alternate terms
PREREQUISITE: major status.
DESCRIPTION: Fundamentals of media sales process. Theory and application of persuasion relating to media sales.

COMMS 351 : Media and Their Audiences. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status.
DESCRIPTION: Understanding media content and channels empowering and improving media consumption and interpretation. Includes new technology, social media, consumer behavior, media criticism, and media literacy.

COMMS 360 : Communication Management Principles and Theory. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status.
DESCRIPTION: Management principles and theory, emphasizing responsible management benefiting organizations and their stakeholders. Includes crisis communication, media or agency management, and programming.

COMMS 365 : Photojournalism. (3:2:Arr)
OFFERED: F
PREREQUISITE: Comms 321; admission to news design and new media track; or instructor's consent.
DESCRIPTION: Shooting, processing, selecting, and preparing photographs for use in publications.

COMMS 370R : Special Topics in Communications. (1-3:Arr.:Arr.)

OFFERED: On demand.
PREREQUISITE: Major or minor status.
DESCRIPTION: Subject matter may vary. Specific topics emphasizing general issues related to all mass communication.

COMMS 377 : Feature Writing. (3:3:0)
OFFERED: F, W, alternate terms
PREREQUISITE: Comms 321.
DESCRIPTION: Analysis of nonfiction magazine markets and effective writing methods; criticism of students' articles.

COMMS 381 : International Media Systems. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Communications or international relations major or minor status.
DESCRIPTION: Comparison of media systems in countries and regions outside the United States. Includes media systems analysis, normative theories of the media, and cultural values and norms.

COMMS 382 : Issues in Global Communication. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Communications or international relations major or minor status.
DESCRIPTION: Issues relating to communicating in a global village. Includes global information and policy, cultural imperialism, intercultural interaction, and multinational communication strategies.

COMMS 385 : Televislon News Producing. (3:2:3)
OFFERED: F, W, alternate terms
PREREQUISITE: Comms 325.
DESCRIPTION: Theory and practice of producing and presenting information for television. Role of television news in society, nature of audiences, production techniques, and TV news management. Lab includes producing daily cable newscast.

COMMS 390R : Student Media Labs. (1:1:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Appropriate introductory course (Comms 211, 230, 235, or 275); lab advisor's consent.
DESCRIPTION: Student-run media labs such as the Advanced Advertising Lab, Bradley Agency, Daily News, and Daily Universe.
NOTE: Cannot be combined with paid position in the same lab.

COMMS 395R : International Media Studies Abroad. (1-3:Arr:0)
OFFERED: Alternate terms
DESCRIPTION: Study Abroad course emphasizing media and culture of region selected.

COMMS 396R : Communications Practicum. (1:0:Arr)
PREREQUISITE: instructor's consent and approval of task or projects.
DESCRIPTION: Practice and projects in communication.

COMMS 398R : Projects in Communications. (.5-4:Arr:0)
PREREQUISITE: Junior standing and sequence coordinator's consent. Project approval required before registration
DESCRIPTION: Projects in communication studies.

400-Level Courses

COMMS 402 : Media Criticism. (3:3:0)
OFFERED: W
PREREQUISITE: Major or minor status.
DESCRIPTION: Criticism of electronic media systems and their products and effects; critic's role and qualifications.

COMMS 406 : Media and the First Amendment. (3:3.0:0.0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status; Comms 300.
DESCRIPTION: Advanced understanding of media law, policy, and regulation of free speech and press. Includes Freedom of Information, rights of press, government control, and legal precedents regarding the First Amendment.

COMMS 411 : Mass Communications Processes and Effects. (3:3:0)
OFFERED: F, W, alternate terms
PREREQUISITE: Major or minor status.
DESCRIPTION: Mass communication as a social process, incorporating literature from journalism, social psychology, sociology, political science, and history. Factors in message construction, dissemination, and audience reception.

COMMS 416 : Media Advocacy and Social Change. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status.
DESCRIPTION: Communication principles, theories, and approaches applied to effect social change. Includes public policy, grass roots advocacy, social marketing, and social movements.

COMMS 420 : Advanced Print Reporting. (3:2:1)
OFFERED: F, W
PREREQUISITE: Comms 308, 321.
DESCRIPTION: Print news coverage of government, courts, education, and other institutions. Investigative reporting on major public issues and trends.

COMMS 421 : Public Relations Writing and Production. (3:3:1)
PREREQUISITE: Comms 321, 336; computer proficiency in InDesign, Adobe Photoshop, Flash, and Dreamweaver demonstrated by portfolio review or completion of Office of Information Technology course.
DESCRIPTION: Professional public relations writing and editing in a variety of formats as used in public relations applications.

COMMS 428 : Publication Graphics and Production. (3:2:3)
OFFERED: F, W, alternate terms.

COMMS 432 : Account Planning Management (3:3:0)
PREREQUISITE: Major status; Comms 317.
DESCRIPTION: Development and execution of a comprehensive strategic advertising research program, including data collecting, interpretation, field investigating, audience analysis, and strategy development.

COMMS 433 : Advanced Advertising Concepting - Portfolio 3. (3:3:0)
PREREQUISITE: Comms 331; concurrent enrollment in Comms 489.
DESCRIPTION: Capstone course in creating consumer advertising concepts, copywriting, design, and layout. Emphasizes finished portfolios.

COMMS 480 : Media Ethics and Moral Reasoning. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Comms 300 or instructor's consent.
DESCRIPTION: Advanced application of moral reasoning and understanding of ethical issues in mass communication. Includes current cases and issues, professional practices, and philosophical foundations of ethics.

COMMS 481 : Gender, Race, and Class In the Media. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status.
DESCRIPTION: Applying critical theory to the interaction between media and underrepresented groups in society. Includes stereotypes and portrayals, access to media, participation, and media ownership.

COMMS 482 : Media and World Religions. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Major or minor status.
DESCRIPTION: The interaction of media, world religions, and beliefs. Includes media coverage and portrayal of religion, religions' use of media, conflict between the two, and communicating across religious cultures.

COMMS 483 : Advanced Communications Studies (3:3:0)
OFFERED: F, W
PREREQUISITE: Comms 319; 411 or concurrent enrollment.
DESCRIPTION: Contemporary developments in communication theory, research, and practice.

COMMS 484 : News Editing and News Judgment. (3:2:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Comms 321; 420 or concurrent enrollment.
DESCRIPTION: Management and editing of news flow, ranging from editorial conceptualization and news judgment to copy editing, headline writing, and basic page design.

COMMS 485 : Strategic Public Relations Campaigns. (3:3:0)
PREREQUISITE: Comms 318, 336, 421; software proficiency in Flash, Dreamweaver, and Image Ready as demonstrated by portfolio review or completion of Office of Information Technology course.
DESCRIPTION: Capstone course applying communication principles to internal and external publics; fact finding, planning, and evaluating social interrelationships; major campaigns for selected clients.

COMMS 486 : Advanced Broadcast Reporting. (3:2:Arr)
OFFERED: F, W, alternate terms
PREREQUISITE: Comms 308, 385.
DESCRIPTION: Capstone for broadcast journalism students. In-depth broadcast news coverage of major public issues and trends. Formats may include daily news reports, series, and documentaries.

COMMS 487 : Multimedia Journalism. (3:2:4)
OFFERED: F, W
PREREQUISITE: Comms 438; software proficiency in Flash, Dreamweaver, Image Ready demonstrated by portfolio review or completion of OIT course; or instructor's consent.
DESCRIPTION: Editing, design, and delivery of multimedia and interactive news content. Theories of new media use and practical application of those theories to create professional-level content.

COMMS 489 : Strategic Advertising Campaigns. (3:3:0)
PREREQUISITE: Comms 300, 317, 332, 432; Comms 433 or concurrent enrollment.
DESCRIPTION: Researching, planning, budgeting, creating, and writing national advertising campaigns; writing and producing a complete advertising plan, accompanied by a formal client presentation.

COMMS 495R : Research and Readings in Communication Practice. (.5-4:0:0)
PREREQUISITE: senior standing and instructor's approval of projects.
DESCRIPTION: Independent research projects and readings for communications majors.
NOTE: Projects must be approved in advance of registration.

COMMS 496R : Academic Internshlp. (1-9:Arr:Arr)
OFFERED: F, W, Sp, Su
PREREQUISITE: Major status; prerequisites satisfied; clearance by the Communications Department.
DESCRIPTION: Professional field experience.

COMMS 497R : Research Practicum. (1:0:Arr.)
OFFERED: F, W, Sp, Su
PREREQUISITE: Major status; instructor's consent; approval of tasks or projects.
DESCRIPTION: Conducting research in a mentored environment with a faculty-sponsored research project.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Communications Faculty

Professors

Adams, Edward Eugene

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Professor
DEGREES: AAS, Ricks College, 1982
BS, University of Phoenix, 1986
MA, Brigham Young University, 1991
PhD, Ohio University, Athens, 1993

Hughes, John R.

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Professor

Thomsen, Steven Riley

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Professor
DEGREES: BA, Brigham Young University, 1982
MA, Ball State University, 1984
PhD, University of Georgia, 1994

Wilson, Laurie J

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Professor
DEGREES: BA, Brigham Young University, 1979
MA, Brigham Young University, 1982
PhD, American University, 1988

Associate Professors

Baker, Sherry Pack

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: BA, University of Utah, 1984
MS, University of Utah, 1988
PhD, University of Utah, 1994

Callister, Mark Alden

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: PhD, University of Arizona, 1997

Gale, Larrie Eldon E.

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: BA, San Diego State University, 1967
MA, San Diego State University, 1970
PhD, University of Utah, 1973

Mouritsen, Russell

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1969
MEd, University of Utah, 1972
PhD, University of Utah, 1980

Palmer, Allen W.

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1970
MA, Brigham Young University, 1979
PhD, University of Utah, 1996

Plowman, Kenneth Dean

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: PhD, University of Maryland, 1995

Robinson, Thomas Eugene

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: BS, Northern Arizona University, 1988
MA, University of Nevada, Las Vegas, 1992
PhD, University of Southern Mississippi, 1996

Stoker, Kevin Lamonte

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1981
MA, University of Alababa, 1993
PhD, University of Alabama, 1998

Wakefield, Robert I.

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Professor
EGREES: BA, Brigham Young University, 1980
MA, Brigham Young University, 1990

Assistant Professors

Carter, Edward L.

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1996
MS, Northwestern University, 1999
JD, Brigham Young University J. Reuben Clark Law School, 2003
LLM, University of Edinburgh School of Law, 2009

Cressman, Dale L

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1985
MA, Brigham Young University, 1989
PhD, University of Utah, 2003

Cutri, Christopher

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Professor
DEGREES: MFA, Art Center College of Design, 1997

Randle, Quint Bryce

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1984
MA, Pepperdine University, 1995
PhD, Michigan State University, 2001

Rawlins, Bradley Lane

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Professor
DEGREES: BA, Washington State University, 1987
MA, University of Alababa, 1992
PhD, University of Alabama, 1995

Worsham, Anne Golden

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1985
MA, Brigham Young University, 2003
PhD, University of Utah, 2007

Associate Teaching Professors

Kelly, Lincoln Kevin

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Teaching Professor
DEGREES: BFA, Art Center Collage of Design, 1977

McKinlay, Douglas R

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Teaching Professor
DEGREES: BA, Brigham Young University, 1968
MA, Brigham Young University, 1969

Walton, Susan

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Associate Teaching Professor
DEGREES: MA, Brigham Young University, 1986

Assistant Teaching Professors

Campbell, Joel Jay

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Teaching Professor
DEGREES: MA, Ohio State University, 2000

Walz, J Robert

COLLEGE: Fine Arts and Communications
DEPARTMENT: Communications
RANK: Assistant Teaching Professor
DEGREES: BA, Brigham Young University, 1982

UNDERGRADUATE CATALOG 2008 - 2009

Computer Science

Tony R. Martinez, Chair
3361 TMCB, (801) 422-3027

College of Physical and Mathematical Sciences Advisement Center
N-179 ESC, (801) 422-6270
1112 TMCB, (801) 422-4214

Admission to Degree Program

The degree programs in the Department of Computer Science are open enrollment.

The Discipline

Computer science touches virtually every area of human endeavor. Software is responsible for everything from the control of kitchen appliances to sophisticated climate models used in predicting future environmental change. Students in computer science learn to approach complex problems in business, science, and entertainment using their strong background in mathematics, algorithms, and data structures.

The degree programs in the Computer Science Department prepare students to be confident software developers and technical problem solvers. The curriculum also trains students for research into new avenues where computers will have a significant impact.

The BS curriculum is accredited by the Computing Accreditation Commission of ABET.

Career Opportunities

Graduates pursue exciting opportunities in graphics, artifical intelligence, software engineering, database design, scientific programming, systems administration, and research at universities and national laboratories.

Students completing the animation emphasis will be prepared for technical positions at animation and game programming studios. Students will learn both the technical and artistic side of creating and implementing digital animations and games.

The bioinformatic emphasis is designed for students who are interested in building software to assist in analyzing biological systems. Students will graduate with a significant background in biology coupled with the software development and analysis skills necessary to implement large bioinformatics applications.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
- BS in Computer Science
  - Emphasis (optional):
    - Animation
    - Bioinformatics

Minors
- Computer Science
- Computer Science Teaching

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Computer Science
PHD in Computer Science

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Personnel in the College of Physical and Mathematical Sciences Advisement Center will advise regarding core courses and suggested general education. Questions regarding curriculum and career decisions should be directed to the undergraduate advisor in the Computer Science Department.

Note: All hours of credit applied toward a major in computer science must be of C– or better. Students may choose to graduate under later requirements by updating their date of entry into the major at the college advisement center.

Program Requirements | View MAP

1. No D credit is allowed in major courses.
2. Complete the following:

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

C S 252 : Introduction to Computational Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236.
DESCRIPTION: Finite state automata, regular languages, lexical analysis; push-down automata, context-free languages, parsing; Turing machines and unrestricted grammars; computability complexity, NP-completeness.

C S 312 : Algorithm Analysis. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 240, 252.
DESCRIPTION: Analysis of algorithms including searching, sorting, graphs, and trees.

C S 330 : Concepts of Programming Languages. (3:3:0)
OFFERED: F, W, Sp

PREREQUISITE: C S 236, 240.
DESCRIPTION: Principles and concepts characterizing high-level computer programming languages, process and data abstration, encapsulation, inheritance, functional programming, logic programming, scanners, and parsers.

C S 340 : Software Design and Testing. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 236, 240.
DESCRIPTION: Principles of software design, design patterns, design representation, refactoring. Principles of software quality assurance and testing. Development and testing tools.

C S 345 : Operating Systems Design. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 240.
DESCRIPTION: Principles and concepts of operating systems design and the implementation of an operating system.

C S 360 : Internet Programming. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 236, 345.
DESCRIPTION: Internet application programming, including sockets, threads, CGI, database, e-commerce, Web services.

C S 404 : Ethics and Computers in Society. (2:2:0)
OFFERED: F, W
PREREQUISITE: C S 240; junior-senior status.
DESCRIPTION: Societal impact of computer technology, the computer scientist's place in society, ethical issues. Reading, discussion, and writing seminar.

3. Complete the following supporting courses:

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.

NOTE: Honors and Independent Study also.

(or, for those who are wishing for a more advanced experience and are prepared, complete Stat 321, 331, 332, or 441; for details see an advisor).

4. Complete four courses from the following:
   Any 400-level computer science courses (except C S 404 and 405).
   EC EN 324 : Computer Systems. (3:3:1)
   OFFERED: F, W, Sp
   PREREQUISITE: EC En 224, C S 235.
   DESCRIPTION: Machine-level representations of programs and data, processor architecture, program performance optimizaton, memory hierarchies, virtual memory, linking, exceptions.

   EC EN 425 : Real-Time Operating Systems. (4:3:3)
   OFFERED: F
   PREREQUISITE: EC En 324.
   DESCRIPTION: Hardware/software interface, real-time kernel internals, implementation of high-level language constructs, issues in real-time application software development.

Note: If C S 401R is chosen, it must be taken for three hours.

5. Complete one course from the following:
   Any course not used in item 4 above.
   Any 500-level computer science course.

Note: If either C S 501R or 598R is chosen, it must be taken for three hours.

6. Complete one course from the following:
   Any course not used in item 4 above.

   CHEM 112 : Principles of Chemistry. (3:3:2)
   OFFERED: W
   PREREQUISITE: Chem 111 or equivalent.
   DESCRIPTION: Continuation of Chem 111.
   NOTE: Tutorial included.

   C S 405 : Creating and Managing a Software Business. (3:3:0)
   OFFERED: W
   PREREQUISITE: C S 240, Engl 316.
   DESCRIPTION: Entrepreneurship, idea/opportunity generation, strategic planning, legal organization, product development, marketing/sales, customer support, fund raising, and effective management.

   EC EN 224 : Fundamentals of Digital Systems. (3:3:2)
   OFFERED: F, W, Su
   PREREQUISITE: CS-ECEn 124.
   DESCRIPTION: Digital logic: theory, design, and implementation of combinational and sequential logic. Laboratory experience in construction of digital logic circuits.

   GEOL 112 : Historical Geology. (4:3:2)
   OFFERED: W, Su
   PREREQUISITE: Geol 111.
   DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

   MATH 214 : Calculus of Several Variables. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 113; 343 or concurrent enrollment.
   DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

   MATH 315 : Theory of Analysis. (3:3:0)
   OFFERED: F, W
   PREREQUISITE: Math 113, 190, 343.
   DESCRIPTION: Rigorous treatment of calculus of single and several variables. Topics include uniform continuity, metric spaces, Riemann integral, implicit function theorem, and integral theorems of vector calculus.

   MATH 334 : Ordinary Differential Equations. (3:3:0)
   OFFERED: F, W, Sp, Su

PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 350 : Combinatorics. (3:3:0)
OFFERED: Su
PREREQUISITE: Math 343, 371.
DESCRIPTION: Permutations, combinations, recurrence relations, applications.

MATH 355 : Graph Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 343.
DESCRIPTION: Maps, graphs and digraphs, coloring problems, applications.

MATH 371 : Abstract Algebra. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Math 190, 343.
DESCRIPTION: Groups, rings, fields, vector spaces, linear transformations, matrices, field extensions, etc.

MATH 410 : Introduction to Numerical Methods. (3:3:0)
OFFERED: F
PREREQUISITE: Math 214, 343.
DESCRIPTION: Root finding, interpolation, curve fitting, numerical differentiation and integration, multiple integrals, direct solvers for linear systems, least squares, rational approximations, Fourier and other orthogonal methods.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

STAT 321 : Elements of Mathematical Statistics. (3:3:2)
OFFERED: F, Su
PREREQUISITE: Math 113 or 119 or equivalent.
DESCRIPTION: Probability, random variables, frequency distributions, estimation and tests of hypotheses from a theoretical standpoint.

(if not taken to satisfy item 3)
STAT 331 : Introduction to Bayesian Statistics. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113.
DESCRIPTION: The scientific method; conditional probability; Bayesian methods; models for proportions; densities for proportions; models for means; densities for means; regression analysis.

(if not taken to satisfy item 3)
STAT 332 : Quality Improvement for Industry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Quality management philosophies (Deming, etc.) Strategies for continuous improvement. Graphical and numerical methods of data analysis. Process control charts. Design and analysis of experiments for process characterization and improvement.

(if not taken to satisfy item 3)
STAT 421 : Introduction to Probability and Statistical Theory. (3:3:0)
OFFERED: W
PREREQUISITE: Math 113 or equivalent; Stat 336.
DESCRIPTION: Probability; random variables; probability models; methods of estimation; sampling distribution and the Central Limit Theorem; Neyman-Pearson hypothesis testing.

STAT 441 : Statistical Theory 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 214.
DESCRIPTION: Axiomatic probability theory for discrete and continuous random variables; moment-generating functions; conditional probability; stochastic independence; transformations; limiting distributions; stochastic convergence; central limit theorem.

(if not taken to satisfy item 3).

Note: If not taken to satisfy general education requirements, Chem 111, Geol 111, Phscs 123, or Phscs 220 may fulfill this elective requirement.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

C S 252 : Introduction to Computational Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236.
DESCRIPTION: Finite state automata, regular languages, lexical analysis; push-down automata, context-free languages, parsing; Turing machines and unrestricted grammars; computability complexity, NP-completeness.

C S 312 : Algorithm Analysis. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 240, 252.
DESCRIPTION: Analysis of algorithms including searching, sorting, graphs, and trees.

C S 340 : Software Design and Testing. (3:3:0)
OFFERED: F, W

PREREQUISITE: C S 236, 240.
DESCRIPTION: Principles of software design, design patterns, design representation, refactoring. Principles of software quality assurance and testing. Development and testing tools.

C S 345 : Operating Systems Design. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 240.
DESCRIPTION: Principles and concepts of operating systems design and the implementation of an operating system.

C S 404 : Ethics and Computers in Society. (2:2:0)
OFFERED: F, W
PREREQUISITE: C S 240; junior-senior status.
DESCRIPTION: Societal impact of computer technology, the computer scientist's place in society, ethical issues. Reading, discussion, and writing seminar.

C S 455 : Computer Graphics. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 340, Math 343.
DESCRIPTION: Interactive computer graphics systems programming and architecture.

3. Complete the following supporting courses:

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

INDES 251 : Fundamentals of Two-Dimensional Graphics. (2:4:0)
OFFERED: F
PREREQUISITE: Admittance to animation major or instructor's consent.
DESCRIPTION: Learning to design language by exploring elements of photography, drawing, and two-dimensional computer graphics, including color theory and conceptual elements of composition.

INDES 255R : Computer Graphics for Non-Animation Majors. (2:2:2)
OFFERED: F, W
DESCRIPTION: Techniques used in modeling, texturing, lighting, and rendering, including color theory, composition, visual literacy, and principles of design.

INDES 455R : Shader Programming. (2:2:2)
OFFERED: F
DESCRIPTION: Advanced rendering and shading techniques for attaining desired visual effects. Using shading languages for realizing both photorealistic and non-photorealistic imaging.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.

DESCRIPTION: Newtonian mechanics. Weekly lab.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

(or, for those who are wishing for a more advanced experience and are prepared, complete Stat 321, 331, 332, or 441; for details see an advisor).

TMA 102 : Introduction to Film. (3:4:2)
DESCRIPTION: Analytical studies for understanding and appreciating media forms and messages, as well as basic history, theory, and aesthetics. Lab required.

TMA 294 : History of Animation. (3:3:0)
OFFERED: W
PREREQUISITE: TMA 102.
DESCRIPTION: Origins and developments of animation internationally to the present, focusing on aesthetic, technical, political, and economic aspects of the medium.

VASTU 101 : Introduction to Art and Drawing. (3:2:4)
OFFERED: F, W, Sp, Su
DESCRIPTION: Readings, aesthetic topics, basic drawing techniques and concepts.

4. Complete two courses from the following:

C S 360 : Internet Programming. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 236, 345.
DESCRIPTION: Internet application programming, including sockets, threads, CGI, database, e-commerce, Web services.

EC EN 425 : Real-Time Operating Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 324.
DESCRIPTION: Hardware/software interface, real-time kernel internals, implementation of high-level language constructs, issues in real-time application software development.

Any of the 400-level computer science courses (except C S 404, 405, and 455).

Note: If C S 401R is chosen, it must be taken for three hours.

5. Complete one course from the following:

Any course not used in item 4 above.

Any of the 500-level computer science courses.

INDES 450 : Computer Graphics Studio 3. (3:3:3)
OFFERED: F
PREREQUISITE: InDes 352.
DESCRIPTION: Continuation of InDes 352. In-depth experiences making computer animatiions and visual effects.

INDES 452 : Computer Graphics Studio 4. (3:3:3)
OFFERED: W
PREREQUISITE: InDes 450.
DESCRIPTION: Portfolio development based on advanced animation/design projects.

Note: If either C S 501R or 598R is chosen, it must be taken for three hours each.

6. Complete one course from the following:

ARTHC 111 : Introduction to Art History. (3:3:0)
DESCRIPTION: Topical approach to art history and appreciation.
NOTE: Honors also.

ARTHC 202 : World Civilization Since 1500. (3:3:0)
DESCRIPTION: Survey of Western civilization emphasizing the visual arts from the Renaissance to the twentieth

century.

MFG 201 : History of Creativity in the Arts, Science, and Technology 1. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Western civilization from Egyptian antiquity to Renaissance from perspective of changes in civilization enabled by technology. Creativity throughout history. How to improve personal creativity.

SFL 102 : Introduction to Interiors. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Interior design, emphasizing history and development of the American home.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

C S 252 : Introduction to Computational Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236.
DESCRIPTION: Finite state automata, regular languages, lexical analysis; push-down automata, context-free languages, parsing; Turing machines and unrestricted grammars; computability complexity, NP-completeness.

C S 312 : Algorithm Analysis. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 240, 252.
DESCRIPTION: Analysis of algorithms including searching, sorting, graphs, and trees.

C S 340 : Software Design and Testing. (3:3:0)
OFFERED: F, W

PREREQUISITE: C S 236, 240.
DESCRIPTION: Principles of software design, design patterns, design representation, refactoring. Principles of software quality assurance and testing. Development and testing tools.

C S 345 : Operating Systems Design. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 240.
DESCRIPTION: Principles and concepts of operating systems design and the implementation of an operating system.

C S 360 : Internet Programming. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 236, 345.
DESCRIPTION: Internet application programming, including sockets, threads, CGI, database, e-commerce, Web services.

C S 404 : Ethics and Computers in Society. (2:2:0)
OFFERED: F, W
PREREQUISITE: C S 240; junior-senior status.
DESCRIPTION: Societal impact of computer technology, the computer scientist's place in society, ethical issues. Reading, discussion, and writing seminar.

C S 418 : Bioinformatics. (3:3:0)
OFFERED: W
PREREQUISITE: C S 312.
DESCRIPTION: Computational methods for analyzing biological systems. Dynamic programming, Markov models, Neural Networks, and Bayesian analysis are used to predict secondary structure, tertiary structure, and active sites for drug docking given molecular DNA sequence data.

3. Complete the following supporting courses:

BIO 265 : (Bio-MMBio-PWS) Genomics. (3:2:1)
OFFERED: F, W
PREREQUISITE: Bioinformatics major status or PDBio 120.
DESCRIPTION: Introduction to genomics and genome projects (human, plant, bacterial, yeast, parasites). Introduction to genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

BIO 365 : Computational Biology. (3:2:1)
OFFERED: F
PREREQUISITE: Bio 265, C S 240.
DESCRIPTION: Computational analysis of DNA data; introduction to bioinformatics databasing using Perl and SQL; configuration of UNIX workstations for bioinformatics analyses.

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su

PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or equivalent.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
NOTE: Honors also.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PHSCS 121 : Principles of Physics 1. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Newtonian mechanics. Weekly lab.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

(or, for those who are wishing for a more advanced experience and are prepared, complete Stat 321, 331, 332, or 441; for details see an advisor).

4. Complete three elective courses from any of the 400-level computer science courses (except 404 and 418).

Note: If C S 401R is chosen, it must be taken for 3 hours.

*Hours include courses that may fulfill university core requirements.

Minor in Computer Science (15 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. No D credit is allowed in minor courses.

2. Complete the following:

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

3. Complete two additional computer science courses from the following:

C S 100 : Fundamentals of Computing and Information. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Computing, information structures, programming principles, Internet, World Wide Web, text, spreadsheets, data representations for images, sound and video.
NOTE: For nonmajors.

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

C S 252 : Introduction to Computational Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236.
DESCRIPTION: Finite state automata, regular languages, lexical analysis; push-down automata, context-free languages, parsing; Turing machines and unrestricted grammars; computability complexity, NP-completeness.

Recommendations

1. Although not required, C S 100 is strongly recommended.
2. Students wishing to emphasize programming skills should include C S 240.
3. Students wishing to emphasize computer architecture should include C S 124.
4. Students wishing to emphasize mathematical rigor, should include C S 252.
5. Students wishing to take particular upper-division courses may be allowed to substitute 300- or 400-level computer science courses (except C S 404 and C S 405) for one or both of the two additional computer science courses. This option requires proper preparation and prior approval of course instructors and the undergraduate coordinator.

Minor in Computer Science Teaching (17–18 hours)

Show All Course Descriptions
Hide All Course Descriptions

The computer science teaching minor is intended for students who are pursuing secondary education licensure through the David O. McKay School of Education.

Program Requirements

1. Complete the following:

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

2. Complete one additional computer science course with the approval of the Computer Science Department undergraduate coordinator.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

C S 100 : Fundamentals of Computing and Information. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Computing, information structures, programming principles, Internet, World Wide Web, text, spreadsheets, data representations for images, sound and video.
NOTE: For nonmajors.

C S 124 : (C S-EC En) Introduction to Computer Systems. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming. Logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, and algorithm analysis.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 199R : Academic Internship. (.5-3:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Internships or cooperative education experiences with organizations outside BYU.

200-Level Courses

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

C S 252 : Introduction to Computational Theory. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236.
DESCRIPTION: Finite state automata, regular languages, lexical analysis; push-down automata, context-free languages, parsing; Turing machines and unrestricted grammars; computability complexity, NP-completeness.

300-Level Courses

C S 301R : Topics in Computer Science. (3:3:0)
OFFERED: F, W
PREREQUISITE: Instructor's consent.
DESCRIPTION: Undergraduate-level topics as announced.

C S 312 : Algorithm Analysis. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 240, 252.
DESCRIPTION: Analysis of algorithms including searching, sorting, graphs, and trees.

C S 330 : Concepts of Programming Languages. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 236, 240.

C S 340 : Software Design and Testing. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 236, 240.
DESCRIPTION: Principles of software design, design patterns, design representation, refactoring. Principles of software quality assurance and testing. Development and testing tools.

C S 345 : Operating Systems Design. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 240.
DESCRIPTION: Principles and concepts of operating systems design and the implementation of an operating system.

C S 360 : Internet Programming. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 236, 345.
DESCRIPTION: Internet application programming, including sockets, threads, CGI, database, e-commerce, Web services.

400-Level Courses

C S 401R : Topics in Computer Science. (1-3:ARR:0)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Undergraduate level subjects as announced before each semester.

C S 404 : Ethics and Computers in Society. (2:2:0)
OFFERED: F, W
PREREQUISITE: C S 240; junior-senior status.
DESCRIPTION: Societal impact of computer technology, the computer scientist's place in society, ethical issues. Reading, discussion, and writing seminar.

C S 405 : Creating and Managing a Software Business. (3:3:0)
OFFERED: W
PREREQUISITE: C S 240, Engl 316.
DESCRIPTION: Entrepreneurship, idea/opportunity generation, strategic planning, legal organization, product development, marketing/sales, customer support, fund raising, and effective management.

C S 412 : Modeling and Optimization. (3:3:0)
OFFERED: W
PREREQUISITE: C S 312, Math 343, Stat 221.
DESCRIPTION: Modeling, learning, and decision/control identified and placed in perspective. Linear optimization, game theory, operations research, network flows, and Markov processes.

C S 418 : Bioinformatics. (3:3:0)
OFFERED: W
PREREQUISITE: C S 312.
DESCRIPTION: Computational methods for analyzing biological systems. Dynamic programming, Markov models, Neural Networks, and Bayesian analysis are used to predict secondary structure, tertiary structure, and active sites for drug docking given molecular DNA sequence data.

C S 428 : Software Engineering. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 340.
DESCRIPTION: Analysis, design, implementation, and testing of significant software systems.

C S 431 : Algorithmic Languages and Compilers. (3:3:0)
OFFERED: W, Su
PREREQUISITE: C S 330, 340.
DESCRIPTION: Formal description of algorithmic languages and techniques used in their compilation: semantics, ambiguities, procedures, replication, iteration, recursion.

C S 450 : Introduction to Digital Signal and Image Processing. (3:3:0)
OFFERED: W
PREREQUISITE: C S 312, Math 343, Stat 221.
DESCRIPTION: One- and two-dimensional signal-processing fundamentals, including sampling, noise, transforms, filtering, enhancement, and compression. Hands-on experimentation with speech, music, still images, and full-motion video.

C S 452 : Database Modeling Concepts. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 340, 360.
DESCRIPTION: Database models: relational, deductive, object-oriented. Integrity constraints, query languages, database design.

C S 455 : Computer Graphics. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 340, Math 343.
DESCRIPTION: Interactive computer graphics systems programming and architecture.

C S 456 : Introduction to User Interface Software. (3:3:0)
OFFERED: F
PREREQUISITE: C S 340.
DESCRIPTION: Introduction to software architectures and techniques for graphical user interfaces. Input devices, windowing systems, event-driven programming, interactive geometry.

C S 460 : Computer Communications and Networking. (3:3:0)
OFFERED: F

C S 462 : Large-Scale Distributed System Design. (3:3:0)
OFFERED: F
PREREQUISITE: C S 340, 360.
DESCRIPTION: Designing and implementing client-server enterprise applications. Web servers, application servers, database connectivity, remote procedure calls, transactions, messaging, directory, naming services, threads, security, data formats.

C S 465 : Computer Security. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 360.
RECOMMENDED: C S 404.
DESCRIPTION: Introduction to computer security fundamentals: confidentiality, integrity, authentication, and access control. Secret key and public key cryptography, network security protocols, viruses, and fire walls.

C S 470 : Introduction to Artificial Intelligence. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: C S 312, Math 343, Stat 321.
DESCRIPTION: Introduction to core areas of artifical intelligence; intelligent agents, problem solving and search, knowledge-based systems and inference, planning, uncertainty, learning, and perception.

C S 476 : Introduction to Data Mining. (3:3:0)
OFFERED: F
PREREQUISITE: C S 312.
DESCRIPTION: Introduction to the basics of data mining. CRISP-DM, pre-processing techniques, association rules, linear/logistic regression, clustering, text and web mining, privacy and ethical issues.

C S 478 : Introduction to Neural Networks and Machine Learning. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 312, Math 343, Stat 321.
DESCRIPTION: Neural network and machine learning models include Perceptrons, back-propagation, decision trees, genetic algorithms, and other mechanisms allowing computers to learn without being programmed.

C S 486 : Verification and Validation. (3:3:0)
OFFERED: F
PREREQUISITE: C S 312, Math 343, Stat 321.
DESCRIPTION: Implementing formal verification algorithms and using them in protocol and circuit design; proving both incorrectness and correctness.

500-Level Graduate Courses (available to advanced undergraduates)

C S 501R : Advanced Topics in Computer Science. (1-3:ARR:0)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Advanced undergraduate- and graduate-level subjects as announced before each semester.

C S 557 : Computer-Aided Geometric Design. (3:3:0)
OFFERED: W
PREREQUISITE: C S 240, Math 343; or equivalents.
DESCRIPTION: Free-form curves and surfaces; mathematical theory and algorithms. Bezier and B-spline curves and surfaces, subdivision surfaces, T-splines, free-form deformation, and intersection algorithms. Several programming projects.

C S 579 : Natural Language Processing. (3:3:0)
OFFERED: Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Machine translation, human-computer dialog, question answering, parsing, and generating from an artificial intelligence and machine-learning perspective.

C S 598R : Special Projects. (.5-3:0:0)
PREREQUISITE: Instructor's consent.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Computer Science Faculty

Professors

Barrett, William A

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BA, University of Utah, 1974
PhD, University of Utah, 1978

Burton, Robert Preece

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BA, University of Utah, 1969
PhD, University of Utah, 1973

Egbert, Parris

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BS, University of Utah, 1986
MS, University of Illinois, Urbana, 1990
PhD, University of Illinois, Urbana, 1992

Embley, David W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BA, University of Utah, 1970
MS, University of Utah, 1972
PhD, University of Illinois, 1976

Martinez, Tony Ramon

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BS, University of California, Los Angeles, 1982
MS, University of California, Los Angeles, 1983
PhD, University of California, Los Angeles, 1986

Olsen, Dan Reed

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1976
MS, Brigham Young University, 1978
PhD, University of Pennsylvania, 1981

Sederberg, Thomas W

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1975
MS, Brigham Young University, 1977
PhD, Purdue University, Lafayette, 1983

Woodfield, Scott N

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1975
MS, Brigham Young University, 1978
PhD, Purdue University, Lafayette, 1980

Associate Professors

Clement, Mark Joel

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1985
MS, Brigham Young University, 1989
PhD, Oregon State University, 1994

Giraud-Carrier, Christophe Gerard

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1991
MS, Brigham Young University, 1993
PhD, Brigham Young University, 1994

Goodrich, Michael A

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1992
MS, Brigham Young University, 1995
PhD, Brigham Young University, 1996

Knutson, Charles Douglas

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1988
MS, Brigham Young University, 1994
PhD, Oregon State University, 1998

Morse, Bryan Stuart

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1986
MA, Brigham Young University, 1990
PhD, University of North Carolina, Chapel Hill, 1995

Ng, Yiu-Kai Dennis

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1982
MS, Brigham Young University, 1984
PhD, Kansas State University, 1991

Seamons, Kent Eldon

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1986
PhD, University of Illinois, Urbana, 1996

Snell, Quinn O

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Utah State University, 1992
MS, Utah State University, 1993
PhD, Iowa State University, 1997

Windley, Phillip J

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, University of Idaho, 1982
MS, University of California, Davis, 1990
PhD, University of California, Davis, 1992

Zappala, Daniel Mark Alexander

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Professor
DEGREES: BS, Stanford University, 1990
PhD, University of Southern California, 1997

Assistant Professors

Jones, Michael D

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1995
MS, Brigham Young University, 1997
PhD, University of Utah, 2001

Mercer, Eric G

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Professor
DEGREES: BS, University of Utah, 1996
MS, University of Utah, 1999
PhD, University of Utah, 2002

Ringger, Eric Karl

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1992
MS, University of Rochester, 1994
PhD, University of Rochester, 2000

Seppi, Kevin Darrell

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1982
MS, Santa Clara University, 1987
PhD, University of Texas, Austin, 1990

Ventura, Dan Aaron

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1992
MS, Brigham Young University, 1995
PhD, Brigham Young University, 1998

Warnick, Sean C

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Professor
DEGREES: BS, Arizona State University, 1993
MS, Massachusetts Institute of Technology, 1995
PhD, Massachusetts Institute of Technology, 2003

Associate Teaching Professor

Barker, Joseph Cory

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Associate Teaching Professor
DEGREES: BS, Brigham Young University, 1982
PhD, Brigham Young University, 1994

Assistant Teaching Professors

Rodham, Kenneth J

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Computer Science
RANK: Assistant Teaching Professor
DEGREES: BS, Brigham Young University, 1990
MS, Brigham Young University, 1992
PhD, Brigham Young University, 1995

Roper, Paul Ross

COLLEGE: Physical and Mathematical Sciences

Counseling Psychology and Special Education

Mary Anne Prater, Chair
340 MCKB, (801) 422-3857

David O. McKay School of Education Advisement and Certification Office
120 MCKB, (801) 422-3426

Admission to Degree Program

Students must apply to the Counseling Psychology and Special Education Department for admission to the special education undergraduate degree and post-baccalaureate licensing programs. Applications may be obtained from the department Web site at http://education.byu.edu/cpse. See additional information below.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
BS in Special Education
Emphases:
Mild/Moderate Disabilities
Severe Disabilities

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Special Education
EdS in School Psychology
PhD in Counseling Psychology

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Post-Baccalaureate Special Education Licensing

Individuals who have already completed a bachelor's degree who apply and are admitted to the special education licensing program may be licensed in special education upon completion of the required licensing course work. No degree designation is given for this option.

Admission to BS Programs

Among other factors, the application review process involves consideration of the following:

1. Significant experience working with individuals who have disabilities (see Special Education Exploratory Experience Log and Summary Report in application packet on Web site).
2. A fingerprinting and FBI background check. See Education Advisement and Certification Office (120 MCKB) for

instructions.
3. Successful completion of technology skills assessment.

Additional Licensing Requirements

It is the student's responsibility to be sure that the Praxis test has been taken and that BYU has received the test scores, that the student's fingerprint background clearance is current prior to graduation, and that state licensing fees have been paid. Students will also be responsible for any additional requirements imposed by the state prior to their graduation. To confirm the status of these requirements contact the Education Advisement and Certification Center, 120 MCKB, (801) 422-3426. Graduation and Utah licensure cannot be processed until these requirements have been completed.

This is a limited-enrollment program requiring departmental admissions approval. Please see the Education Advisement and Certification Office for information regarding requirements for admission to this program.

Program Requirements | View MAP

1. Complete the following with at least a B- grade prior to beginning the program:
   CPSE 400 : Exceptional Students: Principles of Collaboration. (2:1:ARR)
   OFFERED: F, W, Sp
   DESCRIPTION: Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

2. Complete the following core courses:
   CPSE 410 : Applied Behavior Analysis in Education. (3:3:2)
   OFFERED: F
   PREREQUISITE: admission to special education program.
   DESCRIPTION: Strategies for educating individuals with or at-risk for disabilities. prevention, early intervention, and treatment strategies.

   CPSE 420 : Assessment and Evaluation of Students with Exceptional Needs. (3:2:1)
   OFFERED: F
   PREREQUISITE: Admission to special education program.
   DESCRIPTION: Determining present levels of performance, classifying students for special education services, and writing goals and objectives for IEP development.

   CPSE 430 : Teaching Reading/Language Arts to Students with Disabilities. (3:3:0)
   OFFERED: W
   PREREQUISITE: Admission to special education program; CPSE 400 or equivalent.
   DESCRIPTION: Research-based methods for teaching language arts to students with disabilities.

   CPSE 470 : Legal Issues Influencing Collaboration in Special Education. (3:3:0)
   OFFERED: Su
   PREREQUISITE: Admission to special education program; CPSE 400 or equivalent.
   DESCRIPTION: Laws and issues influencing special education and educator's roles in collaborating with families and professionals.

   CPSE 480 : Educational and Multicultural Issues in Special Education. (3:ARR:ARR)
   OFFERED: F
   DESCRIPTION: Special education issues: multicultural, historical, and legal foundations.

   IP&T 287 : Instructional Technology for Early Childhood, Elementary, and Special Education. (2:2:ARR)
   OFFERED: F, W
   DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles, along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for early childhood, elementary, and special education settings.

3. Complete 2 hours of the following:
   CPSE 440 : Curriculum and Instruction for Secondary Students with Disabilities. (1-3:ARR:ARR)

OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent; concurrent enrollment in CPSE 446R or 447R.
DESCRIPTION: Selection and adaptation of curriculum accommodations, transition planning, and post-secondary preparation.

4. Complete the following emphasis courses:

CPSE 425 : Foundations in Language Arts Instruction for Students with Disabilities. (3:3:0)
OFFERED: W
PREREQUISITE: Admission to special education program.
DESCRIPTION: Foundations in analyzing and delivering research-based language arts instruction to students with disabilities, including second language learners with disabilities.

CPSE 442 : Social and Behavioral Strategies for Students with Mild/Moderate Disabilities. (3:2:1)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400, 410.
DESCRIPTION: Principles, procedures, and strategies for classroom behavior management, social competence, and individual and school wide intervention plans.

CPSE 446R : Practicum in Secondary Education: Mild/Moderate Disabilities. (1:0:ARR)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent; concurrent enrollment in CPSE 440 (secondary).
DESCRIPTION: Practicum in teaching students with mild-moderate disabilities in secondary settings.

CPSE 452 : Effective Teaching Strategies for Students with Mild/Moderate Disabilities. (3:3:0)
OFFERED: F
PREREQUISITE: Admission to special education program; CPSE 400, 410.
DESCRIPTION: IEP-based lesson planning and teacher-directed and student-mediated instructional strategies.

CPSE 462 : Teaching Math to Students with Disabilities. (3:3:)
OFFERED: Sp
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent.
DESCRIPTION: Research-based methods for teaching mathematics to students with disabilities.

CPSE 490 : Capstone Seminar: Students With Disabilities. (1:1:0)
OFFERED: F, W
PREREQUISITE: Successful completion of all special education courses and concurrent enrollment with student teaching/internship.
DESCRIPTION: Synthesis of knowledge and skills in special education; development of professional ethics and commitment to professional development.

5. Complete 8 hours of the following:

CPSE 466R : Practicum: Teaching Students with Mild/Moderate Disabilities. (1-4:0:ARR)
OFFERED: F, Sp, Su
PREREQUISITE: Admission to special education licensure program; CPSE 400 or equivalent.
DESCRIPTION: Practicum in the effective teaching cycle for students with mild/moderate disabilities.

6. Complete 12 hours of the following student teaching or internship experience:

CPSE 486R : Student Teaching: Students with Mild/Moderate Disabilities. (1-12:ARR:ARR)
OFFERED: F, W, Sp
PREREQUISITE: Successful completion of all core courses and practica in special education.
DESCRIPTION: Culminating exerience teaching students with mild/moderate disabilities in school settings.
NOTE: Fee.

CPSE 496R : Academic Internship: Special Education. (1-12:ARR:ARR)
OFFERED: F, W, Sp
PREREQUISITE: Departmental approval of application; placement one semester in advance of registration.
DESCRIPTION: Culminating experience in the licensure program teaching students with disabilities in a school setting full-time for one academic year.

   OFFERED: W
   PREREQUISITE: Admission to special education program; CPSE 400 or equivalent; concurrent enrollment in CPSE

446R or 447R.
DESCRIPTION: Selection and adaptation of curriculum accommodations, transition planning, and post-secondary preparation.

4. Complete the following emphasis courses:

CPSE 443 : Social and Behavioral Strategies for Students with Severe Disabilities. (3:3:0)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400, 410.
DESCRIPTION: Principles, procedures, and strategies for creating positive educational environments, including functional assessment, behavior intervention plans, and development of social competence.

CPSE 447R : Practicum in Secondary Education: Severe Disabilities. (1:0:ARR)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent; concurrent enrollment in CPSE 440 (secondary).
DESCRIPTION: Practicum in teaching students with severe disabilities in secondary settings.

CPSE 453 : Curriculum and Instruction: Severe Disabilities. (3:3:0)
OFFERED: Sp
PREREQUISITE: Admission to special education program or instructor's consent.
DESCRIPTION: Strategies for designing and implementing educational programs, curricula, and teaching methods for students with severe disabilities.

CPSE 463 : Assistive Technology for Students with Disabilities. (3:3:0)
OFFERED: F
PREREQUISITE: Admission to special education program or instructor's consent.
DESCRIPTION: Principles and applications in using assistive technology to improve the education and communication skills of students with disabilities.

CPSE 490 : Capstone Seminar: Students With Disabilities. (1:1:0)
OFFERED: F, W
PREREQUISITE: Successful completion of all special education courses and concurrent enrollment with student teaching/internship.
DESCRIPTION: Synthesis of knowledge and skills in special education; development of professional ethics and commitment to professional development.

EXSC 461 : Adapted Physical Education for Teaching Majors. (3:2:1)
OFFERED: W
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Program, legal mandates, management techniques, and assessing and identifying special needs students.

5. Complete 8 hours of the following:

CPSE 467R : Practicum: Teaching Students with Severe Disabilities. (1-4:0:ARR)
OFFERED: F, Sp, Su
PREREQUISITE: Admission to special education licensure program; CPSE 400 or equivalent.
DESCRIPTION: Practicum in the effective teaching cycle for students with severe disabilities.

6. Complete 12 hours of the following student teaching or internship experience:

CPSE 487R : Student Teaching: Students with Severe Disabilities. (1-12:ARR:ARR)
OFFERED: F, W, Sp
PREREQUISITE: Successful completion of all core courses and practica in special education.
DESCRIPTION: Culminating experience teaching students with severe disabilities in school settings.

CPSE 496R : Academic Internship: Special Education. (1-12:ARR:ARR)
OFFERED: F, W, Sp
PREREQUISITE: Departmental approval of application; placement one semester in advance of registration.
DESCRIPTION: Culminating experience in the licensure program teaching students with disabilities in a school setting full-time for one academic year.

Undergraduate Courses

400-Level Courses

CPSE 400 : Exceptional Students: Principles of Collaboration. (2:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Basic principles and legislative issues in effectively communicating and collaborating with professionals, parents, and other service providers to meet needs of individuals with disabilities in inclusive educational environments. Lab.

CPSE 401R : Practicum in Educational Partnerships. (1:0:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Admission to elementary, secondary, or special education program.
DESCRIPTION: Collaborating with parents, professionals, and others to meet needs of individuals with disabilities in inclusive or special education environments.

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

CPSE 410 : Applied Behavior Analysis in Education. (3:3:2)
OFFERED: F
PREREQUISITE: admission to special education program.
DESCRIPTION: Strategies for educating individuals with or at-risk for disabilities. prevention, early intervention, and treatment strategies.

CPSE 420 : Assessment and Evaluation of Students with Exceptional Needs. (3:2:1)
OFFERED: F
PREREQUISITE: Admission to special education program.
DESCRIPTION: Determining present levels of performance, classifying students for special education services, and writing goals and objectives for IEP development.

CPSE 425 : Foundations in Language Arts Instruction for Students with Disabilities. (3:3:0)
OFFERED: W
PREREQUISITE: Admission to special education program.
DESCRIPTION: Foundations in analyzing and delivering research-based language arts instruction to students with disabilities, including second language learners with disabilities.

CPSE 430 : Teaching Reading/Language Arts to Students with Disabilities. (3:3:0)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent.
DESCRIPTION: Research-based methods for teaching language arts to students with disabilities.

CPSE 440 : Curriculum and Instruction for Secondary Students with Disabilities. (1-3:ARR:ARR)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent; concurrent enrollment in CPSE 446R or 447R.
DESCRIPTION: Selection and adaptation of curriculum accommodations, transition planning, and post-secondary preparation.

CPSE 442 : Social and Behavioral Strategies for Students with Mild/Moderate Disabilities. (3:2:1)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400, 410.
DESCRIPTION: Principles, procedures, and strategies for classroom behavior management, social competence, and individual and school wide intervention plans.

CPSE 443 : Social and Behavioral Strategies for Students with Severe Disabilities. (3:3:0)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400, 410.
DESCRIPTION: Principles, procedures, and strategies for creating positive educational environments, including functional assessment, behavior intervention plans, and development of social competence.

CPSE 446R : Practicum in Secondary Education: Mild/Moderate Disabilities. (1:0:ARR)
OFFERED: W
PREREQUISITE: Admission to special education program; CPSE 400 or equivalent; concurrent enrollment in CPSE 440 (secondary).
DESCRIPTION: Practicum in teaching students with mild-moderate disabilities in secondary settings.

CPSE 447R : Practicum in Secondary Education: Severe Disabilities. (1:0:ARR)

Dance

Lee Wakefield, Chair
294 RB, (801) 422-5087

College of Health and Human Performance Advisement Center
203 RB, (801) 422-3638

Admission to Degree Program

The degree programs in the Department of Dance carry special enrollment limitations. Please see the college advisement center for specific details.

The Discipline

Dance is an art form expressed and communicated through human movement. Throughout history, and in every culture, people have danced. Dance incorporates the physical, mental, emotional, and spiritual aspects of each individual in creating a unique nonverbal expression of thoughts and feelings. As both process and product, dance has the power to refine neuromuscular skill, broaden understanding, increase creative potential, and expand aesthetic sensitivity. At Brigham Young University, dance celebrates the best in humankind and strives to enrich the lives of all who experience it.

The BYU Department of Dance has been accredited by the National Association of Schools of Dance (NASD) since 1989.

Career Opportunities

The majority of career opportunities in the dance field are teaching and performance related. Teaching opportunities are available in colleges and universities (for those with graduate degrees), public schools, private studios, health and fitness spas, special and adult education programs, day care centers, and recreation programs. Performing opportunities are available by audition with professional and regional companies and in theatrical, television, and film production.

Less common, but equally rewarding dance-related careers are also available in the areas of choreography and dance administration, therapy, criticism, history, research, notation, and reconstruction.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
- BA in Dance
- BA in Dance Education (secondary teacher licensure)

Minors
- Ballroom Dance
- Modern Dance
- World Dance

Students should see their college advisement center for help or information concerning the undergraduate programs.

General Information

The Department of Dance is made up of four divisions: Ballet, Ballroom Dance, World Dance, Modern Dance. These divisions work

cooperatively to provide opportunities for all students at the university to develop their potential in dance.

Besides the wide variety of courses that apply toward the general education Wellness requirement, there are professional courses that develop leadership, performance, and choreographic ability in all types of dance. Performing opportunities are provided in on-campus concerts and off-campus performances with groups that tour throughout the world.

Requirements

1. Majors are counseled to maintain healthy lifestyle practices.
2. Dance technique courses (including Dance 243R and 244R) require a grade of at least B– for advancement to next level.

Economics

Michael R Ransom, Chair
130 FOB, (801) 422-3463

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

Admission to Degree Program

All degree programs in the Department of Economics are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Economics examines how societies choose to allocate scarce resources among competing uses. A broad range of contemporary policy issues are studied in fields such as natural resource and environmental economics; economic development and growth; international trade and finance; economic history; the organization of industries; the development and efficiency of law; business cycles; labor markets; and public and private finance.

Career Opportunities

Professional economists work in three basic areas: business, government, and academics. Undergraduates generally pursue training beyond their BS/BA in economics if they wish to become professional economists.

Those in business forecast and analyze various aspects of the economy or of particular markets and most often work for brokerage firms, business or economic consulting firms, investment banks, insurance companies, or large manufacturing firms.

Those in government accumulate, interpret, and analyze national and international data in support of policy development and work for agencies such as the U.S. State Department, Treasury Department, Bureau of Labor Statistics, and Office of the Trade Representative; for state planning bodies and regulatory commissions; or for international bodies like the World Bank or IMF.

Academic economists teach and conduct research at colleges and universities. Entry into these positions requires training at least as far as the master's level; for the most part, the professional degree is the PhD.

Undergraduates who are not interested in postundergraduate study in economics generally pursue one of three options: graduate training in a profession (e.g., the MBA, MPA, JD, or MD); employment with a business consulting, economic consulting, brokerage, or other specialized service provider that relies to a substantial degree on economic analysis; or employment with a government agency or entity that relies on economic analysis and data. In the latter two areas, those with BAs typically gather and analyze data and provide research support under the direction of professional staff economists. A BA/BS in economics is also very good preparation for those interested in foreign service careers or work with organizations in economic development, international finance, or actuarial licensing. Many undergraduates pursue business careers, including those of finance, marketing, sales, and production.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

BA in Economics (40–57 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Minimum residence requirement is 21 hours in the major.
2. Major courses: complete the following with a grade of C– or better:

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

ECON 378 : Statistics for Economists. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Econ 110, Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Introduction to matrix algebra and statistics in preparation for regression analysis. Other topics include: probability, random variables, density and distribution functions, estimation, hypothesis testing.

(or equivalent)
ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

ECON 382 : Intermediate Price Theory 2. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 380.
DESCRIPTION: Welfare theory, imperfect information, imperfect competition, uncertainty, externalities, and public goods.

ECON 388 : Introduction to Econometrics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Mathematical and statistical techniques used in estimating, predicting, and testing hypotheses associated with quantifiable economic relationships.

Note: Equivalence to Econ 378 includes Stat 321 and Math 343.

3. Supporting courses: complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

(Math 119 with a B+ or better may be substituted)

Note 1: A *university* calculus course such as Math 112 or 113 is strongly recommended. Deferred students are encouraged to take a refresher math course such as Eng T 295R before or concurrent with Econ 378, 380, or 381.

Note 2: For students contemplating graduate work in economics, the 500-level economics courses plus Math 113, 214, and 343 are strongly recommended.

4. Complete GE Foreign Language or 7 hours of mathematics in addition to Math 112.

5. Complete 15 hours from the following (at least 12 hours must be from courses 410-588):

ECON 210 : Introduction to Agricultural Economics. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic principles and policies applied to producing and allocating agricultural products.

ECON 213R : Topics in Economic Analysis. (.5-3:ARR:ARR)
PREREQUISITE: Econ 110 or equivalent.

ECON 215 : History of Economic Thought. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Development of economic doctrines from preclassical through contemporary economics. Contributions of individual writers and schools of thought.

ECON 230 : Economic Development and Growth. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Problems and processes of economic growth and development, emphasizing less-developed nations.

ECON 253 : Money and Banking. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic principles applied to monetary analysis and policy and the banking structure.

ECON 257 : International Trade and Finance. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic analysis of the mechanisms, problems, institutions, and policies of trade among countries. Financial and monetary arrangements that facilitate trade.

ECON 274 : American Economic History. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Impact on households, firms, and government of America's transformation from a rural, agricultural colony to a major industrial nation.

ECON 275 : Public Finance. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economics of decision making in the public sector; cost-benefit analysis and efficiency-equity issues of taxation and expenditure policies.

ECON 410 : Agricultural Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Application of supply and demand concepts to price determination and analysis in agricultural markets.

ECON 413R : Topics in Economic Theory. (.5-5:ARR:ARR)
PREREQUISITE: Econ 378, 380, 381, and/or 382, depending on topic.

ECON 415 : History of Economic Thought. (3:3:0)
PREREQUISITE: Econ 380, 381.

ECON 420 : Economics of Antitrust Law and Regulation. (3:3:0)
PREREQUISITE: Econ 380.
RECOMMENDED: Econ 382.
DESCRIPTION: Economic analysis of reasons for--and effects of--antitrust laws and regulation in selected areas, including utilities, telecommunications, transportation, energy, health, safety, and the environment.

ECON 421 : Law and Economics. (3:3:0)

PREREQUISITE: Econ 378, 380.
DESCRIPTION: Common law allocative mechanisms (contract, tort, and property law) as alternatives to collective intervention when markets fail; consideration of economic logic of law.

ECON 431 : Economic Development. (3:3.0:0.0)
PREREQUISITE: Econ 382 or concurrent enrollment; Econ 388 or PlSc 328.
DESCRIPTION: Microeconomic analysis of the causes of income differences across countries.

ECON 432 : Economic Growth. (3:3.0:0.0)
PREREQUISITE: Econ 380, 381.
RECOMMENDED: Econ 388.
DESCRIPTION: Theory and evidence relating to economic growth, including physical and human capital accumulation, population, technological change, institutions, and government.

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

ECON 450 : Financial Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.
DESCRIPTION: Theory of financial economics, emphasizing capital markets, investment decisions, choice, capital asset pricing model, futures and options markets, efficient markets, and capital structures.

ECON 453 : Monetary Theory and Policy. (3:3:0)
PREREQUISITE: Econ 380, 381; 388 or concurrent enrollment.
DESCRIPTION: Macroeconomic aspects of money demand, money supply, the monetary transmission mechanism, central bank policy, and other current issues.

ECON 458 : International Trade Theory and Applications. (3:3:0)
PREREQUISITE: Econ 380.
DESCRIPTION: Microeconomic analysis of why nations trade, who wins and loses from trade, and the costs and benefits of various trade policies.

ECON 459 : International Monetary Theory. (3:3:0)
PREREQUISITE: Econ 380, 381, 388.
DESCRIPTION: Monetary and macroeconomic aspects of international relations dealing primarily with short-run balance-of-payments disequilibrium and adjustments.

ECON 463 : Economics of the Labor Market. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.

ECON 465 : Health Economics. (3:3:0)
PREREQUISITE: Econ 382; 388 or concurrent enrollment.
DESCRIPTION: Economic models of health-care markets, including the supply and demand for health and health care, insurance, market imperfections, public-sector involvement, and regulation.

ECON 468 : Urban Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic models relating to spatial location of economic activities and development of cities. Application of economic theory to problems and policies associated with housing, urban transportation, congestion, local government finance, and other urban problems.

ECON 474 : Topics in Economic History. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.

ECON 475 : Public Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.

ECON 476 : Industrial Organization. (3:3:0)
PREREQUISITE: Econ 378, 380, 382.

ECON 478 : Game Theory and Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Application of game theory to study strategic interaction between individuals and organizations. Applications include imperfect competition, insurance markets, and bargaining.

ECON 482 : Welfare Economics. (3:3.0:0.0)
PREREQUISITE: Econ 378, 380, 382; or equivalents.
DESCRIPTION: General equilibrium theorems and considerations that must guide applied economic work and provide quantitative information on the effects of alternative policy measures.

ECON 486 : Mathematical Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Further development of optimization and comparative statics. Differential equations and dynamic analysis.

ECON 580 : Advanced Price Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 378, 380, 382; or equivalents.
DESCRIPTION: Modern theories of consumers, producers, and competitive equilibria.

ECON 581 : Advanced Macroeconomics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory of determining national income, employment, inflation, and interest rates. Issues of economic fluctuations, economic growth, and monetary and fiscal policy.

ECON 582 : Topics in Mathematical Economics. (3:3:0)
OFFERED: W
PREREQUISITE: Econ 580.
DESCRIPTION: Advanced topics such as risk and uncertainty, game theory, and capital theory.

ECON 586 : Advanced Mathematics for Economists. (3:3:0)
PREREQUISITE: Econ 380, Math 214; or equivalents.
DESCRIPTION: Advanced mathematical methods that have proved useful in economic modeling.

ECON 588 : Econometrics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory and practice of formulating, estimating, and analyzing economic models.

Note 1: The 200-level field courses are intended as interim courses as a student moves from Econ 110 into the 300-level core courses. Once the student has completed Econ 380, he or she is strongly encouraged to take the 400-level rather than the 200-level field courses.

Note 2: Students should not take both a 200-level and a 400-level course with the same last two digits (e.g., Econ 275 and 475), although they are encouraged to take the 300- and 500-level theory classes (e.g., Econ 380 and 580).

*Hours include courses that may fulfill university core requirements.

Hide All Course Descriptions

Program Requirements | View MAP

1. Minimum residence requirements is 21 hours in the major.
2. Major courses: complete the following with a grade of C– or better:

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

ECON 378 : Statistics for Economists. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Econ 110, Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Introduction to matrix algebra and statistics in preparation for regression analysis. Other topics include: probability, random variables, density and distribution functions, estimation, hypothesis testing.

(or equivalent)
ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

ECON 382 : Intermediate Price Theory 2. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 380.
DESCRIPTION: Welfare theory, imperfect information, imperfect competition, uncertainty, externalities, and public goods.

ECON 388 : Introduction to Econometrics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Mathematical and statistical techniques used in estimating, predicting, and testing hypotheses associated with quantifiable economic relationships.

Note: Equivalence to Econ 378 includes Stat 321 and Math 343.

3. Supporting courses: complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

(Math 119 with a B+ or better may be substituted)

Note 1: A *university* calculus course such as Math 112 or 113 is strongly recommended. Deferred students are encouraged to take a refresher math course such as Eng T 295R before or concurrent with Econ 378, 380, or 381.

Note 2: For students contemplating graduate work in economics, the 500-level economics courses plus Math 113, 214, and 343 are strongly recommended.

4. Complete 15 hours from the following (at least 12 hours must be from courses 410-588):

ECON 210 : Introduction to Agricultural Economics. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic principles and policies applied to producing and allocating agricultural products.

ECON 213R : Topics in Economic Analysis. (.5-3:ARR:ARR)
PREREQUISITE: Econ 110 or equivalent.

ECON 215 : History of Economic Thought. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Development of economic doctrines from preclassical through contemporary economics. Contributions of individual writers and schools of thought.

ECON 230 : Economic Development and Growth. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Problems and processes of economic growth and development, emphasizing less-developed nations.

ECON 253 : Money and Banking. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic principles applied to monetary analysis and policy and the banking structure.

ECON 257 : International Trade and Finance. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic analysis of the mechanisms, problems, institutions, and policies of trade among countries. Financial and monetary arrangements that facilitate trade.

ECON 274 : American Economic History. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Impact on households, firms, and government of America's transformation from a rural, agricultural colony to a major industrial nation.

ECON 275 : Public Finance. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economics of decision making in the public sector; cost-benefit analysis and efficiency-equity issues of taxation and expenditure policies.

ECON 410 : Agricultural Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Application of supply and demand concepts to price determination and analysis in agricultural markets.

ECON 413R : Topics in Economic Theory. (.5-5:ARR:ARR)
PREREQUISITE: Econ 378, 380, 381, and/or 382, depending on topic.

ECON 415 : History of Economic Thought. (3:3:0)
PREREQUISITE: Econ 380, 381.

ECON 420 : Economics of Antitrust Law and Regulation. (3:3:0)
PREREQUISITE: Econ 380.
RECOMMENDED: Econ 382.
DESCRIPTION: Economic analysis of reasons for--and effects of--antitrust laws and regulation in selected areas, including utilities, telecommunications, transportation, energy, health, safety, and the environment.

ECON 421 : Law and Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Common law allocative mechanisms (contract, tort, and property law) as alternatives to collective

intervention when markets fail; consideration of economic logic of law.

ECON 431 : Economic Development. (3:3.0:0.0)
PREREQUISITE: Econ 382 or concurrent enrollment; Econ 388 or PlSc 328.
DESCRIPTION: Microeconomic analysis of the causes of income differences across countries.

ECON 432 : Economic Growth. (3:3.0:0.0)
PREREQUISITE: Econ 380, 381.
RECOMMENDED: Econ 388.
DESCRIPTION: Theory and evidence relating to economic growth, including physical and human capital accumulation, population, technological change, institutions, and government.

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

ECON 450 : Financial Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.
DESCRIPTION: Theory of financial economics, emphasizing capital markets, investment decisions, choice, capital asset pricing model, futures and options markets, efficient markets, and capital structures.

ECON 453 : Monetary Theory and Policy. (3:3:0)
PREREQUISITE: Econ 380, 381; 388 or concurrent enrollment.
DESCRIPTION: Macroeconomic aspects of money demand, money supply, the monetary transmission mechanism, central bank policy, and other current issues.

ECON 458 : International Trade Theory and Applications. (3:3:0)
PREREQUISITE: Econ 380.
DESCRIPTION: Microeconomic analysis of why nations trade, who wins and loses from trade, and the costs and benefits of various trade policies.

ECON 459 : International Monetary Theory. (3:3:0)
PREREQUISITE: Econ 380, 381, 388.
DESCRIPTION: Monetary and macroeconomic aspects of international relations dealing primarily with short-run balance-of-payments disequilibrium and adjustments.

ECON 463 : Economics of the Labor Market. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.

ECON 465 : Health Economics. (3:3:0)
PREREQUISITE: Econ 382; 388 or concurrent enrollment.
DESCRIPTION: Economic models of health-care markets, including the supply and demand for health and health care, insurance, market imperfections, public-sector involvement, and regulation.

ECON 468 : Urban Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic models relating to spatial location of economic activities and development of cities. Application of economic theory to problems and policies associated with housing, urban transportation, congestion, local government finance, and other urban problems.

ECON 474 : Topics in Economic History. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.

ECON 475 : Public Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.

ECON 476 : Industrial Organization. (3:3:0)
PREREQUISITE: Econ 378, 380, 382.

ECON 478 : Game Theory and Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Application of game theory to study strategic interaction between individuals and organizations. Applications include imperfect competition, insurance markets, and bargaining.

ECON 482 : Welfare Economics. (3:3.0:0.0)
PREREQUISITE: Econ 378, 380, 382; or equivalents.

DESCRIPTION: General equilibrium theorems and considerations that must guide applied economic work and provide quantitative information on the effects of alternative policy measures.

ECON 486 : Mathematical Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Further development of optimization and comparative statics. Differential equations and dynamic analysis.

ECON 580 : Advanced Price Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 378, 380, 382; or equivalents.
DESCRIPTION: Modern theories of consumers, producers, and competitive equilibria.

ECON 581 : Advanced Macroeconomics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory of determining national income, employment, inflation, and interest rates. Issues of economic fluctuations, economic growth, and monetary and fiscal policy.

ECON 582 : Topics in Mathematical Economics. (3:3:0)
OFFERED: W
PREREQUISITE: Econ 580.
DESCRIPTION: Advanced topics such as risk and uncertainty, game theory, and capital theory.

ECON 586 : Advanced Mathematics for Economists. (3:3:0)
PREREQUISITE: Econ 380, Math 214; or equivalents.
DESCRIPTION: Advanced mathematical methods that have proved useful in economic modeling.

ECON 588 : Econometrics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory and practice of formulating, estimating, and analyzing economic models.

Note 1: The 200-level field courses are intended as interim courses as a student moves from Econ 110 into the 300-level core courses. Once the student has completed Econ 380, he or she is strongly encouraged to take the 400-level rather than the 200-level field courses.

Note 2: Students should not take both a 200-level and a 400-level course with the same last two digits (e.g., Econ 275 and 475), although they are encouraged to take the 300- and 500-level theory classes (e.g., Econ 380 and 580).

Program Requirements

1. Complete the following:

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

2. Complete 9 additional hours in economics courses.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

: Honors Economic Principles and Problems.

ECON 199R : Academic Internship. (.5-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Faculty advisor's and department chair's prior written consent
NOTE: Not counted toward required major or minor hours.

200-Level Courses

ECON 210 : Introduction to Agricultural Economics. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic principles and policies applied to producing and allocating agricultural products.

ECON 213R : Topics in Economic Analysis. (.5-3:ARR:ARR)
PREREQUISITE: Econ 110 or equivalent.

ECON 215 : History of Economic Thought. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Development of economic doctrines from preclassical through contemporary economics. Contributions of individual writers and schools of thought.

ECON 230 : Economic Development and Growth. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Problems and processes of economic growth and development, emphasizing less-developed nations.

ECON 253 : Money and Banking. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic principles applied to monetary analysis and policy and the banking structure.

ECON 257 : International Trade and Finance. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economic analysis of the mechanisms, problems, institutions, and policies of trade among countries. Financial and monetary arrangements that facilitate trade.

ECON 265 : Introduction to Health Economics. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Applying economic principles to markets for health and health care.

ECON 274 : American Economic History. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Impact on households, firms, and government of America's transformation from a rural, agricultural colony to a major industrial nation.

ECON 275 : Public Finance. (3:3:0)
PREREQUISITE: Econ 110 or equivalent.
DESCRIPTION: Economics of decision making in the public sector; cost-benefit analysis and efficiency-equity issues of taxation and expenditure policies.

ECON 280 : Introduction to Economic Analysis and Reasoning. (3:3:0)
PREREQUISITE: Econ 110; Math 112 or 119.
DESCRIPTION: Maximizing self-interest model of behavior and the environment, and constraints within which business and household decisions are made.
NOTE: Not for majors or major credit.

300-Level Courses

ECON 378 : Statistics for Economists. (3:3:0)

OFFERED: F, W, Sp, Su
PREREQUISITE: Econ 110, Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Introduction to matrix algebra and statistics in preparation for regression analysis. Other topics include: probability, random variables, density and distribution functions, estimation, hypothesis testing.

ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

ECON 382 : Intermediate Price Theory 2. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 380.
DESCRIPTION: Welfare theory, imperfect information, imperfect competition, uncertainty, externalities, and public goods.

ECON 388 : Introduction to Econometrics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Mathematical and statistical techniques used in estimating, predicting, and testing hypotheses associated with quantifiable economic relationships.

400-Level Courses

ECON 410 : Agricultural Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Application of supply and demand concepts to price determination and analysis in agricultural markets.

ECON 413R : Topics in Economic Theory. (.5-5:ARR:ARR)
PREREQUISITE: Econ 378, 380, 381, and/or 382, depending on topic.

ECON 415 : History of Economic Thought. (3:3:0)
PREREQUISITE: Econ 380, 381.

ECON 420 : Economics of Antitrust Law and Regulation. (3:3:0)
PREREQUISITE: Econ 380.
RECOMMENDED: Econ 382.
DESCRIPTION: Economic analysis of reasons for--and effects of--antitrust laws and regulation in selected areas, including utilities, telecommunications, transportation, energy, health, safety, and the environment.

ECON 421 : Law and Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Common law allocative mechanisms (contract, tort, and property law) as alternatives to collective intervention when markets fail; consideration of economic logic of law.

ECON 431 : Economic Development. (3:3.0:0.0)
PREREQUISITE: Econ 382 or concurrent enrollment; Econ 388 or PISc 328.
DESCRIPTION: Microeconomic analysis of the causes of income differences across countries.

ECON 432 : Economic Growth. (3:3.0:0.0)
PREREQUISITE: Econ 380, 381.
RECOMMENDED: Econ 388.
DESCRIPTION: Theory and evidence relating to economic growth, including physical and human capital accumulation, population, technological change, institutions, and government.

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

ECON 450 : Financial Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.
DESCRIPTION: Theory of financial economics, emphasizing capital markets, investment decisions, choice, capital asset pricing model, futures and options markets, efficient markets, and capital structures.

ECON 453 : Monetary Theory and Policy. (3:3:0)
PREREQUISITE: Econ 380, 381; 388 or concurrent enrollment.
DESCRIPTION: Macroeconomic aspects of money demand, money supply, the monetary transmission mechanism, central bank policy, and other current issues.

ECON 458 : International Trade Theory and Applications. (3:3:0)
PREREQUISITE: Econ 380.
DESCRIPTION: Microeconomic analysis of why nations trade, who wins and loses from trade, and the costs and benefits of various trade policies.

ECON 459 : International Monetary Theory. (3:3:0)
PREREQUISITE: Econ 380, 381, 388.

ECON 463 : Economics of the Labor Market. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.

ECON 465 : Health Economics. (3:3:0)
PREREQUISITE: Econ 382; 388 or concurrent enrollment.
DESCRIPTION: Economic models of health-care markets, including the supply and demand for health and health care, insurance, market imperfections, public-sector involvement, and regulation.

ECON 468 : Urban Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Economic models relating to spatial location of economic activities and development of cities. Application of economic theory to problems and policies associated with housing, urban transportation, congestion, local government finance, and other urban problems.

ECON 474 : Topics in Economic History. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.

ECON 475 : Public Economics. (3:3:0)
PREREQUISITE: Econ 380, 382, 388.

ECON 476 : Industrial Organization. (3:3:0)
PREREQUISITE: Econ 378, 380, 382.

ECON 478 : Game Theory and Economics. (3:3:0)
PREREQUISITE: Econ 380; 388 or concurrent enrollment.
DESCRIPTION: Application of game theory to study strategic interaction between individuals and organizations. Applications include imperfect competition, insurance markets, and bargaining.

ECON 482 : Welfare Economics. (3:3.0:0.0)
PREREQUISITE: Econ 378, 380, 382; or equivalents.
DESCRIPTION: General equilibrium theorems and considerations that must guide applied economic work and provide quantitative information on the effects of alternative policy measures.

ECON 486 : Mathematical Economics. (3:3:0)
PREREQUISITE: Econ 378, 380.
DESCRIPTION: Further development of optimization and comparative statics. Differential equations and dynamic analysis.

ECON 490 : Senior Paper. (1:0:0)
PREREQUISITE: instructor's consent.

ECON 498R : Readings in Economics. (.5-2:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
NOTE: P/F grade only; maximum of 2 credit hours; 3 hours of reading per week required for each credit hour taken. Not counted toward required major hours.

500-Level Graduate Courses (available to advanced undergraduates)

ECON 580 : Advanced Price Theory. (3:3:0)
OFFERED: F
PREREQUISITE: Econ 378, 380, 382; or equivalents.
DESCRIPTION: Modern theories of consumers, producers, and competitive equilibria.

ECON 581 : Advanced Macroeconomics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory of determining national income, employment, inflation, and interest rates. Issues of economic fluctuations, economic growth, and monetary and fiscal policy.

ECON 582 : Topics in Mathematical Economics. (3:3:0)
OFFERED: W
PREREQUISITE: Econ 580.
DESCRIPTION: Advanced topics such as risk and uncertainty, game theory, and capital theory.

ECON 586 : Advanced Mathematics for Economists. (3:3:0)
PREREQUISITE: Econ 380, Math 214; or equivalents.
DESCRIPTION: Advanced mathematical methods that have proved useful in economic modeling.

ECON 588 : Econometrics. (3:3:0)
OFFERED: F or W
PREREQUISITE: Econ 380, 381, 382, 388; or equivalents.
DESCRIPTION: Theory and practice of formulating, estimating, and analyzing economic models.

ECON 599R : Academic Internship: Supervised Management and Training. (.5-6:0:ARR)
PREREQUISITE: Course work pertinent to proposed experience.

Economics Faculty

Professors

Butler, Richard John

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BS, University of Utah, 1972
PhD, University of Chicago, 1979

Jensen, Farrell E

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BS, Utah State University, 1964
MS, Kansas State University, 1966
PhD, Kansas State University, 1972

Kearl, J R

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BA, Utah State University, 1971
PhD, Massachusetts Institute of Technology, 1975
PD, Harvard University, 1978

Lambson, Val Eugene

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BA, Brigham Young University, 1979
MA, University of Rochester, 1982
PhD, University of Rochester, 1983

McDonald, James B.

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BS, Utah State University, 1964
MS, Utah State University, 1966
PhD, Purdue University, 1970

Pope, Clayne L

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BA, Brigham Young University, 1965
MA, University of Chicago, 1968
PhD, University of Chicago, 1972

Pope, Rulon Dean

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: PhD, University of California, Berkeley, 1976

Pope, Clive Arden

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BS, Brigham Young University, 1978
MS, Iowa State University, 1981
PhD, Iowa State University, 1981

Ransom, Michael R

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BA, Brigham Young University, 1977
MA, Princeton University, 1980
PhD, Princeton University, 1983

Spencer, David Eugene

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Professor
DEGREES: BA, Brigham Young University, 1971
MS, Texas A&M University, 1973
PhD, Texas A&M University, 1974

Associate Professors

Bradford, Scott C

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1987
MPA, Princeton University, 1991
PhD, Harvard University, 1998

Cardon, James Harold

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1992
MA, Princeton University, 1995
PhD, Princeton University, 1996

Eide, Eric Raymond

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1988
MS, Brigham Young University, 1989
PhD, University of California, Santa Barbara, 1993

Lefgren, Lars John

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1996
PhD, University of Chicago, 2001

Phillips, Kerk Layne

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1986
MA, University of Rochester, 1990
PhD, University of Rochester, 1991

Showalter, Mark H.

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1986
PhD, Massachusetts Institute of Technology, 1991

Assistant Professors

Condie, Scott

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 2002
PhD, Cornell University, 2007

Garner, Phillip David

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1997
PhD, Brown University, 2002

McIntyre, Frank L

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Assistant Professor
DEGREES: PhD, Stanford University, 2004

Platt, Brennan

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Assistant Professor
DEGREES: BS, Arizona State University, 2001
MA, University of Minnesota, 2005
PhD, University of Minnesota, 2006

Price, Joseph

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Assistant Professor
DEGREES: PhD, Cornell University, 2007

Sims, David

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Economics
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1999
PhD, Massachusetts Institute of Technology, 2004

Undergraduate Courses

300-Level Courses

EDLF 362 : Introduction to Comparative and International Development Education. (3:3:0)
OFFERED: F
DESCRIPTION: Methods, major concepts, and current trends in comparative and international development education; role of education in promoting national development.

EDLF 363 : Education, Poverty, and Community Development. (3:3:0)
OFFERED: W
DESCRIPTION: Examines the nexus between education, poverty, and socioeconomic development challenges facing developing countries through the perspective of economics, religion, and the state.

EDLF 390R : Special Topics in Education. (1-3:ARR:ARR)
OFFERED: On demand
DESCRIPTION: Various topics dealing with educational issues.

EDLF 399R : Academic Internship. (1-9:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Departmental consent.
DESCRIPTION: On-the-job experience and training under the guidance of a mentor.

400-Level Courses

EDLF 452 : Foundations of Education. (.5-2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to the philosophical, sociological, and historical foundations of American education, with special reference to current issues in U.S. public schooling.

EDLF 494R : Independent Readings. (1-3:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Departmental consent.
DESCRIPTION: Readings in education.

EDLF 495R : Independent Research. (1-3:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Departmental consent.
DESCRIPTION: Student research mentored by faculty member.

500-Level Graduate Courses (available to advanced undergraduates)

EDLF 515R : Special Topics in Education. (.5-3:3:1)
OFFERED: F, W, Su
NOTE: Credit earned in 515R is not counted toward graduate degrees.

: Curriculum Innovation.
: Effective Teaching.
: Higher Education Topics.
: Home-School Relationships.
: School Leadership.
: Topics in Community Educating.
: Topics in Educational Leadership.
: Topics in Elementary Leadership.

EDLF 530 : School and Community Programs in Education. (2:2:0)
DESCRIPTION: Examination of programs in school and community for enhancement of teaching and learning.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Ira A. Fulton College of Engineering and Technology Advisement Center
264 CB, (801) 422-4325

Admission to Degree Program

The degree programs in the Department of Electrical and Computer Engineering are open enrollment.

The Discipline

Electrical and computer engineers study phenomena, devices, and systems for information processing, communication, and systems control. These studies, grounded primarily in physics and mathematics, have enabled engineers to develop the innovative new technologies for information acquisition, processing, storage, and communication that have made possible our contemporary Age of Information.

Examples of systems developed by electrical and computer engineers include radio, television, radar, satellite communication systems, cellular telephones, laptop computers, fiber-optic communications devices, global and local computer networks, robotic systems, control systems, fax machines, medical image processing, computer modems, lasers, pagers, computer vision, programmable calculators, VLSI chips, computer-aided design tools, and medical instruments.

Although it is the goal of engineering to produce useful objects, electrical and computer engineers typically play a limited role in construction, assembly, or mass production. Instead, they focus on design, analysis, and the development of the underlying theory and knowledge applied in the design process.

Many engineers are involved in designing and developing products, but other electrical and computer engineers may choose to work in product marketing, project management, system calibration and maintenance, product testing, or other areas related to electronic systems.

Computer programming skills and the ability to use advanced design and simulation software packages are vital in electrical as well as computer engineering. As part of their training, electrical engineers become familiar with a variety of programming languages and software environments. This experience is closely coupled to real-world applications.

Career Opportunities

Electrical and computer engineers are among the most actively recruited students graduating from a four-year program. Baccalaureate engineers typically start their careers as members of project teams with one or more of the following responsibilities: designing digital, analog, or opto-electronic circuits; creating or testing application-specific software; testing components or systems; or providing technical support for sales. Later on, many engineers find themselves pursuing managerial careers, starting their own companies, or even managing entrepreneurial funds. Top graduates are also well received by medical schools, law schools, and professional and management programs.

The BS curriculum for both the electrical engineering and computer engineering degrees is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. (ABET).

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
BS in Computer Engineering
BS in Electrical Engineering

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Electrical and Computer Engineering
PhD in Electrical and Computer Engineering

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

Students are strongly encouraged to seek advisement early in their studies to ensure effective course scheduling. Contact the college advisement center (264 CB) or the department (459 CB). Students should enroll in EC En 191 in their first year of study at BYU.

In both undergraduate degree programs offered in the department, students are required to pass prerequisite courses in the major with a grade of C– or better before taking follow-on courses.

Professional Registration. The Electrical and Computer Engineering Department provides the option for graduates to become registered professional engineers. General qualifications for becoming registered are explained in the Ira A. Fulton College of Engineering and Technology section of this catalog. This status is vital to engineering practice in the public sector and to much consulting work. The basic electrical and computer engineering program outlined in this department prepares graduates to successfully complete the Fundamentals of Engineering (FE) examination. Students who wish to become registered as professional engineers are advised to discuss this matter with an advisor from the department soon after admission to the professional program.

BS in Computer Engineering (92–93 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Learning Outcomes

1. **Fundamentals:** An ability to apply knowledge of mathematics (differential, integral, and multivariate calculus; linear algebra; complex variables; differential equations; discrete math; and probability), science (Newtonian mechanics; electricity and magnetism; and introductory chemistry), computer fundamentals (programming languages; computer organization; and software/hardware interfaces), and engineering science (signals and systems, electromagnetics, and electronic devices).
2. **Experiments and data analysis:** An ability to design and conduct experiments, as well as to analyze and interpret data.
3. **System design:** An ability to design a system component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
4. **Teamwork:** An ability to function on multi-disciplinary teams.
5. **Leadership:** An understanding of principles of leadership and project management.
6. **Engineering problems:** An ability to identify, formulate, and solve engineering problems.
7. **Ethics:** An understanding of professional and ethical responsibility.
8. **Communication skills:** An ability to communicate effectively.
9. **Broad education:** The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
10. **Lifelong learning:** A recognition of the need for, and an ability to engage in life-long learning.
11. **Contemporary issues:** A knowledge of contemporary issues.
12. **Techniques, skills, and tools:** An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Program Requirements | View MAP

1. Complete the following prerequisite courses:

   MATH 112 : Calculus 1. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 and 111 or equivalent.
   - DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
   - NOTE: Honors also.

   MATH 113 : Calculus 2. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 112 or equivalent.
   - DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
   - NOTE: Honors also.

   PHSCS 121 : Principles of Physics 1. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Calculus or concurrent enrollment.
   - DESCRIPTION: Newtonian mechanics. Weekly lab.

   PHSCS 220 : Principles of Physics 3. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
   - DESCRIPTION: Electricity and magnetism. Weekly lab.

2. Complete the following:

   EC EN 124 : (EC En-C S) Introduction to Computing Systems. (3:3:2)
   - OFFERED: F, W, Sp

PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming: logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, algorithm analysis.

EC EN 191 : New Student Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Overview of electrical and computer engineering with group and individual design projects.

EC EN 212 : Circuit Analysis and Laboratory. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220 and Math 113 with an average grade of B or better, or clearance from department advisor.
DESCRIPTION: Analysis of electric circuits; sinusoidal-steady state, resonance, Bode plots, and balanced three-phase circuits. Includes labs.
NOTE: Fee.

EC EN 224 : Fundamentals of Digital Systems. (3:3:2)
OFFERED: F, W, Su
PREREQUISITE: CS-ECEn 124.
DESCRIPTION: Digital logic: theory, design, and implementation of combinational and sequential logic. Laboratory experience in construction of digital logic circuits.

EC EN 313 : Electronic Circuit Design 1. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: EC En 212.
DESCRIPTION: Analysis and design of linear and nonlinear electronic circuit building blocks.

EC EN 320 : Digital System Design. (3:3:3)
OFFERED: F, W
PREREQUISITE: EC En 212, 224.
DESCRIPTION: Advanced digital design, including hardware description languages, electrical properties of digital circuits, synchronous and asynchronous circuits, computer arithmetic, and interfacing to external circuitry.

EC EN 324 : Computer Systems. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: EC En 224, C S 235.
DESCRIPTION: Machine-level representations of programs and data, processor architecture, program performance optimizaton, memory hierarchies, virtual memory, linking, exceptions.

EC EN 370 : (EC En - Math 331) Probability Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 343.
DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

EC EN 380 : Signals and Systems. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: ECEn 212, Math 334.
DESCRIPTION: Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

EC EN 391 : Junior Seminar. (.5:1:0)
OFFERED: F
PREREQUISITE: EC En 212.
DESCRIPTION: Seminars and colloquia on current topics in electrical and computer engineering, as well as ethics, contemporary issues, and life-long learning.
NOTE: Attendance and some writing are required.

EC EN 490 : Team Design Project. (4:2:6)
OFFERED: F, W
PREREQUISITE: Selected 400-level electrical and computer engineering courses, depending on the specific project.
DESCRIPTION: Culminating design experience based on skills learned in advanced technical courses. Students work in teams to plan, design, test, and demonstrate a major project.

3. Complete at least 19 hours from the following advanced technical program and technical electives:

a. Complete at least two of the following courses:

EC EN 425 : Real-Time Operating Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 324.
DESCRIPTION: Hardware/software interface, real-time kernel internals, implementation of high-level language constructs, issues in real-time application software development.

EC EN 427 : Embedded Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 320, 324.
DESCRIPTION: Interfacing digital hardware components to an embedded system processor. Developing the hardware-software interface. Developing application software. Using C and assembly language in device-driver design, monitor-debugger, and real-time kernel. Lab.

EC EN 451 : Introduction to Digital VLSI Circuits. (4:3:5)
OFFERED: W
PREREQUISITE: ECEn 313, 320.
DESCRIPTION: Design of very large-scale integrated circuits for digital systems. CAD tools used extensively to simulate the design and create and verify mask circuits.

b. Complete one of the following options:

Either

EC EN 362 : Transmission Line Fundamentals for High-Speed Digital Systems. (2:1:3)
OFFERED: F, W
PREREQUISITE: ECEn 212, Math 334; computer engineering major status.
DESCRIPTION: Transmission lines for high-speed digital systems.
NOTE: Lab included.

Or

EC EN 360 : Transmission Lines and Introductory Fields. (4:4:2)
OFFERED: F, W
PREREQUISITE: Math 214, 334, ECEn 212.
DESCRIPTION: Properties and application of transmission lines. Introduction to electric and magnetic field theory and development of Maxwell's equations.

EC EN 361 : Transmission Lines and Introductory Fields Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: ECEn 360 or concurrent enrollment.
DESCRIPTION: Experiments and measurement techniques in static and time-varying fields. Transmission line design and measurements. Microwave generation, propagation, detection, and hardware components.

c. Complete remaining course hours selected from the following:

1. Additional courses listed in item 3a above or other 400-level electrical and computer engineering courses.

2. Any of the following:

C S 345 : Operating Systems Design. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 240.
DESCRIPTION: Principles and concepts of operating systems design and the implementation of an operating system.

C S 428 : Software Engineering. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 340.
DESCRIPTION: Analysis, design, implementation, and testing of significant software systems.

C S 431 : Algorithmic Languages and Compilers. (3:3:0)
OFFERED: W, Su
PREREQUISITE: C S 330, 340.
DESCRIPTION: Formal description of algorithmic languages and techniques used in their compilation: semantics, ambiguities, procedures, replication, iteration, recursion.

C S 452 : Database Modeling Concepts. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: C S 340, 360.
DESCRIPTION: Database models: relational, deductive, object-oriented. Integrity constraints, query languages, database design.

C S 455 : Computer Graphics. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 340, Math 343.
DESCRIPTION: Interactive computer graphics systems programming and architecture.

C S 456 : Introduction to User Interface Software. (3:3:0)
OFFERED: F
PREREQUISITE: C S 340.
DESCRIPTION: Introduction to software architectures and techniques for graphical user interfaces. Input devices, windowing systems, event-driven programming, interactive geometry.

C S 460 : Computer Communications and Networking. (3:3:0)
OFFERED: F
PREREQUISITE: C S 340, 360.
DESCRIPTION: Introduction to data communications and computer networking. Communications fundamentals, computer networks, software, architecture, telecommunications, regulation, standards.

C S 462 : Large-Scale Distributed System Design. (3:3:0)
OFFERED: F
PREREQUISITE: C S 340, 360.
DESCRIPTION: Designing and implementing client-server enterprise applications. Web servers, application servers, database connectivity, remote procedure calls, transactions, messaging, directory, naming services, threads, security, data formats.

C S 465 : Computer Security. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 360.
RECOMMENDED: C S 404.
DESCRIPTION: Introduction to computer security fundamentals: confidentiality, integrity, authentication, and access control. Secret key and public key cryptography, network security protocols, viruses, and fire walls.

C S 470 : Introduction to Artificial Intelligence. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: C S 312, Math 343, Stat 321.
DESCRIPTION: Introduction to core areas of artifical intelligence; intelligent agents, problem solving and search, knowledge-based systems and inference, planning, uncertainty, learning, and perception.

C S 478 : Introduction to Neural Networks and Machine Learning. (3:3:0)
OFFERED: F, W
PREREQUISITE: C S 312, Math 343, Stat 321.
DESCRIPTION: Neural network and machine learning models include Perceptrons, back-propagation, decision trees, genetic algorithms, and other mechanisms allowing computers to learn without being programmed.

C S 486 : Verification and Validation. (3:3:0)
OFFERED: F
PREREQUISITE: C S 312, Math 343, Stat 321.
DESCRIPTION: Implementing formal verification algorithms and using them in protocol and circuit design; proving both incorrectness and correctness.

3. 500-level computer science courses.

4. Complete the following supporting courses:
CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

Or
CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

C S 236 : Discrete Structures. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 235.
DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

C S 240 : Advanced Programming Concepts. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: C S 236.
DESCRIPTION: Advanced software development with an object-oriented focus. Development and testing of several 1500 to 2000 line modules from formal specifications. UNIX and C++ environment.

ENGL 312 : Persuasive Writing. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Expository and persuasive writing focusing on practical reasons for evaluating audiences, generating and structuring an argument, and making stylistic decisions. Library research paper.
NOTE: Carries GE Advanced Written and Oral Communication credit.

Or

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

Note: Contact the Electrical and Computer Engineering Department for current information about added and/or deleted courses, as well as information about when courses are offered.

*Hours include courses that may fulfill university core requirements.

Learning Outcomes

1. **Fundamentals:** An ability to apply knowledge of mathematics (differential, integral, and multivariate calculus; linear algebra; complex variables; differential equations; discrete math; and probability), science (Newtonian mechanics; electricity and magnetism; and introductory chemistry), computer fundamentals (programming languages; computer organization; and software/hardware interfaces), and engineering science (signals and systems, electromagnetics, and electronic devices).
2. **Experiments and data analysis:** An ability to design and conduct experiments, as well as to analyze and interpret data.
3. **System design:** An ability to design a system component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
4. **Teamwork:** An ability to function on multi-disciplinary teams.
5. **Leadership:** An understanding of principles of leadership and project management.
6. **Engineering problems:** An ability to identify, formulate, and solve engineering problems.
7. **Ethics:** An understanding of professional and ethical responsibility.
8. **Communication skills:** An ability to communicate effectively.
9. **Broad education:** The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
10. **Lifelong learning:** A recognition of the need for, and an ability to engage in life-long learning.
11. **Contemporary issues:** A knowledge of contemporary issues.
12. **Techniques, skills, and tools:** An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Program Requirements | View MAP

1. Complete the following prerequisite courses:

   MATH 112 : Calculus 1. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 110 and 111 or equivalent.
   - DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
   - NOTE: Honors also.

   MATH 113 : Calculus 2. (4:5:0)
   - OFFERED: F, W, Sp, Su
   - PREREQUISITE: Math 112 or equivalent.
   - DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
   - NOTE: Honors also.

   PHSCS 121 : Principles of Physics 1. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Calculus or concurrent enrollment.
   - DESCRIPTION: Newtonian mechanics. Weekly lab.

   PHSCS 220 : Principles of Physics 3. (3:3:1)
   - OFFERED: F, W, Sp
   - PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
   - DESCRIPTION: Electricity and magnetism. Weekly lab.

2. Complete the following:

   EC EN 124 : (EC En-C S) Introduction to Computing Systems. (3:3:2)
   - OFFERED: F, W, Sp

PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming: logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, algorithm analysis.

EC EN 191 : New Student Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Overview of electrical and computer engineering with group and individual design projects.

EC EN 212 : Circuit Analysis and Laboratory. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220 and Math 113 with an average grade of B or better, or clearance from department advisor.
DESCRIPTION: Analysis of electric circuits; sinusoidal-steady state, resonance, Bode plots, and balanced three-phase circuits. Includes labs.
NOTE: Fee.

EC EN 224 : Fundamentals of Digital Systems. (3:3:2)
OFFERED: F, W, Su
PREREQUISITE: CS-ECEn 124.
DESCRIPTION: Digital logic: theory, design, and implementation of combinational and sequential logic. Laboratory experience in construction of digital logic circuits.

EC EN 313 : Electronic Circuit Design 1. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: EC En 212.
DESCRIPTION: Analysis and design of linear and nonlinear electronic circuit building blocks.

EC EN 360 : Transmission Lines and Introductory Fields. (4:4:2)
OFFERED: F, W
PREREQUISITE: Math 214, 334, ECEn 212.
DESCRIPTION: Properties and application of transmission lines. Introduction to electric and magnetic field theory and development of Maxwell's equations.

EC EN 361 : Transmission Lines and Introductory Fields Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: ECEn 360 or concurrent enrollment.
DESCRIPTION: Experiments and measurement techniques in static and time-varying fields. Transmission line design and measurements. Microwave generation, propagation, detection, and hardware components.

EC EN 370 : (EC En - Math 331) Probability Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 343.
DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

EC EN 380 : Signals and Systems. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: ECEn 212, Math 334.
DESCRIPTION: Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

EC EN 391 : Junior Seminar. (.5:1:0)
OFFERED: F
PREREQUISITE: EC En 212.
DESCRIPTION: Seminars and colloquia on current topics in electrical and computer engineering, as well as ethics, contemporary issues, and life-long learning.
NOTE: Attendance and some writing are required.

EC EN 490 : Team Design Project. (4:2:6)
OFFERED: F, W
PREREQUISITE: Selected 400-level electrical and computer engineering courses, depending on the specific project.
DESCRIPTION: Culminating design experience based on skills learned in advanced technical courses. Students work in teams to plan, design, test, and demonstrate a major project.

3. Complete at least 19 hours from the following advanced technical program and technical electives:

a. Complete four courses from the following:

CH EN 381 : Introduction to Semiconductor Processing. (3:2:1)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or equivalent; Math 303 or equivalent; Ch En 273 or instructor's consent.
DESCRIPTION: Unit operations related to silicon-based semiconductor processing, including substrate preparation, photolithography, doping, etching, and thin film formation. Lab included.

EC EN 320 : Digital System Design. (3:3:3)
OFFERED: F, W
PREREQUISITE: EC En 212, 224.
DESCRIPTION: Advanced digital design, including hardware description languages, electrical properties of digital circuits, synchronous and asynchronous circuits, computer arithmetic, and interfacing to external circuitry.

EC EN 324 : Computer Systems. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: EC En 224, C S 235.
DESCRIPTION: Machine-level representations of programs and data, processor architecture, program performance optimizaton, memory hierarchies, virtual memory, linking, exceptions.

EC EN 425 : Real-Time Operating Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 324.
DESCRIPTION: Hardware/software interface, real-time kernel internals, implementation of high-level language constructs, issues in real-time application software development.

EC EN 427 : Embedded Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 320, 324.
DESCRIPTION: Interfacing digital hardware components to an embedded system processor. Developing the hardware-software interface. Developing application software. Using C and assembly language in device-driver design, monitor-debugger, and real-time kernel. Lab.

EC EN 443 : Communication and Power Circuits. (4:3:3)
OFFERED: W
PREREQUISITE: EC En 313, 317.
DESCRIPTION: Introduction to amplitude modulation, frequency modulation, and phase modulation circuits. Modulators, mixers, detectors, and the phase-locked loop. Power amplifier stage and orcillator design.

EC EN 445 : Introduction to Mixed-Signal VLSI. (4:3:3)
OFFERED: F
PREREQUISITE: ECEn 313.
DESCRIPTION: VLSI circuit design emphasizing mixed-signal circuits such as D/A and A/D converters, phase-locked loops, S/H circuits. Associated laboratory provides layout-design experience.

EC EN 450 : Introduction to Semiconductor Devices. (3:3:1)
OFFERED: W
PREREQUISITE: ECEn 313, Phscs 281.
DESCRIPTION: Physics of electronic and optical solid state devices; includes semiconductor materials, bipolar and FET device physics and modeling, optical properties of semiconductors, and lasers.

EC EN 451 : Introduction to Digital VLSI Circuits. (4:3:5)
OFFERED: W
PREREQUISITE: ECEn 313, 320.
DESCRIPTION: Design of very large-scale integrated circuits for digital systems. CAD tools used extensively to simulate the design and create and verify mask circuits.

EC EN 464 : Wireless Communication Circuits. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462 or instructor's consent.
DESCRIPTION: Analysis, design, and fabrication of RF/microwave passive circuit structures, amplifiers, oscillators, and mixers. System concepts, including stability, gain, and noise figure.

EC EN 466 : Introduction to Optical Engineering. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462.

DESCRIPTION: Introduces principles and practices of optical engineering including optical communications system and components.

EC EN 483 : (EC En-Me En 431) Design of Control Systems. (3:3:0)
OFFERED: F
PREREQUISITE: EC En 380 or Me En 335.
DESCRIPTION: Classical frequency response and time domain design of control systems. State-variable control and computer simulation of control systems.

EC EN 485 : Introduction to Digital Communication Theory. (4:3:3)
OFFERED: F
PREREQUISITE: ECEn 370, 380.
DESCRIPTION: Analysis and design of digital communications systems in AWGN: signal space concepts, modulation, matched filter and correlation detection, synchronization, performance. Computer-based design exercises.

EC EN 487 : Introduction to Discrete-Time Signal Processing. (4:3:3)
OFFERED: W
PREREQUISITE: ECEn 370, 380.
DESCRIPTION: Digital signal processing, fast Fourier transforms, digital filter design, spectrum analysis. Applications in speech processing, SONAR, communications, etc.

b. Complete remaining course hours selected from the following:
1. Additional courses listed in item 3a above, or other 400-level electrical and computer engineering courses.
2. 500-level electrical and computer engineering courses.
3. Other engineering, mathematics, physics, or computer science courses as specified or approved by the Electrical and Computer Engineering Department.

4. Complete the following supporting courses:
CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

Or
CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

C S 235 : Data Structures and Algorithms. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: C S 142.
DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis; recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

ENGL 312 : Persuasive Writing. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Expository and persuasive writing focusing on practical reasons for evaluating audiences, generating and structuring an argument, and making stylistic decisions. Library research paper.

NOTE: Carries GE Advanced Written and Oral Communication credit.

Or

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 214 : Calculus of Several Variables. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113; 343 or concurrent enrollment.
DESCRIPTION: Partial differentiation, the Jacobian matrix, and integral theorems of vector calculus.

MATH 334 : Ordinary Differential Equations. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 113, 343.
DESCRIPTION: Methods and theory of ordinary differential equations.

MATH 343 : Elementary Linear Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 112 or 119.
DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

PHSCS 281 : Principles of Solid State Physics. (3:3:1)
OFFERED: F
PREREQUISITE: Phscs 121, 122.
DESCRIPTION: Introduction to physics of solids, including laboratory experience.
NOTE: For students in science, computer science, technology, and engineering.

Note: Contact the Electrical and Computer Engineering Department for current information about added and/or deleted courses, as well as information about when courses are offered.

*Hours include courses that may fulfill university core requirements.

Undergraduate Courses

100-Level Courses

EC EN 124 : (EC En-C S) Introduction to Computing Systems. (3:3:2)
OFFERED: F, W, Sp
PREREQUISITE: C S 142 or concurrent enrollment.
DESCRIPTION: How a computer works, from hardware to high-level programming: logic circuits, computer instructions, assembly language, binary arithmetic, C programming, program translation, data structures, algorithm analysis.

EC EN 191 : New Student Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Overview of electrical and computer engineering with group and individual design projects.

EC EN 199R : Academic Internship. (.5-3:ARR:ARR)
PREREQUISITE: department chair's and cooperative education coordinator's consent.
DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

200-Level Courses

EC EN 212 : Circuit Analysis and Laboratory. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220 and Math 113 with an average grade of B or better, or clearance from department advisor.
DESCRIPTION: Analysis of electric circuits; sinusoidal-steady state, resonance, Bode plots, and balanced three-phase circuits. Includes labs.
NOTE: Fee.

EC EN 224 : Fundamentals of Digital Systems. (3:3:2)
OFFERED: F, W, Su
PREREQUISITE: CS-ECEn 124.
DESCRIPTION: Digital logic: theory, design, and implementation of combinational and sequential logic. Laboratory experience in construction of digital logic circuits.

300-Level Courses

EC EN 301 : Elements of Electrical Engineering. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 220; Math 303 or 334.
DESCRIPTION: Linear electric circuits, computer organization, and logic circuits for nonmajors.
NOTE: Fee.

EC EN 313 : Electronic Circuit Design 1. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: EC En 212.
DESCRIPTION: Analysis and design of linear and nonlinear electronic circuit building blocks.

EC EN 320 : Digital System Design. (3:3:3)
OFFERED: F, W
PREREQUISITE: EC En 212, 224.
DESCRIPTION: Advanced digital design, including hardware description languages, electrical properties of digital circuits, synchronous and asynchronous circuits, computer arithmetic, and interfacing to external circuitry.

EC EN 324 : Computer Systems. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: EC En 224, C S 235.
DESCRIPTION: Machine-level representations of programs and data, processor architecture, program performance optimizaton, memory hierarchies, virtual memory, linking, exceptions.

EC EN 360 : Transmission Lines and Introductory Fields. (4:4:2)
OFFERED: F, W
PREREQUISITE: Math 214, 334, ECEn 212.
DESCRIPTION: Properties and application of transmission lines. Introduction to electric and magnetic field theory and development of Maxwell's equations.

EC EN 361 : Transmission Lines and Introductory Fields Laboratory. (1:0:3)
OFFERED: F, W
PREREQUISITE: ECEn 360 or concurrent enrollment.

EC EN 362 : Transmission Line Fundamentals for High-Speed Digital Systems. (2:1:3)
OFFERED: F, W
PREREQUISITE: ECEn 212, Math 334; computer engineering major status.
DESCRIPTION: Transmission lines for high-speed digital systems.
NOTE: Lab included.

EC EN 370 : (EC En - Math 331) Probability Theory. (3:3:0)
OFFERED: F, W
PREREQUISITE: Math 343.
DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

EC EN 380 : Signals and Systems. (5:4:3)
OFFERED: F, W, Sp
PREREQUISITE: ECEn 212, Math 334.
DESCRIPTION: Time and frequency domain analysis of discrete or continuous systems subjected to periodic or nonperiodic input signals.

EC EN 391 : Junior Seminar. (.5:1:0)
OFFERED: F
PREREQUISITE: EC En 212.
DESCRIPTION: Seminars and colloquia on current topics in electrical and computer engineering, as well as ethics, contemporary issues, and life-long learning.
NOTE: Attendance and some writing are required.

400-Level Courses

EC EN 425 : Real-Time Operating Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 324.
DESCRIPTION: Hardware/software interface, real-time kernel internals, implementation of high-level language constructs, issues in real-time application software development.

EC EN 427 : Embedded Systems. (4:3:3)
OFFERED: F
PREREQUISITE: EC En 320, 324.
DESCRIPTION: Interfacing digital hardware components to an embedded system processor. Developing the hardware-software interface. Developing application software. Using C and assembly language in device-driver design, monitor-debugger, and real-time kernel. Lab.

EC EN 443 : Communication and Power Circuits. (4:3:3)
OFFERED: W
PREREQUISITE: EC En 313, 317.
DESCRIPTION: Introduction to amplitude modulation, frequency modulation, and phase modulation circuits. Modulators, mixers, detectors, and the phase-locked loop. Power amplifier stage and orcillator design.

EC EN 445 : Introduction to Mixed-Signal VLSI. (4:3:3)
OFFERED: F
PREREQUISITE: ECEn 313.
DESCRIPTION: VLSI circuit design emphasizing mixed-signal circuits such as D/A and A/D converters, phase-locked loops, S/H circuits. Associated laboratory provides layout-design experience.

EC EN 450 : Introduction to Semiconductor Devices. (3:3:1)
OFFERED: W
PREREQUISITE: ECEn 313, Phscs 281.
DESCRIPTION: Physics of electronic and optical solid state devices; includes semiconductor materials, bipolar and FET device physics and modeling, optical properties of semiconductors, and lasers.

EC EN 451 : Introduction to Digital VLSI Circuits. (4:3:5)
OFFERED: W
PREREQUISITE: ECEn 313, 320.
DESCRIPTION: Design of very large-scale integrated circuits for digital systems. CAD tools used extensively to simulate the design and create and verify mask circuits.

EC EN 452 : Experiments in Integrated Circuit Development. (1:0:3)
OFFERED: W
PREREQUISITE: ECEn 450 or concurrent enrollment.
DESCRIPTION: Measurements of key silicon properties and fabrication of integrated circuits.

EC EN 455 : VLSI Testing. (1:0:3)
OFFERED: F, W
PREREQUISITE: ECEn 451 or 445.
DESCRIPTION: Testing of ICs designed previous semester in ECEn 451 or ECEn 445. Topics in VLSI-testable circuit designs.

EC EN 462 : Electromagnatic Radiation and Propagation. (2:3:1)
OFFERED: F 1st block.
PREREQUISITE: ECEn 360.
DESCRIPTION: Electromagnetic and optical theory including guided wave theory, modes, propagation in materials, radiation analysis, antenna analysis, and aperture diffraction.

EC EN 464 : Wireless Communication Circuits. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462 or instructor's consent.

EC EN 466 : Introduction to Optical Engineering. (2:3:1)
OFFERED: F 2nd block.
PREREQUISITE: ECEn 462.
DESCRIPTION: Introduces principles and practices of optical engineering including optical communications system and components.

EC EN 483 : (EC En-Me En 431) Design of Control Systems. (3:3:0)
OFFERED: F
PREREQUISITE: EC En 380 or Me En 335.
DESCRIPTION: Classical frequency response and time domain design of control systems. State-variable control and computer simulation of control systems.

EC EN 485 : Introduction to Digital Communication Theory. (4:3:3)
OFFERED: F
PREREQUISITE: ECEn 370, 380.
DESCRIPTION: Analysis and design of digital communications systems in AWGN: signal space concepts, modulation, matched filter and correlation detection, synchronization, performance. Computer-based design exercises.

EC EN 487 : Introduction to Discrete-Time Signal Processing. (4:3:3)
OFFERED: W
PREREQUISITE: ECEn 370, 380.
DESCRIPTION: Digital signal processing, fast Fourier transforms, digital filter design, spectrum analysis. Applications in speech processing, SONAR, communications, etc.

EC EN 490 : Team Design Project. (4:2:6)
OFFERED: F, W
PREREQUISITE: Selected 400-level electrical and computer engineering courses, depending on the specific project.
DESCRIPTION: Culminating design experience based on skills learned in advanced technical courses. Students work in teams to plan, design, test, and demonstrate a major project.

EC EN 493R : Special Topics in Electrical and Computer Engineering. (.5-4:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Topics vary. Recent developments in electrical and computer engineering.

500-Level Graduate Courses (available to advanced undergraduates)

EC EN 522R : Special Topics in Computer Systems. (.5-3:ARR:ARR)
PREREQUISITE: instructor's consent

EC EN 541 : Active and Passive Filter Design. (3:3:0)
PREREQUISITE: ECEn 313, 380; or equivalents.
DESCRIPTION: Design methods for electronic filters based on passive components, active components, and integrated circuit components.

EC EN 542R : Special Topics in Electronics. (.5-3:ARR:ARR)
PREREQUISITE: instructor's consent.

EC EN 543 : CMOS Amplifier Design. (3:3:0)
PREREQUISITE: ECEn 443 or 445 or equivalent.
DESCRIPTION: Factors affecting performance of MOS devices in analog applications. Design of MOS amplifiers, buffers, and comparators.

EC EN 548 : Analog CMOS Circuit Design. (3:3:0)
PREREQUISITE: ECEn 443 or 445 or equivalent.
DESCRIPTION: Design of CMOS comparators, wideband amplifiers, bandgap references; multipliers, PTAT generators, charge-transfer amplifiers, chopper-stabilized amplifiers, and advanced D/A and A/D CMOS architectures.

EC EN 549 : VLSI Communication Circuit Design. (3:3:0)
PREREQUISITE: ECEn 443 or 445 or equivalent.
DESCRIPTION: Frequency synthesizers; low-jitter, voltage-controlled oscillators; high Q circuits; clock regeneration; phase-locked loops; frequency discriminators; and radio-on-a-chip concepts.

EC EN 550 : (EC En-Me En) Microelectromechanical Systems (MEMS). (3:3:0)
PREREQUISITE: EC En 450 or Me En 372 or equivalent.
DESCRIPTION: Design, fabrication, and applications of MEMS. Mechanical properties governing their design and reliability and the processing technologies used to fabricate them.

EC EN 555 : Optoelectronic Devices. (3:2:1)
OFFERED: F
PREREQUISITE: ECEn 450 or equivalent or instructor's consent.
DESCRIPTION: Design, operation, and fabrication of modern optoelectronic devices, including photodiodes, photovoltaics, LEDs, and lasers.

EC EN 560 : Electromagnetic Wave Theory. (3:3:0)
PREREQUISITE: EC En 462 or equivalent.
DESCRIPTION: Principles and methods of modern electromagnetic wave theory: anisotropic media, dyadic green functions, Nuygen's principle, contour integration methods, asymptotic integration. Applications in radiation and scattering.

EC EN 562 : Optical Communication Components and Systems. (3:3:0)
PREREQUISITE: EC En 462, 466; or equivalents.
DESCRIPTION: Fiber-optic communication system components and their operating and performance characteristics.

EC EN 563 : Applied Computational Electromagnetics. (3:3:0)
PREREQUISITE: EC En 462 or equivalent.
DESCRIPTION: Current theory and practice in numerically solving Maxwell's equations for antenna and circuit design and radar-scattering prediction.

EC EN 564 : Radar and Communication Systems. (3:3:0)
PREREQUISITE: EC En 462, 485; or equivalents.
DESCRIPTION: Design and performance of radar and communication systems: radar equation ambiguity functions, modulation, signal detection, link budgets, spread spectrum, system design, and performance trade-offs.

EC EN 568 : Microwave Remote Sensing. (3:3:0)
PREREQUISITE: instructor's consent.
DESCRIPTION: Emphasis on space-borne remote sensing of the earth's atmosphere, land, and oceans. Primary methods and applications for both active (radar) and passive (radiometry).

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Electrical and Computer Engineering Faculty

Professors

Christiansen, Richard W

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, Rutgers University, New Brunswck, 1961
MS, University of New Mexico, 1966
PhD, University of Utah, 1976

Comer, Donald Thomas

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, San Jose State University, 1959
MS, University of California, Berkeley, 1961

Comer, David John

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, San Jose State University, 1961
MS, University of California, Berkeley, 1962
PhD, Washington State University, 1966

Comer, Donald Thomas

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: PhD, University of Santa Clara, 1968

Hutchings, Brad L

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, University of Utah, 1984
MS, University of Utah, 1987
PhD, University of Utah, 1992

Jensen, Michael Allen

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1990
MS, Brigham Young University, 1991
PhD, University of California, Los Angeles, 1994

Long, David G.

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, Brigham Young University, 1982
MS, Brigham Young University, 1983
PhD, University of Southern California, 1989

Nelson, Brent Edwin

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, University of Utah, 1981
MS, University of Utah, 1983
PhD, University of Utah, 1984

Rice, Michael

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, Louisiana Tech University, 1987
PhD, Georgia Institute of Technology, 1991

Selfridge, Richard H

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BS, California State University, Sacramento, 1978
MS, University of California, Davis, 1980
PhD, University of California, Davis, 1984

Stirling, Wynn Clair

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Professor
DEGREES: BA, University of Utah, 1969
MS, University of Utah, 1971
PhD, Stanford University, 1983

Associate Professors

Archibald, James K

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1981
MS, University of Washington, 1983
PhD, University of Washington, 1987

Beard, Randal W

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: BS, University of Utah, 1991
MS, Rensselaer Polytechnic Institute, 1993
MS, Rensselaer Polytechnic Institute, 1994
PhD, Rensselaer Polytechnic Institute, 1995

Hawkins, Aaron R

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: BS, California Institute of Technology, 1994
MS, University of California, Santa Barbara, 1996
PhD, University of California, Santa Barbara, 1998

Jeffs, Brian Dean

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: MS, Brigham Young University, 1982
PhD, University of Southern California, 1989

Lee, Dah Jye

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: BS, National Taiwan University of Science and Technology, 1984
MS, Texas Tech University, 1987
PhD, Texas Tech University, 1990
MBA, Shenandoah University, 1999

Wilde, Doran Kenneth

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1978
BS, Brigham Young University, 1978
MS, Oregon State University, 1994
PhD, Oregon State University, 1995

Wirthlin, Michael Joseph

COLLEGE: Ira A. Fulton College of Engineering and Technology
DEPARTMENT: Electrical and Computer Engineering
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1992
PhD, Brigham Young University, 1997

Assistant Professors

Penry, David Aaron

COLLEGE:	Ira A. Fulton College of Engineering and Technology
DEPARTMENT:	Electrical and Computer Engineering
RANK:	Assistant Professor
DEGREES:	MS, Case Western Reserve University, 1992
	BSE, Case Western Reserve University, 1992
	MBA, Ohio State University, 1994
	MA, Princeton University, 2002
	PhD, Princeton University, 2006

Schultz, Stephen Marshall

COLLEGE:	Ira A. Fulton College of Engineering and Technology
DEPARTMENT:	Electrical and Computer Engineering
RANK:	Assistant Professor
DEGREES:	BS, Brigham Young University, 1992
	MS, Brigham Young University, 1994
	PhD, Georgia Institute of Technology, 1999

Taylor, Clark N.

COLLEGE:	Ira A. Fulton College of Engineering and Technology
DEPARTMENT:	Electrical and Computer Engineering
RANK:	Assistant Professor
DEGREES:	PhD, University of California, San Diego, 2004

Warnick, Karl F

COLLEGE:	Ira A. Fulton College of Engineering and Technology
DEPARTMENT:	Electrical and Computer Engineering
RANK:	Assistant Professor
DEGREES:	BS, Brigham Young University, 1994
	PhD, Brigham Young University, 1997

Engineering and Technology Education (Eng T)

Show All Course Descriptions
Hide All Course Descriptions

Undergraduate Courses

200-Level Courses

ENG T 200 : Global Technology Issues. (3:3:0)
OFFERED: F
DESCRIPTION: Interaction between the global society and technology. Global policy issues dealing with supply and demand of key commodities, economics, environment, population, and food and water resources.

ENG T 231 : Moral Leadership in a Technological World. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and practices to help leaders develop consistent private and public lives and address the global environment from an integrated moral, technical, and social perspective.

ENG T 295R : Engineering Math Refresher. (0:3:0)
OFFERED: F on block, W on block
DESCRIPTION: Review of basic techniques of algebra, trigonometry, differential calculus, integral calculus, and series and sequences in preparation for engineering mathematics, ordinary differential equations, and multivariable calculus.

500-Level Graduate Courses (available to advanced undergraduates)

ENG T 502 : Advanced Applied Engineering Math 1. (3:3:0)
OFFERED: F
PREREQUISITE: Math-Eng T 302, 303; or equivalents.
DESCRIPTION: Topics in modern engineering mathematics, including applications of differential and integral equations and vector spaces.

ENG T 503 : Advanced Applied Engineering Math 2. (3:3:0)
OFFERED: W
PREREQUISITE: Eng T 502 or equivalent.
DESCRIPTION: Topics in modern engineering mathematics, including applications of partial differential and integral equations and numerical analysis.

ENG T 595R : Special Topics in Engineering and Technology. (.5-3:ARR:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Special topics in engineering and technology that relate to current research areas or issues related to industry.

Admission to Degree Program

All degree programs in the Department of English are open enrollment. However, special enrollment limitations apply for teaching majors.

The Discipline

The English major provides a detailed knowledge of the English language and of literature written in English. English majors approach language and literature as a source of knowledge and aesthetic pleasure, a mode of encountering and evaluating diverse minds and attitudes, a vehicle for art and action, a means of historical understanding, and a source of spiritual insight. English majors use writing as their primary means (1) of knowing, understanding, and evaluating their experience and their reading and (2) of sharing their insight with others. In keeping with the long-standing ideals of a liberal arts education, the English Department aims to cultivate in its students those foundational skills in writing, awareness, and judgment upon which lives of wisdom, service, and an ever-increasing love for learning might be built.

Career Opportunities

With a firm grounding in the liberal arts, English majors are prepared for any career that requires perceptive reading, orderly and clear thinking, intellectual maturity, and effective writing. Many career opportunities for English majors exist in teaching, professional writing and editing, law, business, communications, or government service. English majors can certify to teach secondary-school English, or they can prepare for graduate study in English and college teaching. When combined with prerequisite courses in other departments, the English major provides excellent preparation for graduate work in law, business, library science, medicine, humanities, or religion. By selecting areas of concentration, some English majors prepare for careers in technical and professional communication, editing, creative writing, and related fields. By supplementing their English major with computer classes, some find work in information technology. The skills and knowledge acquired by an English major also provide good preparation for government service, especially when combined with the study of foreign languages, economics, political science, and history.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in English

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

The Department of English strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

BA in English (48–65 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Students must complete the GE Foreign Language option even if the Advanced Mathematics option has already been completed.
2. At least 21 hours of English major course work must be completed in residence at BYU.
3. Engl 195 is recommended.
4. Because upper-division English courses require substantial writing, it is strongly recommended that students complete their Advanced Written and Oral Communication requirement as they begin their first upper-division courses, preferably in the second semester of their sophomore year.
5. No more than three hours of any one R course may apply toward the hours required for the major.
6. Complete the following core courses:
   a. Freshman college-level writing; choose one course, or the equivalent, from the following:

ENGL 150 : Writing and Rhetoric. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
NOTE: Fulfills General Education First-Year Writing requirement.

HONRS 150 : Honors University Writing. (3:3:0)
Honors University Writing.
OFFERED: F, W, Sp, Su
DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.

PHIL 150 : Reasoning and Writing. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
RECOMMENDED: Recommended for philosophy majors and minors.
DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

Note: Waivers based on the AP or other test scores do not apply to this requirement.

   b. Fundamentals of language and literature: complete one of the following:

ENGL 251 : Fundamentals of Literary Interpretation and Criticism. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Engl 150 or equivalent.
DESCRIPTION: Introduction to concepts and practice of literary analysis; critical theories; and elements of fiction, poetry, and drama.

ENGL 252 : Introduction to Literary Theory and Criticism. (3:3:0)
PREREQUISITE: Engl 150 or equivalent, a 5 on the English AP exam, Engl 251, or instructor's consent.
DESCRIPTION: Selected primary texts representing three different critical approaches; practice in reading and writing applied criticism; library research paper.

Note: Students must complete Engl 251 or 252 before taking any 300-level courses.

   c. British and American literary history:

ENGL 291 : British Literary History 1. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.

PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
DESCRIPTION: Development of ideas, movements, genres, and styles in early English literature as illustrated through representative texts.

ENGL 292 : British Literary History 2. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
DESCRIPTION: Development of ideas, movements, genres, and styles in later English literature as illustrated through representative texts.

ENGL 293 : American Literary History. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
DESCRIPTION: Development of ideas, movements, genres, and styles in American literature as illustrated through representative texts.

Note: Students must complete the literary history course in a period before taking any 300-level courses in that period.

7. Complete the following:
ENGL 382 : Shakespeare. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Intensive reading, discussion, and (in some sections) viewing of plays from the comedy, tragedy, romance, and history genres.
NOTE: For English majors and minors.

8. Complete one course from two of the following three areas:
a. Early British Literature
ENGL 300R** : English Literature in a Cultural Setting. (.5-6:ARR:ARR)
NOTE: For Study Abroad students only.

ENGL 341 : English Drama: Beginnings to 1800, Excluding Shakespeare. (3:3:0)
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Selected plays from medieval, Tudor, Stuart, Restoration, and 18th-century drama.

ENGL 371 : English Literature to 1500: The Medieval Period. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Principal works, mainly in translation, from Old and Middle English literature.

ENGL 372 : English Literature from 1500 to 1603: The Early Renaissance Period. (3:3:0)
OFFERED: W
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: English drama, poetry, and prose of the Tudor period.

ENGL 373 : English Literature from 1660 to 1780. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Poetry, prose, and drama of the late seventeenth and eighteenth century, including major figures such as Dryden, Swift, Pope, Fielding, Johnson, and popular female writers.

ENGL 381 : Chaucer. (3:3:0)
OFFERED: F
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Intensive study of Chaucer's literature and language from medieval and modern perspectives.

ENGL 383 : Milton. (3:3:0)
OFFERED: W
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: Analysis of poetry and selected prose, including detailed study of *Paradise Lost, Paradise Regained, and Samson Agonistes.*

ENGL 384R** : Major Authors. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Topics vary.

: American Authors.
: Early British Authors.
: Later British Authors.

ENGL 385 : English Literature 1603-1660: The Late Renaissance Period. (3:3:0)
OFFERED: F
PREREQUISITE: Engl 251 or 252; 291.
DESCRIPTION: English drama, poetry, and prose of the Stuart period.

Note: Students must complete Engl 291 before taking courses in this area.

b. Later British Literature:

ENGL 300R** : English Literature in a Cultural Setting. (.5-6:ARR:ARR)
NOTE: For Study Abroad students only.

ENGL 333 : The English Novel. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 292.
DESCRIPTION: Novels selected according to time period or theme from the past three centuries.

ENGL 343** : Modern English and American Drama. (3:3:0)
PREREQUISITE: Engl 251 or 252.

: Modern American Drama.
: Modern British Drama.

ENGL 374 : English Literature from 1780 to 1832: The Romantic Period. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252; 292.
DESCRIPTION: Includes writings of Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, and their contemporaries.

ENGL 375 : English Literature from 1832 to 1890: The Victorian Period. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 292.
DESCRIPTION: Includes writings of Carlyle, Tennyson, the Brownings, Arnold, Dickens, Eliot, the Rossettis, Hopkins, and their contemporaries.

ENGL 376 : English Literature from 1890 to 1950: The Modern Period. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 292.
DESCRIPTION: Aspects of modernism from the aesthetic movement to the end of World War II, including the writings of Hardy, Shaw, Yeats, Conrad, Lawrence, Woolf, Joyce, Eliot, and their contemporaries.

ENGL 380 : English Literature from 1950 to the Present: The Contemporary Period. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 292.
DESCRIPTION: Important literature and literary trends since 1950.

ENGL 384R** : Major Authors. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Topics vary.

: American Authors.
: Early British Authors.
: Later British Authors.

Note: Students must complete Engl 292 before taking courses in this area.

c. American Literature

ENGL 336 : The American Novel. (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Representative novels of the American tradition from the late eighteenth century to the present.

ENGL 343** : Modern English and American Drama. (3:3:0)
PREREQUISITE: Engl 251 or 252.

: Modern American Drama.
: Modern British Drama.

ENGL 360R : American Literature in a Cultural Setting. (3:3:0)
PREREQUISITE: Admission to Semester in Nauvoo Program--Joseph Smith Academy.
DESCRIPTION: American literature emphasizing writers and works related to the period and region of the early decades of LDS Church history.
NOTE: Offered at Nauvoo Center only.

ENGL 361 : American Literature to the Mid--Nineteenth Century. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from Puritanism through transcendentalism.

ENGL 362 : American Literature from the Late Nineteenth to the Early Twentieth Century (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the late nineteenth century through naturalism.

ENGL 363 : American Literature from the Early to Mid--Twentieth Century (3:3:0)
OFFERED: F, W, Sp; Independent Study also.
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the first half of the twentieth century through modernism.

ENGL 365 : American Literature from the Mid--Twentieth Century to Present. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Selected writers and literary trends, including postmodernism, from the mid--twentieth century to the present

ENGL 384R** : Major Authors. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Topics vary.

: American Authors.
: Early British Authors.
: Later British Authors.

Note: Students must complete Engl 293 before taking courses in this area.

****Note:** Three hours of Engl 300R may count toward either early or later British literature. Three hours of Engl 384R may count toward one of these three areas according to the period of the major author studied. Engl 343 may count toward either later British or American literature, according to the course content.

9. Rhetoric, Professional Communication, and Theory: complete one course from the following:

ENGL 415R : Introduction to Professional Communication. (3:3:0)
PREREQUISITE: A GE Advanced Written and Oral Communication course.
DESCRIPTION: Developing proficiency in professional communication through rhetorical analysis, project management, and producing professional documents. Emphasis may vary with instructors.

ENGL 418 : Visual Rhetoric and Document Design. (3:3:0)
PREREQUISITE: A GE Advanced Written and Oral Communication course.
DESCRIPTION: Using a rhetorical perspective to design, produce, and analyze visual documents and arguments in various media.

ENGL 426 : History of Rhetoric. (3:3:0)
OFFERED: F
DESCRIPTION: Historical traditions of rhetorical theory and practice, emphasizing Greek and Roman traditions.

ENGL 427 : Rhetorical Theory and Criticism. (3:3:0)
OFFERED: W
DESCRIPTION: Theories of rhetoric and their use in interpreting and evaluating rhetorical acts and artifacts,

including literature, with an emphasis on contemporary rhetorical theory.

ENGL 428R : Studies in Rhetoric and Composition. (3:3:0)
OFFERED: F, W
DESCRIPTION: Topics vary.

ENGL 451 : Literary Theory and Criticism 1: The Critical Tradition. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Historical survey from Plato to the early twentieth century.

ENGL 452 : Literary Theory and Criticism 2: Contemporary Criticism. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Introduction to issues in twentieth-century literary criticism.

10. Diverse Traditions and Methods: complete one course from the following:

ELANG 468 : Varieties of English. (3:3:0)
PREREQUISITE: ELang 223 or Ling 330.
DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

ENGL 337R : Advanced Studies in Genre. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Advanced studies in fiction, drama, poetry, or creative nonfiction.

: Advanced Studies in Contemporary Creative Non-Fiction.
: Advanced Studies in Contemporary Drama.
: Advanced Studies in Contemporary Fiction.
: Advanced Studies in Contemporary Poetry.

ENGL 345 : Literature and Film. (3:3:.5)
OFFERED: F, W, Sp
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Emphasis on film as an interpretation of texts. Includes International Cinema.

ENGL 350 : The Bible as Literature. (3:3:0)
OFFERED: F, W, Sp; Independent Study also.
DESCRIPTION: Literary artistry, human values, and cultural significance of the Bible.

ENGL 355 : (Engl-ClCv) Greek and Roman Classics and the English Tradition. (3:3:0)
OFFERED: F
DESCRIPTION: Major works by such authors as Homer, the Greek and Roman tragedians, Thucydides, Vergil, and Petronius in English translation, emphasizing their influence on English and American literature.

ENGL 356 : Myth, Legend, and Folktales. (3:3:0)
OFFERED: F
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Major mythic and legendary works that provide background for the literary tradition.

ENGL 358R : Ethnic, Regional, and Other Literatures in English. (3:3:0)
OFFERED: F, W, Sp, Su

BA in English Teaching (74–91 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see item 1 below for information regarding admission to this program.

Program Requirements | View MAP

1. This is a closed major requiring application to the program. Application forms are available in the Humanities Advisement Center (1175 JFSB) and the English Education Office (4168 JFSB). Students cannot apply until they have completed at least 9 hours of English major core courses.
2. Students must complete the GE Foreign Language option* even if the Advanced Mathematics option has already been completed.
3. At least 24 hours of English major course work must be completed in residence at BYU.
4. Engl 195 is recommended.
5. Upper-division English courses require substantial writing. Students should plan to complete their Advanced Written and Oral Communication requirement as they begin their first upper-division courses, usually at the beginning of the junior year.
6. A teaching minor is not required for licensure. However, it is strongly recommended.
7. Sc Ed 276R is prerequisite to Engl 329, 377, 378, and 423 (377 and 378 may be taken concurrently). Engl 377 and 378 are prerequisite to Sc Ed 476R.
8. Complete the following core courses:
   a. Because English is a writing-intensive major, students are *required* to take a first-year freshman college-level writing course. Choose one course, or the equivalent, from the following:

      ENGL 150 : Writing and Rhetoric. (3:3:0)
      OFFERED: F, W, Sp, Su; Honors also.
      DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
      NOTE: Fulfills General Education First-Year Writing requirement.

      HONRS 150 : Honors University Writing. (3:3:0)
      Honors University Writing.
      OFFERED: F, W, Sp, Su
      DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.

      PHIL 150 : Reasoning and Writing. (3:3:0)
      OFFERED: F, W, Sp, Su; Honors also.
      RECOMMENDED: Recommended for philosophy majors and minors.
      DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
      NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

      Note: Waivers based on the AP or other test scores do not apply to this requirement. One of the courses must be taken.

   b. Fundamentals of language and literature: complete one of the following:

      ENGL 251 : Fundamentals of Literary Interpretation and Criticism. (3:3:0)
      OFFERED: F, W, Sp, Su
      PREREQUISITE: Engl 150 or equivalent.
      DESCRIPTION: Introduction to concepts and practice of literary analysis; critical theories; and elements of fiction, poetry, and drama.

ENGL 252 : Introduction to Literary Theory and Criticism. (3:3:0)
PREREQUISITE: Engl 150 or equivalent, a 5 on the English AP exam, Engl 251, or instructor's consent.
DESCRIPTION: Selected primary texts representing three different critical approaches; practice in reading and writing applied criticism; library research paper.

Note: Students must complete Engl 251 or 252 before taking any 300-level courses.

c. British and American literary history: complete the following:

ENGL 291 : British Literary History 1. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
DESCRIPTION: Development of ideas, movements, genres, and styles in early English literature as illustrated through representative texts.

ENGL 292 : British Literary History 2. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
DESCRIPTION: Development of ideas, movements, genres, and styles in later English literature as illustrated through representative texts.

ENGL 293 : American Literary History. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
PREREQUISITE: Engl 251 or 252 or concurrent enrollment.
DESCRIPTION: Development of ideas, movements, genres, and styles in American literature as illustrated through representative texts.

Note: Students must complete the literary history courses in a period before taking any 300-level courses in that period.

9. Complete two courses from the following:

ENGL 361 : American Literature to the Mid--Nineteenth Century. (3:3:0)
OFFERED: F, W
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from Puritanism through transcendentalism.

ENGL 362 : American Literature from the Late Nineteenth to the Early Twentieth Century (3:3:0)
OFFERED: F, W; Independent Study also.
PREREQUISITE: Engl 251 or 252; 293.
DESCRIPTION: Major and selected minor writers and literary trends from the late nineteenth century through naturalism.

ENGL 363 : American Literature from the Early to Mid--Twentieth Century (3:3:0)
OFFERED: F, W, Sp; Independent Study also.

Exercise Sciences

Larry Hall, Chair
106 SFH, (801) 422-7303

College of Health and Human Performance Advisement Center
203 RB, (801) 422-3638

Admission to Degree Program

Some of the degree programs in the Department of Exercise Sciences carry special enrollment limitations. Please see the college advisement center for specific details.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Athletic Training
BS in Exercise and Wellness
BS in Exercise Science
BS in Physical Education Teaching/Coaching (K–12)

Minors

Coaching and Teaching Physical Education

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS in Exercise Sciences
PhD in Exercise Sciences/Wellness

For more information see the BYU 2008–2009 Graduate Catalog.

Athletic Training (71 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The study of athletic training appeals to those who would like to work in a field that combines an athletic setting with health and medical care. A student in athletic training will learn to apply knowledge of human anatomy, exercise physiology, conditioning, nutrition, and therapy in the prevention, diagnosis, immediate care, and rehabilitation of athletic injuries.

Students must graduate from an accredited athletic training program and pass the Board of Certification (BOC) examination to certify as an athletic trainer.

Career Opportunities

Career possibilities include working with athletic teams at all levels of competition or in a sports medicine clinical setting or other allied health facilities or in a corporate/industrial setting. BOC certification is required, and an advanced degree is recommended.

Program Requirements | View MAP

1. Complete a minimum of 45 major hours in residence at BYU.
2. Complete application into the athletic training program during semester of enrollment in ExSc 320. See the program director or ExSc 320 instructor for an application packet.
   a. Have a physical examination and provide an immunization record to verify technical standards.
   b. Submit one letter of recommendation.
   c. Interview with the athletic training staff.
   d. Complete 30 hours of clinical observation or experience in a college or high school athletic training setting and complete observation objectives.
3. Complete the senior exit interview.
4. Maintain CPR/AED certification.
5. Meet the technical standards associated with the athletic training education program.
6. Complete the following:

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Philosophical and ethical issues common to exercise science majors. Concept of mind, body, spirit.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 220, Math 110 or higher.
RECOMMENDED: Phscs 105 or 121.

EXSC 400 : Functional Anatomy and Kinesiology. (4:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

EXSC 414 : Advanced Athletic-Training Lab. (1:0:2)
OFFERED: F, W
PREREQUISITE: Admission to athletic training program.
DESCRIPTION: Advanced athletic-training skills, including taping, bracing and splinting, custom-fitted equipment, massage and stretching techniques, and emergency splinting and transport.

EXSC 415 : Therapeutic Modalities. (3:2:2)
OFFERED: F, W
PREREQUISITE: Admission to athletic-training program.
DESCRIPTION: Hydrotherapy, massage, traction, radiant energy, heat, cold, and electrotherapy.

EXSC 416 : Injury Evaluation: Lower Extremities. (3:3:0)
OFFERED: F, W
PREREQUISITE: Admission to athletic training program.
DESCRIPTION: Basic principles of injury evaluation; evaluation techniques specific to lower-extremity injuries.

EXSC 417 : Injury Evaluation: Upper Extremities and Trunk. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 416.
DESCRIPTION: Injury evaluation techniques specific to the upper extremities and trunk.

EXSC 418 : Rehabilitation of Orthopedic Injuries. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 415.
DESCRIPTION: Basic principles, techniques, and progression of orthopedic/musculoskeletal rehabilitation.

EXSC 419 : Medical Issues in Athletic Training. (1:1:0)
OFFERED: W
PREREQUISITE: ExSc 417 or concurrent enrollment.
DESCRIPTION: Discussion of current medical issues in athletic training, with guest lectures by medical specialists.

EXSC 423 : Administration of Athletic Training Programs. (2:2:0)
OFFERED: F, W
PREREQUISITE: ExSc 415.
DESCRIPTION: Management and administration of athletic training facilities and staff members.

EXSC 460 : Orthopaedic Impairments and Therapeutic Exercise. (3:3:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 362; PDBio 220 or equivalent.
DESCRIPTION: Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

EXSC 463 : Exercise Physiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 305.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 463 or concurrent enrollment.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 463.
DESCRIPTION: Applying scientific principles to problems in conditioning.

EXSC 501 : Sports Medicine Pathology and Pharmacology. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 320, PDBio 305; or equivalents.
DESCRIPTION: Sports medicine pathologies and related pharmacology for a variety of sports medicine/allied health care professions.

NOTE: Meets required educational CAATE competencies.

HLTH 320 : Advanced First Aid and Safety. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

PSYCH 111 : General Psychology. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Basic course in modern scientific psychology.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

STDEV 139 : Introduction to Health Professions. (1:1:0)
OFFERED: F, W
DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

7. Complete the following (to be taken last semester prior to graduation):
EXSC 498 : Capstone Experience in Athletic Training. (2:2:0)
OFFERED: F, W
PREREQUISITE: Senior standing in athletic training education program.
DESCRIPTION: Synthesizing and integrating student classroom and clinical experiences in preparation for BOC examination resulting in certification of allied health professionals.
NOTE: Course should be taken last semester prior to graduation.

8. Complete the following:
EXSC 394 : Athletic Training Clinical Education 1. (2:1:5)
OFFERED: F, W
PREREQUISITE: Admission to athletic training program.
DESCRIPTION: Classroom and field experience. Orientation to athletic training program and clinical expectations. Modules include emergency care, taping skills, and basic modalities.

EXSC 395 : Athletic Training Clinical Education 2. (2:1:5)
OFFERED: F, W
PREREQUISITE: ExSc 394.

DESCRIPTION: Classroom and field experience. Modules include taping skills, assessment, and modalities.

EXSC 494 : Athletic Training Clinical Education 3. (2:1:5)
OFFERED: F, W
PREREQUISITE: ExSc 395.
DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, and knowledge of general medical conditions.

EXSC 495 : Athletic Training Clinical Education 4. (2:1:5)
OFFERED: F, W
PREREQUISITE: ExSc 494.
DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, nutrition, and dermatology.

Note: These courses must be completed over a two-calendar-year period. The athletic training clinical education courses listed above require field experience hours as part of the athletic training curriculum.

*Hours include courses that may fulfill university core requirements.

BS in Exercise and Wellness (60.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Exercise and Wellness is a departure from the typical U.S. medical model in that the focus is on helping individuals achieve optimal health and fitness, rather than on discovering and treating disease. Recent research findings, along with rising health-care costs, have spurred an interest in keeping people healthy to improve their quality of life and also to avoid unnecessary medical expenses.

Depending on electives completed, there are several excellent career and graduate school options to pursue. Earning a master's degree in exercise science, for example, can give the added knowledge and experience needed to direct a private, commercial, corporate, or clinical health/fitness program. Other graduate school opportunities include a master's in public health (MPH), business administration (MBA), recreational therapy (MS), or food science and nutrition (MS), to name a few.

Career Opportunities

Personal fitness professionals find employment primarily in commercial or community fitness centers but may also work in hospital wellness programs or corporate health-promotion programs. Job responsibilities typically involve teaching clients how to achieve optimal wellness through effective exercise, wholesome nutrition, and successful stress-management strategies.

Exercise and wellness professionals may function at a staff or management level. Staff personnel often conduct one-on-one counseling sessions on a variety of health-related subjects as well as perform fitness testing and exercise prescription. They also may conduct workshops, conferences, or seminars on exercise, nutrition, stress management, weight control, and many other topics.

Program directors typically possess a master's degree with several years of experience working in a health promotion/wellness environment. As a program director, additional responsibilities typically include: financial budgeting, marketing, program administration and evaluation, and personnel hiring and training.

Students pursuing a degree in exercise and wellness are usually more successful in their profession if they gain expertise in the following areas: counseling, public speaking, behavior change, business, first aid, gerontology, and/or aerobic dance teaching. It is also strongly recommended that students obtain a health/fitness certification through a reputable certifying organization.

In 2005, survey data indicate that personal trainers earn $43,000 annually in the U.S. Throughout the U.S. the top five states have a salary range from $38,000 to $55,000. Health promotion program directors' salaries range from $43,000 to $63,000 annually, with more earning potential for individuals with graduate degrees and/or experience.

Program Requirements | View MAP

1. Complete the senior exit interview.
2. Complete the following prerequisites to the exercise and wellness core:

HLTH 320 : Advanced First Aid and Safety. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su

DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

TMA 150 : Public Speaking. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles and methods of public speaking; speaking experiences.

3. Complete the following required core:
EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Philosophical and ethical issues common to exercise science majors. Concept of mind, body, spirit.

EXSC 387 : Lifestyle and Chronic Disease Prevention. (3:3:0)
OFFERED: F, W
DESCRIPTION: Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e. cardiovascular disease, cancer, and diabetes.

EXSC 410 : Stress Management. (2:2:0)
OFFERED: F, W
DESCRIPTION: Practical experience in learning to understand and manage stress.

EXSC 463 : Exercise Physiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 305.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 463 or concurrent enrollment.

EXSC 480 : Obesity and Weight Management. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 463 or concurrent enrollment.
DESCRIPTION: Review of the scientific literature surrounding obesity and weight management, primarily the causes and consequences of this growing epidemic.

4. Complete four hours from the following:
EXSC 399R : Academic Internship. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Advisor's consent; ExSc 301 for health promotion majors.
DESCRIPTION: On-the-job experience for physical education majors and coaching and physical education minors.

: Athletic Training Practicum.
: Coaching Practicum.
: Exercise Physiology Practicum.
: Exercise Science Internship.
: Fitness and Wellness Internship
: Practicum Handicap.

5. Complete 25 hours from the following:

a. Complete a minimum of 18 hours from the following:

EXSC 285 : Personal Training Strategies. (2:2:0)
OFFERED: F, W
DESCRIPTION: Designing and implementing individual and group fitness and wellness programs based upon the latest scientific concepts, utilizing safe and effective techniques, to develop flexibility, strength, and cardiovascular endurance.

EXSC 365 : Scientific Bases of Sport 2: Kinesiology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

EXSC 400 : Functional Anatomy and Kinesiology. (4:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

EXSC 455 : Worksite Health Promotion. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 363, 387.
DESCRIPTION: Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 463.
DESCRIPTION: Applying scientific principles to problems in conditioning.

EXSC 485 : Exercise and Wellness Certification Preparation. (3:3:0)
OFFERED: F, W
PREREQUISITE: Senior status.
DESCRIPTION: Review of exercise and wellness certification competencies and curriculum with preparation for professional certification.

HLTH 345 : Principles of Epidemiology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Stat 221.
DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

HLTH 438 : Social Marketing. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332, 437.
DESCRIPTION: Social marketing, including formative research, audience analysis, segmentation, marketing mix, strategies, pretesting; application to health promotion and public health.

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

b. Complete up to seven hours from the following:

ACC 200 : Principles of Accounting. (3:3:0)
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.
NOTE: Independent Study also.

BUS M 300 : Financial Management. (3:3:0)

OFFERED: F, W, Sp, Su
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Emphasizes financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.
NOTE: For nonmanagement majors.

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

: Marriott School Lecture Series.
: Women Entrepreneurs.

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

DANCE 336 : Methods of Teaching Aerobic Dance. (2:2:2)
OFFERED: F, W
PREREQUISITE: Dance 342 or ExSc 362; Dance 343 or ExSc 363.
RECOMMENDED: NDFS 100.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

HLTH 335 : Health Behavior Change. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

HLTH 370 : Consumer Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Current consumer health issues; selecting proper health products, services, and information; sources of consumer health protection.

HLTH 383 : Mind/Body Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Theories and research on the effect of emotions and attitudes on health: how negative emotions increase disease susceptibility and positive emotions encourage immune strength, health, and healing.

HLTH 450 : Women's Health Issues. (3:3:0)
OFFERED: F, W
DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

ORG B 320 : Organizational Effectiveness. (3:Arr:2)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

STDEV 139 : Introduction to Health Professions. (1:1:0)
OFFERED: F, W
DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

Note: Other elective courses may be taken with approval from the exercise and wellness major program director.

*Hours include courses that may fulfill university core requirements.

BS in Exercise Science (58.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The exercise science program is designed to prepare students for entry into graduate school in one of the disciplines related to exercise science or one of the healthcare professional schools.

Students majoring in exercise science explore how the body functions during physical activity and exercise. Principles and concepts taught in human anatomy and physiology, exercise physiology, biomechanics, motor learning, chemistry, physics, and nutrition are mastered to help understand how the body responds to acute bouts of exercise and how it adapts to chronic physical activity and exercise. The impact that physical activity and exercise have on one's capacity to do work, physical performance, as well as its impact on health and disease makes study of this discipline rewarding.

Students considering medicine as a profession may want to select this major. While providing the requisite courses for medical school acceptance, it also conveys a healthy-lifestyle, preventive-medicine health care perspective.

Career Opportunities

The exercise science degree provides excellent preparation for students interested in graduate work in exercise physiology (MS, PhD) or those desiring to pursue training in medicine, physical therapy, cardiac rehabilitation, podiatry, chiropractic, and other health care professions. Graduates with this major may also find opportunities in community, corporate, or hospital wellness centers and health promotion programs.

The major is designed to prepare students to enter graduate programs in several health-related professions; specifically exercise science master's and doctoral programs. Those who complete graduate work in exercise science are most likely to be employed as a professor/researcher in a university setting. In addition to graduate studies in exercise science, students are also prepared to attend medical school, dental school, osteopathy school, physician assistant programs, and chiropractic school.

Salary varies tremendously with the terminal degree sought, the choice of career specialty, and geographic location of employment or practice. Earnings for those with certain medical and dental specialties are potentially lucrative.

Program Requirements | View MAP

1. Complete senior exit interview.
2. Complete the following:

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.
- DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
- NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Chem 106 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

3. Complete one of the following options:

Either

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

Or

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
OFFERED: F, W, Sp

PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

4. Complete the following major courses:

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Philosophical and ethical issues common to exercise science majors. Concept of mind, body, spirit.

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 220, Math 110 or higher.
RECOMMENDED: Phscs 105 or 121.

EXSC 400 : Functional Anatomy and Kinesiology. (4:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

EXSC 460 : Orthopaedic Impairments and Therapeutic Exercise. (3:3:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 362; PDBio 220 or equivalent.
DESCRIPTION: Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

EXSC 463 : Exercise Physiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 305.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 463 or concurrent enrollment.

5. Complete 14 hours from the following:

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

CHEM 481 : Biochemistry 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 352; Biol 100 or equivalent.
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 455 : Worksite Health Promotion. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 363, 387.
DESCRIPTION: Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 463.
DESCRIPTION: Applying scientific principles to problems in conditioning.

EXSC 470 : Functional Neuroanatomy. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 220, ExSc 400.
DESCRIPTION: Function, assessment, and rehabilitation of sensory and motor systems.

EXSC 497R : Undergraduate Research and Study. (.5-4:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Individual research and study in any area of physical education.

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 205.
DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

HLTH 320 : Advanced First Aid and Safety. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

HLTH 335 : Health Behavior Change. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.

DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 221 or concurrent enrollment.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 100.
DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

NDFS 305 : Nutritional Implications of Disease. (4:4:0)
OFFERED: W
PREREQUISITE: NDFS 200; PDBio 305.
DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.
NOTE: For nutritional science majors.

NDFS 310 : Sports Nutrition. (2:2:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100, PDBio 305.
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

PDBIO 320 : Dissection Techniques in Human Anatomy. (1:0:3)
OFFERED: On demand.
PREREQUISITE: PDBio 220.
DESCRIPTION: Techniques of human cadaver dissection.

PDBIO 325 : Tissue Biology (with lab). (3:2:3)
OFFERED: F, W
PREREQUISITE: Biol 120.
DESCRIPTION: Human anatomy and histology; function of cells in tissue; early stages of embryology.

PDBIO 360 : Cell Biology. (3:3:1)
OFFERED: F, W
PREREQUISITE: MMBio 240.
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PDBIO 484 : Human Embryology. (3:3:0)
OFFERED: F
PREREQUISITE: Biol 360 or equivalent.
RECOMMENDED: PDBio 225.
DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing

molecular and cellular changes and their functional consequences.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)
OFFERED: F
PREREQUISITE: PDBio 352 or instructor's consent.
DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

PDBIO 565 : Endocrinology. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 362 or instructor's consent.
DESCRIPTION: Mammalian hormones.

PSYCH 111 : General Psychology. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Basic course in modern scientific psychology.

PSYCH 220 : Human Development: Life Span. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Interaction of psychological, biological, and social influences on behavior and psychological development through the life span.

PSYCH 342 : Abnormal Psychology. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Psych 301, 302, 303, 304; or instructor's consent.
DESCRIPTION: Dynamics of maladjustment; major psychological disorders and therapeutic procedures. Fieldwork required.
NOTE: Contains content featured in the Graduate Record Examination (GRE).

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

SOC 111 : Introductory Sociology. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Social group influence; social interaction, processes, organization, and change; family, religion, government, population, culture, race relations.

SOC 112 : Current Social Problems. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

STDEV 139 : Introduction to Health Professions. (1:1:0)
OFFERED: F, W
DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

STDEV 399R : Health Professions Internship. (1-3:Arr:Arr)
Health Professions Internship.
OFFERED: F, W
DESCRIPTION: Internships with health care providers.

Note: Watch prerequisites for the elective courses.

Note to Premed Stuadents: Professional schools and graduate programs may require additional courses not required for this major. Contact the programs to which you may apply to determine specific courses that meet their entrance requirements. Students considering professional or graduate degrees should take at least two semesters of mathematical courses. The following required or elective courses are strongly recommended for students considering professional or graduate degrees in the exercise sciences: MMBio 241; PDBio 360, 362, 363; Chem 351, 352, 353, 481; Math 119; Stat 221. For more information contact the Preprofessional Advisement Center, 3326 WSC, (801) 422-2318. Contact potential schools of choice for a complete list of entrance requirements.

*Hours include courses that may fulfill university core requirements.

BS in Physical Education Teaching/Coaching (K–12) (78 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center or department office for information regarding requirements for admission to this program.

The Discipline

Students preparing to teach physical education and/or coach will have a variety of experiences that will enhance proficiency in the knowledge and skills requisite to working in the contemporary school setting. Majors learn to perform a variety of sport, fitness, outdoor adventure, and dance activities personally. After becoming proficient, students take courses and have practical experiences in teaching and coaching children, adolescents, and adults. The discipline is interesting and rewarding, and those in a teaching/coaching career help others pursue and practice healthy lifestyle habits.

Career Opportunities

Graduates seek teaching and physical education/coaching careers in elementary and secondary education settings. With an advanced degree, teaching and coaching positions at institutions of higher learning are available.

It is recommended that students desiring to be optimally employable in secondary schools complete an approved teaching minor.

Program Requirements | View MAP

1. Prior to beginning course work in the major, students must apply for admittance into the PETE Program. The program requires that all students take most of the major courses together as a cohort group. See the PETE advisor during January of the sophomore year (106 SFH).
2. Complete the senior exit interview.
3. A teaching minor is not required for licensure. However, it is strongly recommended.
4. Complete the following required prerequisite and general education courses:

HEPE 129 : Fitness and Lifestyle Management. (2:2:1)
OFFERED: F, W
DESCRIPTION: Why a healthy lifestyle is needed and how to write individualized programs to meet these needs.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Structure and function of the human body. Lab included.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

5. Complete the following:

EXSC 230 : K-12 Physical Activities Content and Skills 1. (3:3:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including soccer, softball, tennis, walking, jogging, disc golf, and elementary activities.

EXSC 231 : K-12 Physical Activities Content and Skills 2. (3:3:0)
OFFERED: W
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including badminton, basketball, flag football, swimming, volleyball, and golf.

EXSC 233 : K-12 Physical Activities Content and Skills 3. (1-3:3:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including cycling, hiking, snow sports, Pilates, aerobics, core training, and yoga.

EXSC 239 : Weight Training: Skills and Teaching Techniques. (.5:0:2)
OFFERED: F, W

EXSC 300 : Advocacy for Physical Education. (2:2:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Historical and sociological cornerstones of physical education.

EXSC 301 : K-12 Healthy and Active Lifestyle Management. (2:2:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Understanding the content and pedagogical knowledge required to manage a healthy and active lifestyle; how to impart this knowledge to public school students.

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Philosophical and ethical issues common to exercise science majors. Concept of mind, body, spirit.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 352 : Legal and Administrative Aspects of Physical Education and Sport. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Principles of physical education and intramural management including facilities, equipment, fiscal matters, personnel, public relations, and program administration. Legal considerations of physical education and sport programs, including constitutional rights, gender, liability, and risk management.

EXSC 360 : Curriculum and Assessment of Learning in Physlcal Education. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Curriculum development to meet national physical education standards. Assessment of psychomotor, cognitive, and affective learning, including elementary statiscal testing.

EXSC 361 : Introduction to Motor Learning. (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Motor and cognitive factors influencing acquisition of motor skills.

EXSC 365 : Scientific Bases of Sport 2: Kinesiology. (2:2:0)

OFFERED: F, W
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

EXSC 369 : Exercise Physiology for Physical Educators. (3:Arr:Arr)
OFFERED: F
PREREQUISITE: PDBio 305.

EXSC 399R : Academic Internship. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Advisor's consent; ExSc 301 for health promotion majors.
DESCRIPTION: On-the-job experience for physical education majors and coaching and physical education minors.

: Athletic Training Practicum.
: Coaching Practicum.
: Exercise Physiology Practicum.
: Exercise Science Internship.
: Fitness and Wellness Internship
: Practicum Handicap.

EXSC 430 : Principles of Coaching. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Developing a philosophy of coaching and officiating; understanding coaching responsibilities and techniques; preparing athletes; valuing professional relationships with others.

6. Complete one course from the following:
EXSC 330R : Coaching Selected Sports. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching golf, tennis, or wrestling.

EXSC 335 : Coaching Competitive Swimming. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching swimming.

EXSC 341 : Coaching Basketball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching basketball.

EXSC 342 : Coaching Track and Field. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching track and field.

EXSC 344 : Coaching Football. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching football.

EXSC 345 : Coaching Volleyball. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching volleyball.

EXSC 346 : Coaching Baseball and Softball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching baseball and softball.

EXSC 347 : Coaching Soccer. (2:1:2)
OFFERED: Sp
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching soccer.

7. Complete the Professional Education Component:
a. Complete the following:
EXSC 374 : Fundamental Skills and Teaching Methods for Elementary Physical Education. (3:2:2)

OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Identifying and demonstrating fundamental skills; identifying immature and mature movement patterns; selecting developmentally appropriate activities; appropriate management techniques.

EXSC 377 : Secondary Practicum. (3:1:3)
OFFERED: F
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance; acceptance into PETE program.
DESCRIPTION: Written and practical teaching assignments designed to help prospective teachers plan, conduct, and evaluate lessons and unit plans appropriate to adolescent students.

EXSC 380 : Use of Technology in Physical Education Teaching. (2:2:)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Applying computer technology: Web page design and software focusing on skill, fitness grading, digital video editing, and presentation
NOTE: Course meets secondary education technology requirements.

EXSC 461 : Adapted Physical Education for Teaching Majors. (3:2:1)
OFFERED: W
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Program, legal mandates, management techniques, and assessing and identifying special needs students.

SC ED 276R : Exploration of Teaching: Exercise Sciences. (3-4:ARR:ARR)
Exploration of Teaching: Exercise Sciences.
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.
(3 hours required)
SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

Note: Fingerprinting and FBI clearance must be completed prior to enrolling in ExSc 377.

b. Complete 12 hours of one of the following:
SC ED 476R : Secondary Student-Teaching Internship - Physical Education. (12:ARR:ARR)
Secondary Student-Teaching Internship - Physical Education.
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.
SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

8. Complete the PRAXIS II exam.

*Hours include courses that may fulfill university core requirements.

Minor in Coaching and Teaching Physical Education (23.5 hours)

Show All Course Descriptions
Hide All Course Descriptions

Students can choose this minor to prepare to coach. Students who have met the university's teacher licensure requirements will also be qualified to teach physical education with this minor.

Program Requirements

1. Complete the following:

EXSC 229 : Physical Education Pedagogy. (2:2:0)
OFFERED: F, W; Sp even years.
DESCRIPTION: Sport pedagogy for students *minoring* in physical education/coaching.

EXSC 234 : Team Sport Fundamentals. (1:0:4)
OFFERED: F, W
PREREQUISITE: ExSc 229.
DESCRIPTION: Skill and pedagogy development in soccer and volleyball.
NOTE: For *minor*s in physical education/coaching only.

EXSC 235 : Sport Fitness Techniques. (1:0:4)
OFFERED: F, W
PREREQUISITE: ExSc 229.
DESCRIPTION: Skill and pedagogy in flexibility and weight training.
NOTE: For *minor*s in physical education/coaching only.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 351 : Administration of Physical Education and Athletics. (2:2:0)
OFFERED: F, W
DESCRIPTION: Management styles and techniques for physical education and athletic programs; policies concerning eligibility, contest management, safety, facilities, and legal concerns.
NOTE: For teaching and coaching minors.

EXSC 364 : Scientific Bases of Sport 1: Motor Learning. (2:2:0)
OFFERED: F, W
DESCRIPTION: Motor learning principles for physical education/coaching minor.

EXSC 365 : Scientific Bases of Sport 2: Kinesiology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

EXSC 366 : Scientific Bases of Sport 3: Exercise Physiology. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
DESCRIPTION: Physiology of activity for physical education/coaching minor.

EXSC 430 : Principles of Coaching. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Developing a philosophy of coaching and officiating; understanding coaching responsibilities and techniques; preparing athletes; valuing professional relationships with others.

EXSC 450 : Psychology of Sport. (2:2:0)
OFFERED: F, W

2. Complete a minimum of 1 hour from the following:
EXSC 399R : Academic Internship. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Advisor's consent; ExSc 301 for health promotion majors.
DESCRIPTION: On-the-job experience for physical education majors and coaching and physical education minors.

: Athletic Training Practicum.
: Coaching Practicum.
: Exercise Physiology Practicum.
: Exercise Science Internship.
: Fitness and Wellness Internship
: Practicum Handicap.

3. Complete one course from the following:
EXSC 330R : Coaching Selected Sports. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching golf, tennis, or wrestling.

EXSC 335 : Coaching Competitive Swimming. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching swimming.

EXSC 341 : Coaching Basketball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching basketball.

EXSC 342 : Coaching Track and Field. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching track and field.

EXSC 344 : Coaching Football. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching football.

EXSC 345 : Coaching Volleyball. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching volleyball.

EXSC 346 : Coaching Baseball and Softball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching baseball and softball.

EXSC 347 : Coaching Soccer. (2:1:2)
OFFERED: Sp
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching soccer.

Undergraduate Courses

100-Level Courses

EXSC 100R : Intercollegiate Athletics. (.5:2:10.5)
OFFERED: F, W, Sp

: Intercollegiate Athletics - Men.
: Intercollegiate Athletics - Women.

EXSC 101R : Activities for Fitness and Weight Control. (.5:0:2)
OFFERED: W

EXSC 102R : Adapted Physical Education. (.5:0:2)
PREREQUISITE: Medical referral.

EXSC 106 : Badminton, Beginning. (.5:0:2)
OFFERED: F, W

EXSC 111 : Basketball, Beginning. (.5:0:2)
OFFERED: F, W, Sp

EXSC 112 : Basketball, Intermediate. (.5:0:2)
OFFERED: F, W
PREREQUISITE: ExSc 111 or equivalent.

EXSC 116 : Bowling, Beginning. (.5:0:2)
OFFERED: F, W
NOTE: Fee.

EXSC 117 : Bowling, Intermediate. (.5:0:2)
OFFERED: F, W, Sp
NOTE: Fee.

EXSC 120 : Cycling. (.5:0:2)
DESCRIPTION: Basic knowledge and skills in cycling and bike maintenance.

EXSC 121 : Diving, Springboard. (.5:0:2)
OFFERED: F, W

EXSC 125 : Flexibility. (.5:0:2)
OFFERED: F, W

EXSC 130 : Weight Management. (.5:0:2)
OFFERED: F, W
DESCRIPTION: Improving fitness levels and body composition by participating in regular physical activity and monitoring and reducing dietary intake.

EXSC 131 : Golf, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 132 : Golf, Intermediate. (.5:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 131 or equivalent.

EXSC 136 : Gymnastics, Beginning. (.5:0:2)
OFFERED: F, W, Sp

EXSC 137 : Gymnastics, Intermediate. (.5:0:2)
OFFERED: F, W, Sp
PREREQUISITE: ExSc 136 or equivalent.

EXSC 139 : Jogging. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 141 : Martial Arts. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 143R : Physical Training--ROTC. (.5:0:2)

OFFERED: F, W, Sp
PREREQUISITE: For ROTC students only.

EXSC 146 : Racquetball, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 147 : Racquetball, Intermediate. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 150 : Ice Skating. (.5:0:2)
OFFERED: F, W
DESCRIPTION: Developing figure and ice hockey skills.
NOTE: Taught off campus. Fee.

EXSC 151 : Ice Hockey. (.5:0:2)
OFFERED: F, W
PREREQUISITE: Beginning ice skating or instructor's consent.
DESCRIPTION: Basic power skates, puck and stick handles, and game strategies.
NOTE: Fee.

EXSC 152 : Intermediate Ice Skating. (.5:0:2)
OFFERED: F, W
PREREQUISITE: ExSc 150 or equivalent.
DESCRIPTION: Developing intermediate ice skating skills.
NOTE: Taught off campus. Fee.

EXSC 153 : Intermediate Ice Hockey. (.5:0:2)
OFFERED: F, W
PREREQUISITE: ExEc 151 or equivalent.
DESCRIPTION: Developing intermediate ice hockey skills.
NOTE: Taught off campus. Fee.

EXSC 155 : Self-Defense. (.5:0:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Fundamental principles, skills, and techniques.

EXSC 156 : Soccer, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 157 : Soccer, Intermediate. (.5:0:2)
PREREQUISITE: ExSc 156 or equivalent.

EXSC 161 : Skiing, Beginning. (.5:0:2)
OFFERED: W
NOTE: Sections formed on basis of ability. Students responsible for following costs: bus transportation, ski equipment, lift fees. Students required to use bus transportation provided. Fee.

EXSC 162 : Skiing, Intermediate. (.5:0:2)
OFFERED: W
NOTE: Sections formed on basis of ability. Students responsible for following costs: bus transportation, ski equipment, lift fees. Students required to use bus transportation provided. Fee.

EXSC 164 : Skiing, Cross-Country. (.5:0:2)
OFFERED: W
NOTE: Students responsible for following costs: bus transportation, ski equipment. Students required to use bus transportation provided. Fee.

EXSC 169 : Elementary Skills and Activities. (.5:0:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical skills and activities specific to elementary-age children.
NOTE: Required for elementary education majors. Meets one Wellness physical education activity requirement.

EXSC 170 : Swimming for Nonswimmers. (.5:0:2)
OFFERED: F, W

EXSC 171 : Swimming, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 172 : Swimming, Intermediate. (.5:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 171 or equivalent.

EXSC 174R : Swimming for Students with Disabilities. (.5:0:2)
OFFERED: F, W
NOTE: Can be taken repeatedly to fulfill the university physical education activity requirement for any student with special needs.

EXSC 175 : Beginning Scuba Diving. (.5:0:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Developing scuba diving skills.
NOTE: Taught off campus. Fee.

EXSC 176 : Advanced Scuba Diving. (.5:0:2)

OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 175 or Open Water Diver Certification.

EXSC 177 : Rescue Scuba. (.5:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 176 or Advanced Open Water Diver Certification.
DESCRIPTION: CPR, first aid, and diving rescue procedures and concepts. Rescue certification upon successful completion.
NOTE: Fee.

EXSC 179 : Water Aerobics. (.5:0:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Exercise workout in water emphasizing flexibility, strength, and endurance.
NOTE: For nonswimmers and swimmers.

EXSC 181 : Tennis, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 182 : Tennis, Intermediate. (.5:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 181 or equivalent.

EXSC 183 : Tennis, Advanced. (.5:0:2)
OFFERED: F, W
PREREQUISITE: ExSc 182 or equivalent.

EXSC 186 : Volleyball, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 187 : Volleyball, Intermediate. (.5:0:2)
OFFERED: F, W, Su
PREREQUISITE: ExSc 186 or equivalent.

EXSC 188 : Volleyball, Advanced. (.5:0:2)
OFFERED: F, W
PREREQUISITE: ExSc 187 or equivalent.

EXSC 191 : Weight Training, Beginning. (.5:0:2)
OFFERED: F, W, Sp, Su

EXSC 192 : Weight Training, Intermediate. (.5:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 191 or equivalent.
DESCRIPTION: Theory and technique of maximal strength development, emphasizing "power" and "Olympic" lifts.

EXSC 199R : Academic Internship. (1-9:0:0)

: Team Manager Internship.

200-Level Courses

EXSC 201R : Extramural Sports. (.5::2)
OFFERED: F, W, Sp, Su

: Extramural Alpine Skiing.
: Extramural Fencing.
: Extramural Lacrosse.
: Extramural Racquetball.
: Extramural Rugby.
: Extramural Soccer--Men.
: Extramural Soccer.
: Extramural Water Polo.

EXSC 203 : Performance Psychology. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Relaxation and imagery for athletes and performing artists.

EXSC 206 : Officiating Team Sports. (1:.5:1.5)
OFFERED: F, W; Sp even years.
DESCRIPTION: Techniques, rules, and problems related to officiating, with particular attention to relationship between coach and official.

EXSC 229 : Physical Education Pedagogy. (2:2:0)
OFFERED: F, W; Sp even years.
DESCRIPTION: Sport pedagogy for students *minoring* in physical education/coaching.

EXSC 230 : K-12 Physical Activities Content and Skills 1. (3:3:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including soccer, softball, tennis, walking, jogging, disc golf, and elementary activities.

EXSC 231 : K-12 Physical Activities Content and Skills 2. (3:3:0)
OFFERED: W
PREREQUISITE: Admittance into PETE program.

EXSC 233 : K-12 Physical Activities Content and Skills 3. (1-3:3:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Skills, content, and pedagogical knowledge in lifetime activities, including cycling, hiking, snow sports, Pilates, aerobics, core training, and yoga.

EXSC 234 : Team Sport Fundamentals. (1:0:4)
OFFERED: F, W
PREREQUISITE: ExSc 229.
DESCRIPTION: Skill and pedagogy development in soccer and volleyball.
NOTE: For *minors* in physical education/coaching only.

EXSC 235 : Sport Fitness Techniques. (1:0:4)
OFFERED: F, W
PREREQUISITE: ExSc 229.
DESCRIPTION: Skill and pedagogy in flexibility and weight training.
NOTE: For *minors* in physical education/coaching only.

EXSC 239 : Weight Training: Skills and Teaching Techniques. (.5:0:2)
OFFERED: F, W

EXSC 277 : Techniques of Lifeguarding. (2:1:3)
OFFERED: F, W
PREREQUISITE: Swim competency test (given first day of class).
DESCRIPTION: First-aid and lifeguard skills training, including instruction in CPR, and American Red Cross certification for lifeguard training.

EXSC 278 : Water Safety Instructor Training. (2:1:3)
OFFERED: F, W
PREREQUISITE: ARC Swimmer--level competency.
DESCRIPTION: Leads to American Red Cross WSI certification. Swimming teaching methods that include teaching swimming to special needs students.

EXSC 285 : Personal Training Strategies. (2:2:0)
OFFERED: F, W
DESCRIPTION: Designing and implementing individual and group fitness and wellness programs based upon the latest scientific concepts, utilizing safe and effective techniques, to develop flexibility, strength, and cardiovascular endurance.

300-Level Courses

EXSC 300 : Advocacy for Physical Education. (2:2:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Historical and sociological cornerstones of physical education.

EXSC 301 : K-12 Healthy and Active Lifestyle Management. (2:2:0)
OFFERED: F
PREREQUISITE: Admittance into PETE program.
DESCRIPTION: Understanding the content and pedagogical knowledge required to manage a healthy and active lifestyle; how to impart this knowledge to public school students.

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Philosophical and ethical issues common to exercise science majors. Concept of mind, body, spirit.

EXSC 320 : Basic Athletic Training. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 220; concurrent enrollment in ExSc 321.
DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

EXSC 330R : Coaching Selected Sports. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching golf, tennis, or wrestling.

EXSC 335 : Coaching Competitive Swimming. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching swimming.

EXSC 341 : Coaching Basketball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching basketball.

EXSC 342 : Coaching Track and Field. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.

EXSC 344 : Coaching Football. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching football.

EXSC 345 : Coaching Volleyball. (2:1:2)
OFFERED: W
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching volleyball.

EXSC 346 : Coaching Baseball and Softball. (2:1:2)
OFFERED: F
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching baseball and softball.

EXSC 347 : Coaching Soccer. (2:1:2)
OFFERED: Sp
PREREQUISITE: Appropriate skills and teaching techniques class or equivalent.
DESCRIPTION: Theory, fundamentals, strategies, and techniques of coaching soccer.

EXSC 349 : Body, Mind, Spirit. (3:3:0)
OFFERED: W
DESCRIPTION: Sacredness of the body and its meaningfulness to the whole being. Comparative approach utilizing ideas from the restored gospel and Western and Eastern philosophy (nature of being).
NOTE: Honors also.

: Honors Body, Mind, Spirit.

EXSC 351 : Administration of Physical Education and Athletics. (2:2:0)
OFFERED: F, W
DESCRIPTION: Management styles and techniques for physical education and athletic programs; policies concerning eligibility, contest management, safety, facilities, and legal concerns.
NOTE: For teaching and coaching minors.

EXSC 352 : Legal and Administrative Aspects of Physical Education and Sport. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Principles of physical education and intramural management including facilities, equipment, fiscal matters, personnel, public relations, and program administration. Legal considerations of physical education and sport programs, including constitutional rights, gender, liability, and risk management.

EXSC 360 : Curriculum and Assessment of Learning in Physical Education. (3:3:0)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Curriculum development to meet national physical education standards. Assessment of psychomotor, cognitive, and affective learning, including elementary statiscal testing.

EXSC 361 : Introduction to Motor Learning. (3:2:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Motor and cognitive factors influencing acquisition of motor skills.

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 220, Math 110 or higher.
RECOMMENDED: Phscs 105 or 121.

EXSC 364 : Scientific Bases of Sport 1: Motor Learning. (2:2:0)
OFFERED: F, W
DESCRIPTION: Motor learning principles for physical education/coaching minor.

EXSC 365 : Scientific Bases of Sport 2: Kinesiology. (2:2:0)
OFFERED: F, W
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

EXSC 366 : Scientific Bases of Sport 3: Exercise Physiology. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
DESCRIPTION: Physiology of activity for physical education/coaching minor.

EXSC 369 : Exercise Physiology for Physical Educators. (3:Arr:Arr)
OFFERED: F
PREREQUISITE: PDBio 305.

EXSC 374 : Fundamental Skills and Teaching Methods for Elementary Physical Education. (3:2:2)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Identifying and demonstrating fundamental skills; identifying immature and mature movement patterns; selecting developmentally appropriate activities; appropriate management techniques.

EXSC 375 : Physical Education for Elementary School Teachers. (2:1:3)
OFFERED: F, W, Sp
PREREQUISITE: ExSc 169.

EXSC 376 : Practical Experience in Teaching Elementary School Physical Education. (2:0:4)
PREREQUISITE: ExSc 375.

EXSC 377 : Secondary Practicum. (3:1:3)
OFFERED: F
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance; acceptance into PETE program.
DESCRIPTION: Written and practical teaching assignments designed to help prospective teachers plan, conduct, and evaluate lessons and unit plans appropriate to adolescent students.

EXSC 380 : Use of Technology in Physical Education Teaching. (2:2:)
OFFERED: F
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Applying computer technology: Web page design and software focusing on skill, fitness grading, digital video editing, and presentation
NOTE: Course meets secondary education technology requirements.

EXSC 387 : Lifestyle and Chronic Disease Prevention. (3:3:0)
OFFERED: F, W
DESCRIPTION: Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e. cardiovascular disease, cancer, and diabetes.

EXSC 394 : Athletic Training Clinical Education 1. (2:1:5)
OFFERED: F, W
PREREQUISITE: Admission to athletic training program.
DESCRIPTION: Classroom and field experience. Orientation to athletic training program and clinical expectations. Modules include emergency care, taping skills, and basic modalities.

EXSC 395 : Athletic Training Clinical Education 2. (2:1:5)
OFFERED: F, W
PREREQUISITE: ExSc 394.
DESCRIPTION: Classroom and field experience. Modules include taping skills, assessment, and modalities.

EXSC 399R : Academic Internship. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: Advisor's consent; ExSc 301 for health promotion majors.
DESCRIPTION: On-the-job experience for physical education majors and coaching and physical education minors.

: Athletic Training Practicum.
: Coaching Practicum.
: Exercise Physiology Practicum.
: Exercise Science Internship.
: Fitness and Wellness Internship
: Practicum Handicap.

400-Level Courses

EXSC 400 : Functional Anatomy and Kinesiology. (4:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

EXSC 410 : Stress Management. (2:2:0)
OFFERED: F, W
DESCRIPTION: Practical experience in learning to understand and manage stress.

EXSC 414 : Advanced Athletic-Training Lab. (1:0:2)
OFFERED: F, W
PREREQUISITE: Admission to athletic training program.
DESCRIPTION: Advanced athletic-training skills, including taping, bracing and splinting, custom-fitted equipment, massage and stretching techniques, and emergency splinting and transport.

EXSC 415 : Therapeutic Modalities. (3:2:2)
OFFERED: F, W
PREREQUISITE: Admission to athletic-training program.
DESCRIPTION: Hydrotherapy, massage, traction, radiant energy, heat, cold, and electrotherapy.

EXSC 416 : Injury Evaluation: Lower Extremities. (3:3:0)
OFFERED: F, W
PREREQUISITE: Admission to athletic training program.
DESCRIPTION: Basic principles of injury evaluation; evaluation techniques specific to lower-extremity injuries.

EXSC 417 : Injury Evaluation: Upper Extremities and Trunk. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 416.
DESCRIPTION: Injury evaluation techniques specific to the upper extremities and trunk.

EXSC 418 : Rehabilitation of Orthopedic Injuries. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 415.
DESCRIPTION: Basic principles, techniques, and progression of orthopedic/musculoskeletal rehabilitation.

EXSC 419 : Medical Issues in Athletic Training. (1:1:0)

OFFERED: W
PREREQUISITE: ExSc 417 or concurrent enrollment.
DESCRIPTION: Discussion of current medical issues in athletic training, with guest lectures by medical specialists.

EXSC 423 : Administration of Athletic Training Programs. (2:2:0)
OFFERED: F, W
PREREQUISITE: ExSc 415.
DESCRIPTION: Management and administration of athletic training facilities and staff members.

EXSC 430 : Principles of Coaching. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Developing a philosophy of coaching and officiating; understanding coaching responsibilities and techniques; preparing athletes; valuing professional relationships with others.

EXSC 450 : Psychology of Sport. (2:2:0)
OFFERED: F, W

EXSC 455 : Worksite Health Promotion. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 363, 387.
DESCRIPTION: Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

EXSC 460 : Orthopaedic Impairments and Therapeutic Exercise. (3:3:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 362; PDBio 220 or equivalent.
DESCRIPTION: Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

EXSC 461 : Adapted Physical Education for Teaching Majors. (3:2:1)
OFFERED: W
PREREQUISITE: Acceptance into PETE program.
DESCRIPTION: Program, legal mandates, management techniques, and assessing and identifying special needs students.

EXSC 463 : Exercise Physiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 305.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: ExSc 463 or concurrent enrollment.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)
OFFERED: F, W; Sp even years; Su odd years.
PREREQUISITE: ExSc 463.
DESCRIPTION: Applying scientific principles to problems in conditioning.

EXSC 470 : Functional Neuroanatomy. (3:3:0)
OFFERED: W
PREREQUISITE: PDBio 220, ExSc 400.
DESCRIPTION: Function, assessment, and rehabilitation of sensory and motor systems.

EXSC 476 : Elementary Student Teaching in Physical Education. (3:1:5)
PREREQUISITE: Completion of courses in public school teaching major and instructor's consent.

EXSC 480 : Obesity and Weight Management. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 463 or concurrent enrollment.
DESCRIPTION: Review of the scientific literature surrounding obesity and weight management, primarily the causes and consequences of this growing epidemic.

EXSC 485 : Exercise and Wellness Certification Preparation. (3:3:0)
OFFERED: F, W
PREREQUISITE: Senior status.
DESCRIPTION: Review of exercise and wellness certification competencies and curriculum with preparation for professional certification.

EXSC 494 : Athletic Training Clinical Education 3. (2:1:5)
OFFERED: F, W
PREREQUISITE: ExSc 395.
DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, and knowledge of general medical conditions.

EXSC 495 : Athletic Training Clinical Education 4. (2:1:5)
OFFERED: F, W
PREREQUISITE: ExSc 494.
DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, nutrition, and dermatology.

EXSC 496R : Academic Internship: Practicum. (.5-8:0:ARR)
OFFERED: F, W, Sp
PREREQUISITE: ExSc 320 and instructor's consent.
DESCRIPTION: Academic and practical application of skills for athletic trainers.

: Athletic Training.

EXSC 497R : Undergraduate Research and Study. (.5-4:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Individual research and study in any area of physical education.

EXSC 498 : Capstone Experience in Athletic Training. (2:2:0)
OFFERED: F, W
PREREQUISITE: Senior standing in athletic training education program.
DESCRIPTION: Synthesizing and integrating student classroom and clinical experiences in preparation for BOC examination resulting in certification of allied health professionals.
NOTE: Course should be taken last semester prior to graduation.

500-Level Graduate Courses (available to advanced undergraduates)

EXSC 501 : Sports Medicine Pathology and Pharmacology. (3:3:0)
OFFERED: F, W
PREREQUISITE: ExSc 320, PDBio 305; or equivalents.
DESCRIPTION: Sports medicine pathologies and related pharmacology for a variety of sports medicine/allied health care professions.
NOTE: Meets required educational CAATE competencies.

EXSC 560 : Orthopaedic Pathomechanics. (2:2:1)
OFFERED: F
PREREQUISITE: ExSc 460 or equivalent.
DESCRIPTION: Advanced analysis of neuromusculoskeletal deformities and/or injury. Therapeutic exercise and the use of orthoses.

EXSC 582 : Physical Education for Special Populations. (2:2:0)
OFFERED: W even years.
PREREQUISITE: Baccalaureate degree in physical education.
DESCRIPTION: Theoretical and practical aspects of teaching individuals with disabilities.

EXSC 585 : Pedagogical Techniques in Exercise Sciences. (1:1:0)
OFFERED: F
PREREQUISITE: Graduate student with teaching assistantship in exercise sciences.
DESCRIPTION: Teaching methodologies for instruction in fitness and sports courses.

EXSC 586R : Workshop in Fitness and Sport. (1-4:ARR:ARR)
OFFERED: F
PREREQUISITE: Undergraduate major in physical education or equivalent.

EXSC 599R : Academic Internship: Practicum. (1-9:0:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Field experience for exercise science students; 50 hours of service in approved organization required per credit hour.

: Coaching Practicum.
: Curriculum Instruction Practicum.
: Elementary Physical Education Practicum.
: Exercise Science Practicum
: Health Promotion Practices.
: Physical Therapy Practicum.
: Rehabilitation Practicum.
: Sport Leadership Practicum.

Exercise Sciences Faculty

Professors

Allsen, Philip Edmond

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: BS, Ricks College, 1955
MS, Brigham Young University, 1960
EdD, University of Utah, 1965

Draper, David

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: BS, Utah State University, 1982
MA, Brigham Young University, 1984
EdD, Northern Illinois University, 1988

Knight, Kenneth Lloyd

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: AS, Dixie College, 1967
BS, Weber State College, 1969
BS, Weber State College, 1973
PhD, University of Missouri, Columbia, 1977

Lockhart, Barbara D

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: BS, Michigan State University, 1964
MA, Michigan State University, 1967
EdD, Brigham Young University, 1971

Mack, Gary Wayne

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: BS, University of California, Davis, 1977
MA, University of California, Davis, 1981
PhD, John A. Burns School of Medicine, 1984

Myrer, Joseph William

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: BPE, University of Calgary, Canada, 1974
MA, University of Windsor, Canada, 1977
PhD, Brigham Young University, 1983

Tucker, Larry A

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1978
MS, Brigham Young University, 1979
PhD, Southern Illinois University, 1981

Associate Professors

Feland, Jeffrey Brent

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1993
MS, Texas Women's University, 1995
PhD, Brigham Young University, 1999

George, James David

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1984
MA, Brigham Young University, 1986
PhD, Arizona State University, 1995

Graser, Susan Vincent

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1992
MS, Brigham Young University, 1997
PhD, Arizona State University, 2001

Hunter, Iain

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1996
MEd, Brigham Young University, 1997
PhD, Oregon State University, 2001

Parcell, Allen C.

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1993
MS, Iowa State University, 1995
PhD, Ball State University, 1998

Pennington, Todd R

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1991
MS, University of Utah, 1995
PhD, Virginia Polytechnic Inst. and State University, 1998

Vehrs, Pat Roy

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Northern Illinois University, 1984
MS, Northern Illinois University, 1986
PhD, Brigham Young University, 1991

Wilkinson, Carol

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BEd, Durham University, England, 1976
MS, Brigham Young University, 1981
EdD, Brigham Young University, 1983

Zanandrea, Maria Luiza Betioli

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1983
MA, Brigham Young University, 1984
EdD, Brigham Young University, 1992

Assistant Professors

Hager, Ronald Lee

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1991
MS, Brigham Young University, 1994
PhD, Arizona State University, 1997

Hopkins, Jon Tyson

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1996
MS, Indiana State University, 1997
PhD, Indiana State University, 2000

Johnson, Aaron Wayne

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Professor
DEGREES: PhD, Brigham Young University, 2007

Prusak, Keven A.

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1986
MEd, Utah State University, 1990
PhD, Arizona State University, 2000

Seeley, Matthew Kirk

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Professor
DEGREES: BS, Utah State University, 2000
MS, Utah State University, 2002
PhD, University of Kentucky, 2006

Teaching Professor

Olson, Mel J

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Teaching Professor
DEGREES: BS, Brigham Young University, 1970
MA, Brigham Young University, 1973
EdD, Brigham Young University, 1980

Associate Teaching Professors

Chamberlain, Diane

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Teaching Professor
DEGREES: BA, California State University, Los Angeles, 1966
MS, Brigham Young University, 1969
EdD, University of Utah, 1984

Noel, Robert

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Teaching Professor
DEGREES: BS, Brigham Young University, 1964
MS, Brigham Young University, 1986

Assistant Teaching Professor

Diede, Mike Todd

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Teaching Professor
DEGREES: BS, Brigham Young University, 1994
MS, Indiana State University, 1996
PhD, University of Arizona, 2005

Associate Clinical Professors

Merrill, R Gaye

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Clinical Professor
DEGREES: BS, Brigham Young University, 1978
MS, Indiana University, Bloomington, 1979

Morris, A Kevin

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Clinical Professor
DEGREES: BS, Brigham Young University, 1992
MS, Brigham Young University, 2003

Assistant Clinical Professors

Billings, Carolyn

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Clinical Professor
DEGREES: BS, Brigham Young University, 1993
MS, Brigham Young University, 1995

Empey, William Blain

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Clinical Professor
DEGREES: BS, Brigham Young University, 1991
MS, Columbia University, 1993

Athletic Professionals

Poole, R Craig

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Athletic Professional
DEGREES: BS, Utah State University, 1964
MS, Utah State University, 1967
EdD, University of Utah, 1970

Powers, Timothy J

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Athletic Professional
DEGREES: BS, University of Montana, 1968
MA, San Jose State University, 1973

Shane, Patrick E

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Athletic Professional
DEGREES: BS, Brigham Young University, 1970
EdD, Brigham Young University, 1985

Associate Athletic Professionals

Brockbank, Bruce R

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: BS, Brigham Young University, 1990

Crump, Stan

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: BS, Brigham Young University, 1977
MS, Brigham Young University, 1988

Lamb, Barry E

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: BS, University of Oregon, 1978
MS, Arizona State University, 1988

Nyhus, Susan Billek

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: BS, Brigham Young University, 1986
MS, Brigham Young University, 1987
PhD, University of Utah, 1992

Robison, Mark

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: BS, Brigham Young University, 1982
MS, Brigham Young University, 1986

Rose, David Jack

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: AS, Dixie College, 1980
BA, University of Houston, 1983

Russell, Jon Keith

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Associate Athletic Professional
DEGREES: BS, Brigham Young University, 1973

Assistant Athletic Professionals

Bills, Allison N

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, University of Utah, 1998

Eyestone, Edward Dale

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: MS, Brigham Young University, 1990

Law, Vance A

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1983

Legas, Richard Clark

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1971
MS, Embry Riddle Aeronautical University, 1987

Manning, Craig L

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1996

Mertz, Shauna S

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BA, Brigham Young University, 1993

Mitchell, Brian K

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1995

Penfield, Janie

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BA, Colorado State University, 1998
MBA, Brigham Young University, 2003

Pullins, Gary D

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: AA, Arizona Western College, 1966
BA, Brigham Young University, 1969
MA, Brigham Young University, 1975

Reynolds, Robert Lance

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1980

Rockwood, Jennifer

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1989

Santiago, Brian

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1999
MBA, Brigham Young University, 2001

Skabelund, Shari Clark

COLLEGE: Health and Human Performance
DEPARTMENT: Exercise Sciences
RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1981

Watkins, Christopher N

COLLEGE: Health and Human Performance

RANK: Assistant Athletic Professional
DEGREES: BS, Brigham Young University, 1998

UNDERGRADUATE CATALOG 2008 - 2009

School of Family Life

Richard B. Miller, Director
2086-B JFSB, (801) 422-2069

Shirley Klein, Associate Director for Curriculum
2060B JFSB, (801) 422-3914

Randal Day, Director of Family Studies Center
1041D JFSB, (801) 422-6415

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

The School of Family Life is committed to enhancing th quality of life of individuals and families within the homes and communities worldwide. Accordingly, the mission of the school is to:

- Provide instruction that fosters commitment to the principles in *The Family: A Proclamation to the World.*
- Conduct research that contributes to the understanding and enhancement of human development, temporal well-being in the home, and marriage and family relationships.
- Help students develop the attitudes, beliefs, behaviors, and skills that characterize persons of positive influence—in their own marriage and families, in their professions, in church and public service, and in other personal relationships.

Admission to Degree Program

All degree programs in the School of Family Life are open enrollment.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
- BS in Family and Consumer Sciences Education
- BS in Family Life
  - Emphases:
    - Home and Family Living
    - Human Development
    - Marriage and Family Studies

Minors
- Family Life
- Gerontology

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

- MS in Marriage, Family, and Human Development
- MS in Marriage and Family Therapy
- PhD in Marriage, Family, and Human Development
- PhD in Marriage and Family Therapy

For more information see the BYU 2008–2009 Graduate Catalog.

BS in Family and Consumer Sciences Education (74 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Academic preparation in this interdisciplinary education program includes study in the areas of early childhood development, marriage and family relationships, parenting education, housing and interiors, clothing and textiles, and nutrition and wellness.

With the development of a knowledge base in these critical areas, graduates will be prepared to provide valuable content to secondary education students as they confront life's challenges. These students can become a resource to their own families empowering them to become healthy community contributors.

This program interfaces with the McKay School of Education and includes professional education courses.

Careers

The family and consumer sciences education program prepares students to be licensed by the State of Utah for teaching in the secondary schools. This teaching license can be transferred to other states upon meeting individual state requirements. Students may also find employment in business and Cooperative Extension.

Program Requirements | View MAP

1. At least 15 hours of major credit must be taken in residency at BYU.
2. Complete the following interpersonal relationships courses:

   SFL 100 : Strengthening Marriage and Family: Proclamation Principles and Scholarship. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Understanding, applying, and sharing principles of successful marriage and family life from the LDS proclamation on the family, using sacred and scholarly perspectives.

   SFL 105 : Home and Family Living. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Creating home as a sacred center for individual, marital, and family development; how temporal activities in the home have spiritual importance.

3. Complete the following human development courses:

   SFL 210 : Human Development. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
   NOTE: Independent Study also.

   SFL 221 : Foundations of Developmentally Appropriate Practices in Programs for Young Children. (2:2:0)
   OFFERED: F, W, Su
   PREREQUISITE: SFL 210.
   DESCRIPTION: Historical, philosophical, organizational, and curricular issues related to developmentally appropriate practices in programs for young children.
   NOTE: Due to enrollment constraints, SFL (MFHD) 221 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

   SFL 222 : Practicum in Developmentally Appropriate Practices. (2:0:12)
   OFFERED: F, W, Su

PREREQUISITE: SFL (MFHD) 210, 221; 240 or concurrent enrollment.
DESCRIPTION: Initial practicum with young children to increase understanding of socialization and learning processes, to create meaningful learning opportunities, and to implement developmentally appropriate practices.
NOTE: Due to enrollment constraints, SFL (MFHD) 222 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

4. Complete the following financial literacy course:
SFL 260 : Family Finance. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to time value of money, budgeting, saving, credit, taxes, housing, insurance, and investing emphasizing practical application in the home.

5. Complete the following textiles and apparel courses:
SFL 180 : Clothing the Family. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Comprehensive approach to consumer economics of clothing selection and care for individuals across the family life cycle and across cultures. Adapting clothing to meet diverse individual (physical and psychological) needs in the market-oriented economy.

SFL 185R : Beginning Clothing Construction. (3:3:5)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basics of using a sewing machine for making apparel.
NOTE: Student-supplied materials required.

(or equivalent)
SFL 282 : Textiles. (3:3:2)
OFFERED: F, W
DESCRIPTION: Natural and synthetic textile fibers, yarns, fabric construction, dyes, and finishes. Care and performance of textile fabrics for clothing and household use.

SFL 287 : Intermediate Clothing Construction. (3:3:5)
OFFERED: F, W, Sp
PREREQUISITE: SFL (HFL) 185R or equivalent sewing skills.
DESCRIPTION: Assessing and executing various construction methods, including construction of several full-scale garments.
NOTE: Student-supplied materials required. Fee.

6. Complete the following living environments courses:
SFL 102 : Introduction to Interiors. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Interior design, emphasizing history and development of the American home.

SFL 202 : Design in the Home. (3:3:2)
OFFERED: F, W, Sp
PREREQUISITE: HFL 102.
DESCRIPTION: Intermediate application of elements and principles of design in the home.

7. Complete the following foods and nutrition courses:
NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 250 : Essentials of Food Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.
DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in NDFS 250.
DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

SFL 110 : Food Preparation in the Home. (2:1:2)
OFFERED: F, W, Sp, Su

DESCRIPTION: Principles of cooking and skill development in food preparation techniques. Lab required.
NOTE: Fee.

SFL 340 : Family Meal Management. (3:2:3)
OFFERED: F, W
PREREQUISITE: HFL 110 or instructor's consent.
DESCRIPTION: Organizing and managing time, energy, finance, and nutrition in planning, preparing, and serving family meals; ethnic and cultural diversity in etiquette and meal planning. Lab required.
NOTE: Fee.

8. Complete at least one course from one of the following focus areas (SFL 290 or Stat 221 may be a prerequisite for some):
   a. Clothing:

SFL 380 : History of Apparel. (3:3:0)
OFFERED: W
DESCRIPTION: Costume, clothing, and textiles as mediums for understanding the stages and states of individuals, families, and societies; apparel diversity and cultural identity.

SFL 387 : Advanced Clothing Studies: Patternmaking. (3:3:5)
OFFERED: F, Su
PREREQUISITE: SFL (HFL) 387 or equivalent sewing skills.
DESCRIPTION: Flat pattern design, basic drafting, and basic draping for women's apparel.
NOTE: Student-supplied materials required.

SFL 487 : Advanced Clothing Studies: Construction. (3:3:5)
OFFERED: F, W
PREREQUISITE: SFL (HFL) 287 or equivalent sewing skills.
DESCRIPTION: Three-dimensional fitting of apparel and advanced garment construction.
NOTE: Fee.

   b. Family Dynamics:

SFL 160 : Introduction to Family Processes. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Ways of strengthening family life by understanding such family processes as generations, emotions, communication, and rituals.
NOTE: Honors and Independent Study also.

SFL 223 : Preparation for Marriage. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Factors related to quality relationships, mate selection, and the transition into marriage.

SFL 335 : Family Adaptation and Resiliency. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Understanding family resiliency and building family strengths in normative transitions (birth, death, job) and nonnormative transitions (divorce, disability, remarriage, poverty, violence). Developing familial, social, religious, and instrumental resources to adapt positively to these transitions.

SFL 371 : Work and Relationships in the Home. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: MFHD 160.
DESCRIPTION: Theoretical and practical implications of interplay between household work, family relationships, and human resource development.

SFL 480 : Moral Foundations of Family Life. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: How the moral domain is central to human experience; implications for family life of theories and practices that acknowledge agency and the ethical.

   c. Human Development:

HLTH 436 : Sexuality Education in the Curriculum. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Preparing prospective teachers to teach sexuality education related to health curricula. Maturation, family health issues, parenthood, interpersonal skills, and related pedagogy issues.

SFL 240 : Parenting and Child Guidance. (3:3:0)

OFFERED: F, W
DESCRIPTION: Theories and skills related to quality parent-child relationships.

SFL 334 : Adult Development and Aging in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Adjustments to physical, emotional, social, and economic changes. Needs arising from changes in family relationships, living arrangements, and employment; retirement planning.

d. Financial Literacy:
SFL 360 : Advanced Family Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: HFL 260.
DESCRIPTION: Time value of money principles applied to family finance.

SFL 361 : Money in the Family. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: HFL 260, 360.
DESCRIPTION: Money attitudes and financial behaviors in the family - distinguishing between living high and living well. Mentored learning course.

SFL 472 : Temporal Welfare in Families. (3:3:0)
OFFERED: On demand.
PREREQUISITE: SFL 160 or instructor's consent.
DESCRIPTION: Assumptions, philosophy, and theory accounting for resource allocation, use, and meaning in families.

e. Living Environments:
SFL 230 : Housing the Family. (3:3:0)
OFFERED: F, W
DESCRIPTION: Social-psychological, economic, and political aspects of housing families; making selections that will enhance the quality of housing, increase productivity, and protect the health, safety, and well-being of the family across the life cycle.

SFL 328 : History of Interior Design and Architecture 1. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: History of interior design, architecture, and furnishings from ancient Egypt to beaux arts movement. French, English, and American design.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

f. Foods and Nutrition:
NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 100.
DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

SFL 215 : Advanced Food Preparation. (3:2:3)
OFFERED: On demand.
PREREQUISITE: HFL 110.
DESCRIPTION: Lecture, readings, and intense practicum in food preparation, food preservation and storage, presentation, consumerism, equipment usage, and social/familial aspects of food. Lab required.
NOTE: Fee.

9. Complete the Professional Education Component:
a. Complete the following:
CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp

DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

SC ED 276R : Exploration of Teaching. (3-4:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

: Exploration of Teaching - Theatre and Media Arts.
: Exploration of Teaching: English.
: Exploration of Teaching: Foreign Language.
: Exploration of Teaching: Music.
: Exploration of Teaching: Social Science.
: Exploration of Teaching: Art.
: Exploration of Teaching: Biological Sciences.
: Exploration of Teaching: Dance.
: Exploration of Teaching: Exercise Sciences.
: Exploration of Teaching: Family and Consumer Sciences.
: Exploration of Teaching: Health.
: Exploration of Teaching: Mathematics.
: Exploration of Teaching: Physical Science.
: Exploration of Teaching: Technology Teacher Education.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Sc Ed 377R or comparable major course.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SFL 377 : Teaching Methods and Instruction in Family and Consumer Sciences Education. (3:6:0)
OFFERED: F
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance; concurrent enrollment in Sc Ed 378.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

Note: Fingerprinting and FBI clearance must be completed before registration in SFL 377.

b. Complete 12 hours from the following:
SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.

The Church of Jesus Christ

: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

10. Complete the Praxis II test.

*Hours include courses that may fulfill university core requirements.

BS in Family Life: Home and Family Living Emphasis (47–48 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Home and family living fosters study of the home as a sacred center for everyday family life and as the basis for a vital community. Theory, research, and practice are used to: (1) illuminate the value of everyday home life; (2) foster wellness and provident living in meeting practical human needs such as feeding, housing, clothing, and financing the family; (3) value the potential that practical human needs present for the moral and temporal development of family members; (4) promote religious and community involvement that maintains and strengthens home and family as the fundamental unit of society; and (5) prepare individuals as professional and everyday home and family educators.

Careers

This program prepares students for successful home and family living, but also enables them to develop an area of interest that leads to a home-based business or other professional endeavor.

Contact the advisement center (151 SWKT) or faculty in home and family living for more information.

Program Requirements | View MAP

1. At least 15 hours of major credit must be taken in residency at BYU.
2. Students who do not plan to pursue a graduate program beyond the bachelor's degree should take other courses that will enhance their employment opportunities. Consult a faculty advisor or your academic advisor for suggested minors, majors, and skills. Students are encouraged to take student development courses related to career planning in their junior or senior year.
3. Complete the following family life core courses:

SFL 100 : Strengthening Marriage and Family: Proclamation Principles and Scholarship. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Understanding, applying, and sharing principles of successful marriage and family life from the LDS proclamation on the family, using sacred and scholarly perspectives.

SFL 160 : Introduction to Family Processes. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Ways of strengthening family life by understanding such family processes as generations, emotions, communication, and rituals.
NOTE: Honors and Independent Study also.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

SFL 290 : Critical Inquiry and Research Methods. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, or instructor's consent; Stat 221 or equivalent.
DESCRIPTION: Philosophies of critical inquiry. Principles of designing, conducting, and reporting social science investigations.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su

PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

4. Complete the following home and family living core courses:

SFL 105 : Home and Family Living. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Creating home as a sacred center for individual, marital, and family development; how temporal activities in the home have spiritual importance.

SFL 260 : Family Finance. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to time value of money, budgeting, saving, credit, taxes, housing, insurance, and investing emphasizing practical application in the home.

5. Complete 11-12 hours from the following lower-division electives:

SFL 102 : Introduction to Interiors. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Interior design, emphasizing history and development of the American home.

SFL 110 : Food Preparation in the Home. (2:1:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles of cooking and skill development in food preparation techniques. Lab required.
NOTE: Fee.

SFL 180 : Clothing the Family. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Comprehensive approach to consumer economics of clothing selection and care for individuals across the family life cycle and across cultures. Adapting clothing to meet diverse individual (physical and psychological) needs in the market-oriented economy.

SFL 185R : Beginning Clothing Construction. (3:3:5)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basics of using a sewing machine for making apparel.
NOTE: Student-supplied materials required.

SFL 202 : Design in the Home. (3:3:2)
OFFERED: F, W, Sp
PREREQUISITE: HFL 102.
DESCRIPTION: Intermediate application of elements and principles of design in the home.

SFL 215 : Advanced Food Preparation. (3:2:3)
OFFERED: On demand.
PREREQUISITE: HFL 110.
DESCRIPTION: Lecture, readings, and intense practicum in food preparation, food preservation and storage, presentation, consumerism, equipment usage, and social/familial aspects of food. Lab required.
NOTE: Fee.

SFL 223 : Preparation for Marriage. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Factors related to quality relationships, mate selection, and the transition into marriage.

SFL 224 : Marriage Enhancement. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Designed primarily for those who are married or engaged. Couples are encouraged to enroll together.

SFL 230 : Housing the Family. (3:3:0)
OFFERED: F, W
DESCRIPTION: Social-psychological, economic, and political aspects of housing families; making selections that will enhance the quality of housing, increase productivity, and protect the health, safety, and well-being of the family across the life cycle.

SFL 240 : Parenting and Child Guidance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Theories and skills related to quality parent-child relationships.

SFL 282 : Textiles. (3:3:2)
OFFERED: F, W
DESCRIPTION: Natural and synthetic textile fibers, yarns, fabric construction, dyes, and finishes. Care and performance of textile fabrics for clothing and household use.

SFL 287 : Intermediate Clothing Construction. (3:3:5)
OFFERED: F, W, Sp
PREREQUISITE: SFL (HFL) 185R or equivalent sewing skills.
DESCRIPTION: Assessing and executing various construction methods, including construction of several full-scale garments.
NOTE: Student-supplied materials required. Fee.

6. Complete 6 hours from the following upper-division electives:

SFL 319 : The Family in Fiction. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Concepts, theories, and insights about family life as illustrated in various works of great literature.

SFL 328 : History of Interior Design and Architecture 1. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: History of interior design, architecture, and furnishings from ancient Egypt to beaux arts movement. French, English, and American design.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

SFL 340 : Family Meal Management. (3:2:3)
OFFERED: F, W
PREREQUISITE: HFL 110 or instructor's consent.
DESCRIPTION: Organizing and managing time, energy, finance, and nutrition in planning, preparing, and serving family meals; ethnic and cultural diversity in etiquette and meal planning. Lab required.
NOTE: Fee.

SFL 345 : Religion in the Home. (3:3:0)
OFFERED: F, W
DESCRIPTION: How families of various faiths live their religion in their homes, with emphasis on practical, day-to-day home and family life rather than on abstract theology.

SFL 360 : Advanced Family Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: HFL 260.
DESCRIPTION: Time value of money principles applied to family finance.

SFL 361 : Money in the Family. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: HFL 260, 360.
DESCRIPTION: Money attitudes and financial behaviors in the family - distinguishing between living high and living well. Mentored learning course.

SFL 370 : Families in Communities. (3:3:0)
OFFERED: F
DESCRIPTION: How families successfully interact with their external contexts (school, church, workplace, legal system, health care, media, etc.) in patterns of mutual influence.

SFL 371 : Work and Relationships in the Home. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: MFHD 160.
DESCRIPTION: Theoretical and practical implications of interplay between household work, family relationships, and human resource development.

SFL 380 : History of Apparel. (3:3:0)
OFFERED: W
DESCRIPTION: Costume, clothing, and textiles as mediums for understanding the stages and states of individuals, families, and societies; apparel diversity and cultural identity.

SFL 387 : Advanced Clothing Studies: Patternmaking. (3:3:5)
OFFERED: F, Su

PREREQUISITE: SFL (HFL) 387 or equivalent sewing skills.
DESCRIPTION: Flat pattern design, basic drafting, and basic draping for women's apparel.
NOTE: Student-supplied materials required.

SFL 395R : Special Topics in Family Life. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Specific topics in home and family living, human development, marriage and family studies, or marriage and family therapy.

SFL 461 : The Family and the Law. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: SFL 160.
DESCRIPTION: Legal environment of the family system, with emphasis on husband-wife and parent-child relationships, rights, and responsibilities.

SFL 472 : Temporal Welfare in Families. (3:3:0)
OFFERED: On demand.
PREREQUISITE: SFL 160 or instructor's consent.
DESCRIPTION: Assumptions, philosophy, and theory accounting for resource allocation, use, and meaning in families.

SFL 487 : Advanced Clothing Studies: Construction. (3:3:5)
OFFERED: F, W
PREREQUISITE: SFL (HFL) 287 or equivalent sewing skills.
DESCRIPTION: Three-dimensional fitting of apparel and advanced garment construction.
NOTE: Fee.

SFL 488R : Women's Home-Based Entrepreneurs. (1:1:0)
OFFERED: F, W
DESCRIPTION: Exploration of home-based businesses through interaction with practicing professionals.

SFL 489 : The Family and Public Policy. (3:3:0)
OFFERED: F
DESCRIPTION: Investigation of public policy processes related to legislation and laws affecting home economics/home and family life. Funding and grantsmanship.

SFL 492R : Supervised Instructional Experience. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Course-related instructional experiences under supervision of faculty member.

7. Complete 6 hours from the following additional electives:
Any SFL courses not used above.

BUS M 200 : Personal Finance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Practical course in money management and utilizing savings.

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

HLTH 436 : Sexuality Education in the Curriculum. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Preparing prospective teachers to teach sexuality education related to health curricula. Maturation, family health issues, parenthood, interpersonal skills, and related pedagogy issues.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 200 : Nutrient Metabolism. (3:3:0)
OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.

DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 100.
DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

NDFS 250 : Essentials of Food Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.
DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in NDFS 250.
DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

PWS 103 : Residential Landscape Design. (3:3:0)
OFFERED: F, W
DESCRIPTION: Design and composition as applied to development of residential grounds.

PWS 112 : Floral Design. (3:2:2)
OFFERED: F, W, Sp
DESCRIPTION: History and principles of floral design; identification, care, and handling of cut flowers; techniques of arranging flowers and other plant materials for home and professional use.
NOTE: Fee.

RMYL 301 : Family Recreation. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Exploring the role of family recreation in building successful families.

8. Complete three hours of capstone experience from the following:

SFL 399R : Academic Internship. (1-9:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Internship program coordinator's consent.
DESCRIPTION: Supervised professional experiences linking academic learning with experience in the field.
NOTE: Forty-five hands-on hours required per credit hour.

SFL 403R : Research/Creative Works Practicum. (.5-3:Arr.:Arr.)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Research/Creative works experience in a project directed by a faculty member.

SFL 472 : Temporal Welfare in Families. (3:3:0)
OFFERED: On demand.
PREREQUISITE: SFL 160 or instructor's consent.
DESCRIPTION: Assumptions, philosophy, and theory accounting for resource allocation, use, and meaning in families.

Possible Specializations

Though some students may desire a generalist approach, others may want to consider a specialization to further personal development or be positioned in a home industry or other professional endeavor. Some possibilities (using courses listed above) include:

Foods

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 200 : Nutrient Metabolism. (3:3:0)

OFFERED: F, Sp
PREREQUISITE: NDFS 100 and organic chemistry, or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

NDFS 250 : Essentials of Food Science. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Organic chemistry or concurrent enrollment; and concurrent enrollment in NDFS 251.
DESCRIPTION: Overview of food science, including chemical, physical and microbiological principles related to food processing, storage, and utilization. Current issues in food science.

NDFS 251 : Essentials of Food Science Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Concurrent enrollment in NDFS 250.
DESCRIPTION: Laboratory experience in the chemistry of changes occurring during food processing, storage, and utilization.

SFL 110 : Food Preparation in the Home. (2:1:2)
OFFERED: F, W, Sp, Su
DESCRIPTION: Principles of cooking and skill development in food preparation techniques. Lab required.
NOTE: Fee.

SFL 215 : Advanced Food Preparation. (3:2:3)
OFFERED: On demand.
PREREQUISITE: HFL 110.
DESCRIPTION: Lecture, readings, and intense practicum in food preparation, food preservation and storage, presentation, consumerism, equipment usage, and social/familial aspects of food. Lab required.
NOTE: Fee.

SFL 340 : Family Meal Management. (3:2:3)
OFFERED: F, W
PREREQUISITE: HFL 110 or instructor's consent.
DESCRIPTION: Organizing and managing time, energy, finance, and nutrition in planning, preparing, and serving family meals; ethnic and cultural diversity in etiquette and meal planning. Lab required.
NOTE: Fee.

Clothing Design and Construction

SFL 180 : Clothing the Family. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Comprehensive approach to consumer economics of clothing selection and care for individuals across the family life cycle and across cultures. Adapting clothing to meet diverse individual (physical and psychological) needs in the market-oriented economy.

SFL 185R : Beginning Clothing Construction. (3:3:5)
OFFERED: F, W, Sp, Su
DESCRIPTION: Basics of using a sewing machine for making apparel.
NOTE: Student-supplied materials required.

SFL 282 : Textiles. (3:3:2)
OFFERED: F, W
DESCRIPTION: Natural and synthetic textile fibers, yarns, fabric construction, dyes, and finishes. Care and performance of textile fabrics for clothing and household use.

SFL 287 : Intermediate Clothing Construction. (3:3:5)
OFFERED: F, W, Sp
PREREQUISITE: SFL (HFL) 185R or equivalent sewing skills.
DESCRIPTION: Assessing and executing various construction methods, including construction of several full-scale garments.
NOTE: Student-supplied materials required. Fee.

SFL 380 : History of Apparel. (3:3:0)
OFFERED: W
DESCRIPTION: Costume, clothing, and textiles as mediums for understanding the stages and states of individuals, families, and societies; apparel diversity and cultural identity.

SFL 387 : Advanced Clothing Studies: Patternmaking. (3:3:5)
OFFERED: F, Su
PREREQUISITE: SFL (HFL) 387 or equivalent sewing skills.
DESCRIPTION: Flat pattern design, basic drafting, and basic draping for women's apparel.
NOTE: Student-supplied materials required.

SFL 487 : Advanced Clothing Studies: Construction. (3:3:5)
OFFERED: F, W
PREREQUISITE: SFL (HFL) 287 or equivalent sewing skills.

DESCRIPTION: Three-dimensional fitting of apparel and advanced garment construction.
NOTE: Fee.

Housing/Interiors

SFL 102 : Introduction to Interiors. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Interior design, emphasizing history and development of the American home.

SFL 202 : Design In the Home. (3:3:2)
OFFERED: F, W, Sp
PREREQUISITE: HFL 102.
DESCRIPTION: Intermediate application of elements and principles of design in the home.

SFL 230 : Housing the Family. (3:3:0)
OFFERED: F, W
DESCRIPTION: Social-psychological, economic, and political aspects of housing families; making selections that will enhance the quality of housing, increase productivity, and protect the health, safety, and well-being of the family across the life cycle.

SFL 282 : Textiles. (3:3:2)
OFFERED: F, W
DESCRIPTION: Natural and synthetic textile fibers, yarns, fabric construction, dyes, and finishes. Care and performance of textile fabrics for clothing and household use.

SFL 328 : History of Interior Design and Architecture 1. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: History of interior design, architecture, and furnishings from ancient Egypt to beaux arts movement. French, English, and American design.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

Family Finance

BUS M 200 : Personal Finance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Practical course in money management and utilizing savings.

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.
NOTE: For non-Marriott School of Management students.

SFL 260 : Family Finance. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to time value of money, budgeting, saving, credit, taxes, housing, insurance, and investing emphasizing practical application in the home.

SFL 360 : Advanced Family Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: HFL 260.
DESCRIPTION: Time value of money principles applied to family finance.

SFL 361 : Money in the Family. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: HFL 260, 360.
DESCRIPTION: Money attitudes and financial behaviors in the family - distinguishing between living high and living well. Mentored learning course.

SFL 472 : Temporal Welfare in Families. (3:3:0)
OFFERED: On demand.
PREREQUISITE: SFL 160 or instructor's consent.
DESCRIPTION: Assumptions, philosophy, and theory accounting for resource allocation, use, and meaning in families.

Community Involvement

RMYL 301 : Family Recreation. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Exploring the role of family recreation in building successful families.

SFL 345 : Religion in the Home. (3:3:0)

OFFERED: F, W
DESCRIPTION: How families of various faiths live their religion in their homes, with emphasis on practical, day-to-day home and family life rather than on abstract theology.

SFL 370 : Families in Communities. (3:3:0)
OFFERED: F
DESCRIPTION: How families successfully interact with their external contexts (school, church, workplace, legal system, health care, media, etc.) in patterns of mutual influence.

SFL 461 : The Family and the Law. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: SFL 160.
DESCRIPTION: Legal environment of the family system, with emphasis on husband-wife and parent-child relationships, rights, and responsibilities.

SFL 489 : The Family and Public Policy. (3:3:0)
OFFERED: F
DESCRIPTION: Investigation of public policy processes related to legislation and laws affecting home economics/home and family life. Funding and grantsmanship.

SOC 112 : Current Social Problems. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

*Hours include courses that may fulfill university core requirements.

BS in Family Life: Human Development Emphasis (45 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The human development emphasis centers on theories, research, and practices related to optimal human development within the context of family life. Human development scholarship provides a life-span perspective for understanding human development within the family by helping students learn how children, youth, and adults develop, change, and face challenges throughout the life course (infancy, childhood, adolescence, and adulthood). Our teaching strategy reflects a strong commitment to better critical thinking and problem solving skills as students become involved in mentored learning research, internships, and outreach experiences.

Careers

The program in human development is a broad, liberal arts training designed to assist students as they seek professional activity (as volunteers or for pay) in settings where knowledge of human development and behavior is valued. An emphasis in human development prepares graduates to make significant contributions locally (e.g., one's own family, church, and local community) and professionally (e.g., working in the community services profession, volunteer or paid professionals for worldwide human service-based organizations).

Some graduates with a human development emphasis are employed in community action centers, childcare centers, residential treatment centers, programs for the elderly, juvenile correction programs, and youth programs. Still other students prepare for volunteer-based community intervention (e.g., Habitat for Humanity, Red Cross, and The Muscular Dystrophy Association).

Additionally, a human development emphasis is an excellent undergraduate preparation for those pursuing graduate school in human development research. Others seek professional certification by obtaining advanced degrees in school counseling, special education, clinical gerontology, and clinical psychology.

For students who are interested in teaching opportunities in public schools, a major in early childhood education teacher certification is available through the Teacher Education Department in the McKay School of Education. This certification qualifies individuals to teach kindergarten through third grade in public and private schools. The human development emphasis provides foundation courses for those preparing to enter early childhood education teacher certification programs (see Teacher Education Department for a list of these courses).

In addition, an early childhood focus within the human development emphasis prepares students for vocations that do not require teacher certifications (e.g., Head Start).

Program Requirements | View MAP

1. At least 18 hours of upper-division major course work must be taken in residency at BYU. (This requirement includes taking at least 12 hours minimum of the human development core in residency at BYU.)

2. Students who do not plan to pursue a graduate program beyond the bachelor's degree should take other courses that will enhance their employment opportunities. Consult a faculty advisor or your academic advisor for suggested minors, majors, and skills. Students are encouraged to take student development courses related to career planning in their junior or senior year.

3. Complete the following family life core courses:

   SFL 100 : Strengthening Marriage and Family: Proclamation Principles and Scholarship. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Understanding, applying, and sharing principles of successful marriage and family life from the LDS proclamation on the family, using sacred and scholarly perspectives.

   SFL 160 : Introduction to Family Processes. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Ways of strengthening family life by understanding such family processes as generations, emotions,

communication, and rituals.
NOTE: Honors and Independent Study also.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

SFL 290 : Critical Inquiry and Research Methods. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, or instructor's consent; Stat 221 or equivalent.
DESCRIPTION: Philosophies of critical inquiry. Principles of designing, conducting, and reporting social science investigations.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

4. Complete 18 hours from the following human development core courses:

SFL 240 : Parenting and Child Guidance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Theories and skills related to quality parent-child relationships.

SFL 331 : Infant Development in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Conception, prenatal development, pregnancy. Physical, cognitive, and social development of the first twenty-four months. Implications for guidance and care in the family.

SFL 333 : (SFL-Soc 318) Adolescent Development in the Family and Other Social Contexts. (3:3:0)
OFFERED: F, W
DESCRIPTION: Examining the developmental and social contexts of adolescents with emphasis on the importance of the family. Other contexts include peers, religion, community, schools, and cross-cultural issues.

SFL 334 : Adult Development and Aging in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Adjustments to physical, emotional, social, and economic changes. Needs arising from changes in family relationships, living arrangements, and employment; retirement planning.

SFL 351 : Socialization Across Childhood. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Processes and sequences of social development across childhood.

SFL 352 : Cognitive Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Development of mental abilities; effects of maturation and learning on memory, perception, attention processes, intelligence, social cognition.

SFL 355 : Language Development. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Philosophical, social, intellectual, and emotional contexts of language acquisition and usage.

SFL 449 : Biological Foundations of Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Biological, genetic, and neurological foundations of human development and their interactions with family socialization processes.

SFL 453 : Moral Development. (3:3:0)

OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Theories and applications of moral development, including moral reasoning, moral emotions, contextual factors, and socialization influences that influence moral decisions and moral behavior.

Note: Courses taken beyond the 18 required hours may count toward the following 9 hour upper-division elective requirement.

5. Complete 9 hours of upper-division electives from the following:

SFL 325 : Forming Marital Relationships. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Critical analysis of literature regarding dating, spouse selection, and transition to marriage processes leading to successful marriage. Preparation for research and teaching in the field.

SFL 335 : Family Adaptation and Resiliency. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Understanding family resiliency and building family strengths in normative transitions (birth, death, job) and nonnormative transitions (divorce, disability, remarriage, poverty, violence). Developing familial, social, religious, and instrumental resources to adapt positively to these transitions.

SFL 354 : Cross-Cultural Family and Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Comparative study of familial, social, and other factors in development.

SFL 360 : Advanced Family Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: HFL 260.
DESCRIPTION: Time value of money principles applied to family finance.

SFL 361 : Money in the Family. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: HFL 260, 360.
DESCRIPTION: Money attitudes and financial behaviors in the family - distinguishing between living high and living well. Mentored learning course.

SFL 370 : Families in Communities. (3:3:0)
OFFERED: F
DESCRIPTION: How families successfully interact with their external contexts (school, church, workplace, legal system, health care, media, etc.) in patterns of mutual influence.

SFL 371 : Work and Relationships in the Home. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: MFHD 160.
DESCRIPTION: Theoretical and practical implications of interplay between household work, family relationships, and human resource development.

SFL 395R : Special Topics in Family Life. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Specific topics in home and family living, human development, marriage and family studies, or marriage and family therapy.

SFL 420 : Administering Programs for Young Children. (2:2:0)
OFFERED: On demand.
PREREQUISITE: SFL (MFHD) 221, 222.
DESCRIPTION: Strategies for planning and administering quality programs in settings for young children. Budgeting, staffing, accrediting, selecting equipment, etc.

SFL 451 : Theories in Family Perspective. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Introduction of major theoretical perspectives and of philosophical issues. Readings include representative papers applying theoretical and philosophic tenets.

SFL 461 : The Family and the Law. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: SFL 160.
DESCRIPTION: Legal environment of the family system, with emphasis on husband-wife and parent-child relationships, rights, and responsibilities.

SFL 465 : Survey of Marriage and Family Enrichment/Therapy Approaches. (3:3:0)
OFFERED: F
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Theories and techniques. Professional family enrichment and therapy applied to couples and families.

SFL 472 : Temporal Welfare in Families. (3:3:0)
OFFERED: On demand.
PREREQUISITE: SFL 160 or instructor's consent.
DESCRIPTION: Assumptions, philosophy, and theory accounting for resource allocation, use, and meaning in families.

SFL 480 : Moral Foundations of Family Life. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: How the moral domain is central to human experience; implications for family life of theories and practices that acknowledge agency and the ethical.

SFL 489 : The Family and Public Policy. (3:3:0)
OFFERED: F
DESCRIPTION: Investigation of public policy processes related to legislation and laws affecting home economics/home and family life. Funding and grantsmanship.

SFL 492R : Supervised Instructional Experience. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Course-related instructional experiences under supervision of faculty member.

SFL 498 : Family Life Education. (3:3:0)
OFFERED: F, W
PREREQUISITE: Senior standing; instructor's consent.
DESCRIPTION: Developing competencies in basic principles of family life education: curriculum design, development, implementation, and evaluation.

6. Complete three hours of a capstone experience from the following:

SFL 399R : Academic Internship. (1-9:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Internship program coordinator's consent.
DESCRIPTION: Supervised professional experiences linking academic learning with experience in the field.
NOTE: Forty-five hands-on hours required per credit hour.

SFL 403R : Research/Creative Works Practicum. (.5-3:Arr.:Arr.)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Research/Creative works experience in a project directed by a faculty member.

SFL 490 : Advanced Issues in Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Evaluation of research on physical, mental, emotional, and social development.

*Hours include courses that may fulfill university core requirements.

BS in Family Life: Marriage and Family Studies Emphasis (39 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Marriage and family studies designates a curriculum for those who wish to become skilled in a discipline of inquiry (theory, research, and practice) regarding both the interior quality of life in families and the central place of family in the fabric of communities and cultures. The emphasis requires grounding in the tools of social science (theory, research methods, statistics) and in the commitments, values, and beliefs associated with family interaction across cultures.

In addition to the School of Family Life core which gives a basic foundation in family sciences, the marriage and family studies emphasis requires advanced work in the theories, contexts, and processes used to understand the dynamics of marriage and family interaction.

Our rationale is to produce graduates who are apprentice social scientists and practitioners. Our goals are that they a) understand how to conduct and evaluate research efforts—reported both in journals and in the press, b) use interpretive frameworks to offer coherent renditions of the meaning of human experience, c) be immersed in various contexts of marriage and family interaction to draw meaningful conclusions about where quality relationships come from, and d) know how to apply family science knowledge to real-life issues that emerge in practice. This curriculum offers a foundational breadth and depth to understanding the conduct and value of human social science. It also offers the student a specific focus, an identity and expertise, and freedom to explore, with electives, additional content from the School of Family Life, or from other academic programs across campus.

Careers

Students should consult with the advisement center regarding their professional plans to determine what additional elective hours not required in the emphasis might best serve their needs. The marriage and family studies faculty will offer orientation sessions annually and individual consultation as students demand, to define how students can use their undergraduate experience to realize their goals.

Program Requirements | View MAP

1. At least 18 hours of upper-division major course work must be taken in residency at BYU.
2. Students who do not plan to pursue a graduate program beyond the bachelor's degree should take other courses that will enhance their employment opportunities. Consult a faculty advisor or your academic advisor for suggested minors, majors, and skills. Students are encouraged to take student development courses related to career planning in their junior or senior year.
3. Complete the following family life core courses:

SFL 100 : Strengthening Marriage and Family: Proclamation Principles and Scholarship. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Understanding, applying, and sharing principles of successful marriage and family life from the LDS proclamation on the family, using sacred and scholarly perspectives.

SFL 160 : Introduction to Family Processes. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Ways of strengthening family life by understanding such family processes as generations, emotions, communication, and rituals.
NOTE: Honors and Independent Study also.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

SFL 290 : Critical Inquiry and Research Methods. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, or instructor's consent; Stat 221 or equivalent.
DESCRIPTION: Philosophies of critical inquiry. Principles of designing, conducting, and reporting social science investigations.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

4. Complete the following marriage and family studies core courses:

SFL 325 : Forming Marital Relationships. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Critical analysis of literature regarding dating, spouse selection, and transition to marriage processes leading to successful marriage. Preparation for research and teaching in the field.

SFL 335 : Family Adaptation and Resiliency. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Understanding family resiliency and building family strengths in normative transitions (birth, death, job) and nonnormative transitions (divorce, disability, remarriage, poverty, violence). Developing familial, social, religious, and instrumental resources to adapt positively to these transitions.

SFL 451 : Theories in Family Perspective. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Introduction of major theoretical perspectives and of philosophical issues. Readings include representative papers applying theoretical and philosophic tenets.

SFL 460 : Advanced Family Processes. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: SFL 160 or instructor's consent.
RECOMMENDED: SFL 290, Stat 221.
DESCRIPTION: Integrating theory, research, and application of ideas introduced in SFL 160, focusing on key theoretical points, how research is conducted and applied, communication patterns, ritualization, conflict, distance regulation, crises, stress, and building family strengths.

5. Complete 9 hours of upper-division electives from the following:

SFL 334 : Adult Development and Aging in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Adjustments to physical, emotional, social, and economic changes. Needs arising from changes in family relationships, living arrangements, and employment; retirement planning.

SFL 354 : Cross-Cultural Family and Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Comparative study of familial, social, and other factors in development.

SFL 465 : Survey of Marriage and Family Enrichment/Therapy Approaches. (3:3:0)
OFFERED: F
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Theories and techniques. Professional family enrichment and therapy applied to couples and families.

SFL 480 : Moral Foundations of Family Life. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: How the moral domain is central to human experience; implications for family life of theories and practices that acknowledge agency and the ethical.

SFL 489 : The Family and Public Policy. (3:3:0)
OFFERED: F
DESCRIPTION: Investigation of public policy processes related to legislation and laws affecting home economics/home and family life. Funding and grantsmanship.

SFL 498 : Family Life Education. (3:3:0)
OFFERED: F, W
PREREQUISITE: Senior standing; instructor's consent.
DESCRIPTION: Developing competencies in basic principles of family life education: curriculum design, development, implementation, and evaluation.

6. Complete three hours of a capstone experience from the following:
SFL 399R : Academic Internship. (1-9:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Internship program coordinator's consent.
DESCRIPTION: Supervised professional experiences linking academic learning with experience in the field.
NOTE: Forty-five hands-on hours required per credit hour.

Note: Students who take a full-time semester internship may earn up to 6 additional credit hours for SFL 399R. These hours will count toward graduation, but not in the emphasis.

*Hours include courses that may fulfill university core requirements.

DESCRIPTION: Intermediate application of elements and principles of design in the home.

SFL 210 : Human Development. (3:3:0)
OFFERED: F, W, Sp or Su
DESCRIPTION: Growth and development of the child from conception through adolescence; influences of family, peers, and schools.
NOTE: Independent Study also.

SFL 215 : Advanced Food Preparation. (3:2:3)
OFFERED: On demand.
PREREQUISITE: HFL 110.
DESCRIPTION: Lecture, readings, and intense practicum in food preparation, food preservation and storage, presentation, consumerism, equipment usage, and social/familial aspects of food. Lab required.
NOTE: Fee.

SFL 221 : Foundations of Developmentally Appropriate Practices in Programs for Young Children. (2:2:0)
OFFERED: F, W, Su
PREREQUISITE: SFL 210.
DESCRIPTION: Historical, philosophical, organizational, and curricular issues related to developmentally appropriate practices in programs for young children.
NOTE: Due to enrollment constraints, SFL (MFHD) 221 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

SFL 222 : Practicum in Developmentally Appropriate Practices. (2:0:12)
OFFERED: F, W, Su
PREREQUISITE: SFL (MFHD) 210, 221; 240 or concurrent enrollment.
DESCRIPTION: Initial practicum with young children to increase understanding of socialization and learning processes, to create meaningful learning opportunities, and to implement developmentally appropriate practices.
NOTE: Due to enrollment constraints, SFL (MFHD) 222 may not be retaken to improve a grade unless approved by the Child and Family Studies Laboratory Steering Committee.

SFL 223 : Preparation for Marriage. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Factors related to quality relationships, mate selection, and the transition into marriage.

SFL 224 : Marriage Enhancement. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Designed primarily for those who are married or engaged. Couples are encouraged to enroll together.

SFL 230 : Housing the Family. (3:3:0)
OFFERED: F, W
DESCRIPTION: Social-psychological, economic, and political aspects of housing families; making selections that will enhance the quality of housing, increase productivity, and protect the health, safety, and well-being of the family across the life cycle.

SFL 240 : Parenting and Child Guidance. (3:3:0)
OFFERED: F, W
DESCRIPTION: Theories and skills related to quality parent-child relationships.

SFL 260 : Family Finance. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to time value of money, budgeting, saving, credit, taxes, housing, insurance, and investing emphasizing practical application in the home.

SFL 282 : Textiles. (3:3:2)
OFFERED: F, W
DESCRIPTION: Natural and synthetic textile fibers, yarns, fabric construction, dyes, and finishes. Care and performance of textile fabrics for clothing and household use.

SFL 287 : Intermediate Clothing Construction. (3:3:5)
OFFERED: F, W, Sp
PREREQUISITE: SFL (HFL) 185R or equivalent sewing skills.
DESCRIPTION: Assessing and executing various construction methods, including construction of several full-scale garments.
NOTE: Student-supplied materials required. Fee.

SFL 290 : Critical Inquiry and Research Methods. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, or instructor's consent; Stat 221 or equivalent.
DESCRIPTION: Philosophies of critical inquiry. Principles of designing, conducting, and reporting social science investigations.

300-Level Courses

SFL 319 : The Family in Fiction. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Concepts, theories, and insights about family life as illustrated in various works of great literature.

SFL 324 : Teaching Children a Second Language. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Strategies for teaching children a second language in the home and in the classroom. Practice teaching in lab school.

SFL 325 : Forming Marital Relationships. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Critical analysis of literature regarding dating, spouse selection, and transition to marriage processes leading to successful marriage. Preparation for research and teaching in the field.

SFL 328 : History of Interior Design and Architecture 1. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: History of interior design, architecture, and furnishings from ancient Egypt to beaux arts movement. French, English, and American design.

SFL 329 : History of Interior Design and Architecture 2. (3:3:0)
OFFERED: F
DESCRIPTION: Furniture, interior design, and architecture from Industrial Revolution to present.

SFL 330 : Preprofessional Preparation for Marriage and Family Therapy. (1:1:0)
OFFERED: F, W
DESCRIPTION: Overview of profession, licensing, and application to graduate study.

SFL 331 : Infant Development in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Conception, prenatal development, pregnancy. Physical, cognitive, and social development of the first twenty-four months. Implications for guidance and care in the family.

SFL 333 : (SFL-Soc 318) Adolescent Development in the Family and Other Social Contexts. (3:3:0)

OFFERED: F, W
DESCRIPTION: Examining the developmental and social contexts of adolescents with emphasis on the importance of the family. Other contexts include peers, religion, community, schools, and cross-cultural issues.

SFL 334 : Adult Development and Aging in the Family. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Adjustments to physical, emotional, social, and economic changes. Needs arising from changes in family relationships, living arrangements, and employment; retirement planning.

SFL 335 : Family Adaptation and Resiliency. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Understanding family resiliency and building family strengths in normative transitions (birth, death, job) and nonnormative transitions (divorce, disability, remarriage, poverty, violence). Developing familial, social, religious, and instrumental resources to adapt positively to these transitions.

SFL 340 : Family Meal Management. (3:2:3)
OFFERED: F, W
PREREQUISITE: HFL 110 or instructor's consent.
DESCRIPTION: Organizing and managing time, energy, finance, and nutrition in planning, preparing, and serving family meals; ethnic and cultural diversity in etiquette and meal planning. Lab required.
NOTE: Fee.

SFL 345 : Religion in the Home. (3:3:0)
OFFERED: F, W
DESCRIPTION: How families of various faiths live their religion in their homes, with emphasis on practical, day-to-day home and family life rather than on abstract theology.

SFL 351 : Socialization Across Childhood. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Processes and sequences of social development across childhood.

SFL 352 : Cognitive Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Development of mental abilities; effects of maturation and learning on memory, perception, attention processes, intelligence, social cognition.

SFL 354 : Cross-Cultural Family and Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Comparative study of familial, social, and other factors in development.

SFL 355 : Language Development. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Philosophical, social, intellectual, and emotional contexts of language acquisition and usage.

SFL 356 : Interactional Interviewing Skills in Family Sciences. (3:3:1)
OFFERED: F or W
DESCRIPTION: Interactional counseling techniques, issues, and theories; skill development in dyadic and family interaction observation. Lab required.

SFL 360 : Advanced Family Finance. (3:3:0)
OFFERED: F, W
PREREQUISITE: HFL 260.
DESCRIPTION: Time value of money principles applied to family finance.

SFL 361 : Money in the Family. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: HFL 260, 360.
DESCRIPTION: Money attitudes and financial behaviors in the family - distinguishing between living high and living well. Mentored learning course.

SFL 370 : Families in Communities. (3:3:0)
OFFERED: F
DESCRIPTION: How families successfully interact with their external contexts (school, church, workplace, legal system, health care, media, etc.) in patterns of mutual influence.

SFL 371 : Work and Relationships in the Home. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: MFHD 160.
DESCRIPTION: Theoretical and practical implications of interplay between household work, family relationships, and human resource development.

SFL 377 : Teaching Methods and Instruction in Family and Consumer Sciences Education. (3:6:0)
OFFERED: F
PREREQUISITE: Sc Ed 276R; fingerprinting and FBI clearance; concurrent enrollment in Sc Ed 378.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SFL 380 : History of Apparel. (3:3:0)
OFFERED: W

SFL 387 : Advanced Clothing Studies: Patternmaking. (3:3:5)
OFFERED: F, Su
PREREQUISITE: SFL (HFL) 387 or equivalent sewing skills.
DESCRIPTION: Flat pattern design, basic drafting, and basic draping for women's apparel.
NOTE: Student-supplied materials required.

SFL 395R : Special Topics In Family Life. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Specific topics in home and family living, human development, marriage and family studies, or marriage and family therapy.

SFL 399R : Academic Internshlp. (1-9:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Internship program coordinator's consent.
DESCRIPTION: Supervised professional experiences linking academic learning with experience in the field.
NOTE: Forty-five hands-on hours required per credit hour.

400-Level Courses

SFL 400R : Teaching Practicum. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: Qualified students provide instruction for pre-selected labs in HFL classes.

SFL 403R : Research/Creative Works Practicum. (.5-3:Arr.:Arr.)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Research/Creative works experience in a project directed by a faculty member.

SFL 420 : Administering Programs for Young Children. (2:2:0)
OFFERED: On demand.
PREREQUISITE: SFL (MFHD) 221, 222.
DESCRIPTION: Strategies for planning and administering quality programs in settings for young children. Budgeting, staffing, accrediting, selecting equipment, etc.

SFL 449 : Biological Foundations of Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Biological, genetic, and neurological foundations of human development and their interactions with family socialization processes.

SFL 451 : Theories in Family Perspective. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Introduction of major theoretical perspectives and of philosophical issues. Readings include representative papers applying theoretical and philosophic tenets.

SFL 453 : Moral Development. (3:3:0)
OFFERED: F, W, Sp or Su
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Theories and applications of moral development, including moral reasoning, moral emotions, contextual factors, and socialization influences that influence moral decisions and moral behavior.

SFL 460 : Advanced Family Processes. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: SFL 160 or instructor's consent.
RECOMMENDED: SFL 290, Stat 221.
DESCRIPTION: Integrating theory, research, and application of ideas introduced in SFL 160, focusing on key theoretical points, how research is conducted and applied, communication patterns, ritualization, conflict, distance regulation, crises, stress, and building family strengths.

SFL 461 : The Family and the Law. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: SFL 160.
DESCRIPTION: Legal environment of the family system, with emphasis on husband-wife and parent-child relationships, rights, and responsibilities.

SFL 465 : Survey of Marriage and Family Enrichment/Therapy Approaches. (3:3:0)
OFFERED: F
PREREQUISITE: SFL (MFHD) 160 or instructor's consent.
DESCRIPTION: Theories and techniques. Professional family enrichment and therapy applied to couples and families.

SFL 472 : Temporal Welfare in Families. (3:3:0)
OFFERED: On demand.
PREREQUISITE: SFL 160 or instructor's consent.
DESCRIPTION: Assumptions, philosophy, and theory accounting for resource allocation, use, and meaning in families.

SFL 480 : Moral Foundations of Family Life. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: How the moral domain is central to human experience; implications for family life of theories and practices that acknowledge agency and the ethical.

SFL 487 : Advanced Clothing Studies: Construction. (3:3:5)
OFFERED: F, W

SFL 488R : Women's Home-Based Entrepreneurs. (1:1:0)
OFFERED: F, W
DESCRIPTION: Exploration of home-based businesses through interaction with practicing professionals.

SFL 489 : The Family and Public Policy. (3:3:0)
OFFERED: F
DESCRIPTION: Investigation of public policy processes related to legislation and laws affecting home economics/home and family life. Funding and grantsmanship.

SFL 490 : Advanced Issues in Human Development. (3:3:0)
OFFERED: F, W
PREREQUISITE: SFL (MFHD) 160, 210, 290, Stat 221; or equivalents.
DESCRIPTION: Evaluation of research on physical, mental, emotional, and social development.

SFL 492R : Supervised Instructional Experience. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's consent.
DESCRIPTION: Course-related instructional experiences under supervision of faculty member.

SFL 498 : Family Life Education. (3:3:0)
OFFERED: F, W
PREREQUISITE: Senior standing; instructor's consent.
DESCRIPTION: Developing competencies in basic principles of family life education: curriculum design, development, implementation, and evaluation.

French and Italian

Yvon Le Bras, Chair
3134 JFSB, (801) 422-2542

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

Admission to Degree Program

All degree programs in the Department of French and Italian are open enrollment.

The Discipline

The study of French or Italian language and literature sharpens analytical and communicative skills. Students develop proficiency in listening, reading, writing, and speaking, and they learn to use literature as a means to discover and broaden their understanding of culturally specific as well as universal issues and values.

Career Opportunities

Italian and French are valuable research and communication tools for students in music, art, history, European studies, international relations, library science, and comparative literature. Many have chosen a major or minor in Italian or French in addition to a second major or minor in an area such as accounting or business management, or as preparation for professional programs in public administration, business administration, organizational behavior, dentistry, law, or medicine.

Many of our students have opted for a career in government service, working with an embassy, the State Department, the CIA, and other government agencies.

Other students have gone into travel and tourism, working with tour agencies, airlines, major hotel chains, or resort communities.

The computer industry also provides employment opportunity for our graduates. Many computer companies have expanded into foreign markets and hire people who can translate computer and software instruction and sales publications in a foreign language.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

- BA in French Studies
- BA in French Teaching
- BA in Italian

Minors

- French
- French Teaching
- Italian

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in French Studies

MA in Language Acquisition (French)

For more information see the BYU 2008–2009 Graduate Catalog.

General Information

The Department of French and Italian strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Internships Abroad. The Department of French and Italian in association with the French Embassy's Cultural Services offers spring/summer internships in France in a variety of positions: businesses, corporations, industry, hospitals, research laboratories, national and local governments, cultural organizations, nonprofit agencies and nongovernmental organizations, hotels and tourism, etc. Job placements are made according to the student's language proficiency, previous work experience, field of study, and personal interest. Students may enroll for Fren 399R, 211R, 311R, or 411R, or other courses such as Fren 490R. The internship proves invaluable in strengthening language skills.

Oral Proficiency Interview. All French-teaching majors and minors and all Italian majors are required to enroll in Fren 491 or Ital 491 and have an oral proficiency interview (OPI). (French majors are encouraged to do so as well.) French teaching majors and minors are required to take the OPI before taking Fren 378. The results of the OPI are recorded on the student's transcript. The minimum rating of *Advanced* is required of all *teaching* majors and minors. Appointments for the interviews are made through the department secretary.

When it is necessary to strengthen oral proficiency, students are encouraged to take conversation courses. They should also take advantage of Foreign Language Housing, Study Abroad programs, summer internships abroad, and support materials in the Humanities Learning Resource Center, such as tapes, videos, and satellite broadcasts.

Instruction. All courses are taught in the target language unless indicated otherwise in this catalog.

UNDERGRADUATE CATALOG 2008 - 2009

French

General Information

Language Credit by Examination. A student enrolled full-time at BYU whose native language is not French may receive credit by special examination for French for which he or she has acquired the equivalent skill or knowledge. However, this is possible only if no university credit has been given through AP, CLEP, or transfer of equivalent credit from another university or other institutions.

The French Language for Credit Examination is administered by the French and Italian Department twice a year: in November during fall semester and in March during winter semester. Based on enrollment, the credit examination may be administered during spring and/or summer terms. Details about this examination will be given by the student's Fren 201, 202, or 321 teacher. Please note that students can test out of classes as follows, depending on a student's status:

Students who start with French 201 can test out of:

Fren 101 and 102 (8 hours).

Returned missionaries from Quebec or Creole-speaking missions, etc., who start with Fren 201 can test out of:

Fren 101, 102, and 211R (10 hours)

For returned missionaries to be eligible to take the exam, they need to be enrolled in Fren 201.

Returned missionaries from France, Belgium, Switzerland, etc., can test out of:

Fren 101, 102, 201, 211R, and 311R (16 hours)

For returned missionaries to be eligible to take the exam, they need to be enrolled in Fren 321.

Note 1: The above five classes are *not* part of a French major or minor. The first French minor class requirement is Fren 321.

Note 2: Fren 340 fulfills the GE Foreign Language option for returned missionaries from France, Belgium, Switzerland and other French-speaking countries. Fren 321 does not.

Accelerated Program. The department offers an accelerated course in beginning French (101 and 102) every fall and winter semester. These courses are offered on the block.

Foreign Language Student Residence. An excellent alternative to or preparation for foreign residency is offered through the Foreign Language Student Residence, where participants speak, eat, and live with a *French only* rule. This program, with numerous cultural opportunities, is available each semester to women and men who have completed at least one year of college French. Residents may also receive 2 hours of conversation credit per semester by enrolling in a specially designated section of 211R or 311R.

Study Abroad Programs. All students of French are encouraged to participate in a Study Abroad program. Study Abroad typically offers during spring and/or summer terms a language and civilization program in Paris, France. It provides an excellent opportunity for developing language proficiency and better understanding of the history and culture of France. Study Abroad also offers a semester-long program in Paris emphasizing general education courses.

Program Requirements | View MAP

1. At least 15 major hours must be completed in residence at BYU.
2. Complete a minor (approximately 16–21 hours) or 15 hours of course work in an area approved by the major advisor. Courses must be approved before the senior year.
3. Complete the following prerequisites (or equivalent):

   FREN 101 : First-Year French, Part 1. (4:5:2)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Development of the four language skills: understanding, speaking, reading, and writing.

   FREN 102 : First-Year French, Part 2. (4:5:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Fren 101 or equivalent.
   DESCRIPTION: Continuation of French 101.

   FREN 201 : Intermediate French, Part 1. (4:5:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Fren 102 or equivalent.
   DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

   FREN 202 : Intermediate French, Part 2. (3:3:1)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: Fren 201 or equivalent.
   DESCRIPTION: Final course for GE Foreign Language requirement (except for returned missionaries); extensive reading in French literature and culture.

4. Complete the following core courses:

   FREN 321 : Advanced Grammar. (3:3:0)
   OFFERED: F, W, Sp, Su
   RECOMMENDED: Fren 202 or equivalent.
   DESCRIPTION: Systematic review of French grammar and syntax.

   FREN 322 : Advanced Composition. (3:3:0)
   OFFERED: F
   PREREQUISITE: Fren 321 or concurrent enrollment.
   DESCRIPTION: Expository writing (narration, description, dialogue, explication de texte, etc.).

   FREN 340 : Introduction to Literary Analysis. (3:3:0)
   RECOMMENDED: Fren 321 or concurrent enrollment.
   DESCRIPTION: How to read French prose, drama, and poetry and apply methods of literary criticism.
   NOTE: Capstone course for GE Foreign Language requirement for returned missionaries.

5. Complete two courses from the following:

   FREN 361 : French Civilization from the Beginning to 1715. (3:3:0)
   OFFERED: F, W, Sp
   PREREQUISITE: Fren 321.
   RECOMMENDED: Fren 322.
   DESCRIPTION: Historical survey of institutions, fine arts, and social conditions to the death of Louis XIV.
   NOTE: Fulfills GE Arts and Letters elective.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts and Letters elective.

FREN 363 : Contemporary French Civilization. (3:3:0)
OFFERED: F
PREREQUISITE: Fren 321.
DESCRIPTION: Current cultural, political, and social trends and issues in France as well as the francophone world.

6. Complete five courses from the following:

FREN 431 : Introduction to French Linguistics. (3:3:0)
OFFERED: F
RECOMMENDED: Fren 322, 340, 361, 362.
DESCRIPTION: Subfields (phonetics, morphology, syntax, lexicology, semantics) and approaches (socio-linguistics, semiology, and pragmatics).

FREN 432 : History of French. (3:3:0)
OFFERED: F
RECOMMENDED: Fren 431 or concurrent enrollment.
DESCRIPTION: Introduction to the diachronic study of French beginning with its roots in Latin.

FREN 433 : Studies in French Linguistics. (3:3:0)
OFFERED: W
RECOMMENDED: Fren 431 or concurrent enrollment.
DESCRIPTION: Advanced study of linguistic features such as phonetics and phonology, semantization, lexical development, morphology, and contrastive syntax.

FREN 445 : Advanced Francophone Culture. (3:3:0)
OFFERED: Sp, Su; Study Abroad only.
PREREQUISITE: Fren 321.
NOTE: Research paper required.

FREN 452R : Studies in Period, Movement, and Theme. (3:3:0)
OFFERED: W
DESCRIPTION: Various periods and movements (e.g., medieval, classicism, romanticism) or themes (e.g., Arthur, Faust). Topics vary.

FREN 453R : Studies in Genre. (3:3:0)
OFFERED: W
DESCRIPTION: In-depth study of various genres (e.g., epic, novel, lyric, film) and problems of genre in French.

FREN 454R : Studies in Author. (3:3:0)
OFFERED: W
DESCRIPTION: In-depth study of major French or Francophone authors (e.g., Rabelais, Moliere, Diderot, Balzac).

FREN 455R : Studies in Literary Theory. (3:3:0)
OFFERED: W
DESCRIPTION: In-depth study of primary texts by contemporary literary theorists (e.g., Barthes, Genette, structuralism, etc.).

FREN 456R : Francophone Studies. (3:3:0)
DESCRIPTION: Readings from major French-speaking writers from countries outside France, such as Canada, Africa, and the Caribbean.

FREN 457R : Studies in French Culture. (3:3:0)
OFFERED: Alternate years.
PREREQUISITE: Fren 361, 362, or 363.
DESCRIPTION: In-depth study of French historical, political, and social issues or artistic trends.

FREN 490R : Individual Study in French. (1-3:ARR:ARR)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
DESCRIPTION: Faculty-supervised instruction/research to fit the individual needs of the advanced student. Terms

must be established by contract and approved by chair.

FREN 495R : Senior Seminar in French. (3:3:0)
OFFERED: F, W
RECOMMENDED: Fren 321, 322, 340, 420, 421; or instructor's consent.
DESCRIPTION: In-depth study of a limited area of literature, language, or criticism; content varies; requires research and writing.

Note: French majors can select Fren 445, 490R, or Bus M 596R as one of the five required 400-level courses to count toward the major.

Recommended

Students who need to strengthen oral skills should enroll in Fren 211R, 311R, and 411R.

*Hours include courses that may fulfill university core requirements.

Italian

General Information

Language Credit by Examination. A student enrolled full-time at BYU whose native language is English may receive credit by special examination for Italian for which he or she has acquired the equivalent skill or knowledge. However, this is possible only if no university credit has been given through AP, CLEP, or transfer of equivalent credit from another university or other institutions.

The Italian Language for Credit Examination is administered by the French and Italian Department twice a year: in November during fall semester and in March during winter semester. Based on enrollment, the credit examination may be administered during spring and/or summer terms. Details about this examination will be given by the student's Ital 321 teacher.

Returned missionaries from Italy can test out of:

Ital 101, 102, 201, 211R, and 311R (16 hours)

For students to be eligible to take the exam, they need to be enrolled in Ital 321.

Note 1: The above five classes are *not* part of the Italian minor. The first class for the Italian minor is Ital 321.

Note 2: Ital 340 fulfills the GE Foreign Language option. Ital 321 does not.

Accelerated Program, Beginning: The department offers an accelerated course in beginning Italian (101 and 102) every fall and winter semester. These courses are offered on the block.

Foreign Language Student Residence. In addition to BYU's spring or summer term in Italy, intensive "live-in" experience is available based on enrollment in the Foreign Language Student Residence. Besides taking regular courses in the department, students participate in lectures, discussions, films, and related extracurricular activities under the supervision of native Italian heac residents. Vital to the success of the program is the 24-hour *Italian only* rule whereby students use Italian language as their only means of communication while they are at home. Participants may receive 2 credit hours per semester by enrolling in Ital 211R, 311R, or 411R.

Study Abroad Program. All students of Italian are encouraged to participate in a Study Abroad or internship program in Italy offered spring or summer term (usually every other year). These programs provide excellent opportunities for developing language proficiency and understanding the rich culture of Italy.

NOTE: Fulfills GE Arts or Letters elective.

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)
OFFERED: W
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.
NOTE: Fulfills GE Arts or Letters elective.

ITAL 441 : Italian Literature of the Late Middle Ages and Renaissance. (3:3:0)
OFFERED: W
PREREQUISITE: Ital 340.

ITAL 442 : Italian Literature of the Baroque and Enlightenment Periods. (3:3:0)
PREREQUISITE: Ital 340.

ITAL 443 : Italian Literature of the Romantic Period. (3:3:0)
OFFERED: F
PREREQUISITE: Ital 340.

ITAL 444 : Italian Literature of the Twentieth Century. (3:3:0)
PREREQUISITE: Ital 340.

ITAL 460 : Dante's *Divine Comedy*. (3:3:0)
OFFERED: F
DESCRIPTION: Intensive examination of Dante's major opus. Lectures in English with bilingual text.
NOTE: Italian majors and minors must read the work in the original for credit.

ITAL 490R : Individual Study in Italian. (.5-3:ARR:ARR)
OFFERED: F, W
PREREQUISITE: instructor's consent.
DESCRIPTION: Assignments to fit individual needs of the advanced student.
NOTE: Not accepted for major or minor.

ITAL 491 : Senior Oral Proficiency Evaluation. (0:0:0)
OFFERED: F, W, Sp, Su
NOTE: Required of all majors during the senior year.

ITAL 495R : Senior Seminar in Italian. (3:3:0)
PREREQUISITE: Ital 340 or instructor's consent.
DESCRIPTION: In-depth study of a limited area of literature, language, or criticism; content varies; requires research and writing.

ITAL 499R : Honors Thesis. (.5-6:0:0)

Undergraduate Courses

100-Level Courses

ROM 101 : First-Year Romanian, Part 1. (4:5:2)
DESCRIPTION: Basic language skills.

ROM 102 : First-Year Romanian, Part 2. (4:5:2)
DESCRIPTION: Basic language skills.

200-Level Courses

ROM 201 : Second-Year Romanian. (4:5:2)
PREREQUISITE: Rom 102 or equivalent experience.
DESCRIPTION: Conversation vocabulary building; reading and writing skills, emphasizing writing.

ROM 211R : Second-Year Romanian Conversation. (2:2:0)
PREREQUISITE: Rom 102 or equivalent experience.
DESCRIPTION: Intermediate listening comprehension and speaking skills.

300-Level Courses

ROM 311R : Third-Year Romanian Conversation. (2:2:0)
PREREQUISITE: Rom 211R or equivalent experience.
DESCRIPTION: Advanced conversational skills.

ROM 340 : Introduction to Romanian Literature and Culture. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Foreign residence experience in Romania.
DESCRIPTION: For returned missionaries or others with extensive Romanian language experience.
NOTE: Required course for obtaining language credit by examination. Culminating course for GE Foreign Language requirement.

French and Italian Faculty

Professors

Decoo, Wilfried

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Professor
DEGREES: BA, St Ignatius University, Belgium, 1967
MA, University of Ghent, Belgium, 1969
PhD, Brigham Young University, 1974
PhD, Belgium Interuniversity Commission (equivalence recognition), 1978

Sowell, Madison U.

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Professor
DEGREES: BA, Brigham Young University, 1975
MA, Harvard University, 1976
PhD, Harvard University, 1979

Associate Professors

Cropper, Corry L

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1993
MA, University of Illinois, Urbana, 1995
PhD, University of Illinois, Urbana, 1998

Hurlbut, Jesse David

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1980
MA, University of California, Santa Barbara, 1982
PhD, Indiana University, 1990

Klein, Ilona

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: Dottore in Lettere, Universita La Sapienza, Rome, Italy, 1981
MA, University of Wisconsin, Madison, 1982
PhD, University of Wisconsin, Madison, 1986

LeBras, Yvon Roger

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, University of Rennes, France, 1970
MA, Brigham Young University, 1972
MA, University of Rennes, France, 1972
PhD, Laval University, Canada, 1992

Lee, Daryl

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1992
MA, Yale University, 1993
MPhil, Yale University, 1995
PhD, Yale University, 1999

Olivier, Marc Louis

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, Brigham Young University, 1991
MA, University of Washington, 1993
PhD, University of Washington, 1999

Sprenger, Scott M

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, University of Washington, 1983
MA, Johns Hopkins University, 1990
PhD, Emory University, 1995

Unlandt, Nicolaas Gerard Wilhelmus

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Associate Professor
DEGREES: BA, University of Amsterdam, Netherlands, 1983
MA, University of Amsterdam, Netherlands, 1985
PhD, University of Amsterdam, Netherlands, 1993

Assistant Professors

Cottle, Michaela Voss

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1977
MA, University of North Carolina, Chapel Hill, 1985
PhD, University of North Carolina, Chapel Hill, 1990

Erickson, Robert Gammell

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1971
MA, Middlebury College, 1975
PhD, Brigham Young University, 2000

Sprenger, Anca Mitroi

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Assistant Professor
DEGREES: BA, University of Bucharest, Romania, 1984
DEA, University of Paris, France, 1991
PhD, University of Southern California, 1997

Teaching Professors

Noble, Cinzia D

COLLEGE: Humanities
DEPARTMENT: French and Italian
RANK: Teaching Professor
DEGREES: BA, Brigham Young University, 1978

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

Admission to Degree Program

All degree programs in the Department of Geography are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Geography offers a variety of programs centered around spatial analysis and tailored, so far as possible, to meet the future needs of individual students. Our modern computer laboratory allows students to gain practical experience with geographical information systems (GIS), remote sensing, cartography, and other programs in planning, urban, travel, and population studies.

Career Opportunities

Graduates are employed in a wide range of both private and governmental positions. Job titles include geographer; teacher of geography; city or regional planner; cartographer; photo interpreter; commodities and industrial location analyst; intelligence, travel industry, or environmental and GIS specialist; and many others.

Skills in spatial analysis make geography a valuable minor or supporting field for many other disciplines.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Geography
Emphases:
Environmental Studies
Geographic Information Systems
Geospatial Intelligence
Global Studies
Tourism Studies
Urban and Environmental Planning

Minors

Geographic Information Systems
Geography
Geography Teaching
Travel and Tourism Studies
Urban, Rural, and Environmental Planning

Students should see their college advisement center for help or information concerning the undergraduate programs.

General Information

1. The Department of Geography offers one major with six emphases. The emphases are designed to enable students to gain an appreciation of our world as well as prepare them for either a career or graduate school. All students are required to take a set of core courses that emphasize basic geographic concepts and ways of knowing that are common to all six emphases. These courses prepare students for specialization in upper-division courses.

   Geography at Brigham Young University focuses on our interdependent world: the spatial relationships between the physical landscape, diverse societies, and current events. The geography major at Brigham Young University nourishes a sense of curiosity

about the world around us, a desire to serve our local and global communities, and the skills necessary to solve significant problems that are inherently spatial.

Hundreds of students major in geography to prepare for a professional career or graduate study, or just because of an interest in exploring and understanding the world around them. We emphasize both technical and critical thinking skills, including geographic information systems (GIS) and remote sensing, statistics, data collection, interpretation, and communication using the written and spoken word and visual data display (maps, charts, and graphs).

2. Prerequisite: all students admitted to one of the geography majors listed above must complete the following courses within one year of declaring a major:
   Geog 100, 101, 110, 120, 130, 211.

3. Exit assessment and exit interview: Students must complete an exit assessment and exit interview during their final semester no later than one month before graduating. Both are offered online. The assessment is meant to evaluate the department's program goals and student learning outcome. The interview is a set of qualitative questions about the student's experience in the department. Although both the interview and assessment are formal requirements, the results are anonymous and will not be part of the student's academic records.

BS in Geography: Environmental Studies Emphasis (52–56 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following core courses:

GEOG 100 : The Geographic Approach. (1:1:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Overview of the discipline of geography and the faculty and geography major at BYU.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 110 : Landscapes of Disaster: An Introduction to Natural Hazards. (3:3:0)
OFFERED: F, W
DESCRIPTION: Exploring natural and social science of disturbances by analyzing causes, consequences, and role of human behavior in causing and mitigating natural disasters.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

GEOG 130 : Introduction to Human Geography. (3:3:0)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 222 : Quantitative Reasoning. (3:3:0)
OFFERED: F, W
RECOMMENDED: Stat 105 or above.
DESCRIPTION: Organizing, acquiring, and using quantitative geographic data and quantitative reasoning within the discipline of geography.

GEOG 322 : Statistics for Geographers. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Geog 222.
DESCRIPTION: Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

2. Complete the following environmental studies core courses:

GEOG 303 : Biogeography. (3:3:0)

OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 304 : Geography of Climates. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements, controls, distribution, and classification of the earth's climates.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

GEOG 313 : Remote Sensing 1. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 211, 212.
DESCRIPTION: Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.

PWS 150 : Environmental Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

3. Complete one course from the following:
GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

4. Complete three elective courses from the following:
BIO 350 : Ecology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Bio 220A,B.
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

BIO 370 : Bioethics. (2:1:3)
OFFERED: F, W
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

BIO 450 : Conservation Biology. (3:3:0)
OFFERED: F
PREREQUISITE: Bio 220A or B, 350.
DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

GEOG 310 : Principles of Land Use Planning. (3:3:0)
OFFERED: F

DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 312 : Cartographic Design. (4:2:4)
OFFERED: F
PREREQUISITE: Geog 211.
DESCRIPTION: Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

GEOG 399R : Academic Internship. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: On-the-job experience.
NOTE: No more than 3 hours total in cooperative education may be counted in major.

GEOG 414 : Applied Urban Environmental Modeling. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 212, 213, 313.
DESCRIPTION: Complexities of urban environment through use of geographic techniques, including remote sensing, GIS, GPS, aerial photo and map interpretation, and fieldwork. Modeling human impact on the physical environment by examining local case studies and completing group projects. Developing and building technical skills as tools in understanding the urban environment.

GEOG 415R : Geographic Field Methods. (1-3:Arr:0)
OFFERED: Sp or Su on demand.
DESCRIPTION: Learning different methods used by geographers in the field through hands-on involvement in real faculty research.

GEOG 423 : Planning for Unique and Sensitive Lands. (2:2:0)
OFFERED: W
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Unique aspects of land affecting land-use planning positively or negatively depending on sensitivity of design. Landscape ecological principles introduced and examined for usefulness in land-use planning.

PWS 225 : Principles of Wildlife and Fisheries Management. (3:3:0)
OFFERED: F
RECOMMENDED: PWS 115.
DESCRIPTION: Basic principles of fish and wildlife management, their habitats, and their human users. Ecological concepts, population dynamics, nutrition, behavior, population assessment, management strategies, habitat sampling and management.

PWS 303 : Soils Conservation and Resources. (3:3:0)
Soils Conservation and Resources.
OFFERED: F
PREREQUISITE: PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent.
RECOMMENDED: Geol 111.
DESCRIPTION: Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

PWS 305 : Soils and Water Quality. (3:3:0)
Soils and Water Quality.
OFFERED: W
PREREQUISITE: PWS 100 or equivalent; PWS 282; Chem 105 (or 101), Math 110 or equivalent.
DESCRIPTION: Principles and practices of safe management of agricultural and urban wastes; amendments and nutrients including remediation methods for conservation of soils and water quality.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

PWS 375 : Environmental Policies and Laws. (2:2:0)
OFFERED: W

PREREQUISITE: PWS 150.
DESCRIPTION: Environmental laws (Clean Water Act, Clean Air Act, etc.) and the regulations (National Environmental Policy Act, Nutrient Management Plan, etc.) established in the USA to improve environmental quality.

PWS 419 : Forest Management and Ecology. (3:2:3)
OFFERED: F even years.
DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

5. Complete exit assessment and exit interview during final semester, no later than one month before graduation.

*Hours include courses that may fulfill university core requirements.

DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 222 : Quantitative Reasoning. (3:3:0)
OFFERED: F, W
RECOMMENDED: Stat 105 or above.
DESCRIPTION: Organizing, acquiring, and using quantitative geographic data and quantitative reasoning within the discipline of geography.

GEOG 322 : Statistics for Geographers. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Geog 222.
DESCRIPTION: Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

2. Complete one physical geography course from the following:

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 304 : Geography of Climates. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements, controls, distribution, and classification of the earth's climates.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

3. Complete one regional course from the following:

GEOG 245 : Geography of Utah. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Exploring geography of Utah. Topics include land forms, climate, agricultural and recreational economics, historical migration, Mormon cultural landscape, ethnic patterns, and rural-urban contrasts.

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 260 : Europe. (3:3:0)
OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 273 : Southeast Asia. (3:3.0:0)
OFFERED: W on demand.
DESCRIPTION: Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

4. Complete one human geography course from the following:

GEOG 306 : Public Land Conservation. (3:3:0)

OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

GEOG 336 : Geography of Urban Environment. (3:3:0)
OFFERED: F
DESCRIPTION: Urban patterns, city structures, and spatial analysis of cities as they affect their residents.

GEOG 341 : Political Geography. (3:3:0)
OFFERED: F, W
DESCRIPTION: Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.

GEOG 346 : Population Geography. (3:3:0)
OFFERED: W
DESCRIPTION: Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

GEOG 347 : Tourism: A Conceptual Framework. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Introduction to tourism as a field of study; four elements of tourism: dynamic, service, functional, and consequential.

5. Complete the following major courses:

GEOG 213 : Earth Observation and Image Interpretation. (3:2:2)
OFFERED: W
DESCRIPTION: Principles of earth observation: primarily air photo/large-scale satellite imagery interpretation, basic field methods, photogrammetry.

GEOG 217 : Programming for Geographers. (4:4:0)
OFFERED: F
PREREQUISITE: CS 142 or equivalent.
DESCRIPTION: Object-oriented analysis of geographic information using Visual Basic.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 312 : Cartographic Design. (4:2:4)
OFFERED: F
PREREQUISITE: Geog 211.
DESCRIPTION: Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

GEOG 313 : Remote Sensing 1. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 211, 212.
DESCRIPTION: Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.

6. Complete one course from the following:

CHUM 220 : Linguistic Computing Programming 1. (3:3:0)
OFFERED: F, W
PREREQUISITE: CHum 200 or C S 100 or equivalent experience.

DESCRIPTION: Computer programming for language applications: data types, character representation, flow of control, file input/output, string manipulation.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

7. Complete two courses from the following:

GEOG 317 : Analytical Cartography. (4:4:0)
OFFERED: W
PREREQUISITE: Geog 217.
DESCRIPTION: Geocoding, spatial data representation, spatial algorithms, and map based transformations.

GEOG 399R : Academic Internship. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: On-the-job experience.
NOTE: No more than 3 hours total in cooperative education may be counted in major.

GEOG 411 : Issues in Computer Cartography. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 312 or equivalent.
DESCRIPTION: Current techniques for compilation, integration, and display of digital map data.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

GEOG 413 : Remote Sensing 2. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 313.
DESCRIPTION: Computer processing of low-altitude and satellite images for geographic analysis of physical and cultural phenomena on earth.

GEOG 414 : Applied Urban Environmental Modeling. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 212, 213, 313.
DESCRIPTION: Complexities of urban environment through use of geographic techniques, including remote sensing, GIS, GPS, aerial photo and map interpretation, and fieldwork. Modeling human impact on the physical environment by examining local case studies and completing group projects. Developing and building technical skills as tools in understanding the urban environment.

GEOG 495R : Mentored Research. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Participating in research integrating material learned in major. Emphasizes individual or collaborative research and creative thinking through active learning and reflective analysis.

GEOG 521R : Geographic Information Practicum. (3:3:0)
OFFERED: F, W, or Sp on demand
PREREQUISITE: GIS major status; Geog 311, 312, 313, 317 (or equivalents); Geog 222 or 223 or equivalent; one 400-level GIS course.
DESCRIPTION: Integration of various geographic technologies to solve a practical problem. Advanced topics in GIS, remote sensing, cartography, and programming as needed.

8. Complete exit assessment and exit interview during final semester, no later than one month before graduation.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. Complete the following core courses:

GEOG 100 : The Geographic Approach. (1:1:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Overview of the discipline of geography and the faculty and geography major at BYU.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 110 : Landscapes of Disaster: An Introduction to Natural Hazards. (3:3:0)
OFFERED: F, W
DESCRIPTION: Exploring natural and social science of disturbances by analyzing causes, consequences, and role of human behavior in causing and mitigating natural disasters.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

GEOG 130 : Introduction to Human Geography. (3:3:0)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 213 : Earth Observation and Image Interpretation. (3:2:2)
OFFERED: W
DESCRIPTION: Principles of earth observation: primarily air photo/large-scale satellite imagery interpretation, basic field methods, photogrammetry.

GEOG 222 : Quantitative Reasoning. (3:3:0)
OFFERED: F, W
RECOMMENDED: Stat 105 or above.
DESCRIPTION: Organizing, acquiring, and using quantitative geographic data and quantitative reasoning within the discipline of geography.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural

mosaic, geopolitics, environment, and resources of the region.

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 313 : Remote Sensing 1. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 211, 212.
DESCRIPTION: Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.

GEOG 322 : Statistics for Geographers. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Geog 222.
DESCRIPTION: Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

GEOG 341 : Political Geography. (3:3:0)
OFFERED: F, W
DESCRIPTION: Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.

2. Complete one course from the following GIS courses:

GEOG 217 : Programming for Geographers. (4:4:0)
OFFERED: F
PREREQUISITE: CS 142 or equivalent.
DESCRIPTION: Object-oriented analysis of geographic information using Visual Basic.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 312 : Cartographic Design. (4:2:4)
OFFERED: F
PREREQUISITE: Geog 211.
DESCRIPTION: Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

GEOG 317 : Analytical Cartography. (4:4:0)
OFFERED: W
PREREQUISITE: Geog 217.
DESCRIPTION: Geocoding, spatial data representation, spatial algorithms, and map based transformations.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

GEOG 413 : Remote Sensing 2. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 313.

DESCRIPTION: Computer processing of low-altitude and satellite images for geographic analysis of physical and cultural phenomena on earth.

3. Complete two regional geography courses from the following:

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 273 : Southeast Asia. (3:3.0:0)
OFFERED: W on demand.
DESCRIPTION: Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

4. Complete two courses from the following electives:

AEROS 410 : National Security Affairs. (3:3:0)
OFFERED: F
PREREQUISITE: Concurrent enrollment in Aeros 400R.
DESCRIPTION: Civilian control of military, civil-military interaction, the forming of defense strategy. Military profession; Russia, Europe, and East Asia regional studies.

AEROS 411 : National Security Affairs. (3:3:0)
OFFERED: W
PREREQUISITE: Concurrent enrollment in Aeros 401R.
DESCRIPTION: Africa, Middle East, and Latin American regional studies; military operation other than war; military justice system; officer professional development.

HIST 240 : Middle East History to 1800. (3:3:0)
OFFERED: F
DESCRIPTION: History of the Middle East from the rise of of Islam until 1800.

HIST 241 : Middle East History from 1800. (3:3:0)
OFFERED: W
DESCRIPTION: History of the Middle East in the modern period form 1800; rise of nation states, relationship with West, role of Islam.

HIST 331 : Twentieth -Century Russia. (3:3:0)
OFFERED: W
DESCRIPTION: The rise and fall of the Soviet Union and recent attempts to refashion the Russian economy and government.

HIST 342 : Twentieth-Century China. (3:3:0)
DESCRIPTION: China's twentieth-century struggles to find a working modernity via revolution: anti-imperial, nationalist, communist, and capitalist.

HIST 346 : Korea. (3:3:0)
OFFERED: W even years.
DESCRIPTION: Political, religious, and cultural development from antiquity to the present.

HIST 348 : Modern South East Asia. (3:3:0)

DESCRIPTION: Complex history of the varied nations of this vast area: religion, colonialism, nationalism, independence.

MESA 201 : Introduction to Middle East Studies. (2:2:0)
OFFERED: F
DESCRIPTION: Introduction to Middle East from historical, art/literary, and various social science perspectives, including introduction to disciplinary methodologies and major issues of interest.

MESA 350 : Islam in Contemporary Society. (3:3:0)
OFFERED: W
DESCRIPTION: Islam in modern society: doctrine, practices, institutions, approaches to the challenges of modern life; the rise of fundamentalism.

PL SC 348 : Korea, Taiwan, and South East Asian Politics. (3:3:0)
DESCRIPTION: Comparative analysis of political developments in key nations of East and Southeast Asia, including regional relationships.

PL SC 350 : Theories of Comparative Politics. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: Pl Sc 150, 200.
DESCRIPTION: Selected issues of comparative politics such as crisis and discontinuity; development; political infrastructure (e.g., political culture and social structure); political institutions.

PL SC 357 : Middle East: Political Systems. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Social, philosophical, and religious impact on Middle East political institutions in an era of modernization and conflict.

PL SC 377 : National Security Affairs. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Foreign policy, defense strategy, and intelligence.

PL SC 378 : International Conflict. (3:3:0)
OFFERED: On demand.
PREREQUISITE: PlSc 150 or 170.
DESCRIPTION: Causes of war; alliances and empires; military innovation; civil-military relations; fungibility of forces; terrorism; security studies methods; use and misuse of history.

PL SC 381 : International Relations of the Middle East. (3:3:0)
DESCRIPTION: Interregional relations and conflicts, political economics, Arab nationalism, processes of political change, alliances, and superpower relations.

PL SC 385 : International Relations of Asia. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Foreign policies and international relations of China, Japan, and Northeast and Southeast Asia; historical and contemporary review and analysis.

PL SC 388 : Chinese Foreign Policy. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Structure and process of foreign policy of the People's Republic of China.

PL SC 452 : Islam and Politics. (3:3:0)
DESCRIPTION: Tensions and accommodations between religion and politics in Muslim nations.

PL SC 458 : Totalitarianism. (3:3:0)
DESCRIPTION: Totalitarian systems of government and philosophy in nineteenth and twentieth centuries.

PL SC 471 : Intelligence and National Security. (3:3:0)
OFFERED: On demand.
PREREQUISITE: PlSc 200.
DESCRIPTION: Relationship between theory and practice of intelligence and national security of states.

PL SC 474 : Arab-Palestinian-Israeli Conflict. (3:3:0)
DESCRIPTION: Emphasizes historical background, current situation, and alternatives leading to conflict resolution.

5. Complete the following:
GEOG 441R : Seminar in Geography and Geospatial Intelligence. (1-3:Arr:0)
OFFERED: F, W

DESCRIPTION: Capstone seminar for students in geospatial intelligence emphasis, emphasizing synthesis of material learned in major and application of knowledge and skills through research project.

6. Complete exit assessment and exit interview during final semester, no later than one month before graduation.

*Hours include courses that may fulfill university core requirements.

1. Complete the following geography core courses:

GEOG 100 : The Geographic Approach. (1:1:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Overview of the discipline of geography and the faculty and geography major at BYU.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 110 : Landscapes of Disaster: An Introduction to Natural Hazards. (3:3:0)
OFFERED: F, W
DESCRIPTION: Exploring natural and social science of disturbances by analyzing causes, consequences, and role of human behavior in causing and mitigating natural disasters.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

GEOG 130 : Introduction to Human Geography. (3:3:0)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 322 : Statistics for Geographers. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Geog 222.
DESCRIPTION: Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

2. Complete three regional courses from the following:

GEOG 245 : Geography of Utah. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Exploring geography of Utah. Topics include land forms, climate, agricultural and recreational economics, historical migration, Mormon cultural landscape, ethnic patterns, and rural-urban contrasts.

GEOG 250 : United States and Canada. (3:3:0)

OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 260 : Europe. (3:3:0)
OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 273 : Southeast Asia. (3:3.0:0)
OFFERED: W on demand.
DESCRIPTION: Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

3. Complete three systematic courses from the following:

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 304 : Geography of Climates. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements, controls, distribution, and classification of the earth's climates.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches,

locational strategies, and changing economic land-use patterns.

GEOG 336 : Geography of Urban Environment. (3:3:0)
OFFERED: F
DESCRIPTION: Urban patterns, city structures, and spatial analysis of cities as they affect their residents.

GEOG 341 : Political Geography. (3:3:0)
OFFERED: F, W
DESCRIPTION: Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.

GEOG 346 : Population Geography. (3:3:0)
OFFERED: W
DESCRIPTION: Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

GEOG 348 : Tourism: Patterns and Analysis. (3:3:0)
OFFERED: W
DESCRIPTION: Patterns in domestic and international tourism; interrelationship between geography and tourism in understanding the patterns and their impact.

GEOG 349 : Global Adventure Travel. (3:3:0)
OFFERED: F
DESCRIPTION: Historical and emerging trends in global adventure travel and tourism. Detailed case studies selected from across world regions.

4. Complete exit assessment and exit interview during final semester, no later than one month before graduation.

*Hours include courses that may fulfill university core requirements.

OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 273 : Southeast Asia. (3:3.0:0)
OFFERED: W on demand.
DESCRIPTION: Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

3. Complete the following major courses:
GEOG 347 : Tourism: A Conceptual Framework. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Introduction to tourism as a field of study; four elements of tourism: dynamic, service, functional, and consequential.

GEOG 348 : Tourism: Patterns and Analysis. (3:3:0)
OFFERED: W
DESCRIPTION: Patterns in domestic and international tourism; interrelationship between geography and tourism in understanding the patterns and their impact.

4. Complete one course from the following:
BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

RMYL 497R : Special Topics and Research. (.5-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: instructor's consent.
DESCRIPTION: Special topics and research in recreation management and youth leadership.

5. Complete three advanced tourism courses from the following:
GEOG 349 : Global Adventure Travel. (3:3:0)
OFFERED: F
DESCRIPTION: Historical and emerging trends in global adventure travel and tourism. Detailed case studies

selected from across world regions.

GEOG 350 : Tourism Planning. (3:3:0)
OFFERED: F
RECOMMENDED: Geog 347.
DESCRIPTION: Applying regional development and planning concepts, principles, and approaches to tourism destinations to enhance sustainable economic, ecological, and social development.

GEOG 353 : Heritage and Cultural Tourism. (3:3:0)
OFFERED: W
RECOMMENDED: Geog 120, 130, 347, 348.
DESCRIPTION: Heritage and culture (places, people, relics, and traditions) as tourism resources examined within the context of supply and demand, conservation, interpretation, management, planning, and politics.

GEOG 399R : Academic Internship. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: On-the-job experience.
NOTE: No more than 3 hours total in cooperative education may be counted in major.

6. Complete exit assessment and exit interview during final semester, no later than one month before graduation.

*Hours include courses that may fulfill university core requirements.

DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 222 : Quantitative Reasoning. (3:3:0)
OFFERED: F, W
RECOMMENDED: Stat 105 or above.
DESCRIPTION: Organizing, acquiring, and using quantitative geographic data and quantitative reasoning within the discipline of geography.

GEOG 322 : Statistics for Geographers. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Geog 222.
DESCRIPTION: Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

2. Complete the following planning core courses:

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 310 : Principles of Land Use Planning. (3:3:0)
OFFERED: F
DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

GEOG 336 : Geography of Urban Environment. (3:3:0)
OFFERED: F
DESCRIPTION: Urban patterns, city structures, and spatial analysis of cities as they affect their residents.

GEOG 346 : Population Geography. (3:3:0)
OFFERED: W
DESCRIPTION: Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

GEOG 410 : Practices of Land Use Planning. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 310.
DESCRIPTION: Applications of methods and techniques commonly used in the land use planning process, emphasizing data collection and analysis, fieldwork, and writing skills.

3. Complete three advanced planning courses from the following:

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

GEOG 414 : Applied Urban Environmental Modeling. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 212, 213, 313.
DESCRIPTION: Complexities of urban environment through use of geographic techniques, including remote sensing, GIS, GPS, aerial photo and map interpretation, and fieldwork. Modeling human impact on the physical environment by examining local case studies and completing group projects. Developing and building technical skills as tools in understanding the urban environment.

GEOG 421R : Comprehensive Planning. (2-3:Arr:0)
OFFERED: F
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Assessing problem and issue identification, goal formulation, data gathering, synthesis and summary, plan concept and format, and public policy adoption while writing a general plan for a rural community in Utah.

GEOG 422 : Principles of Urban Design. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Theories and principles of urban design emphasizing specific design criteria. Planning and design tools used within the U.S. by local government. Basic principles of architecture and landscape architecture. Field trips.

GEOG 423 : Planning for Unique and Sensitive Lands. (2:2:0)
OFFERED: W
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Unique aspects of land affecting land-use planning positively or negatively depending on sensitivity of design. Landscape ecological principles introduced and examined for usefulness in land-use planning.

GEOG 510 : Advanced Urban Dynamics and Planning. (3:3:0)
OFFERED: F on demand.

PREREQUISITE: Geog 310, 410, or equivalent.
DESCRIPTION: Urban geography and land use planning, emphasizing urban morphology, land use patterns, and spatial analysis; critical evaluation of models and theories.

4. Complete two elective courses from the following:

GEOG 213 : Earth Observation and Image Interpretation. (3:2:2)
OFFERED: W
DESCRIPTION: Principles of earth observation: primarily air photo/large-scale satellite imagery interpretation, basic field methods, photogrammetry.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 304 : Geography of Climates. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements, controls, distribution, and classification of the earth's climates.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 312 : Cartographic Design. (4:2:4)
OFFERED: F
PREREQUISITE: Geog 211.
DESCRIPTION: Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

GEOG 313 : Remote Sensing 1. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 211, 212.
DESCRIPTION: Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.

5. Complete one professonal experience course (three hours required) from the following:

GEOG 399R : Academic Internship. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: On-the-job experience.
NOTE: No more than 3 hours total in cooperative education may be counted in major.

GEOG 495R : Mentored Research. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Participating in research integrating material learned in major. Emphasizes individual or collaborative research and creative thinking through active learning and reflective analysis.

6. Complete exit assessment and exit interview during final semester, no later than one month before graduation.

*Hours include courses that may fulfill university core requirements.

Minor in Geographic Information Systems (20-23 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 312 : Cartographic Design. (4:2:4)
OFFERED: F
PREREQUISITE: Geog 211.
DESCRIPTION: Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

2. Complete three courses from the following:

GEOG 213 : Earth Observation and Image Interpretation. (3:2:2)
OFFERED: W
DESCRIPTION: Principles of earth observation: primarily air photo/large-scale satellite imagery interpretation, basic field methods, photogrammetry.

GEOG 217 : Programming for Geographers. (4:4:0)
OFFERED: F
PREREQUISITE: CS 142 or equivalent.
DESCRIPTION: Object-oriented analysis of geographic information using Visual Basic.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

GEOG 313 : Remote Sensing 1. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 211, 212.
DESCRIPTION: Introduction to airborne and spaceborne sensors, including characteristics and image acquisition. Emphasizes land cover mapping applications appropriate for environment monitoring.

GEOG 411 : Issues in Computer Cartography. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 312 or equivalent.
DESCRIPTION: Current techniques for compilation, integration, and display of digital map data.

GEOG 413 : Remote Sensing 2. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 313.
DESCRIPTION: Computer processing of low-altitude and satellite images for geographic analysis of physical and cultural phenomena on earth.

Program Requirements

1. Complete the following:

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

GEOG 130 : Introduction to Human Geography. (3:3:0)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

2. Complete 3 hours of electives. Electives cannot include Geog 222, 399R, 493R, or any Geog 500 or above courses.

Minor in Travel and Tourism Studies (19 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

GEOG 347 : Tourism: A Conceptual Framework. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Introduction to tourism as a field of study; four elements of tourism: dynamic, service, functional, and consequential.

GEOG 348 : Tourism: Patterns and Analysis. (3:3:0)
OFFERED: W
DESCRIPTION: Patterns in domestic and international tourism; interrelationship between geography and tourism in understanding the patterns and their impact.

2. Complete two courses from the following:

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

GEOG 130 : Introduction to Human Geography. (3:3:0)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

HIST 369 : Travel and Tourism in America. (3:3:0)
OFFERED: F even years.
DESCRIPTION: The history of travel and tourism in America to the present. Themes include changing technology, consumerism, nationalism, and social identities in contructing the tourist experience.

RMYL 304 : Leisure in Contemporary Society. (3:3:0)
OFFERED: F, W; Sp and/or Su
DESCRIPTION: Problems and opportunities resulting from the leisure era.

RMYL 371 : Facilitating Meetings and Conferences. (3:3:1)
OFFERED: F, W
DESCRIPTION: Identifying roles of process facilitators as they plan and conduct meetings, activities, and conferences.

3. Complete one regional course from the following:

GEOG 245 : Geography of Utah. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Exploring geography of Utah. Topics include land forms, climate, agricultural and recreational economics, historical migration, Mormon cultural landscape, ethnic patterns, and rural-urban contrasts.

GEOG 250 : United States and Canada. (3:3:0)

OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 260 : Europe. (3:3:0)
OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

Minor in Urban, Rural, and Environmental Planning (19 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following core courses:
   GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
   OFFERED: F, W; Sp on demand.
   DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

   GEOG 310 : Principles of Land Use Planning. (3:3:0)
   OFFERED: F
   DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

   GEOG 410 : Practices of Land Use Planning. (3:3:0)
   OFFERED: W
   PREREQUISITE: Geog 310.
   DESCRIPTION: Applications of methods and techniques commonly used in the land use planning process, emphasizing data collection and analysis, fieldwork, and writing skills.

2. Complete two of the following systematic courses:
   GEOG 306 : Public Land Conservation. (3:3:0)
   OFFERED: F
   PREREQUISITE: Geog 101 or instructor's consent.
   DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

   GEOG 307 : Landscape Ecology. (3:3:0)
   OFFERED: W
   PREREQUISITE: Geog 101 or instructor's consent.
   DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

   GEOG 336 : Geography of Urban Environment. (3:3:0)
   OFFERED: F
   DESCRIPTION: Urban patterns, city structures, and spatial analysis of cities as they affect their residents.

   GEOG 346 : Population Geography. (3:3:0)
   OFFERED: W
   DESCRIPTION: Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

3. Complete two of the following applied planning courses:
   GEOG 421R : Comprehensive Planning. (2-3:Arr:0)
   OFFERED: F
   PREREQUISITE: Geog 310, 410.
   DESCRIPTION: Assessing problem and issue identification, goal formulation, data gathering, synthesis and summary, plan concept and format, and public policy adoption while writing a general plan for a rural community in Utah.

   GEOG 422 : Principles of Urban Design. (2:2:0)
   OFFERED: F

PREREQUISITE: Geog 310, 410.
DESCRIPTION: Theories and principles of urban design emphasizing specific design criteria. Planning and design tools used within the U.S. by local government. Basic principles of architecture and landscape architecture. Field trips.

GEOG 423 : Planning for Unique and Sensitive Lands. (2:2:0)
OFFERED: W
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Unique aspects of land affecting land-use planning positively or negatively depending on sensitivity of design. Landscape ecological principles introduced and examined for usefulness in land-use planning.

Undergraduate Courses

100-Level Courses

GEOG 100 : The Geographic Approach. (1:1:0)
OFFERED: F, W
PREREQUISITE: Major status.
DESCRIPTION: Overview of the discipline of geography and the faculty and geography major at BYU.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 110 : Landscapes of Disaster: An Introduction to Natural Hazards. (3:3:0)
OFFERED: F, W
DESCRIPTION: Exploring natural and social science of disturbances by analyzing causes, consequences, and role of human behavior in causing and mitigating natural disasters.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

: Honors Geography and World Affairs.

GEOG 130 : Introduction to Human Geography. (3:3:0)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Culture distributions and their relationship to existing geographic phenomena.

200-Level Courses

GEOG 211 : Map Use and Interpretation. (3:2:2)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 213 : Earth Observation and Image Interpretation. (3:2:2)
OFFERED: W
DESCRIPTION: Principles of earth observation: primarily air photo/large-scale satellite imagery interpretation, basic field methods, photogrammetry.

GEOG 217 : Programming for Geographers. (4:4:0)
OFFERED: F
PREREQUISITE: CS 142 or equivalent.
DESCRIPTION: Object-oriented analysis of geographic information using Visual Basic.

GEOG 219 : Global Positioning Systems and Geodesy. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 211 or instructor's consent.
DESCRIPTION: Earth coordinate systems, map projections, and global positioning system methods.

GEOG 222 : Quantitative Reasoning. (3:3:0)
OFFERED: F, W
RECOMMENDED: Stat 105 or above.
DESCRIPTION: Organizing, acquiring, and using quantitative geographic data and quantitative reasoning within the discipline of geography.

GEOG 245 : Geography of Utah. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Exploring geography of Utah. Topics include land forms, climate, agricultural and recreational economics, historical migration, Mormon cultural landscape, ethnic patterns, and rural-urban contrasts.

GEOG 250 : United States and Canada. (3:3:0)
OFFERED: W
DESCRIPTION: Analysis of the natural environment, historical development, cultural patterns, economic systems, and political structures of geographic regions.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 260 : Europe. (3:3:0)
OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms, physiography, climatic characteristics, and natural resources).

GEOG 273 : Southeast Asia. (3:3.0:0)
OFFERED: W on demand.
DESCRIPTION: Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

300-Level Courses

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

GEOG 304 : Geography of Climates. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements, controls, distribution, and classification of the earth's climates.

GEOG 305 : Geography of Landforms. (3:3:0)
OFFERED: F (as needed).
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Elements of landforms: distributions and cultural significance.

GEOG 306 : Public Land Conservation. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

GEOG 307 : Landscape Ecology. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

GEOG 310 : Principles of Land Use Planning. (3:3:0)
OFFERED: F
DESCRIPTION: Land use concepts, practical and theoretical problems, activities, and techniques.

GEOG 311 : Geographic Data Management. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 212 or equivalent.
DESCRIPTION: Nature of geographic information and its practical management in GIS; design of GIS databases, data collection from primary and secondary sources, manipulating data in preparation for analysis, and data exploration.

GEOG 312 : Cartographic Design. (4:2:4)
OFFERED: F
PREREQUISITE: Geog 211.
DESCRIPTION: Graphic perception, layout, typography, color, statistical methods, and symbolization of thematic maps through computer-aided techniques.

GEOG 313 : Remote Sensing 1. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 211, 212.

GEOG 317 : Analytical Cartography. (4:4:0)
OFFERED: W
PREREQUISITE: Geog 217.
DESCRIPTION: Geocoding, spatial data representation, spatial algorithms, and map based transformations.

GEOG 322 : Statistics for Geographers. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Geog 222.
DESCRIPTION: Methodology of spatial analysis. Theory and techniques in geographic data description and population inference.

GEOG 331 : Economic Geography. (3:3:0)
OFFERED: F, Alt. term
DESCRIPTION: Introduction to economic processes and spatial patterns, emphasizing theoretical approaches, locational strategies, and changing economic land-use patterns.

GEOG 336 : Geography of Urban Environment. (3:3:0)
OFFERED: F
DESCRIPTION: Urban patterns, city structures, and spatial analysis of cities as they affect their residents.

GEOG 341 : Political Geography. (3:3:0)
OFFERED: F, W
DESCRIPTION: Spatial analysis of global politics; focus on geopolitics, territory and conflict, nationalism, and the politics of resources.

GEOG 346 : Population Geography. (3:3:0)
OFFERED: W
DESCRIPTION: Spatial perspective on wide field of population studies, focusing on distribution, development, structure, and movement of populations, emphasizing basic demographic measures.

GEOG 347 : Tourism: A Conceptual Framework. (3:3:0)
OFFERED: F, Sp
DESCRIPTION: Introduction to tourism as a field of study; four elements of tourism: dynamic, service, functional, and consequential.

GEOG 348 : Tourism: Patterns and Analysis. (3:3:0)
OFFERED: W
DESCRIPTION: Patterns in domestic and international tourism; interrelationship between geography and tourism in understanding the patterns and their impact.

GEOG 349 : Global Adventure Travel. (3:3:0)
OFFERED: F
DESCRIPTION: Historical and emerging trends in global adventure travel and tourism. Detailed case studies selected from across world regions.

GEOG 350 : Tourism Planning. (3:3:0)
OFFERED: F
RECOMMENDED: Geog 347.
DESCRIPTION: Applying regional development and planning concepts, principles, and approaches to tourism destinations to enhance sustainable economic, ecological, and social development.

GEOG 353 : Heritage and Cultural Tourism. (3:3:0)
OFFERED: W
RECOMMENDED: Geog 120, 130, 347, 348.
DESCRIPTION: Heritage and culture (places, people, relics, and traditions) as tourism resources examined within the context of supply and demand, conservation, interpretation, management, planning, and politics.

GEOG 399R : Academic Internship. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su
DESCRIPTION: On-the-job experience.
NOTE: No more than 3 hours total in cooperative education may be counted in major.

400-Level Courses

GEOG 410 : Practices of Land Use Planning. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 310.
DESCRIPTION: Applications of methods and techniques commonly used in the land use planning process, emphasizing data collection and analysis, fieldwork, and writing skills.

GEOG 411 : Issues in Computer Cartography. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 312 or equivalent.
DESCRIPTION: Current techniques for compilation, integration, and display of digital map data.

GEOG 412 : Problem Solving with Geographic Information Systems. (3:3:1)
OFFERED: F on demand.
PREREQUISITE: Geog 311 or instructor's consent.
DESCRIPTION: Solving practical geographic problems and performing scientific research using raster and vector analysis tools in GIS.

GEOG 413 : Remote Sensing 2. (3:3:0)
OFFERED: W
PREREQUISITE: Geog 313.
DESCRIPTION: Computer processing of low-altitude and satellite images for geographic analysis of physical and cultural phenomena on earth.

GEOG 414 : Applied Urban Environmental Modeling. (3:3:0)
OFFERED: W on demand.
PREREQUISITE: Geog 212, 213, 313.
DESCRIPTION: Complexities of urban environment through use of geographic techniques, including remote sensing, GIS, GPS, aerial photo and map interpretation, and fieldwork. Modeling human impact on the physical environment by examining local case studies and completing group projects. Developing and building technical skills as tools in understanding the urban environment.

GEOG 415R : Geographic Field Methods. (1-3:Arr:0)
OFFERED: Sp or Su on demand.
DESCRIPTION: Learning different methods used by geographers in the field through hands-on involvement in real faculty research.

GEOG 421R : Comprehensive Planning. (2-3:Arr:0)
OFFERED: F
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Assessing problem and issue identification, goal formulation, data gathering, synthesis and summary, plan concept and format, and public policy adoption while writing a general plan for a rural community in Utah.

GEOG 422 : Principles of Urban Design. (2:2:0)
OFFERED: F
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Theories and principles of urban design emphasizing specific design criteria. Planning and design tools used within the U.S. by local government. Basic principles of architecture and landscape architecture. Field trips.

GEOG 423 : Planning for Unique and Sensitive Lands. (2:2:0)
OFFERED: W
PREREQUISITE: Geog 310, 410.
DESCRIPTION: Unique aspects of land affecting land-use planning positively or negatively depending on sensitivity of design. Landscape ecological principles introduced and examined for usefulness in land-use planning.

GEOG 441R : Seminar in Geography and Geospatial Intelligence. (1-3:Arr:0)
OFFERED: F, W
DESCRIPTION: Capstone seminar for students in geospatial intelligence emphasis, emphasizing synthesis of material learned in major and application of knowledge and skills through research project.

GEOG 493R : Special Problems. (.5-3:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Geography major or departmental approval.

GEOG 495R : Mentored Research. (1-3:Arr.:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Participating in research integrating material learned in major. Emphasizes individual or collaborative research and creative thinking through active learning and reflective analysis.

500-Level Graduate Courses (available to advanced undergraduates)

GEOG 501R : Seminar in Geography. (.5-3:ARR:0)
DESCRIPTION: Detailed investigation of selected systematic and regional geographic topics.

GEOG 503 : Geographic Information Systems. (4:3:1)
OFFERED: F, W; Sp on demand.
PREREQUISITE: Graduate standing
DESCRIPTION: Using geographic information for solving advanced spatial problems. Introduction to using and producing maps and computer-based geographic information systems (GIS) as geographic tools. Hands-on research applications in the students' disciplines.
NOTE: For nonmajors who have not taken Geog 211 or 212 or equivalent.

GEOG 510 : Advanced Urban Dynamics and Planning. (3:3:0)
OFFERED: F on demand.
PREREQUISITE: Geog 310, 410, or equivalent.
DESCRIPTION: Urban geography and land use planning, emphasizing urban morphology, land use patterns, and spatial analysis; critical evaluation of models and theories.

GEOG 521R : Geographic Information Practicum. (3:3:0)
OFFERED: F, W, or Sp on demand
PREREQUISITE: GIS major status; Geog 311, 312, 313, 317 (or equivalents); Geog 222 or 223 or equivalent; one 400-level GIS course.
DESCRIPTION: Integration of various geographic technologies to solve a practical problem. Advanced topics in GIS, remote sensing, cartography, and programming as needed.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Geography Faculty

Professors

Jackson, Richard H

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Professor
DEGREES: BS, Brigham Young University, 1965
MS, Brigham Young University, 1966
PhD, Clark University, 1970

Shumway, J. Matthew

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Professor
DEGREES: BA, Brigham Young University, 1984
MS, Brigham Young University, 1987
PhD, Indiana University, 1991

Timothy, Dallen J.

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Professor
DEGREES: BS, Brigham Young University, 1991
MA, University of Western Ontario, Canada, 1993
PhD, University of Waterloo, Canada, 1996

Associate Professors

Davis, James A

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1978
MA, California State University, Fullerton, 1987
PhD, Arizona State University, 1993

Emmett, Chad F

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Associate Professor
DEGREES: BA, Utah State University, 1979
MA, Brigham Young University, 1983
PhD, University of Chicago, 1991

Hardin, Perry J.

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1982
MA, Brigham Young University, 1984
PhD, University of Utah, 1989

Jensen, Ryan R

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Associate Professor
DEGREES: AS, Ricks College (now BYU-Idaho), 1992
BS, Brigham Young University, 1996
MS, Brigham Young University, 1997
PhD, University of Florida, 2000

Otterstrom, Samuel M

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Associate Professor
DEGREES: BS, Brigham Young University, 1990
MS, Brigham Young University, 1994
PhD, Louisiana State University A&M, 1997

Assistant Professors

Bekker, Matthew F

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1994
MS, Pennsylvania State University, 1996
PhD, University of Iowa, 2002

Durrant, Jeffrey Olani

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1995
MS, Brigham Young University, 1996
PhD, University of Hawaii, Manoa, 2001

Jackson, Mark Wadley

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Assistant Professor
DEGREES: BA, Brigham Young University, 1996
MS, Brigham Young University, 1997
PhD, University of South Carolina, Columbia

Plewe, Brandon

COLLEGE: Family, Home, and Social Sciences
DEPARTMENT: Geography
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1992
MA, State University of New York, Buffalo, 1995
PhD, State University of New York, Buffalo, 1997

Geological Sciences

Scott M. Ritter, Chair
S-389 ESC, (801) 422-3918

College of Physical and Mathematical Sciences Advisement Center
N-179 ESC, (801) 422-6270
1112 TMCB, (801) 422-4214

Admission to Degree Program

All degree programs in the Department of Geological Sciences are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Geological sciences consist of a number of disciplines aimed at understanding the Earth's origin and development and the natural processes that have operated upon it and within it from the time of formation of the solar system. With the development of remote sensing technology and the exploration of the solar system by spacecraft, geological sciences have become increasingly important for understanding not only the Earth but the Moon, other planets and their moons, and small bodies that orbit the Sun.

Understanding the dynamic processes of Earth and other planets is relevant to many societal needs, such as assessment and forecasting of natural hazards, environmental change, and discovery of energy and mineral resources. Some of the diverse disciplines that can be studied in this department include general geology, plate tectonics, volcanology, geochemistry, geophysics, paleontology, environmental geology, petroleum geology, hydrogeology, paleoclimatology, and planetary geology.

Career Opportunities

Graduates have the opportunity to work both outdoors and in the laboratory, pursuing careers in energy, mineral, and water resources or in environmental evaluation with industry, government, or consulting firms. The substantial preparation in basic sciences and mathematics also leads to a broad spectrum of teaching opportunities. Some scholarship money is available for those who pursue a geological sciences degree as a prelaw track. The most marketable terminal degree in geological sciences is the MS. Starting salaries for this degree are often very competitive with those of other disciplines.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Earth and Space Science Education
BS in Geology
Emphasis (optional):
Environmental Geology

Minors

Geology
Geology Teaching

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MS Geology

For more information see the BYU 2008-2009 Graduate Catalog.

The

Global Geology Program

Each year the department provides opportunities for advanced undergraduates and graduate students to examine rocks and geological processes at some premier localities around the world. These one- to two-week field trips allow students to do mentored research projects and develop field expertise rarely available to undergraduate students. Programs that are run every four to five years include:

1. Active volcanism of Hawaii.
2. Carbonate formation in Florida and the Bahamas.
3. Tectonism and plutonism in the northeast Appalachians.

Trips to more distant localities (e.g., Italy, Great Britain, Alaska) are interspersed with these recurring trips. Scholarships are available that greatly reduce the cost to students.

Hide All Course Descriptions

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 112 : Historical Geology. (4:3:2)
OFFERED: W, Su
PREREQUISITE: Geol 111.
DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

GEOL 210 : Field Studies. (3:0:9)
OFFERED: F
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

3. Complete two hours (four enrollments) of the following:

GEOL 491R : Geology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar on various geologic topics by guest speakers.

4. Complete three courses from the following:

GEOL 100 : Dinosaurs. (3:1:2)
OFFERED: W
DESCRIPTION: Hands-on examination of vertebrate fossils -- especially dinosaurs. For nonscience majors. Field trips.

GEOL 109 : Geology of the Planets. (3:3:0)
OFFERED: W
DESCRIPTION: Origins and distinctive histories of the planets in our solar system as revealed by study of their surface features.
NOTE: For nonscience and science majors.

GEOL 230 : Geological Communications. (3:3:0)
OFFERED: F, Su
PREREQUISITE: Geol 111; 210 or concurrent enrollment.
DESCRIPTION: Introduction to writing within the discipline and designing and creating publishable geologic maps

and illustrations. Tools include ArcGIS, Adobe Illustrator, and Photoshop. Online portfolio initiated.

GEOL 351 : Mineralogy. (4:3:4)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

GEOL 352 : Petrology. (3:3:2)
OFFERED: W
PREREQUISITE: Geol 210, 351, Chem 105 or 111.
DESCRIPTION: Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
OFFERED: W
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 375 : Structural Geology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 111, 112, 351, 352; Phscs 121 or concurrent enrollment.
DESCRIPTION: Geometric, kinematic, and dynamic analysis of tectonic features. Practical exercises. Using aerial photos. Field trips.

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

GEOL 440 : Solid Earth Geophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 123.
DESCRIPTION: Physics of the earth, including earthquake seismology. Gravity, seismic, magnetic, electrical, and heat flow properties and methods.

GEOL 445 : Geochemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 106, 107; or 112; Geol 352.
DESCRIPTION: Applying elementary chemical principles to understand geologic processes and materials.

GEOL 451 : Optical Mineralogy. (3:2:2)
OFFERED: W
PREREQUISITE: Geol 351.
DESCRIPTION: Interaction of light with crystalline material; using petrographic microscope; optical spectrometry.

GEOL 460 : Economic and Resource Geology. (3:2:2)
OFFERED: F
PREREQUISITE: Geol 352.
DESCRIPTION: Nature and genesis of metallic and non-metallic mineral deposits, including laboratory study of economic minerals. Field trips.

GEOL 476 : Introduction to Seismic Interpretation. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 370, 375.
DESCRIPTION: Fundamental techniques; analyzing seismic reflection data. Reviewing fundamentals of seismic trace and geologic implications. Basic mapping of subsurface structure and stratigraphy.

GEOL 480 : Paleontology. (3:3:2)

OFFERED: F
PREREQUISITE: Geol 112.
DESCRIPTION: Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

5. Complete one of the following options:

Either

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

Or

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

6. Complete the following:

ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

PHIL 423 : (Phil 423--Physcs 314) History and Philosophy of Science. (3:3:0)
OFFERED: F, W; Honors also.
PREREQUISITE: Phy S 100 or instructor's consent.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: High school algebra and trigonometry.

RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
OFFERED: F, W, Su
PREREQUISITE: Phscs 106 or concurrent enrollment.

PHSCS 127 : Descriptive Astronomy. (3:3:1)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Nonmathematical presentation of knowledge of the content and history of the cosmos, frequently using observatory and planetarium.

PHSCS 137 : Introduction to the Atmosphere and Weather. (3:3:0)
OFFERED: F, W
PREREQUISITE: PhyS 100 or equivalent.
DESCRIPTION: Nonmathematical introduction to characteristics of the atmosphere, emphasizing structure and dynamic behavior, including the environmental impact of man.

7. Complete the Professional Education Component:
   a. Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
OFFERED: F, W, Sp
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

PHY S 276 : Exploration of Teaching. (4:4:0)
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

PHY S 377 : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phy S 276; fingerprint and FBI clearance.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

PHY S 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Phy S 377.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

Note: Fingerprinting and FBI clearance must be completed before enrollment in Phy S 377.

b. Complete 12 hours from one of the following:
SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

*Hours include courses that may fulfill university core requirements.

BS in Geology (73–75 hours*)

Show All Course Descriptions
Hide All Course Descriptions

This basic degree in geology prepares graduates for professional employment in industry or government or for advanced studies in geology, business, or law.

Program Requirements | View MAP

1. No D credit is allowed in major courses.

2. Complete the following:

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 112 : Historical Geology. (4:3:2)
OFFERED: W, Su
PREREQUISITE: Geol 111.
DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

GEOL 210 : Field Studies. (3:0:9)
OFFERED: F
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

GEOL 230 : Geological Communications. (3:3:0)
OFFERED: F, Su
PREREQUISITE: Geol 111; 210 or concurrent enrollment.
DESCRIPTION: Introduction to writing within the discipline and designing and creating publishable geologic maps and illustrations. Tools include ArcGIS, Adobe Illustrator, and Photoshop. Online portfolio initiated.

GEOL 351 : Mineralogy. (4:3:4)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

GEOL 352 : Petrology. (3:3:2)
OFFERED: W
PREREQUISITE: Geol 210, 351, Chem 105 or 111.
DESCRIPTION: Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
OFFERED: W
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 375 : Structural Geology. (3:3:2)

OFFERED: F
PREREQUISITE: Geol 111, 112, 351, 352; Phscs 121 or concurrent enrollment.
DESCRIPTION: Geometric, kinematic, and dynamic analysis of tectonic features. Practical exercises. Using aerial photos. Field trips.

GEOL 410 : Geological Field Methods. (6:0:46)
OFFERED: Sp
PREREQUISITE: Geol 352, 370, 375.
DESCRIPTION: Methods used to observe, collect, and interpret field data in geologic and environmental investigations.
NOTE: Fee.

3. Complete 2 hours (four enrollments) of the following:
GEOL 491R : Geology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar on various geologic topics by guest speakers.

4. Complete four courses from the following:
GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

GEOL 440 : Solid Earth Geophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 123.
DESCRIPTION: Physics of the earth, including earthquake seismology. Gravity, seismic, magnetic, electrical, and heat flow properties and methods.

GEOL 445 : Geochemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 106, 107; or 112; Geol 352.
DESCRIPTION: Applying elementary chemical principles to understand geologic processes and materials.

GEOL 451 : Optical Mineralogy. (3:2:2)
OFFERED: W
PREREQUISITE: Geol 351.
DESCRIPTION: Interaction of light with crystalline material; using petrographic microscope; optical spectrometry.

GEOL 460 : Economic and Resource Geology. (3:2:2)
OFFERED: F
PREREQUISITE: Geol 352.
DESCRIPTION: Nature and genesis of metallic and non-metallic mineral deposits, including laboratory study of economic minerals. Field trips.

GEOL 476 : Introduction to Seismic Interpretation. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 370, 375.
DESCRIPTION: Fundamental techniques; analyzing seismic reflection data. Reviewing fundamentals of seismic trace and geologic implications. Basic mapping of subsurface structure and stratigraphy.

GEOL 480 : Paleontology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 112.

DESCRIPTION: Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

5. Complete one of the following options:

Either

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.
- DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
- NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Chem 106 or concurrent enrollment.
- DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
- NOTE: Required for most students needing one year of general chemistry.

Or

CHEM 111 : Principles of Chemistry. (3:3:1)
- OFFERED: F
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
- DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
- NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
- OFFERED: W
- PREREQUISITE: Chem 111 or equivalent.
- DESCRIPTION: Continuation of Chem 111.
- NOTE: Tutorial included.

6. Complete the following:

ENGL 316 : Technical Communication. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: Engl 150 or equivalent; junior or senior status.
- DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
- NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.
- DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
- NOTE: Honors also.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: High school algebra and trigonometry.

RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

BS in Geology: Environmental Geology Emphasis (76–79 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Increasing concern with environmental degradation and natural geologic hazards has led to a demand for geologists who are both well grounded in the fundamentals of the science of geology and specifically prepared to address environmental problems. This degree prepares students for careers either in the environmental services industry or government or for advanced studies.

Program Requirements | View MAP

1. No D credit is allowed in major courses.
2. Complete the following:

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 112 : Historical Geology. (4:3:2)
OFFERED: W, Su
PREREQUISITE: Geol 111.
DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

GEOL 210 : Field Studies. (3:0:9)
OFFERED: F
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

GEOL 230 : Geological Communications. (3:3:0)
OFFERED: F, Su
PREREQUISITE: Geol 111; 210 or concurrent enrollment.
DESCRIPTION: Introduction to writing within the discipline and designing and creating publishable geologic maps and illustrations. Tools include ArcGIS, Adobe Illustrator, and Photoshop. Online portfolio initiated.

GEOL 351 : Mineralogy. (4:3:4)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

GEOL 352 : Petrology. (3:3:2)
OFFERED: W
PREREQUISITE: Geol 210, 351, Chem 105 or 111.
DESCRIPTION: Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
OFFERED: W
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 375 : Structural Geology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 111, 112, 351, 352; Phscs 121 or concurrent enrollment.
DESCRIPTION: Geometric, kinematic, and dynamic analysis of tectonic features. Practical exercises. Using aerial photos. Field trips.

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 410 : Geological Field Methods. (6:0:46)
OFFERED: Sp
PREREQUISITE: Geol 352, 370, 375.
DESCRIPTION: Methods used to observe, collect, and interpret field data in geologic and environmental investigations.
NOTE: Fee.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

GEOL 445 : Geochemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 106, 107; or 112; Geol 352.
DESCRIPTION: Applying elementary chemical principles to understand geologic processes and materials.

3. Complete two hours (four enrollments) of the following:
GEOL 491R : Geology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar on various geologic topics by guest speakers.

4. Complete two courses from the following:
CE EN 351 : Environmental Engineering. (3:3:0)
OFFERED: W, Su even years; F, Sp odd years.
PREREQUISITE: Chem 105, Stat 221.
DESCRIPTION: Environmental concerns, problems, and evaluation methodology; pollution control and engineering management approaches.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

GEOL 440 : Solid Earth Geophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 123.
DESCRIPTION: Physics of the earth, including earthquake seismology. Gravity, seismic, magnetic, electrical, and heat flow properties and methods.

GEOL 535 : Contaminant Hydrogeology. (3:3:0)
OFFERED: W
PREREQUISITE: Geology 435 or equivalent.
DESCRIPTION: Principles, tools, and applications used to solve heavy metal, organic, and radionuclide groundwater contamination problems. Topics include regulations, mass transport, multiphase flow, transformation, retardation, and attenuation.

PWS 303 : Soils Conservation and Resources. (3:3:0)
OFFERED: F
PREREQUISITE: PWS 100 or equivalent; PWS 282, Chem 105 (or 101), Math 110 or equivalent.
RECOMMENDED: Geol 111.
DESCRIPTION: Taxonomy of world soils; conservation and management of agricultural, wildland, wetland, and urban soils.

: Soil Conservation and Management.

5. Complete the following:

ENGL 316 : Technical Communication. (3:3:0)
- OFFERED: F, W, Sp, Su; Honors also.
- PREREQUISITE: Engl 150 or equivalent; junior or senior status.
- DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
- NOTE: Carries GE Advanced Written and Oral Communication credit.

MATH 112 : Calculus 1. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 and 111 or equivalent.
- DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
- NOTE: Honors also.

MATH 113 : Calculus 2. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 112 or equivalent.
- DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.
- NOTE: Honors also.

PHSCS 105 : Introductory Applied Physics. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: High school algebra and trigonometry.
- RECOMMENDED: Concurrent enrollment in Phscs 107.
- DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Phscs 105 or equivalent.
- RECOMMENDED: Concurrent enrollment in Phscs 108.
- DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

STAT 221 : Principles of Statistics. (3:3:2)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 or equivalent.
- DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
- NOTE: Honors and Independent Study also.

6. Complete one of the following options:

Either

CHEM 105 : General College Chemistry. (4:5:0)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
- DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
- NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
- OFFERED: F, W, Su
- PREREQUISITE: Chem 105 or equivalent.
- DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
- NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
- OFFERED: F, W, Sp, Su
- PREREQUISITE: Chem 106 or concurrent enrollment.
- DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

Or

CHEM 111 : Principles of Chemistry. (3:3:1)
OFFERED: F
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.
DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.
NOTE: Tutorial included.

CHEM 112 : Principles of Chemistry. (3:3:2)
OFFERED: W
PREREQUISITE: Chem 111 or equivalent.
DESCRIPTION: Continuation of Chem 111.
NOTE: Tutorial included.

*Hours include courses that may fulfill university core requirements.

Minor in Geology (16 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. When all of the geology credit required for a minor is transferred from another school, at least one course in geology must be taken at BYU.

2. No D credit is allowed in minor courses.

3. Complete the following:

GEOL 111 : Physical Geology. (4:3:2)
- OFFERED: F, W
- PREREQUISITE: Math 112 or concurrent enrollment.
- DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 112 : Historical Geology. (4:3:2)
- OFFERED: W, Su
- PREREQUISITE: Geol 111.
- DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

4. Complete eight hours from the following:

GEOL 100 : Dinosaurs. (3:1:2)
- OFFERED: W
- DESCRIPTION: Hands-on examination of vertebrate fossils -- especially dinosaurs. For nonscience majors. Field trips.

GEOL 109 : Geology of the Planets. (3:3:0)
- OFFERED: W
- DESCRIPTION: Origins and distinctive histories of the planets in our solar system as revealed by study of their surface features.
- NOTE: For nonscience and science majors.

GEOL 210 : Field Studies. (3:0:9)
- OFFERED: F
- PREREQUISITE: Geol 111, 112.
- DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
- NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

GEOL 351 : Mineralogy. (4:3:4)
- OFFERED: F
- PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
- DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

GEOL 352 : Petrology. (3:3:2)
- OFFERED: W
- PREREQUISITE: Geol 210, 351, Chem 105 or 111.
- DESCRIPTION: Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
- OFFERED: W

PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 375 : Structural Geology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 111, 112, 351, 352; Phscs 121 or concurrent enrollment.
DESCRIPTION: Geometric, kinematic, and dynamic analysis of tectonic features. Practical exercises. Using aerial photos. Field trips.

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

GEOL 440 : Solid Earth Geophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 123.
DESCRIPTION: Physics of the earth, including earthquake seismology. Gravity, seismic, magnetic, electrical, and heat flow properties and methods.

GEOL 445 : Geochemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 106, 107; or 112; Geol 352.
DESCRIPTION: Applying elementary chemical principles to understand geologic processes and materials.

GEOL 451 : Optical Mineralogy. (3:2:2)
OFFERED: W
PREREQUISITE: Geol 351.
DESCRIPTION: Interaction of light with crystalline material; using petrographic microscope; optical spectrometry.

GEOL 460 : Economic and Resource Geology. (3:2:2)
OFFERED: F
PREREQUISITE: Geol 352.
DESCRIPTION: Nature and genesis of metallic and non-metallic mineral deposits, including laboratory study of economic minerals. Field trips.

GEOL 480 : Paleontology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 112.
DESCRIPTION: Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

Minor in Geology Teaching (16 hours)

Show All Course Descriptions
Hide All Course Descriptions

The geology teaching minor is intended for students who are pursuing secondary education licensure through the David O. McKay School of Education.

Program Requirements

1. When all of the geology credit required for a minor is transferred from another school, at least one course in geology must be taken at BYU.
2. No D credit is allowed in minor courses.
3. Complete the following:

   GEOL 111 : Physical Geology. (4:3:2)
   OFFERED: F, W
   PREREQUISITE: Math 112 or concurrent enrollment.
   DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

   GEOL 112 : Historical Geology. (4:3:2)
   OFFERED: W, Su
   PREREQUISITE: Geol 111.
   DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

4. Complete eight hours from the following:

   GEOL 100 : Dinosaurs. (3:1:2)
   OFFERED: W
   DESCRIPTION: Hands-on examination of vertebrate fossils -- especially dinosaurs. For nonscience majors. Field trips.

   GEOL 109 : Geology of the Planets. (3:3:0)
   OFFERED: W
   DESCRIPTION: Origins and distinctive histories of the planets in our solar system as revealed by study of their surface features.
   NOTE: For nonscience and science majors.

   GEOL 210 : Field Studies. (3:0:9)
   OFFERED: F
   PREREQUISITE: Geol 111, 112.
   DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
   NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

   GEOL 351 : Mineralogy. (4:3:4)
   OFFERED: F
   PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
   DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

   GEOL 352 : Petrology. (3:3:2)
   OFFERED: W
   PREREQUISITE: Geol 210, 351, Chem 105 or 111.
   DESCRIPTION: Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-

forming systems. Field trips.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
OFFERED: W
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 375 : Structural Geology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 111, 112, 351, 352; Phscs 121 or concurrent enrollment.
DESCRIPTION: Geometric, kinematic, and dynamic analysis of tectonic features. Practical exercises. Using aerial photos. Field trips.

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

GEOL 440 : Solid Earth Geophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 123.
DESCRIPTION: Physics of the earth, including earthquake seismology. Gravity, seismic, magnetic, electrical, and heat flow properties and methods.

GEOL 445 : Geochemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 106, 107; or 112; Geol 352.
DESCRIPTION: Applying elementary chemical principles to understand geologic processes and materials.

GEOL 460 : Economic and Resource Geology. (3:2:2)
OFFERED: F
PREREQUISITE: Geol 352.
DESCRIPTION: Nature and genesis of metallic and non-metallic mineral deposits, including laboratory study of economic minerals. Field trips.

GEOL 480 : Paleontology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 112.
DESCRIPTION: Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

Undergraduate Courses

100-Level Courses

GEOL 100 : Dinosaurs. (3:1:2)
OFFERED: W
DESCRIPTION: Hands-on examination of vertebrate fossils -- especially dinosaurs. For nonscience majors. Field trips.

GEOL 101 : Introduction to Geology. (3:2:1)
OFFERED: F, W, Sp, Su
DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.
NOTE: Honors also.

: Honors Introduction to Geology.

GEOL 102 : Geological Field Studies. (3:6:0)
OFFERED: F 1st block, Su
DESCRIPTION: Outdoor examination of geological processes via afternoon canyon hikes and other hands-on activities.
NOTE: For nonscience majors.

GEOL 103 : Life of the Past. (3:2:1)
OFFERED: F, W
DESCRIPTION: Cultural focus on historical geology for nonscience majors; fossils. Field trips.

GEOL 108 : Climate and the Earth System. (3:3:0)
OFFERED: F
DESCRIPTION: Chemical, physical, and biological processes shaping the Earth's surface and climate, emphasizing quantitative methods for measuring and evaluating contemporary climate and environmental changes relative to the last several thousand years.

GEOL 109 : Geology of the Planets. (3:3:0)
OFFERED: W
DESCRIPTION: Origins and distinctive histories of the planets in our solar system as revealed by study of their surface features.
NOTE: For nonscience and science majors.

GEOL 110 : Geological Science Laboratory. (1:0:2)
PREREQUISITE: Geol 101.
DESCRIPTION: Minerals, rocks, and landforms; the use of topographic and geologic maps; the interpretation of aerial photos.

GEOL 111 : Physical Geology. (4:3:2)
OFFERED: F, W
PREREQUISITE: Math 112 or concurrent enrollment.
DESCRIPTION: Materials, structure, and surface features of the earth and the geologic processes involved in their development. Field trips and lab studies, use of aerial photos.

GEOL 112 : Historlcal Geology. (4:3:2)
OFFERED: W, Su
PREREQUISITE: Geol 111.
DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

200-Level Courses

GEOL 210 : Field Studies. (3:0:9)
OFFERED: F
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Procedures in observing, collecting, and recording field data concerning properties of rock units.
NOTE: Contact Geological Sciences Department before April 15 for dates of upcoming August trip.

GEOL 230 : Geological Communications. (3:3:0)
OFFERED: F, Su
PREREQUISITE: Geol 111; 210 or concurrent enrollment.
DESCRIPTION: Introduction to writing within the discipline and designing and creating publishable geologic maps and illustrations. Tools include ArcGIS, Adobe Illustrator, and Photoshop. Online portfolio initiated.

300-Level Courses

GEOL 330 : Geology for Engineers. (3:2:2)

OFFERED: F, W, Sp
DESCRIPTION: Geological processes and materials bearing on engineering practices. Field trips.

GEOL 351 : Mineralogy. (4:3:4)
OFFERED: F
PREREQUISITE: Chem 105 or 111 or concurrent enrollment.
DESCRIPTION: Principles of crystallography and crystal chemistry. Physical, chemical, and crystallographic properties of minerals.

GEOL 352 : Petrology. (3:3:2)
OFFERED: W
PREREQUISITE: Geol 210, 351, Chem 105 or 111.
DESCRIPTION: Compositions, fabrics, and field relations of igneous and metamorphic rocks; behavior of rock-forming systems. Field trips.

GEOL 370 : Sedimentology and Stratigraphy. (3:3:3)
OFFERED: W
PREREQUISITE: Geol 111, 112.
DESCRIPTION: Erosion; sediment entrainment, transport, and deposition; depositional systems and facies analysis; principles of stratigraphy. Field trips.

GEOL 375 : Structural Geology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 111, 112, 351, 352; Phscs 121 or concurrent enrollment.
DESCRIPTION: Geometric, kinematic, and dynamic analysis of tectonic features. Practical exercises. Using aerial photos. Field trips.

GEOL 399R : Academic Internship. (.5-9:0:0)
OFFERED: F, W, Sp, Su

400-Level Courses

GEOL 404 : Chemical Processes in the Environment. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330.
DESCRIPTION: Natural controls on the composition of water; anthropogenic effects on air and water relative to understanding a range of environmental problems.

GEOL 410 : Geological Field Methods. (6:0:46)
OFFERED: Sp
PREREQUISITE: Geol 352, 370, 375.
DESCRIPTION: Methods used to observe, collect, and interpret field data in geologic and environmental investigations.
NOTE: Fee.

GEOL 411 : Geomorphology and Remote Sensing. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111.
DESCRIPTION: Interpretive analysis of landforms and their geologic significance. Use of aerial/satellite images of Earth and other planets, topographic/bathymetric maps, multi-wavelength image data. Field trips.

GEOL 430 : Senior Thesis. (3:ARR:0)
OFFERED: F
PREREQUISITE: Geol 111, 112, 210, 351, 352, 370, 375.
DESCRIPTION: Faculty-supervised research on a project of limited scope. Project is chosen and completed by the student. Written and oral presentation of findings required.

GEOL 435 : Introduction to Groundwater. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 111 or 330; Math 110 or equivalent.
DESCRIPTION: Introduction to the occurrence, movement, and properties of subsurface water; surface and groundwater relationships.

GEOL 440 : Solid Earth Geophysics. (3:3:0)
OFFERED: W
PREREQUISITE: Phscs 123.
DESCRIPTION: Physics of the earth, including earthquake seismology. Gravity, seismic, magnetic, electrical, and heat flow properties and methods.

GEOL 445 : Geochemistry. (3:3:0)
OFFERED: W
PREREQUISITE: Chem 106, 107; or 112; Geol 352.
DESCRIPTION: Applying elementary chemical principles to understand geologic processes and materials.

GEOL 451 : Optical Mineralogy. (3:2:2)
OFFERED: W
PREREQUISITE: Geol 351.
DESCRIPTION: Interaction of light with crystalline material; using petrographic microscope; optical spectrometry.

GEOL 460 : Economic and Resource Geology. (3:2:2)
OFFERED: F
PREREQUISITE: Geol 352.
DESCRIPTION: Nature and genesis of metallic and non-metallic mineral deposits, including laboratory study of economic minerals. Field trips.

GEOL 476 : Introduction to Seismic Interpretation. (3:3:0)
OFFERED: F
PREREQUISITE: Geol 370, 375.
DESCRIPTION: Fundamental techniques; analyzing seismic reflection data. Reviewing fundamentals of seismic trace and geologic implications. Basic mapping of subsurface structure and stratigraphy.

GEOL 480 : Paleontology. (3:3:2)
OFFERED: F
PREREQUISITE: Geol 112.
DESCRIPTION: Distribution, morphology, paleoecology, evolution, and stratigraphic significance of organisms in the geologic record. Field trips.

GEOL 490R : Short Courses. (.5-3:ARR:0)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: Short, undergraduate-level courses and extended field trips offered on an irregular basis.
NOTE: Fee.

GEOL 491R : Geology Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar on various geologic topics by guest speakers.

GEOL 492R : Career Pathways Seminar. (.5:1:0)
OFFERED: W
DESCRIPTION: Seminar on graduate school and career opportunities by guest speakers.

GEOL 499R : Honors Thesis. (.5-6:ARR:ARR)
OFFERED: F, W, Sp, Su

500-Level Graduate Courses (available to advanced undergraduates)

GEOL 504 : Global Geology Field Studies. (1-3:Arr.:Arr.)
OFFERED: On demand.
PREREQUISITE: Any senior-level geology course; instructor's consent.
DESCRIPTION: In-depth study fo classic geologic localities, such as Hawaii, the Bahamas, and the Appalachians, prelimiary to on-site field study.

GEOL 521 : Borehole Geophysics and Geology. (3:3:0)
OFFERED: F alternate years.
PREREQUISITE: Phscs 121, 220, Geol 351, 370.
DESCRIPTION: Applied well log analysis, including conventional and new techniques. Subsurface geology and lithology determined from many logs. Determining porosity, permeability, and fluid saturation with hydrology, and hydrocarbon applications.

GEOL 525 : Petroleum Systems Analysis. (4:4:0)
OFFERED: F alternate years
PREREQUISITE: Geol 370 or equivalent.
DESCRIPTION: Properties of petroleum; exploration methods; generation and migration of hydrocarbons, reservoirs, traps, and seals; sedimentary basin classification; energy resources. Extended field trip required.

GEOL 530 : Geological Communications Laboratory. (3:3:0)
OFFERED: F
PREREQUISITE: Instructor's consent; graduate status.
DESCRIPTION: Designing and creating a variety of student-selected geological illustrations emphasizing maps and cross-sections.

GEOL 535 : Contaminant Hydrogeology. (3:3:0)
OFFERED: W
PREREQUISITE: Geology 435 or equivalent.
DESCRIPTION: Principles, tools, and applications used to solve heavy metal, organic, and radionuclide groundwater contamination problems. Topics include regulations, mass transport, multiphase flow, transformation, retardation, and attenuation.

GEOL 540 : Principles of Glaciology. (3:3:0)
OFFERED: F alternate years.
DESCRIPTION: Geophysical problems involving ice in the environment and its role in global change. Topics include atmospheric ice, snow pack, glaciers, ice sheets, sea ice, permafrost, and ice age theories.

GEOL 545 : Isotope Geochemistry. (3:1:4)
OFFERED: F alternate years.
PREREQUISITE: Geol 352 or equivalent.
DESCRIPTION: Use of stable and radioactive isotope systematics in geochronology and investigation of origins of rocks and waters.

GEOL 550 : Environmental Soil Chemistry. (3:3:0)
OFFERED: F alternate years
PREREQUISITE: Chem 105, 106, 107; or equivalents.
DESCRIPTION: Chemistry of soil systems at macroscopic and microscopic scales, examined from the perspective of scientists interested in environmental assessment and remediation.

GEOL 551 : Advanced Mineralogy. (3:2:2)
OFFERED: W alternate years
PREREQUISITE: Geol 351 or equivalent.
DESCRIPTION: Crystallography, structure, and crystal chemistry of major silicate mineral groups.

GEOL 552 : Igneous Petrology. (3:4:3)
PREREQUISITE: Geol 352 or equivalent.
DESCRIPTION: Origin and evolution of magmas, emphasizing trace element and isotopic compositions and intensive properties as calculated from mineral compositions.

GEOL 555 : Volcanism and Ore Deposits. (1-3:Arr:Arr)
OFFERED: On demand.
PREREQUISITE: Geol 352 or equivalent.

GEOL 560 : Reflection Seismology Theory. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Geol 375, Phscs 121, 123, 220; or equivalents.
DESCRIPTION: Principles, tools, and methods used in seismic geophysics, with exploration, engineering, environmental, and hydrological applications.

GEOL 561 : Applied Exploration Seismology. (3:3:0)
OFFERED: F alternate years.
PREREQUISITE: Geol 375, Phscs 121, 123, 220; or equivalents.
DESCRIPTION: Seismic acquisition processing and computer-assisted interpretation, emphasizing field deployment techniques, use of commercial data processing, and visualization software.

GEOL 565R : Special Topics in Geology. (.5-4:ARR:ARR)
OFFERED: On demand.
PREREQUISITE: Instructor's consent.
DESCRIPTION: The following topics may be offered on demand: geology for teachers, ore deposits, solid-water interface chemistry, X-ray crystallography.

GEOL 571 : Sedimentology and Ecology of Modern Carbonate Systems. (1-3:Arr:Arr)
OFFERED: W on demand
PREREQUISITE: Geol 370 or equivalent.
DESCRIPTION: Field course in the Caribbean emphasizing factors that produce carbonate sediments. Investigation of tidal flat to off-shore barrier reef environments and Pleistocene outcrops.

GEOL 574 : Advanced Stratigraphy. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Geol 370 or equivalent.
RECOMMENDED: Geol 480.
DESCRIPTION: Studying the stratigraphic record through modern methods of correlating stratal packages, emphasizing concepts of sequence and seismic stratigraphy, and utilizing methods of chronostratigraphy, biostratigraphy, lithostratigraphy, and absolute dating. Extended field trip required.

GEOL 575 : Advanced Structural Geology. (3:2:3)
OFFERED: F alternate years.
PREREQUISITE: Geol 375, 410; or equivalents.
DESCRIPTION: In-depth discussions of a variety of topics in structural geology, emphasizing current literature and problems.

GEOL 576 : Three-Dimensional Subsurface Mapping and Evaluation. (3:3:0)
OFFERED: W
PREREQUISITE: Geol 476 or equivalent.
DESCRIPTION: Advanced interpretation of 3D seismic reflection data. Integrating well and seismic data to interpret complex geologic systems. Implications for understanding hydrocarbon reservoirs.

GEOL 580 : Principles of Paleontology. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Geol 480 or equivalent.
DESCRIPTION: Modern approaches to fossil study applied to areas of evolution, paleoecology, and biostratigraphy.

GEOL 586 : Vertebrate Paleontology. (4:3:2)
OFFERED: F alternate years.
PREREQUISITE: instructor's consent.
DESCRIPTION: History of vertebrate fossils. Field trips required. Credit applies in either zoology or geology. Lab studies.

GEOL 590R : Short Courses. (1-3:3:3)
OFFERED: F, W on demand
DESCRIPTION: Short graduate-level courses offered on a random basis.
NOTE: Fee.

GEOL 591R : Seminar. (.5:1:0)
OFFERED: F, W
DESCRIPTION: Seminar on various geologic topics by guest speakers.
NOTE: Total of 1 credit hour required.

GEOL 592R : Career Pathways Seminar. (.5:1:0)
OFFERED: W alternate years
DESCRIPTION: Seminar on graduate school and career opportunities by guest speakers.

GEOL 599R : Academic Internship. (1-9:0:0)
OFFERED: F, W, Sp, Su

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Geological Sciences Faculty

Professors

Christiansen, Eric H

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1977
ScM, Brown University, 1981
PhD, Arizona State University, 1981

Griffen, Dana Thomas

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, U.S. Naval Academy, 1965
MS, Virginia Polytechnic Inst, 1973
PhD, Virginia Polytechnic Inst, 1976

Harris, Ron

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, University of Oregon, 1982
MS, University of Alaska, Fairbanks, 1985
PhD, University of London, 1989

Keith, Jeffrey Davis

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1977
MS, University of Wisconsin, Madison, 1980
PhD, University of Wisconsin, Madison, 1982

Kowallis, Bart J

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1977
MS, University of Wisconsin, Madison, 1979
PhD, University of Wisconsin, Madison, 1981

Mayo, Alan L

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, University of California, San Diego, 1970
MS, University of California, San Diego, 1972
PhD, University of Idaho, 1982

McBride, John Henry

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, University of Arkansas, 1978
MS, University of Arkansas, 1980
PhD, Cornell University, 1987

Morris, Thomas H

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1981
MS, University of Wisconsin, Madison, 1983
PhD, University of Wisconsin, Madison, 1986

Nelson, Stephen Tracy

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1984
MS, Brigham Young University, 1987
PhD, University of California, Los Angeles, 1991

Ritter, Scott M

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Professor
DEGREES: BS, Brigham Young University, 1981
MS, Brigham Young University, 1983
PhD, University of Wisconsin, 1986

Assistant Professors

Bickmore, Barry R

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1994
PhD, Virginia Polytechnic Inst, 1999

Britt, Brooks Bradley

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1982
MS, Brigham Young University, 1987
PhD, University of Calgary, 1993

Radebaugh, Jani

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1993
MS, Brigham Young University, 1999
PhD, University of Arizona, 2005

Rupper, Summer

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Assistant Professor
DEGREES: PhD, University of Washington, Seattle, 2007

Assistant Teaching Professor

Skinner, Malcolm R

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Assistant Teaching Professor
DEGREES: MS, Brigham Young University, 1996

Research Professors

Dorais, Michael John

COLLEGE: Physical and Mathematical Sciences
DEPARTMENT: Geological Sciences
RANK: Research Professor
DEGREES: BS, Brigham Young University, 1980
MS, University of Oregon, 1983
PhD, University of Georgia, 1987

Tingey, David G

COLLEGE: Physical and Mathematical Sciences

UNDERGRADUATE CATALOG 2008 - 2009

Germanic and Slavic Languages

David K. Hart, Chair
3112 JFSB, (801) 422-4923

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

Admission to Degree Program

All degree programs in the Department of Germanic and Slavic Languages are open enrollment. However, special limitations apply for teaching majors.

The Discipline

Students of foreign language and literature develop fluency in another language as well as sensitivity to their own language and cultural heritage, to the contributions and diversity of other peoples, and to the advantages of an international perspective.

Career Opportunities

Experience with the intellectual, artistic, and spiritual expressions of other cultures and of their own culture helps students qualify for advanced study at graduate and professional schools, especially in linguistics, literature, language teaching methodology, library science, humanities, business, law, and medicine. Those who accept employment on completion of the BA degree frequently serve in international business, in education, or in a government agency.

General Information

The Department of Germanic and Slavic Languages strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
- BA in German
  - Emphases:
    - Linguistics
    - Literature
- BA in German Studies (second-major program)
- BA in German Teaching
- BA in Russian

Minors
- German
- German Teaching
- Russian
- Russian Teaching

Students should see their college advisement center for help or information concerning the undergraduate programs.

Graduate Programs and Degrees

MA in Language Acquisition (German or Russian)
MA in German Studies

For more information see the BYU 2008–2009 Graduate Catalog.

UNDERGRADUATE CATALOG 2008 - 2009

German

General Information

1. Beginning German courses (101, 102, 201, 202) will be waived for students having comparable German training or experience. Consult department for information about placement examinations.
2. All students will purchase a portfolio packet when they enroll in their first class in the German section. This portfolio will travel with the students as they progress from course to course through the degree program. It will serve as a checklist to guide them through their course of study, will record their language proficiency, and will also be a repository for all papers and creative work produced by the student in the department. The completed portfolio will be reviewed in Germ 400R in conjunction with the Senior Proficiency Exam.
3. All students completing a degree in the German section will be required to master a reading list of masterworks (provided in the portfolio) during their course of study. This can be done either in conjunction with course work or independently.
4. A senior capstone paper is required for graduation.
5. Germ 200R and 300R are designed to help students who desire additional skill in speaking, etc.
6. In their final year, graduating seniors must register for 1 credit hour of Germ 400R in conjunction with the senior proficiency examination (offered fall and winter only). Portfolios should be completed and will be reviewed at the time of this exam.
7. Students planning graduate studies in German should begin a second foreign language.

Language Residency Programs

1. **Vienna Study Abroad (Germ 201, 202, 211R, 310, 311R; 320 or 330).** An opportunity for developing language proficiency as well as for becoming better acquainted with the history and culture of Europe. Spring and summer terms. Prerequisite: Germ 102 or equivalent.
2. **German Internship Program (Germ 211R/311R, IAS 397R; Germ 399R or IAS 399R).** The BYU German program is pleased to offer a broad range of short-term internship opportunities in German-speaking countries. Students receive individual help to find and prepare for a work experience that will improve their German-language skills and provide a meaningful context for their academic studies. Completion of Germ 202, or an approved equivalent, with at least a B+ grade is required.
3. **Foreign Language Student Residence (Germ 211R, 311R).** An opportunity to live with other students who have pledged to use only German within the house and with head residents who are native speakers of German. Enrollment in a German class in addition to 211R and 311R is required while living in the house. Prerequisite: Germ 102 or equivalent.
4. **German-Speaking LDS Mission or Other Extended German-Speaking Residency.** Advanced students enroll in Germ 330 and, if desired, complete examinations for Germ 101, 102, 201, and 4 hours of 311R.
5. **Study at a German University.** The department strongly recommends that students spend their junior year at a German university taking courses that will apply toward the major. Universities in Germany charge no tuition, so, even though living costs are generally higher, with careful planning and modest financial support, most students find they can study at "Provo parity," that is, for about the same amount as a year of study in Provo. For advice about how to enroll and what financial support is available, contact the department office.

BA in German: Linguistics Emphasis (36–55 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. See General Information section.

2. At least 18 hours of upper-division major credit must be taken in residence at BYU.

3. Complete one of the following Level 1 course options (may be waived with equivalent experience):

Either

GERM 101 : First-Year German. (4:5:1)
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.
NOTE: For those who have had no German.

GERM 102 : First-Year German. (4:5:1)
PREREQUISITE: C grade or better in Germ 101 or equivalent.
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.

Or

GERM 103 : Intensive First-Year German. (4:5:1)
OFFERED: F; Honors also.
DESCRIPTION: Covers both Germ 101 and 102. Listening, speaking, reading, writing, grammar, and culture.

4. Complete the following Level 2 courses (may be waived with equivalent experience):

GERM 201 : Second-Year German. (4:5:1)
PREREQUISITE: C grade or better in Germ 102 or equivalent.
DESCRIPTION: Reading, writing, grammar, culture, listening, and speaking.

GERM 202 : Second-Year German. (4:5:1)
PREREQUISITE: C grade or better in Germ 201 or equivalent.
DESCRIPTION: Culminating course for GE Foreign Language requirement emphasizing culture and literature. Continued writing, grammar, listening, and speaking.
NOTE: Prerequisite to all 300- and 400-level courses.

5. Complete three hours of one of the following (or equivalent):

GERM 211R : Intermediate Conversation. (1-5:ARR:ARR)
OFFERED: F
PREREQUISITE: Germ 102 or equivalent experience.
DESCRIPTION: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

GERM 311R : Advanced Conversation. (1-5:ARR:ARR)
OFFERED: W
PREREQUISITE: Germ 211R or equivalent experience.
NOTE: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

6. Complete the following Level 3 courses:

GERM 310 : German Phonetics and Pronunciation. (3:3:1)
PREREQUISITE: Germ 202 or equivalent experience.
DESCRIPTION: Perfecting listening and speaking skills through applying phonetics and acoustic analysis; practicing speaking and listening.

GERM 330 : Cultural History of German-Speaking Peoples. (3:3:1.5)

OFFERED: Honors also.
PREREQUISITE: Germ 202 or equivalent experience.
DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.
NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses.

GERM 343 : Introduction to Literary Analysis. (3:3:.5)
OFFERED: Honors also.
RECOMMENDED: Germ 320, 321, 330, 340.
DESCRIPTION: Close reading of texts; examining various critical theories and their application to German prose, drama, poetry, and film. Preparation for 440R - 445R sequence. Includes International Cinema.

7. Complete one of the following Level 3 course options:

Either

GERM 320 : Grammar and Composition 1. (3:3:0)
PREREQUISITE: Germ 310 or concurrent enrollment.
DESCRIPTION: Perfecting grammar, reading, writing, listening and speaking skills using current news items from German-speaking countries as a basis.

GERM 321 : Grammar and Composition 2. (3:3:0)
OFFERED: F, W
PREREQUISITE: Germ 320.
DESCRIPTION: Continuation of Germ 320.

Or

GERM 322 : Intensive Grammar and Composition. (3:3:0)
OFFERED: F, W
PREREQUISITE: Germ 310 or concurrent enrollment.
NOTE: Covers Germ 320 and 321 in one semester.

8. Complete the following or other approved advanced writing course:

GERM 340 : Writing About Literature. (3:3:0)
OFFERED: Honors also.
DESCRIPTION: Methods of literary interpretation. Reading, writing, and research skills integral to the literary analysis expected in German major or minor courses.
NOTE: Fills GE Advanced Written and Oral Communication requirement.

9. Complete the following:

GERM 450 : History of the German Language. (3:3:0)
PREREQUISITE: Germ 310, 320, 321.
DESCRIPTION: Linguistic survey of the German language from Indo-European to modern times, including phonology, morphology, syntax, and lexicon.

GERM 460 : Structure of Modern German. (3:3:0)
PREREQUISITE: Germ 310, 320, 321.
DESCRIPTION: Structural and socio-linguistic study of contemporary German.

GERM 497R : Senior Seminar in German Language. (3:3:0)
PREREQUISITE: Senior status.
DESCRIPTION: Culminating senior-level course in which acquired knowledge and critical skills are brought to bear on a selected language topic. In-depth capstone paper on one aspect of topic.

Note: Germ 497R must be a topic related to advanced German linguistics.

10. Complete eight additional hours of pro-seminars and/or courses numbered 341 or higher, 5 hours of which must be approved linguistics courses such as second language acquisition, dialectology, Middle High German, or Old Saxon.

11. Master a reading list of masterworks (provided in the portfolio) either in conjunction with course work or independently.

12. Final German proficiency examination: complete the following during the last two semesters before graduation (not offered spring or summer):

GERM 400R : Fourth-Year Proficiency Tutorial. (.5-3:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Senior status.
DESCRIPTION: Individualized skill building in listening, speaking, reading, writing, and grammar. Completed portfolios reviewed, and final proficiency examination administered.

NOTE: Required for one credit in one of final two semesters for graduating seniors.

(1 hour required).

Note: A capstone paper will be required.

*Hours include courses that may fulfill university core requirements.

BA in Russian (56–84 hours*)

Show All Course Descriptions
Hide All Course Descriptions

General Information

Important Note for Returned Russian-Speaking Missionaries: Register for third-year Russian classes. Russ 330 is recommended. Russ 202 will be waived as a requirement for Russian majors and should not be taken except when remedial work is necessary and permission is obtained from the section leader. Credit for Russ 101, 102, 201, and 211 is available through a test given as part of Russ 330. Returned missionaries must complete Russ 330 and talk with the Russian section head before declaring a major.

Program Requirements | View MAP

1. Complete the following preparatory courses (may be waived for students with sufficient proficiency in the language):

   RUSS 101 : First-Year Russian, Part 1. (5:5:1)

   RUSS 102 : First-Year Russian, Part 2. (5:5:1)

   RUSS 201 : Second-Year Russian, Part 1. (5:5:1)
   PREREQUISITE: Russ 102 or instructor's consent, based on prior Russian language experience.
   DESCRIPTION: Grammar review and conversation.

   RUSS 202 : Second-Year Russian, Part 2. (5:5:1)
   PREREQUISITE: Russ 201 or instructor's consent.
   DESCRIPTION: Grammar review and discussion in Russian of both expository and literary readings.
   NOTE: Culminating course for GE Foreign Language requirement.

2. Complete the following major courses:

   RUSS 321 : Third-Year Russian Part 1. (2:2:0)
   PREREQUISITE: Russ 202 or equivalent.
   DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

   RUSS 322 : Third-Year Russian Part 2. (2:2:0)
   PREREQUISITE: Russ 202 or equivalent.
   DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

   RUSS 323 : Russian Phonetics and Pronunciation. (2:2:0)
   PREREQUISITE: Russ 202 or equivalent.
   DESCRIPTION: Perfecting speaking and listening skills through phonetics and applied speaking and listening techniques.

   RUSS 330 : Cultural History of Russia. (3:3:1)
   PREREQUISITE: Russ 202 or foreign residence experience.
   NOTE: Nonmajors not required to take Russ 311 but are welcome if concurrently enrolled in Russ 330. Required course for obtaining language credit by examination (Russ 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement. Includes International Cinema.

   RUSS 340 : Masterpieces of the Russian Novel in English. (3:3:0)
   DESCRIPTION: Survey of Russian novels by such authors as Pushkin, Tolstoy, Dostoevsky, and Pasternak.

   RUSS 421 : Fourth-Year Russian, Part 1. (3:3:0)
   PREREQUISITE: Russ 321, 322, 330.
   DESCRIPTION: Contemporary language and culture.

RUSS 422 : Fourth-Year Russian, Part 2. (3:3:0)
PREREQUISITE: Russ 321, 322, 330.
DESCRIPTION: The structure of Russian.

RUSS 441 : Masterpieces of Russian Literature 1. (3:3:0)
PREREQUISITE: Russ 321, 322; 340 or 341 and 342.
DESCRIPTION: Survey of shorter masterpieces in Russian.

RUSS 442 : Masterpieces of Russian Literature 2. (3:3:0)
PREREQUISITE: Russ 321, 322; 340 or 341 and 342.
DESCRIPTION: Survey of shorter masterpieces in Russian.

RUSS 492R : Senior Seminar: Passages and Conclusions. (2:2:0)
PREREQUISITE: Russ 441 or 442.
DESCRIPTION: In-depth study of a limited area of literature or language. Content varies; requires research and writing.

3. Complete one course from the following:
RUSS 341 : Dostoevsky's Major Works in Translation. (3:3:0)
DESCRIPTION: Survey of Dostoevsky's major works in English translation.

RUSS 342 : Tolstoy's Major Works in Translation. (3:3:0)
DESCRIPTION: Survey of Tolstoy's major works in English translation.

RUSS 343 : Masterpieces of Russian Film. (2:2:1.5)
PREREQUISITE: Russ 330.
DESCRIPTION: Developing listening comprehension and speaking skills through discussing Russian films. Includes International Cinema.

4. Complete a substantial program of study that complements the student's educational and professional goals. This program should be described and justified in a letter to the Russian section leader, and approved by the section, no later than the year before graduation.

Note: In addition to completing other Russian course work, it is expected that majors who have not spent an extended period in Russia will live for at least a semester in the Russian Student Foreign Language Residence *and* complete the BYU or approved equivalent Study Abroad program in Russia.

*Hours include courses that may fulfill university core requirements.

Admission to Degree Program

All degree programs in the Department of Health Science are open enrollment. In addition, special limitations apply for teaching majors.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BS in Public Health
BS in School Health Education

Minors

Driver Safety Education
Health Education

Students should see their college advisement center for help or information concerning the undergraduate programs.

BS in Public Health (55–60 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Public health professionals work to create conditions that ensure the health and safety of individuals, families, and communities. Public health students are trained to inform, educate, and empower people about health issues; mobilize communities to take ownership for their own health; monitor health status and diagnose and investigate health problems and health hazards; develop policies and laws to protect health and ensure safety; and link people to needed health services. The public health mission is carried out through organized, interdisciplinary efforts that address the physical, mental, and environmental health concerns of communities and populations at risk for disease and injury.

Four of several disciplines within public health are represented as tracks within the major: (1) environmental/occupational health identifies and controls factors in the environment (air, water, food, toxins, etc.) or conditions at the workplace which affect health; (2) epidemiology investigates and discovers what causes disease and disability and how diseases are spread or distributed across populations; (3) health promotion facilitates behavior change among individuals and improves population health through policy, advocacy, education, and communication; and (4) health science trains students interested in working in public health after earning an advanced degree in a medical, dental, or other allied health area.

Career Opportunities

There has never been a better time to pursue a career in public health. It is an exciting and growing field of study and a diverse and dynamic profession. It is filled with rewards associated with the pursuit of serving others. The development and delivery of population-based prevention programs will be the key to major advances in health improvement in the 21st century. Public health will continue to be called upon to monitor and assess health problems, prevent and control diseases and injuries, and protect the health of communities and worksites from various environmental and occupational risks associated with man-made and natural disasters and emergencies.

Public health graduates are qualified to work in governmental health agencies on the local, state, federal, and international levels. Private-sector employment can be found in a variety of businesses, community health agencies, managed care organizations, hospitals, clinics, research institutes, voluntary health agencies, and non-governmental organizations. Opportunities for employment in public health are readily available. But recruiters will not typically come to campus to hire graduates. This means graduates must be organized and proactive in their career planning. Students can increase the likelihood of obtaining a position by balancing classroom activities with voluntary or paid service to public health agencies. Obtaining certifications related to specific tracks within the major and careful development of a professional portfolio enhance employment opportunities.

While there are many specialties or disciplines in public health, most career opportunities are found in the tracks associated with the major. Entry-level salaries with a bachelor's degree in public health will range from approximately $35,000–$60,000 but will vary significantly depending upon the specific discipline, type of organization, and geographic location.

Program Requirements

1. Complete the following department courses:

HLTH 100 : Introduction to Public Health. (1:1:0)
OFFERED: F, W, Sp
DESCRIPTION: Introduction to public health professions including exploration of current issues, job opportunities, the essential public health services, and an overview of the public health major.

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 205.
DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

HLTH 311 : Infectious Diseases: Prevention and Control. (3:3:0)

OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 205.
DESCRIPTION: Human infectious disease risk factors; bacterial, viral, and parasitic agents; pathology, diagnosis, treatment, prevention, and control; communicable, vector-borne, zoonotic, and bioterror diseases of public health.

HLTH 322 : Environmental Health. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

HLTH 345 : Principles of Epidemiology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Stat 221.
DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

2. Complete one of the following tracks:

a. *Environmental/Occupational Health Track* | View MAP

1. Complete the following:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energectics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

HLTH 422 : Disaster Response and Emergency Preparedness. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 311, 420.
DESCRIPTION: Key elements of public health preparedness and response to the variety of natural, technological, and man-made disasters occurring routinely on a global basis.

HLTH 424 : Occupational Health and Safety. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 420.
DESCRIPTION: In-depth focus on workplace health and safety through a multidisciplinary approach to the anticipation, recognition, evaluation, and prevention and control of workplace-related illnesses and injuries.

MATH 110 : College Algebra. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, determinants, systems of linear equations, permutations, combinations, binomial theorem.

MMBIO 221 : General Microbiology. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Any chemistry course and any biology course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes, and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: MMBio 221 or concurrent enrollment.

2. Complete 15 hours from the following:

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)
OFFERED: F, Sp
PREREQUISITE: Chem 106 or equivalent.
DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.
NOTE: Primarily for majors in molecular biology and the life sciences.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

CH EN 411 : Air Pollution Control. (3:3:0)
OFFERED: W alternate years
PREREQUISITE: Ch En 273 or instructor's consent.
DESCRIPTION: Causes and effects of air pollution; standards, criteria, and legislation; dispersion, meteorology, and atmospheric chemistry. Includes design project and use of impact statements.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

GEOG 303 : Biogeography. (3:3:0)
OFFERED: F
PREREQUISITE: Geog 101 or instructor's consent.
DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

HLTH 496R : Academic Internship. (.5-9:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Hlth 451, 457, 482, 485.
DESCRIPTION: On-the-job experience.

MMBIO 361 : Infection and Immunity. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105; PDBio 120 or MMBio 221 or equivalent.
DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

MMBIO 417 : Medical Parasitology. (3:2:3)
OFFERED: F, W

PREREQUISITE: Bio 100 or equivalent.
DESCRIPTION: Pathogenesis, diagnosis, and epidemiology of human parasitic diseases. Laboratory included.

MMBIO 465 : Virology. (3:3:0)
OFFERED: F, W
PREREQUISITE: MMBio 361 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

NDFS 361 : Food Microbiology. (3:2:3)
OFFERED: F
PREREQUISITE: MMBio 221, 222; or equivalents.
DESCRIPTION: Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

Prerequisite: Chem 101 or equivalent.
PWS 150 : Environmental Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

b. *Epidemiology Track* | View MAP

1. Complete the following:

HLTH 439 : Program Planning and Evaluation. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 322, 437, 438.
DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

HLTH 440 : Computer Applications in Epidemiology. (3:3:0)
OFFERED: F, W, Sp, even years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Introduction to the basics of SAS and EXCEL focusing on the set of commands useful for data-reporting, data-management, formatting and graphics, and data-analysis. Topics include tables and regression models for epidemiologists (cumulative-incidence, case-control, and incidence rate data).

HLTH 441 : Clinical Trials. (3:3:0)
OFFERED: F, W, Sp, even years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Introduction to methods used in the design, interim monitoring, and analysis of clinical trials, including the impact of patient exclusions and other causes of incomplete data. Concepts and principles emphasized. Main focus on randomized Phase III (comparative) trials.

HLTH 442 : Special Topics in Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Topics include environmental epidemiology, statistical methods in epidemiology, social epidemiology, genetic epidemiology, categorical data analysis, applied longitudinal analysis, survival analysis, and life table methods.

HLTH 443 : Field Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.

PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Applying epidemiologic methods, including outbreak investigation; surveillance systems and methods; and infectious disease epidemiology to unexpected health problems when a rapid on-site investigation is necessary for timely intervention.

PDBIO 205 : Human Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Body systems and influence of heredity.
NOTE: For nonbiology majors.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

2. Complete one of the following courses:
MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

MATH 119 : Introduction to Calculus. (4:4:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.
NOTE: For students in the College of Life Sciences and the Marriott School of Management.

3. Complete 14 hours from the following:
C S 100 : Fundamentals of Computing and Information. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Computing, information structures, programming principles, Internet, World Wide Web, text, spreadsheets, data representations for images, sound and video.
NOTE: For nonmajors.

C S 142 : Introduction to Computer Programming. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Knowledge of algebra.
DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

HLTH 424 : Occupational Health and Safety. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 420.
DESCRIPTION: In-depth focus on workplace health and safety through a multidisciplinary approach to the anticipation, recognition, evaluation, and prevention and control of workplace-related illnesses and injuries.

HLTH 480 : International Health. (3:3:0)
OFFERED: F, W
DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

HLTH 491R : Mentored Research. (1-3:Arr.:0)
DESCRIPTION: Collaborate with professors on mentoring grants or other public health-related research

and initiatives.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PDBIO 365 : Pathophysiology. (4:4:0)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 305 or 362.
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

SOC 300 : Methods of Research in Sociology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Soc 111 or 112 or instructor's consent.
DESCRIPTION: Tools of social research; survey, experimentation, content analysis, secondary analysis, qualitative research, evaluation research, data processing and analysis, and report writing.

STAT 224 : Statistical Computing 1. (2:2:2)
OFFERED: F 2nd block; W 2nd block.
PREREQUISITE: Stat 124.
DESCRIPTION: Statistical programming using the data step in SAS; basic Procs; Proc MEAN, SORT, TABULATE, SQL, and REPORT; ODS; simple MACROS.

STAT 334 : Methods of Survey Sampling. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 221 or equivalent.
DESCRIPTION: Sampling frames, questionnaire design; simple random, systematic, stratified, and cluster sampling methods, comparing domain means, contingency table analysis.

STAT 336 : Statistical Methods 1. (6:3:3)
OFFERED: F, W
PREREQUISITE: Stat 221, Math 113.
DESCRIPTION: Estimation and hypothesis testing, simple linear regression, multiple regression, subset selection procedures; residual, influence, and collinearity diagnostics.

STAT 337 : Statistical Methods 2. (3:3:0)
OFFERED: W, Sp
PREREQUISITE: Stat 336.
DESCRIPTION: Single-factor analysis of variance; multifactor analysis of variance; analysis of factor-level means; diagnostics; analysis of covariance; basic study design; random effects.

STAT 424 : Statistical Computing 2. (3:3:2)
OFFERED: F
PREREQUISITE: Stat 324.
DESCRIPTION: S Plus, statistical graphics, simulation, advanced SAS (macros, Proc IML, and Proc SQL), and database programming.

Note 1: Prerequisites for PDBio 362:

MMBIO 240 : Molecular Biology. (3:3:1)

OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PHSCS 106 : Introductory Applied Physics. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

Or
PHSCS 220 : Principles of Physics 3. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Phscs 121 or equivalent; Math 113 or equivalent.
DESCRIPTION: Electricity and magnetism. Weekly lab.

Note 2: Prerequisites for PDBio 365:

PDBIO 305 : Human Physiology (with lab). (4:4:2)
OFFERED: F, W, Sp
PREREQUISITE: Chem 101 or equivalent.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

Or:
PDBIO 362 : Advanced Physiology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Biol 240; Phscs 106 or 220.
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

Note 3: Prerequisites for PWS 340:

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

c. *Health Promotion Track* | View MAP

1. Complete the following courses:

HLTH 332 : Technology in Health Promotion. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Application of computer software and electronic communication technologies in health promotion.

HLTH 335 : Health Behavior Change. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

HLTH 437 : Methods in Health Promotion. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332.
DESCRIPTION: Health promotion methods, interventions, and strategies that influence behaviors and advance public health practices within communities.

HLTH 438 : Social Marketing. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332, 437.
DESCRIPTION: Social marketing, including formative research, audience analysis, segmentation, marketing mix, strategies, pretesting; application to health promotion and public health.

HLTH 439 : Program Planning and Evaluation. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 322, 437, 438.
DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

HLTH 496R : Academic Internship. (.5-9:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Hlth 451, 457, 482, 485.
DESCRIPTION: On-the-job experience.

(6 hours required)
HLTH 498 : Career Preparation in Health Promotion. (2:2:0)
OFFERED: F, W
PREREQUISITE: Hlth 330, 332, 335, 437, 438, 439.
DESCRIPTION: Preparation for employment in health promotion within public health settings, graduate school, and the certified health education specialist exam.
NOTE: For senior-level public health education majors within six-months of graduation.

2. Complete 16 hours from the following (a minimum of six hours must be taken from departmental courses):

BUS M 340 : Marketing Management. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Emphasizes marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.
NOTE: For nonmanagement majors.

COMMS 235 : Introduction to Public Relations. (3:3:0)
DESCRIPTION: Philosophy and practice of public relations in business, government, education, and other institutions. Study of publics, media, methods, press relations, and publicity.

EXSC 387 : Lifestyle and Chronic Disease Prevention. (3:3:0)
OFFERED: F, W
DESCRIPTION: Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e. cardiovascular disease, cancer, and diabetes.

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)
OFFERED: F, W; Sp on demand.
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

HLTH 370 : Consumer Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Current consumer health issues; selecting proper health products, services, and information; sources of consumer health protection.

HLTH 383 : Mind/Body Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Theories and research on the effect of emotions and attitudes on health: how negative emotions increase disease susceptibility and positive emotions encourage immune strength, health, and healing.

HLTH 403R : Health Problems Workshop. (.5-5:ARR:ARR)

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

HLTH 422 : Disaster Response and Emergency Preparedness. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 311, 420.
DESCRIPTION: Key elements of public health preparedness and response to the variety of natural, technological, and man-made disasters occurring routinely on a global basis.

HLTH 443 : Field Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Applying epidemiologic methods, including outbreak investigation; surveillance systems and methods; and infectious disease epidemiology to unexpected health problems when a rapid on-site investigation is necessary for timely intervention.

HLTH 450 : Women's Health Issues. (3:3:0)
OFFERED: F, W
DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

HLTH 466 : Health and the Aging Process. (2:2:1)
OFFERED: F, W, Su
DESCRIPTION: Theories of aging as a normal process, as a pathological process; health promotion and extension of life.

HLTH 480 : International Health. (3:3:0)
OFFERED: F, W
DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

HLTH 491R : Mentored Research. (1-3:Arr.:0)
DESCRIPTION: Collaborate with professors on mentoring grants or other public health-related research and initiatives.

(Up to three hours)
NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

NDFS 201 : Nutrition and Prevention of Chronic Disease. (2:2:0)
OFFERED: W
PREREQUISITE: NDFS 100.
DESCRIPTION: Role of dietary choices in preventing or ameliorating chronic diseases. Examples of dietary interventions.

SOC 113 : Multicultural America. (3:3:0)
OFFERED: F, W
DESCRIPTION: Diverse cultural heritages in the United States. Cultures studied scientifically will include African American, Hispanic, Asian American, and Native American.

Note: Prerequisite for NDFS 201:

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

d. *Health Science Track* | View MAP

1. Complete one of the following courses:

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

HLTH 422 : Disaster Response and Emergency Preparedness. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 311, 420.
DESCRIPTION: Key elements of public health preparedness and response to the variety of natural, technological, and man-made disasters occurring routinely on a global basis.

HLTH 424 : Occupational Health and Safety. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 420.
DESCRIPTION: In-depth focus on workplace health and safety through a multidisciplinary approach to the anticipation, recognition, evaluation, and prevention and control of workplace-related illnesses and injuries.

2. Complete one of the following courses:

HLTH 440 : Computer Applications in Epidemiology. (3:3:0)
OFFERED: F, W, Sp, even years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Introduction to the basics of SAS and EXCEL focusing on the set of commands useful for data-reporting, data-management, formatting and graphics, and data-analysis. Topics include tables and regression models for epidemiologists (cumulative-incidence, case-control, and incidence rate data).

HLTH 441 : Clinical Trials. (3:3:0)
OFFERED: F, W, Sp, even years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Introduction to methods used in the design, interim monitoring, and analysis of clinical trials, including the impact of patient exclusions and other causes of incomplete data. Concepts and principles emphasized. Main focus on randomized Phase III (comparative) trials.

HLTH 442 : Special Topics in Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Topics include environmental epidemiology, statistical methods in epidemiology, social epidemiology, genetic epidemiology, categorical data analysis, applied longitudinal analysis, survival analysis, and life table methods.

HLTH 443 : Field Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Applying epidemiologic methods, including outbreak investigation; surveillance systems and methods; and infectious disease epidemiology to unexpected health problems when a rapid on-site investigation is necessary for timely intervention.

3. Complete one of the following courses:

HLTH 335 : Health Behavior Change. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

HLTH 437 : Methods in Health Promotion. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332.
DESCRIPTION: Health promotion methods, interventions, and strategies that influence behaviors and advance public health practices within communities.

HLTH 438 : Social Marketing. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332, 437.
DESCRIPTION: Social marketing, including formative research, audience analysis, segmentation, marketing mix, strategies, pretesting; application to health promotion and public health.

HLTH 439 : Program Planning and Evaluation. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 322, 437, 438.
DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

4. Complete the following courses:

CHEM 105 : General College Chemistry. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

CHEM 106 : General College Chemistry. (3:4:0)
OFFERED: F, W, Su
PREREQUISITE: Chem 105 or equivalent.
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 106 or concurrent enrollment.
DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.
NOTE: Required for most students needing one year of general chemistry.

CHEM 351 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: Chem 105, 111; or equivalents.
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

CHEM 352 : Organic Chemistry. (3:3:1)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 351 or equivalent.
DESCRIPTION: Continuation of Chem 351.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)
OFFERED: F, W, Sp, Su
PREREQUISITE: Chem 352 or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

MMBIO 240 : Molecular Biology. (3:3:1)
OFFERED: F, W, Sp
PREREQUISITE: PDBio 120, Chem 105.
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

PDBIO 120 : Science of Biology. (2:2:1)
OFFERED: F, W, Sp, Su; Honors also.
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the Central Dogma, bioenergetics, reproduction, and evolutionary theory.

PWS 340 : Genetics. (2:2:1)
OFFERED: F, W, Su
PREREQUISITE: MMBio 240.
DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

Note: Chemistry 111, 112, and 113 (as a block of classes) may substitute for Chem 105, 106, and 107.

5. Complete one of the following options:

Either

PDBIO 305 : Human Physiology (with lab). (4:4:2)
- OFFERED: F, W, Sp
- PREREQUISITE: Chem 101 or equivalent.
- RECOMMENDED: A general biology course.
- DESCRIPTION: Function of body organ systems.
- NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

Or

PDBIO 362 : Advanced Physiology. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Biol 240; Phscs 106 or 220.
- DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
- NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

PDBIO 363 : Advanced Physiology Laboratory. (1:0.5:1.5)
- OFFERED: F, W, Sp
- PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
- DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

6. Complete one of the following courses:

PHSCS 105 : Introductory Applied Physics. (3:3:0)
- OFFERED: F, W, Sp
- PREREQUISITE: High school algebra and trigonometry.
- RECOMMENDED: Concurrent enrollment in Phscs 107.
- DESCRIPTION: Applied physics course not requiring calculus. Topics include mechanics, heat, wave motion, sound.

PHSCS 121 : Principles of Physics 1. (3:3:1)
- OFFERED: F, W, Sp
- PREREQUISITE: Calculus or concurrent enrollment.
- DESCRIPTION: Newtonian mechanics. Weekly lab.

7. Complete the following:

PHSCS 106 : Introductory Applied Physics. (3:3:0)
- OFFERED: F, W, Su
- PREREQUISITE: Phscs 105 or equivalent.
- RECOMMENDED: Concurrent enrollment in Phscs 108.
- DESCRIPTION: Continuation of Phscs 105. Topics include electricity and magnetism, atomic and nuclear physics, and optics.

PHSCS 107 : Introductory Applied Physics Laboratory. (1:0:3)
- OFFERED: F, W, Sp
- PREREQUISITE: Phscs 105 or concurrent enrollment.

PHSCS 108 : Introductory Applied Physics Laboratory. (1:0:3)
- OFFERED: F, W, Su
- PREREQUISITE: Phscs 106 or concurrent enrollment.

Note: Phscs 106 should be taken before or concurrently with Phscs 108.

Recommended GE Courses:

ENGL 315 : Writing in the Social Sciences. (3:3:0)

OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Writing characteristic of disciplines that inquire into human behavior and institutions; correspondence, proposals, library paper, empirical research, and reviews.
NOTE: Carries GE Advanced Written and Oral Communication credit.

Or
ENGL 316 : Technical Communication. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Engl 150 or equivalent; junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

STAT 221 : Principles of Statistics. (3:3:2)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
NOTE: Honors and Independent Study also.

*Hours include courses that may fulfill university core requirements.

BS in School Health Education (75–80 hours, including licensure hours

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

The health teaching major prepares students to become health educators in secondary schools. Curriculum development, instructional methods, acquisition and evaluation of resources, and assessment are among the skills required. Health educators teach decision making and effective communication, addressing such areas of concern as substance abuse and addictive behaviors, human sexuality, chronic disease, nutrition, consumer advocacy, emergency care, and injury prevention.

Adolescence is a time where habits are being established and attitudes are being formed that will influence people the rest of their lives. The health educator plays an important role in teaching knowledge and skills that will enable young people to cope and to flourish in healthy ways in an ever-changing society.

Career Opportunities

Graduates seek careers teaching health in the secondary schools in combination with a chosen minor. With an advanced degree, career teaching positions at institutions of higher learning become available.

Program Requirements | View MAP

1. An approved teaching minor must be completed (approximately 16-21 hours).
2. Complete the following:

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 205.
DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

HLTH 320 : Advanced First Aid and Safety. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

HLTH 370 : Consumer Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Current consumer health issues; selecting proper health products, services, and information; sources of consumer health protection.

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

HLTH 436 : Sexuality Education in the Curriculum. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Preparing prospective teachers to teach sexuality education related to health curricula. Maturation,

family health issues, parenthood, interpersonal skills, and related pedagogy issues.

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

3. Complete six hours from the following:
HLTH 311 : Infectious Diseases: Prevention and Control. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: PDBio 205.
DESCRIPTION: Human infectious disease risk factors; bacterial, viral, and parasitic agents; pathology, diagnosis, treatment, prevention, and control; communicable, vector-borne, zoonotic, and bioterror diseases of public health.

HLTH 322 : Environmental Health. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

HLTH 335 : Health Behavior Change. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

HLTH 383 : Mind/Body Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Theories and research on the effect of emotions and attitudes on health: how negative emotions increase disease susceptibility and positive emotions encourage immune strength, health, and healing.

HLTH 450 : Women's Health Issues. (3:3:0)
OFFERED: F, W
DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

HLTH 466 : Health and the Aging Process. (2:2:1)
OFFERED: F, W, Su
DESCRIPTION: Theories of aging as a normal process, as a pathological process; health promotion and extension of life.

HLTH 480 : International Health. (3:3:0)
OFFERED: F, W
DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

PDBIO 205 : Human Biology. (3:3:0)
OFFERED: F, W
DESCRIPTION: Body systems and influence of heredity.
NOTE: For nonbiology majors.

4. Complete the Professional Education Component:
   a. Complete the following:
      CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
      OFFERED: F, W, Sp
      PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
      DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

      HLTH 276R : Exploration of Teaching. (3:ARR:ARR)
      OFFERED: F, W

PREREQUISITE: Major area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

HLTH 381 : Health Education Teaching Methods. (3:3:0)
OFFERED: F, W
PREREQUISITE: Hlth 200, 276R; fingerprinting and FBI clearance.
DESCRIPTION: Teacher and student activities required for conceptual learning in health science.

HLTH 421 : Secondary Health Education Curriculum and Practicum. (4:3:ARR)
OFFERED: F, W
PREREQUISITE: Hlth 200, 276R, 381.
DESCRIPTION: Implementing meaningful, engaging instruction for secondary students in health education; program planning and evaluation; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance. Practicum required.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

Note 1: Hlth 276R and 330 are prerequisite to Hlth 381, 421.

Note 2: Fingerprinting and FBI clearance must be completed prior to enrolling in Hlth 381 and 421.

b. Complete 12 hours of one of the following:
SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.
: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)

OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

Minor in Driver Safety Education (16 hours)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. Complete the following:

HLTH 444 : Organization and Administration of Driver and Traffic Safety Education. (2:2:0)
OFFERED: F
DESCRIPTION: Organization, administration, and supervision of high school driver education programs.

HLTH 445 : Driver and Traffic Safety Education. (4:2:4)
OFFERED: W, Su
PREREQUISITE: Hlth 444.
DESCRIPTION: Prepares teachers to instruct classroom and behind-the-wheel phases of driver education.

HLTH 446 : Driver Simulators and Driving Ranges. (2:2:1)
OFFERED: W, Su
DESCRIPTION: Simulator and multiple-car driving range methodology, emphasizing operation and maintenance.

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

2. Complete five hours from the following:

HLTH 320 : Advanced First Aid and Safety. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

HLTH 402R : Driver and Safety Education Workshop. (.5-7:0:2)
DESCRIPTION: Current safety education problems.
NOTE: Independent Study also.

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

3. Students majoring in health sciences may not double-count hours in the driver education minor.

OFFERED: F, W, Su
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

HLTH 322 : Environmental Health. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

HLTH 332 : Technology in Health Promotion. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Application of computer software and electronic communication technologies in health promotion.

HLTH 335 : Health Behavior Change. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

HLTH 345 : Principles of Epidemiology. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Stat 221.
DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

HLTH 361 : School Health for Elementary Teachers. (2:2:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Preparing for the role as a health educator, emphasizing skill-based teaching methods and acquisition of teaching resources.

HLTH 370 : Consumer Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Current consumer health issues; selecting proper health products, services, and information; sources of consumer health protection.

HLTH 381 : Health Education Teaching Methods. (3:3:0)
OFFERED: F, W
PREREQUISITE: Hlth 200, 276R; fingerprinting and FBI clearance.
DESCRIPTION: Teacher and student activities required for conceptual learning in health science.

HLTH 383 : Mind/Body Health. (2:2:0)
OFFERED: F, W, Sp
DESCRIPTION: Theories and research on the effect of emotions and attitudes on health: how negative emotions increase disease susceptibility and positive emotions encourage immune strength, health, and healing.

400-Level Courses

HLTH 402R : Driver and Safety Education Workshop. (.5-7:0:2)
DESCRIPTION: Current safety education problems.
NOTE: Independent Study also.

HLTH 403R : Health Problems Workshop. (.5-5:ARR:ARR)

HLTH 420 : Injury and Violence Prevention. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

HLTH 421 : Secondary Health Education Curriculum and Practicum. (4:3:ARR)
OFFERED: F, W
PREREQUISITE: Hlth 200, 276R, 381.
DESCRIPTION: Implementing meaningful, engaging instruction for secondary students in health education; program planning and evaluation; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance. Practicum required.

HLTH 422 : Disaster Response and Emergency Preparedness. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 311, 420.
DESCRIPTION: Key elements of public health preparedness and response to the variety of natural, technological, and man-made disasters occurring routinely on a global basis.

HLTH 424 : Occupational Health and Safety. (3:3:0)
OFFERED: F, W, Su
PREREQUISITE: Hlth 420.
DESCRIPTION: In-depth focus on workplace health and safety through a multidisciplinary approach to the anticipation, recognition, evaluation, and prevention and control of workplace-related illnesses and injuries.

HLTH 436 : Sexuality Education in the Curriculum. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Preparing prospective teachers to teach sexuality education related to health curricula. Maturation, family health issues, parenthood, interpersonal skills, and related pedagogy issues.

HLTH 437 : Methods in Health Promotion. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332.
DESCRIPTION: Health promotion methods, interventions, and strategies that influence behaviors and advance public health practices within communities.

HLTH 438 : Social Marketing. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 332, 437.
DESCRIPTION: Social marketing, including formative research, audience analysis, segmentation, marketing mix, strategies, pretesting; application to health promotion and public health.

HLTH 439 : Program Planning and Evaluation. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hlth 330, 322, 437, 438.
DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

HLTH 440 : Computer Applications in Epidemiology. (3:3:0)
OFFERED: F, W, Sp, even years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Introduction to the basics of SAS and EXCEL focusing on the set of commands useful for data-reporting, data-management, formatting and graphics, and data-analysis. Topics include tables and regression models for epidemiologists (cumulative-incidence, case-control, and incidence rate data).

HLTH 441 : Clinical Trials. (3:3:0)
OFFERED: F, W, Sp, even years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Introduction to methods used in the design, interim monitoring, and analysis of clinical trials, including the impact of patient exclusions and other causes of incomplete data. Concepts and principles emphasized. Main focus on randomized Phase III (comparative) trials.

HLTH 442 : Special Topics in Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.
PREREQUISITE: Hlth 345, Stat 221.

HLTH 443 : Field Epidemiology. (3:3:0)
OFFERED: F, W, Sp, odd years.
PREREQUISITE: Hlth 345, Stat 221.
DESCRIPTION: Applying epidemiologic methods, including outbreak investigation; surveillance systems and methods; and infectious disease epidemiology to unexpected health problems when a rapid on-site investigation is necessary for timely intervention.

HLTH 444 : Organization and Administration of Driver and Traffic Safety Education. (2:2:0)
OFFERED: F
DESCRIPTION: Organization, administration, and supervision of high school driver education programs.

HLTH 445 : Driver and Traffic Safety Education. (4:2:4)
OFFERED: W, Su
PREREQUISITE: Hlth 444.
DESCRIPTION: Prepares teachers to instruct classroom and behind-the-wheel phases of driver education.

HLTH 446 : Driver Simulators and Driving Ranges. (2:2:1)
OFFERED: W, Su
DESCRIPTION: Simulator and multiple-car driving range methodology, emphasizing operation and maintenance.

HLTH 450 : Women's Health Issues. (3:3:0)
OFFERED: F, W
DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)
OFFERED: F, W, Su
DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

HLTH 466 : Health and the Aging Process. (2:2:1)
OFFERED: F, W, Su
DESCRIPTION: Theories of aging as a normal process, as a pathological process; health promotion and extension of life.

HLTH 480 : International Health. (3:3:0)
OFFERED: F, W
DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

HLTH 490 : Current Issues in Public Health Education. (2:2.0:0.0)
OFFERED: F
PREREQUISITE: Health science major; junior or senior status.
DESCRIPTION: Contemporary research, literature, and views as applied to public and international health.

HLTH 491R : Mentored Research. (1-3:Arr.:0)
DESCRIPTION: Collaborate with professors on mentoring grants or other public health-related research and initiatives.

HLTH 496R : Academic Internship. (.5-9:ARR:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Hlth 451, 457, 482, 485.
DESCRIPTION: On-the-job experience.

HLTH 498 : Career Preparation in Health Promotion. (2:2:0)
OFFERED: F, W
PREREQUISITE: Hlth 330, 332, 335, 437, 438, 439.
DESCRIPTION: Preparation for employment in health promotion within public health settings, graduate school, and the certified health education specialist exam.
NOTE: For senior-level public health education majors within six-months of graduation.

Graduate Courses

For 600- and 700-level courses, see the BYU 2008–2009 Graduate Catalog.

Health Science Faculty

Professors

Barnes, Michael D.

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: AS, Ricks College, 1986
BS, Brigham Young University, 1989
MS, Brigham Young University, 1990
PhD, Southern Illinois University, Carbondale, 1993

Cole, Eugene Charles

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BA, Adelphi University, 1968
MSPH, University of North Carolina, 1979
DRPH, University of North Carolina, 1983

Hawks, Steven Ralph

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BA, Brigham Young University, 1982
MA, Brigham Young University, 1985
MBA, Brigham Young University, 1985
EdD, Brigham Young University, 1990

Heiner, Steven W

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BS, University of Utah, 1955
MS, University of Utah, 1962
EdD, University of Utah, 1969

Karren, Keith J

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1969
MS, Brigham Young University, 1970
PhD, Oregon State University, 1975

Lindsay, Gordon B

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1977
MS, University of Utah, 1980
PhD, Ohio State University, 1984

Merrill, Ray Martell

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BA, Brigham Young University, 1986
MS, Brigham Young University, 1989
PhD, Arizona State University, 1994
MPH, Harvard University, 1995

Neiger, Brad Lee

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1983
MS, Brigham Young University, 1984
PhD, University of Utah, 1991

Page, Randy M

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: PhD, Southern Illinois University, 1982

Thygerson, Alton Luie

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Professor
DEGREES: BS, Brigham Young University, 1962
MHEd, Brigham Young University, 1965
EdD, Brigham Young University, 1969

Associate Professors

Dearden, Kirk A

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Associate Professor
DEGREES: BA, Boston University, 1987
MPH, University of Alabama, Birmingham, 1988
DrPH, University of Alabama, Birmingham, 1990

Novilla, Maria Lelinneth Lagman Beloy

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Associate Professor
DEGREES: BS, University of the Philippines, 1986
MD, University of the City of Manila, College of Medicine, 1991
MPH, University of Utah, 1999

Assistant Professors

Coon, Paul Erven

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Assistant Professor
DEGREES: BS, Brigham Young University, 1968
MS, Brigham Young University, 1972

Hill, Susan Christine

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Assistant Professor
DEGREES: AA, Treasure Valley Community College, 1982
BS, Eastern Oregon University, 1985
BS, Eastern Oregon University, 1986
MS, Brigham Young University, 1992
PhD, Southern Illinois University, 1997

Thackeray, Rosemary

COLLEGE: Health and Human Performance
DEPARTMENT: Health Science
RANK: Assistant Professor
DEGREES: BS, Utah State University, 1991
MPH, University of Utah, 1996
PhD, University of Utah, 2000

History

Shawn W. Miller, Chair
2130 JFSB, (801) 422-3425

College of Family, Home, and Social Sciences Advisement Center
151 SWKT, (801) 422-3541

Admission to Degree Program

All degree programs in the Department of History are open enrollment. However, special limitations apply for teaching majors.

The Discipline

History stands at the heart of a liberal arts bridge between the humanities and social sciences. Historical understanding is thus basic to the life of an educated human being. As such, it is the ideal major for the student who wants the broad educational background for entrance into professions such as law, government service, or business, or who wants a liberal arts education. History can also be valuable training for someone who plans to teach.

Career Opportunities

In recognition of the broad range of uses to which historical education can be put, the field of public history has emerged in recent years. Today people whom others would consider bankers, lawyers, corporate executives, or public servants view themselves as historians—public historians. They are the people with analytical skills provided by their historical education who work outside the university but who consider themselves historians by virtue of the value of the training they have received. A significant percentage of the jobs listed by firms and agencies with BYU's Employment Office specify no major. Many of these will be taken by public historians anxious to serve their employers with the valuable skills learned in their history major.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors
- BA in Family History-Genealogy
- BA in History
- BA in History Teaching

Minors
- Family History-Genealogy
- History
- History Teaching
- Native American Studies

Certificate
- Family History-Genealogy

Students should see their college advisement center for help or information concerning the undergraduate programs.

Program Requirements | View MAP

1. Complete one course from the following in fulfillment of the university core First-Year Writing requirement:
   ENGL 150 : Writing and Rhetoric. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
   NOTE: Fulfills General Education First-Year Writing requirement.

   HONRS 150 : Honors University Writing. (3:3:0)
   Honors University Writing.
   OFFERED: F, W, Sp, Su
   DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.
   PHIL 150 : Reasoning and Writing. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   RECOMMENDED: Recommended for philosophy majors and minors.
   DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
   NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

   Note: Waivers based on Advanced Placement (AP) or other test scores do not apply to this requirement. Students with AP credit for Engl 115 should take Engl 150, Honrs 150, or Phil 150.

2. Complete one course from the following in fulfillment of the university core Advanced Languages requirement:
   An approved culminating foreign language course.
   HONRS 250 : Math Modeling--Toward a Personal Understanding of the World. (3:3:0)
   Math Modeling--Toward a Personal Understanding of the World.
   DESCRIPTION: Developing skills in arriving at quantitative models for the world as we see it. Some math skills reviewed and some new ones introduced.
   PHIL 305 : Predicate Logic. (3:3:0)
   OFFERED: F, W, Sp on demand.
   PREREQUISITE: Phil 205.
   DESCRIPTION: History and use of predicate logic; evaluating arguments with counterexamples and proofs; informal mathematical proofs.
   NOTE: Fulfills GE Languages of Learning requirement.

   STAT 221 : Principles of Statistics. (3:3:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 or equivalent.
   DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   NOTE: Honors and Independent Study also.

   Note: These courses, and their prerequisites, impart linguistic or quantitative skills advantageous to historical research.

3. Complete one course from the following:
   HIST 220 : The United States Through 1877. (3:3:0)

OFFERED: F, W, Sp, Su; Independent study also.
DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

HIST 221 : The United States Since 1877. (3:3:0)
OFFERED: F, W, Sp, Su; Independent Study also.
DESCRIPTION: Industrialization, immigration, urbanization, political and social movements, and foreign policy.

4. Complete the following:

HIST 200 : The Historian's Craft. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: History within the broader framework of liberal education; nature of history; questions historians ask; skills and resources needed to study, understand, and write history.
NOTE: Required of all history majors.

HIST 400 : The Family and the Law in American History. (3:3:0)
OFFERED: F, W
DESCRIPTION: The interaction of families with law and government as illustrated in original American sources; individual family histories reconstructed in the broader perspective of history.

HIST 433 : Writing Family Histories. (3:3:0)
OFFERED: F; Independent Study also.
DESCRIPTION: Selecting themes and sources, and determining issues to be dealt with.

HIST 480 : Seminar on Professional Family History Research. (3:3:0)
OFFERED: F, W
DESCRIPTION: Practicum in professional client research, report-writing, family history publishing, bookkeeping procedures, and running a family history business.

HIST 490 : Capstone Research Seminar. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Hist 200.
DESCRIPTION: Research seminar; critical, analytical, and writing skills in preparation of a senior thesis.
NOTE: Required of all history majors.

REL C 261 : Introduction to Family History (Genealogy). (2:2:0)
Introduction to Family History (Genealogy).
OFFERED: F, W, Sp, Su
DESCRIPTION: Introduction to the doctrinal significance, necessary skills, and available resources dealing with family history and genealogy.
NOTE: Honors also.

REL C 293R : Specialized Studies in Family History (Genealogy). (1-2:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Rel C 261.
DESCRIPTION: Using documents from specific regional and organizational sources to identify ancestors and submit their names for temple ordinances.

: British Family History.
: Germanic/Slavic Family History.
: Hispanic Family History.
: LDS Family History.
: Native American Family History.
: Scandinavian Family History.
: Southern European Family History.
: United States and Canada Family History.

Note: For majors Hist 200 is considered a prerequisite for all 300- and 400-level courses. It must be completed no later than the sophomore year or in the first semester/term after the major is declared. Hist 200 and 490 combined satisfy the university core Advanced Written and Oral Communications requirement.

5. Complete two courses from the following:

HIST 401 : U.S. - New England Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in New England research.

HIST 402 : U.S. - Eastern States Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Eastern states research.

HIST 403 : U.S. - Midwest Family History Research. (3:3:0)

OFFERED: F
DESCRIPTION: In-depth examination of sources and problem solving in Midwestern states research.

HIST 404 : U.S. - Southern States Family History Research. (3:3:0)
OFFERED: F
DESCRIPTION: In-depth examination of sources and problem solving in Southern states research.

HIST 405 : U.S. - Native American Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Native American research.

HIST 406R : Canadian Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Canadian research.

HIST 408R : Scandinavian Family History. (3:3:0)
OFFERED: F, W
DESCRIPTION: In-depth examination of sources and problem solving in Scandinavia.

: Denmark.
: Norway & Iceland.
: Sweden & Finland.

HIST 409R : Germanic Family History Research. (3:3:0)
OFFERED: W
DESCRIPTION: In-depth examination of sources and problem solving in various Germanic-speaking countries.

HIST 410R : Southern European Family History. (3:3:0)
OFFERED: W
DESCRIPTION: Records, geo-historical background, paleography, and methods for reconstruction of individual families; development of demographic and family history studies in Portugal, Spain, France, and Italy.

HIST 411R : Latin American Family History Research. (3:3:0)
OFFERED: W
DESCRIPTION: Records, geo-historical background, paleography, and methods for reconstruction of individual families; development of demographic and family history studies in Latin America and Spanish United States.

HIST 412 : England/Wales Before 1700 Family History Research. (3:3:0)
OFFERED: W
DESCRIPTION: In-depth examination of sources and problem solving in England and Wales before 1700.

HIST 413 : England/Wales Since 1700 Family History Research. (3:3:0)
OFFERED: F
DESCRIPTION: In-depth examination of sources and problem solving in England and Wales since 1700.

HIST 414 : Scottish Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Scotland.

HIST 415 : Irish Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Ireland.

HIST 416 : Slavic Family History Research. (3:3:0)
OFFERED: W
DESCRIPTION: In-depth examination of sources and problem solving in various Slavic-speaking countries.

Note: It is recommended that students focus on one geographical area. Majors should consult with the family history coordinator soon after declaring.

6. Complete one course from the following:
HIST 420 : Latin Language Handwriting and Documents. (3:3:0)
OFFERED: F
DESCRIPTION: Interpretation of handwriting in Latin ecclesiastical and notarial documents useful in family history research, including parish or church registers, notarial settlements of states, probate records, and inventories; medieval to modern periods.

HIST 421 : England Language Handwriting and Documents. (3:3:0)
DESCRIPTION: Interpretation of handwriting in vernacular scripts in the British Isles, sixteenth through eighteenth centuries, in family history sources.

HIST 422 : Germanic Language Handwriting and Documents. (3:3:0)
OFFERED: F
DESCRIPTION: Interpretation of handwriting in vernacular scripts in the German kingdoms, sixteenth through eighteenth centuries, in family history sources.

HIST 423 : Slavic Language Handwriting and Documents. (3:3:0)
OFFERED: W
DESCRIPTION: Interpretation of handwriting in vernacular scripts in the Slavic language areas of Eastern Europe, sixteenth through eighteenth centuries, in family history sources.

HIST 424 : Romance Language Handwriting and Documents. (3:3:0)
DESCRIPTION: Interpretation of handwriting in vernacular scripts in the Romance languages of Europe (especially Spanish, French, and Italian), sixteenth through eighteenth centuries, in family history sources.

HIST 425 : Scandinavian Language Handwriting and Documents. (3:3:0)
OFFERED: W
DESCRIPTION: Interpretation of old Gothic script handwriting in Scandinavian areas of Europe (including Denmark, Norway, Sweden, Finland, and Iceland), sixteenth through eighteenth centuries, in family history sources.

7. Complete the following:
HIST 482 : Professional Paths and Credentials in Family History. (3:3:0)
OFFERED: F, W
DESCRIPTION: Directed research and instruction for completing the application/test for professional accreditation or certification in family history.

8. Complete a minimum of 3 hours of the following:
HIST 496R : Academic Internship: Family History. (.5-5:0:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Work with Department of History on various projects, under supervision of professional.

9. Complete one course from the following:
HIST 251 : Conquest and Colonization of Latin America. (3:3:0)
OFFERED: F
DESCRIPTION: Pre-Columbian civilizations, Iberian exploration and conquest of the New World, and colonial development of Hispanic and Portuguese America from 1492 to 1823.

HIST 319 : The Family in Europe. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Nature and development of marriage and family life and structure from the ancient to modern era.
NOTE: Independent Study also.

HIST 320 : Society in Europe. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Common life in Europe from 1500 to the present: family problems, social customs, marriage, superstition, death, diet, work, hardships, migration, and childhood.

HIST 357 : The Indian in Latin American History. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: History of Latin American Indians from preconquest days to the present; achievements, contributions, and problems.

HIST 377 : American Social History. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Methods and issues of social history; emphasizing gender, social class, race, and ethnicity.

HIST 378 : American Family History. (3:3:0)
DESCRIPTION: History of American families from colonial period to the present.

HIST 384 : United States Women's History. (3:3:0)
OFFERED: F
DESCRIPTION: Survey course of women's experience in American culture and society from the Puritans to the present.

HIST 387 : Twentieth-Century American Indian History. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Sociocultural factors that affect twentieth-century native Americans in both urban and reservation

settings, including current challenges facing Indian communities.

10. Complete one course from the following:

HIST 252 : Modern Latin America. (3:3:0)
OFFERED: F, W
DESCRIPTION: National period (1810 to present): independence, institutional development, culture, and inter-American relations.

HIST 306 : Nineteenth-Century Europe. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Political, economic, social, and intellectual history of Europe from 1815 to 1914.

HIST 322 : English History to 1689. (3:3:0)
OFFERED: F even years; Independent Study also.
DESCRIPTION: Political, social, and cultural developments from prehistoric times to the Glorious Revolution. Medieval, Tudor, and Stuart periods.

HIST 323 : English History Since 1689. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Emergence of Britain as a great colonial and industrial power, as well as more recent decline of Britain's influence. Emphasis also on cultural developments.

HIST 324 : France. (3:3:0)
OFFERED: W
DESCRIPTION: French history from Roman times to the present, emphasizing the French Revolution, Napoleon, and subsequent developments.

HIST 325 : Spain. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Political, social, and economic factors in Spanish history from Roman times to present. Emphasis on Reconquest, Golden Age, and Civil War.

HIST 328 : Modern Germany. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: Political, military, economic and cultural development of Germany during the nineteenth and twentieth centuries.

HIST 329 : Austrian Empire. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Historical survey (1526-1918) of area ruled by Hapsburg dynasty comprising lands and people of East-Central Europe.

HIST 330 : Tsarist Russia. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Major social, political, and economic developments of Russia from the founding of the Kievan state to the 1905 Revolution.

HIST 332 : Scandinavian History. (3:3:0)
OFFERED: W
DESCRIPTION: Political, social, religious, cultural, and economic factors in Denmark, Finland, Iceland, Norway, and Sweden from Viking era to present highly developed society.

HIST 355 : History of Argentina. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Rise of modern Argentina from colonial times, focusing on the dynamic political, economic, social, and cultural developments since independence.

HIST 356 : Brazil. (3:3:0)
OFFERED: W even years.
DESCRIPTION: From 1500 to present, emphasizing relationship between colonial patterns and twentieth-century reality and dilatory transformation of Brazil's political and economic culture.

11. Complete one additional course from section 5 or 6 above.

Recommended

HIST 201 : World Civilization to 1500. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also. Independent Study also.

DESCRIPTION: World civilization from Greek antiquity to Renaissance; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

HIST 202 : World Civilization from 1500. (3:3:0)
OFFERED: F, W, Sp, Su; Honors also.
PREREQUISITE: Hist 201.
DESCRIPTION: World civilization from Renaissance to present; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

Majors are strongly encouraged to minor in a field that further enhances their preparation for employment or graduate school. Consult with faculty.

*Hours include courses that may fulfill university core requirements.

Program Requirements | View MAP

1. At least 24 hours of history credit must be completed in residency at BYU's Provo campus. BYU Independent Study courses do not count toward residency.

2. Complete one of the following courses in fulfillment of the university core First-Year Writing requirement:
   ENGL 150 : Writing and Rhetoric. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   DESCRIPTION: Processes of writing, reading, and research with an emphasis on argumentation and rhetorical analysis.
   NOTE: Fulfills General Education First-Year Writing requirement.

   HONRS 150 : Honors University Writing. (3:3:0)
   Honors University Writing.
   OFFERED: F, W, Sp, Su
   DESCRIPTION: University writing and critical reading designed for those with AP English credit or those intending to graduate with University Honors.
   PHIL 150 : Reasoning and Writing. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   RECOMMENDED: Recommended for philosophy majors and minors.
   DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
   NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

   Note: Waivers based on Advanced Placement (AP) or other test scores do not apply to this requirement. Students with AP credit for Engl 115 should take Engl 150, Honrs 150, or Phil 150.

3. Complete one course from the following in fulfillment of the university core Advanced Languages requirement:
   An approved culminating foreign language course.
   HONRS 250 : Math Modeling--Toward a Personal Understanding of the World. (3:3:0)
   Math Modeling--Toward a Personal Understanding of the World.
   DESCRIPTION: Developing skills in arriving at quantitative models for the world as we see it. Some math skills reviewed and some new ones introduced.
   PHIL 305 : Predicate Logic. (3:3:0)
   OFFERED: F, W, Sp on demand.
   PREREQUISITE: Phil 205.
   DESCRIPTION: History and use of predicate logic; evaluating arguments with counterexamples and proofs; informal mathematical proofs.
   NOTE: Fulfills GE Languages of Learning requirement.

   STAT 221 : Principles of Statistics. (3:3:2)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Math 110 or equivalent.
   DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, regression; computer package.
   NOTE: Honors and Independent Study also.

   Note: These courses, and their prerequisites, impart linguistic or quantitative skills advantageous to historical research.

4. Complete the following:
   HIST 200 : The Historian's Craft. (3:3:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: History within the broader framework of liberal education; nature of history; questions historians ask; skills and resources needed to study, understand, and write history.
   NOTE: Required of all history majors.

   Note: For majors Hist 200 is considered a prerequisite for all elective courses. It must be completed no later than the sophomore year or in the first semester/term after the major is declared. Hist 200 and 490 combined satisfy the university core Advanced Written and Oral Communications requirement.

5. Complete the following core courses:
   HIST 201 : World Civilization to 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also. Independent Study also.
   DESCRIPTION: World civilization from Greek antiquity to Renaissance; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 202 : World Civilization from 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: Hist 201.
   DESCRIPTION: World civilization from Renaissance to present; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 220 : The United States Through 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent study also.
   DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

   HIST 221 : The United States Since 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   DESCRIPTION: Industrialization, immigration, urbanization, political and social movements, and foreign policy.

   Note: Majors must complete all four core courses in history at the college level. University core Civilization courses (201/202) offered by other departments are not equivalent. Advanced Placement U.S. history courses are not equivalent.

6. Complete seven electives (21 total hours) from the approved list. Seek faculty advice in choosing electives. Students must not present all their preparation in a single region. Complete three electives (9 hours) by taking at least one course in three of the following areas of study: Asia, Europe, Latin America, Near East, United States, Africa, or the world. (Course regions are identified on the approved list.) Majors are urged to focus their remaining four electives on a single theme, region, or period.

   Note: No more than 6 combined hours of 199R, 495R, and 498R will count toward elective credit.

7. Complete the following capstone course:
   HIST 490 : Capstone Research Seminar. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Hist 200.
   DESCRIPTION: Research seminar; critical, analytical, and writing skills in preparation of a senior thesis.
   NOTE: Required of all history majors.

Recommended

Majors are strongly encouraged to minor in a field that further enhances their preparation for employment or graduate school. Consult with faculty.

Hist 200 and 490 combined satisfy the university core Advanced Written and Oral Communications requirement.

5. Complete the following core courses:
   HIST 201 : World Civilization to 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also. Independent Study also.
   DESCRIPTION: World civilization from Greek antiquity to Renaissance; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 202 : World Civilization from 1500. (3:3:0)
   OFFERED: F, W, Sp, Su; Honors also.
   PREREQUISITE: Hist 201.
   DESCRIPTION: World civilization from Renaissance to present; explores fundamental questions in the human experience, examines formative events in history, and seeks to teach value of important texts.

   HIST 220 : The United States Through 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent study also.
   DESCRIPTION: Discovery, colonization, American Revolution, estabishment of the Constitution, foreign affairs, westward expansion, slavery, sectionalism, Civil War, and reconstruction.

   HIST 221 : The United States Since 1877. (3:3:0)
   OFFERED: F, W, Sp, Su; Independent Study also.
   DESCRIPTION: Industrialization, immigration, urbanization, political and social movements, and foreign policy.

   Note: Majors must complete all four core courses in history at the college level. University core Civilization courses (201/202) offered by other departments are not equivalent. Advanced Placement U.S. history courses are not equivalent.

6. Complete the following:
   HIST 364 : Utah. (3:3:0)
   OFFERED: F, W, Sp or Su
   DESCRIPTION: Contributions of Native Americans, explorers, mountain men, miners, government officials, Mormons, and other groups in the nineteenth century. Impact of national movements, various peoples, politics, economics, and social and cultural change in the twentieth century.

7. Complete four electives (12 total hours) from the approved list. Seek faculty advice in choosing electives. Students must not present all their preparation in a single region. Complete no more than two electives (6 hours) in each of the following areas of study: Asia, Europe, Latin America, Near East, United States, Africa, or the world. (Course regions are identified on the approved list.)

   Note: No more than 6 combined hours of 199R, 495R, and 498R will count toward elective credit.

8. Complete the following capstone course:
   HIST 490 : Capstone Research Seminar. (3:3:0)
   OFFERED: F, W, Sp, Su
   PREREQUISITE: Hist 200.
   DESCRIPTION: Research seminar; critical, analytical, and writing skills in preparation of a senior thesis.
   NOTE: Required of all history majors.

9. A teaching minor is strongly recommended.

10. Complete the Professional Education Component:
    a. Complete the following:
       CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)
       OFFERED: F, W, Sp
       PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
       DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)
OFFERED: F, W, Sp
DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

SC ED 276R : Exploration of Teaching. (3-4:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Major-area preadmission requirements.
DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

: Exploration of Teaching - Theatre and Media Arts.
: Exploration of Teaching: English.
: Exploration of Teaching: Foreign Language.
: Exploration of Teaching: Music.
: Exploration of Teaching: Social Science.
: Exploration of Teaching: Art.
: Exploration of Teaching: Biological Sciences.
: Exploration of Teaching: Dance.
: Exploration of Teaching: Exercise Sciences.
: Exploration of Teaching: Family and Consumer Sciences.
: Exploration of Teaching: Health.
: Exploration of Teaching: Mathematics.
: Exploration of Teaching: Physical Science.
: Exploration of Teaching: Technology Teacher Education.

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 276R or comparable major course.
DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

SC ED 353 : Multicultural Education. (2:2:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course.
DESCRIPTION: Designing and adapting instruction for diverse learners, collaborating with families, cultures, and communities in promoting and sustaining learning.

SC ED 377R : Teaching Methods and Instruction. (3:3:0)
OFFERED: F, W
PREREQUISITE: Fingerprint and FBI clearance; major-specific program requirements.
DESCRIPTION: Developing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 378 : Practicum in Secondary Education. (1:0:3)
OFFERED: F, W
PREREQUISITE: Concurrent enrollment in Sc Ed 377R or comparable major course.
DESCRIPTION: Implementing meaningful and engaging instruction for secondary students; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

SC ED 379 : Classroom Management. (1:1:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Concurrent enrollment in Sc Ed 377R and 378, or equivalent major courses.
DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

Note: Fingerprinting and FBI clearance must be completed prior to enrollment in Sc Ed 276R.

b. Complete 12 hours of one of the following:
SC ED 476R : Secondary Student-Teaching Internship. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Secondary Student Teaching Internship - Theatre and Media Arts.

: Secondary Student-Teaching Internship - Art.
: Secondary Student-Teaching Internship - Biological Sciences.
: Secondary Student-Teaching Internship - Dance.
: Secondary Student-Teaching Internship - English.
: Secondary Student-Teaching Internship - Foreign Language.
: Secondary Student-Teaching Internship - French.
: Secondary Student-Teaching Internship - German.
: Secondary Student-Teaching Internship - Health.
: Secondary Student-Teaching Internship - Home Economics.
: Secondary Student-Teaching Internship - Mathematics.
: Secondary Student-Teaching Internship - Music.
: Secondary Student-Teaching Internship - Physical Education.
: Secondary Student-Teaching Internship - Physical Science.
: Secondary Student-Teaching Internship - Social Science.
: Secondary Student-Teaching Internship - Spanish.
: Secondary Student-Teaching Internship - Technology Teacher Education.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)
OFFERED: F, W
PREREQUISITE: Completion of all course work or departmental approval.
DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

: Academic Internship: Biological Sciences.
: Academic Internship: English.
: Academic Internship: Mathematics.
: Academic Internship: Social Sciences.
: Academic Internship: Physical Sciences.

*Hours include courses that may fulfill university core requirements.

Native American Studies

Many American Indian and non-Indian students graduating from Brigham Young University in studies such as anthropology, English, education, sociology, history, business, and political science will be brought into contact with Native Americans through their occupations.

The Native American Studies minor is designed to supplement students of various disciplines so that they may become more culturally aware of the heritage of American Indians, thus promoting better understanding and cooperation.

The minor has been designed so that students may select classes from a variety of interdepartmental courses, if desiring a general background, or a combination of classes for an in-depth study in a specific discipline.

At Brigham Young University students can major in American Studies with course work designed to emphasize American Indian history.

Make application to or obtain further information from the History Department.

OFFERED: W
DESCRIPTION: Cultural developments of North American Indians (Canada, U.S., and northern Mexico) before Columbus.

ANTHR 530 : Great Basin Archaeology. (3:3:0)
OFFERED: W even years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography, history of research, and prehistory of the Great Basin culture area. Current issues in archaeological research emphasized.

ANTHR 535 : Southwest Seminar. (3:3:0)
OFFERED: W odd years
PREREQUISITE: Anthr 350 or equivalent.
DESCRIPTION: Overview of ethnography and prehistory of American Southwest. Current issues in archaeological research emphasized.

ENGL 358R : Ethnic, Regional, and Other Literatures in English. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Engl 251 or 252.
DESCRIPTION: Sections stressing Native American, African American, Chicano, third-world, regional, or other literatures in English.

: African American Literature.
: Asian American Literature.
: Latino/a American Literature.

: Native American Literature.
: Native American Literature.
: Post-Colonial Literature.

(Native American topics only)
FLANG 102R : First-Year Language Study. (4:5:1)
PREREQUISITE: FLang 101R in same language.
DESCRIPTION: Vocabulary, grammar, listening, speaking, reading, writing, and culture.

: First-Year Language Study: Akan.
: First-Year Language Study: Albanian.
: First-Year Language Study: Armenian.
: First-Year Language Study: Aymara.
: First-Year Language Study: Basque.
: First-Year Language Study: Bicolano.
: First-Year Language Study: Burmese.
: First-Year Language Study: Cakchiquel.
: First-Year Language Study: Cambodian.
: First-Year Language Study: Catalan.
: First-Year Language Study: Cebuano.
: First-Year Language Study: Croatian.
: First-Year Language Study: Dutch.
: First-Year Language Study: Estonian.
: First-Year Language Study: Fijian.
: First-Year Language Study: Ga.
: First-Year Language Study: Guarani.
: First-Year Language Study: Haitian Creole.
: First-Year Language Study: Hawaiian.
: First-Year Language Study: Hindi.
: First-Year Language Study: Hmong.
: First-Year Language Study: Ilangot.
: First-Year Language Study: Ilocano.
: First-Year Language Study: Indonesian.
: First-Year Language Study: Javanese.
: First-Year Language Study: Kazakh.
: First-Year Language Study: Laotian.
: First-Year Language Study: Malagasy.
: First-Year Language Study: Malay.
: First-Year Language Study: Maori.
: First-Year Language Study: Marshallese.
: First-Year Language Study: Maya.
: First-Year Language Study: Modern Greek.
: First-Year Language Study: Mongolian.
: First-Year Language Study: Navajo.
: First-Year Language Study: Niuean.
: First-Year Language Study: Quechua.
: First-Year Language Study: Rarotongan.
: First-Year Language Study: Samoan.
: First-Year Language Study: Serbian.
: First-Year Language Study: Swahili.
: First-Year Language Study: Tagalog.
: First-Year Language Study: Tahitian.
: First-Year Language Study: Taiwanese.
: First-Year Language Study: Thai.
: First-Year Language Study: Tongan.
: First-Year Language Study: Trukese.
: First-Year Language Study: Turkish.
: First-Year Language Study: Urdu.
: First-Year Language Study: Vanuatau.
: First-Year Language Study: Vietnamese.
: First-Year Language Study: Waray-Waray.
: First-Year Language Study: K'iche.
: First-Year Language Study: Persian.

(Navajo or Shoshone)
HIST 357 : The Indian in Latin American History. (3:3:0)
OFFERED: W odd years.
DESCRIPTION: History of Latin American Indians from preconquest days to the present; achievements, contributions, and problems.

HIST 360 : American West to 1900. (3:3:0)
OFFERED: F
DESCRIPTION: The American West as a place of great diversity. Topics include Native American societies.

European colonization, explorations, the fur trade, overland migrations, Indian relations, mining, settlement, and the environment.

OFFERED: W even years.
DESCRIPTION: Pivotal developments in the twentieth-century West, including urbanization, Sun Belt migration, political protest, labor history, Native American history, immigration, water policy, tourism, military-industrial complex, Hollywood.

HIST 363 : The Spanish Frontier in North America. (3:3:0)
OFFERED: W even years.
DESCRIPTION: Spanish exploration, occupation, and institutions of northern Mexico, the American southwest, and Florida, 1521-1821; Mexican period to 1848.

HIST 405 : U.S. - Native American Family History Research. (3:3:0)
DESCRIPTION: In-depth examination of sources and problem solving in Native American research.

HIST 495R** : Directed Research. (3:0:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Instructor's prior consent.
DESCRIPTION: Student research directed by faculty member on topic of mutual interest.
NOTE: Research assistants must do additional work for credit.

HIST 498R** : Directed Readings. (.5-3:3:ARR)
OFFERED: F, W, Sp, Su

HUM 425R : Area Studies in the Humanities. (3:3:0)
OFFERED: F, W; alternate Sp or Su
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of literature, philosophy, and the arts of a particular geographical area. Topics include American, Latin American, and Asian humanities. Topics vary.

: America Between World Wars.
: American Culture.
: American Immigrant Experience.
: American Popular Culture.
: Arts of Japan.
: Asian Culture.
: Classics and Eastern America.
: Colonial and Federalist America.
: Islamic Culture.
: Latin American Culture.
: Maya Art and Culture.
: Poetry of Americas.
: Precolumbian Culture.
: Satire in American Culture.
: Scandinavian Cultural History.
: Slavery and Americas.
: Southwestern Native American Culture.
: U.S. and Caribbean Culture.
: Women in Americas.

REL C 293R : Specialized Studies in Family History (Genealogy). (1-2:Arr.:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Rel C 261.
DESCRIPTION: Using documents from specific regional and organizational sources to identify ancestors and submit their names for temple ordinances.

: British Family History.
: Germanic/Slavic Family History.
: Hispanic Family History.
: LDS Family History.
: Native American Family History.
: Scandinavian Family History.
: Southern European Family History.
: United States and Canada Family History.

(Native American topics only)
SOC 113 : Multicultural America. (3:3:0)
OFFERED: F, W

DESCRIPTION: Diverse cultural heritages in the United States. Cultures studied scientifically will include African American, Hispanic, Asian American, and Native American.

SOC 323 : Racial and Minority-Group Relations. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Social psychological and social structural analysis of racial and ethnic relations; prejudice, discrimination, responses, protests, current issues.

SOC 390R** : Special Topics in Contemporary Sociology. (.5-3:3:0)

Admission to Degree Program

All degree programs in the Department of Humanities, Classics, and Comparative Literature are open enrollment. However, special limitations apply for teaching majors.

General Information

The Department of Humanities, Classics, and Comparative Literature strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Humanities

The Discipline

The term *humanities* refers to the study of human intellectual and artistic creativity and the record of human experience as seen in the arts. It is an interdisciplinary major drawing from history, fine arts, literature, intellectual history, music, foreign languages, etc. In this major the student focuses on the arts as modes of human expression and how the arts combine to give a unique view of what it has meant to be human through the ages—and how they continue to influence us today. Besides teaching the interrelatedness of the arts, the study of humanities emphasizes the relationships between the arts and other aspects of human culture and society.

The major offers students unusual latitude in developing a broad and full program in the liberal arts, as well as developing skills in reasoning, language, writing, and library use—all essential elements for later independent learning as well as for functioning well in society.

Career Opportunities

The interdisciplinary nature of the major makes it an excellent preparation for graduate work in humanistic disciplines and professional schools and also for a wide range of employment, including secondary teaching. Humanities graduates going directly into the work force commonly find professional employment in education, business, government, tourism, and civil or foreign service. Those going on to graduate school usually work toward the doctorate or attend professional programs in such disciplines as library science, law, business, public administration, and medicine.

BA in Humanities (56–86 hours*)

Show All Course Descriptions
Hide All Course Descriptions

With faculty advisor approval, students will select one of eight emphases:

art history	View MAP
classical studies	View MAP
comparitive literature	View MAP
English	View MAP
foreign literature	View MAP
history	View MAP
media arts (film)	View MAP
philosophy	View MAP

The emphasis area does not constitute a major in that particular discipline—e.g., a humanities major who emphasizes art history does not receive the equivalent training in the history of art that an art history major does. The emphasis area is a portion of the course work devoted to a specific discipline that complements the student's interdisciplinary work in the major (see requirement 7 below).

Program Requirements

1. When possible, honors sections are recommended.
2. Complete the following:
   HUM 250 : Introduction to Interdisciplinary Humanities. (3:3:.5)
   OFFERED: F, W
   DESCRIPTION: Major literary, artistic, and musical forms and their use in the interdisciplinary study of aesthetics and culture and intellectual history. Includes International Cinema.
3. Complete the following historical foundation courses:
   a. HUM 201 : Western Humanities 1: Antiquity to Renaissance. (3:3:0)
      OFFERED: F, W, Sp, Su; Honors also.
      DESCRIPTION: Western civilization from Greek antiquity to Renaissance from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.

      and
      HUM 202 : Western Humanities 2: Renaissance to the Present. (3:3:0)
      OFFERED: F, W, Sp, Su; Honors also.
      DESCRIPTION: Western civilization from Renaissance to present from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.

   b. CL CV 110 : Introduction to Greek and Roman Literature. (3:3:0)
      OFFERED: F, W
      DESCRIPTION: Homer's *Iliad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.
      NOTE: All readings in English. Honors also.

      or
      CL CV 241 : Greek and Roman Mythology. (3:3:0)
      OFFERED: F, W, Sp; Honors also.
      DESCRIPTION: Greek and Roman gods, heroes, and myths, emphasizing literature but also giving attention

to representations in the visual arts.

c. HUM 240 : Introduction to the Humanities of Asia. (3:3:0)
OFFERED: F, W, Sp
DESCRIPTION: Major arts of Asian cultures in their historical, religious, and philosophical settings.

or
HUM 242 : Introduction to the Humanities of the Islamic World. (3:3:0)
OFFERED: F
DESCRIPTION: Major arts of Islamic cultures in their historical, religious, and philosophical settings.

d. And two courses from the following:
HUM 260 : Humanities of Latin America. (3:3:0)
OFFERED: F, W
DESCRIPTION: Achievements of Latin American culture regarding art, philosophy, literature, and music from the pre-Columbian era to the present.

HUM 261 : Introduction to American Humanities 1: Colonial Era Through 1876. (3:3:0)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Value systems reflected in the arts and ideas of the United States from the colonial era to 1876.

HUM 262 : Introduction to American Humanities 2: 1877 to the Present. (3:3:0)
OFFERED: F, W; Honors also.
DESCRIPTION: Value systems reflected in the arts and ideas of the United States from 1877 to the present.

4. Complete one course from the following:
PHIL 110 : Introduction to Philosophy. (3:3:0)
OFFERED: F, W, Sp; Honors also.
DESCRIPTION: Articulating, assessing, and defending fundamental positions on topics such as reason, knowledge, science, education, ethics, politics, and religion.

PHIL 213 : Introduction to Ethics. (3:3:0)
OFFERED: F, W, Sp on demand.
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)
OFFERED: F, W
DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.

5. Complete one upper-division foreign language course selected from the approved course list available from the advisement center. Majors are strongly encouraged to take a literature course in which works are read in the foreign language. Conversation courses, ASL, and music courses do not meet this requirement. The requirement may be met with European, Asian, or Middle-Eastern languages that have a written literary tradition and that are a language of scholarship. French, German, Italian, Russian, Spanish, Chinese, and Japanese are especially recommended, as are classical Greek and Latin.

6. Complete the following:
HUM 350 : Interpretation of Literature and the Arts. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Engl 311 or Phil 300; Hum 201, 202, 250; at least three of the remaining historical foundation courses (item 3 under major requirements).
DESCRIPTION: Understanding and writing about literature and at least one of the other arts; critical theory.
NOTE: Should be taken junior year.

(prerequisite: Engl 311 or Phil 300; Hum 201, 202, 250; and at least three of the remaining historical foundation courses [item 3 above]).

7. Complete a core of 12 hours in an area of emphasis from the following: classical studies, comparative literature, English, history, art history, foreign literature, philosophy, or media arts (film) (n.b. philosophy or foreign literature courses taken to meet requirement 6 above may *not* count toward emphases in those disciplines). Students wishing to pursue graduate work in their emphasis area are strongly encouraged to devote their supporting course work (see requirement 9 below) as well to their emphasis. Faculty advisors must approve the student's emphasis area. Courses toward the emphasis area are to be selected from the approved course list available from the advisement center. Exceptions must be cleared by the humanities section head. At least 6 of the 12 hours must be in upper-division courses.

8. Complete two capstone courses from the following:
HUM 420R : Studies in Periods and Movements. (3:3:0)
OFFERED: F, W; alternate Sp, Su
PREREQUISITE: Hum 350 or concurrent enrollment.

DESCRIPTION: Interdisciplinary study of literature, philosophy, and the arts of a particular period or movement. Problems of periodization. Topics vary.

: 12th Century Renaissance.
: 14th Century.
: 17th Century.
: 18th Century.
: Character in 17th Century.
: Classical Period.
: Fin De Siecle.
: Impressionism.
: Later 19th Century.
: Medieval Period.
: Modernism.
: Postmodernism.
: Reformation and Counter Reformation.
: Renaissance.
: Romanticism.
: Victorian Art and Culture.
: Women in 19th Century.
: Women in the 18th Century.

HUM 425R : Area Studies in the Humanities. (3:3:0)
OFFERED: F, W; alternate Sp or Su
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of literature, philosophy, and the arts of a particular geographical area. Topics include American, Latin American, and Asian humanities. Topics vary.

: America Between World Wars.
: American Culture.
: American Immigrant Experience.
: American Popular Culture.
: Arts of Japan.
: Asian Culture.
: Classics and Eastern America.
: Colonial and Federalist America.
: Islamic Culture.
: Latin American Culture.
: Maya Art and Culture.
: Poetry of Americas.
: Precolumbian Culture.
: Satire in American Culture.
: Scandinavian Cultural History.
: Slavery and Americas.
: Southwestern Native American Culture.
: U.S. and Caribbean Culture.
: Women in Americas.

HUM 430R : Genres and Forms in the Humanities. (3:3:0)
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of genres and forms. Topics include epic, tragedy, narrative, historiography, film, relationship of text and music. Topics vary.

: Comedy.
: Film as Art.
: Historiography.
: Narrative.
: Text and Music.
: Tragedy.

HUM 440R : Themes in the Humanities. (3:3:0)
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of themes. Topics include Eden, Arthur, Don Juan, Faust, Ulysses, Troy. Topics vary.

: Arthurian Theme.
: Classical Tradition.
: Don Juan Theme.
: Don Quixote and the Arts.
: Eden Theme.
: Faust Theme.
: Gothic and Gothicism.

: Matter of Troy.
: Ulysses Theme.

HUM 460R : Critical Theory and Methodology. (3:3:0)
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Theoretical and practical criticism; problems in critical theory. Topics include aesthetics, interrelations of the arts, models of cultural history, cultural theory, and aspects of contemporary theory. Topics vary.

: Aesthetic Theory.
: Art Interrelations.
: Classical Criticism.
: Contemporary Theory.
: Cultural Theory.
: Gender Theory in Humanities.
: Mimesis.
: Models of Cultural History.
: Narratology.
: Native Multiculturism.
: Practical Criticism.
: Rhetoric and Truth.
: Rhetorical Theory.
: Theory of Film.

HUM 490R : Seminar in the Humanities. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Hum 350 or concurrent enrollment.
DESCRIPTION: Interdisciplinary study of problems and major figures in the humanities. Topics vary.

: Classical Tradition.
: Wagner and Wagnerism.

(Prerequisite: Hum 250, 350; all historical foundations courses.)

9. Supporting course work: an 8–9 hour block of course work that supports the student's education and career goals. The block of courses must be coherent and must be approved in writing by the student's faculty advisor. The following are possibilities:
   a. Students wishing to provide greater focus to their interdisciplinary work—especially those wishing to pursue graduate work in interdisciplinary humanities or in a particular humanistic discipline—should devote this block of course work to a particular specialty (e.g., a period or area of concentration) or further work in their emphasis area.
   b. Students wishing to combine a humanities major with preparation for *professional schools* (e.g., MBA programs) that may require specialized background or quantitative skills beyond those already received may use this block of course work to acquire and strengthen those areas (e.g., C S 142, Acc 200, etc.).
   c. Any university minor will qualify.

*Hours include courses that may fulfill university core requirements.

Classics

The Discipline

Classical Studies examine ancient Greek and Roman cultures—their languages, literature, history, religion, art, and philosophy.

The major offers essential knowledge of philology, ancient history, archaeology, biblical studies, and the literary tradition of Western Europe, as well as traditional grounding in the Classics. Students acquire important foreign-language study skills that include careful reading, thoughtful writing, and persuasive speaking. Latin is the mother language not only of Italian, French, and Spanish, but in a real sense of English as well. Its study will especially enhance one's understanding of English vocabulary, grammar, and rhetorical structure.

Greek and Roman History. Classics has the responsibility for staffing and administering offerings in Greek and Roman history. Courses in these fields are offered under Classical Civilization, Classics, Greek, and Latin. Some of these courses are cross-listed with history, and several may count toward a history major. See the History section of this catalog for details.

Classical Civilization. Classical Civilization courses presuppose no knowledge of the Greek or Latin languages and are open to all students. They are especially recommended for those who want to understand the ancient traditions underlying modern culture.

Career Opportunities

Majors in Classical Studies find employment in a variety of fields, including business, education, library science, tourism, and civil and foreign service. They are also excellent candidates for graduate work in other humanities-related disciplines and professional schools (law, business, and medicine).

Comparative Literature

The Discipline

Comparative Literature is the study of literature in its totality. The Comparative Literature major not only acquaints students with literary study beyond the confines of any particular national tradition but also with the relationship between literature and other areas of knowledge. Combining the synthesizing skills and knowledge related to individual national literatures, the comparative literature major utilizes a wide range of linguistic and philosophical knowledge unique to an undergraduate program. Pursued as a major, the field offers students unusual latitude in developing a broad and full program in the liberal arts, as well as developing competence in reasoning, language, writing, and research—essential for later independent learning.

Career Opportunities

Comparative Literature majors are well prepared for graduate programs in languages and literature and for employment in the foreign service, library science, business, education, and tourism. In addition, comparative literature is an outstanding preprofessional major for those interested in law, public administration, management, and medicine.

BA in Comparative Literature (37–57 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Acquire a thorough knowledge of two language traditions relevant to individual program of study (one of these may be English for students who emphasize the Anglo-American literary tradition)(approximately 16–32 hours). Competence will normally be demonstrated in course work, but an examination may be required. If planning advanced work in comparative literature, students should gain reading knowledge of both an additional modern language and a classical language.

2. Complete a reading list (determined in consultation with a faculty advisor) and submit a writing portfolio. During the final semester enroll in CmLit 497 to complete a written examination on the reading list and to have the portfolio reviewed.

   CmLit 201 and 202 are strongly recommended, in part because the reading list core consists of texts treated in these courses. Students who do not complete a literature-based civilization sequence are at a disadvantage in working systematically through the list.

3. Course configuration must be approved by department advisor.

4. Complete the following:

   CMLIT 310 : Introduction to Literary Analysis and Comparative Literature. (3:3:0)
   PREREQUISITE: Reading knowledge of at least one foreign language.
   DESCRIPTION: Methods of literary analysis, emphasizing basic issues of comparative literature and prosody and other problems related to foreign language texts.

   CMLIT 342 : Asian Literary Traditions. (3:3:0)
   DESCRIPTION: Comparative analysis of Asian literary works spanning several traditions.

   CMLIT 497 : Reading List Examination. (1:1:0)
   PREREQUISITE: CmLit 310, 342, and three 400-level seminars.

   Note: CmLit 310 and reading knowledge of at least one foreign language are prerequisite to all upper-division comparative literature courses. In addition, completion of 342 and three comparative literature 400-level seminars is prerequisite to 497.

5. Complete five courses from the following:

   CMLIT 420R : Studies in Periods and Movements. (3:3:0)
   PREREQUISITE: CmLit 310 or Hum 350 or concurrent enrollment.
   DESCRIPTION: Topics vary.

   : 12th-Century Renaissance.
   : 17th-Century Literature.
   : 18th-Century Literature.
   : 20th-Century Literature.
   : Classics and Early America.
   : Medieval Literature.
   : Modernism.
   : Neoclassicism.
   : Postmodernism.
   : Realism.
   : Renaissance Literature.
   : Romanticism.
   : Symbolism.

   CMLIT 430R : Studies in Literary Genres. (3:3:0)
   PREREQUISITE: CmLit 310 or concurrent enrollment.

DESCRIPTION: Various genres (e.g., novel, epic, tragedy) and problems of genre. Topics vary.

: Comedy.
: Lyric.
: Novel.
: Poetry and Poetics.
: The Romance.
: Tragedy.

CMLIT 440R : Studies in Themes and Types. (3:3:0)
PREREQUISITE: CmLit 310 or concurrent enrollment.
DESCRIPTION: Major literary themes (e.g., Faust, Don Juan, Ulysses, Arthur), types, motifs, and problems of literary typology. Topics vary.

: Arthurian Literature.
: Don Juan Theme.
: Faust Theme.
: Ulysses Theme.

CMLIT 450R : Studies in Literary Relations. (3:3:0)
PREREQUISITE: CmLit 310 or concurrent enrollment.
DESCRIPTION: Interrelations of national literatures and figures and of literature with other areas of knowledge (art, history, law, psychology, music, etc.). Topics vary.

: Asian Literature Traditions.
: East-West Relations.
: Literature and Cinema.
: Literature and History.
: Literature and Music.
: Literature and Myth.
: Literature and Politics.
: Literature of Sensibility.
: Philosophy and Literature.
: Symbolism.
: U.S. and Carribean Literature.
: Vergil, Augustine, and Dante.
: Wagner and Wagnerism.

CMLIT 460R : Studies in Literary Theory. (3:3:0)
PREREQUISITE: CmLit 310 or concurrent enrollment.
DESCRIPTION: Topics vary.

: Classical Rhetoric and Criticism.
: Contemporary Theory.
: Historical Literary Theory.
: Practical Criticism.

6. Complete one of the following options:
Either complete a literature course in Greek or Latin

Or complete one course from the following:
CL CV 110 : Introduction to Greek and Roman Literature. (3:3:0)
OFFERED: F, W
DESCRIPTION: Homer's *Iliad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.
NOTE: All readings in English. Honors also.

Admission to Degree Programs

All undergraduate international and area studies degree programs are open enrollment.

Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- A minimum of 30 credit hours in residence
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

Undergraduate Programs and Degrees

Majors

BA in Ancient Near Eastern Studies
BA in Asian Studies
BA in European Studies
BA in International Relations
BA in Latin American Studies
BA in Middle East Studies / Arabic

Minors

Ancient Near Eastern Studies
Asian Studies
International Development
Latin American Studies
Middle East Studies

Students should see the International and Area Studies Advisement Center for help or information concerning the undergraduate programs.

General Information

International Career Center

The International Career Center, located in 273 HRCB (international_career@byu.edu), guides students of any major with their preparation for an international career. The ICC hosts international career-oriented lectures and offers advisement, employment and graduate school information, and networking assistance.

International Study Programs

International Study Programs (ISP) are open to students from all university majors. Students need not be formally admitted to BYU to participate in International Study and BYU credit may be transferred to their home institution.

Study Abroad: BYU's traditional off-campus study programs. In these programs students are able to further their general education; pursue specialized courses in languages, the social sciences, humanities, fine arts, and other fields; gain valuable insights into their own country; and further international understanding.

International Volunteers: A program similar to Study Abroad but with a more significant component of service learning at an international location and under the tutelage of faculty.

International Internships: Short-term, on-the-job apprentice training abroad under the direction of a firm, government agency, NGO, or other such institution.

Field Studies: A research experience abroad for small numbers of students directed by faculty, who generally do not accompany the students.

For further information, see the Office of International Study Programs in the David M. Kennedy Center, 280 HRCB.

UNDERGRADUATE CATALOG 2008 - 2009

Asian Studies

The Discipline

The Asian Studies major is an interdisciplinary program designed to prepare students for careers and advanced study in the specialized field of Asia not provided by a major in one department. In the program, students acquire working competence in Chinese, Japanese, Korean, or another approved Asian language; a broad knowledge of Asian civilization; and a more specialized knowledge in an academic discipline.

Career Opportunities

The Asian Studies major is useful to those contemplating careers in academic areas, private industry, or government service. The import-export field and international services are particularly interested in persons who have a strong background in Asian Studies.

European Studies

The Discipline

European studies is an interdisciplinary degree designed to combine advanced-language experience with study in humanities, social science, and/or business. Courses are taught by European experts from across a variety of BYU's academic departments and are intended to develop skills in analytical thinking, methods of interpretation, perceptive reading, competent writing, as well as an in-depth understanding of European affairs. Building on the University Core and GE Foreign Language requirements, the European studies degree is grounded in an introduction to European studies (Europ 200) and 12 hours of European history.

At the junior level, the degree splits into two tracks:

- Track A: 12 credit hours in European society which draws from history, political science, economics, business, sociology, and geography.
- Track B: 12 credit hours of European culture which draws from the humanities, language and literature, art history, philosophy, etc.

At the senior level, students take an additional 12 credit hours focused on an interrelated set of European issues decided upon in conjunction with the European studies coordinator.

Career Opportunities

The European studies degree can lead to a number of excellent career possibilities. With a broad, general background in European languages and area knowledge, graduates are well prepared for careers in international branches of government, nonprofit organizations, international industry and commerce, domestic and foreign teaching, the Peace Corps, the military, and many other professions requiring an expert knowledge of European language, culture, and politics.

The Eurpoean studies major is also excellent training for professional schooling in international business, law, medicine, journalism, editing, advertising, etc. Many previous area studies graduates have chosen jobs in the State Department, Citizenship and Immigration Services, the FBI, and international agencies.

Students are encouraged to double major or at least have a strong minor in another discipline to enhance their career prospects. The combination of European areas studies with another discipline is attractive to employers.

OFFERED: Honors also.
PREREQUISITE: Germ 202 or equivalent experience.
DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.
NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses.

HUNG 330 : Cultural History of Hungary. (3:3:1)
PREREQUISITE: Hung 201 or foreign residence experience.
NOTE: For returned missionaries and others with extensive Hungarian language experience. Required course for obtaining language credit by examination (Hung 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement.

ITAL 420 : Italian Civilization from the Beginning to 1600. (3:3:0)
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the barbarian invasions through the Renaissance.
NOTE: Fulfills GE Arts or Letters elective.

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)
OFFERED: W
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.
NOTE: Fulfills GE Arts or Letters elective.

LATVI 330 : Cultural History of Latvia. (3:3:1)
PREREQUISITE: Foreign residence experience.
NOTE: Entry course for returned missionaries from Latvia. Required course for obtaining language credit by examination (Latvi 101, 102, 201, 211R).

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)
OFFERED: F, W
DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.

POLSH 330 : Cultural History of Poland. (3:3:1)
PREREQUISITE: Polsh 201 or foreign residence experience.
NOTE: For returned missionaries or others with extensive Polish language experience. Required course for obtaining language credit by examination (Polsh 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement.

PORT 345 : Portuguese Civilization. (3:3:0)
PREREQUISITE: Port 321 or equivalent.
DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

ROM 340 : Introduction to Romanian Literature and Culture. (3:3:0)
OFFERED: On demand.
PREREQUISITE: Foreign residence experience in Romania.
DESCRIPTION: For returned missionaries or others with extensive Romanian language experience.
NOTE: Required course for obtaining language credit by examination. Culminating course for GE Foreign Language requirement.

RUSS 330 : Cultural History of Russia. (3:3:1)
PREREQUISITE: Russ 202 or foreign residence experience.
NOTE: Nonmajors not required to take Russ 311 but are welcome if concurrently enrolled in Russ 330. Required course for obtaining language credit by examination (Russ 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement. Includes International Cinema.

SCAND 430 : Cultural History of Scandinavia. (3:3:0)
DESCRIPTION: Scandinavian culture from the Vikings to the present.
NOTE: Works may be read in English translation.

SLN 330 : Cultural History of Slovenia. (3:3.0:1.0)
PREREQUISITE: Foreign residence experience.
NOTE: For returned missionaries or others with extensive Slovenian language experience. Required course for obtaining language credit by examination (SLN 101,102, 201, 211R).

SPAN 345 : Iberian Civilization. (3:3:0)
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

SRBCR 330 : Cultural History of the Former Yugoslavia. (3:3:1)
PREREQUISITE: SrbCr 201 or foreign residence experience.
NOTE: For returned missionaries or others with extensive Serbo-Croatian language experience. Required course for obtaining language credit by examination (SrbCr 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement.

TMA 395 : Dramatic Literature 1. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through Western literary theories, emphasizing performance.

TMA 396 : Dramatic Literature 2. (3:3:0)
PREREQUISITE: TMA 114, 201, 202.
DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through global literary theories, emphasizing performance.

UKRAI 330 : Cultural History of Ukraine. (3:3:1)
PREREQUISITE: Ukrai 201 or foreign residence experience.
NOTE: For returned missionaries or others with extensive Ukrainian language experience. Required course for obtaining language credit by examination (Ukrai 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement.

Or any Hum 400-level seminar on European topic

b. Complete two courses from the following literature requirement:
   1. Any 300- or 400-level literature course from student's foreign language.
   2. Any 300- or 400-level comparative literature course with a European emphasis.

Note: An upper-division English literature course may substitute for one of these courses on approval of the European Studies Committee.

c. Complete one course from the following:

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

: Aristotle.
: Buddhism.
: Chinese Philosophy.
: Church Fathers.
: Greek Epistemology.
: Greek Ethics.
: Greek Logic.
: Greek Metaphysics.
: Greek Philosophy of Religion.
: Greek Political Theory.
: Greek Science.
: Helenistic Philosophy.
: Hindu Philosophy.
: Neo-Platonism.
: Plato.
: Plotinus.
: Pre-Socratics.
: Socrates.
: Stoicism.
: Topics in Greek Philosophy.

PHIL 330R : Studies in Medieval Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

: Anselm.
: Aquinas.
: Augustine.
: Averroes.
: Boethius.
: Bonaventure.
: Duns Scotus.
: Maimonides.
: Medieval Arabic Philosophers.
: Medieval Epistemology.
: Medieval Ethics.
: Medieval Jewish Philosophers.
: Medieval Logic.
: Medieval Metaphysics.
: Medieval Philosophy and Religion.
: Medieval Political Theory.
: Medieval Science.
: Meister Eckhart.
: Topics in Medieval Philosophy.
: William of Ockham.

PHIL 340R : Studies in Modern Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: Phil 202.
DESCRIPTION: Selected figures or topics.

: Alexander.
: Bentham.
: Bergson.
: Berkeley.
: Bosanquet.
: Bradley.
: British Empiricism.
: British Idealism.
: Continental Rationalism.
: Descartes and Locke.

: Descartes.
: Dewey.
: German Idealism.
: Hegel.
: Hobbes.
: Hume.
: J. S. Mill.
: Kant.
: Kierkegaard.
: Leibniz.
: Locke.
: Modern Political Theory.
: Nietzsche and Freud.
: Nietzsche.
: Peirce.
: Pragmatism.
: Schopenhauer.
: Spinoza.
: Topics in Modern Philosophy.
: Utilitarianism.
: William James.

PHIL 350R : Studies in Contemporary Philosophy. (3:3:0)
OFFERED: F, W
PREREQUISITE: One philosophy course.
DESCRIPTION: Selected figures or topics.

: Contemporary Analytical Philosophy.
: Contemporary French Philosophy.
: Contemporary Political Theory.
: Continental Philosophy.
: Derrida.
: Dufrenne.
: Existentialism.
: Foucault.
: Frege.
: Gadamer.
: Heidegger.
: Hermeneutics.
: Husserl.
: Leotard.
: Levinas.
: Logical Positivism.
: Marion.
: Merleau-Ponty.
: Moore.
: Oakeshott.
: Ordinary Language of Philosophy.
: Phenomenology.
: Philosophy and Film.
: Philosophy and Literature.
: Philosophy of Architecture.
: Philosophy of Cognitive Science.
: Philosophy of History.
: Philosophy of Mind.
: Philosophy of Psychology.
: Philosophy of Social Science.
: Philosophy of Theology.
: Ricoeur.
: Russell.
: Sartre.
: Topics in Contemporary Philosophy.
: Truth.
: Whitehead.
: Wittgenstein.

Note: Phil 340R and 350R must be on a European philosopher.

5. Complete 12 hours of supporting course work. In consultation with the program director, propose a list of advanced courses (typically senior level) that are European focused and that have a coherent logic relative to educational and career goals. This list must then be approved by the European Studies Executive Committee.

6. Complete an exit interview during the final semester. Students come to the interview prepared to lead a discussion on one

major European issue of their choice that they've encountered in their program. This could be a current political/economic issue like the European Union or immigration, or it could be a historical/interpretive issue regarding our understanding of European identity, history, culture, etc.

Recommended Courses

These courses can be used to fill the Civilization and Social Science GE requirements or for enrichment electives:

Social Sciences

Anthr 101.
Econ 110.
Pl Sc 150, 170.
Soc 111

Arts and Letters

ArtHC 111.
Engl 230.
Hum 101, 201, 202.
Music 101.
Phil 110.

*Hours include courses that may fulfill university core requirements.

International Development

The Discipline

International development is the study of basic social needs in developing areas or countries. It includes academic disciplines such as formal and nonformal education and literacy, economic development, primary health care, small business activities, water sanitation, agricultural productivity, nutrition, ecological preservation, etc. Development obviously implies raising the level and quality of life throughout the "underdeveloped" world.

Students should pursue solid preparation in an established major as well as classroom knowledge and experience in international development. This minor is designed to strengthen and expand the chosen major. Students will be assigned a faculty mentor in their major department who will help coordinate the minor with the major. In addition to a focused course of study, internship experience is highly encouraged. Internships provide valuable experience in applying development theory as well as allowing students to earn credit toward the minor (and in some cases the major as well).

Minor in International Development (18 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements

1. No double-counting courses within the different areas of this minor is allowed.

2. Complete the following:
   IAS 220 : Introduction to Development Studies. (3:3:0)
   OFFERED: F
   DESCRIPTION: Exploration of international development in non-formal education, micro-enterprises, community organizations; hunger, poverty, and other special problems in developing areas of the world.

3. Complete two courses from the following (6 hours):
   ANTHR 441 : Anthropology of Development. (3:3:3)
   DESCRIPTION: Theory, practice, and research methods regarding the anthropological study and resolution of poverty, disease, malnutrition, displacement, and inadequate educational opportunities.

   ECON 230 : Economic Development and Growth. (3:3:0)
   PREREQUISITE: Econ 110 or equivalent.
   DESCRIPTION: Problems and processes of economic growth and development, emphasizing less-developed nations.

   (prerequisite: Econ 110)
   EDLF 363 : Education, Poverty, and Community Development. (3:3:0)
   OFFERED: W
   DESCRIPTION: Examines the nexus between education, poverty, and socioeconomic development challenges facing developing countries through the perspective of economics, religion, and the state.

   PL SC 444 : The Political Economy of Development. (3:3:0)
   OFFERED: On demand.
   RECOMMENDED: Econ 110, PlSc 200.
   DESCRIPTION: Political foundations of growth, providing public goods, and political reform in developing countries. Development and how institutions and culture shape it.

   SOC 340 : Sociology of International Development. (3:3:0)
   DESCRIPTION: Major theoretical paradigms of development with strategies and practical application in the international setting.

4. Complete three courses from the following (9 hours):
   ANTHR 441** : Anthropology of Development. (3:3:3)
   DESCRIPTION: Theory, practice, and research methods regarding the anthropological study and resolution of poverty, disease, malnutrition, displacement, and inadequate educational opportunities.

   ECON 230** : Economic Development and Growth. (3:3:0)
   PREREQUISITE: Econ 110 or equivalent.
   DESCRIPTION: Problems and processes of economic growth and development, emphasizing less-developed nations.

   ECON 431 : Economic Development. (3:3.0:0.0)
   PREREQUISITE: Econ 382 or concurrent enrollment; Econ 388 or PlSc 328.
   DESCRIPTION: Microeconomic analysis of the causes of income differences across countries.

   ECON 432 : Economic Growth. (3:3.0:0.0)
   PREREQUISITE: Econ 380, 381.

RECOMMENDED: Econ 388.
DESCRIPTION: Theory and evidence relating to economic growth, including physical and human capital accumulation, population, technological change, institutions, and government.

EDLF 362 : Introduction to Comparative and International Development Education. (3:3:0)
OFFERED: F
DESCRIPTION: Methods, major concepts, and current trends in comparative and international development education; role of education in promoting national development.

EDLF 363** : Education, Poverty, and Community Development. (3:3:0)
OFFERED: W
DESCRIPTION: Examines the nexus between education, poverty, and socioeconomic development challenges facing developing countries through the perspective of economics, religion, and the state.

HLTH 480 : International Health. (3:3:0)
OFFERED: F, W
DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

IAS 397R : Topics in International and Area Studies. (.5-3:ARR:ARR)
PREREQUISITE: Instructor's consent.
DESCRIPTION: Study relating to current world problems.

IAS 399R : Academic Internship: International. (.5-9:ARR:ARR)
PREREQUISITE: Acceptance into program.
DESCRIPTION: Individualized work or volunteer experience in an international setting.
NOTE: Class must be coordinated through International Study Programs.

NDFS 380 : International Nutrition and Health. (3:3:0)
OFFERED: W even years.
PREREQUISITE: NDFS 200 or instructor's consent.
DESCRIPTION: Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

(prerequisite: NDFS 200)
PL SC 372 : International Political Economy. (3:3:0)
OFFERED: F, W
DESCRIPTION: Political implications of international trade, investment, and monetary policies within an increasingly interdependent global context; transnationalism.

PL SC 444** : The Political Economy of Development. (3:3:0)
OFFERED: On demand.
RECOMMENDED: Econ 110, PlSc 200.
DESCRIPTION: Political foundations of growth, providing public goods, and political reform in developing countries. Development and how institutions and culture shape it.

PL SC 472 : International Political Economy of Women. (3:3:0)
OFFERED: On demand.
RECOMMENDED: PlSc 200 or Hist 200.
DESCRIPTION: Effects upon national, international, and developmental policies when women are rendered visible and valued.

SOC 340** : Sociology of International Development. (3:3:0)
DESCRIPTION: Major theoretical paradigms of development with strategies and practical application in the international setting.

SOC 429 : Theory of Social Change and Modernization. (3:3:0)
PREREQUISITE: Soc 310.
DESCRIPTION: Social change in contemporary society from diverse theoretical points of view.

Other courses with the approval of the development coordinator.

Note: **These courses may be counted in this section if not already counted in the previous section.

Note: Students cannot count both Econ 230 and 431 or Econ 230 and 432. They should choose to take either the 200-level course or the 400-level course.

*Hours include courses that may fulfill university core requirements.

UNDERGRADUATE CATALOG 2008 - 2009

International Relations

The Discipline

International relations is an interdisciplinary major emphasizing the systematic study of political and economic relations between governments and people in different states, as well as comparisons across different political and economic systems. Students majoring in international relations also come to understand the historical and geographic basis for current international relationships.

Career Opportunities

The international relations major gives students a strong liberal arts education along with useful technical skills. In addition to substantive knowledge, international relations majors will learn analytical concepts and ideas that allow them to organize, explain, and make sense of relations between states and comparisons among them. High proficiency in math and statistics, writing, and a foreign language will prepare for a wide variety of career paths—including, but not limited to, government, law, business, and international organizations. Many career paths will require graduate-level training. Therefore, the international relations degree should be seen as certifying fluency in the ideas and methods of multiple fields so that students can find and pursue their own specialized interests rather than as a terminal degree.

It is important to distinguish international relations as a field from a more general definition of "international," which might include anything (people, language, culture, traditions, etc.) beyond the territorial boundaries of the United States. For students interested in the broad study of anything international and foreign, BYU's international relations degree will not provide the best training. In fact, no reasonable degree can include the systematic study of everything international and foreign. It should be remembered that BYU students have a wealth of options through which to pursue their particular international and foreign interests. These include:

- Social science majors with a strong international component, such as economics, geography, history, or political science.
- Area studies majors, including Latin American, Asian, and Middle East studies.
- Language majors.
- Other majors combined with a minor in one of the above areas.

BA in International Relations (57–79 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Program Requirements | View MAP

1. Complete the following introductory core courses:

ECON 110 : Economic Principles and Problems. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Strengths and weaknesses of markets and governments for solving problems of social organization or conflict, including policy response to inflation, unemployment, pollution, poverty, growth, etc.

GEOG 120 : Geography and World Affairs. (3:3:0)
OFFERED: F, W, Sp, Su
DESCRIPTION: Survey of the world, stressing geography of major political regions.
NOTE: Honors and Independent Study also.

PL SC 150 : Comparative Government and Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand. Honors also.
DESCRIPTION: Patterns of European, Asian, Latin American, and other political systems.

PL SC 170 : Introduction to International Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
DESCRIPTION: Basic forces, practices, institutions, and foreign policies of major powers; problem areas in international politics.

2. Complete the following research foundations and methods courses:

PL SC 200 : Political Inquiry. (4:3:1)
OFFERED: F, W; Sp and Su on demand.
DESCRIPTION: Methodology of political science, including theory and techniques of qualitative and quantitative research design.
NOTE: Prerequisite to all upper-division courses.

And complete the following:

MATH 112 : Calculus 1. (4:5:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Math 110 and 111 or equivalent.
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.
NOTE: Honors also.

Note: If you have received a B+ or better in Math 119, you may petition for a substitution for Math 112.

And complete one course from the following:

ECON 378 : Statistics for Economists. (3:3:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Econ 110, Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Introduction to matrix algebra and statistics in preparation for regression analysis. Other topics include: probability, random variables, density and distribution functions, estimation, hypothesis testing.

PL SC 328 : Quantitative Political Methodology. (4:3:1)
OFFERED: F, W

PREREQUISITE: PI Sc 200.
DESCRIPTION: Quantitative techniques in political research.

Note: Students who choose Econ 378 are encouraged to also complete Econ 388.

3. Complete the following:

ECON 380 : Intermediate Price Theory 1. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 (or Math 119 with a B+ or better).
DESCRIPTION: Producer, consumer, and equilibrium theories; mathematical techniques of unconstrained and constrained optimization introduced and applied extensively.

ECON 381 : Intermediate Macroeconomics. (3:3:0)
OFFERED: F, W, Sp
PREREQUISITE: Econ 110; Math 112 or concurrent enrollment.
DESCRIPTION: Intermediate macroeconomic theory, emphasizing income, unemployment, and price-level analysis.

4. Complete one course from the following:

ECON 431 : Economic Development. (3:3.0:0.0)
PREREQUISITE: Econ 382 or concurrent enrollment; Econ 388 or PISc 328.
DESCRIPTION: Microeconomic analysis of the causes of income differences across countries.

ECON 432 : Economic Growth. (3:3.0:0.0)
PREREQUISITE: Econ 380, 381.
RECOMMENDED: Econ 388.
DESCRIPTION: Theory and evidence relating to economic growth, including physical and human capital accumulation, population, technological change, institutions, and government.

ECON 458 : International Trade Theory and Applications. (3:3:0)
PREREQUISITE: Econ 380.
DESCRIPTION: Microeconomic analysis of why nations trade, who wins and loses from trade, and the costs and benefits of various trade policies.

ECON 459 : International Monetary Theory. (3:3:0)
PREREQUISITE: Econ 380, 381, 388.
DESCRIPTION: Monetary and macroeconomic aspects of international relations dealing primarily with short-run balance-of-payments disequilibrium and adjustments.

5. Complete one course from the following:

HIST 393 : U.S. Foreign Relations. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: U.S. diplomatic history from the American revolution to the present; examines major themes and critical events within both domestic and international contexts.

PL SC 350 : Theories of Comparative Politics. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: PI Sc 150, 200.
DESCRIPTION: Selected issues of comparative politics such as crisis and discontinuity; development; political infrastructure (e.g., political culture and social structure); political institutions.

PL SC 376 : U.S. Foreign Policy. (3:3:0)
OFFERED: F, W
DESCRIPTION: Formation, implementation, analysis, and criticism of themes in American foreign policy.

6. Complete one of the following international relations courses:

PL SC 370 : Theory of International Relations. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: PISc 170, 200.
DESCRIPTION: Most influential traditions of thought in international relations; includes realism, idealism, Marxism, neorealism, complex interdependence, etc.

PL SC 372 : International Political Economy. (3:3:0)
OFFERED: F, W
DESCRIPTION: Political implications of international trade, investment, and monetary policies within an increasingly interdependent global context; transnationalism.

PL SC 373 : International Law. (3:3:0)

PREREQUISITE: PlSc 170, 200.
DESCRIPTION: Nature and function of international law; recognition, succession, jurisdiction rights, and immunities of states; nationality and jurisdiction over nations.

PL SC 375 : International Organizations. (3:3:0)
OFFERED: On demand.
DESCRIPTION: International institutions; transnational relations; rise of newer political organizations: League of Nations, United Nations, European communities, world religions, multinational corporations, terrorist groups, global regimes.

PL SC 376 : U.S. Foreign Policy. (3:3:0)
OFFERED: F, W
DESCRIPTION: Formation, implementation, analysis, and criticism of themes in American foreign policy.

PL SC 377 : National Security Affairs. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Foreign policy, defense strategy, and intelligence.

PL SC 378 : International Conflict. (3:3:0)
OFFERED: On demand.
PREREQUISITE: PlSc 150 or 170.
DESCRIPTION: Causes of war; alliances and empires; military innovation; civil-military relations; fungibility of forces; terrorism; security studies methods; use and misuse of history.

7. Complete one of the following comparative politics courses:

PL SC 341 : Western European Politics. (3:3:0)
PREREQUISITE: PlSc 150.
DESCRIPTION: Politics and policy in western Europe. State-building, party systems, nationalism, and cooperation among advanced industrial countries in comparative, historical perspective. Social and Christian democracy; European Union.

PL SC 344 : Comparative Political Economy. (3:3:0)
PREREQUISITE: PlSc 150.
DESCRIPTION: Overview of political economy from a comparative perspective. Classic theorists (Smith, Marx, Schumpeter, etc.); classic questions (industrialization, national economic policy, property, globalization, law, and economics).

PL SC 347 : Russia/Former Soviet Politics. (3:3:0)
DESCRIPTION: Comparative politics of Russia and Soviet successor states. Development of political systems from common Soviet heritage, emphasizing post-independence politics and institution building.

PL SC 350 : Theories of Comparative Politics. (3:3:0)
OFFERED: F and W on demand.
PREREQUISITE: Pl Sc 150, 200.
DESCRIPTION: Selected issues of comparative politics such as crisis and discontinuity; development; political infrastructure (e.g., political culture and social structure); political institutions.

PL SC 352 : African Politics. (3:3:0)
DESCRIPTION: Processes of change and development of nation states; African regionalism and relations with other nations; contemporary political issues.

PL SC 353 : China: Government and Politics. (3:3:0)
DESCRIPTION: Structure and behavior of politics; contemporary problems.

PL SC 354 : Japan: Government and Politics. (3:3:0)
DESCRIPTION: Structure and behavior of politics; contemporary problems.

PL SC 355 : Canadian Government and Politics. (3:3:0)
DESCRIPTION: Growth and development of Canada and its government; Canada's role in the contemporary world

PL SC 357 : Middle East: Political Systems. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Social, philosophical, and religious impact on Middle East political institutions in an era of modernization and conflict.

PL SC 358 : Politics and Society in Latin America. (3:3:0)
PREREQUISITE: Pl Sc 200 or Lt Am 211.
DESCRIPTION: Conceptual and contemporary issues in Latin America's search for political order and economic

development.

8. Complete a foreign language proficiency: Students are to complete one language at a specified level with all attendant prerequisites. Some prerequisites may be waived depending upon previous language experience. The specific requirements for each language are listed on a separate sheet available from the International and Area Studies Advisement Office or the international relations coordinator.

9. Specializations: Complete one of the following tracks (no double-counting of major courses allowed):
   a. International Politics

Complete four courses from the following. At least one course must be from history and at least one course from political science.

ANTHR 432 : Economic and Political Institutions. (3:3:0)
OFFERED: W
DESCRIPTION: Connections between wealth and power: political and legal systems in state and nonstate societies; expansion of capitalism and technology into remote global regions.

COMMS 381 : International Media Systems. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Communications or international relations major or minor status.
DESCRIPTION: Comparison of media systems in countries and regions outside the United States. Includes media systems analysis, normative theories of the media, and cultural values and norms.

COMMS 382 : Issues in Global Communication. (3:3:0)
OFFERED: Alternate semesters.
PREREQUISITE: Communications or international relations major or minor status.
DESCRIPTION: Issues relating to communicating in a global village. Includes global information and policy, cultural imperialism, intercultural interaction, and multinational communication strategies.

DESCRIPTION: Complex history of the varied nations of this vast area: religion, colonialism, nationalism, independence.

PL SC 348 : Korea, Taiwan, and South East Asian Politics. (3:3:0)
DESCRIPTION: Comparative analysis of political developments in key nations of East and Southeast Asia, including regional relationships.

PL SC 353 : China: Government and Politics. (3:3:0)
DESCRIPTION: Structure and behavior of politics; contemporary problems.

PL SC 354 : Japan: Government and Politics. (3:3:0)
DESCRIPTION: Structure and behavior of politics; contemporary problems.

PL SC 385 : International Relations of Asia. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Foreign policies and international relations of China, Japan, and Northeast and Southeast Asia; historical and contemporary review and analysis.

PL SC 386 : Japanese Foreign Policy. (3:3:0)
DESCRIPTION: Process and outcomes of Japan's foreign policy; analysis of its relations with other nations in a historical and contemporary setting.

PL SC 388 : Chinese Foreign Policy. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Structure and process of foreign policy of the People's Republic of China.

d. Latin American Politics and History

Complete four courses from the following. At least one course must be from political science and one course from history. Students cannot count both Hist 359 and Pl Sc 380.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

HIST 252 : Modern Latin America. (3:3:0)
OFFERED: F, W
DESCRIPTION: National period (1810 to present): independence, institutional development, culture, and inter-American relations.

HIST 355 : History of Argentina. (3:3:0)
OFFERED: F odd years.
DESCRIPTION: Rise of modern Argentina from colonial times, focusing on the dynamic political, economic, social, and cultural developments since independence.

HIST 356 : Brazil. (3:3:0)
OFFERED: W even years.
DESCRIPTION: From 1500 to present, emphasizing relationship between colonial patterns and twentieth-century reality and dilatory transformation of Brazil's political and economic culture.

HIST 358 : Gender and History in Latin America. (3:3:0)
DESCRIPTION: How gender roles have been defined legally, socially, and culturally in Latin America from the colonial period to the present, emphasizing the nineteenth and twentieth centuries.

PL SC 358 : Politics and Society in Latin America. (3:3:0)
PREREQUISITE: Pl Sc 200 or Lt Am 211.
DESCRIPTION: Conceptual and contemporary issues in Latin America's search for political order and economic development.

PL SC 380 : International Relations of Latin America. (3:3:0)
PREREQUISITE: Pl Sc 200 or Lt Am 211.
DESCRIPTION: Factors that affect foreign relations of Latin American countries, including the U.S. role, emphasizing intervention, democracy, development, and trade.

SOC 335 : Social Change and Modernization in Latin America. (3:3:0)
DESCRIPTION: Contemporary changes in the social institutions and cultures as related to the modernization process.

e. Middle Eastern Politics and History

Complete four courses from at least two disciplines. At least one course must be from history.

ANTHR 340 : Peoples of the Middle East. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Ecology, social organization, and beliefs of nomadic, rural, and urban groups between western Africa and Pakistan.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

HIST 240 : Middle East History to 1800. (3:3:0)
OFFERED: F
DESCRIPTION: History of the Middle East from the rise of of Islam until 1800.

HIST 241 : Middle East History from 1800. (3:3:0)
OFFERED: W
DESCRIPTION: History of the Middle East in the modern period form 1800; rise of nation states, relationship with West, role of Islam.

HIST 244 : Jewish History: A.D. 70 to the Present. (3:3:0)
OFFERED: F even years.
DESCRIPTION: Jewish diaspora, Jewish life in Moslem and Christian countries; Jewish religious movements; development of Zionism; Jewish communities in modern Israel and the United States.

MESA 350 : Islam in Contemporary Society. (3:3:0)
OFFERED: W
DESCRIPTION: Islam in modern society: doctrine, practices, institutions, approaches to the challenges of modern life; the rise of fundamentalism.

PL SC 357 : Middle East: Political Systems. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Social, philosophical, and religious impact on Middle East political institutions in an era of modernization and conflict.

PL SC 381 : International Relations of the Middle East. (3:3:0)
DESCRIPTION: Interregional relations and conflicts, political economics, Arab nationalism, processes of political change, alliances, and superpower relations.

PL SC 452 : Islam and Politics. (3:3:0)
DESCRIPTION: Tensions and accommodations between religion and politics in Muslim nations.

PL SC 474 : Arab-Palestinian-Israeli Conflict. (3:3:0)
DESCRIPTION: Emphasizes historical background, current situation, and alternatives leading to conflict resolution.

Note: Hist 242 and 243 do not substitute here.

f. European Politics and History

Complete four courses from the following. At least one course must be from political science and one course from history.

GEOG 260 : Europe. (3:3:0)
OFFERED: F
DESCRIPTION: Systematic approach to physical base, social and political problems, economic issues, and regional summary.

GEOG 265 : Russia and the Former Soviet Union. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Physical features, resources, political issues, economy and industries, population concerns, and role in world affairs.

HIST 307 : Europe Since 1914. (3:3:0)
OFFERED: W
DESCRIPTION: International affairs and political and economic history of major European countries (including Russia) from World War I to the present.

HIST 310 : European Economic History. (3:3:0)
OFFERED: W odd years.

DESCRIPTION: Microeconomic analysis of why nations trade, who wins and loses from trade, and the costs and benefits of various trade policies.

ECON 459 : International Monetary Theory. (3:3:0)
PREREQUISITE: Econ 380, 381, 388.
DESCRIPTION: Monetary and macroeconomic aspects of international relations dealing primarily with short-run balance-of-payments disequilibrium and adjustments.

GEOG 255 : Middle and South America. (3:3:0)
OFFERED: W
DESCRIPTION: Environmental, cultural, economic, and political parameters of Latin American societies.

GEOG 271 : Middle East. (3:3:0)
OFFERED: F
DESCRIPTION: Physical and cultural geography of Southwest Asia and North Africa, emphasizing the cultural mosaic, geopolitics, environment, and resources of the region.

GEOG 272 : East Asia. (3:3:0)
OFFERED: W
DESCRIPTION: Region of monsoon Asia and its basic human (demographics, nations and ethnic groups, settlement patterns, religious beliefs, transportation and communication systems, political structures), and physical geographic characteristics (land forms,

physiography, climatic characteristics, and natural resources).

GEOG 273 : Southeast Asia. (3:3.0:0)
OFFERED: W on demand.
DESCRIPTION: Fundamental issues of geography relating to Southeast Asia, including the extraction and marketing of natural resources, economic development, neighborly relations, and how diffusion has influenced the unique cultural, religious, and linguistic characteristics of the region.

GEOG 285 : Environment and Development in Africa. (3:3:0)
OFFERED: W
DESCRIPTION: Geographical analysis focusing on resource management, political issues, development, environmental problems, economic development, and urban-rural change; case studies from selected countries.

PL SC 357 : Middle East: Political Systems. (3:3:0)
OFFERED: On demand.
DESCRIPTION: Social, philosophical, and religious impact on Middle East political institutions in an era of modernization and conflict.

PL SC 358 : Politics and Society in Latin America. (3:3:0)
PREREQUISITE: Pl Sc 200 or Lt Am 211.
DESCRIPTION: Conceptual and contemporary issues in Latin America's search for political order and economic development.

PL SC 444 : The Political Economy of Development. (3:3:0)
OFFERED: On demand.
RECOMMENDED: Econ 110, PlSc 200.
DESCRIPTION: Political foundations of growth, providing public goods, and political reform in developing countries. Development and how institutions and culture shape it.

PL SC 452 : Islam and Politics. (3:3:0)
DESCRIPTION: Tensions and accommodations between religion and politics in Muslim nations.

PL SC 472 : International Political Economy of Women. (3:3:0)
OFFERED: On demand.
RECOMMENDED: PlSc 200 or Hist 200.
DESCRIPTION: Effects upon national, international, and developmental policies when women are rendered visible and valued.

With the prior approval of the international relations coordinator, a maximum of 3 hours of IR 398R, 399R, or IAS 351R may be used toward meeting the four-course requirement of specialization. Only the second semester of IAS 351R would be allowed.

10. Complete a capstone research experience in one of the following ways:

ASIAN 495 : Senior Seminar. (1-3:Arr:0)
OFFERED: F, W, Sp, Su
PREREQUISITE: Asian studies coordinator's consent.
DESCRIPTION: Learning research and writing skills necessary to prepare and present major senior research paper.

IR 398R : Directed International Study. (1-3:Arr:0.0)
PREREQUISITE: Instructor's consent; international relations major coordinator's consent.
DESCRIPTION: Study and research in an international setting.

(requires prior approval of the international relations coordinator)

IR 399R : Academic Internship: International. (.5-12:0:0)
PREREQUISITE: Acceptance into program; international relations major coordinator's consent.
DESCRIPTION: Individualized work or volunteer experience in an international setting.
NOTE: Must be coordinated through International Study Programs.

(requires prior approval of the international relations coordinator)

LT AM 495 : Senior Seminar in Latin American Studies. (3:3:0)
PREREQUISITE: instructor's consent for minors.
DESCRIPTION: Sources, materials, and methods of research and writing; critical analysis of a research project.
NOTE: Required for all Latin American Studies majors their senior year.

MESA 495 : Senior Seminar in Middle East Studies. (3:3:0)

OFFERED: W
PREREQUISITE: Advanced Arabic Study Abroad; Arab 300, 302, 311R, 331; Pl Sc 200.
DESCRIPTION: Capstone course, including major research paper demonstrating ability to integrate cross-disciplinary information and methodology.

PL SC 450 : Capstone Seminar in Comparative Politics. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 150, 200.
DESCRIPTION: Seminar in comparative politics and government for students in their senior year.
NOTE: For political science majors only.

PL SC 470 : Capstone Seminar in International Relations. (3:3:0)
OFFERED: F, W; Sp and Su on demand.
PREREQUISITE: PlSc 170, 200.
DESCRIPTION: Seminar in international relations and politics for students in their senior year.
NOTE: For political science majors only.

Note 1: Only MESA 495, Pl Sc 450, or 470 can fill the GE Advanced Written and Oral Communication requirement when coupled with Pl Sc 200.

Note 2: For students in the relevant specialization, Asian 495, Lt Am 495, and MESA 495R will satisfy the capstone requirement.

Note 3: It is possible to fulfill the capstone requirement by completing a substantial research paper in an internship, Study Abroad, or other setting. Students who wish to do this must meet the requirements listed on the International Relations Web site, http://kennedy.byu.edu/academic/internationalrelations/index.html, and receive *prior* approval of the IR coordinator.

Note 4: Students majoring in international relations may not pursue a double major in either economics or political science because of the course overlap between international relations and those majors. For the same reason neither may students majoring in international relations minor in either economics or political science.

Recommended

Either Hist 201, 202
Or Pl Sc 201, 202.

Rel C 351.

*Hours include courses that may fulfill university core requirements.

Latin American Studies

The Discipline

Designed to give a rich background in the languages, culture, and conditions of Latin America, the Latin American Studies program provides a multidisciplinary approach to university education. Courses from BYU's various academic departments (anthropology, Spanish and Portuguese, political science, geography, sociology, history, etc.) teach skills in perceptive reading, analytical thinking, and clear and forceful writing, as well as provide in-depth understanding of Latin American cultures, languages, and history.

Students are invited to consult with the director of undergraduate studies regarding selection of classes.

Career Opportunities

Excellent career opportunities exist for those who prepare well in Latin American Studies. The degree offers a broad, general background in the liberal arts, and graduates are well prepared for careers in government, private industry, nonprofit organizations, some domestic and foreign teaching opportunities, the Peace Corps, the military, and other professions in which an understanding and appreciation of Latin America are required. Many graduates go into law, medicine, business, journalism, editing, advertising, etc. Others have had success in government, such as working for the State Department, immigration, the FBI, and other agencies.

Students are encouraged to take a double major or at least a strong minor in a single academic discipline to enhance their career objectives. The combination of another discipline and Latin American Studies makes the student attractive to employers desiring specific job skills as well as cultural understanding and appreciation.

General Information

Foreign Experience. Latin American Studies students are strongly encouraged to participate in Study Abroad programs in Mexico or Chile, in an internship program somewhere in Latin America, or in department-sponsored research in the area.

BA in Ancient Near Eastern Studies (61–62 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Ancient Near Eastern Studies deals with the history, literature, religions, and cultures of the ancient Near East from 3000 B.C. to A.D. 640. It involves study in the humanities, social sciences, and ancient scripture. Geographically the ancient Near East consists of the region currently designated the Middle East. The Ancient Near Eastern Studies major is structured to provide students with a broad understanding of the civilizations of the ancient Near East and to emphasize the study of the Hebrew Bible and related literature or the Greek New Testament and related literature in their broader ancient Near Eastern context.

Career Opportunities

The Ancient Near Eastern Studies major prepares students to pursue graduate work and an academic career in all areas of biblical and ancient Near Eastern studies. Ancient Near Eastern Studies, with its emphasis on critical reading, thinking, and writing skills, also provides quality training for students entering professional or library science programs. Additionally, an Ancient Near Eastern Studies degree offers relevant preparation for students seeking to teach seminary and institute in the Church Educational System.

Program Requirements | View MAP

1. Complete the following core courses:

ANES 201 : Introduction to Ancient Near Eastern Studies. (3:3:0)
- OFFERED: F
- DESCRIPTION: Historical background, research skills, and methods of academic inquiry relevant to ancient Near Eastern Studies.

BA in Middle East Studies/Arabic (53–61 hours*)

Show All Course Descriptions
Hide All Course Descriptions

The Discipline

Middle East Studies examines the Arabic-, Turkish-, and Persian-speaking peoples and countries of the Middle East from a variety of perspectives. The region itself provides the focus, but historians, political scientists, anthropologists, economists, geographers, linguists, art historians, and literary and religious scholars all provide important insights into the area, each from the context of their own discipline. Undergirding all of these perspectives is linguistic skill in Arabic, through which access to original sources, press analyses, and native speakers is possible. Middle East Studies as a whole tries to integrate these insights and to provide analysis and understanding that go beyond any single discipline.

Career Opportunities

The Middle East Studies/Arabic major aims specifically to prepare students to work as analysts and experts on the Middle East for government agencies, businesses, and other organizations. Linguistic skill in Arabic, as well as a solid understanding of the history, politics, and culture of the region is vital to these agencies, many of them desperate for real expertise and language ability. With its integrated, interdisciplinary focus on a single region and a strong emphasis on acquiring a usable knowledge of Arabic, it is also a good liberal arts major for students planning a career in law, medicine, or business in general—in fact, any field where a broad understanding and finely honed analytical and writing skills are valued.

Program Requirements | View MAP

1. Complete the following prerequisite courses (may be waived for students with appropriate language experience):

   ARAB 101 : First-Year Arabic. (4:5:0)
   OFFERED: F, W, Sp, Su
   DESCRIPTION: Basic skills of spoken and written Arabic.
   NOTE: Suggested first class for students learning Arabic.

   ARAB 102 : First-Year Arabic. (4:5:0)
   OFFERED: W, Sp, Su
   PREREQUISITE: Arab 101.
   DESCRIPTION: Second-semester Arabic. Basic language skills, both spoken and written.

2. Complete the following language requirement:

   ARAB 201 : Second-Year Arabic. (4:5:0)
   OFFERED: F, Su
   PREREQUISITE: Arab 102 or equivalent experience.
   DESCRIPTION: Significantly expanding proficiency in Modern Standard Arabic and increasing conversational repertoire.

   ARAB 202 : Intermediate Arabic. (4:5:0)
   OFFERED: W, Su
   PREREQUISITE: Arab 201 or equivalent experience.
   DESCRIPTION: Continuation of Arab 201.

   ARAB 211R : Second-Year Conversation. (2:2:0)
   OFFERED: Sp, Su; Study Abroad only.
   PREREQUISITE: Arab 202 or equivalent experience.
   DESCRIPTION: Intermediate spoken Arabic.

   ARAB 300 : Advanced Modern Standard Arabic. (4:5:0)
